Q&A

The background features a low-angle shot of several modern glass skyscrapers reaching towards a blue sky with light clouds. A large, solid orange diagonal stripe runs from the top left towards the center. A white geometric shape, resembling a large triangle or a stylized 'A', is overlaid on the right side of the image, with its top vertex pointing towards the top right and its base extending towards the bottom right.

Investment Highlights / Value Propositions

Digital, data & AI, & cloud

We elevate possibilities and unlock new growth horizons through innovation, digital, data, AI, and cloud capabilities.

Emerging technologies

We amplify human possibilities through generative AI and deliver business and technical solutions leveraging Metaverse, AI/ML, AR/VR, etc.

Growth

Our innovative solutions and strategic prowess propel you towards unparalleled success, ensuring both rapid financial ascent and commanding market leadership.

Global presence

Leveraging our core engineering strength to accelerate digital transformation and empower enterprises, we operate in 16+ countries.

Domain expertise

We possess a formidable array of accelerators and business solutions meticulously designed to harness the full potential of our core engineering.

Recurring revenue

Through our unwavering commitment to delivering value, we have cultivated enduring relationships with our customers.

Employee ownership

At the heart of our success is a solid foundation of employee ownership as our employees are vested stakeholders, driving our collective vision with unparalleled dedication.

Insight-driven

We are insights-driven, user-centric, systematically tested, and have a financially impactful delivery model that delivers projects with immediate, substantial, and sustainable impact on customers' bottom line.

Consulting

With a keen eye on market dynamics and a wealth of strategic insights, our consultants guide you towards greater levels of achievement, ensuring your business thrives in today's dynamic landscape.

Global Delivery Model

Our talent pool is characterized by its **global diversity** and **inclusivity**.

We take great pride in our workforce, recognizing them as our greatest asset. This fuels our commitment to nurturing a collective of highly educated IT professionals that is not only diverse and inclusive but also continually expanding.

The rise of AI

Impact

- 

Transition from growth to scalability
- 

Unit-level productivity enhancing overall organizational performance
- 

Reduced contextual dependence fuels innovation
- 

Increased efficiency and reduced cost

Emerging tech bring novel challenges

- 

Algorithm-driven enterprises require greater transparency and ethics
- 

Customers, inspired by GDPR, now want insight into how systems make decisions, driving the growth of Explainable AI (XAI) for transparency and bias mitigation

GenAI in action: Systems Limited's use cases

Financial Institutions

AI Use Case and Regulation Mapper

Using Gen AI, AML regulations can be mapped with the available data thus proactively highlighting red flags and providing resolutions.

Customer Service Agent

Customer interaction agent for general queries about services and products but also able to Xsell and upsell the banking products. Gen AI agents also can route human interaction to the most suitable representative for the customer to resolve problems or close the deal.

Customer Persona and Intelligent PFM

Using GEN AI to create customer persona and deliver relevant suggestions and offers to personal finance manager.

Telecom

Generate a Business model canvas and a new strategy to diversify the revenue lines and data monetization

Using Gen AI with considerations like region, competition, and other factors Gen AI can generate a Business model canvas for the company including approaches, requirements, revenue lines, and pricing strategies. This can be achieved by accumulating best practices globally with mapping of the local environment.

Customer Service Agent

Customer interaction agent for general queries about services and products but also able to Xsell and upsell the Telco products. Gen AI agents also can route human interaction to the most suitable representative for the customer to resolve problems or close the deal.

Financial Inclusion

In the case of financial inclusion, Gen AI can map regulator requirements and identify potential gaps between actual practice and regulations.

FMCGs

Smart Product Positioning Maps

Gen AI converts online data to actionable insights that ensure the products stand out in comparison to its competitors

Personalized Recommendations for consumers

GenAI can help provide customized suggestions for consumers according to their unique needs.

How do we differentiate ourselves

Employer of choice

We attract and have access to the best and most diversified top talent.

Optimally scaled and skilled

We provide a personalized and laser-focus approach to our customers, regardless of their scale.

Employee ownership

Our values are shaped by our employees, and they help create a unique culture and a successful business approach, resulting in continued digital excellence.

Customer longevity

Most of our clients have been with us for decades, and this highly reflects our quality and timely delivery, and exceptional customer engagement.

recurring revenue from existing customers **93%**

Top 5 of our customers have been with us for over 5 years

Pillars of our strategic plan

Skills and service offerings

Strong focus on building AI competency by building and developing a resource pool. The Company is also developing AI offerings for the BFS, Telco and Retail/CPG verticals.

Verticalization and Business Development

The Company has divided business development and delivery in 3 key verticals

BFS	Merging all core and non-core banking services under one-roof. Focusing to capitalize on the existing customer base by cross selling and upselling
Telco	<ul style="list-style-type: none"> - Increased focus on Digital Business Solution Services (BSS) - Market specific solutions and frameworks
Growth	All other services under 3 rd vertical serving public sector, pharma, retail , healthcare etc

Geographies & Inorganic Growth

Over the past couple of years, the Company has made significant investment in expanding into new markets and geographies. The Company is now working on maximizing the return on those investments.

Creating management structures that enable us to grow and perpetuate through Mergers & Acquisitions

Investment Priorities

Continued Profit Improvement, Healthy Cash Flow

- Strong cash flow generation allows attractive dividend payout, and flexibility for investment opportunities.
- Systems Limited has a history of investing its cash flow for the future growth. The current healthy cash flow position provides the company with an opportunity to re-imagine and re-think everything to touch new heights.
- The Company is also focusing on inorganic growth through acquisition with the focus of increasing export revenue. Evaluating businesses aligned with strategy, structure and culture of the company

- **Investment in talent**
- **Diversification of talent pool among different locations**
- **Mergers & Acquisitions**
- **Strengthening current geographies**
- **New service offerings**
