CHAIRMAN'S REVIEW REPORT

On behalf of the Board of Directors, it is my privilege to present to you the Annual Report 2024 and the review of performance of the Board of Directors of your Company.

The FY 2023-24 has been marked by significant challenges, faced by your company with resilience and strategic foresight. Various factors such as high level of discount rate, devaluation of PKR, highest ever inflation, high price of imported material and unprecedently high interest payment on account of CRM loans have added to the baggage of loss your company was already carrying due to closure of CRM project. Throughout most of the year, the business environment remained uncertain, driven by political and economic instability and averse government policies. One such policy challenge was the continued misuse of sales tax exemptions granted to the FATA/PATA regions, which has now been extended into FY 2024-25. Moreover, the unconventional use of Galvalume sheets - primarily intended for the construction industry - in food packaging created additional market distortions impacting your Company. The situation was further exacerbated by the unrestricted import of secondary tinplate at significantly lower prices, which severely affected the Company's ability to compete and maintain market share.

Despite these challenges, your Company made every possible effort to navigate the difficult landscape and successfully mitigated potential adverse impacts to the extent possible through prudent management and strategic decision-making.

As a result of the factors outlined above, the Company reported a loss before tax of Rs. 1.997 billion for the year, which includes a provision of Rs. 821 million related to the CISRI claim. In addition to the ongoing impact of the discontinued CRM project, the primary drivers of this loss were the high cost of imported raw materials, low capacity utilization, which led to an increase in manufacturing cost per metric ton.

Your company remained compliant with the Listed Companies (Code of Corporate Governance) Regulations 2019 and the Companies Act, 2017 during FY 2023-24.

An annual evaluation of the Board was conducted to assess its overall performance and effectiveness. The Board of Directors consistently upheld the principles of transparency, accountability, and integrity, ensuring the application of best governance practices throughout the year.

Robust frameworks for risk management and internal controls were established and actively maintained, reflecting our continued commitment to regulatory compliance, ethical business conduct, and the reinforcement of stakeholder trust. During the fiscal year 2023-2024, the Board convened four meetings, while the Audit Committee and Human Resources Committee held four and one meetings, respectively. These meetings ensured ongoing oversight of the Company's operations and the performance of the Board its sub-committees.

I would like to place on record my sincere appreciation for the Board's dedicated performance in fulfilling their responsibilities with diligence and professionalism, and for their valuable guidance to the executive management on all key decisions concerning the affairs of your Company.

In conclusion, I extend heartfelt gratitude to our shareholders, employees, and business partners for their continued support and commitment. Together, we shall focus on advancing our strategic goals and building a resilient, ethical, and forward-looking organization.

چیئر مین کی جائزہ رپورٹ

یورڈ آف ڈائریکٹرز کی جانب سے میں سالانہ رپورٹ 2024 اور آپ کی کمپنی کے ڈائریکٹران کی کارکردگی کا جائزہ پیش کرتے ہوئے اظہار صرفت کرتا ہوں۔

مالیاتی سال 2023-2024 کے دوران کمپنی کو قابوں کا سامنا رہا جن کا مقابلہ آپ کی کمپنی نے شائستگی اور کلیدی دورانہ میش سے کیا۔ مختلف عوامل جیسے کہ مارک اپ کی بندھنی، پاکستانی روپے کی قدر میں کمی، افراط از رکی اب تک کی بندھنی سے، CRM پروجیکٹ کی بندھنی کی وجہ سے CRM قرضوں کی وجہ سے غیر معمولی طور پر زیادہ سود کی ادائیگی نے آپ کی کمپنی کو پہلے سے موجود خسارے میں مزید اضافہ کر دیا۔ سال کے پیشتر حصے میں سیاسی اور معماشی عدم استحکام اور حکومتی پالیسیوں کی وجہ سے کاروباری ماحول غیر معمولی رہا۔ اسی طرح ایک پالیسی چیلنج جو فنا / پاتا کے علاقوں کو دو دیگر کمپنیوں کی چھوٹ کمپنیوں کا مسلسل غلط استعمال تھا جس میں اب مالیاتی سال 2024-2025 تک توسعہ کر دی گئی ہے۔ مزید برآں، گیلو بیوم شہیوں کے غیر رواتی استعمال جو کہ بنیادی طور پر تعمیراتی صنعت میں استعمال ہوتی ہیں، انہیں کھانے کی بیکھینگ میں استعمال کیا جا رہا ہے جس سے مارکیٹ میں مزید بکاڑ پیدا ہوا ہو رہا ہے جس کے نتیجے میں مارکیٹ میں اتری سے آپ کی کمپنی متناہر ہوتی ہے۔ نمایاں طور پر کم قیتوں پر دوسرے درجے کی ٹن پلیٹ کی غیر محدود درآمدات کی وجہ سے صورتحال مزید خراب ہو گئی جس نے کمپنی کی مسابقت اور مارکیٹ میں اپنے حصے کو برقرار رکھنے کی صلاحیت کو برداشت کیا۔

ان چیلنجوں کے باوجود آپ کی کمپنی نے مشکل منظر نامے میں درست سمت بندی کے لئے ہر کمکنہ کوشش کی اور بحث انتظام اور کلیدی فیصلہ سازی کے ذریعے مکمل منفی اثرات کو کامیابی کے ساتھ کم کیا۔

مندرجہ بالا عوامل کے نتیجے میں کمپنی کا سال کا خسارہ قابل ایجاد 1.997 ملین روپے رہا جس میں CISRI کلیم سے متعلق اختصاص شامل ہے۔ بندشہد CRM پروجیکٹ کے جاری اثرات کے علاوہ اس خسارے کے بنیادی عوامل جیسے کہ درآمدی خام مال کی بندھن لگتیں، پیداواری گنجائش کے زیریں استعمال کے نتیجے میں فی میٹر کٹ پیداواری لگتیں میں اضافہ ہوا۔ آپ کی کمپنی نے مالیاتی سال 2023-2024 کے دوران لٹڈ کمپنیز (کوڈ آف کار پوریٹ گورننس) ریکارڈ 2019 اور کمپنیز ایکٹ، 2017 کی پاسداری کی۔

یورڈ کی مجموعی کارکردگی اور اثر پذیری کا جائزہ لینے کے لیے اس کی سالانہ تشخیص کی گئی۔ یورڈ آف ڈائریکٹرز نے شفافیت، جوابدہ اور دیانتداری کے اصولوں کو مسلسل برقرار رکھتے ہوئے سال بھر ہر ہفتین نظم و نسق کے طریقہ کارکے اطلاق کو تینی بیانیا۔

خطرات کے انتظام اور اندر وہی کنٹرول کے لئے مریوط نظام قائم کئے گئے اور فعلی طور پر برقرار رکھے گئے، جو انضباطی پاسداری، اخلاقی کاروباری طرز عمل اور اسٹیک ہولڈر کے اعتماد کو تقویت دینے کے ہماری مسلسل عزم کی عکاسی کرتا ہے۔ مالیاتی سال 2024-2023 کے دوران یورڈ کے چار اجلاس منعقد ہوئے جبکہ آڈٹ کمیٹی اور انسانی وسائل کمیٹی کے باترتیب چار اور ایک اجلاس منعقد ہوئے۔ ان اجلاسوں میں کمپنی کے آپریشنز اور یورڈ کی ذیلی کمیٹیوں کی کارکردگی کی مسلسل نگرانی کو تینی بیانیا گیا۔

اپنی ذمہ داریوں کو مستحدی اور پیشہ ور انہ مہارت کے ساتھ بمحاجنے میں یورڈ کی ملخصانہ کارکردگی اور آپ کی کمپنی کے معاملات سے متعلق تمام اہم فیملوں پر انتظامیہ گرفتار ہتمائی پر اپنی ملخصانہ متابع اش پیش کرتا ہوں۔

آخر میں میں اپنے حصہ یافتگان، ملازمین، اور کاروباری شرکت داروں کے مسلسل تعاون اور عزم کا تہہ دل سے ٹکریا ہا کرتا ہوں۔ ہمیں کارپینے کلیدی اہداف کو آگے بڑھانے اور ایک شاہستہ اخلاقی اور آگے بڑھتے ہوئے ادارے کی تعمیر پر توجہ مرکوز کریں گے۔

DIRECTORS' REPORT

Dear shareholders,

The Directors of your company are pleased to present the annual report together with the audited financial statements for the financial year ended June 30, 2024.

Global Business Scenario

During FY 2023-24, global steel prices remained under pressure, with no significant appreciation, largely due to ongoing geopolitical tensions and economic uncertainties. GDP growth in major steel-consuming economies in the Asia-Pacific region, such as China and India, remained sluggish, further dampening demand.

Meanwhile, the influx of steel products from China into the domestic market continued to rise, posing significant challenges for local industry players and intensifying competition. On the global front, policy shifts introduced by the new U.S. administration, particularly changes in import tariffs on steel products, have created new business opportunities for non-traditional exporters seeking to enter or expand their presence in the U.S. market.

Pakistan's Economic Scenario

During FY 2023-24, Pakistan's economy showed signs of modest recovery amid persistent structural challenges. The State Bank of Pakistan gradually reduced the policy interest rate from 22% to 20.5% as inflationary pressures began to ease. The exchange rate between the Pakistani Rupee (PKR) and the US Dollar remained relatively stable, providing some relief to businesses dependent on imports and foreign transactions.

The banking environment remained challenging for businesses, particularly in terms of accessing trade financing. Tight liquidity conditions and cautious lending policies further constrained working capital financing and expansion plans.

On the external front, imports declined due to weak domestic demand, currency management policies, and tighter import controls. This supported a slight improvement in the current account balance. Despite these efforts, macroeconomic stability remained fragile, and private sector investment was subdued due to the high cost of borrowing and ongoing policy uncertainty.

Overall, while economic indicators hinted at gradual stabilization, sustained recovery will depend on continued fiscal discipline, structural reforms, and a more favorable global environment.

Business Overview and Financial Highlights

----PKR----

	2024	2023	2022
Net Sales	4,074,584,855	4,393,766,968	4,722,752,530
Gross Margin	(55,470,034)	399,997,200	619,257,179
Profit before taxation	(1,997,294,165)	50,947,909	257,909,255
Profit / Loss after taxation	(2,058,499,135)	3,083,060	201,264,055
Earnings/(Losses) per share	(8.98)	0.01	0.88

The overall factors as elaborated in preceding paras, coupled with price fluctuation in international commodity market, has adversely impacted the business activity of the company. The net sales of PKR 4.026 million for the year under review was 7% lower than the last year. The gross loss for the year was Rs. 55 million as compared to Rs. 400 million of gross profit during last year, thereby recording a fall of 114%.

During FY 2023-24, the Company's operational performance was significantly impacted by both external and internal challenges. Capacity utilization dropped by 27%, with annual production totalling 8,350 metric tons, compared to 11,386 metric tons in the previous year.

This decline in production was primarily driven by several factors. The domestic demand for tinplate weakened considerably over the year, largely due to its high cost, which led end-users to shift to alternative packaging materials such as plastic pouches and PET bottles. Moreover, multiple market factors created a highly unfavorable sales environment:

1. Increased usage of Galvalume sheets, which are imported at 0% duty and are being used in food packaging - an unintended and non-compliant application. This continues to distort the competitive landscape. Notably, Galvalume imports surged by 57%, rising from 103,922 metric tonnes in FY 2022-23 to 163,319 metric tonnes in FY 2023-24.
2. Continued imports of tinplate into FATA/PATA regions under tax-exempt status, resulting in significantly lower-priced alternatives in the market. These imports not only bypass normal duties and taxes but are also increasingly being diverted into other parts of the country. Tinplate imports into FATA/PATA increased by approximately 26%, from 8,532 metric tonnes in FY 2022-23 to 10,744 metric tonnes in FY 2023-24.
3. Dumping of Chinese tinplate at substantially lower prices, making it difficult for local manufacturers to maintain market share.
4. Widespread usage of secondary-grade tinplate and plastic materials in the food packaging industry, further eroding demand for prime-quality tinplate.

Furthermore, the Company experienced major operational disruptions, namely two major production halts due to labor issues, which disrupted the entire quarterly output and resulted in delayed customer deliveries. Additionally, there were delays in raw material supply during January and February 2024, affecting production continuity and planning.

Despite identifying opportunities, the Company was unable to compete due to severe price competition from Chinese exporters, who offered products at dumped rates, making our pricing unviable in those markets.

Sales

The sales revenue of the company has decreased by 7%. This is a constituent of a positive price variance of 11% and a negative volume variance of 7% which is due to the factors explained above.

Production

Current year's production was 27% lower than the last year. The Company operated at a capacity utilization of only 6.95% (2023: 9%), with production significantly reduced due to factors such as delayed supply of raw materials, and labor unrest.

Operational overview

The EBITDA, excluding non-recurring items, stood at Rs. (463.947) million, as compared to Rs. 240.067 million in FY 2022-23. This deterioration in operational margins was largely due to underutilization of capacity, price pressures from dumped and untaxed imports, and operational disruptions.

Despite these difficulties, the Company continued to focus on cost efficiency. Amid inflation reaching 25.9%, administrative expenses (excluding provisions) have increased by 23%, but the management's stringent cost control measures led to a 29% reduction in distribution costs (excluding export-related costs).

However, finance costs continued to weigh heavily on profitability, increasing by 177%. The primary contributors were elevated discount rates, with KIBOR remaining at historically high levels for most of the year, and interest on borrowings related to the discontinued CRM project, including Rs. 500 million in long-term loans and around Rs. 1 billion in short-term loans. Out of the total finance cost of Rs. 596 million, a major portion was directly attributable to CRM-related borrowing.

It is worth noting that the finance cost began to ease in the latter part of the year due to debt repayments and a gradual reduction in interest rates.

The Company reported a loss after tax of Rs. 2,058.499 million, compared to a profit of Rs. 3.083 million in the previous year. The loss before tax stood at Rs. 1,997.294 million, primarily driven by lower production, high cost of imported raw material, market distortions due to unfair competition, high interest cost and a substantial one-time provision of Rs. 821 million related to the CISRI claim.

Earnings Per Share

The earnings per share have been recorded at Rs. (8.98), as compared to profit per share of 0.01 in the previous year.

Payments to National Exchequer

The Company has made payments of Rs. 853 million to the National Exchequer on account of income tax, sales tax, custom duties and other levies.

Credit Rating

During the year an interim evaluation was carried out and the PACRA has maintained the credit rating of the Company as A. (Single A minus) for long term and A2 (Single A two) for short term with "stable" outlook

Risk Management

The Company has established a comprehensive risk management framework aimed at identifying, assessing, and mitigating risks across all areas of its operations, including strategic decision-making, operational activities, compliance, and financial reporting. The Board of Directors actively reviews and monitors these risks to ensure that they are managed effectively and in alignment with the Company's objectives.

Adequate internal controls have been designed and implemented across all levels of the organization through well-defined Standard Operating Procedures (SOPs) and policy guidelines.

In line with its commitment to strengthening risk oversight, the Company has recently introduced a new Risk Management Policy. This policy provides a structured approach for the identification, evaluation, and response to potential risks and enhances the overall governance and resilience of the organization.

Human Resources

The Company operates a well-equipped Human Resources department at Group level which operates in line with the strategic directions of the Board and its Human Resource Committee. All employee related matters such as remuneration, allowances, leaves, performance appraisals, hiring and terminations are dealt through them.

Gender Pay Gap Statement

Under SECP Circular 10 of 2024, following is gender pay gap calculated for the year ended June 30, 2024:

Mean Gender Pay gap: (-102.79%)

Median Gender Pay Gap: (-208-89%)

The above percentages reflect the gender pay gap of relevant male versus female employees across the organization.

Health, Safety & Environment (HSE)

The management of your Company takes the HSE measures seriously and ensures the strict implementation of all safety measures. During the year under review no major incident was reported. The management ensures compliance with environmental standards.

Chairman's Review

The directors of the Board endorse the contents of the Chairman's review dealing with the overall performance of the company and the performance/effectiveness of the Board.

Provident Fund

The estimated fair value on investment of Siddiqsons Tin Plate Limited - Staff Provident Fund base don internal records as on June 30, 2024 was Rs. 104 million (2023: Rs. 113 million).

Future Outlook

Looking ahead, the operating environment appears to be stabilizing. The raw material shortages that significantly impacted production during the previous fiscal year have largely been resolved, with inventory levels now aligned to support our current share in the domestic market. Additionally, the quality of raw materials sourced locally has improved, now meeting international standards, which enables us to meet customer expectations more effectively.

While domestic demand for tinplate continues to remain subdued, primarily due to cost pressures and the increasing shift toward alternative packaging materials, the Company is aggressively pursuing export opportunities, particularly in the Gulf Cooperation Council (GCC) region, the United States, and Europe. A notable shift in global trade dynamics - especially the imposition of heavy anti-dumping duties (ADD) on Chinese tinplate by several countries - has opened new avenues for compliant producers like STPL.

In this regard, we have successfully secured export orders and have already dispatched trial shipments to key markets. Additionally, our senior management actively participated in the CANNEX FILLEX Global Can making Exhibition in the USA, enabling direct engagement with international buyers and trading companies. In Europe, tinplate trading companies have also expressed interest in a tolling business model, under which they will supply Tin Mill Black Plate (TMBP) to be processed by STPL.

Another positive development is the gradual decline in domestic interest rates, which is expected to reduce our finance cost burden, especially given our current high gearing (debt-to-equity) structure. Furthermore, the levy of 10% sales tax on tinplate imports into the FATA/PATA regions is expected to reduce the pricing advantage previously enjoyed by importers in these areas, creating a more equitable environment for STPL's domestic sales.

In summary, while challenges persist, the outlook for FY 2024-25 is cautiously optimistic, driven by stable raw material supply, growing export momentum, potential regulatory relief, and declining interest rates. The Company remains committed to restoring profitability, improving efficiency, and strengthening its position both locally and globally.

لگت کے بوجھ میں کمی آئے گی۔

مزید برآں، فاما/پاٹا کے علاقوں میں ٹن پیٹ کی درآمدات پر 10% سلیگکس عائد کرنے سے توقع کی جاتی ہے کہ ان علاقوں کے درآمد کنندگان کی جانب سے پہلے سے حاصل رعایتی قیمتوں کے فوائد کو کم کیا جاسکے گا جس سے STPL کی مقامی فروخت کے لئے ایک زیادہ مساوی ماحول پیدا ہوگا۔ خلاصہ یہ کہ اگر چیلنجز برقرار ہیں لیکن خام مال کی مستحکم فراہمی، بڑھتی ہوئی برآمدات کی رفتار، مکتسر گیو لیزٹری ریلیف اور گرتی ہوئی شرح سود کی وجہ سے مالیاتی سال 2024-25 کا نقطہ نظر خیاط طور پر حوصلہ افزاء ہے۔ کمپنی منافع کی بحالی، کارکردگی کو بہتر بنانے اور مقامی اور عالمی سطح پر اپنی پوزیشن کو مضبوط بنانے کے لئے پرعزم ہے۔

آڈیٹر

موجودہ آڈیٹر زمیسر منیف ضیاء الدین ایڈ کو سکدوش ہو چکے ہیں اور اہلیت کے باعث انہوں نے اپنی دوبارہ تقری کی پیش کی ہے۔ آڈیٹ کمیٹی کی تویش پر یورڈ آف ڈائریکٹرز نے سال 30 جون 2025 کے لئے باہمی طے شدہ معاوضہ پر کمپنی کے آڈیٹر کی حیثیت سے ان کی دوبارہ تقری کی سفارش کی ہے۔

ادارتی نظم و ضبط کے ضابطے کی پاسداری

سال اختتمہ 30 جون 2024 سے متعلق پاکستان اشکاں ایچینج کے متعلقہ لسٹنگ ریگولیٹری میں دیجے گئے ادارتی نظم و ضبط کے ضابطے کو کمپنی نے اختیار کیا ہے اور اس کی پاسداری کی گئی ہے۔ ادارتی نظم و ضبط کے ضابطے کی پاسداری سے متعلق ایک الگ بیان پر چیف ایگریکٹو فیسر نے دستخط کئے ہیں اور اسے رپورٹ میں شامل کیا گیا ہے۔

ضابطہ اخلاق سے متعلق بیان

صحت، تحریک اور ماحولیات (HSE)

آپ کی کمپنی کی انتظامیہ نے بنیادی سے HSE اقدامات کئے ہیں اور تمام حفاظتی اقدامات کے سخت نہاد کو تیکنی بنا یا ہے۔ زیرِ جائزہ سال کے دوران کوئی برا حادثہ نہیں ہوا۔ انتظامیہ ماحولیاتی معیارات کی پاسداری کو تیکنی بنا تی ہے۔

چیئر مین کا جائزہ

کمپنی کی مجموعی کارکردگی اور یورڈ کی کارکردگی / اٹ پری یہ پرمنٹ چیئر مین کے جائزے کے مندرجات کی یورڈ آف ڈائریکٹریز تو ٹیکن کرتا ہے۔

پرو ڈیز نٹ فنڈ

نوری کے اختتام پر کمپنی اپنے ملازمین کو منظور شدہ معاویت پرو ڈیز نٹ کے ذریعے فوائد فراہم کرتی ہے۔ صدیق سنرٹن پلیٹ لمبند۔ اشاف پرو ڈیز نٹ فنڈ سے کی گئی سرمایہ کاری کی تجیہ نہ شدہ مالیت ان کے اندر ونی ریکارڈ کے مطابق 30 جون 2023 کو 113 ملین روپے (2022 میں 91.200 ملین روپے) تھی۔

مستقبل کی پیش بینی

مستقبل میں کاروباری ماحول مستحکم ہوتا ہو انتظار رہا ہے۔ خام مال کی قلت کا مسئلہ جس نے گزشتہ مالیاتی سال کے دوران پیداوار کو نمایاں طور پر متاثر کیا تھا، یہی حد تک حل کر لیا گیا ہے، مال کی مقدار کی سطحیں اب مقامی مارکیٹ میں ہمارے موجودہ حصہ میں معاونت کرنے کے مطابق ہو گئی ہیں۔ مزید برآں، مقامی طور پر حاصل کئے جانے والے خام مال کا معیار بہتر ہوا ہے جو کہ اب میں الاقوامی معیارات پر پورا اترتتا ہے، جو میں صارفین کی توقعات پر زیادہ موثر طریقے سے پورا تر نے کے قابل ہنا تا ہے۔

اگرچہ کہن پلیٹ کی مقامی طلب نیادی طور پر لگت کے باہم اور تبادل پیکچرگ مواد کی طرف منتقلی کی وجہ سے بدستور کم ہے لیکن کمپنی متحرکانہ طور پر برآمدی مواقع ملاش کر رہی ہے خاص طور پر ٹکنیکی تعاون کوسل (GCC) کے خطوں، ریاستہائے متحده امریکہ اور یورپ میں۔ عالمی تجارتی پہلوؤں میں ایک قابل ذکر تبدیلی خاص طور پر متعدد مالک کی طرف سے چینی ٹن پلیٹ پر بھاری اینٹی ڈیپنگ ڈیوٹی (ADD) کے نفاذ سے STPL جیسے معیاری پیداواری اداروں کے لیے نئی راہیں کھل گئی ہیں۔

اس سلسلے میں، ہم نے کامیابی کے ساتھ برآمدی آرڈر رکھا صاحل کرنے لئے ہیں اور اہم مارکیٹوں میں آزمائشی کھیپ پہلے ہی روانہ کر دی ہیں۔ مزید برآں، ہماری اعلیٰ انتظامیہ نے امریکہ میں CANNEXFILLEX گلوبل کیین میکنگ نمائش میں فعال طور پر حصہ لیا ہے جس سے میں الاقوامی خریداروں اور تجارتی کمپنیوں کے ساتھ برآ راست تعلق قائم ہو سکتا ہے۔ یورپ میں ٹن پلیٹ ٹریڈنگ کمپنیوں نے ٹوٹگ بڑن ماؤل میں بھی ڈچپی طاہر کی ہے جس کے تحت وہ ٹن یا یک پلیٹ (TMBP) فراہم کریں گے جسے STPL پر ویس کرے گی۔

ایک اور شیٹ پیشافت ملکی شرح سود میں بتدریج کی ہے جس سے توقع ہے کہ خاص طور پر ہمارے موجودہ ہائی گیرنگ (قرض یہ مقابلہ ایکوئی) ڈھانچے کو منظر رکھتے ہوئے ہماری مالیاتی

پیداواری گنجائش کا کم استعمال، ارزال قیتوں اور غیر ٹکس شدہ درآمدات کی وجہ سے قیتوں پر دباؤ اور پیداواری رکاوٹیں شامل تھیں۔

ان مشکلات کے باوجود کمپنی تسلسل کے ساتھ لاگتوں کو کم کرنے کے لئے کوشش ہے۔ افراط از رکے 25.9 فیصد تک پہنچنے کے دوران انتظامی اخراجات (اختصاص نکالنے کے بعد) میں 23 فیصد اضافہ ہوا، لیکن انتظامیہ نے لاگتوں کو قابو کرنے کے سخت اقدامات کے جس سے تقصیمی لاگتوں (برآمدات سے ماحصلہ لاگتوں کو بہانے کے بعد) میں 29 فیصد کی ہوئی۔

تاہم مالیاتی لاگتیں منافع پر بھاری بوجھر ہیں جن میں 177 فیصد اضافہ ہوا۔ بنیادی عوامل میں رعایتی نرخوں میں اضافہ جس میں KIBOR سال کے زیادہ تر حصے میں تاریخی طور پر بلند سطح پر رہا اور بنڈ شدہ CRM پر دیکھ سے ماحصلہ قرضوں پر سود، یہ 500 ملین روپے کے طویل مدتی قرضے اور 1 ملین روپے کے قیل مدتی قرضے شامل تھے۔ 596 ملین روپے کی کل قرضہ جاتی لاگت کے بڑے حصہ کا تعلق CRM سے ماحصلہ قرضوں سے تھا۔

یہ بات قابل ذکر ہے کہ سال کے آخری حصے میں قرضوں کی ادائیگیوں اور شرح سود کی شرح میں بتر ترک کی سے قرضہ جاتی لاگت میں کمی آنا شروع ہو گئی۔

کمپنی کا خسارہ بعد از ٹکس خسارہ 499.4058.2 ملین روپے پر ہا جو کہ گزشتہ سال 3.083 ملین روپے تھا۔ خسارہ قبل از ٹکس 1,997.294 جس کی بنیادی وجہ پیداوار میں کمی، خام مال کی بلند لاگت، غیر منصقانہ مسابقت کی وجہ سے مارکیٹ میں بگاڑ، بلند شرح سود اور CISRL کیم متعلق 821 ملین روپے کی ایک مرتبہ کی فراہمی تھی۔

فی حصہ آمدن

فی حصہ آمدن (8.98) روپے رہی جو کہ گزشتہ سال 0.01 روپے تھی۔

قومی خزانے میں ادائیگی

کمپنی نے ایک ٹکس، بیلر ٹکس، کشم ڈیوٹیوں اور دیگر ٹکسوں کی مدد میں 853 ملین روپے کی قومی خزانے میں ادائیگیا کیسی۔

قرضہ جاتی رینگ

سال کے دوران ایک عبوری تحریز یہ انجام دیا گیا اور PACRA نے کمپنی کی قرضہ جاتی رینگ میں طویل مدتی کے لئے A (سنگل A مائنس) اور قیل مدتی کے لئے A2 (سنگل A ٹو) کے "مختصر" منظر نامہ سے نوازا۔

خطرات کا انتظام

کمپنی کے خطرات کے انتظام کا نظام تمام شعبوں کی سرگرمیوں بیشول ٹکنیکل فصلہ سازی، آپریشنز، پاسداری اور مالیاتی رپورٹنگ میں خطرات کی نشاندہی اور ازالہ کرتا ہے۔ یورڈ بذات خود ان خطرات کا محترز کا نہ طور پر جائزہ لیتا ہے اور ان کی نگرانی کرتا ہے تاکہ ان سے موثر انداز میں نہ تجاگے اور کمپنی کے مقاصد سے مطابقت پیدا کی جاسکے۔

اندرونی گرفت کے نظام مرتب کئے گئے ہیں اور ادارے بھر میں ہر سطح پر بہتر و تصحیح کردہ معیاری ضابطہ کا (SOPs) اور پالیسی رہنماء صولوں کے ذریعے نافذ کئے گئے ہیں۔

خطرات کی نگرانی کو مضبوط کرنے کے اپنے عزم کے تحت کمپنی نے حال ہی میں ایک نئی رسک میجنت پالیسی متعارف کرائی ہے۔ یہ پالیسی مکمل خطرات کی شناخت، تشخیص اور مکمل خطرات میں لاحق عمل کے لئے ایک مشتمل طریقہ کار فراہم کرتی ہے اور ادارے کے مجموعی نظم و نتیجے اور چک پذیری کو بڑھاتی ہے۔

انسانی وسائل

کمپنی میں گروپ کی سطح پر ایک بہترین انسانی وسائل کا شعبہ ہے جو کہ یورڈ اور اس انسانی وسائل کمیٹی کی کلیدی ہدایات کے مطابق کام کرتا ہے۔ ملازمین سے متعلق تمام معاملات جیسے کہ معاوضہ، الاؤنسنر، چھیلوں، کا کر دگی کی تشخیص، بھرتی اور بر طرفی کو ان کے ذریعے نہیں اجا جاتا ہے۔

مذکورہ بالا پیراگرافوں میں بیان کردہ مجموعی عوامل کے ساتھ اشیائے صرف کی عالمی مارکیٹ میں متعدد قیمتیوں نے کمپنی کی کاروباری سرگرمی پر ناموافق اثرات ڈالے۔ زیرِ جائزہ سال کے دوران 4,026 ملین روپے کی خالص فروخت ہوئیں جو کہ گزشتہ سال کی نسبت 7 فیصد کم ہے۔ خام منافع بھی کم ہو کر 55 ملین روپے رہ گیا جو کہ گزشتہ سال 400 ملین روپے تھے جائیں 114 فیصد کی ہوئی۔

مالیاتی سال 24-2023 کے دوران کمپنی کی پیداواری کا رکورڈ گی پیراگراف کی عالمی مارکیٹ میں قابل ذکر اثرات مرتب کئے۔ پیداواری گنجائش کے استعمال میں 27 فیصد کی ہوئی جس کی سالانہ پیداوار 8,350 میٹر کٹ ہے جبکہ گزشتہ سال 11,386 میٹر کٹ ہے۔

پیداوار میں یہ کمی بینادی طور پر کئی عوامل کی وجہ سے تھی۔ گزشتہ سال کی نسبت ٹن پلیٹ کی مقامی طلب کافی حد تک کم رہی، اس کی بڑی وجہ زیادہ قیمت ہے جس کے نتیجے میں انتہائی صارفین متبادل پیکنینگ مواد جیسے پلاسٹک کے تھیلوں اور PEC یوں کی طرف مائل ہوئے۔ مزید برآں مارکیٹ کے متعدد عوامل نے فروخت کے لئے انتہائی ناموافق ماحول پیدا کیا۔

1. گلیوالیوم شیٹوں کے استعمال میں اضافہ ہوا جو کہ 0% ڈیبوئی پر آمد کی جاتی ہے اور کھانے کی پیکنینگ میں استعمال ہو رہی ہے، یہ ایک غیر ارادی اور غیر معیاری مصنوعات ہے۔ اس سے مسابقتی منظر نامہ مسلسل مختہ ہوتا رہتا ہے۔ قابل ذکر بات یہ ہے کہ گلیوالیوم کی درآمدات میں 57% کا اضافہ ہوا جو کہ مالیاتی سال 23-2022 میں 103,922 میٹر کٹ ہے کہ مالیاتی سال 24-2023 میں 163,319 میٹر کٹ ہے۔

2. ٹیکس سے متاثری حیثیت کے باعث فانا/پانا کے علاقوں میں ٹن پلیٹ کی مسلسل درآمدات ہوئی جس کے نتیجے میں مارکیٹ میں نمایاں طور پر کم قیمت والے متبادل مل گئے۔ ان درآمدات میں نصف عام ڈیبوئی اور ٹیکس کو نظر انداز کیا جاتا ہے بلکہ تیزی سے ملک کے دیگر حصوں میں بھی موڑ دی جاتی ہے۔ فانا/پانا میں ٹن پلیٹ کی درآمدات میں تقریباً 26% اضافہ ہوا، مالیاتی سال 23-2022 میں 8,532 میٹر کٹ ہے مالیاتی بڑھ کر سال 24-2023 میں 10,744 میٹر کٹ ہے۔

3. چینی ٹن پلیٹ کی نمایاں طور پر کم قیمتیوں کی وجہ سے مقامی میتونی پیکچر رز کے لیے مارکیٹ شیٹ کو قرار رکھنا مشکل ہو گیا۔

4. فوڈ پیکنینگ انڈسٹری میں ٹانوں درجے کی ٹن پلیٹ اور پلاسٹک کے مواد کا وسیع پیمانے پر استعمال، عالمی معیار کی ٹن پلیٹ کی طلب کو مزید کم کرتا ہے۔

مزید برآں، کمپنی کو بڑی آپریشنل رکاوٹوں کا سامنا کرتا ہے، یعنی مزدوں کے مسائل کی وجہ سے دوڑے پیداواری یونٹ رک گئے جس نے پوری سہ ماہی میں پیداوار میں خلل ڈالا اور اس کے نتیجے میں گاکوں کو ترسیل میں تاخیر ہوئی۔ مزید برآں جنوری اور فروری 2024 کے دوران خام مال کی فراہمی میں تاخیر ہوئی جس سے پیداوار کا تسلسل اور منصوبہ بندی متاثر ہوئی۔ موقوتوں کی نشاندہی کے باوجود کمپنی چینی برآمدکنندگان کی جانب سے قیمتیوں کی سخت مسابقت کی وجہ سے مقابلہ کرنے سے قاصر تھی جنہوں نے انتہائی ارزائی نرخوں پر مصنوعات کی پیش کی، جس سے ان مارکیٹوں میں ہماری قیمتیں ناقابل عمل ہو گئیں۔

فروخت

کمپنی کے فروخت کی آمدنی میں 7 فیصد کی ہوئی۔ مندرجہ بالا بیان کردہ عوامل کی وجہ سے قیمت میں 11 فیصد کی ثابت تغیریک اور جم میں 7 فیصد کی منفی تغیریک رہی۔

پیداوار

موجودہ سال کی پیداوار گزشتہ سال کے مقابلے میں 27 فیصد کم رہی۔ کمپنی کی پیداواری گنجائش کا استعمال صرف 6.95 فیصد رہا (2023 میں 9 فیصد)، پیداوار میں قابل ذکر کی کمی وجہ خام مال کی فراہمی میں تاخیر اور مزدوں بدانی تھی۔

کاروباری جائزہ

غیر معمولی اخراجات ہٹا کر EBITDA (463.947) ملین روپے رہا جو کہ گزشتہ سال 240.067 ملین روپے تھا۔ کاروباری منافعوں کی گیزرتی ہوئی حالت کی بڑی وجہات میں

محترم حصہ یافتگان!

آپ کی کپنی کے ڈائریکٹر ان سالانہ رپورٹ کے ساتھ آڈٹ شدہ مالیاتی گوشواروں کے ساتھ آڈٹ شدہ مالیاتی گوشوارے برائے مالیاتی سال 30 جون 2024 پیش کرتے ہوئے اظہار مسرت کرتے ہیں۔

عامی کاروباری منظر نامہ

مالیاتی سال 24-2023 کے دوران اسٹیل کی عامی قیمتیں دباؤ میں رہیں جن میں کوئی تقابل ذکر اضافہ نہیں ہوا جس کی وجہ جاری جغرافیائی سیاسی تباہ اور معاشی غیر یقینی حالت تھی۔ ایشیا بھر کا مال کے خطے میں اسٹیل کے صارف بڑے ممالک جیسے کہ چین اور انڈیا کی میشتوں میں GDP کی نموداری جس سے طلب میں مزید کمی ہوئی۔ اسی دوران مقامی مارکیٹ میں چین کی اسٹیل کی مصنوعات کی بھرمار میں مسلسل اضافے مقامی صنعت کے کھلاڑیوں کو قابل ذکر دشواریوں کو سامنا کرنا پڑا اور مسافت میں اضافہ ہوا۔ عالمی محاڈ پر نئی امریکی انتظامیہ کی پالیسیوں میں متعارف کردہ تبدیلیوں خاص طور پر اسٹیل کی مصنوعات پر درآمدی محصولات سے ان غیر رواتی برآمد کنندگان کے لئے نئی کاروباری موقع پیدا ہوئے جو کہ امریکی مارکیٹ میں داخل ہونا یا اپنی موجودگی کو وسعت دینا چاہتے ہوں۔

پاکستان کا معاشی منظر نامہ

مالیاتی سال 24-2023 کے دوران مسلسل ساختی چیلنجوں کے درمیان پاکستان کی میشیت میں معتدل بھائی کے آثار دیکھنے گئے۔ اسٹیل بینک آف پاکستان نے یتربیخ پالیسی شرح سود کو 22 فیصد سے کم کر کے 20.5 فیصد کر دیا کیونکہ افراط زرکار دباؤ کم ہونا شروع ہو گیا تھا۔ پاکستانی روپے (PKR) اور امریکی ڈالر کے درمیان مبادلے کی شرح نیتاً مختتم رہی جس سے درآمدات اور غیر ملکی لین دین پر احصار کرنے والے کاروباروں کو کچھ ریلیف ملا۔ بیننگ کا ماحول کاروباروں کے لئے خاص طور پر تجارتی فناں تک رسائی کے معاملے میں دشوار گزار رہا۔ روانی کے مشکل حالات اور قرض دینے کی محتاط پالیسیوں نے روائی سرماۓ میں فناں اور تو سیچی مخصوصیوں کو وزیریہ مدد کر دیا۔ پیرو نی محاڈ پر ملکی انتظام کی پالیسیوں اور سخت درآمدی کشتوں کی وجہ سے درآمدات میں کمی واقع ہوئی۔ اس سے روائی کھاتے کے توازن میں معمولی بہتری آنے میں مدھلی۔ ان کوشتیوں کے باوجود معاشی استحکام متنزل رہا اور قرض لینے کی زیادہ لالگت اور جاری غیر یقینی پالیسی کی وجہ سے نجی شبیعہ کی سرمایہ کاری میں کمی ہوئی۔ مجموعی طور پر جیکہ معاشی اشارے یتربیخ انتظام کی نشاندہی کر رہے ہیں لیکن پائیدار بحالت کا انحصار مالیاتی نظم و ضبط، ڈھانچہ میں اصلاحات اور زیادہ سازگار عامی ماحول پر ہو گا۔

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF SIDDIQSONS TIN PLATE LIMITED

REVIEW REPORT ON THE STATEMENT OF COMPLIANCE CONTAINED IN LISTED COMPANIES (CODE OF CORPORATE GOVERNANCE) REGULATIONS, 2019

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of **SIDDIQSONS TIN PLATE LIMITED** (the Company) for the year ended June 30, 2024 in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of financial statements, we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Director's statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations requires the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended June 30, 2024.

Further, we highlight below instances of non-compliance with the requirements of the Regulations as reflected in the note/paragraph reference where these are stated in the Statement of Compliance:

Reg.	Explanation
29(1)	the Board has not constituted a separate Nomination Committee currently and the functions are being performed by the Board.
30(1)	Currently, the Board has not constituted a separate Risk Management Committee and the functions are being performed by the Board.
10A (1)(3) (4)	The Board will ensure that the Company has addressed sustainability-related risk and opportunities. Also, it will ensure that Company's sustainability and DE&I related strategies are periodically reviewed and monitored in future.
10A (5)	Currently, the Board has not constituted a separate Sustainability Committee and the functions will be performed by the Board Audit Committee.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SIDDIQSONS TIN PLATE LIMITED

Report on the Audit of Financial Statements

Qualified Opinion

We have audited the annexed financial statements of Siddiqsons Tin Plate Limited (the Company), which comprise the statement of financial position as at 30 June 2024, and statement of profit or loss and other comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that except for the matter as stated in the Basis for Qualified Opinion paragraph, we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, except for the possible effects of the matters described in the Basis for Qualified Opinion section of our report, the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at 30 June 2024 and of the loss and other comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Qualified Opinion

- As we were appointed after year end, we did not observe the counting of physical inventory as at the year ended June 30, 2024. As our alternative means, we have reviewed the working papers of previous auditors and the stock count sheets for the year end June 30, 2024.

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Material Uncertainty relating to Going Concern

We draw attention to Note 1.2 to the financial statements, which indicates that the Company incurred significant losses during the year, experienced operational disruptions, and faced adverse litigation outcomes. These events led to a working capital deficit and raised doubts about the Company's ability to continue as a going concern. While management has taken various remedial steps including resumption of operations, cost reduction measures, asset disposals, and group-level support, material uncertainty remains. These conditions indicate that a material uncertainty exists which may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Emphasis of Matter

- i. We draw attention to Note 25.2 to the financial statements, which describes a contingency relating to an ongoing legal case, the same is more fully explained in the aforesaid note.
- ii. We draw attention to note 22 to the financial statements whereof an markup-free loan was obtained by the Company from its associated undertaking. The Company has not recorded markup on this loan on the plea as explained in the aforesaid note.

Our opinion is not modified in respect of these matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described on the Basis for Qualified Opinion section, we have determined the matter described below to be the key audit matter to be communicated in our report.

S.No	Key Audit Matter	How our audit addressed the Key Audit Matters
1.	<p>Revenue from contracts with customers (Refer note 4.10 & 26 to the annexed financial statements)</p> <p>The principal activity of the Company is the manufacture and sale of tin plates, cans and other related steel products. Revenue from sale of goods is recognised as or when performance obligations are satisfied by transferring control of promised goods to customer, and control is transferred at a point in time either upon shipment or delivery of goods to customer.</p> <p>We considered revenue recognition as a key audit matter due to revenue being one of the key performance indicators of the Company.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> ● Assessed the design, implementation and operating effectiveness of the key internal controls involved in revenue recognition. ● Understood and evaluated the accounting policy with respect to revenue recognition. ● Performed testing of revenue transactions on a sample basis with underlying documentation including dispatch documents and sales invoices. ● Tested on a sample basis, specific revenue transactions recorded before and after the reporting date with underlying documentation to assess whether revenue was recognised in the correct period. ● Assessed the adequacy of disclosures made in the financial statements related to revenue.
2.	<p>Contingencies</p> <p>The Company is subject to material litigations involving different courts pertaining to taxation and other matters, which requires management to make assessment and judgements with respect to likelihood and impact of such litigations. Management have engaged independent legal counsel on these matters.</p> <p>The accounting for, and disclosure of, contingencies is complex and is a matter of most significance in our audit because of the judgements required to determine the level of certainty on these matters.</p>	<p>In response to this matter, our audit procedures included:</p> <p>Discussing legal cases with the legal department to understand the management's view point and obtaining and reviewing the litigation documents in order to assess the facts and circumstances.</p> <p>Obtaining independent opinion of legal advisors dealing with such cases in the form confirmations. We also evaluated the legal cases in line with the requirements of IAS 37: Provisions, contingent liabilities and contingent assets.</p> <p>The disclosures of legal exposures and provisions were assessed for completeness and accuracy.</p>

Information other than the Financial Statements and Auditors' Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include in the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal controls as management determines is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud and error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- except for the possible effects of the matter as disclosed in Basis of Qualified Opinion paragraph, the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- No zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

Other Matter

The annual financial statements of the Company for the year ended June 30, 2023, were audited by another firm of Chartered Accountants who vide their report dated October 10, 2023, expressed an unmodified opinion thereon.

The engagement partner on the audit resulting in this independent auditors' report is Sohail Saleem.

Siddiqsons Tin Plate Limited
A Siddiqsons Group Company

NOTES TO FINANCIAL STATEMENTS

For the year ended June 30, 2024

I. THE COMPANY AND ITS OPERATIONS

- I.1** Siddiqsons Tin Plate Limited (the Company) was incorporated in Pakistan on January 29, 1996 as a public company limited by shares under the repealed Companies Ordinance, 1984 now Companies Act 2017 (the Act). The shares of the Company are quoted on Pakistan Stock Exchange. The principal activity of the Company is manufacturing and sale of tin plates, cans and other steel products.

Following are the geographical locations and addresses of all business units of the Company:

Registered Office

Ocean Tower, 27th Floor, Plot # G-3, Block # 9, Near II Talwar, Clifton, Sindh, Pakistan.

Manufacturing Facility:

Tin Plate plant is located at:

- Plot No. 5, Special Industrial Zone, Winder, District, Lasbella, L.I.E.D.A, Balochistan, Pakistan.

Canning plant is located at:

- Plot # 221-222, Near Jamia Millia College, Jamia Millia Road, Malir City, Karachi, Sindh, Pakistan.

Project Site:

- Tin Mill Black Plates (TMBP) project site is located at Plot No. 272 & 273 Hub City, Mouza Beroot Peerkas Road, District Lasbella, Hub Balochistan, Pakistan.

Subsequent to the reporting year, management has decided to roll back this project.

- I.2** During the year and subsequent to the year till issuance of the financial statements, the Company faced significant operational and financial challenges, which resulted in loss after taxation amounting to Rs. 1,752.36 million and accumulated losses amounting to Rs. 2,020.26 million. During the year, Tin Plate plant faced multiple operational shutdown due to curtailment in production. The Company even considered closure on the Tin Plate plant due to decline in sales driven by tax exemptions in the FATA / PATA regions, increased use of Galvalume for food packaging as a substitute of Tin Plate and disruptions caused by strikes from retrenched labours, which impeded the reopening of the facility. The Company has also had its petition dismissed by High Court of Republic of Singapore (HCRS) against the award of Singapore International Arbitration Centre (SIAC) in the dispute between the Company and New Metallurgy Hi-Tech Group Co. Ltd. (the Supplier) as disclosed in detail in note 25.2 to the financial statements. As at the reporting date, the Company's current liabilities exceed its current assets by Rs. 2,065.11 million. Furthermore, the Tin Mill Black Plates (TMBP) project was rolled back due to its financial non-viability. These conditions indicate that a material uncertainty exists which may cast significant doubt on the company's ability to continue as a going concern therefore, it may be unable to realize its asset and discharge its liabilities in the normal course of business.

In response to the challenges outlined above, the Company has taken steps to financially stabilize by concentrating its resources on operations rather than expansion and paying off its long-term and short term financing liabilities substantially. Subsequent to the year end, the Company has re-opened its Tin Plate plant which was earlier considered for closure. Tin Plate plant has resumed production and the Company is actively selling its finished goods and the Canning plant has also remained in continuous operations. However, in the year 2025, the Company has temporarily suspended the canning operations due to low demand caused by introduction of plastic packaging in the market. The Company has launched a focused campaign to discourage the use of Galvalume, promoting Tin Plate as a safer and more sustainable alternative. Subsequent to the year end, the Company has also sold certain items from capital work in progress and the resources generated from the sale has been utilized to settle outstanding liabilities which has resulted in a reduction in finance cost. Furthermore, the Company believes that the dispute with the Supplier, as disclosed in Note 25.2 to the financial statements, is likely to be resolved through the mediation and the amount offered in the financials has been provided for in the financials statements. Moreover, the Company is also targeting to increase its exports in USA, European Union and other markets.

Based on the above and keeping in view the strong position of the group, the management of the Company is confident that above mentioned steps, along with the business projections, provide sufficient evidence of the Company's ability to continue as a going concern, therefore the financial statements have been prepared on going concern basis.

2. BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS Standards, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention.

2.3 Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates. The financial statements are presented in Pakistani Rupees, which is the Company's functional and presentation currency.

2.4 Initial application of a standard, amendment or an interpretation to an existing standard

2.4.1 Amendments to accounting standards that are effective for the year ended June 30, 2024

There were certain amendments that became applicable for the Company during the year but are not considered to be relevant or did not have any significant effect on the Company's operations and have, therefore, not been disclosed in these financial statements except that during the year certain amendments to IAS 1 Presentation of Financial Statements have become applicable to the Company which require entities to disclose their material accounting policy information rather than their significant accounting policies. These amendments have been incorporated in these financial statements with the primary impact that the material accounting policy information has been disclosed rather than the significant accounting policies.

2.4.2 Standard, amendments to published accounting and reporting standards and interpretations that are not yet effective and have not been early adopted by the Company

There are certain new standards and certain amendments to the accounting and reporting standards that will become mandatory for the Company's annual accounting periods beginning on or after July 1, 2024. However, these will not have any significant impact on the financial reporting of the Company and, therefore, have not been disclosed in these financial statements.

Other than the aforesaid amendments, the International Accounting Standards Board (IASB) has also issued the following standards which have not been adopted locally by the Securities and Exchange Commission of Pakistan (SECP):

- IFRS 1 - First Time Adoption of International Financial Reporting Standards
- IFRS 18 - Presentation and Disclosures in Financial Statements
- IFRS 19 - Subsidiaries without Public Accountability: Disclosures

3. ACCOUNTING ESTIMATES, JUDGEMENTS AND ERROR

The preparation of financial statements in conformity with accounting and reporting standards requires the use of certain critical accounting estimates. It also requires the management to exercise its judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. The areas where various assumptions and estimates are significant to the Company's financial statements or where judgment was exercised in application of accounting policies are as follows:

- i. Residual values and useful lives of property, plant and equipment (note 4.1 and 5.1)
- ii. Provision against slow moving stores and spares (note 4.3 and 7.1)
- iii. Provision against slow moving stock in trade (note 4.4 and 8)
- iv. Provision for impairment of trade receivables (note 4.2.7 and 9.1)
- v. Classification of investments (note 4.2.1 and 13)

- vi. Provision for levies, current and deferred taxation (note 4.11, 4.12, 19, 33 and 34)
- vii. Judgements made in contingencies (note 4.8 and 25)

3.1 Correction of error

During the year ended June 30, 2024, the management discovered that leased vehicles were erroneously included in the owned vehicles in the property, plant and equipments since 2022 and the corresponding lease liabilities were reported under the long term loans. The error have been corrected by restating each of the affected financial statement line items for prior periods. The following table summarise, the impacts on the Company's financial statements.

4. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies applied in the preparation of these financial statements are set out below. These have been consistently applied to all the years presented, except for taxation policy as disclosed in note 4.11.1.

4.1 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment, if any.

Assets' residual values, if significant and their useful lives are reviewed and adjusted, if appropriate, at each reporting date.

Depreciation is charged using reducing balance method over its estimated useful life at the rates specified in note 5.1. Depreciation is charged from the month in which asset is available for use and up to the month preceding the month of disposal.

Maintenance and normal repairs are charged to statement of profit or loss as and when incurred. Major renewals and improvements are capitalised.

Gains or losses on disposal of property, plant and equipment, if any, are recognised as and when incurred, to statement of profit or loss .

Capital work in progress

These are stated at cost less accumulated impairment losses, if any. All expenditures connected with specific assets incurred and advances made during installation and construction period are carried under this head. These are transferred to specific asset as and when the asset is available for its intended use.

Right-of-use assets

"Right-of-use assets are initially measured at cost being the present value of lease payments, initial direct costs, any lease payments made at or before the commencement of the lease as reduced by any incentives received. These are subsequently measured at cost less accumulated depreciation and accumulated impairment losses, if any.

Depreciation is charged on reducing balance basis over the shorter of the lease term or the useful life of the asset. Where the ownership of the asset transfers to the Company at the end of the lease term or if the cost of the asset reflects that the Company will exercise the purchase option, depreciation is charged over the useful life of asset.

4.2 Financial instruments

Financial assets and financial liabilities are recognised in the Company's statement of financial position when the Company becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss and other comprehensive income.

4.2.1 Financial assets

Classification

The Company classifies its financial assets in to following three categories as per IFRS - 9:

- i) Amortised cost (AC),
- ii) Fair value through other comprehensive income (FVTOCI) and
- iii) Fair value through profit or loss (FVTPL).

Financial assets at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at FVTOCI only if it meets both of the following conditions and is not designated as FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition, for an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in fair value in Other Comprehensive Income (OCI). This election is made on an investment-by-investment basis.

FVTOCI financial assets are subsequently measured at fair value with gains and losses arising due to changes in fair value recognised in Other Comprehensive Income (OCI).

Financial assets at fair value through profit or loss (FVTPL)

All other financial assets are classified as FVTPL (for example: equity held for trading and debt securities not classified either as amortised cost or FVTOCI).

In addition, on initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVTOCI as at FVTPL, if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Company changes its business model for managing financial assets.

4.2.2 Derecognition of financial assets

"The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in statement of profit or loss and other comprehensive income.

4.2.3 Subsequent measurement of financial assets

Financial assets at amortised cost

Financial assets at amortised cost are subsequently measured at amortised cost. Amortised cost is calculated using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset.

Financial assets at FVTOCI

All financial assets at FVTOCI are subsequently measured at fair value with gains and losses arising due to changes in fair value recognised in Other Comprehensive Income (OCI).

For debt instruments classified as financial assets at FVTOCI, the amounts in other comprehensive income are reclassified to income statement on derecognition of financial assets. This treatment is in contrast to equity instruments classified as financial assets at FVTOCI, where there is no reclassification on derecognition.

Financial assets at FVTPL

All financial assets designated at fair value through profit or loss are subsequently carried at fair value, with gains and losses arising from changes in fair value recorded in the statement of profit or loss and other comprehensive income.

4.2.4 Fair value measurement principles and provision

The fair value of financial instruments is determined as follows:

Basis of valuation

- Equity securities are initially recognised at cost excluding any transaction costs which are charged to profit or loss and other comprehensive income and subsequently measured at fair value through profit or loss. The fair value of investments is determined by using closing rate of securities at day end available on the Pakistan Stock Exchange website.
- Appreciation and diminution arising from changes in fair value of financial assets classified as fair value through profit or loss are recognised in statement of profit or loss and other comprehensive income.

4.2.5 Financial liabilities

All financial liabilities are measured subsequently at amortised cost using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

4.2.6 Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in respective carrying amounts is recognised in the statement of profit or loss and other comprehensive income.

4.2.7 Impairment

Financial assets

The Company recognises a loss allowance for expected credit loss (ECL) on trade debts. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial assets.

The Company recognises lifetime ECL for trade debts. The ECL on these financial assets are estimated using a provision matrix based on the Company's historical credit loss experience, adjusted for factors that are specific to the receivables, general economic conditions and an assessment of both the current as well as the forecasted direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial assets, the Company recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Non-financial assets

The carrying amounts of non-financial assets are reviewed at each reporting date to ascertain whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognised, as an expense in the statement of profit or loss, for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less cost to sell and value in use. Value in use is determined through discounting of the estimated future cash flows using a discount rate that reflects current market assessments of the time value of money and the risk specific to the assets. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash generating units).

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognised.

4.2.8 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

4.3 Stores, spares and loose tools

These are stated at cost. Cost is determined using moving average basis less allowance for obsolete and slow moving items, if any. Stores and spares in transit are stated at invoice value plus other charges incurred thereon until the reporting date.

4.4 Stock-in-trade

Stock-in-trade are valued at lower of cost or net realisable value on the following basis: -

Raw material	At weighted average cost
Finished goods	At average manufacturing cost
Waste	At net realisable value

Cost in relation to items in transit represent invoice value and other charges incurred upto reporting date.

Average cost signifies, in relation to finished goods, the average manufacturing cost including related direct overheads.

Net realisable value signifies the estimated selling prices in the ordinary course of business less estimated cost of completion and the estimated cost necessary to make the sale.

4.5 Cash and cash equivalents

Cash and cash equivalents for cash flow purposes comprises of cash in hand, current and deposit accounts held with banks. Short term running finances availed by the Company which are payable on demand and form an integral part of the Company's cash management are included as part of cash and cash equivalents for the purpose of the statement of cash flows.

4.6 Employee benefit cost - Defined Contribution Plan

The Company operates an approved funded contributory provident fund scheme for all its employees eligible for benefit. Equal monthly contributions are made both by the Company and its employees at the rate of 10% per annum of the basic salary. The Company's contribution to the fund is charged to statement of profit or loss for the year.

4.7 Trade and other payables

Liabilities for trade and other amounts payable are recognised initially at fair value and are subsequently measured at amortised cost.

4.8 Provisions

Provisions are recognised when the Company has a present, legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

4.9 Borrowings and borrowing costs

Borrowings are recognised initially at fair value, net of transaction costs incurred, and subsequently at amortised cost. Borrowing costs are recognised as an expense in the period in which these are incurred except to the extent of borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset. Such borrowing costs, if any, are capitalised as part of the cost of that asset.

4.10 Revenue from contracts with customers

Revenue is measured based on the consideration specified in a contract with a customer. Revenue from operations of the Company are recognised when the goods are delivered, and thereby the performance obligations are satisfied. Revenue consists of tin plates and canning. The Company's performance obligations under a contract are fulfilled at the point in time when the goods are dispatched to the customer. The control is transferred with the dispatch of goods to the customers for local sales and on date of bill of lading for export sales. Invoices are generated and revenue is recognised at that point of time, as the control is transferred to the customers. The Company assesses its revenue arrangements against specific criteria that must be met before revenue is recognised.

Interest income is accrued on a time proportionate basis, by reference to the principal outstanding and at the applicable effective interest rate.

4.11 Taxation

Current

Provision for current taxation is based on taxable income at the enacted / corporate tax rate after taking into account tax credits and rebates available, if any, as per the Income Tax Ordinance, 2001.

Deferred

Deferred tax is provided using liability method for all temporary differences at the reporting date between tax bases of assets and liabilities and their carrying amounts for financial reporting purposes after considering, the effective rate of tax.

Deferred tax asset is recognized for all deductible temporary differences and carry forward of unused tax losses, if any, to the extent that it is probable that taxable profit will be available against which such temporary differences and tax losses can be utilized.

Deferred tax assets and liabilities are measured at the enacted rate of tax that are expected to apply to the period when the asset is realized or the liability is settled.

4.11.1 Change in Accounting Policy

The Institute of Chartered Accountants of Pakistan (ICAP) issued 'IAS 12 Income Taxes Application Guidance on Accounting for Minimum Taxes and Final Taxes' (the guide) in May 2024 and withdrawn the Technical Release 27 'IAS 12 - Income Taxes (Revised 2012)'. The guide requires to classify certain amounts of tax paid under minimum and final tax regime separately as a levies instead of classifying under current tax.

The guide has provided two approaches namely Approach A and Approach B to select any of them considering the business model of the Company. The Company has selected Approach A considering the fact that the entity's income is being taxed under minimum tax, according to which, designate the amount calculated on gross amount of revenue or other basis as a levy within scope of IFRIC 21 'Levies' or IAS 37 'Provisions, Contingent Liabilities and Contingent Assets' and recognize it as a operating expense. Any excess over the amount designated as levy is then recognized as current income tax expense falling under scope of IAS 12. For calculation of deferred tax, average effective rate of tax is required to be used.

This change has been considered as change in accounting policy and has been applied retrospectively in these financial statements in accordance with the requirements of IAS 8 'Accounting Policies, Change in Accounting Estimates and Errors'. Following are the effects as a result of this change:

2023			
Had there been no change in accounting policy	Impact of change in accounting policy	After incorporating effects of change in accounting policy	
-----Rupees-----			

Statement of profit or loss and other comprehensive income

Profit / (loss) before taxation	50,947,909	57,469,044	(6,521,135)
Levies	-	57,469,044	57,469,044
Taxation	47,864,849	57,469,044	9,604,195

There has been no effect on the statement of financial position and the statement of cash flows and earnings per share as a result of above change. In addition to above, the effective tax rate for deferred tax has been used as per the guide and resultantly deferred tax asset has not been recorded in these financial statements considering the limited availability of tax credits and future taxable profits of the Company. However, deferred tax asset recorded in earlier years is reversed during current year's financial statements due to amount not being material to the financial statements and comparative figures have not been restated.

4.12 Levies

The tax charged under Income Tax Ordinance, 2001 which is not based on taxable income or any amount paid / payable in excess of the calculation based on taxable income is classified as levies in the statement of profit or loss and other comprehensive income as these levies fall under the scope of IFRIC 21 'Levies' / IAS 37 'Provisions, Contingent Liabilities and Contingent Assets'.

4.13 Foreign currencies

Foreign currency transactions are translated into Rupees using the rates of exchange prevailing on the dates of the transaction. At each reporting date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the reporting date except where forward exchange contracts have been entered into for repayment of liabilities, in that case, the rates contracted for are used.

Gains and losses arising on retranslation are included in net profit or loss for the year.

4.14 Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares.

4.15 Dividend and other appropriations

The dividend is recognised as liability in the year in which it is approved. Appropriations of profit are reflected in the statement of changes in equity in the year in which such appropriations are made.

4.16 Share capital

Share capital Ordinary shares are classified as equity and recognised at their face value. Discount on issue of shares is separately reported in statement of changes in equity. Transaction costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

4.17 Segment reporting

On the basis of its internal reporting structure, the Company considers itself to be a single reportable segment; however, certain information about the Company's products, as required by the accounting and reporting standards, is presented in note 41 to these financial statements.

4.18 Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Company uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Short-term leases and leases of low-value assets.

The Company applies the short-term lease recognition exemption to its short-term leases of property and equipment (i.e.,) those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase.

5.2.3 The Company was establishing Tin Mill Black Plate (TMBP) project for manufacturing of Tin Mill Black Plates with an annual production capacity of 200,000 MT per annum. On March 01, 2024 the Company intimated to the exchange, in the matter of the dispute between STPL and New Metallurgy Hi-tech Group Co Ltd (the Supplier) that an award was rendered by the Singapore International Arbitration Centre (SIAC) in favour of the Supplier. Being dissatisfied with the award, STPL filed an application to set aside the award before the High Court of Republic of Singapore (HCRS) which has given the decision in favour of the Supplier subsequent to the year end. As disclosed in the note 25.2 to the financial statements, subsequently the Company filed an application for appeal in the Supreme Court of Singapore and withdrawn its application after entering into an agreement for mediation.

Subsequent to the year end, On October 01, 2024 the board has decided to roll back the Tin Mill Black Plate (TMBP) project due to challenging economic conditions, characterized by high inflation, increased markup rates, and significant fluctuations in PKR to USD Parity.

11.2 This includes an amount of Rs. 31.49 million, paid as advance for import of raw material from Centurion Tetra SL (Supplier) through Letter of Credit (LC). The supplier has forfeited the amount of advance and did not supply raw material due to delay in providing advance as per the terms of the contract. The Company filed a case in International Court of Arbitration (ICA) due to cross border trade for refund. The supplier has claimed an amount of \$ 346,000 in lieu of loss incurred due to revocation of contract by the Company. The Company has won the case in the arbitration and recovery proceedings were also initiated in the Spain court (supplier country court). The Company has also won in the Spanish Court and the 'assets attachment' process is underway. The management, in consultation with its legal advisor, is of the view that the amount will be recovered.

The Company had made a provision Rs. 31.49 million (2023: Rs. 15.74 million) against the aforementioned advance on prudence basis considering the time value of money.

- 14.1** This amount relates to an advance paid to a foreign supplier against which the Company has filed a suit in a Court in Malaysia. In 2013, the Court passed a decree in favour of the Company. However, based on assessment of irrecoverability of the amount, the Company has made full provision against this amount.
- 14.2** An amount of Rs.75.6 million was paid by the Company as an advance for purchase of land to National Industrial Park (NIP). Due to delay in handing over the land to the Company, the agreement was cancelled and as per terms of the contract, 10% amount of the total amount was forfeited by NIP amounting to Rs. 7.56 million. Management is of view that it was due to fault of NIP therefore forfeited amount should be refunded to the entity under which litigations are in process. However, a provision for this amount has been recorded.

- 20.2** This represents provision for Sindh Development and Infrastructure Fee and Duty which was levied by the Excise and Taxation Department of Government of Sindh, on goods entering or leaving the province of Sindh, through air or sea at prescribed rate, under the Sindh Finance Ordinance, 2001. The imposition of the levy was initially challenged by the Company along with other affectees, in the High Court of Sindh, and the Court was pleased to grant an interim injunction, vide Order dated May 31, 2011, to the effect that for every consignment cleared after December 28, 2006, 50% of the value of infrastructure fee should be paid in cash and a bank guarantee for the remaining amount should be deposited with the Court until the final order is passed. However, as a matter of prudence, in 2021 the Company has paid 50% of the value of infrastructure fee to the concerned department and recorded liability for the remaining amount which is supported by a bank guarantee.

On June 04, 2021, the SHC vide order C.P.No D-3309 / 2011, summoned to encash all the bank guarantees furnished by the petitioners. However the Supreme Court of Pakistan, vide its order dated September 01, 2021, suspended the order issued by SHC, stating that it suffers from constitutional and legal defects and granted the interim relief to the Company and other petitioners. The order issued by the Supreme Court of Pakistan states that the petitioners shall keep the bank guarantees already submitted pursuant to the earlier order of SHC and shall furnish the fresh bank guarantees equivalent to the amount of levy claimed by the Sindh Government against release of all future consignments of imported goods.

25. CONTINGENCIES AND COMMITMENTS

Contingencies

25.1 The Company imports Tin Mill Black Plate / CRC coils from different countries for producing Tin Plate for exportation under manufacturing bond facility and local supply for home consumption on payment of leviable duty and taxes. The imported materials are warehoused in the manufacturing bond without payment of duty and taxes for in-house consumption for producing of exportable products. The Company is availing the manufacturing bond facility since 2011, huge quantity of Tin Plate produced by the Company was exported, adding considerable forex to the national exchequer. However, to process the renewal of the manufacturing bond warehousing license, a team of Regulatory Collectorate MCC-Gawadar, Camp office, Customs House, Gaddani, visited the bonded warehouse for stock taking and reconciliation of imports vis-à-vis exports documentation and records. Based on a allegedly reconciliation audit conducted by the regulatory Collectorate, a purported shortage of 1055 MT of the imported materials i.e. CRC / Tin Mill Black Plate was arbitrarily pointed out despite the fact that the aforesaid quantity was fully accounted for and earlier custom annual audit reports didnot point out such discrepancy.

During the course of quasi-judicial proceedings before the learned Adjudication Authority, all the charges levelled in the Show Cause Notice were duly rebutted through submission of detailed written reply and verbal representation before the learned Adjudicating Authority, based on misreading and non-reading of evidence adduced by the Petitioner i.e. Gaddani Collectorate, the Adjudication Authority, passed the Order-in-Original No. 334 / 2019 dated November 7, 2019, for recovery of purported evaded amount of duty and taxes amounting to Rs. 64,192,547 on purported removal of 1055 MT of CRC / Tin Mill Black Plate from Manufacturing Bond. While being aggrieved of the aforesaid Order-in-Original No. 334 / 2019, the Company preferred an appeal bearing No. G-1298 / 2019 on November 11, 2019, under section 194A of the Customs Act, 1969, before the learned Customs Appellate Tribunal, Karachi. However, no decision was taken by the Tribunal, since it was non-functional. Pending the appeal, before the learned Customs Appellate Tribunal, Karachi, the Petitioner also moved the Hon'ble High Court of Sindh, at Karachi vide Constitutional Petition No. D-7820 / 2019, assailing the demand notice for recovery of purported evaded amount of duty and taxes amounting to Rs 64,192,547 issued in pursuance of Order-in-Original No. 334 / 2019. The Hon'ble High Court of Sindh, vide interim Order dated December 5, 2019, directed the Respondent not to enforce recovery of impugned Demand Notice which is subject matter of appeal pending before the Customs Appellate Tribunal, Karachi, till next date of hearing. However, after hearing the parties at length, the Hon'ble High Court of Sindh, at Karachi vide order dated December 19, 2019 disposed of the above petition, with the directions to the Respondents not to enforce recovery of impugned Demand Notice, being the subject matter of appeal, and further directed the Petitioner to file urgent application before the concerned bench of Customs Appellate Tribunal, Karachi. The Tribunal has stayed the recovery and the case is pending adjudication with the Tribunal. Subsequent to the year end, the Tribunal has given the decision upholding the adjudication order. The Comapny has filed rectification and amendments against the judgement dated March 18, 2024 on May 29, 2024 before the tribunal. and has requested for urgent hearing. The rectification request has not come up for hearing till today and we are hopeful that the rectification expected shall clear the arbitrary audit issue, raised without any basis.

In midst of the above legal battle, the Collector, Gaddani, had cancelled the manufacturing bond license of the Company. However, the Chief Collector has subsequently restored the manufacturing Bond status.

Keeping in view the fact that the restoration has been granted, the Management is expecting a favourable decision, therefore no provision is made in these financial statements.

- 25.2** In April 2018, the Company signed a contract with M/s. New Metallurgy Hi-Tech Group Co. Ltd. (the Supplier) of about RMB 123.30 million, for setting up a Cold Rolling Mills Complex and Acid Regeneration Plant in Hub, Baluchistan. As per the contract, the shipment of Plant and Machinery was required to be completed by April 30, 2020 and the Cold Rolled Coil Unit had to start production by December, 2020.

The Company has already invested more than Rs. 2,000 million on Land, Building, Infrastructure, Plant and machinery and civil construction of site including foundations duly completed as per specific drawings given by the Supplier, for laying Machinery. The Company has also paid 33% advance for design, engineering and shipment of the plant, amounting to RMB 40 million. As stipulated under the contract, majority of the component of plant, machinery and equipment had to be shipped in February 2020 and the remaining consignments by April 30, 2020. However, the Supplier failed to ship within the stipulated timeline. Meanwhile, the Bank Guarantees issued by the Supplier were expiring in April 2020. The Supplier besides delaying shipment did not extend Bank Guarantees beyond its expiry date in April 2020. These bank guarantees covered the consignments to be shipped, by April 30, 2020, since the consignments were not shipped, it left no option for the Company but to call for the encashment of Bank Guarantees to secure itself.

On August 27, 2020 the Supplier filed a case in Singapore International Arbitration Centre (SIAC) and appointed the arbitrator, contesting the case of encashment of above described Bank Guarantees. The Supplier claimed the right to retain the payments already made as an advance by the Company amounting to RMB 19.52 million. The Supplier also claimed for the damages and losses of RMB 35.86 million.

The Company also appointed the arbitrator and a lawyer to defend its position. The Company counter claimed USD 12.65 million with a detailed response on September 17, 2020 against the failure to make the delivery of goods within agreed timeline by the Supplier.

On October 06, 2022, Singapore International Arbitration Council (SIAC) has awarded that the Company wrongfully repudiated the Contracts by, inter alia, encashing the Bank Guarantees and attempted to cancel the letter of credit (LC). The SIAC had further declared that the Company is liable to pay Rs. 1,640.39 million as detailed below and the supplier has right to forfeit advance amounting to Rs.408.40 million made by the Company

1. CNY (Chinese Yuan) 35,799,296 (amounting to Rs. 1,371 million) in damages as compensation for losses suffered by the Supplier (A);
2. legal costs and disbursements being SGD (Singaporean Dollar) 40,017.74 (amounting to Rs. 8.21 million) and CNY 3,111,489 (amounting to Rs. 121.35 million) (B) to Supplier; and
3. interest of 0.9446% per annum compounded monthly; on '1' (from August 28, 2020) and on '2' (from the date of the award); until the same are fully and finally paid which is around CNY 1.3 million (amounting to Rs. 53.62 Million)
4. 50% of the costs of arbitration, amounting to SGD 296,852.28 (Rs. 60.89 million).

Furthermore, SIAC declared that the Supplier has right to retain the payments in the amount of CNY 19,515,577 made by the Company under the CRM Contract as disclosed in note 6 of the financial statements.

Following the receipt of the final award, the Company, after consulting with its Singaporean legal advisors, filed a case in the High Court of the Republic of Singapore (HCRS), having Case No HC/OA 809/2022, on December 5, 2022, challenging the decision of the Singapore International Arbitration Centre (SIAC).

On July 04, 2023, the Supplier filed an application having suit No. 1098 of 2023 (now J.M. 18 of 2025) in the High Court of Sindh (HCS) seeking the enforcement of the final award dated October 6, 2020. The application also included a claim for the recovery of legal costs incurred to that date, along with a request to restrain the Company from selling its immovable property.

On May 21, 2024, the HCS issued an order in above suit, directing that the proceedings be stayed and restrained the Company from disposing of its two immovable until a final decision is issued in the case pending before the HCRS (Case No HC/OA 809/2022) as disclosed in Note 5.1.3 to the financial statements.

On August 28, 2024, the HCRS issued the final decision in which it dismissed HC/OA 809/ 2022, ordering the Company to pay legal costs of SGD (Singaporean Dollar) 35,000 to the Supplier in addition to amounts determined in award. On September 25, 2024, the Company filed an application for appeal in the Supreme Court of Singapore and which was withdrawn following an agreement of mediation signed on February 24, 2025 with the Supplier.

In the mediation proposal, the Company has offered Rs 820.97 million for mediation out of which Rs. 408.40 million is held with the supplier on advance as disclosed in Note 6 and during the year provision of the amount of Rs 820.97 million has been made as reflected on the face of the Statement Of Profit or Loss and Other Comprehensive Income

In the High Court of Sindh, suit J.M.No.18 of 2026, (earlier Suit No.1098 of 2023) is currently pending between the Supplier and the Company which seeks the enforcement of the Arbitration Award made in Singapore. The Company's challenge to the Award which was pending before the Supreme Court Of Singapore was withdrawn on the condition that the Company as well as the Claimant would attempt mediation in good faith. Subsequently the Claimant sought enforcement of the Award, while the Company has filed an Application with the prayer that the Award's enforcement be refused and for the direction that the Parties should complete the process of good faith mediation. This application is pending till date. The Company's liabilities will substantially depend on whether the Company is successful in having matter referred to mediation as well as the result of the mediation if any, however if this fails and the Award is enforced, the Company's liability would equal the value of the Award along with costs/interest.

Besides above, the matter for repatriation of the mobilisation advance amounting to Rs. 408.40 million (RMB 11.30 million), paid to the above mentioned supplier, is under consideration with the State Bank of Pakistan (SBP). Since the shipments under the contract could not be effected within the stipulated time allowed by SBP, the case has been highlighted as overdue. SBP has issued correspondence to the Company and the bank involved in the project, requesting the submission of shipping documents, which are yet to be provided by the Company. Applicable penalty rates, as per SBP guidelines for overdue cases, may be imposed accordingly.

As discussed above, the provision of Rs 820.97 million has duly been made in the financial statements and as of reporting date the management believes this provision is sufficient to settle the final liability in case it materializes.

- 25.3** Tax assessments of the Company have been amended for the tax year 2017 under Section 161/128/205 of the Income Tax Ordinance 2001, demanding Rs. 17,776,816, the Company filed appeal on January 25, 2021 before Commissioner Income Revenue against the order which has been reserved for order.

Tax assessments of the Company have been amended for the tax years 2003, 2005, 2006 and 2008 under Section 122 of the Income Tax Ordinance 2001, by the tax department. The Company contested the levy of tax by department on the ground that the Company was enjoying exemption under Clause 126 of Part I of Second Schedule to the Ordinance as levy of minimum tax is not applicable on the Company. Appeals are pending before Sindh High Court, Income Tax Appellate Tribunal (ITAT) and CIT (Appeals) respectively. The Company is confident that outcome will be in its favour. However, as a matter of prudence, tax provision of Rs. 35,610,818 for the respective tax years has been made in the financial statements under Section 113 of the Ordinance.

39.2 Financial risk management

The Board of Directors has overall responsibility for the establishment and oversight of the Company's financial risk management. The responsibility includes developing and monitoring the Company's risk management policies. To assist the Board in discharging its oversight responsibility, management has been made responsible for identifying, monitoring and managing the Company's financial risk exposures. The Company's exposure to the risks associated with the financial instruments and the risk management policies and procedures are summarised as follows:

39.2.1 Credit risk and concentration of credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss, without taking into account the fair value of any collateral. Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Company's performance to developments affecting a particular industry. The Company does not have any significant exposure to customers from any single country or single customer.

Credit risk of the Company arises principally from trade debts, trade deposits, term deposit certificates, other receivable and bank balances. The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date is as follows:

	2024 Rupees	2023 Rupees
Long term deposits	10,066,221	10,056,221
Trade debts	38,163,245	186,526,133
Loans and advances	180,090	309,000
Trade deposits	40,696,022	48,674,221
Other financial assets	264,564,407	255,523,740
Other receivables	10,841,059	9,198,412
Bank balances	43,863,497	24,677,964
	<u>408,374,541</u>	<u>534,965,691</u>

Trade debts are due from local and foreign customers against sales. Management assesses the credit quality of local customers, taking into account their financial position, past experience and other factors. As at the reporting date, there are past due trade debt balances which in management view are recoverable as disclosed in the notes. For bank balances and significant trade deposits, financial institutions with strong credit ratings are accepted, credit risk on bank balances and term deposit certificates are limited as these are placed with banks having good credit ratings.

39.2.2 Credit risk related to trade debts

Customers' credit risk is managed subject to the Company's established policy, procedures and control relating to customer credit risk management. The management monitors and limits the Company's exposure of credit risk by limiting transactions with specific counter parties and continually assessing their credit worthiness. Outstanding customer receivables are regularly monitored.

In determining the recoverability of trade debts, the Company considers any change in the credit quality of the trade debt from the date credit was initially granted up to the reporting date. The customer base is large and unrelated and does not have credit risk concentration.

The average age of receivables is 11 days (2023: 21 days).

The Company is not exposed to major concentration on credit risk. At June 30, 2024, the Company has approximately 2 customers (2023: 6 customers) that owed more than Rs. 10 million each and accounted for approximately 43.60% (2023: 65.53%) of all trade debts.

The Company does not hold collateral as security.

39.2.3 Credit risk related to financial instruments and cash deposits

The Company is exposed to credit risk from its operating activities primarily for other financial deposits with banks and financial institutions, and other financial instruments. The credit risk on liquid funds is limited because the counter parties are banks with reasonably high credit ratings i.e. A1 to A1+ in short term and AA- to AAA for long term.

39.3 Liquidity risk management

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the Company could be required to pay its liabilities earlier than expected or would have difficulty in raising funds to meet commitments associated with financial liabilities as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company manages liquidity risk by maintaining sufficient cash and bank balances and availability of financing through banking arrangements, which includes short-term borrowings.

39.4 Market risk management

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of currency risk, interest rate risk and other price risk.

39.4.1 Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

Yield / Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Majority of the interest rate risk arises from long and short term borrowings from financial institutions. At the reporting date the interest rate risk profile of the Company's interest-bearing financial instruments is:

	2024 Rupees	2023 Rupees
Variable rate instruments		
Financial assets		
Term deposit certificates	264,564,407	255,523,740
Bank balances	<u>2,059,832</u>	<u>1,143,303</u>
	<u>266,624,239</u>	<u>256,667,043</u>
Financial liabilities		
Long-term finance	210,921,597	531,543,539
Short-term borrowings	<u>1,490,019,036</u>	<u>1,199,450,760</u>
	<u>1,700,940,633</u>	<u>1,730,994,299</u>

Sensitivity analysis for variable rate instruments - Financial Liabilities

If interest rates had been 50 basis points higher or lower and all other variables were held constant, the Company's loss before levies and taxation for the year ended would increase / decrease by Rs. 8,530,133 (2023: Rs. 8,703,341). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowings.

Sensitivity analysis for variable rate instruments - Financial Assets

If interest rates had been 50 basis points higher or lower and all other variables were held constant, the Company's loss before taxation for the year ended would increase / decrease by Rs. 1,333,121 (2023: Rs. 1,283,335). This is mainly attributable to the Company's exposure to interest rates on its variable rate deposits.

39.5 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises mainly where receivables and payables exist due to transactions entered into foreign currencies. The Company is exposed to foreign currency risk on sales, purchases, borrowings and deposits which are entered in a currency other than Pak Rupees.

	2024	2023	2024	2023
	USD / EURO		PKR	
Trade debts - USD	175,939	532,073	49,051,757	152,758,215
Trade debts - EURO	36,714	91,697	10,955,824	
Foreign currency bank balances	12,076	12,076	3,366,703	3,466,931

The following significant exchange rates applied during the year:

	Average rates		Reporting date rates	
	2024	2023	2024	2023
US Dollars to PKR	283.24	247.99	278.34	285.99
EURO to PKR	306.38	260.44	297.69	312.93

In respect of other monetary assets and liabilities denominated in foreign currencies, the Company ensures that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

Foreign currency sensitivity analysis

At June 30, 2024, if the Rupee had strengthened / weakened by 5% against the US dollar with all other variables held constant, loss before levies and taxation for the year would have been decreased / increased by Rs. 3,168,714 (2023: Rs. 7,811,257). This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis as in previous year.

40. FAIR VALUE OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The carrying value of all the financial instruments reported in the financial statements approximates their fair value as the items are short term in nature.

Fair value hierarchy

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- **Level 1** fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- **Level 2** fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- **Level 3** fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As at June 30, 2024, the Company has no financial instruments that falls into any of the above category.

There were no transfers between Level 1 and 2 in the year.

41. OPERATING SEGMENTS

Chief Executive considers the business as a single operating segment as the Company's assets allocation decisions are based on a single, integrated business strategy, and the Company's performance is evaluated on an overall basis.

Out of total sales of the Company 99.20% (2023: 99.63%) relates to customers in Pakistan.

All non-current assets of the Company as at June 30, 2024 are located in Pakistan.

42. PROVIDENT FUND RELATED DISCLOSURE

The investments out of provident fund have been made in accordance with the provisions of section 218 of Companies Act, 2017 and the conditions specified there under.

43. CAPITAL RISK MANAGEMENT

The Company's objectives, policies and processes for managing capital are as follows:

- The Company is not subject to any externally imposed capital requirements.
- The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.
- Consistently with others in the industry, the Company monitors capital on the basis of the debt-to-adjusted capital ratio. This ratio is calculated as net debt divided by adjusted capital. Net debt is calculated as total debt (as shown in the balance sheet) less cash and bank balances. Adjusted capital comprises of net debts and all components of equity (i.e. share capital and unappropriated profit).
- The debt-to-adjusted capital ratios at June 30, 2024 and June 30, 2023 were as follows:

	2024 Rupees	2023 Rupees
Total debts	2,118,172,388	2,218,731,848
Less: Cash and bank balances	<u>(43,880,734)</u>	<u>(25,191,464)</u>
Net debt	2,074,291,654	2,193,540,384
Total equity	1,162,577,541	3,221,076,676
Adjusted capital	<u>3,236,869,195</u>	<u>5,414,617,060</u>
