Avanceon Secures Multi-Million Dollar Projects in Pakistan's Energy, Infrastructure, and Hospitality Sectors

Strategic wins mark expansion into new verticals and reaffirm Avanceon's leadership in Industrial Automation and Digital Transformation Domains

Pakistan – Avanceon Limited is pleased to announce the acquisition of high-value projects worth **USD 9 million** in Pakistan's Energy, Infrastructure, and Hospitality sectors. These strategic wins will streamline operations for both customers and deliver tangible improvements to their bottom lines through advanced automation and digitalization.

Accelerating Digital Transformation Across the Energy Sector

Avanceon has been awarded and received Letter of Intent (LOI) totalling **USD 5.7 million** in energy sector projects, reinforcing its leadership in digital and automation solutions. The company will deliver terminal automation and transformation initiatives featuring solar-powered control systems, resilient communications, centralized SCADA integration, and IEC 62443-compliant cybersecurity—driving operational efficiency, resilience, and regulatory compliance across critical energy infrastructure.

Critical Solutions for Building Management and Infrastructure Domain

Avanceon has secured **USD 3.3 million** in new projects across the hospitality, retail, and real estate sectors, reflecting strong market confidence in the company. The projects encompass delivery of advanced ELV, BMS, Fire Alarm, Guest Room Management, and IT Network solutions—designed to drive operational efficiency, energy optimization, and centralized asset management at scale. This strategic milestone marks Avanceon's entry into the hospitality automation market, reinforcing its long-term growth trajectory across smart buildings and digital infrastructure.

Commitment to Excellence and Compliance

Avanceon's proven track record, strong project references, and world-class solutions were key to securing these projects. Working alongside leading OEMs, the company will ensure the highest quality and safety standards. Implementation will be guided by HAZOP studies and ISO 9001-certified QA/QC protocols, delivering world-class results fully compliant with customer and regulatory requirements.
