Subject: Disclosure of Material Information – Commissioning of Automatic Blistering Packing Line Machine

Dear Sir / Madam,

In accordance with Clause 5.6.1(a) of PSX Regulations and Section 96 of the Securities Act, 2015, we hereby inform you of the following material information.

Liven Pharma Limited has successfully commissioned a new 8 Million rupees **Blistering Packing Line Machine** imported from China in last fiscal year. The machine is now fully operational and integrated into the company's production line.

The commissioning of the **Blistering Packing Line Machine** is expected to result in an approximate 12-15% increase in overall production capacity. Packaging quality is anticipated to improve significantly, resulting in better product presentation, consistency, and possibly reduced spoilage/defects. The increased capacity and improved packing quality are likely to enhance operational efficiency and support higher output volumes.

This development constitutes a material change in the company's manufacturing / operational capacity, which may materially affect the company's future production volume, operational performance, and potentially investor expectations and share trading dynamics.

You may please inform the TRE Certificate Holders of the Exchange accordingly.

Yours sincerely,

For and on behalf of
Liven Pharma Limited

Company Secretary
