On behalf of the Board of Directors, We are pleased to present the **Un-Audited Financial Statements** of the Company for the **first quarter ended December 31, 2025**.

Operating Results

	December 31, 2025	December 31, 2024
Cane crushed – Metric Tons	222,261	155,660
Average Recovery	9.14%	8.60%
Sugar Produced – Metric Tons	19,420	13,387
Commenced Crushing on	15-11-2025	21-11-2024
No. of season days	47	41

The financial year **2024-25** was particularly challenging due to crop diseases that resulted in lower sucrose recovery, along with intermittent Government interventions such as lifting embargoes and portal closures. Despite these challenges, the Company successfully concluded the year and proposed a **40% dividend**, reflecting resilience and sound management.

The operating results for the current quarter are encouraging, with a **notable improvement in sucrose recovery** compared to the corresponding period of the previous year.

Future Outlook

We remain optimistic about achieving favorable results in the current financial year. The nationwide sugar production outlook is positive, as the current sugarcane crop is not only higher in quantity but also superior in quality compared to the previous season. This improvement is attributable to increased acreage and higher yield per acre.

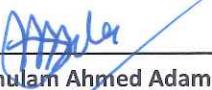

However, the performance of the sugar industry remains highly dependent on consistent Government support, particularly through non-intervention in operational matters. While the Government has deregulated sugarcane procurement prices, the selling price of sugar has effectively remained regulated through the imposition of rates linked to PBS benchmarks and controlled monthly price increases during certain periods of the last financial year. The industry continues to await full implementation of the Government's commitment toward complete deregulation.

Given the expected bumper sugarcane crop and higher sugar production, we are hopeful that the Government will allow timely sugar exports. Delayed export decisions often result in missed opportunities in international markets, leading to lower realization rates.

Acknowledgment

The Board sincerely appreciates the continued dedication and cooperation of the Company's officers, staff, and workers, and looks forward to their sustained commitment toward the Company's success.

On behalf of the Board of Directors

Ghulam Ahmed Adam
