# DIRECTORS' REVIEW

On behalf of the Board of Directors, we are pleased to present the Directors' Review of the Bank along with the unaudited condensed interim financial statements for the first quarter ended March 31, 2025.

#### THE BANK'S PERFORMANCE

The highlights of the financial results for the quarter ended March 31, 2025 are as follows:

Financial Position	Rupees in Millions
Shareholders' Equity Deposits Total Assets Advances – net Investments – net	(19,923) 172,337 237,098 14,501 147,559
Financial Performance	
Net Interest Income and Non Mark-up Income (Total Income) Non Mark-up Expenses Credit loss allowance and write offs - net Loss before tax Loss after tax Basic and diluted loss per share - Rupee	1,080 2,004 (201) 723 864 (0.13)

The Bank has demonstrated a remarkable turnaround in delivering outstanding results. Specifically, the Bank has significantly improved its net mark-up income by Rs. 997 million, that is from net mark-up expense of Rs. 941 million for the quarter 1, 2024 to net mark-up income of Rs. 56 million in 2025. Further to this, the non mark-up income improved by Rs. 417 million as compared to the same period last year. The loss before tax reduced from Rs. 1.093 billion to Rs. 0.723 billion indicating an improvement in the financial performance and loss after tax was reported at Rs 0.864 billion against the loss of Rs 0.812 billion for the comparative period last year.

In line with the gradual decrease in the policy rate by the SBP over the course of the last few months, the average policy rate of 22% in quarter one of 2024 reduced to an average of 12.33% for the current period. To manage the rate risk of a decreasing yield curve, the arbitrage book was reduced and as a result, the average net investments decreased in line with the reduction in average borrowings. The average net investments as at March 31, 2025 was reported at Rs. 154.380 billion compared to Rs. 179.861 billion in the same period last year and the average net investment yields also declined from 22.13% in the comparable prior period to 14.02% in the current period. This downward trend in both volume and yields led to a substantial decrease in the Bank's income from investments, reaching Rs. 5.337 billion for the current period, compared to Rs. 9.897 billion in comparable prior period whilst still being positive to the total income line.

Net yields on advances also reduced to 9.48% for the current period, compared to 18.48% for the same period last year. However, the Bank witnessed a decrease in average net advances, totalling Rs. 14.756 billion as at March 31, 2025, compared to Rs. 17.386 billion for the comparable period last year aligning with the strategy to reduce risk-weighted assets. Income from advances ended lower at Rs. 345 million for the current period, compared to Rs. 799 million for the comparable prior period.

Deposits closed at Rs. 172.337 billion as of March 31, 2025, representing an increase of Rs. 13.210 billion or 8.30% compared to the same period last year. In terms of averages, the portfolio grew by Rs. 18.097 billion, or 11.71% as compared to the same period last year. Amidst stiff competition for rates, the Bank's focus remained on CASA mix and retaining non-remunerative accounts. As of March 31, 2025, the Bank's CASA ratio improved to 93.12% (March 2024: 89.45%) resulting in the average cost of deposits of 7.74% for the current period.

In line with the reduction in the arbitrage book, the average borrowings for the current period was reported lower than the comparative period last year by Rs. 34.459 billion. Meanwhile, the overall average cost of borrowing also declined to 12.33% from 21.93% in the comparative prior period.

The Bank capitalized on the opportunity of declining rates by realising capital gains through sale of government securities which mainly contributed in increasing the non-funded income of the Bank by Rs. 0.425 billion beside other factors. Total non-funded income was recorded at Rs. 1.024 billion, compared to Rs. 0.606 billion in the prior period representing an increase of 68.83%.

The Bank successfully exhibited prudent control over its operating expenses by continuously monitoring and implementing cost control initiatives and was able to restrict the increase in its operating expenses to only 8.29% compared to the same period last year. The Bank's total non mark-up expenses amounted to Rs. 2.004 billion, compared to Rs. 1.850 billion for the same period last year.

In the current period, there were net provision reversals amounting to Rs. 201 million as against Rs. 1.092 billion in the comparative prior period.

As of March 31, 2025, the Bank's gross NPL ratio (Gross non-performing loans to Gross Advances) marginally increased to 71.58%, compared to 69.95% recorded on December 31, 2024. This increase is mainly attributed to a reduction in gross advances by Rs. 1.267 billion. Additionally, the coverage ratio as at March 2025 remained consistent at 96.52%, compared to 96.59% on December 2024.

#### CREDIT RATING

In 2019, VIS Credit Rating Company Limited suspended the Bank's medium to long-term rating of 'BBB -' (Triple B Minus) and its short-term rating of 'A-3' (A-Three). The Bank has initiated the rating process with VIS Credit Rating Company Limited and requested an extension to the State Bank of Pakistan to allow the Bank to complete the credit rating exercise by August 31, 2025.

VIS Credit Rating Company Limited has issued a new rating scale for Tier-2 capital instruments. As a result, the Bank's TFC rating has been adjusted to 'B' (Single B) with a 'Rating Watch-Negative' outlook, as stated in their press release dated June 27, 2023. Previously, the Bank's TFC rating was assigned 'D' (Default) due to non-payment of its latest mark-up payment on account of lock-in-clause invoked by the Bank under the applicable Regulations of the State Bank of Pakistan (SBP).

### **ECONOMIC REVIEW**

Pakistan's economy has demonstrated resilience and stability on fiscal and external fronts, indicating an optimistic outlook for the ongoing fiscal year. Macroeconomic fundamentals have strengthened; Inflationary pressures have eased. Fiscal consolidation measures are yielding tangible results, leading to a primary surplus and a narrowed fiscal deficit. The external sector remains robust, with a current account surplus, export growth, strong remittance inflows, and rising foreign investment. Investors' confidence continues to strengthen, as reflected in the bullish performance of the Pakistan Stock Exchange. These positive developments lay the foundation for sustained growth and moderate inflation in the coming months of the fiscal year.

The external account position has significantly improved, driven by notable increases in exports and remittances despite a rise in imports. During Jul-Feb FY2025, the current account posted a surplus of USD 691 million compared to deficit of USD 1.73 billion same period last year. Exports increased by 7.2% and were recorded at USD 21.82 billion while imports stood at USD 38.33 billion (USD 34.4 billion last year). Resultantly, trade deficit recorded at USD 16.5 billion.

Foreign Direct Investment (FDI) increased by 41% and stood at USD 1.62 billion Jul-Feb FY2025. Further, worker's remittances recorded at USD 23.97 billion (July – Feb FY2025) increased by 32.5% compared to same period last year.

During Jul-Feb FY2025, FBR tax collection grew by 25.9% to Rs 7,344 billion against Rs 5,831 billion last year. This growth was broad-based, driven by direct and indirect taxes. Non tax revenues increased by 75.8%, reaching Rs 3,763 billion, up from Rs. 2,410 billion last year. The fiscal deficit reduced to 1.7% of GDP during Jul-Jan FY2025 as against 2.6% last year.

Consumer Price Index (CPI) inflation is on declining trend and recorded at 1.5% on YoY basis in February 2025 as compared to 23.1% in February 2024. Reduction in International oil price is expected to keep inflation in check while Gold tests all time high prices crossing USD 3000/Oz.

In the last five MPCs held in 2024 SBP reduced the policy rate by 9% ended up with 13% as at December 31, 2024. Further on January 27, 2025, SBP further reduced the policy rate by 1% bring it to 12% as compared to 22% last year March 31, 2024.

Pakistan's FX reserves stood at USD 15.582 billion on March 28, 2025 of which SBP's reserves were USD 10.676 billion.

The performance of PSX remained remarkable as the KSE 100 index stood at 117,806 points as at March 31, 2025 as compared to 67,005 points in March 31, 2024.

With strengthened economic fundamentals and growing investors' confidence, Pakistan is well-positioned for continued growth momentum. The Key policy measures, including monetary easing and export facilitation, are creating an environment conducive to private sector-driven growth. It is expected that if this positive momentum is maintained, the economy will continue to further strengthen in the coming months.

#### **ACKNOWLEDGEMENT**

On behalf of the Board, we would once again like to thank the State Bank of Pakistan, the Securities and Exchange Commission of Pakistan, and other regulatory authorities for their continuous guidance and support. At the same time, we would like to express our gratitude to our shareholders, our customers and the Bank's staff for their continued support.

On behalf of the Board.

# NOTES TO THE UNCONSOLIDATED CONDENSED INTERIM FINANCIAL STATEMENTS (UN-AUDITED)

FOR THE QUARTER ENDED MARCH 31, 2025

#### 1. STATUS AND NATURE OF BUSINESS

1.1 Bank Makramah Limited (the Bank), is a banking company incorporated in Pakistan on December 09, 2005 as a public company limited by shares under the repealed Companies Ordinance, 1984 (now Companies Act, 2017). The Bank's registered office is situated at Plot No. 9-C, F-6 Markaz, Supermarket, Islamabad, Pakistan and its principal office is situated at Summit Tower, Plot No. G-2, Block 2, Scheme 5, Clifton, Karachi, Pakistan.

The Bank is engaged in banking services as described in the Banking Companies Ordinance, 1962 and is operating through its 150 Conventional Banking Branches and 12 Islamic Banking Branches (December 31, 2024: 150 Conventional Banking Branches and 12 Islamic Banking Branches) in Pakistan.

1.2 In 2019, VIS Credit Rating Company Limited suspended the Bank's medium to long-term rating of 'BBB -' (Triple B Minus) and its short-term rating of 'A-3' (A-Three). The Bank has initiated the rating process with VIS Credit Rating Company Limited and requested the State Bank of Pakistan (SBP) to allow completion of the credit rating exercise by August 31, 2025.

VIS Credit Rating Company Limited has issued a new rating scale for Tier-2 capital instruments. Consequently, the Bank's TFC rating has been adjusted to 'B' (Single B) with a 'Rating Watch-Negative' outlook, as stated in their press release dated June 27, 2023. Previously, the Bank's TFC rating was assigned 'D' (Default) due to non-payment of its latest mark-up payment on account of lock-in clause invoked by the Bank under the applicable Regulations of SBP.

1.3 During the quarter ended, the Bank has incurred a net loss of Rs. 864.152 million resulting in accumulated losses of Rs. 53,420.105 million and negative equity of Rs. 19,923.286 million. As per the applicable laws and regulations, the Bank is required to maintain Minimum Paid-up Capital (net of losses) (MCR) of Rs. 10 billion, Capital Adequacy Ratio (CAR) at 11.50% (inclusive of Capital Conservation Buffer of 1.50%), Leverage Ratio (LR) at 3.00%, Liquidity Coverage Ratio (LCR) at 100% and Net Stable Funding Ratio (NSFR) at 100% as of March 31, 2025. However, the paid up capital of the Bank (net of losses), CAR and LR are negative.

The aforementioned conditions indicate the existence of material uncertainty that may cast significant doubt on the Bank's ability to continue as a going concern and, therefore, the Bank may be unable to realize its assets and discharge its liabilities in the normal course of business. However, the Bank is making its best efforts to comply with the applicable capital requirements and has successfully increased its capital. To achieve this, the management has prepared a business plan, which has been approved by the Board. This plan aims to improve the Bank's capital base and risk absorption capacity, achieve compliance with applicable regulatory requirements and provide impetus to its future growth initiatives. The key assumptions considered in the business plan are as follows:

- Injection of capital;
- Sale of a portion of self-constructed property on the plot of land bearing No. G-2, Block2,
   Scheme No: 5:
- Reaping benefits from the expected growth of Islamic finance in Pakistan since the Bank will speed-up the implementation process of its earlier decision of conversion to a full-fledged Islamic bank;

- Recoveries from non-performing advances through strenuous and focused recovery efforts;
- Reduction in overall level of non-earning assets held by the Bank;
- Identifying opportunities for rationalization of the cost structure;
- Improvement in the risk management and technological infrastructure of the Bank to support the business plan;
- Investments / exposures in safe avenues for achieving solid growth in the core business income; and
- Income generation through avenues for mark up income and non-mark up income.

The Board of Directors in their meeting held on November 28, 2024, have approved the Scheme of Arrangement for the restructuring of the Bank ("Restructuring Scheme") subject to:

- i) Procurement of all applicable regulatory, corporate and shareholders' approvals; and
- ii) Sanction of the Restructuring Scheme by the Honorable High Court of Islamabad under Sections 279 to 283 and 285(8) of the Companies Act, 2017.

The broad terms of the scheme are as follows:

- i) Global Haly Development (GHDL) shall stand amalgamated into the Bank;
- ii) TFC Redemption Amount (as defined in the Restructuring Scheme) shall be settled and paid through issuance and allotment of fully paid ordinary shares of the Bank to TFC holders'; and
- iii) Share capital of the Bank shall be reduced through cancellation of the share capital unrepresented by the available assets.

Further, the shareholders in their Extraordinary General Meeting (EOGM) held on December 26, 2024 approved the Restructuring Scheme.

The TFC Holders of the Bank in their Extra Ordinary General Meeting (EOGM) held on January 21, 2025 decided to continue as TFC Holders. However, the Restructuring Scheme will continue as already approved by the shareholders.

Furthermore, the Bank has filed a settlement application before the relevant court, for the recovery of non performing loans (NPLs) owned by various companies of the Omni Group and its affiliated entities dated January 22, 2025. The Court has graciously issued a decree in favour of the Bank affirming its right to recover approximately Rs 10 billion, which will now be recoverable under the agreed term of the settlement.

14.1 The net deferred tax asset has been recognized in accordance with the Bank's accounting policy. The management, based on financial projections, estimates that sufficient taxable profits would be available in future against which the deferred tax asset could be realized. The projections includes certain key assumptions underlying management's estimation of profits (Refer Note 1.3). Any significant change in such assumptions may have effect on the recoverability of deferred tax asset. The management believes that it is probable that the Bank would be able to achieve the profits and consequently, the deferred tax amount will be fully realized in future.

#### 21. SUBORDINATED DEBT

Issue amount Rs.1,500,000,000

Issue date October 27, 2011

Maturity date October 27, 2022 (December 31, 2023: October 27, 2022)

These TFCs were issued by the Bank on October 27, 2011 for an initial tenure of seven years and maturity date of October 27, 2018. In order to protect the interest of the TFC Holders, the tenure of the TFC together with the payment of applicable redemption amounts were extended for fourth time by the Bank to October 27, 2019, October 27, 2020, October 27, 2021 and October 27, 2022 through the extraordinary resolutions passed by the TFC holders on November 19, 2018, April 10, 2019, November 20, 2019, October 22, 2020 and October 26, 2021. The Bank completed necessary regulatory formalities for these extensions and executed the amended Declaration of Trusts on July 23, 2019, September 23, 2020, July 09, 2021 and August 01, 2022. The final approval of these extensions were approved by the SBP vide its letters dated October 21, 2019, October 21, 2020, October 22, 2021 and October 24, 2022.

Subsequently, approval was granted by the TFC Holders (in their meeting held on October 27, 2022) for extension in the maturity date and associated rescheduling of the coupon payments of the Term Finance Certificate upto October 27, 2023.

In November, 2024 the Board of Directors of Bank Makramah Limited (BML) has initiated the implementation of the BML Restructuring Scheme to ensure the bank's financial viability. The scheme aims to restructure BML's shareholding structure by increasing its equity and reducing overall debt, thereby strengthening its financial health and positioning the bank for sustained growth. Under the proposed scheme, subject to court sanction, the outstanding redemption amount owed to Term Finance Certificate (TFC) holders was to be settled through the issuance and allotment of fully paid ordinary shares of BML.

Following the filing of the scheme, three meetings with TFC holders were held on December 27, 2024, January 13, 2025, and January 21, 2025. In the final meeting, the TFC Holders decided to continue as TFC Holders of Bank Makramah Limited and unanimously resolved to extend the maturity period of the TFCs to 27th October 2025, subject to State Bank of Pakistan (SBP) approval, and resolved that the next meeting would be held on 14th October 2025, two weeks before the revised maturity date.

33.1 This represents the provision for minimum taxation made in accordance with the requirements of section 113 of the Income Tax Ordinance, 2001. Therefore, reconciliation of tax expense and accounting profit / loss has not been disclosed.

According to ICAP guide dated May 2024, minimum taxes do not qualify as income tax expense under IAS 12 Income Taxes. Instead, they should be accounted for as levy under IFRIC 21 "Levies" and IAS 37 "Provisions, Contingent Liabilities and Contingent Assets". Since the SBP has not officially adopted or communicated any changes to the format of the financial statements (refer note 2.3), no changes have been made to the format of the statement of profit and loss account.

**33.2** The Income Tax Returns of the Bank have been submitted up to and including the Bank's financial year ended December 31, 2023 i.e. tax year 2024.

In respect of assessments of Bank Makramah Limited from tax years 2009 to tax year 2019 and from tax year 2022 to tax year 2023, the tax authorities disputed the Bank's treatment on certain issues and created an additional tax demand (net of rectification) of Rs. 418.48 million through amended assessment orders and the same have been paid / stayed / adjusted against available refunds.

In respect of assessments of Bank Makramah Limited AJK Region from tax year 2013 to tax year 2017, the tax authorities disputed the Bank's treatment on certain issues and created an additional tax demand of Rs. 57.96 million through amended assessment orders and the same have been paid / stayed / adjusted against advance tax paid.

In respect of assessments of ex-My Bank Limited (now Bank Makramah Limited) from tax year 2003 to tax year 2011, the tax authorities disputed the Bank's treatment on certain issues and created additional tax demand of Rs. 456.62 million through amended assessment orders and the same have been paid / adjusted against available refunds.

In respect of assessments of ex-Atlas Bank Limited (now Bank Makramah Limited) from tax year 2003 to tax year 2010, the tax authorities disputed the Bank's treatment on certain issues and created additional tax demand of Rs. 89.74 million through amended assessment orders and the same have been paid / adjusted against available refunds.

Such issues mainly include disallowances of mark up payable, taxation of mutual fund distribution at corporate tax rate, disallowance of provision against non-performing loans, disallowance of reversal of provisions, allocation of expenses against dividend income and capital gain, disallowances against non-banking assets, disallowances of certain HO expenses, addition to mark-up/interest earned in AJK region etc. The Bank has filed appeals before the various appellate forums against these amended assessment orders which are either pending for hearing or order.

The management of the Bank is confident about the favourable outcome of the appeals hence, no provision / adjustment with respect to the above matters has been made in these unconsolidated financial statements.

33.3 In pursuance of SRO 1588(I)/2023 dated 21 November 2023, banking companies have been designated to be the 'sector' for the purpose of section 99D of the Income Tax Ordinance 2001, for the tax years 2022 and 2023. The Bank through its legal counsel has challenged the above levy, and the High Court of Sindh, initially suspended the operation of the aforementioned SRO and granted stay to the Bank. Subsequently, the High Court of Sindh respectfully denied the oral motion for suspension with the considered view that grant of the oral motion would militate against the edicts of the Supreme Court. However, the Bank has recorded a prior year charge of Rs 122.970 million in these unconsolidated financial statements.

#### 36. FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified at amortised cost / held to maturity, is based on quoted market price. Quoted debt securities classified as amortised cost / held to maturity are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available audited financial statements.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since these are either short-term in nature or, in the case of customer loans and deposits, are frequently repriced.

# 36.1 Fair value of financial assets

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

# NOTES TO THE CONSOLIDATED CONDENSED INTERIM FINANCIAL STATEMENTS (UN-AUDITED)

FOR THE QUARTER ENDED MARCH 31, 2025

# 1. STATUS AND NATURE OF BUSINESS

# 1.1 The Group comprises of:

# 1.1.1 Holding Company: Bank Makramah Limited

Bank Makramah Limited (the Bank), is a banking company incorporated in Pakistan on December 09, 2005 as a public company limited by shares under the repealed Companies Ordinance, 1984 (now Companies Act, 2017). The Bank's registered office is situated at Plot No. 9-C, F-6 Markaz, Supermarket, Islamabad, Pakistan and its principal office is situated at Summit Tower, Plot No. G-2, Block 2, Scheme 5, Clifton, Karachi, Pakistan.

The Bank is engaged in banking services as described in the Banking Companies Ordinance, 1962 and is operating through its 150 Conventional Banking Branches and 12 Islamic Banking Branches (December 31, 2024: 150 Conventional Banking Branches and 12 Islamic Banking Branches) in Pakistan.

In 2019, VIS Credit Rating Company Limited suspended the Bank's medium to long-term rating of 'BBB -' (Triple B Minus) and its short-term rating of 'A-3' (A-Three). The Bank has initiated the rating process with VIS Credit Rating Company Limited and requested the State Bank of Pakistan (SBP) to allow completion of the credit rating exercise by August 31, 2025.

VIS Credit Rating Company Limited has issued a new rating scale for Tier-2 capital instruments. Consequently, the Bank's TFC rating has been adjusted to 'B' (Single B) with a 'Rating Watch-Negative' outlook, as stated in their press release dated June 27, 2023. Previously, the Bank's TFC rating was assigned 'D' (Default) due to non-payment of its latest mark-up payment on account of lock-in clause invoked by the Bank under the applicable Regulations of SBP.

# 1.1.2 Subsidiary

# Summit Capital Private Limited - 100 % Shareholding

SCPL, the subsidiary company was incorporated in Pakistan on March 08, 2006 under the repealed Companies Ordinance, 1984 (now Companies Act, 2017). The subsidiary company is a corporate member / TREC holder of Pakistan Stock Exchange Limited and Pakistan Mercantile Exchange Limited. The principal activities of the subsidiary company are equity and money market brokerage, interbank foreign exchange brokerage, commodity brokerage and research. The registered office of the Subsidiary is situated at 504-506, 5th Floor, Balad Trade Centre III, Plot # D-75, Block 7, Clifton, Karachi. The Group acquired interest in SCPL by virtue of amalgamation of Atlas Bank Limited.

1.2 During the quarter ended, the Group has incurred a net loss of Rs. 862.415 million resulting in accumulated losses of Rs. 53,523.739 million and negative equity of Rs. 19,986.863 million. As per the applicable laws and regulations, the Group is required to maintain Minimum Paid-up Capital (net of losses) (MCR) of Rs. 10 billion, Capital Adequacy Ratio (CAR) at 11.50% (inclusive of Capital Conservation Buffer of 1.50%), Leverage Ratio (LR) at 3.00%, Liquidity Coverage Ratio (LCR) at 100% and Net Stable Funding Ratio (NSFR) at 100% as of March 31, 2025. However, the paid up capital of the Group (net of losses), CAR and LR are negative.

The aforementioned conditions indicate the existence of material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern and, therefore, the Group may be unable to realize its assets and discharge its liabilities in the normal course of business. However, the Group is making its best efforts to comply with the applicable capital requirements and has successfully increased its capital. The management has prepared a business plan, which has been approved by the Board. This plan aims to improve the Group's capital base and risk absorption capacity, achieve compliance with applicable regulatory requirements and provide impetus to its future growth initiatives. The key assumptions considered in the business plan are as follows:

Injection of capital;

- Sale of a portion of self-constructed property on the plot of land bearing No. G-2, Block 2, Scheme No: 5;
- Reaping benefits from the expected growth of Islamic finance in Pakistan since the Group will speed-up the implementation process of its earlier decision of conversion to a full-fledged Islamic bank;
- Recoveries from non-performing advances through strenuous and focused recovery efforts:
- Reduction in overall level of non-earning assets held by the Group;
- Identifying opportunities for rationalization of the cost structure;
- Improvement in the risk management and technological infrastructure of the Group to support the business plan;
- Investments / exposures in safe avenues for achieving solid growth in the core business income: and
- Income generation through avenues for mark-up income and non-mark up income.

The Board of Directors in their meeting held on November 28, 2024, have approved the Scheme of Arrangement for the restructuring of the Bank ("Restructuring Scheme") subject to:

- i) Procurement of all applicable regulatory, corporate and shareholders' approvals; and
- ii) Sanction of the Restructuring Scheme by the Honorable High Court of Islamabad under Sections 279 to 283 and 285(8) of the Companies Act, 2017.

The broad terms of the Restructuring Scheme are as follows:

- i) Global Haly Development Limited (GHDL) shall be amalgamated into the Bank;
- TFC redemption amount (as defined in the Restructuring Scheme) shall be settled and paid through the issuance and allotment of fully paid ordinary shares of the Group to TFC holders; and
- iii) Share capital of the Group shall be reduced through cancellation of the share capital unrepresented by available assets.

Furthermore, the shareholders in their Extraordinary General Meeting (EOGM) held on December 26, 2024 approved the Restructruring Scheme.

The TFC Holders of the Group in their Extra Ordinary General Meeting (EOGM) held on January 21, 2025 decided to continue as TFC Holders. However, the Restructuring Scheme will continue as already approved by the shareholders.

Furthermore, the Group has filed a settlement application before the relevant court, for the recovery of non performing loans (NPLs) owned by various companies of the Omni Group and its affiliated entities dated January 22, 2025. The Court has graciously issued a decree in favour of the Group affirming its right to recover approximately Rs 10 billion, which will now be recoverable under the agreed term of the settlement.

14.1 The net deferred tax asset has been recognized in accordance with the Group's accounting policy. The management, based on financial projections, estimates that sufficient taxable profits would be available in future against which the deferred tax asset could be realized. The projections includes certain key assumptions underlying management's estimation of profits (Refer Note 1.2). Any significant change in such assumptions may have effect on the recoverability of deferred tax asset. The management believes that it is probable that the Group would be able to achieve the profits and consequently, the deferred tax amount will be fully realized in future.

### 21. SUBORDINATED DEBT

Issue amount Rs.1,500,000,000

Issue date October 27, 2011

Maturity date October 27, 2022

These TFCs were issued by the Bank on October 27, 2011 for an initial tenure of seven years and maturity date of October 27, 2018. In order to protect the interest of the TFC Holders, the tenure of the TFC together with the payment of applicable redemption amounts were extended for fourth time by the Bank to October 27, 2019, October 27, 2020, October 27, 2021 and October 27, 2022 through the extraordinary resolutions passed by the TFC holders on November 19, 2018, April 10, 2019, November 20, 2019, October 22, 2020 and October 26, 2021. The Bank completed necessary regulatory formalities for these extensions and executed the amended Declaration of Trusts on July 23, 2019, September 23, 2020, July 09, 2021 and August 01, 2022. The final approval of these extensions were approved by the SBP vide its letters dated October 21, 2019, October 21, 2020, October 22, 2021 and October 24, 2022.

Subsequently, approval was granted by the TFC Holders (in their meeting held on October 27, 2022) for extension in the maturity date and associated rescheduling of the coupon payments of the Term Finance Certificate upto October 27, 2023.

In November, 2024 the Board of Directors of Bank Makramah Limited (BML) has initiated the implementation of the BML Restructuring Scheme to ensure the bank's financial viability. The scheme aims to restructure BML's shareholding structure by increasing its equity and reducing overall debt, thereby strengthening its financial health and positioning the bank for sustained growth. Under the proposed scheme, subject to court sanction, the outstanding redemption amount owed to Term Finance Certificate (TFC) holders was to be settled through the issuance and allotment of fully paid ordinary shares of BML.

Following the filing of the scheme, three meetings with TFC holders were held on December 27, 2024, January 13, 2025, and January 21, 2025. In the final meeting, the TFC Holders decided to continue as TFC Holders of Bank Makramah Limited and unanimously resolved to extend the maturity period of the TFCs to 27th October 2025, subject to State Bank of Pakistan (SBP) approval, and resolved that the next meeting would be held on 14th October 2025, two weeks before the revised maturity date.

33.1 This represents the provision for minimum taxation made in accordance with the requirements of section 113 of the Income Tax Ordinance, 2001. Therefore, reconciliation of tax expense and accounting profit / loss has not been disclosed.

According to ICAP guide dated May 2024, minimum taxes do not qualify as income tax expense under IAS 12 Income Taxes. Instead, they should be accounted for as levy under IFRIC 21 "Levies" and IAS 37 "Provisions, Contingent Liabilities and Contingent Assets". Since the SBP has not officially adopted or communicated any changes to the format of the financial statements (refer note 2.5), no changes have been made to the format of the statement of profit and loss account.

**33.2** The Income Tax Returns of the Bank and its subsidiary have been submitted up to and including financial year ended December 31, 2023 i.e. tax year 2024.

In respect of assessments of Bank Makramah Limited from tax years 2009 to tax year 2019 and from tax year 2022 to tax year 2023, the tax authorities disputed the Bank's treatment on certain issues and created an additional tax demand (net of rectification) of Rs. 418.48 million through amended assessment orders and the same have been paid / stayed / adjusted against available refunds.

In respect of assessments of Bank Makramah Limited AJK Region from tax year 2013 to tax year 2017, the tax authorities disputed the Bank's treatment on certain issues and created an additional tax demand of Rs. 57.96 million through amended assessment orders and the same have been paid / stayed / adjusted against advance tax paid.

In respect of assessments of ex-My Bank Limited (now Bank Makramah Limited) from tax year 2003 to tax year 2011, the tax authorities disputed the Bank's treatment on certain issues and created additional tax demand of Rs. 456.62 million through amended assessment orders and the same have been paid / adjusted against available refunds.

In respect of assessments of ex-Atlas Bank Limited (now Bank Makramah Limited) from tax year 2003 to tax year 2010, the tax authorities disputed the Bank's treatment on certain issues and created additional tax demand of Rs. 89.74 million through amended assessment orders and the same have been paid / adjusted against available refunds.

Such issues mainly include disallowances of mark up payable, taxation of mutual fund distribution at corporate tax rate, disallowance of provision against non-performing loans, disallowance of reversal of provisions, allocation of expenses against dividend income and capital gain, disallowances against non-banking assets, disallowances of certain HO expenses, addition to mark-up/interest earned in AJK region etc. The Bank has filed appeals before the various appellate forums against these amended assessment orders which are either pending for hearing or order.

The management of the Group is confident about the favorable outcome of the appeals hence, no provision / adjustment with respect to the above matters has been made in these consolidated financial statements.

33.3 In pursuance of SRO 1588(I)/2023 dated 21 November 2023, banking companies have been designated to be the 'sector' for the purpose of section 99D of the Income Tax Ordinance 2001, for the tax years 2022 and 2023. The Bank through its legal counsel has challenged the above levy, and the High Court of Sindh, initially suspended the operation of the aforementioned SRO and granted stay to the Bank. Subsequently, the High Court of Sindh respectfully denied the oral motion for suspension with the considered view that grant of the oral motion would militate against the edicts of the Supreme Court. However, the Bank has recorded a prior year charge of Rs 122.970 million in these consolidated financial statements.

# 36. FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity are carried at cost. The fair value of unquoted equity securities is determined on the basis of the break-up value of these investments as per their latest available audited financial statements.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since these are either short-term in nature or, in the case of customer loans and deposits, are frequently repriced.

# 36.1 Fair value of financial assets

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

36.2	The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy
	into which the fair value measurement is categorized.

# Valuation techniques used in determination of fair value

Item	Valuation approach and input used
Federal Government Securities-Unlisted	The fair values of Market Treasury Bills (MTB) and Pakistan Investment Bonds (PIB) are determined using the PKRV rates. Floating rate PIBs are revalued using PKFRV rates. The fair values of GOP ljarah Sukuks are derived using the PKISRV rates.
Federal Government Securities-Listed	The fair value of investment in listed GOP IJarah Sukkuk are valued on the basis of closing quoted market price available at the Pakistan Stock Exchange.
Ordinary shares - Listed	The fair value of investment in listed equity securities are valued on the basis of closing quoted market price available at the Pakistan Stock Exchange.
Ordinary shares - Unlisted	This represents breakup value of investments.
Non-Government Debt Securities	Investments in debt securities (comprising term finance certificates, bonds and any other security issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital) are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan.
Forward foreign exchange contracts	The valuation has been incorporated by interpolating the foreign exchange revaluation rates announced by the SBP.
Property & equipment (land and building) and non-banking assets acquired in satisfaction of claims	The valuation experts used a market based approach to arrive at the fair value of the Bank's properties. The market approach used prices and other relevant information generated by market transactions involving identical or comparable or similar properties.
in saustaction of claims	The effect of changes in the unobservable input used in the valuation can not be determined with certainty. Accordingly a qualitative disclosure of sensitivity has not been presented in these consolidated financial statements.
