FUTURE OUTLOOK

FUTURE OUTLOOK

The textile industry has experienced a particularly challenging year, primarily due to a sharp decline in global demand driven by recessionary trends in key export markets. These difficulties were further intensified by persistently high interest rates, unfavorable government taxation and import policies, elevated production and operating costs, and significant volatility in macroeconomic indicators.

Collectively, these factors have

Textile industry has faces several challenges especially the availability of bank credit, power and raw material. We expect to maintain the growth momentum and to compete in global market, Government should adopt incentive structure and should ensure energy on regionally competitive pricing, flexibility of exchange rate, prudent tax policies and availability of finances at low mark up rate.

The company is planning to install alternative energy sources, solar power system, at its Textile Unit 2 located in Bikhi. This initiative is expected to significantly reduce energy costs per unit and enhance operational efficiency, thereby contributing to improved profitability."
