## Future Outlook

There have been uncertainties during the financial year, mainly due to abrupt devaluation which resulted in an increase in inflation. Electricity rates have been inflated to levels that the market is not absorbing. Regionally competitive rates are to be reinstated for spinning sector to work efficiently. After the receipt of financial assistance from friendly countries, foreign direct investment and the approval of bailout package by the IMF, it is expected that the economy now finds its way towards gaining momentum. To counter this challenging economic situation; the Pakistani textile sector shall have to be a cost effective niche marketing, product and customer development are the essential tools to remain competitive domestically and internationally. The management is confident that the company shall be able to improve its operational performance and going forward.

# Future Outlook

The management of the company is determined and optimistic to turn the unit as viable, operational and profitable in future. We hope that the Change in Government Policies and facilitation to textile sector will bring fruitful results for the Company.

# Future Challenges/Problems

**Stiff Competition**

**Removal of subsidy on  
Textile**

**Devaluation of Pak  
Rupees**

**Higher Markup Rates  
due to inflation**

**Energy Crisis**

**US & EU cuts imports of  
Textile from Pakistan**
