### Delay in issuance / submission of Accounts:

During the previous years, an enquiry against the Company's sponsors / directors and its shareholders along with other group companies had been initiated by the Federal Investigation Agency (FIA). Further, the matter was transferred to National Accountability Bureau (NAB) and we understand the Financial Institutions had blocked all Company bank accounts on a notice of NAB under section 23 of National Accountability Ordinance 1999 (NAO) on allegation of illicit transactions. However, it is pertinent to mention here that the action of blocking of account was not endorsed by Court of competent jurisdiction.

As a consequence, Company's access to available funds / legitimate sales proceeds and banking facilities were denied on the unjustified and arbitrary instructions of NAB, without realizing the consequences. Resultantly, the Company was forced to default on its dues including payments of banks' instalments, salaries, growers' and vendors', etc.

It is pertinent to note that the JIT, constituted under orders of the Supreme Court of Pakistan thoroughly investigated the entire Group Accounts maintained with all banks and that no charge has been established till yet. Despite all the ordeal no case have been filled against the Company.

Henceforth, after the amendment of NAB Ordinance, the bank accounts of the Company have been unfrozen and we are in coordination with all the stakeholders owing debt and other liabilities to move forward amicably.

It is pertinent to mention here that besides all the pressures of liquidity crises, risk and uncertain business environment, the Company took the initiative to carry on its business activities in extreme difficult situation with all possible efforts, making the necessary financial arrangements on personal basis by the sponsoring directors to ensure the going concern of the Company and by the collective efforts of the entire team of Ansari Sugar Mills Limited, we are through of the precarious conditions successfully by the grace of Almighty (Alhamdulillah).

# Future Outlook:

# Diversifying Revenue Streams:

The Company is focused to attain better energy efficiency mix and planning Balancing, Modernization and Replacement (BMR) accordingly, which will improve the revenue streams through sale of by-products of the company i.e. bagasse and molasses.

# Sugarcane Cultivation Prospects:

The Company recognizes that the growth and sustainability in the sugar industry is also dependent on access to a growing volume of sugar cane, particularly from within existing areas of supply. The key here lies in long-term engagement with farmers, demonstrating the use of superior cane varieties (higher yield and hence higher income), timely growing support (provision of seeds, fertilizers and farming inputs) so as to convince them to plant more cane to ensure increased productivity and quality.

Moreover, where heavy rainfall and resultant flash floods have an adverse effect on the agriculture, sugarcane due to its robust nature manages to stay afloat. We expect that harvesting will remain optimum and mills will have enough sugarcane for crushing throughout the next season.

### Government Policy:

Ansari Sugar Mills foresee bumper crushing of sugarcane as evidenced by increased production of sugarcane over last 2 to 3 years. As the Federal government regulates the export of sugar, we anticipate that the supply and demand balance will improve over the next year, and that domestic production will meet the country's sugar demands while creating an export surplus on sugar and ethanol. Thus, timely export permission from Federal government would be of critical importance as it would not only help industry to clear the surplus on improved price but would also stabilize the local market as well. The Government is also contemplating on allowing export as a permanent feature rather than allocating on quota basis which will allow us to fetch good prices on our stocks in international market.

### Working Capital:

We are in advanced level of negotiations with our bankers to restructure our debts which will improve our position on retained stocks, refraining ourselves into forced sales and allowing us to fetch better price during off-season as currently due to lack of working capital lines, almost 100% of our stock is sold during the crushing season to meet the working capital.

In the background of preceding paras your management anticipate a turnaround of the sugar industry and accordingly have mobilized all the resources at its disposal to generate huge volumes during the ongoing and upcoming seasons over the next 5 years.

The season in terms of cane supply, recovery and plant capacity utilization is extremely favorable. Ansari Sugar Mills being a large plant will be able to capitalize and procure and crush maximum cane in the next season.

### Acknowledgement

We express our sincerest appreciation to our employees for their dedication and hard work and to our clients, business partners and shareholders for the support and confidence. The board also take this opportunity to express its gratitude to all the employees of Ansari Sugar Mill Limited for their untiring efforts.
