DIRECTORS' REPORT

FOR THE SIX MONTHS PERIOD ENDED JUNE 30, 2024

On behalf of the Board of Directors of PIA Holding Company Limited (PIAHCL), we are pleased to present the performance report along with the financial statements for the period May 01, 2024, till June 30, 2024.

During the reported period of two months, the Company earned a revenue of PKR 16 million, whereas the reported expenses of PKR 984 million primarily relate to retirement benefits disbursed to retired employees of Pakistan International Airlines Corporation Limited (PIACL) and the finance cost of PKR 3,078 million pertains to interest accrued on government loans. These liabilities were assumed by the Company pursuant to the approved Scheme of Arrangement (SOA) and hence are being supported through financial assistance from the Government of Pakistan. This translated into a loss of PKR 4,046 million for the reported period.

The formation of PIAHCL marks a significant step in the Government's ongoing privatization initiative for PIACL. This restructuring of PIACL aims to streamline its operations, attract strategic investment, and enhance overall service delivery. Through a targeted corporate and financial reorganization, PIAHCL is now positioned to provide strategic oversight, enabling PIACL to remain focused on core airline operations. This structural delineation between core and non-core functions is expected to drive operational synergies, optimize resource allocation, and improve long-term financial performance of PIACL.

Under the new structure, a portfolio of diversified subsidiaries has been transferred to PIAHCL, including PIA Investments Limited, Skyrooms Private Limited and Sabre Travel Network Pakistan (Private) Limited. PIA Investments Limited and Skyrooms Private Limited focus on hospitality services, while Sabre Travel Network Pakistan provides travel and tourism solutions, collectively enhancing group synergies and shareholder value. Additionally, Precision Engineering Complex (PEC), formerly a strategic business unit of PIACL, is also part of PIAHCL.

Going forward, the Management of PIAHCL is committed to strengthening revenue streams through leasing of its real-estate portfolio; dividend income and management fees from subsidiaries while aiming to retire its liabilities from the privatization proceeds of PIACL and other assets.

PIAHCL's establishment reflects a proactive governance approach designed to create long-term stakeholder value, improve financial sustainability, and respond more effectively to changing market dynamics and customer expectations in a highly competitive environment.

INDEPENDENT AUDITORS' REVIEW REPORT

To the members of PIA Holding Company Limited

Report on review of unconsolidated condensed interim financial statements

Introduction

We have reviewed the accompanying unconsolidated condensed interim statement of financial position of PIA Holding Company Limited (the Company) as at 30 June 2024 and the related unconsolidated condensed interim statement of profit or loss, unconsolidated condensed interim statement of comprehensive income, unconsolidated condensed interim statement of changes in equity and notes to the unconsolidated condensed interim financial statements for the period from 01 May 2024 to 30 June 2024 (here-in-after referred as the "condensed interim financial statements"). Management is responsible for the preparation and presentation of this interim financial statements in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of condensed interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying unconsolidated condensed interim financial statements as at 30 June 2024 is not prepared, in all material respects, in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting.

Emphasis of matter

We draw attention to note 1.2 to the unconsolidated condensed interim financial statements which states that the Government of Pakistan has confirmed to extend maximum financial support to the Company to maintain its going concern status. Hence, the sustainability of the future operations of the Company is dependent on the said support. Our conclusion is not modified in respect of this matter.

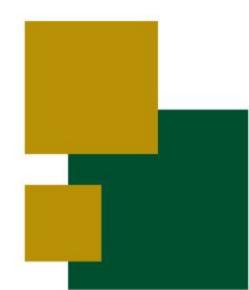

The engagement partners on the review resulting in this independent auditors' review report is Muhammad Khalid Aziz.

2 STATEMENT OF COMPLIANCE

These unconsolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards applicable in Pakistan for interim financial reporting comprise of International Accounting Standard (IAS) - 34 'Interim Financial Reporting', issued by the International Accounting Standards Board (IASB) as notified under the Act and provisions of and directives issued under the Act. Where the provisions of and directives issued under the Act differ with the requirements of IAS 34, the provisions of and directives issued under the Act have been followed.

3 BASIS OF PREPARATION

- 3.1 These unconsolidated condensed interim financial statements do not include all the information and disclosures required in annual financial statements.
- 3.2 These unconsolidated condensed interim financial statements are presented in Pakistan Rupees which is also the Company's functional currency and all financial information presented has been rounded off to the nearest thousand rupees, unless otherwise stated.
- 3.3 These are separate unconsolidated condensed interim financial statements of the Company in which investment in subsidiaries and associates are carried at cost less accumulated impairment loss, if any.

4 SIGNIFICANT ACCOUNTING ESTIMATES AND JUDEMENTS

The preparation of unconsolidated condensed interim financial statements in conformity with approved accounting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgements in the process of applying the Company's accounting policies. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognized in the year in which the estimates is revised and in any future years effective. Significant accounting estimates and judgements are disclosed in the relevant notes to these unconsolidated condensed interim financial statements.

5 MATERIAL ACCOUNTING POLICIES

During the period, the Company has adopted the following accounting policies for the preparation of these financial statements.

5.1 Property, plant and equipment

Operating fixed assets

Land classified as 'others' are stated at cost, whereas buildings classified as 'others' are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Leasehold land and buildings thereon are initially recognized at cost and are subsequently measured at revalued amounts less accumulated depreciation and impairment losses, if any. Other items of property, plant and equipment are stated at cost less accumulated depreciation and impairment losses, if any.

Depreciation is charged to the statement of profit or loss, applying the straight-line method. Depreciation on additions is charged from the month in which the asset is available for use and on disposals up to the month preceding the disposal. The useful lives of buildings at revaluation model are determined by the management based on the appraisal of an independent valuer. The assets' residual values, useful lives and methods of depreciation are reviewed, and adjusted, if appropriate, at the end of each reporting period.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss in the year the asset is derecognized. When revalued assets are sold or retired from operation, the relevant remaining surplus is transferred to statement of profit or loss and to retained earnings, respectively.

Impairment

The carrying values of property, plant and equipment are reviewed at each reporting date for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable. If such indication exists and where the carrying values exceed the estimated recoverable amounts, the assets are written down to their recoverable amounts.

Capital work-in-progress

These are stated at cost less accumulated impairment losses, if any.

5.2 Investment property

Property held for rental earning or capital appreciation or both, is classified as investment property. These are measured initially at cost, including related transaction costs directly attributable to acquisition and subsequently carried at their fair values based on market value determined by professional independent valuers on a continuing basis. Gain or loss arising as a result of fair valuation is recorded to statement of profit or loss.

5.3 Investments in subsidiaries and associates

These are stated at cost less accumulated impairment losses, if any.

5.4 Trade debts and other receivables

These are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost less provision for impairment.

5.5 Cash and cash equivalents

These are stated at cost

5.6 Trade and other payables

Liabilities for trade creditors and other amounts payable are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost.

5.7 Loans and borrowings

These are initially recognised at fair value of the consideration received less directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method.

The Company recognises the borrowing costs as an expense in the year in which these costs are incurred, except the borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset (i.e., an asset that necessarily takes a substantial year of time to get ready for its intended use or sale) are capitalised as part of the cost of that asset.

5.8 Financial instruments

Financial assets and financial liabilities

The particular recognition methods adopted for significant financial assets and financial liabilities are disclosed in the individual policy statements associated with them. Financial assets are de-recognized when the contractual right to future cash flows from the asset expires or is transferred along with the risk and reward of the asset. Financial liabilities are de-recognized when obligation specified in the contract is discharged, cancelled or expired. Any gain or loss on de-recognition of the financial assets and liabilities is included in the statement profit or loss of the current period.

Off-setting of financial assets and financial liabilities

A financial asset and a financial liability is offset and the net amount is reported in the financial statements if the Company has a legally enforceable right to set-off the transaction and also intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

5.9 Taxation

Current

The charge for current taxation is based on taxable income at the current rates in accordance with Income Tax Ordinance, 2001. Since the Company has not earned any revenue during the period, no tax charge is required in these financial statements.

5.10 Provisions

Provisions are recognized when the Company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. Provisions are reviewed at each reporting date and adjusted to reflect current best estimate.

5.11 Foreign currency transactions

Foreign currency transactions are recorded at the exchange rates approximating those ruling on the date of the transactions. Monetary assets and liabilities in foreign currencies are translated at the rates using the average spot rate on the reporting date. Gains and losses on translation are taken to the statement of profit or loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items, measured at fair value in a foreign currency, are translated using the exchange rates at the date when the fair value was determined.

21 FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk, fuel price risk and other price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The Group's senior management carries out financial risk management under governance approved by the Board of Directors. Senior management identifies, evaluates and hedges financial risks, wherever necessary.

21.1 Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprise three types of risk: interest rate risk, currency risk and other price risk, such as fuel price and equity price risk. Financial instruments affected by market risk include loans and investments at FVOCI.

a) Fuel price risk

The Group's earnings are affected by changes in price of aircraft fuel. The Group hedges fuel prices to a limited extent through use of derivative contracts. There are no derivative contracts outstanding as of year end.

b) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Group's revenue streams are denominated in a number of foreign currencies resulting in exposure to foreign exchange rate fluctuations. In addition, the Group has substantial foreign currency borrowings and lease liabilities that are primarily denominated in US Dollar (US\$), Saudi Riyal (SAR), United Arab Emirates Dirham (AED), Euro (EUR) and Great Britain Pound (GBP). The Group can experience adverse or beneficial effects arising from foreign exchange rate movements. The Group manages some of its currency risk by utilising its foreign currency receipts to satisfy its foreign currency obligations. The following table demonstrates the sensitivity of financial instruments to a reasonable possible change in the foreign currency exchange rates, with all other variables held constant, on loss before tax:
