Corporate Briefing Session

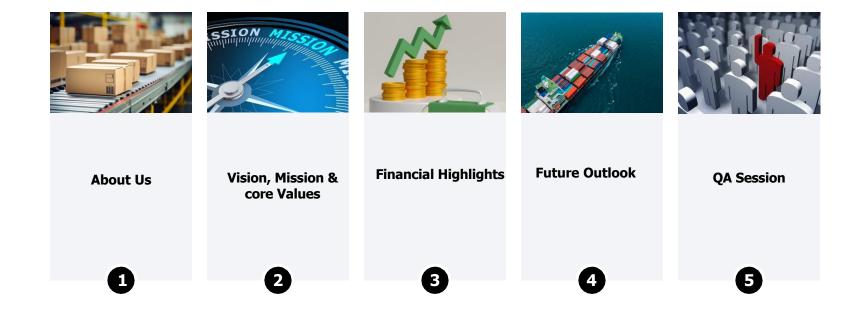

For the year ended June 30th 2025

Thursday, November 27, 2025 10:30 AM with Q/A to follow

CONTENTS

PLANET

WHAT'S NEW

Global geopolitical tensions, supply chain disruptions, and elevated energy prices continued to shape international trade dynamics during the review period. However, emerging regional realignments created favorable export opportunities for Pakistan's textile sector, a positive trend expected to persist in the near term.

The textile sector, one of the key pillars of Pakistan's economy, continued to operate in a challenging global environment marked by fluctuating demand, rising cost pressures, and the lingering effects of severe flooding. However, the transition from the final tax regime to the Normal

Tax Regime effectively multiplied the tax incidence, exerting further pressure on exporters' margins across the industry.

During the first quarter of the financial year 2026, Pakistan's textile exports recorded a growth of 5.62% compared to the same period last year. Total textile exports reached USD 4.77 billion during Quarter July–September 2026, as compared to USD 4.52 billion in the corresponding period of 2025.

The export of readymade garments surged by 6.07% to USD 1,057.29 million from USD 996.78 million.

Stylers International Our Footprints

Our Manufacturing Sites

Stylers International maintains a robust manufacturing presence across **two strategically located facilities in Lahore**- Glaxo Town and Raiwind Road.

This diversified footprint enhances operational resilience, mitigates the risks of concentration in a single location and contributes significantly to expanding employment opportunities within a dynamic city of over 30 million people.

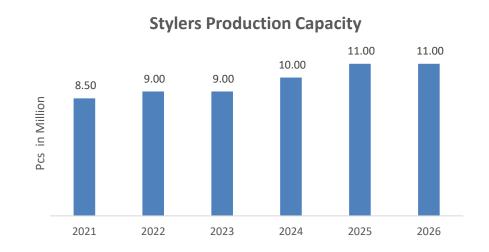

Stylers International is doing Approximately \$ 73 M USD business, having 6,000 employees and making **10 million garments** in a year.

Stylers Unit 2 (Sunshine)

Currently, it is **operating at 3.5 M pcs** and planned to go upto 6.5 M pcs per annum in FY 2028.

Note: Overall, **Stylers will produce 14 M pcs** per annum in FY 2028.

Million Units of **Denim Garment** per Annum
