DIRECTORS' REVIEW REPORT FOR THE PERIOD ENDED 31 MARCH 2025

The Board of Directors present the Directors' Report for the third quarter ended 31 March 2025. This report provides an overview of the Company's operational performance during the period, while also contextualizing the broader economic headwinds afflicting the local steel industry.

Despite a year marked by significant economic headwinds, recent macroeconomic developments provide grounds for cautious optimism. The government's concerted efforts to stabilize the economy have started to yield encouraging results. The rupee has shown resilience, interest rates are on a downward trajectory, and electricity tariffs have been recently reduced, offering much-needed relief to the industrial sector. On the global front, the stability in scrap prices and a decline in oil prices have further alleviated cost pressures, creating a more favorable environment for businesses.

Looking ahead, GDP growth projections for 2026, estimated between 3.0% and 3.6%, signal a gradual but steady recovery in economic activity. These positive trends, coupled with structural reforms and improved external conditions, are expected to foster a more conducive business environment. While challenges remain, the Company is optimistic about its ongoing financial restructuring efforts under the Master Restructuring Agreement which hold the promise of enhanced financial flexibility. This, in turn, will enable the Company to address operational hurdles, sustain its commitments, and position itself for a stronger recovery.

The industry also anticipates government support through targeted relief measures, including the introduction of equitable tax regimes, discontinuation of preferential tax treatment in the FATA and PATA regions to ease the burden on documented businesses, and stricter enforcement to curb smuggling from neighboring countries that disrupts market dynamics. Additionally, implementing structural reforms to ensure a level playing field for all stakeholders is essential. These steps would significantly strengthen the industry's ability to recover and compete effectively, ultimately contributing to higher revenues for the exchequer and the creation of more employment opportunities.

Company Performance

An analysis of the key financial indicators of the Company for the nine months' period and quarter ended 31 March 2025, compared with the corresponding period last year, is tabulated below:

	Nine months Ended 31 March 2025 (Rs. in million)	Nine months Ended 31 March 2024 (Restated) (Rs. in million)	Quarter Ended 31 March 2025 (Rs. in million)	Quarter Ended 31 March 2024 (Restated) (Rs. in million)
Net Sales	12,910	33,433	4,109	11,182
Gross Profit	339	3,376	94	888
Operating (loss) / Profit	(791)	1,695	(440)	351
Finance Costs	(3,140)	(3,554)	(900)	(1,288)
Loss before taxation	(3,932)	(1,859)	(1,340)	(937)
Loss after taxation	(2,858)	(1,298)	(985)	(666)
Loss per share - basic and diluted	(9.62)	(4.37)	(3.32)	(2.24)

During the nine-month period, net sales declined sharply to Rs. 12,910 million, a significant 61% drop compared to Rs. 33,433 million in the same period last year. Gross profit also saw a considerable reduction, decreasing to Rs. 339 million from Rs. 3,376 million in the corresponding period of the previous year. This downturn was primarily driven by rising production costs, largely stemming from unabsorbed fixed expenses due to low capacity utilization. The latter was a direct consequence of ongoing financial restructuring and the resulting unavailability of working capital lines. These financial constraints disrupted operations and delayed critical imports, further deteriorating the Company's financial standing.

The operating loss for the period amounted to Rs. 791 million, in contrast to an operating profit of Rs. 1,695 million reported during the same period last year. Finance costs continued to weigh heavily, standing at Rs. 3,140 million, slightly lower than the Rs. 3,554 million incurred in the same period last year. Loss before and after taxation amounted to Rs. 3,932 million and Rs. 2,858 million, respectively,

compared to Rs. 1,859 million and Rs. 1,298 million in the corresponding period last year. Consequently, loss per share widened to Rs. 9.62, up from Rs. 4.37 reported in the same nine-month period last year.

The quarterly results for the period ended 31 March 2025 were similarly challenging. Net sales for the quarter were Rs. 4,109 million, representing a 63% decline from Rs. 11,182 million in the corresponding quarter of the previous year. Gross profit for the quarter plummeted by 89% to Rs. 94 million, compared to Rs. 888 million last year. The Company recorded an operating loss of Rs. 440 million for the quarter, as compared to operating profit of Rs. 351 million achieved in the same period last year. Finance costs for the quarter recorded at Rs. 900 million, though slightly lower than Rs. 1,288 million in the previous year's quarter. The loss per share for the quarter expanded to Rs. 3.32, compared to Rs. 2.24 in the corresponding period of the previous year.

Future Outlook:

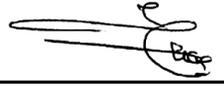

The outlook for the remainder of the current fiscal year remains challenging. The broader economic climate continues to place significant pressure on the steel industry, while inconsistent policy measures further strain an already fragile industrial landscape. Despite these persistent headwinds, the Company remains fully committed to restoring financial health. Stakeholders can be assured that targeted strategic actions are underway to navigate this difficult period, with management firmly focused on long-term sustainability and a return to stable operations.

The Board remains confident in the successful restructuring of financial facilities with lending partners and the restoration of critical financial support previously extended to the Company. Securing this support will allow the Company to utilize available credit lines to open LCs for essential imports, vital toward stabilizing operations. The Board extends its sincere appreciation to all valued stakeholders - including shareholders, lenders, customers, and suppliers - for their continued trust and unwavering support during these challenging times.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UN-AUDITED)

FOR THE NINE MONTHS PERIOD ENDED MARCH 31, 2025

1 THE COMPANY AND ITS OPERATIONS

Amreli Steels Limited (the Company) was incorporated under repealed Companies Ordinance 1984, as a private limited company and converted into a public unquoted company in 2009. The Company enlisted on Pakistan Stock Exchange in 2015. The Company is engaged in manufacture and sale of steel bars and billets. The registered office of the Company is at Plot No. A-18, S.I.T.E., Karachi.

2 MATERIAL UNCERTAINTY RELATED TO GOING CONCERN

During the year ended June 30, 2024 and the current period, the Company faced various challenges included, but were not limited to, a tight monetary policy, constrained fiscal space, high inflation, exorbitant energy costs, mounting external and domestic debt burdens, and stringent conditions associated with International Monetary Fund (IMF) support. These unprecedented external factors placed considerable pressure on the construction sector, leading to reduced demand and capacity utilization. Further, the Company has shutdown its plant located at Shershah and due to unfavourable financial position of the Company, the Company breached the covenant of all long term loan (refer note 11.2). As a result the Company has incurred a substantial net loss for the period amounting to Rs. 2,858.604 million (March 31, 2024: Rs. 1,298.987 million) and, as of that date, the Company's accumulated losses stood at Rs. 3,427.951 million (June 30, 2024: Rs. 751.018 million) and the current liabilities exceeded its current assets by Rs. 13,780.583 million (June 30, 2024: Rs. 10,742.584 million).

These events or conditions, along with other matters as stated above, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern.

However, management has devised strategies to navigate these challenges, including debt restructuring and reducing operational costs, and sales of under-utilized assets including warehouses and building (refer note 10.1). The restructuring process is currently at advanced stage and 80% firm approvals have already been secured by the Company. Furthermore, the management also plans to improve liquidity up to Rs. 4 billion in combination of sale of non core asset and equity. Further, among these assets, the sale of one asset is subject to issuance of NOC from banks. Despite challenges, the management believes the Company's future outlook is positive, citing the GDP growth forecast, a decrease in inflation, and an expected further decline in interest rates to a single digit, which will further boost the construction industry. Accordingly, the management believes that going concern basis of accounting is appropriate, therefore, these condensed interim financial statements have been prepared on a going concern basis.

3 BASIS OF PREPARATION

3.1 Statement of Compliance

These condensed interim financial statements of the Company have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- Provisions of and directives issued under the Companies Act, 2017 (the Act);
- International Accounting Standard (IAS 34), Interim Financial Reporting, issued by International Accounting Standard Board (IASB) as notified under the Act; and
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as are notified under the Act;

Where the provisions of and directives issued under the Act or IFAS differ with the requirements of IAS 34, the provisions of and directives issued under the Act or IFAS have been followed.

These condensed interim financial statements do not include all the information and disclosures required in annual financial statements and should be read in conjunction with the Company's annual financial statements as at and for the year ended June 30, 2024. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Company's financial position and performance since the last annual financial statements.
