STANDARD CHARTERED BANK (PAKISTAN) LIMITED 31st MARCH 2025 DIRECTORS' REPORT

On behalf of the Board of Directors, we are pleased to present the Directors' Report of Standard Chartered Bank (Pakistan) Limited (SCBPL or the Bank) along with the un-audited interim financial statements for the period ended 31st March 2025.

Economy

Economy has witnessed nascent recovery with a GDP growth of 2.5% in FY24 attributed to strong agriculture performance, prudent policy management, decrease in inflation and a stable exchange rate. Positive developments continued in Q3-FY25, as most economic indicators have shown improvement laying the foundation for sustained growth and moderate inflation in the coming months of the fiscal year.

On the external front, current account posted a surplus of USD 1.9bn in 9M-FY25, against a deficit of USD 1.7bn in the corresponding period last year. The marked improvement was primarily attributed to a substantial increase in remittances and stronger exports which increased 33% and 8% respectively, managing to absorb the increase in imports of 11% during the period.

Pakistan reached staff level agreement with IMF on a 37-month Extended Fund Facility Arrangement (EFF) for USD 7bn out of which USD 1.1bn has been disbursed resulting in market confidence and exchange rate stability. Further, a new 28-month arrangement with IMF under the Resilience and Sustainability Facility (RSF) has been agreed for additional USD 1.3bn. Foreign direct investment increased by 14% year on year to USD 1.64bn during 9M-FY25, which together with IMF programme is providing support in unlocking near-term FX inflows from multilateral and bilateral sources paving way for improved macroeconomic environment.

SBP foreign exchange reserves improved from USD 9.4bn at start of the current fiscal year to USD 10.6bn as of 11th April 2025. CPI average inflation substantially declined to 5.3% in 9M-FY25 from 27.1% a year earlier supported by easing global prices, a stable exchange rate and targeted government policies. Amid easing inflationary pressures and improving macroeconomics, SBP reduced the policy rate by 850bps since the start of FY-2025 to 12%.

Based on 2024 annual results, Banks in Pakistan continue to be well capitalized and liquid with an industry wide CAR of 20.6% and advances to deposit ratio of 49.7% respectively. The banking industry remains profitable with a ROE (after tax) of 21.5%. Meanwhile, NPLs of the banking sector stood at 6.3% at close of CY24 compared to 7.6% at close of CY23.

At Standard Chartered, our purpose is to drive commerce and prosperity through our unique diversity. Our strategic pillars

We have continued to make good progress against the strategic priorities. As we accelerate our strategy, we have refined our focus onto four strategic priorities:

increase network linked income through innovative solutions, product specialization and structured off-shore offerings. Our focus remains on facilitating our clients in the Belt and Road Initiative and other trade corridors as well as building momentum in Sovereign, Multinational and Local Corporates space.

3) Emerging Affluent

Our digital transaction mix, including "SC Mobile" application customers, continue to increase. We have upgraded core banking system to advanced platform and are also spending on state-of-the-art digital capabilities and solutions to drive enhanced client experience. We are strategically repositioning the Personal Banking segment to focus on growing emerging affluent clients, serving as a rich base for up-tiering to Affluent business.

4) Sustainability

Our commitment to sustainability is not only about the economic activity we drive, but also about how we run our business. We invest in our people, promote the right values, behaviours, and conduct, support the fight against financial crime and manage our environmental footprint. Our sustainability strategy seeks to strengthen relationships between our business, community, Government, and clients. We will continue to focus on differentiated sustainability offering.

These strategic priorities are supported by three key enablers:

1) People & Culture

Bank delivered a resilient financial performance with a Profit before tax of PKR 17.0bn compared to PKR 24.7bn in corresponding period last year. Revenue was lower by PKR 6.4bn primarily due to sharp reduction in interest rates. The impact of margin compression on revenue was partially offset by increase in non-funded income and decrease in cost of funds. Operating expenses increased 14% from comparative period reflecting inflation, investment in our people and infrastructure. Moreover, prudent risk approach coupled with strong recoveries of bad debts led to a benign charge of PKR 0.3bn during the period.

On the liabilities side, the Bank's total deposits stood at PKR 726 billion; down by 13% from start of the year. Bank's deposit mix improved with current accounts now constituting 54% of the deposit book, compared to 48% last year. On assets side, net advances were higher by PKR 54bn or 31% during Q1'25, reflecting pick-up in economic momentum. We continue to monitor the economic landscape and will position our portfolio accordingly. The Bank is well placed to cater for the needs of its clients and will continue its strategy to build a profitable, efficient and sustainable portfolio.

The Bank is investing in its digital capabilities and infrastructure to enhance our clients' banking experience through the introduction of innovative solutions. We have made steady progress in further strengthening our control and compliance environment by focusing on our people, culture and systems. We are fully committed to sustained growth by consistently focusing on our clients and product suite along with a prudent approach to building the balance sheet while bringing the best-in-class services to our customers.

Outlook

While the external environment remains challenging, pace of economic recovery will be dependent on improvement in external flows, domestic and geopolitical environment and global commodity prices.

Our results demonstrate our strong business fundamentals. We recognise the challenging times and are committed to support our clients and employees whilst ensuring our clients' needs are at the heart of everything we do.

Having strengthened our foundations on controls and conduct we are well equipped to manage our risks, capital and liquidity effectively. The prudent and proactive measures that we are taking now are expected to make us leaner and fitter to take advantage of the opportunities that lie ahead.

Credit Rating

Pakistan Credit Rating Agency (PACRA) has maintained the Bank's long-term and short-term ratings of "AAA" (Triple A) and "A1+" (A One Plus) respectively. These ratings denote the lowest expectation of credit risk emanating from an exceptionally strong capacity for timely payment of financial commitments.

INTERNAL

Appreciation and Acknowledgment

We take this opportunity to express our gratitude to our clients and business partners for their continued support and trust. We offer sincere appreciation to the State Bank of Pakistan for their guidance and cooperation extended to the Bank. Finally, we are also thankful to our associates, staff and colleagues for their committed services provided to our valued clients.

Will.

^{19.1} In terms of the Seventh Schedule to the Income Tax Law, the claim of provision for advances and off balance sheet items in respect of Corporate and Consumer (including SME) advances has been restricted to 1% and 5% of gross advances respectively. As such deferred tax asset has been recognised. The management based on projection of taxable profits, considers that the Bank would be able to claim deductions in future years within the prescribed limits in seventh schedule. It also includes deferred tax asset on pre seventh schedule provision against loans and advances disallowed, which only become tax allowable upon being written off.

20.4 The Supreme Court of Pakistan vide its order dated 10 November 2016 has held that the amendments made in the law introduced by the Federal Government by Finance Act 2008 for the levy of Worker's Welfare Funds (WWF) on banks were not lawful. The Federal Board of Revenue has filed review petitions against this order, which are currently pending. Legal advice obtained on the matter indicates that consequent to filing of these review petitions the judgment may not currently be treated as conclusive until the review petition is decided. Accordingly, the amount charged for WWF since 2008 has not been reversed.

22.3.1 The tax department amended the assessments for income years 2007 to 2022 (tax years 2008 to 2023 respectively) under the related provisions of the Income Tax Law and appeals against the amended assessment orders are pending before different appellate forums. The management considers that a significant amount of the additional tax liability is the result of timing differences and is confident that the issues in the above mentioned tax years will be decided in favour of the Bank at appellate forums. Accordingly, no additional provision is required.

Further, the Sindh High Court has decided the issue of goodwill amortisation in favour of the Bank for the tax years 2008 and 2012 and the Federal Board of Revenue has filed leave to appeal before the Supreme Court of Pakistan.

i) Key features and risk & reward characteristics

Saadiq Savings accounts & Term Deposit Account (Mudarabah based remunerative deposits) are Shariah compliant accounts based on the Islamic principle of "Mudarabah". Mudarabah is a partnership where one party provides funds to other for investing in a business. The partner who is investing the funds is "Rabb-ul-Mal (Depositor) and the partner who manages the investment is "Mudarib" (Working Partner). The Bank (Mudarib) invests the funds in Shariah compliant avenues to generate return/profit. In case of loss, the same is borne by the depositor in proportion to their investments, and the Bank (Mudarib) bears the loss of its efforts/services in managing Mudarabah.

ii) Parameters used for allocation of profit, charging expenses and provisions

The profit is calculated from income earned on the remunerative assets tagged to the pool and is distributed between Mudarib (Bank) and Rabb-ul-Maal (Depositor) based on the declared sharing ratios and weightages before the beginning of the concerned period.

iii) Deployment of Mudaraba based deposits
