## JSMFI Description

JSMFI combines the appeal and intuition of a passive approach. It takes a quantitative approach that systematically analyzes, selects, weights and rebalances portfolio holdings based on a certain characteristic — called factor i.e. Momentum for this index. The theory behind Momentum is that stocks whose share prices have consistently risen for a given period of time are likely to keep rising. JSMFI has developed an index methodology that captures momentum in an intuitive and transparent way, making it accessible to all investors.
