Directors' Review

On behalf of the Board of Directors, we are pleased to present the unconsolidated condensed interim financial statements of Bank Alfalah Limited for the quarter ended March 31, 2025.

Economic Review

The first quarter reflected continued economic stability. Pakistan's engagement with IMF witnessed development as a staff- level agreement was reached with IMF on the first review of the USD 7 billion 37-month Extended Fund Facility (EFF). Simultaneously, a new 28-month arrangement under the IMF's Resilience and Sustainability Facility (RSF) was also reached with total access over the 28 months of around USD 1.3 billion.

Foreign exchange reserves held by the State Bank of Pakistan (SBP) declined to USD 10.7 billion from USD 11.7 billion in December 2024, primarily due to external debt repayments. SBP attributes the decline to a temporary timing mismatch between external inflows and outflows, and projects that reserves would rise to USD 13 billion by June 2025. Meanwhile, the current account position remained stable, supported by robust growth in remittances. However, as economic activity has gained momentum, the current account has turned into a deficit as compared to a surplus in Q4 2024 due to rising import demand.

The rupee remained largely steady, depreciating only 0.57% to PKR 280.16/USD as of March 31, 2025, compared to PKR 278.55/USD at the end of December 2024. Headline inflation continued to ease off, slowing to 0.7% in March 2025 as compared to 4.1% at December 2024. However, core inflation remained elevated at around 9.0%. SBP maintained the policy rates at 12%, considering the stickier core inflation, and ongoing global uncertainty amidst tariff escalations.

In terms of Pakistan's economic activity, real GDP grew by 1.73% in Q2 FY 25, following a revised growth of 1.34% in Q1 FY 25. Agriculture and service sectors continue to support economic expansion, while industrial recovery remains a challenge. In 2QFY25, the agriculture sector posted a growth of 1.10%YoY and services expanded by 2.57%YoY. However, Large-Scale Manufacturing (LSM)

contracted during the first half of FY 25 by 0.18%. With this, GDP growth for 1HFY25 stood at 1.54%YoY.

During 1HFY25, the fiscal performance showed positive trends. FBR tax collection increased by 25.9% YoY to PKR 5.6 trillion in 1HFY25. The overall fiscal deficit reduced to 1.2% of GDP as compared to 2.3% of GDP in corresponding period last year due to higher non-tax revenues and contained expenditures. The primary surplus also improved to 2.9% of GDP as compared to 1.7% of GDP last year.

After witnessing a bull run since June 2023, the stock market saw a consolidation phase. In the first quarter of calendar year 2025 (1QCY25), the KSE-100 index experienced a modest increase of 2.3%, closing at 117,807 points. Staff-Level Agreement (SLA) with the IMF, in addition to the government's circular debt resolution plan were major contributors to this performance.

Going forward, the IMF board approval would be critical in improving FX reserves and maintaining macroeconomic stability. The programme would also pave way for a potential ratings upgrade, which would open commercial borrowing avenues for the country. Strengthening external buffers and pursuing structural fiscal reforms particularly to broaden the tax base remain essential to sustaining macroeconomic resilience in an increasingly uncertain global environment. At the same time, ongoing tariff escalations can lead to inflationary pressures and disrupt industrial activity, making it even more important to adopt a well-balanced policy approach.

Review of the Bank's Performance

Highlights of the Bank's financial results for the quarter ended March 31, 2025, are presented as follows:

Financial Position	March 31, 2025	December 31, 2024
	Rupees	in Millions
Shareholders' Equity	179,005	178,112
Total Assets	3,477,144	3,710,206
Deposits	2,018,645	2,136,913
Advances – net	881,779	1,109,376
Investments – net	1,983,385	1,991,232

Financial Performance	Quarter ended March 31, 2025	Quarter ended March 31, 2024 (Restated)
	Rupees	in Millions
Net Interest Income and Non-Markup Income	42,294	39,297
Non-Markup Expenses	27,378	19,811
Reversal of Credit loss allowance / Provisions and write offs (net)	(468)	(207)
Profit before tax (PBT)	15,384	19,693
Profit after tax (PAT)	7,040	9,903
Basic and diluted earnings per share – Rupees	4.46	6.28

Bank Alfalah recorded profit after tax (PAT) of PKR 7.04 billion for the first quarter ended March 31, 2025, with earnings per share of PKR 4.46 (March 2024: PKR 6.28). The Bank's profit before tax (PBT) of PKR 15.38 billion was 21.9% lower than the same period last year (SPLY); while PAT declined by 28.9% due to decline in interest rates and higher taxation.

Total Revenue for the first quarter was PKR 42.29 billion, representing a 7.6% increase over the SPLY. Net-Markup income of the Bank amounted PKR 33.2 billion, improving by 6.2% mainly on account of volumetric growth in current account averages, advances, and Bank's strategy to not compete for high-cost deposits resulting in improved cost of deposits vis-à-vis March 2024. On the Non-Funded side, the Bank generated income of PKR 9.1 billion with a growth of 13.3% over the SPLY. Higher gain on securities and significant rise in derivative income led towards improvement of NFI during the period. This was offset by 23.7% decline in Fee and Commission Income mainly because of Remittance income, Cards related fee, Acquiring fee and BISP commissions. These were impacted by pricing dynamics of these products in the market, which we expect will stabilize in subsequent quarters.

The Bank continued to open new branches, undertake technology enhancements as well as pursue other

initiatives. Further marketing costs related to remittance initiatives combined with inflation of last year led to higher operating costs during this period. In the last 12 months, the Bank opened more than 130 branches leading to enhanced customer acquisition and revenue growth. As a result, Bank's cost to income ratio was 63.8% for the quarter ended March 31, 2025. Bank maintained sharp focus on cost all the while promoting strategic initiatives.

Deposits remained above the 2 trillion mark and closed at Rs. 2.019 trillion. The strategic focus is to pursue current accounts and focus on building granular sticky deposits.

The gross advances book of the Bank was PKR 927.4 billion, with a 28.6% YoY growth. Bank was successful in its strategy to increase low risk corporate advances while focusing on consumer loans as interest rates are gradually becoming favorable.

Our pledge towards underwriting discipline and rigorous client selection processes have consistently shown results, as reflected in non-performing loan ratio of 4.4%. Non-performing loans remain fully covered with a coverage ratio of 113% (including general provision / expected credit loss (ECL)).

As at March 31, 2025, the Bank remains adequately capitalised with CAR at 17.64%.

Dividend

The Board of Directors, at its meeting held on April 17, 2025, declared an interim cash dividend of PKR 2.5 per share (25%) (2024: PKR 2.00 per share (20%)) for the quarter ended March 31, 2025.

Credit Rating

The Bank has been assigned the following ratings by PACRA:

- Entity rating: 'AAA' (Triple A) for the long-term and maintained at 'A1+' (A-One Plus) for the short-term, with a 'Stable' Outlook.
- Instruments' rating: 'AA+' (Double A Plus), with a 'Stable' Outlook for Unsecured Tier 1 Capital instruments (Term Finance Certificates)

Future Outlook

Despite a challenging macroeconomic environment, Pakistan's economy has shown encouraging signs of stabilization in early 2025. The successful completion of the latest IMF program review signals the country's commitment to reforms and long-term recovery. Inflation has declined to its lowest level in nearly a decade, allowing the SBP to cautiously begin easing interest rates from previous record highs. These developments have helped restore some confidence and improve financial stability, providing a more supportive backdrop for the banking sector. However, ongoing tariff escalations may pose challenges and implications for the global economy as well as for Pakistan economy.

Building on this improving environment, Bank Alfalah remains well-positioned to achieve sustainable growth and create long-term shareholder value. We will continue to focus on expanding our deposit base - particularly through low-cost current and savings accounts - while enhancing domestic footprint to deliver exceptional, customer-centric services.

In line with our strategic priorities, the Bank will also continue to empower consumers and small and medium enterprises (SMEs) by extending tailored financing solutions and advisory support to foster entrepreneurship and financial inclusion. We are leveraging technological innovation to meet the evolving needs of our customers, accelerating our digital transformation to deliver seamless and secure financial services. Additionally, we are broadening our fee-based revenue streams by increasing trade finance volumes, strengthening supply chain financing capabilities, and deepening cash management penetration among corporate clients. These initiatives will drive diversified growth and reinforce our role in supporting Pakistan's trade and financial flows.

Our ethos of "One Bank, One Team" will continue to promote collaboration, creativity, and innovation across the organisation. Human capital development remains a top priority, ensuring we maintain a skilled, adaptable, and motivated workforce that can drive the Bank's strategic objectives. The Bank's culture of care aligns our initiatives with the United Nations Sustainable Development Goals as well as Pakistan's national development objectives, amplifying our impact through strengthened corporate social responsibility (CSR) and Environmental, Social, and Governance (ESG) practices. We remain committed to operating responsibly and sustainably, contributing positively to our communities and the broader economy.

In our pursuit of continuous improvement, Bank Alfalah will keep driving innovation and operational efficiency. We are investing in advanced analytics, automation, and artificial intelligence (AI) to streamline processes and enhance decision-making across various banking functions. These technological advancements, coupled with a commitment to prudent cost management, will further improve service quality and productivity. By embracing cutting-edge solutions and a customer-centric mindset, the Bank aims to lead the industry's digital transformation and remain adaptive to emerging trends, cementing our position as a forward-looking, resilient institution.

Acknowledgement

On behalf of the Board, we would like to thank the State Bank of Pakistan, the Securities and Exchange Commission of Pakistan, the Ministry of Finance and other regulatory authorities for their valuable counsel and guidance. At the same time, we would like to acknowledge the ongoing support of our shareholders, our customers and business partners.

Over the years, we have laid the foundations to deliver great value and service to our customers and all stakeholders. As we move forward, we shall remain focused on service and playing a key role in supporting economic recovery. While pursuing this, we will remain conscientious of our obligations to our employees and the local community, and our dedication to delivering returns to our shareholders.

ڈائریکٹرز کا جائزہ

بینک الفلاح لمیٹڈ کے بورڈ آف ڈائریکٹرز کی جانب سے ہم انتہائی مسرت کے ساتھ ۱۳مارچ ۲۰۲۵ کو ختم ہونے والی سه ماہی کے لیے بینک کے غیر مجموعی، مختصر عبوری مالیاتی گوشوارے پیش کررہے ہیں۔

معاشي جائزه

پہلی سه ماہی میں معاشی استحکام برقرار رہا۔ پاکستان اور بین الاقوامی مالیاتی فنڈ (IMF) کے درمیان 2 ارب امریکی ڈالر کے ۲۷ ماہ کے توسیعی فنڈ سہولت (EFF) پروگرام کے پہلے جائزے پر عملے کی سطح پر معاہدہ طے پایا۔ ساتھ ہی، IMF کے نئے ۲۸ ماہ کے "لچکدار اور پائیدار سہولت" (RSF) کے تحت بھی ایک معاہدہ طے پایا، جس کے تحت پاکستان ۱،۲ ارب امریکی ڈالر تک رسائی حاصل کر سکے گا۔

اسٹیٹ بینک آف پاکستان کے زرمبادلہ کے ذخائر دسمبر۲۰۲۳ میں۱۱۱ ارب ڈالر سے ٹی وجہ سے کہ ہو کر مارچ ۲۰۲۵ کے اختتام تک ۱۰،۷ ارب ڈالر رہ گئے، جس کی بڑی وجہ بیرونی قرضوں کی ادائیگی تھی۔ اسٹیٹ بینک نے اس کمی کو وقتی آمد و خرچ کے فرق کا نتیجہ قرار دیا ہے اور اندازہ ظاہر کیا ہے کہ جون ۲۰۲۵ تک ذخائر ۱۳ ارب ڈالر تک پہنچ جائیں گے۔ تاہم، ترسیلات زر میں مضبوط اضافہ کرنٹ اکاؤنٹس کو سہارا دیتا رہا۔ در آمدات کی طلب میں اضافے کے باعث اقتصادی سرگرمیوں میں تیزی آئی، جس کی وجہ سے کرنٹ اکاؤنٹس خسارے میں تبدیل ہو گیا، جبکہ ۲۰۲۳ کی چوتھی سہ ماہی میں یہ سرپلس میں تھا۔

روپیه مجموعی طور پر مستحکم رہا اور صرف ۰،۵۷ فیصد کی معمولی کمی کے ساتھ ۳ مارچ ۲۰۲۹ تک امریکی ڈالر کے مقابلے میں ۲۰۰۱ پاکستانی روپیه ۲۷۸٬۵۵ پر پر بند ہوا، جبکه دسمبر ۲۰۲۳ کے اختتام پر یه پاکستانی روپیه ۲۷۸٬۵۵ امریکی ڈالر تھا۔ افراطِ زر میں کمی کا رجحان جاری رہا، جو دسمبر ۲۰۲۳ میں ۱٬۳ فیصد کے مقابلے میں مارچ ۲۰۲۵ میں کم ہو کر ۱٬۰۵ فیصد رہ گئی۔ تاہم، بنیادی افراطِ زر اب بھی بلند سطح پر برقرار ہے اور تقریباً ۹۰۰ فیصد کے آس پاس ہے۔بنیادی افراطِ زر کی مستقل بلند سطح اور عالمی سطح پر جاری غیر یقینی صورتحال (خصوصاً تجارتی محصولات میں اضافے) کے پیش نظر، اسٹیٹ بینک آف پاکستان نے پالیسی شرح سود کو ۱۲ فیصد پر برقرار رکھا۔

پاکستان کی معاشی سرگرمی کے لحاظ سے مالی سال ۲۰۲۵ کی دوسری سه ماہی میں حقیقی جی ڈی ہی میں ۱٬۵۳ فیصد اضافہ ہوا، جبکہ پہلی سه ماہی کی نظرشانی شدہ شرح نمو ۱٬۵۳ فیصد رہی۔زرعی اور خدمات کے شعبے معیشت کی وسعت میں اپنا مثبت کردار ادا کر رہے ہیں، جبکه صنعتی شعبے کی بحالی بدستور ایک چیلنج بنی ہوئی ہے۔مالی سال ۲۰۲۵ کی دوسری سه ماہی میں زرعی شعبے نے سال به سال ۱٬۱۰ فیصد اضافه ریکارڈ کیا، جبکه خدمات کا شعبه ۲٬۵۷ فیصد کی شرح سے بڑھا۔ دوسری جانب، بڑی صنعتوں خدمات کا شعبه ۲٬۵۷ کی پہلی ششماہی میں ۱٬۱۸ فیصد سے کم ہوئی۔اس کے ساتھ، مالی سال ۲۰۲۵ کی پہلی ششماہی کے لیے مجموعی جی ہوئی۔ی میں سالانه بنیاد پر ۱۵۳ کی پہلی ششماہی کے لیے مجموعی جی ڈی پی میں سالانه بنیاد پر ۱۵۳ فیصد اضافه ریکارڈ کیا گیا۔

مالی سال ۲۰۲۵ کی پہلی ششماہی کے دوران مالی کارکردگی مثبت رجحانات کی

عکاسی کرتی رہی۔ فیڈرل بورڈ آف ریونیوکی ٹیکس وصولی میں سال به سال ۲۵،۹ فیصد اضافه ہوا، جومالی سال ۲۰۲۰ کی پہلی ششماہی میں بڑھ کر ۵،۲ پاکستانی کھرب تک پہنچ گیا۔ مجموعی مالی خسارہ گزشته سال کی اسی مدت کے ۲۰۳ فیصد کے مقابلے میں کم ہو کر ۱۰۱ فیصد رہ گیا، جس کی وجه غیر ٹیکس آمدن میں اضافه اور اخراجات پر قابو پانا تھا۔اسی طرح، بنیادی سرپلس میں بھی بہتری آنی اور یه گزشته سال ۲۰۱ فیصد سے بڑھ کر ۲۰۹ فیصد ہو گیا۔

جون ۲۰۲۳ سے جاری تیزی کے رجحان کے بعد اسٹاک مارکیٹ میں استحکام دیکھنے میںآیا۔سال ۲۰۲۵ کی پہلی سه ماہی میں کے ایس ای-۱۰۰ انڈیکس میں کے ایس ای-۱۰۰ انڈیکس میں میں ۲،۳ فیصد کا معمولی اضافہ ریکارڈ ہوا اور یه ۱۱۷٬۸۰۷ پوائنٹس پر بند ہوا۔آئی ایم ایف کے ساتھ اسٹاف لیول معاہدہ اور حکومت کی سرکلر ڈیٹ کے حل کے لیے مجوزہ منصوبہ اس کارکردگی کے اہم محرکات میں شامل رہے۔

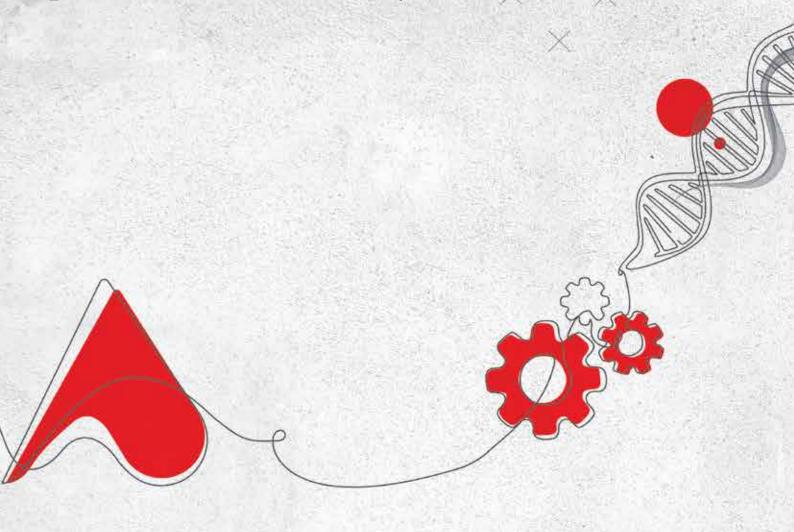

مستقبل کی جانب پیش قدمی کرتے ہوئے بین الاقوامی مالیاتی فنڈ (آنی ایم ایف) کی بورڈ سے منظوری زرمبادلہ کے ذخائر میں بہتری اور مجموعی معاشی استحکام کے لیے نہایت اہم ہوگی یہ پروگرام ممکنه طور پر ملک کی کریڈٹ ریڈنگ میں بہتری کا راستہ ہموار کرے گا جس سے پاکستان کے لیے کمرشل قرضه جات کے نئے مواقع پیدا ہوں گے بیرونی مالیاتی ذخائر کو مضبوط بنانا اور ساختی مالیاتی اصلاحات — خصوصاً ٹیکس نیٹ کو وسعت دینا — ایک غیر یقینی عالمی ماحول میں معاشی مزاحمت کو برقرار رکھنے کے لیے ناگزیر ہیں دوسری جانب، جاری تجارتی محصولات (ٹیرف) میں اضافه مہنگائی کے دباؤ کو جنم دے سکتا ہے اور صنعتی سرگرمیوں میں خلل ڈال سکتا ہے، جس کے پیش نظر ایک متوازن اور مدبر انه پالیسی اپنانا وقت کی اہم ضرورت بن چکی ہے۔

BASIS OF PRESENTATION 2

2.1 STATEMENT OF COMPLIANCE

These unconsolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard 34 "Interim Financial Reporting" and International Financial Reporting Standards (IFRS Accounting Standards) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan (ICAP) as are notified under the Companies Act, 2017;
- Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
- Directives issued by the SBP and the Securities and Exchange Commission of Pakistan (SECP).

Wherever the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of IFRS or IFAS, requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives have been followed.

The SBP has deferred the applicability of International Accounting Standard (IAS) 40, 'Investment Property' for banking companies through BSD Circular Letter No. 10 dated August 26, 2002 till further instructions. Further, the SECP has deferred the applicability of International Financial Reporting Standard (IFRS) 7, 'Financial Instruments: Disclosures' on banks through its notification S.R.O 411(I)/2008 dated April 28, 2008. The SBP through BPRD Circular No. 04 of 2015 dated February 25, 2015 had deferred the applicability of Islamic Financial Accounting Standard-3 for Profit and Loss Sharing on Deposits (IFAS-3) issued by the Institute of Chartered Accountants of Pakistan (ICAP) and notified by the SECP, vide their SRO No. 571 of 2013 dated June 12, 2013 for Institutions offering Islamic Financial Services (IIFS). Accordingly, the requirements of these standards have not been considered in the preparation of these unconsolidated condensed interim financial statements.

- 2.1.1 The disclosures made in these unconsolidated condensed interim financial statements have been limited based on the format prescribed by the SBP through BPRD Circular Letter No. 02 dated February 09, 2023 and the requirements of International Accounting Standard 34, "Interim Financial Reporting". These do not include all the information and disclosures required for annual financial statements, and therefore should be read in conjunction with the annual audited unconsolidated financial statements of the Bank for the year ended December 31, 2024.
- 2.1.2 These unconsolidated condensed interim financial statements represent separate financial statements of Bank Alfalah Limited in which investment in subsidiaries and associates are accounted for on the basis of cost less accumulated impairment losses, if any.
- Key financial figures of the Islamic Banking branches are disclosed in note 43 to these unconsolidated condensed interim financial 2.1.3
- The Bank believes that there is no significant doubt on the Bank's ability to continue as a going concern. Therefore, the unconsolidated condensed interim financial statements have been prepared on a going concern basis.
- 2.2 Standards, interpretations of and amendments to published accounting and reporting standards that are effective in the current period:

There are certain new and amended standards, issued by International Accounting Standards Board (IASB), interpretations and amendments that are mandatory for the Bank's accounting periods beginning on or after January 01, 2025 but are considered not relevant or do not have any material effect on the Bank's operations and are therefore not detailed in these unconsolidated condensed interim financial statements except for IFRS 9 (Financial Instruments), the impact of which is disclosed under note 4.1.

2.3 Standards, interpretations of and amendments to published accounting and reporting standards that are not yet effective:

There are certain new and amended standards, issued by International Accounting Standards Board (IASB), interpretations and amendments that are mandatory for the Bank's accounting periods beginning on or after January 01, 2025 but are considered not to be relevant or will not have any material effect on the Bank's financial statements except for:

- the new standard IFRS 18 Presentation and Disclosure in Financial Statements (IFRS 18) (published in April 2024) with applicability date of January 01, 2027 by IASB. IFRS 18 is yet to be adopted in Pakistan. IFRS 18 when adopted and applicable shall impact the presentation of 'Statement of Profit and Loss Account' with certain additional disclosures in the condensed interim in the unconsolidated financial statements.
- amendments to IFRS 9 'Financial Instruments' which clarify the date of recognition and derecognition of a financial asset or financial liability including settlement of liabilities through banking instruments and channels including electronic transfers.
 The amendment when applied may impact the timing of recognition and derecognition of financial liabilities.
- amendment to IAS 21 'The Effects of Changes in Foreign Exchange Rates' which will require Banks to apply a consistent
 approach in assessing whether a currency can be exchanged into another currency and, when it cannot, in determining the
 exchange rate to use and the disclosures to provide.

3 BASIS OF MEASUREMENT

3.1 Accounting convention

These unconsolidated condensed interim financial statements have been prepared under the historical cost convention except that certain property and equipment and non banking assets acquired in satisfaction of claims are stated at revalued amounts; investments classified at fair value through profit and loss and fair value through other comprehensive income; advances classified at fair value through profit and loss, foreign exchange contracts and derivative financial instruments are measured at fair value; defined benefit obligations are carried at present value; right of use of asset and related lease liability are measured at present value on initial recognition; and staff loans are measured at fair value on initial recognition.

3.2 Functional and presentation currency

These unconsolidated condensed interim financial statements are presented in Pakistani Rupees, which is the Bank's functional and presentation currency. The amounts are rounded off to the nearest thousand rupees except as stated otherwise.

4 MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies applied in the preparation of these unconsolidated condensed interim financial statements are consistent with those applied in the preparation of the annual audited unconsolidated financial statements of the Bank for the year ended December 31, 2024 except for changes mentioned in note 4.1.

4.1 IFRS 9 - 'Financial Instruments'

The Bank adopted IFRS 9 effective from January 01, 2024 with modified retrospective approach for restatement permitted under IFRS 9. The cumulative impact of initial application of Rs. 2,751.995 million was recorded as an adjustment to equity at the beginning of the previous accounting period.

The Bank, in compliance with extended timelines defined in SBP's BPRD Circular Letter No. 16 dated July 29, 2024 and BPRD Circular Letter No. 01 dated January 22, 2025 had incorporated certain IFRS 9 related impacts in the last quarter of 2024. Therefore the unconsolidated condensed interim statement of profit and loss account (un-audited) for the quarter ended March 31, 2024 has been restated to incorporate there impacts. Had the restatement not been incorporated the profit after tax for the quarter ended March 31, 2024 would have been higher by Rs. 8.455 million. The details are tabulated below:

Head		(Rupees in '000)	Description
Mark-up / return / interest earned	Increase	768,658	Fair value impact of subsidised advances and modification of advances
Mark-up / return / interest earned	Increase	596,067	Fair value impact of staff loans
Mark-up / return / interest expensed	Increase	797,170	Fair value impact of subsidised borrowings
Other income	Increase	11,933	Fair value impact of advances measured at fair value through profit and loss
Operating expenses	Increase	596,067	Fair value impact of staff loans
Taxation	Decrease	8,124	Impact of restatement

During the current period, in accordance with BPRD Circular No. 03 of 2022 dated July 05, 2022 and BPRD Circular Letter No. 16 dated July 29, 2024 the Bank has applied IFRS 9 'Financial Instruments' for Bangladesh Operations and measured unquoted equity securities at fair value. The cumulative impact of application in current period Rs. 284.511 million has been recorded as an adjustment to equity at the beginning of the current period.

5 **CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS**

The preparation of unconsolidated condensed interim financial statements in conformity with the accounting and reporting standards as applicable in Pakistan requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and income and expenses as well as in the disclosure of contingent liabilities. It also requires management to exercise judgment in application of its accounting policies. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. These estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised, if the revision affects only that period, or in the period of revision and in future periods if the revision affects both current and future periods.

The significant judgments made by the management in applying the Bank's accounting policies and the key sources of estimation were the same as those applied in the preparation of annual audited financial statements for the year ended December 31, 2024 except for matters related to adoption of IFRS 9 which have been disclosed in note 4.1 to the unconsolidated condensed interim financial statements.

FINANCIAL RISK MANAGEMENT 6

The financial risk management objectives and policies adopted by the Bank are consistent with those disclosed in the annual audited unconsolidated financial statements for the year ended December 31, 2024.

24.3	Other contingent liabilities	March 31, 2025 (Rupees	December 31, 2024 in '000)
24.3.1	Claims against the Bank not acknowledged as debts	22,945,134	23,153,037

These mainly represents counter claims filed by the borrowers for restricting the Bank from disposal of collateral assets (such as hypothecated / mortgaged / pledged assets kept as security), damage to reputation and cases filed by ex-employees of the Bank for damages. Based on legal advices and / or internal assessments, management is confident that the matters will be decided in the Bank's favour and the possibility of any outcome against the Bank is remote and accordingly no provision has been made in these unconsolidated condensed interim financial statements.

24.4 Contingency for tax payable

24.4.1 There were no tax related contingencies other than as disclosed in note 36.1.

25 DERIVATIVE INSTRUMENTS

Derivatives are a type of financial contract, the value of which is determined by reference to one or more underlying assets or indices. The major categories of such contracts include futures, swaps and options. Derivatives also include structured financial products that have one or more characteristics of forwards, futures, swaps and options.

33 WORKERS' WELFARE FUND

The Supreme Court of Pakistan vide its order dated November 10, 2016 has held that the amendments made in the law introduced by the Federal Government through the Finance Act, 2008 for the levy of Workers' Welfare Fund (WWF) on banks were not lawful. The Federal Board of Revenue has filed review petitions against this order, which are currently pending. A legal advice was obtained by the Pakistan Banking Association which highlights that consequent to filing of these review petitions, a risk has arisen and the judgment is not conclusive until the review petitions is decided. Accordingly, the amount charged for Workers' Welfare Fund since 2008 has not been reversed.

- 36.1 a) The income tax assessments of the Bank have been finalized upto and including tax year 2024. In respect of tax years 2008, 2014, 2017, 2019 and 2021 to 2024, the tax authority has raised certain issues including default in payment of WWF, allocation of expenses to dividend and capital gains, dividend income from mutual funds not being taken under income from business and disallowance of leasehold improvements resulting in tax demand of Rs. 1,217.274 million (December 31, 2024: Rs. 1,217.274 million) net of relief provided in appeal. Bank has filed appeal which is pending before tribunal. The management is confident that matter will be decided in favour of the Bank and consequently has not made any provision in this respect.
 - b) The Bank had received orders from a provincial tax authority for the periods from July 2011 to December 2020 wherein tax authority demanded sales tax on banking services and penalty amounting to Rs. 763.312 million (excluding default surcharge) by disallowing certain exemptions of sales tax on banking services and allegedly for short payment of sales tax. For periods from July 2011 to June 2014, appeals against orders are pending before Commissioner Appeals. For periods July 2014 to December 2020, Tribunal has decided the matters against the Bank. The Bank is in the process of filing appeals against these orders before Sindh High Court after consultation with the tax consultant.

The Bank has not made any provision against these orders and the management is of the view that these matters will be settled in Bank's favour through appellate process.

- c) The Bank had received two different orders for the same accounting year 2016 from a tax authority wherein sales tax, further tax and penalty amounting to Rs. 5.191 million and Rs. 8.601 million (excluding default surcharge) were demanded allegedly for non-payment of sales tax on certain transactions. Appeals against these orders are pending before Commissioner Appeals and Appellate Tribunal.
 - A similar order for the accounting years 2017 and 2018 was issued with tax demand of Rs. 11.536 million (excluding default surcharge) which is pending before Commissioner Appeals.
 - The Bank has not made any provision against these orders and the management is of the view that these matters will be favourably settled through appellate process.
- d) Certain other addbacks made by the tax authorities for various assessment years, appeals against which are pending with the Commissioner of Inland Revenue (Appeals), Appellate Tribunal Inland Revenue (ATIR), the High Court of Sindh and the Supreme Court of Pakistan. The Bank has not made any provision against these orders and the management is of the view that these matters will be favourably settled through appellate process.

39 FAIR VALUE MEASUREMENTS

Fair value measurement defines fair value as the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of quoted securities other than those classified as amortised cost, is based on quoted market price. Quoted debt securities classified at amortised cost are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of valuation methodologies. The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since these are either short-term in nature or, in the case of customer loans and deposits, are frequently repriced.

39.1 Fair value of financial instruments

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

The Bank's policy is to recognise transfers into and out of the different fair value hierarchy levels at the date of the event or 39.2 change in circumstances that caused the transfer, occurred. There were no transfers between levels 1 and 2 during the current

39.3 Valuation techniques used in determination of fair values:

39.3.1 Fair value of financial assets

(a) Financial instruments in level 1

Financial instruments included in level 1 comprise of investments in ordinary shares of listed companies, listed GoP Sukuks and listed non government debt securities.

(b) Financial instruments in level 2

Financial instruments included in level 2 comprise of Market Treasury Bills, Pakistan Investment Bonds, GoP Sukuks, GoP Euro Bonds, Overseas Government Sukuks, Overseas Bonds, Term Finance Certificates, and other than Government Sukuks, forward foreign exchange contracts, forward government securities contracts, cross currency swap and interest rate swaps.

(c) Financial instruments in level 3

Financial instruments included in level 3 comprise of unlisted ordinary shares, unlisted preference shares, redeemable participating certificates and advances measured at fair value through profit and loss. Valuation techniques are mentioned in the table below.

The fair value of fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

39.3.2 Fair value of non-financial assets

Certain categories of property and equipment (land and buildings) and non banking assets acquired in satisfaction of claims are carried at revalued amounts (level 3 measurement) determined by professional valuers based on their assessment of the market values as disclosed in notes 12 and 15. The valuations are conducted by the valuation experts appointed by the Bank which are also on the panel of the State Bank of Pakistan.

39.3.3 Valuation techniques

ltem	Valuation approach and input used
Market Treasury Bills (MTB) / Pakistan Investment Bonds (PIB), and GoP Sukuks (GIS) including their forward contracts	The fair value of MTBs and PIBs are derived using PKRV rates. Floating rate PIBs are revalued using PKFRV rates. The fair value of GoP sukuk listed on Pakistan Stock Exchange has been determined through closing rates of Pakistan Stock Exchange. The fair value of other GIS are revalued using PKISRV rates.
Overseas Sukuks, Overseas and GoP Euro Bonds	The fair value of overseas government sukuks, and overseas bonds are determined on the basis of price available on Bloomberg.
Debt Securities (TFCs and Sukuk other than Government)	Investment in sukuks, debt securities (comprising term finance certificates, bonds and any other security issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital) are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan.
Ordinary shares - listed	The fair value of investments in listed equity securities are valued on the basis of closing quoted market price available at the Pakistan Stock Exchange.
Ordinary shares - unlisted	The fair value of investments in certain unlisted equity securities are valued on the basis of income and market approach.
Preference shares - unlisted	The fair value of investment in unlisted preference shares are valued at offer quoted price.
Foreign preference shares - unlisted	The fair value of investment in unlisted preference shares are valued at market approach.
Redeemable participating certificates	The fair value of investment in redeemable participating certificates are valued at net asset value.
Advances	The fair value of advances are valued on the basis of cashflow discount model.
Forward foreign exchange contracts	The valuation has been determined by interpolating the FX revaluation rates announced by the SBP.
Derivative instruments	Derivatives that are valued using valuation techniques based on market observable inputs are mainly interest rate swaps and cross currency swaps. The most frequently applied valuation techniques include forward pricing and swap models using present value calculations.

Property and equipment and non banking assets acquired in satisfaction of claims

The valuation experts used a market based approach to arrive at the fair value of the Bank's properties. The market approach used prices and other relevant information generated by market transactions involving identical, comparable or similar properties. These values are adjusted to reflect the current condition of the properties. The effect of changes in the unobservable inputs used in the valuations cannot be determined with certainty accordingly a qualitative disclosure of sensitivity has not been presented in these unconsolidated condensed interim financial statements.

The following table summarises the quantitative information about the significant unobservable inputs used in level 3 fair value measurements of investment and advances, (The valuation techniques are stated above):

43.9 PLS Pool Management- Islamic Banking Group (IBG)

43.9.1 The pools, their key features and risk and reward characteristics.

The profit and loss sharing between the Rabbul Maal (depositor) and Mudarib (Bank - IBG) is based upon the underlying principles of Mudaraba, where the Bank also contributes its equity to general pool of funds, and becomes the capital provider.

Currently IBG is managing following pools:

- 1) General Pool for LCY Depositors
- 2) FCY Pool for Foreign Currency (USD, GBP, EURO, AED, SAR and CAD) depositors
- 3) Fls Pool for Treasury Purposes
- 4) IERS Pool for Islamic Export Refinance Scheme facilities
- 5) Special pool
- 6) PMRC Musharikah Pool

All the Mudaraba based remunerative deposits shall be considered as an investment from Rabbul Maal in the pool, along with IBG's own share of equity, which is also commingled in the pool. The applications of these funds are on Islamic financing and related assets, investments, and placements for generating profits to be shared among the depositors as per the weightage system.

The IERS pool is maintained as per the guideline under the SBP IERS Scheme.

The assets, liabilities, equities, income and expenses are segregated for each of the pool. No pool investment is intermingled with each other. All pools are usually exposed to general credit risk, asset ownership risk and profit rate risk of the underlying assets involved in pool.

44 **AFGHANISTAN OPERATIONS**

Bank Alfalah maintains a two-branch presence in Afghanistan. The Board and the management of the Bank continue to closely monitor the evolving situation in Afghanistan which has been hampered due to the country's frozen reserves and uncertainty regarding international recognition which prevent normal flows in and out of Afghanistan. The Bank has taken impairment against net assets where there is an indication that carrying amount may be higher than its recoverable amount. The Bank remains focused on maintaining its control standards i.e. both onshore and through Head Office oversight.

BANGLADESH OPERATIONS 45

During the year 2024, a non-binding indicative offer was received from Bank Asia Limited, Dhaka, Bangladesh ("Bank Asia") to acquire the Bank's Bangladesh Operations (assets and liabilities). In this regard, the Bank has been granted an in-principle approval by the State Bank of Pakistan to facilitate conduct of due diligence exercise by Bank Asia.

Further, non-binding offer was also received in year 2024 from Hatton National Bank of Sri Lanka ("HNB") to acquire the Bank's Bangladesh Operations (assets and liabilities). Subsequent to period end March 31, 2025 HNB has decided not to proceed with acquisition.

46 NON-ADJUSTING EVENT

The Board of Directors in its meeting held on April 17, 2025 has declared an interim cash dividend of 25% i.e. Rs. 2.5 per share (March 31, 2024: Rs. 2.0 per share i.e. 20%). These unconsolidated condensed interim financial statements do not include the effect of this appropriation which will be accounted for subsequent to the period end.

47 DATE OF AUTHORISATION

These unconsolidated condensed interim financial statements were authorised for issue on April 17, 2025 by the Board of Directors of the Bank.

48 GENERAL

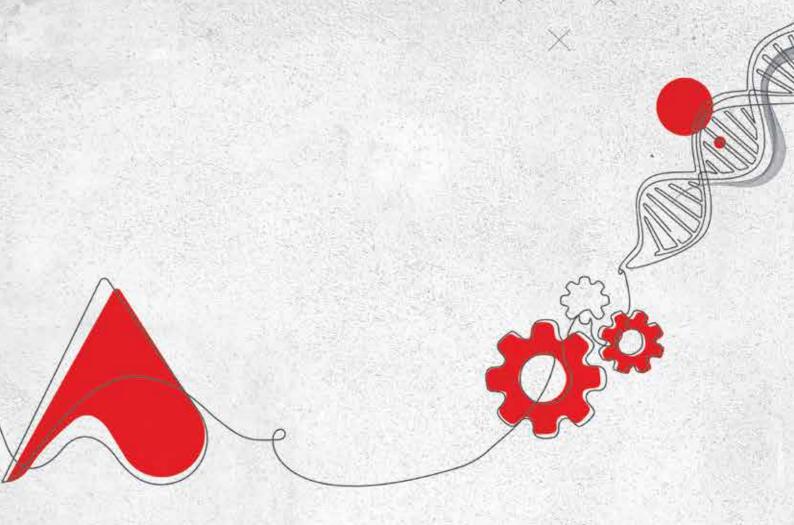

- **48.1** Comparative information has been re-classified, re-arranged, restated or additionally incorporated in these unconsolidated condensed interim financial statements, wherever necessary to facilitate comparison.

2 **BASIS OF PRESENTATION**

2.1 STATEMENT OF COMPLIANCE

These consolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard 34 "Interim Financial Reporting" and International Financial Reporting Standards (IFRS Accounting Standards) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan (ICAP) as are notified under the Companies Act, 2017;
- Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
- Directives issued by the SBP and the Securities and Exchange Commission of Pakistan (SECP).

Wherever the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of IFRS or IFAS, requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives have been followed.

The SBP has deferred the applicability of International Accounting Standard (IAS) 40, 'Investment Property' for banking companies through BSD Circular Letter No. 10 dated August 26, 2002 till further instructions. Further, the SECP has deferred the applicability of International Financial Reporting Standard (IFRS) 7, 'Financial Instruments: Disclosures' on banks through its notification S.R.O 411(I)/2008 dated April 28, 2008. The SBP through BPRD Circular No. 04 of 2015 dated February 25, 2015 had deferred the applicability of Islamic Financial Accounting Standard-3 for Profit and Loss Sharing on Deposits (IFAS-3) issued by the Institute of Chartered Accountants of Pakistan (ICAP) and notified by the SECP, vide their SRO No. 571 of 2013 dated June 12, 2013 for Institutions offering Islamic Financial Services (IIFS). Accordingly, the requirements of these standards have not been considered in the preparation of these consolidated condensed interim financial statements.

Moreover, Alfalah Insurance Company Limited has deferred the application of IFRS 9 till January 01, 2026, which is same as effective date for application of IFRS 17 - Insurance Contracts as allowed by the SECP through S.R.O. 506(i)/2024 dated March 29, 2024. Furthermore, Sapphire Wind Power Company Limited was granted a partial exemption from the application of IFRS 9 till December 31, 2025 vide SECP S.R.O. 1784(I)/2024- dated November 04, 2024. Consequently, the requirements of IFRS 9 with respect to application of Expected Credit Losses in respect of trade debts and other receivables due from Central Power Purchasing Agency (CPPA-G) have not been followed.

2.1.1 The disclosures made in these consolidated condensed interim financial statements have been limited based on the format prescribed by the SBP through BPRD Circular Letter No. 02 dated February 09, 2023 and the requirements of International Accounting Standard 34, "Interim Financial Reporting". These do not include all the information and disclosures required for annual financial statements, and therefore should be read in conjunction with the annual audited consolidated financial statements of the Group for the year ended December 31, 2024.

2.1.2 Basis of consolidation

A subsidiary is an entity controlled by the Group. Control exists when the Group is exposed, or has rights, to variable returns from its investment with the investee and has the ability to affect those return through its power over the investee.

These consolidated condensed interim financial statements incorporate the financial statements of subsidiaries from the date that control commences until the date that control ceases.

Associates are those entities on which the Group has significant influence, but not control, over the financial and operating polices. Associates as well as investment in mutual funds established under trust structure are accounted for using the equity

Non-controlling interests are that part of the net results of operations and of net assets of subsidiary which are not owned by the Holding Company. Material intra-group balances and transactions are eliminated.

- **2.1.3** Key financial figures of the Islamic Banking branches are disclosed in note 43 to the unconsolidated condensed interim financial statements.
- **2.1.4** The management of the Holding company believes that there is no significant doubt on the Group company's ability to continue as a going concern. Therefore, the consolidated financial statements have been prepared on a going concern basis.

2.2 Standards, interpretations of and amendments to published accounting and reporting standards that are effective in the current period:

There are certain new and amended standards, issued by International Accounting Standards Board (IASB), interpretations and amendments that are mandatory for the Group's accounting periods beginning on or after January 01, 2025 but are considered not relevant or do not have any material effect on the Group's operations and are therefore not detailed in these consolidated condensed interim financial statements except for IFRS 9 (Financial Instruments), the impact of which is disclosed under note 4.1.

2.3 Standards, interpretations of and amendments to published accounting and reporting standards that are not yet effective:

There are certain new and amended standards, issued by International Accounting Standards Board (IASB), interpretations and amendments that are mandatory for the Group's accounting periods beginning on or after January 01, 2025 but are considered not to be relevant or will not have any material effect on the Group's financial statements except for:

- the new standard IFRS 18 Presentation and Disclosure in Financial Statements (IFRS 18) (published in April 2024) with applicability date of January 01, 2027 by IASB. IFRS 18 is yet to be adopted in Pakistan. IFRS 18 when adopted and applicable shall impact the presentation of 'Statement of Profit and Loss Account' with certain additional disclosures in the condensed interim in the consolidated financial statements.
- amendments to IFRS 9 'Financial Instruments' which clarify the date of recognition and derecognition of a financial asset or financial liability including settlement of liabilities through banking instruments and channels including electronic transfers. The amendment when applied may impact the timing of recognition and derecognition of financial liabilities.
- amendment to IAS 21 'The Effects of Changes in Foreign Exchange Rates' which will require Banks to apply a consistent
 approach in assessing whether a currency can be exchanged into another currency and, when it cannot, in determining the
 exchange rate to use and the disclosures to provide.

3 **BASIS OF MEASUREMENT**

3.1 Accounting convention

These consolidated condensed interim financial statements have been prepared under the historical cost convention except that certain property and equipment and non banking assets acquired in satisfaction of claims are stated at revalued amounts; investments classified at fair value through profit and loss and fair value through other comprehensive income; advances classified at fair value through profit and loss, foreign exchange contracts and derivative financial instruments are measured at fair value; defined benefit obligations are carried at present value; right of use of asset and related lease liability are measured at present value on initial recognition; and staff loans are measured at fair value on initial recognition.

3.2 Functional and presentation currency

These consolidated condensed interim financial statements are presented in Pakistani Rupees, which is the Group's functional and presentation currency. The amounts are rounded off to the nearest thousand rupees.

MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies applied in the preparation of these consolidated condensed interim financial statements are consistent with those applied in the preparation of the annual audited consolidated financial statements of the Group for the year ended December 31, 2024 except for changes mentioned in note 4.1.

4.1 IFRS 9 - 'Financial Instruments'

The Holding Company adopted IFRS 9 effective from January 01, 2024 with modified retrospective approach for restatement permitted under IFRS 9. The cumulative impact of initial application of Rs. 2,751.995 million was recorded as an adjustment to equity at the beginning of the previous accounting period.

The Holding Company, in compliance with extended timelines defined in SBP's BPRD Circular Letter No. 16 dated July 29, 2024 and BPRD Circular Letter No. 01 dated January 22, 2025 had incorporated certain IFRS 9 related impacts in the last quarter of 2024. Therefore the consolidated condensed interim statement of profit and loss account (un-audited) for the quarter ended March 31, 2024 has been restated to incorporate there impacts. Had the restatement not been incorporated the profit after tax for the quarter ended March 31, 2024 would have been higher by Rs. 8.455 million. The details are tabulated below:

Head		(Rupees in '000)	Description
Mark-up / return / interest earned	Increase	768,658	Fair value impact of subsidised advances and modification of advances
Mark-up / return / interest earned	Increase	596,067	Fair value impact of staff loans
Mark-up / return / interest expensed	Increase	797,170	Fair value impact of subsidised borrowings
Other income	Increase	11,933	Fair value impact of advances measured at fair value through profit and loss
Operating expenses	Increase	596,067	Fair value impact of staff loans
Taxation	Decrease	8,124	Impact of restatement

During the current period, in accordance with BPRD Circular No. 03 of 2022 dated July 05, 2022 and BPRD Circular Letter No. 16 dated July 29, 2024 the Group has applied IFRS 9 'Financial Instruments' for Bangladesh Operations and measured unquoted equity securities at fair value. The cumulative impact of application in current period Rs. 284.511 million has been recorded as an adjustment to equity at the beginning of the current period.

5 CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of consolidated condensed interim financial statements in conformity with the accounting and reporting standards as applicable in Pakistan requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and income and expenses as well as in the disclosure of contingent liabilities. It also requires management to exercise judgment in application of its accounting policies. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. These estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised, if the revision affects only that period, or in the period of revision and in future periods if the revision affects both current and future periods.

The significant judgments made by the management in applying the Group's accounting policies and the key sources of estimation were the same as those applied in the preparation of annual audited financial statements for the year ended December 31, 2024 except for matters related to adoption of IFRS 9 which have been disclosed in note 4.1 to the consolidated condensed interim financial statements.

6 FINANCIAL RISK MANAGEMENT

The financial risk management objectives and policies adopted by the Group are consistent with those disclosed in the annual audited consolidated financial statements for the year ended December 31, 2024.

34 **WORKERS' WELFARE FUND**

The Supreme Court of Pakistan vide its order dated November 10, 2016 has held that the amendments made in the law introduced by the Federal Government through the Finance Act, 2008 for the levy of Workers' Welfare Fund (WWF) on banks were not lawful. The Federal Board of Revenue has filed review petitions against this order, which are currently pending. A legal advice was obtained by the Pakistan Banking Association which highlights that consequent to filing of these review petitions, a risk has arisen and the judgment is not conclusive until the review petitions is decided. Accordingly, the amount charged for Workers' Welfare Fund since 2008 has not been reversed.

- 37.1 The income tax assessments of the Holding Company have been finalized upto and including tax year 2024. In respect of tax years 2008, 2014, 2017, 2019 and 2021 to 2024, the tax authority has raised certain issues including default in payment of WWF, allocation of expenses to dividend and capital gains, dividend income from mutual funds not being taken under income from business and disallowance of leasehold improvements resulting in tax demand of Rs. 1,217.274 million (December 31, 2024: Rs. 1,217.274 million) net of relief provided in appeal. The Holding Company has filed appeal which is pending before tribunal. The management is confident that matter will be decided in favour of the Holding Company and consequently has not made any provision in this respect.
 - The Holding Company had received orders from a provincial tax authority for the periods from July 2011 to December 2020 wherein tax authority demanded sales tax on banking services and penalty amounting to Rs. 763.312 million (excluding default surcharge) by disallowing certain exemptions of sales tax on banking services and allegedly for short payment of sales tax. For periods from July 2011 to June 2014, appeals against orders are pending before Commissioner Appeals. For periods July 2014 to December 2020, Tribunal has decided the matters against the Holding Company. The Holding Company is in the process of filing appeals against these orders before Sindh High Court after consultation with the tax consultant.
 - The Holding Company has not made any provision against these orders and the management is of the view that these matters will be settled in Holding Company's favour through appellate process.
 - The Holding Company had received two different orders for the same accounting year 2016 from a tax authority wherein sales tax, further tax and penalty amounting to Rs. 5.191 million and Rs. 8.601 million (excluding default surcharge) were demanded allegedly for non-payment of sales tax on certain transactions. Appeals against these orders are pending before Commissioner Appeals and Appellate Tribunal.

A similar order for the accounting years 2017 and 2018 was issued with tax demand of Rs. 11.536 million (excluding default surcharge) which is pending before Commissioner Appeals.

The Holding Company has not made any provision against these orders and the management is of the view that these matters will be favourably settled through appellate process.

d) Certain other addbacks made by the tax authorities for various assessment years, appeals against which are pending with the Commissioner of Inland Revenue (Appeals), Appellate Tribunal Inland Revenue (ATIR), the High Court of Sindh and the Supreme Court of Pakistan. The Holding Company has not made any provision against these orders and the management is of the view that these matters will be favourably settled through appellate process.

40 FAIR VALUE MEASUREMENTS

Fair value measurement defines fair value as the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of quoted securities other than those classified as amortised cost, is based on quoted market price. Quoted debt securities classified at amortised cost are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of valuation methodologies. The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since these are either short-term in nature or, in the case of customer loans and deposits, are frequently repriced.

40.1 Fair value of financial instruments

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

40.2 The Group's policy is to recognise transfers into and out of the different fair value hierarchy levels at the date of the event or change in circumstances that caused the transfer, occurred. There were no transfers between levels 1 and 2 during the current period.

40.3 Valuation techniques used in determination of fair values:

40.3.1 Fair value of financial assets

Financial instruments in level 1

Financial instruments included in level 1 comprise of investments in ordinary shares of listed companies, listed GoP Sukuks and listed non government debt securities.

(b) Financial instruments in level 2

Financial instruments included in level 2 comprise of Market Treasury Bills, Pakistan Investment Bonds, GoP Sukuks, GoP Euro Bonds, Overseas Government Sukuks, Overseas Bonds, Term Finance Certificates, and other than Government Sukuks, forward foreign exchange contracts, forward government securities contracts, cross currency swap and interest rate swaps.

(c) Financial instruments in level 3

Financial instruments included in level 3 comprise of unlisted ordinary shares, unlisted preference shares, redeemable participating certificates and advances measured at fair value through profit and loss. Valuation techniques are mentioned in the table below.

The fair value of fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

40.3.2 Fair value of non-financial assets

Certain categories of property and equipment (land and buildings) and non banking assets acquired in satisfaction of claims are carried at revalued amounts (level 3 measurement) determined by professional valuers based on their assessment of the market values as disclosed in notes 12 and 15. The valuations are conducted by the valuation experts appointed by the Group which are also on the panel of the State Bank of Pakistan.

40.3.3 Valuation techniques

ltem	Valuation approach and input used
Market Treasury Bills (MTB) / Pakistan	The fair value of MTBs and PIBs are derived using PKRV rates. Floating rate PIBs are revalued using
Investment Bonds (PIB), and GoP Sukuks	PKFRV rates. The fair value of GoP sukuk listed on Pakistan Stock Exchange has been determined
(GIS) including their forward contracts	through closing rates of Pakistan Stock Exchange. The fair value of other GIS are revalued using PKISRV
	rates.
Overseas Sukuks, Overseas and GoP Euro	The fair value of overseas government sukuks, and overseas bonds are determined on the basis of price
Bonds	available on Bloomberg.
Debt Securities (TFCs and Sukuk other	Investment in sukuks, debt securities (comprising term finance certificates, bonds and any other security
than Government)	issued by a company or a body corporate for the purpose of raising funds in the form of redeemable
	capital) are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan
	(MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of
	Pakistan.
Ordinary shares - listed	The fair value of investments in listed equity securities are valued on the basis of closing quoted market
	price available at the Pakistan Stock Exchange.
Ordinary shares - unlisted	The fair value of investments in certain unlisted equity securities are valued on the basis of income and
	market approach.
Preference shares - unlisted	The fair value of investment in unlisted preference shares are valued at offer quoted price.
Foreign preference shares - unlisted	The fair value of investment in unlisted preference shares are valued at market approach.
Redeemable participating certificates	The fair value of investment in redeemable participating certificates are valued at net asset value.
Advances	The fair value of advances are valued on the basis of cashflow discount model.
Forward foreign exchange contracts	The valuation has been determined by interpolating the FX revaluation rates announced by the SBP.
Derivative Instruments	Derivatives that are valued using valuation techniques based on market observable inputs are mainly
	interest rate swaps and cross currency swaps. The most frequently applied valuation techniques include
	forward pricing and swap models using present value calculations.

Property and equipment and non banking	The valuation experts used a market based approach to arrive at the fair value of the Group's properties.
assets acquired in satisfaction of claims	The market approach used prices and other relevant information generated by market transactions
	involving identical, comparable or similar properties. These values are adjusted to reflect the current
	condition of the properties. The effect of changes in the unobservable inputs used in the valuations
	cannot be determined with certainty accordingly a qualitative disclosure of sensitivity has not been
	presented in these consolidated condensed interim financial statements.

The following table summarises the quantitative information about the significant unobservable inputs used in level 3 fair value measurements of investment and advances, (The valuation techniques are stated above):

AFGHANISTAN OPERATIONS 44

Bank Alfalah maintains a two-branch presence in Afghanistan. The Board and the management of the Bank continue to closely monitor the evolving situation in Afghanistan which has been hampered due to the country's frozen reserves and uncertainty regarding international recognition which prevent normal flows in and out of Afghanistan. The Holding Company has taken impairment against net assets where there is an indication that carrying amount may be higher than its recoverable amount. The Holding Company remains focused on maintaining its control standards i.e. both onshore and through Head Office

BANGLADESH OPERATIONS 45

During the year 2024, a non-binding indicative offer was received from Bank Asia Limited, Dhaka, Bangladesh ("Bank Asia") to acquire the Holding Company's Bangladesh Operations (assets and liabilities). In this regard, the Holding Company has been granted an in-principle approval by the State Bank of Pakistan to facilitate conduct of due diligence exercise by Bank Asia.

Further, non-binding offer was also received in year 2024 from Hatton National Bank of Sri Lanka ("HNB") to acquire the Holding Company's Bangladesh Operations (assets and liabilities). Subsequent to period end March 31, 2025 HNB has decided not to proceed with acquisition.
