چیرمین کا جائزہ

محترم حصص یافتگان:-

جائزہ سال کے دوران پاکستان بھر میں کاروباروں کی صلاحیت کو کڑی آزمائش کا سامنا رہا، اور ٹیکسٹائل سیکٹر بھی اس سے مستثنیٰ نہیں رہا۔ غیر مستحکم مارکیٹس، بڑھتی ہوئی لاگتیں، اور بدلتی ہوئی عالمی تجارتی حرکیات اس صنعت کے منظر نامے کو مسلسل تبدیل کر رہی ہیں۔ تاہم، ہر چیلنج کے اندر ایک موقع پوشیدہ ہوتا ہے، اور یہی یقین ہمارے مستقبل کے وژن کی بنیاد ہے۔

آپ کی کمپنی میں ہم تبدیلی کو رکاوٹ نہیں بلکہ تبدیلی کے لیے ایک محرک سمجھتے ہیں۔ ایک مستقبل بین نقطہ نظر کے ساتھ ہم نے نظم و ضبط پر مبنی لاگت کے انتظام، عملی کارکردگی میں بہتری، اور صارفین کے ساتھ تعلقات کو مضبوط بنانے اور قدر فراہم کرنے پر توجہ دی۔ آگے بڑھتے ہوئے، ہماری ترجیحات میں پیداواریت کو بہتر بنانا، نئی منڈیوں میں توسیع کرنا، اور اپنے آپریشنز میں پائیدار طریقے اپنانا شامل ہے تاکہ کارکردگی میں بہتری آئے اور ہم عالمی معیار کے مطابق اپنے آپ کو ہم آہنگ کر سکیں۔ ہمارا زور برآمدی منڈیوں میں اپنی مسابقتی پوزیشن کو مضبوط کرنے، اپنی مصنوعات کے دائرے کو وسیع کرنے، اور تمام اسٹیک ہولڈرز کے لیے طویل مدتی قدر پیدا کرنے پر ہے۔

بورڈ آف ڈائریکٹرز نے مستقل اور مضبوط نگرانی فراہم کی، جس سے ہمارا کارپوریٹ گورننس فریم ورک شفافیت، جوابدہی، اور اخلاقی کاروباری طرز عمل پر قائم رہا۔ ہم نے رسک مینجمنٹ اور پائیداری پر خصوصی زور دیا ہے، اس بات کو تسلیم کرتے ہوئے کہ اصل کامیابی صرف منافع میں نہیں بلکہ لوگوں، معاشرے، اور ماحول کے حوالے سے ہماری ذمہ داری میں بھی مضمر ہے۔

مستقبل کی طرف دیکھتے ہوئے، ہم جدت اور عملی مہارت کے اپنے سفر کو تیز کرنے کے لیے پرعزم ہیں۔ ہم ٹیکنالوجی کو اپناتے ہوئے، صلاحیتوں کو پروان چڑھاتے ہوئے، اور اپنی منڈی تک رسائی کو وسعت دیتے ہوئے ایک مضبوط، زیادہ مستعد تنظیم کی تعمیر کرنا چاہتے ہیں جو غیر یقینی صورتحال کے باوجود ترقی کر سکے اور عالمی ٹیکسٹائل ویلیو چین میں نئے مواقع حاصل کر سکے۔

بورڈ کی جانب سے، میں اپنے تمام شیئر ہولڈرز، ملازمین، اور شراکت داروں کا دل کی گہرائیوں سے شکریہ ادا کرتا ہوں کہ انہوں نے ہم پر اعتماد کیا اور ہمارا ساتھ دیا۔ ہم سب مل کر عہدگی کی تلاش جاری رکھیں گے، ممکنات کو حقیقت میں بدلیں گے، اور ایک ایسا مستقبل تشکیل دیں گے جو ترقی، لچک، اور پائیداری سے عبارت ہو۔

director's report to the members

On behalf of the Board, we are pleased to present the Annual Report for the year ended June 30, 2025, which includes the Audited Financial Statements and other necessary information in compliance with the requirements of the Listed Companies (Code of Corporate Governance) Regulations, 2019, and the Companies Act, 2017.

Market Overview

economic outlook

The government's ongoing reform measures under the International Monetary Fund (IMF) program, aimed at achieving macroeconomic stabilization, are expected to improve investor confidence and business sentiment. Macroeconomic fundamentals of Pakistan's economy are continuously strengthening, with some growth in real GDP. It is further supported by improved external balances and sound fiscal management. Prices of utilities including food, transport and energy are reduced resulting a significant decrease in inflation to 3.5% in May 2025 from 11.8% a year earlier. The country improved current account balance to a surplus of US\$1.81 billion and a primary surplus of 3.2% of GDP during Jul-Apr FY2025. This was driven by the increase in tax collections and non-tax revenues.

Global economic growth remained modest with manufacturing under pressure and varying inflation rates across regions. In Pakistan, despite a mix trend in Large Scale Manufacturing (LSM), textile manufacturing has demonstrated resilience and posted a recovery, especially in value-added garments such as knitwear, readymade garments and bedding. This recovery is being driven by a more favorable global trade outlook, continued investment in innovation, efficiency and value added product line. With supportive policies and recovering global demand, the Company is well-positioned to achieve sustainable growth in the coming years.

company's performance

The company's revenue grew by 0.89%, increasing from Rs. 58.677 billion to Rs. 59.202 billion for the fiscal year ending June 30, 2025. Similarly, profit after tax increased to Rs. 131.279 million, as compared to a loss after tax of Rs. (470.030) million last year. This turnaround from loss to profit reflects a notable improvement in the overall performance of the Company during the financial year 2025. As a result, earnings per share (EPS) increased to Rs. 1.20, as compared to a loss per share of Rs. (7.95) in the previous year.

The comparative financial results of the Company are reproduced hereunder:

future outlook

The textile industry in Pakistan recovered gradually, and this recovery is driven by stabilizing input costs, improved energy availability, and government-led export facilitation measures. Global demand is projected to strengthen in the coming quarters, particularly from key markets in the United States and Europe. The recent trajectory of U.S. tariff adjustments and trade policies presents both opportunities and challenges for Pakistani exporters; however, continued focus on value-added products, compliance with international standards, and market diversification are likely to support sustainable growth. With prudent policy support and industry-wide efficiency improvements, the sector is positioned to maintain its role as the backbone of Pakistan's exports.

The outlook for textile business industry in Pakistan for FY-2025-26 remains cautiously optimistic. Devastating floods, impacting upcoming cotton harvest, high rate of taxes and high energy prices may impact the future profit margins. However, our strategic focus will remain on expanding our export base, enhancing product quality, and increasing operational efficiencies to remain competitive in a dynamic global textile landscape. While challenges persist, the Board remains confident in the Company's ability to navigate these headwinds and capitalize on emerging growth opportunities in the textile sector.

dividend preference and ordinary

The Company had issued 60.000 million Preference Shares of the value of Rupees 600.000 million, redemption of these preference shares after the expiry of their maturity is at the option of the Company. Preference dividend is payable on the basis of the average six months KIBOR+200 bps per annum. Board of Directors of the Company has proposed preference dividend on the outstanding preference shares to the preference shareholders of the Company for the year ended 30 June 2025 of Rupees 1.82 per share.

Considering the overall loss position, the Board of Directors decided not to consider any dividend for the current year.

بورڈ کی جانب سے ہمیں خوشی ہے کہ ہم 30 جون 2025 کو ختم ہونے والے سال کے لیے سالانہ رپورٹ پیش کر رہے ہیں۔ اس رپورٹ میں آڈٹ شدہ مالیاتی بیانات اور دیگر ضروری معلومات شامل ہیں، جو لسٹڈ کمپنیز (کارپوریٹ گورننس کا ضابطہ)، 2019 اوپینیز ایکٹ، 2017 کی ضروریات کے مطابق فراہم کی گئی ہیں۔

مارکیٹ کا جائزہ۔

اقتصادی ظہور:-

حکومت کے جاری اصلاحاتی اقدامات، جو انٹرنیشنل مانیٹری فنڈ (IMF) کے پروگرام کے تحت معاشی استحکام حاصل کرنے کے لیے کیے جا رہے ہیں، سے توقع ہے کہ سرمایہ کاروں کے اعتماد اور کاروباری رجحان میں بہتری آئے گی۔ پاکستان کی معیشت کے میکرو اکنامک اشاریے مسلسل مضبوط ہو رہے ہیں، اور حقیقی جی ڈی پی میں کچھ حد تک اضافہ بھی دیکھنے میں آیا ہے۔ یہ بہتری بیرونی کھاتوں کے توازن اور محتاط مالیاتی نظم و نسق کے ذریعے مزید تقویت پا رہی ہے۔ خوراک، ٹرانسپورٹ اور توانائی سمیت بنیادی ضروریات کی قیمتوں میں کمی کے باعث مہنگائی کی شرح میں نمایاں کمی آئی ہے، جو مئی 2025 میں گھٹ کر 3.5 فیصد ہو گئی ہے، جو ایک سال قبل 11.8 فیصد تھی۔ ملک کا کرنٹ اکاؤنٹ بیلنس بہتر ہو کر 1.81 ارب امریکی ڈالر کے سرپلس میں تبدیل ہوا، جب کہ جولائی تا اپریل مالی سال 2025 کے دوران پرائمری سرپلس جی ڈی پی کے 3.2 فیصد تک پہنچ گیا۔ یہ کارکردگی ٹیکس محصولات اور نان ٹیکس ریونیو میں اضافے کی بدولت ممکن ہوئی۔

عالمی معیشت میں مجموعی طور پر ترقی کی رفتار سست رہی، جب کہ مینوفیکچرنگ سیکٹر کو وبا کا سامنا رہا اور مختلف خطوں میں مہنگائی کی شرح میں فرق دیکھا گیا۔ پاکستان میں لارج اسکیل مینوفیکچرنگ (LSM) کے مخلوط رجحانات کے باوجود، ٹیکسٹائل مینوفیکچرنگ نے لچکار کارکردگی دکھائی اور خاص طور پر ویلیو ایڈڈ مصنوعات جیسے نٹ ویئر، ریڈی میڈ گارمنٹس اور بیڈنگ کے شعبوں میں بہتری دیکھی گئی۔ یہ بہتری عالمی تجارتی ماحول کی سازگار صورتحال، جدت، مؤثر پیداواری عمل اور ویلیو ایڈڈ مصنوعات میں سرمایہ کاری کے تسلسل کے باعث آئی ہے۔ حکومتی معاون پالیسیوں اور عالمی طلب میں بحالی کے ساتھ، کمپنی آئندہ برسوں میں پائیدار ترقی حاصل کرنے کی مضبوط پوزیشن میں ہے۔

کمپنی کی کارکردگی:-

کمپنی کی آمدنی مالی سال 2025 کے دوران 0.89% کے اضافے کے ساتھ 58.677 ارب روپے سے بڑھ کر 59.202 ارب روپے ہو گئی۔ کمپنی نے ٹیکس سے قبل منافع 393.341 ملین روپے ریکارڈ کیا، جبکہ گزشتہ مالی سال میں ٹیکس سے قبل خسارہ (394.682) ملین روپے تھا۔ اسی طرح، ٹیکس کے بعد منافع 131.279 ملین روپے تک پہنچا، جب کہ پچھلے سال ٹیکس کے بعد خسارہ (470.030) ملین روپے تھا۔ یہ خسارے سے منافع کی طرف واپسی کمپنی کی مجموعی کارکردگی میں نمایاں بہتری کو ظاہر کرتی ہے، جو مالی سال 2025 کے دوران حاصل ہوئی۔ نتیجتاً، فی حصص آمدنی (EPS) 1.20 روپے تک پہنچ گئی، جو گزشتہ سال فی حصص خسارہ (7.95) روپے تھا۔

کمپنی کے تقابلی مالیاتی نتائج ذیل میں پیش کیے گئے ہیں۔

مالی سال کے اختتام اور اس رپورٹ کی تاریخ کے درمیان کمپنی کی مالی حالت کو متاثر کرنے والی کوئی اہم تبدیلی یا پابندی واقع نہیں ہوئی ہے۔

مستقبل کا جائزہ :-

پاکستان کی ٹیکسٹائل صنعت نے بتدریج بحالی کا عمل شروع کیا، جو کہ ان پٹ لاگت میں استحکام، توانائی کی بہتر دستیابی، اور حکومت کی طرف سے برآمدات کے فروغ کے اقدامات کی بدولت ممکن ہوا۔ عالمی سطح پر طلب کے آئندہ چند ماہ میں مضبوط ہونے کی توقع ہے، خاص طور پر امریکہ اور یورپ جیسے اہم بازاروں سے حالیہ امریکی ٹیرف کی ایڈجسٹمنٹ اور تجارتی پالیسیوں میں تبدیلیاں پاکستانی برآمد کنندگان کے لیے دونوں مواقع اور چیلنجز فراہم کرتی ہیں۔ تاہم، ویلیو ایڈڈ مصنوعات پر توجہ مرکوز رکھنا، بین الاقوامی معیار کے مطابق ہونا، اور مارکیٹ کی تنوع صنعت کی پائیدار ترقی کے لیے معاون ثابت ہو سکتا ہے۔ محتاط پالیسی حمایت اور صنعت میں کارکردگی میں بہتری کے ساتھ، یہ شعبہ پاکستان کی برآمدات کے لیے ایک اہم ستون کے طور پر اپنا کردار برقرار رکھنے کے لیے تیار ہے۔

پاکستان میں ٹیکسٹائل انڈسٹری کے لیے مالی سال 2025-26 کے دوران منظر نامہ احتیاطی طور پر پرامید نظر آتا ہے۔ تباہ کن سیلابوں کی وجہ سے آئندہ کپاس کی فصل پر اثرات، ٹیکسوں کی بلند شرح اور توانائی کی مہنگی قیمتیں مستقبل کے منافع کے مارجنز کو متاثر کر سکتی ہیں۔ تاہم، ہماری حکمت عملی کا مرکز اپنی برآمدات کا دائرہ بڑھانا، مصنوعات کے معیار کو بہتر بنانا، اور آپریشنل کارکردگیوں میں اضافہ کرنا رہے گا تاکہ ہم عالمی ٹیکسٹائل مارکیٹ میں مسابقتی رہ سکیں۔ اگرچہ چیلنجز موجود ہیں، بورڈ کو کمپنی کی صلاحیت پر مکمل اعتماد ہے کہ وہ ان مشکلات کا مقابلہ کرتے ہوئے ٹیکسٹائل سیکٹر میں ابھرتے ہوئے ترقی کے مواقع سے فائدہ اٹھا سکے گا۔

حصہ ا منافع:-

کمپنی نے 600.000 ملین روپے کی مالیت کے 60.000 ملین ترجیحی حصص جاری کیے تھے ان ترجیحی حصص کی مدت پوری ہونے کے بعد ان کی واپسی کمپنی کے اختیار میں ہے۔ ترجیحی منافع سالانہ اوسط چھ ماہ کے KIBOR+200BPS کی بنیاد پر قابل ادائیگی ہے کمپنی کے بورڈ آف ڈائریکٹرز نے 30 جون 2025 کو ختم ہونے والے سال کے لئے بقایا ترجیحی حصص یافتگان کو 1.82 روپے فی حصص منافع تجویز کیا۔ مجموعی نقصان کی پوزیشن کو دیکھتے ہوئے بورڈ آف ڈائریکٹرز نے موجودہ سال کے لئے کسی بھی ڈیویڈنڈ پر غور نہ کرنے کا فیصلہ کیا ہے۔

کارپوریٹ گورننس:-

بورڈ آف ڈائریکٹرز اور انتظامیہ، لسٹڈ کمپنیز (کوڈ آف کارپوریٹ گورننس) ریگولیشنز 2019 اور رول بک آف پاکستان اسٹاک ایکسچینج کے تحت اپنی ذمہ داریوں سے آگاہ ہیں۔ کمپنی شفافیت اور انکشافات پر زور دینے کے ساتھ کارپوریٹ انتظامیہ کی اچھی پریکٹس کے اصولوں کی پابند ہے آپ کی کمپنی مالی اور غیر مالی معاملات کی درستگی، جامعیت اور شفافیت کو بڑھانے کے لئے اپنے کاموں اور کارکردگی کی نگرانی کرنے میں سنجیدہ ہے۔

To the Board of Directors of Masood Textile Mills Limited

On the Statement of Compliance with Privately Placed Sukuk Features and
Shariah Requirements

Applicable Criteria

The criteria against which the subject matter information (the statement) is assessed comprises of the provisions of the Regulations and Shariah Opinion (Fatwa) as issued by the Shariah Advisor.

Company's Responsibilities for Shariah Compliance

The Board and management of the Company are responsible for the preparation of the annexed Statement and to ensure that it is free from material misstatement. It is the responsibility of the Company's Board and management to ensure that all Sukuk

related financial arrangements, contracts and transactions are in substance and in their legal form, in compliance with the Sukuk Features and Shariah Requirements as specified above. The Company's Board and management are also responsible for prevention and detection of fraud and for identifying and ensuring that the Company complies with laws and regulations applicable to its Sukuk related activities and also for designing, implementation and maintenance of appropriate internal control procedures with respect to such compliance and maintenance of relevant records and such risk management system as the management determines is necessary to mitigate the risk of non-compliance of Sukuk Features and Shariah requirements whether due to fraud or error. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. The firm applies International Standard on Quality Management 1 "Quality Management for firms that perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements" which requires the firm to design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Our Responsibilities

Our responsibility is to examine the annexed Statement prepared by management and to report thereon in the form of independent assurance conclusion based on the evidence obtained. We conducted our engagement in accordance with International Standards on Assurance Engagements (ISAE) 3000, "Assurance Engagements Other Than Audits or Reviews of Historical Financial Information", issued by the International Auditing and Assurance Standards Board of the International Federation of Accountants. The procedures selected depend on our professional judgement including the assessment of the risk of the Company's non-compliance with the Sukuk Features and Shariah Requirements, whether due to fraud or error. In making those risk assessments, we have considered internal control relevant to ensure compliance with Sukuk Features and Shariah Requirements, in order to design assurance procedures that are appropriate in the circumstances, but not for the purpose of expressing a conclusion as to the effectiveness of the Company's internal control over ensuring compliance with Sukuk Features and Shariah Requirements.

A system of internal control, because of its nature, may not prevent or detect all instances of non-compliance with Sukuk Features and Shariah Requirements, and consequently cannot provide absolute assurance that the objective of compliance with Sukuk Features and Shariah Requirement will be met.

The procedures performed included;

- Evaluation of the systems, procedures and practices in place with respect to compliance of Sukuk related transactions against the Features and Shariah Requirements;
- Verification that payments were made on time and there was no delay;

The background of the entire page is a complex, abstract pattern of overlapping, faceted geometric shapes. These shapes, which resemble facets of a crystal or facets of a low-poly mesh, are primarily in shades of green and silver. The facets are arranged in a way that creates a sense of depth and movement, with some facets appearing to be in the foreground and others receding into the background. The lighting is dramatic, with sharp highlights and deep shadows that emphasize the three-dimensional quality of the facets. The overall effect is a modern, high-tech, and sophisticated visual texture.

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the key audit matters:

Sr. No.	Key audit matters	How the matters were addressed in our audit
1. Based on samples, we performed test counts and compared the quantities counted by us with the results of the counts of the management.</p>

Sr. No.	Key audit matters	How the matters were addressed in our audit
	<p>Inventories are stated at lower of cost and net realizable value.</p> <p>We identified existence and valuation of inventories as a key audit matter due to its size, representing 33.57% of total assets of the Company as at 30 June 2025, and the judgment involved in valuation.</p> <p>For further information on inventories, refer to the following:</p> <ul style="list-style-type: none"> - Material accounting policy information, Inventories (Note 2.8 to the financial statements). - Stores, spare parts and loose tools (Note 18) and Stock in trade (Note 19) to the financial statements. 	<ul style="list-style-type: none"> • For a sample of inventory items, re-performed the cost calculation and compared the moving / annual average cost appearing on valuation sheets. • On a sample basis, we tested the net realizable value of inventory items to recent selling prices and re-performed the calculation of the inventory write down, if any. • In the context of our testing of the calculation, we analyzed individual cost components and traced them back to the corresponding underlying documents. • We also made inquiries from management, including those outside of the finance function, and considered the results of our testing above to determine whether any specific write downs were required.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- no Zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

2. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policy information applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented unless otherwise stated:

2.1 Basis of preparation

a) Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB) and Islamic Financial Accounting Standards (IFASs) issued by the Institute of Chartered Accountants of Pakistan (ICAP), as notified under the Companies Act, 2017; and

- Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRSs and IFASs, the provisions of and directives issued under the Companies Act, 2017 have been followed.

b) Accounting convention

These financial statements have been prepared under the historical cost convention, except as otherwise stated in respective accounting policies.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

c) Critical accounting estimates and judgments

The preparation of financial statements in conformity with the approved accounting and reporting standards requires the use of certain critical accounting estimates. It also requires the management to exercise its judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The areas where various assumptions and estimates are significant to the Company's financial statements or where judgments were exercised in application of accounting policies are as follows:

Staff retirement gratuity

Certain actuarial assumptions have been adopted as disclosed in Note 8.4 to the financial statements for determination of present value of staff retirement gratuity. Any change in these assumptions in future years might affect the current and remeasurement gains and losses in those years.

Provisions

As the actual outflows can differ from estimates made for provisions due to changes in laws, regulations, public expectations, technology, prices and conditions, and can take place for many years in the future, the carrying amounts of provisions are reviewed at each reporting date and adjusted to take account of such changes. Any adjustments to the amount of previously recognized provision is recognized in the statement of profit or loss unless the provision was originally recognized as part of cost of an asset.

Contingencies

The Company reviews the status of all pending litigations and claims against the Company. Based on the judgment and the advice of the legal advisors for the estimated financial outcome, appropriate disclosure or provision is made. The actual outcome of these litigations and claims can have an effect on the carrying amounts of the liabilities recognized at the statement of financial position date.

Income tax and levy

In making the estimates for income tax and levy currently payable by the Company, the management takes into account the current income tax law and the decisions of appellate authorities on certain issues in the past.

Deferred income tax

For the financial year ended 30 June 2025 (Tax year 2025) and onwards, income of the Company is now being taxed under normal tax regime. Hence, as on reporting date, taxable temporary differences between the accounting and tax base of fixed assets, staff retirement gratuity and others arise. This is the first time the Company is transitioning to normal tax regime. Previously, under the final tax regime, the Company was neither required nor claimed tax depreciation. As at 30 June 2025, the management estimated the tax base of fixed assets by treating their accounting written-down value as the tax base. Moreover staff retirement gratuity and other differences were also started from 01 July 2024. This accounting estimate has been applied based on the best available information.

Useful lives, patterns of economic benefits and impairments

The estimate for revalued amount of freehold land is based on valuation performed by external professional valuer and recommendation of technical teams of the Company. The said recommendations also include estimates with respect to residual values and depreciable lives. Further, the Company reviews the value of the assets for possible impairment on an annual basis. Any change in the estimates in future might affect the carrying amounts of the respective items of property, plant and equipment with a corresponding effect on the depreciation charge and impairment.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

Inventories

Inventory write-down is made based on the current market conditions, historical experience and selling goods of similar nature. It could change significantly as a result of changes in market conditions. A review is made on each reporting date on inventories for excess inventories, obsolescence and declines in net realizable value and an allowance is recorded against the inventory balances for any such declines.

Allowance for expected credit losses

The allowance for expected credit losses assessment requires a degree of estimation and judgment. It is based on the lifetime expected credit loss, based on the Company's experience of actual credit loss in past years. These assumptions include recent sales experience and historical collection rates.

Revenue from contracts with customers involving sale of goods

When recognizing revenue in relation to the sale of goods to customers, the key performance obligation of the Company is considered to be the point of delivery of the goods to the customer, as this is deemed to be the time that the customer obtains control of the promised goods and therefore the benefits of unimpeded access.

d) Amendments to published approved accounting standards that are effective in current year and are relevant to the Company

Following amendments to published approved accounting standards are mandatory for the Company's accounting periods beginning on or after 01 July 2024:

- Amendments to IAS 1 'Presentation of Financial Statements' - Classification of liabilities as current or non-current;
- Amendments to IAS 1 'Presentation of Financial Statements' - Comply with covenants of non-current Liabilities;
- Amendments to IFRS 16 'Leases' - Lease liability in a sale and leaseback transaction; and
- Amendments to IAS 7 and IFRS 7 'Statement of Cash flow and Financial Statements: Disclosures' - Supplier finance arrangements.

The above-mentioned amendments to approved accounting standards did not have any impact on the amounts recognized in prior period and are not expected to significantly affect the current or future periods.

e) Amendments to published approved accounting standards that are effective in current year but not relevant to the Company

Following standards, amendments and improvements to accounting standards have been published and are mandatory for the Company's accounting periods beginning on or after 01 July 2025 or later periods:

Classification and Measurements of Financial Instruments (Amendments to IFRS 7 'Financial Instruments: Disclosures' and IFRS 9 'Financial Instruments') effective for annual periods beginning on or after 01 January 2026. These amendments address matters identified during the past - implementation review of the classification and measurement requirements of IFRS 9.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

Lack of Exchangeability (Amendments to IAS 21 'The Effects of Changes in Foreign Exchange Rates'). The amendments contain guidance to specify when a currency is exchangeable and how to determine the exchange rate when it is not. The amendments are effective for annual reporting periods beginning on or after 01 January 2025.

IFRS 18 'Presentation and Disclosure in Financial Statements' (effective for annual periods beginning on or after 01 January 2027) with a focus on updates to the statement of profit or loss. The objective of IFRS 18 is to set out requirements for the presentation and disclosure of information in general purpose financial statements to help ensure they provide relevant information that faithfully represents an entity's assets, liabilities, equity, income and expenses. The key concepts introduced in IFRS 18 relate to: the structure of the statement of profit or loss; required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general. IFRS 18 will replace IAS 1; many of the other existing principles in IAS 1 are retained, with limited changes. IFRS 18 will not impact the recognition or measurement of items in the financial statements, but it might change what an entity reports as its 'operating profit or loss'.

IFRS S1 'General Requirements for Disclosure of Sustainability-related Financial Information'. IFRS S1 sets out overall requirements for sustainability-related financial disclosures with the objective to require an entity to disclose information about its sustainability-related risks and opportunities that is useful to primary users of general purpose financial reports in making decisions relating to providing resources to the entity.

IFRS S2 'Climate-related Disclosures'. IFRS S2 sets out the requirements for identifying, measuring and disclosing information about climate-related risks and opportunities that is useful to primary users of general purpose financial reports in making decisions relating to providing resources to the entity.

As per the current scenario, the Company will fall in Phase-I of the criteria as per the order from Securities and Exchange Commission of Pakistan (SECP) dated 31 December 2024. Therefore the effective date of these two sustainability standards for the Company is for annual reporting periods beginning on or after 01 July 2025.

The International Accounting Standards Board (IASB) has published 'Annual Improvements to IFRS Accounting Standards - Volume II'. The amendments are effective for annual reporting periods beginning on or after 01 January 2026. It contains amendments to following standards relevant to the Company, as result of the IASB's annual improvements project:

- * IFRS 7 Financial Instruments: Disclosures;
- * IFRS 9 Financial Instruments; and
- * IAS 7 Statement of Cash flows.

The above standards, amendments and improvements are likely to have no significant impact on the financial statements.

g) **Standards, amendments and improvements to published approved accounting standards that are not yet effective and not considered relevant to the Company**

There are other standards, amendments and improvements to published approved standards that are mandatory for accounting periods beginning on or after 01 July 2025 but are considered not to be relevant or do not have any significant impact on the Company's financial statements and are therefore not detailed in these financial statements.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

2.2 Staff retirement benefit

The Company operates an unfunded gratuity scheme for its permanent employees who have completed the minimum qualifying period of service as defined under the scheme. The Company's obligation under this scheme is determined through actuarial valuation carried under Projected Unit Credit Method. Latest actuarial valuation has been carried on 30 June 2025. The method involves making assumptions about discount rates, future salary increases and mortality rates. Due to the long term nature of the benefit, such estimates are subject to certain uncertainties. Significant assumptions used to carry out the actuarial valuation have been disclosed in Note 8.4 to these financial statements.

Remeasurements changes which comprise actuarial gains and losses are recognized immediately in other comprehensive income.

2.3 Functional and presentation currency along with foreign currency transactions and translation

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (the functional currency). The financial statements are presented in Pak Rupees, which is the Company's functional and presentation currency. All monetary assets and liabilities in foreign currencies are translated into Pak Rupees at exchange rates prevailing at the reporting date. Transactions in foreign currencies are translated into Pak Rupees at exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are charged or credited to statement of profit or loss.

2.4 Taxation and levy

Current

Provision for current tax is based on the taxable income for the year determined in accordance with the prevailing law for taxation of income. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the year, if enacted. Final taxes levied under the Income Tax Ordinance, 2001 and any excess over the amount designated as provision for current tax are charged as levy in statement of profit or loss. The charge for current tax and levy also includes adjustments, where considered necessary, to provision for tax and levy made in previous years arising from assessments framed during the year for such years.

Deferred

Deferred tax is accounted for using the liability method in respect of all temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of the taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilized.

Deferred tax is calculated at the rates that are expected to apply to the period when the differences reverse based on tax rates that have been enacted or substantively enacted by the reporting date. Deferred tax is charged or credited in the statement of profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

2.5 Property, plant, equipment and depreciation

a) Operating fixed assets

Property, plant and equipment are stated at cost less accumulated depreciation and any identified impairment loss except freehold land which is stated at cost / revalued amount less any identified impairment loss. Cost of property, plant and equipment consists of historical cost, revalued amount, borrowing cost pertaining to erection / construction period of qualifying assets and other directly attributable costs of bringing the assets to working condition.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

Increases in the carrying amounts arising on revaluation of freehold land are recognized in other comprehensive income and accumulated in revaluation surplus in shareholders' equity. To the extent that increase reverses a decrease previously recognized in the statement of profit or loss, the increase is first recognized in the statement of profit or loss. Decreases that reverse previous increases of the same asset are first recognized in other comprehensive income to the extent of the remaining surplus attributable to the asset; all other decreases are charged to the statement of profit or loss.

Valuations are performed frequently enough to ensure that the fair value of a revalued asset does not differ materially from its carrying amount.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Maintenance and normal repairs are charged to the statement of profit or loss during the period these are incurred.

b) Depreciation

Depreciation on property, plant and equipment is charged to the statement of profit or loss applying the reducing balance method at the rates given in Note 15.1 to write off the cost over their expected useful life. The Company charges depreciation on additions from the date when the asset is available for use and on deletions up to the date when asset is de-recognized. The residual values and useful lives are reviewed by the management, at each financial year end and adjusted if impact on depreciation is significant.

c) De-recognition

An item of operating fixed assets is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset is recognized in the statement of profit or loss in the year the asset is derecognized.

d) Capital work-in-progress

Capital work-in-progress is stated at cost less any identified impairment loss. All expenditure connected with specific assets incurred during installation and construction period are carried under capital work-in-progress. These are transferred to operating fixed assets as and when these are available for use.

2.6 Leases

Right-of-use assets

The right-of-use asset is initially measured based on the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred. The right-of-use asset is depreciated on a straight line method over the lease term, or the estimated life of the asset, whichever is shorter. The right-of-use asset is reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The Company has elected to apply the practical expedient not to recognize right-of-use assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low-value assets. The lease payments associated with these leases is recognized as an expense on a straight line basis over the lease term.

Lease liabilities

At inception of a contract, the Company assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

The lease liability is initially measured at the present value of the lease payments which are not paid at the commencement date, discounted using the interest rate implicit in the lease, or if that rate cannot be readily determined, the Company's incremental borrowing rate.

Lease payments include fixed payments, variable lease payments that are based on an index or a rate expected to be payable by the lessee under residual value guarantees, the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option, less any lease incentives receivable. The extension and termination options are incorporated in determination of lease term only when the Company is reasonably certain to exercise these options.

The lease liability is subsequently measured at amortized cost using the effective interest rate method. It is remeasured when there is a change in future lease payments arising from a change in fixed lease payments or an index or rate, change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option.

2.7 Ijarah Contracts

Under the Ijarah contracts, the Company obtains usufruct of an asset for an agreed period and for an agreed consideration. The Company accounts for its Ijarah contracts in accordance with the requirements of IFAS 2 'Ijarah'. Accordingly, the Company as a Mustaj'ir (lessee) in the Ijarah contract recognizes the Ujrah (lease) payments as an expense in the statement of profit or loss on straight line lease over the Ijarah term.

2.8 Inventories

Inventories, except for stock in transit and waste stock / rags, are stated at lower of cost and net realizable value. Cost is determined as follows:

Stores, spare parts and loose tools

Usable stores, spare parts and loose tools are valued principally at moving average cost, while items considered obsolete are carried at nil value. In transit stores, spare parts and loose tools are valued at cost comprising invoice value plus other charges paid thereon.

Stock in trade

Cost of raw materials, work-in-process and finished goods is determined as follows:

- | | | | |
|------|--|---|---|
| (i) | For raw materials | - | Annual average basis. |
| (ii) | For work-in-process and finished goods | - | Average manufacturing cost including a portion of production overheads. |

Materials in transit are valued at cost comprising invoice value plus other charges paid thereon. Waste stock / rags are valued at net realizable value.

Net realizable value signifies the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make a sale.

2.9 Borrowing cost

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other interests, mark-up and other charges are recognized in statement of profit or loss.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

2.10 Provisions

Provisions are recognized when the company has a legal or constructive obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. However, provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

2.11 Impairment of non-financial assets

Assets that have an indefinite useful life are not subject to depreciation and are tested annually for impairment. Assets that are subject to depreciation are reviewed for impairment at each statement of financial position date or whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount for which asset's carrying amount exceeds its recoverable amount. Recoverable amount is the higher of an assets fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date. Reversals of the impairment losses are restricted to the extent that the assets carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if impairment losses had not been recognized. An impairment loss or reversal of impairment loss is recognized in the statement of profit or loss.

2.12 Revenue recognition

i) Revenue from contracts with customers

a) Sale of goods

Revenue from the sale of goods is recognized at the point in time when the customer obtains control of the goods, which is generally at the time of delivery.

b) Rendering of services

The Company provides dyeing and knitting services to local customers. These services are rendered separately and the Company's contract with the customers for services constitutes a single performance obligation. Revenue from a contract to provide services is recognized at point in time, generally at the time of dispatch. There are no terms giving rise to variable consideration under the Company's contracts with its customers.

ii) Contract assets

Contract assets arise when the Company performs its performance obligations by transferring goods to a customer before the customer pays its consideration or before payment is due. Contract assets are treated as financial assets for impairment purposes.

iii) Right of return assets

Right of return assets represents the right to recover inventory sold to customers and is based on an estimate of customers who may exercise their right to return the goods and claim a refund. Such rights are measured at the value at which the inventory was previously carried prior to sale, less expected recovery costs and any impairment.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

iv) **Contract liabilities**

Contract liability is the obligation of the Company to transfer goods to a customer for which the Company has received consideration from the customer. If a customer pays consideration before the Company transfers goods, a contract liability is recognized when the payment is received. Contract liabilities are recognized as revenue when the Company accomplishes its performance obligations under the contract.

v) **Other income recognition**

a) **Interest**

Interest income is recognized as interest accrues using the effective interest method. This is a method of calculating the amortized cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

b) **Dividend**

Dividend on investments is recognized when right to receive the dividend is established.

c) **Other revenue**

Other revenue is recognized when it is received or when the right to receive payment is established.

2.13 **Share capital**

Ordinary and preference shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax.

2.14 **Financial Instruments**

i) **Recognition of financial instruments**

The Company initially recognizes financial assets on the date when these are originated. Financial liabilities are initially recognized on the trade date when the entity becomes a party to the contractual provisions of the instrument.

ii) **Classification and measurement of financial instruments**

Investments and other financial assets

a) *Classification*

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at the fair value through profit or loss; and
- those to be measured at amortized cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gain and losses are recognized in statement of profit or loss. For investments in debt instruments, this will depend on the business model in which the investment is held. The Company reclassifies debt instruments when and only when its business model for managing those assets changes.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

b) Measurement

At initial recognition, the Company measures a financial asset at its fair value, in the case of a financial asset at its fair value plus transaction plus, in the case of a financial asset not at fair value through profit or loss, transaction cost that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company classifies its debt instruments into following measurement category:

Amortized cost

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in other income using the effective interest rate method. Any gain or loss arising on de-recognition is recognized directly in profit or loss and presented in other income / (other expenses) together with foreign exchange gains and losses.

Equity Instruments

The Company subsequently measures all equity instruments at fair value for financial instruments quoted in an active market, the fair value corresponds to a market price (level 1). For financial instruments that are not quoted in an active market, the fair value is determined using valuation techniques including reference to recent arm's length market transactions or transactions involving financial instruments which are substantially the same (level 2), or discounted cash flow analysis including, to the greatest possible extent, assumptions consistent with observable market data (level 3).

At fair value through profit or loss

Changes in the fair value of equity instruments at fair value through profit or loss are recognized in other income / (other expenses) in the statement of profit or loss as applicable. Dividends from such investments are recognized in profit or loss as other income when the Company's right to receive payments is established.

Financial liabilities

Classification and measurement

Financial liabilities are classified at amortized cost. These are also subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in statement of profit or loss. Any gain or loss on de-recognition is also included in profit or loss.

iii) Impairment of financial assets

The Company recognizes loss allowances for Expected Credit Losses (ECLs) on financial assets measured at amortized cost. The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- bank balances and debt securities for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than past due for a reasonable period of time. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering of a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

At each reporting date, the Company assesses whether financial assets are credit-impaired. A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise; or
- it is probable that the debtor will enter bankruptcy or other financial reorganization or.
- the disappearance of an active market for a security because of financial difficulties.

iv) De-recognition of financial assets and financial liabilities

Financial assets

The Company de-recognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred, or it neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control over the transferred asset. Any interest in such de-recognized financial assets that is created or retained by the Company is recognized as a separate asset or liability.

Financial liabilities

The Company de-recognizes a financial liability (or a part of financial liability) from its statement of financial position when the obligation specified in the contract is discharged or cancelled or expired.

v) Offsetting of financial instruments

Financial assets and financial liabilities are set off and the net amount is reported in the financial statements when there is a legal enforceable right to set off and the Company intends either to settle on a net basis or to realize the assets and to settle the liabilities simultaneously.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

2.15 Trade and other receivables

Trade receivables are initially recognized at fair value and subsequently measured at amortized cost using the effective interest method, less any allowance for expected credit losses.

Other receivables are recognized at amortized cost, less any allowance for expected credit losses.

2.16 Borrowings

Financing and borrowings are recognized initially at fair value and are subsequently stated at amortized cost. Any difference between the proceeds and the redemption value is recognized in the statement of profit or loss over the period of the borrowings using the effective interest method.

2.17 Trade and other payables

Liabilities for trade and other amounts payable are initially recognized at fair value, which is normally the transaction cost and subsequently measured at amortized cost using the effective interest method.

2.18 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, cash at banks on current, saving and deposit accounts and other short term highly liquid instruments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in values.

2.19 Dividend and other appropriations

Dividend distribution to the Company's shareholders is recognized in the period in which it is declared and other appropriations are recognized in the period in which these are approved by the board of directors.

2.20 Segment reporting

Segment reporting is based on the operating (business) segments of the Company. An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to the transactions with any of the Company's other components. Operating segments are reported in a manner consistent with the internal reporting structure. Management monitors the operating results of its segments separately for the purpose of making decisions regarding resource allocation and performance assessment.

Segment results that are reported to management include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Those income, expenses, assets, liabilities and other balances which cannot be allocated to a particular segment on a reasonable basis are reported as unallocated.

The Company has three reportable operating segments: i) Spinning (Producing different qualities of yarn), ii) Knitting (Producing knitted fabric from yarn), iii) Processing and Garments (Processing of greige fabric for production of dyed and white fabric and manufacturing of variety of garments from processed fabric).

Transactions among the operating segments are recorded at cost. Inter segment sales and purchases are eliminated from the total.

2.21 Earnings / (loss) per share

The Company presents basic and diluted Earnings Per Share (EPS) / Loss Per Share (LPS). Basic EPS / (LPS) is calculated by dividing profit / (loss) attributable to shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS / (LPS) is determined by adjusting profit attributable to shareholders and the weighted average number of ordinary shares outstanding with the effects of all dilutive potential ordinary shares.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

2.22 Contingent assets

Contingent assets are disclosed when the Company has a possible asset that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognized until their realization becomes certain.

2.23 Contingent liabilities

Contingent liability is disclosed when the Company has a possible obligation as a result of past events whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent liabilities are not recognized, only disclosed, unless the possibility of a future outflow of resources is considered remote. In the event that the outflow of resources associated with a contingent liability is assessed as probable, and if the size of the outflow can be reliably estimated, a provision is recognized in the financial statements.

2.24 Government grants

Grants from the Government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to costs are deferred and recognized in the profit or loss over the period necessary to match them with the costs that these are intended to compensate.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss over the expected lives of the related assets.

8.6 Expected maturity profile

Followings are the expected distribution and timing of benefit payments at year end:

2025	-	333,358
2026	457,506	355,453
2027 to 2030	1,412,753	1,468,749
2031 and onwards	17,446,480	47,419,130

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit plan to significant actuarial assumptions, the same method (present value of the defined benefit plan calculated with the projected unit credit method at the end of the reporting period) has been applied as and when calculating the gratuity liability recognized within the statement of financial position.

8.7 The estimated expenses to be charged to profit and loss account for the year ending on 30 June 2026 is Rupees 651.424 million.

8.8 Risks associated with the scheme

Final salary risk (linked to inflation risk)

The risk that the final salary at the time of cessation of service is greater than what we assumed. Since the benefit is calculated on the final salary (which will closely reflect inflation and other macroeconomic factors), the benefit amount increases as salary increases.

Demographic risks

- **Mortality risk** - The risk that the actual mortality experience is different than the assumed mortality. This effect is more pronounced in schemes where the age and service distribution is on the higher side.

- **Withdrawal risk** - The risk of actual withdrawals experience is different from assumed withdrawal probability. The significance of the withdrawal risk varies with the age, service and the entitled benefits of the beneficiary.

The Company filed writ petitions Nos. 76525/2024 dated 04 December 2024 and 77291/2024 dated 09 December 2024 before Lahore High Court, Lahore challenging the lawfulness, legality and validity of the actions of the taxation authorities including but not limited to, First Investigation Report (FIR) against the Company (in violation of the law settled on the subject by Lahore High Court, Lahore in case of Messrs Taj International (Private) Limited Vs Federal Board of Revenue), extortion of alleged evaded sales tax along with default surcharge and penalty to the tune of Rupees 454.967 million and subsequent self-initiated compounding of the offence allegedly committed by the Company respectively. 44. FINANCIAL RISK MANAGEMENT

44.1 Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, other price risk and interest rate risk), credit risk and liquidity risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance.

Risk management is carried out by the Company's finance department under policies approved by the Board of Directors. The Board provides principles for overall risk management, as well as policies covering specific areas such as currency risk, other price risk, interest rate risk, credit risk, liquidity risk, investment of excess liquidity and use of non-derivative financial instruments.

(a) Market risk

(i) Currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises mainly from receivables and payables that exist due to transactions in foreign currencies.

The Company is exposed to currency risk arising from various currency exposures, primarily with respect to the United States Dollar (USD) and Euro. Currently, the Company's foreign exchange risk exposure is restricted to bank balances and the amounts receivable / payable from / to the foreign entities. The Company's exposure to currency risk was as follows:

	2025	2024
Cash at banks - USD	92,672	120,022
Trade debts - USD	44,533,157	44,147,334
Trade debts - Euro	15,565	117,809
Trade and other payables - USD	(388,785)	(579,585)
Short term borrowings - USD	(7,265,158)	(10,916,897)
Net exposure - USD	36,971,886	32,770,874
Net exposure - Euro	15,565	117,809
Following significant exchange rates were applied during the year:		
Rupees per US Dollar		
Average rate	279.27	283.01
Reporting date rate	283.60	278.30
Rupees per Euro		
Average rate	303.75	306.78
Reporting date rate	332.25	297.88

Sensitivity analysis

If the functional currency, at reporting date, had weakened / strengthened by 5% against the USD and Euro with all other variables held constant, the impact on profit / (loss) after taxation for the year would have been Rupees 439.495 million higher / lower (2024: Rupees 386.119 million lower / higher), mainly as a result of exchange gains / losses on translation of foreign exchange denominated financial instruments. Currency risk sensitivity to foreign exchange movements has been calculated on a symmetric basis. In management's opinion, the sensitivity analysis is unrepresentative of inherent currency risk as the year end exposure does not reflect the exposure during the year.

(ii) Other price risk

Other price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instrument traded in the market. At the year end, the Company is not exposed to other price risk.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

Sensitivity analysis

The table below summarizes the impact of increase / decrease in the Index of Mutual Funds Association of Pakistan (MUFAP) on the Company's profit / (loss) after taxation for the year. The analysis is based on the assumption that the equity index had increased / decreased by 10% with all other variables held constant and the Company's equity instruments moved according to the historical correlation with the index:

INDEX	Impact on Profit / (loss) after taxation	
	2025	2024
	(RUPEES IN THOUSAND)	
MUFAP (10% increase)	679	617
MUFAP (10% decrease)	(679)	(617)

(iii) Interest rate risk

This represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company's interest rate risk arises from long term financing, lease liabilities, short term borrowings and bank balances in saving accounts. Financial instruments at variable rates expose the Company to cash flow interest rate risk. Financial instruments at fixed rate expose the Company to fair value interest rate risk.

At the reporting date, the interest rate profile of the Company's interest bearing financial instruments was:

	2025	2024
	(RUPEES IN THOUSAND)	
Fixed rate instruments		
Financial liabilities		
Long term financing	441,266	548,678
Lease liabilities	91,577	115,542
Short term borrowings	7,707,300	12,483,105
Floating rate instruments		
Financial assets		
Bank balances - saving accounts	287,166	60,819
Financial liabilities		
Long term financing	3,195,918	2,351,318
Lease liabilities	-	4,730
Short term borrowings	14,980,912	9,671,824

Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate at the reporting date would not affect profit or loss of the Company.

Cash flow sensitivity analysis for variable rate instruments

If interest rates, at the year end date, fluctuates by 1% higher / lower with all other variables held constant, profit / (loss) after taxation for the year would have been Rupees 152.957 million lower / higher (2024: Rupees 102.318 million higher / lower), mainly as a result of higher / lower interest expense / income on floating rate financial instruments. This analysis is prepared assuming that amounts of liabilities outstanding at reporting date were outstanding for the whole year.

(b) Credit risk

Credit risk represents the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

Investment	11,226	10,192
Trade debts	15,718,209	14,121,535
Loans and advances	94,146	113,219
Deposits	371,243	332,914
Other receivables	10,335	12,139
Bank balances	664,941	255,353

To manage exposure to credit risk in respect of trade debts, management performs credit reviews taking into account the customer's financial position, past experience and other factors. Sales contracts and credit terms are approved by the senior management and where considered necessary, advance payments are obtained from certain parties. Export sales to major customers are secured through letters of credit. The management has set a maximum credit period limit for each type of customers in order to reduce the credit risk.

The Company applies the IFRS 9 simplified approach to measure expected credit loss allowance for its trade debts. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The Company has concluded that the expected loss rates for trade debts against local sales are different from the expected loss rates for trade debts against export sales.

Based on the past experience and deliberations management has recognized expected credit losses in respect of trade debts as given in Note 20.4 to the financial statements.

Due to the Company's long standing business relationships with these counterparties and after giving due consideration to their strong financial standing, management does not expect non-performance by these counterparties on their obligations to the Company. Accordingly the credit risk is minimal.

(c) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market position.

The Company manages liquidity risk by maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities. At 30 June 2025, the Company had Rupees 2,486.788 million (2024: Rupees 1,920.071 million) available borrowing limits from financial institutions and Rupees 667.348 million (2024: Rupees 257.688 million) cash and bank balances. 44.3 Offsetting financial assets and financial liabilities

As on reporting date, recognized financial instruments are not subject to offsetting as there are no enforceable master netting arrangements and similar agreements.

45. RECOGNIZED FAIR VALUE MEASUREMENTS - FINANCIAL INSTRUMENTS

(i) Fair value hierarchy

Judgements and estimates are made in determining the fair values of the financial instruments that are recognized and measured at fair value in these financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into following three levels. An explanation of each level follows underneath the table:

	Level 1	Level 2	Level 3	Total
(RUPEES IN THOUSAND)				
Financial assets - recurring fair value measurement				
At fair value through profit or loss	11,226	-	-	11,226
At 30 June 2025	11,226	-	-	11,226
At fair value through profit or loss	10,192	-	-	10,192
At 30 June 2024	10,192	-	-	10,192

The above table does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amounts are a reasonable approximation of fair value. Due to the short term nature, carrying amounts of certain financial assets and financial liabilities are considered to be the same as their fair value. For the majority of the non-current receivables, the fair values are also not significantly different to their carrying amounts.

There were no transfers between levels 1 and 2 for recurring fair value measurements during the year. Further there was no transfer out of level 3 measurements.

The Company's policy is to recognize transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

(ii) **Valuation technique used to determine fair value**

Specific valuation technique used to value financial instruments includes the use of quoted market prices as per MUFAP.

46. **RECOGNIZED FAIR VALUE MEASUREMENTS - NON-FINANCIAL ASSETS**

(i) **Fair value hierarchy**

The judgements and estimates made in determining the fair values of the non-financial assets that are recognized and measured at fair value in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its non-financial assets into the following three levels.

	Level 1	Level 2	Level 3	Total
	-----RUPEES IN THOUSAND-----			
At 30 June 2025				
Freehold land	-	3,785,292	-	3,785,292
At 30 June 2024				
Freehold land	-	4,305,905	-	4,305,905

The Company's policy is to recognize transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfer between level 1 and 2 for recurring fair value measurement during the year. Further, there was no transfer in and out of level 3.

(ii) **Valuation techniques used to determine level 2 fair values**

The Company obtains independent valuation for its freehold land (classified as property, plant and equipment) at least in every three years. The management updates the assessment of the fair value of freehold land, taking into account the most recent independent valuation. The management determines freehold land's value within a range of reasonable fair value estimates. The best evidence of fair value is current prices in an active market for similar lands.

Valuation processes

Changes in fair values are analyzed during the valuation discussion between the Chief Financial Officer and the valuer. As part of this discussion the team presents a report that explains the reason for the fair value movements.
