### 34.1 Tax status and contingencies

- i) During the year ended December 31 2023, the Federal Government issued S.R.O 1588 (I)/2023 on 21 November 2023 under section 99D of the Income Tax Ordinance 2001, whereby the banking sector was specified the sector for the payment of additional tax on windfall income. Through said S.R.O, the Federal Government also specified the method to determine windfall income, tax rate to be applied on such windfall income and tax years under scope. The Bank has challenged the S.R.O through petition before the Honourable Islamabad High Court with regards to retrospective application of Section 99D of the Income Tax Ordinance, 2001 for tax years 2022 and 2023. The Honourable Islamabad High Court through its order dated 30 November 2023 has suspended the operation of S.R.O.1588 (I)/2023 and the said injunctive order continues to operate till date of next hearing for which no date has been fixed yet. Management based on the legal advisor opinion believes that the bank has reasonably good chance to succeed in this case and therefore has not recognized any provision in the financial statements. Additional tax on windfall income for tax years 2022 and 2023 is estimated to be Rs. 2,189 million.
- ii) The Bank has filed tax returns for and up to tax year 2024. The assessments for and up to tax year 2024 were amended by the tax authorities creating accumulated additional tax demand, mainly in the matters of admissibility of recoveries against doubtful debts for Rs 1,497 million, provision for diminution in the value of investments for Rs 3,144.44 million, bad debts written off for Rs 242.892 million, provision for substandard advances for Rs 74.95 million, Provision against other assets/fixed assets for Rs 147.03 million, disallowance of employee benefit expenses Rs 484.96 million, disallowance of depreciation on lease assets Rs 1,618.09 and other disallowances of expenses/credits for Rs 1390.50 million. Bank's appeals against these orders are currently pending before Commissioner Appeals, Appellate Tribunal and Islamabad High Court. The management and tax advisor of the Bank are confident that these matters will be decided in favor of the Bank and consequently no provision has been made thereon. Tax payments by the Bank against certain matters are being carried forward as receivable, as management and tax advisor of the Bank are confident of their realization.
- iii) Consequent upon the amalgamation with and into the Bank, the outstanding tax issues relating to Askari Leasing Limited (ALL) are as follows:

Tax returns of ALL have been filed for and up to tax year 2010. The returns for the tax years 2003 to 2010 were amended by the tax authorities mainly in the matter of admissibility of initial allowance claimed on leased vehicles. On appeals filed by ALL, partial relief was provided by the CIR(A) by allowing initial allowance on commercial vehicles. Re–assessment has not yet been carried out by the tax department. A tax demand is however not likely to arise after re–assessment.

For and up to the assessment years 2002–2003, reference applications filed by the tax authorities in the matter of computation of lease income are pending decisions by the High Court. However, the likelihood of an adverse decision is considered low due to a favorable decision of the High Court in a parallel case.

### 36. FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified as Amortised Cost, is based on quoted market price. Quoted securities classified as Amortised Cost are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined using valuation techniques / valuation models. The inputs to these models are taken from obervable markets where possible and where this is not possible, estimation is required in establishing fair values.

The fair value of unquoted debt securities, fixed term advances, fixed term deposits and borrowings, other assets and other liabilities cannot be calculated with sufficient reliability due to the absence of a current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since they are either short-term in nature or, in the case of customer advances, deposits and certain long term borrowings, are frequently repriced.

All assets and liabilities for which fair value is measured or disclosed in these unconsolidated financial statements are categorized within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

### 36.1 Fair value of financial assets

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets (Pakistan Stock Exchange) for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) available at MUFAP and Reuters page.
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

### Valuation techniques used in determination of fair values within level 2 and level 3

Federal Government Securities	The fair values of Federal Government Securities are determined on the basis of rates / prices sourced from Reuters.
Non Government Debt Securities	Non Government Debt Securities are valued on the basis of rates announced by Mutual Fund Association of Pakistan (MUFAP).
Foreign Government Debt Securities	Foreign Government Debt Securities are valued on the basis of rates taken from custodian of the securities which are usually drawn from Bloomberg.
Unit of Mutual Funds	Fair values of mutual funds are determined based on their net asset values as published at the close of reporting period.
Forward foreign exchange contracts and Forward Government securities transactions	The fair values of forward foreign exchange contracts and forward Government securities transactions are determined using forward pricing calculations.
Fixed Assets and Non Banking Assets Acquired in Satisfaction of Claims	Land and Non Banking assets acquired in satisfaction of claims are valued on a periodic basis using professional valuers. The valuation is based on their assessments of the market value of the assets.
Unquoted equity securites	Fair value is determined using valuation techniques / valuation models. The inputs to these models are taken from obervable markets where possible and where this is not possible, estimation is required in establishing fair values.

The following table provides the fair values of those of the Bank's financial assets and liabilities that are recognized or disclosed at fair value in these unconsolidated condensed interim financial statements:

Further, SBP through BPRD Circular Letter No. 01 of 2025 dated 22 January 2025 has clarified the followings:

- Islamic Banking Institutions (IBIs) are allowed to follow Islamic Financial Accounting Standards (IFAS) 1 & 2 where applicable and continue the existing accounting methodology on other Islamic products until issuance of further instructions in this regard.
- The treatment of charity should be in line with the existing practices as defined in SBP instructions issued via IBD Circular No. 02 of 2008 and should not be recognized as income.

All Islamic products are governed by the product manual approved by the Shariah Board of the Group. The related accounting and revenue recognition policies are outlined in annual audited financial statements for the year ended December 31, 2024. However, in case of Ijarah and Murabaha, the Group has also complied with the requirements of IFAS 1 and IFAS 2. Revenue from Islamic products would have increased by Rs. 134,598 thousand, if IFRS 9 had been adopted in its entirety

# 34.1 Tax status and contingencies

- i) During the year ended December 31 2023, the Federal Government issued S.R.O 1588 (I)/2023 on 21 November 2023 under section 99D of the Income Tax Ordinance 2001, whereby the banking sector was specified the sector for the payment of additional tax on windfall income. Through said S.R.O, the Federal Government also specified the method to determine windfall income, tax rate to be applied on such windfall income and tax years under scope. The Bank has challenged the S.R.O through petition before the Honourable Islamabad High Court with regards to retrospective application of Section 99D of the Income Tax Ordinance, 2001 for tax years 2022 and 2023. The Honourable Islamabad High Court through its order dated 30 November 2023 has suspended the operation of S.R.O.1588 (I)/2023 and the said injunctive order continues to operate till date of next hearing for which no date has been fixed yet. Management based on the legal advisor opinion believes that the bank has reasonably good chance to succeed in this case and therefore has not recognized any provision in the financial statements. Additional tax on windfall income for tax years 2022 and 2023 is estimated to be Rs. 2,189 million.
- ii) The Bank has filed tax returns for and up to tax year 2024. The assessments for and up to tax year 2024 were amended by the tax authorities creating accumulated additional tax demand, mainly in the matters of admissibility of recoveries against doubtful debts for Rs 1,497 million, provision for diminution in the value of investments for Rs 3,144.44 million, bad debts written off for Rs 242.892 million, provision for substandard advances for Rs 74.95 million, Provision against other assets/fixed assets for Rs 147.03 million, disallowance of employee benefit expenses Rs 484.96 million, disallowance of depreciation on lease assets Rs 1,618.09 and other disallowances of expenses/credits for Rs 1390.50 million. Bank's appeals against these orders are currently pending before Commissioner Appeals, Appellate Tribunal and Islamabad High Court. The management and tax advisor of the Bank are confident that these matters will be decided in favor of the Bank and consequently no provision has been made thereon. Tax payments by the Bank against certain matters are being carried forward as receivable, as management and tax advisor of the Bank are confident of their realization.
- iii) Consequent upon the amalgamation with and into the Bank, the outstanding tax issues relating to Askari Leasing Limited (ALL) are as follows:

Tax returns of ALL have been filed for and up to tax year 2010. The returns for the tax years 2003 to 2010 were amended by the tax authorities mainly in the matter of admissibility of initial allowance claimed on leased vehicles. On appeals filed by ALL, partial relief was provided by the CIR(A) by allowing initial allowance on commercial vehicles. Re—assessment has not yet been carried out by the tax department. A tax demand is however not likely to arise after re—assessment.

For and up to the assessment years 2002–2003, reference applications filed by the tax authorities in the matter of computation of lease income are pending decisions by the High Court. However, the likelihood of an adverse decision is considered low due to a favorable decision of the High Court in a parallel case.

## 36. FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified as Amortised Cost, is based on quoted market price. Quoted securities classified as Amortised Cost are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined using valuation techniques / valuation models. The inputs to these models are taken from obervable markets where possible and where this is not possible, estimation is required in establishing fair values.

The fair value of unquoted debt securities, fixed term advances, fixed term deposits and borrowings, other assets and other liabilities cannot be calculated with sufficient reliability due to the absence of a current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since they are either short-term in nature or, in the case of customer advances, deposits and certain long term borrowings, are frequently repriced.

All assets and liabilities for which fair value is measured or disclosed in these consolidated financial statements are categorized within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

## 36.1 Fair value of financial assets

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets (Pakistan Stock Exchange) for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) available at MUFAP and Reuters page.
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

# Valuation techniques used in determination of fair values within level 2 and level 3

Federal Government Securities	The fair values of Federal Government Securities are determined on the basis of rates / prices sourced from Reuters.
Non Government Debt Securities	Non Government Debt Securities are valued on the basis of rates announced by Mutual Fund Association of Pakistan (MUFAP).
Foreign Government Debt Securities	Foreign Government Debt Securities are valued on the basis of rates taken from custodian of the securities which are usually drawn from Bloomberg.
Unit of Mutual Funds	Fair values of mutual funds are determined based on their net asset values as published at the close of reporting period.
Forward foreign exchange contracts and Forward Government securities transactions	The fair values of forward foreign exchange contracts and forward Government securities transactions are determined using forward pricing calculations.
Fixed Assets and Non Banking Assets Acquired in Satisfaction of Claims	Land and Non Banking assets acquired in satisfaction of claims are valued on a periodic basis using professional valuers. The valuation is based on their assessments of the market value of the assets.
Unquoted equity securites	Fair value is determined using valuation techniques / valuation models. The inputs to these models are taken from obervable markets where possible and where this is not possible, estimation is required in establishing fair values.

The following table provides the fair values of those of the Group's financial assets and liabilities that are recognized or disclosed at fair value in these consolidated condensed interim financial statements:
