## DIRECTOR'S REPORT

We are pleased to present financial statements of Ansari Sugar Mills Ltd (“**The Company**”) for the first quarter ended December 31, 2025 along with the Director's report for the period then ended.

The summarized results are set out below:

	Un- Audited	
	Dec 31, 2025	Dec 31, 2024
(Loss)/ Profit before taxation & Levies	(146,279,548)	26,195,505
Taxation / Levy	11,272,903	33,456,620
(Loss)/Profit after taxation	(135,006,645)	59,652,125

Ansari Sugar Mills Limited is engaged in the production and sale of sugar. The Company also generates key by-products: bagasse, which is used for in-house power generation and molasses, which is sold for ethanol production.

### Performance Review

Operations for the 2025-26 crushing season began on December 06, 2025. In the absence of an official provincial support price, the Company successfully managed its procurement strategy, securing raw material at an average price of Rs. 450-470 per 40 kg to ensure uninterrupted production.

Crushing duration	Days	26	42
Sugar production	M.Tons	1,854	8,557
Sugar recovery	%	9.1	8.7
Molasses production	M.Tons	740	4,285
Molasses recovery	%	4.4	4.6

The Company's installed capacity is significantly higher than the production levels reflected during the year. However, operations remained constrained primarily due to limited availability of banking facilities and prevailing liquidity pressures. The Company is currently engaged in advanced discussions with its bankers for the restructuring of existing obligations, which is expected to strengthen its liquidity position.

## **Future prospects:**

### **Diversifying Revenue Streams:**

The Company is focused to attain better energy efficiency mix and planning Balancing, Modernization and Replacement (BMR) accordingly, which will improve the revenue streams through sale of by-products of the company i.e. bagasse and molasses.

### **Sugarcane Cultivation Prospects:**

The Company recognizes that the growth and sustainability in the sugar industry is also dependent on access to a growing volume of sugar cane, particularly from within existing areas of supply. The key here lies in long-term engagement with farmers, demonstrating the use of superior cane varieties (higher yield and hence higher income), timely growing support (provision of seeds, fertilizers and farming inputs) so as to convince them to plant more cane to ensure increased productivity and quality.

Moreover, where heavy rainfall and resultant flash floods have an adverse effect on the agriculture, sugarcane due to its robust nature manages to stay afloat. We expect that harvesting will remain optimum and mills will have enough sugarcane for crushing throughout the next season.

### **Government Policy:**

Ansari Sugar Mills foresee bumper crushing of sugarcane as evidenced by increased production of sugarcane over last 2 to 3 years. As the Federal government regulates the export of sugar, we anticipate that the supply and demand balance will improve over the next year, and that domestic production will meet the country's sugar demands while creating an export surplus on sugar and ethanol. Thus, timely export permission from Federal government would be of critical importance as it would not only help industry to clear the surplus on improved price but would also stabilize the local market as well.

### **Working Capital:**

We are in advanced level of negotiations with our bankers to restructure our debts which will improve our position on retained stocks, refraining ourselves into forced sales and allowing us to fetch better price during off-season as currently due to lack of working capital lines, almost 100% of our stock is sold during the crushing season to meet the working capital.

In the background of preceding paras your management anticipate a turnaround of the sugar industry and accordingly have mobilized all the resources at its disposal to generate huge volumes during the ongoing and upcoming seasons over the next 5 years.

The season in terms of cane supply, recovery and plant capacity utilization is extremely favorable. Ansari Sugar Mills being a large plant will be able to capitalize and procure and crush maximum cane in the next season.

### **Acknowledgement**

We express our sincerest appreciation to our employees for their dedication and hard work and to our clients, business partners and shareholders for the support and confidence. The board also take this opportunity to express its gratitude to all the employees of Ansari Sugar Mill Limited for their untiring efforts.

On behalf of the Board of Directors

**Khawaja Anver Majid**  
**Chief Executive Officer**

**SELECTED NOTES TO THE CONDENSED INTERIM FINANCIAL INFORMATION  
(UN-AUDITED)  
FOR THE QUARTER ENDED DEC 31, 2025**

**1. COMPANY AND ITS OPERATIONS**

The company is a Public Limited Company incorporated in Pakistan on 09 July 1989 under the Companies Ordinance, 1984 and is listed on Pakistan Stock Exchange in Pakistan. The registered office of the company is situated at Deh Jagsiyani, Taluka Tando Ghulam Hayder, District Tando Mohammad Khan, Hyderabad, Sindh, and mill is located at Deh Jagsiyani, Taluka Tando Mohammad Khan, District Hyderabad, Sindh. The company is engaged in the manufacturing and sale of white sugar.

**2. STATEMENT OF COMPLIANCE**

This condensed interim financial report of the company for the 1st Quarter ended 31 Dec 2025 has been prepared in accordance with the requirements of the International Accounting Standard 34 - Interim Financial Reporting and provisions of and directives issued under the Companies Act, 2017. In case where requirements differ, the provisions of or directives issued under the Companies Act, 2017 have been followed.

**3. BASIS OF PREPARATION**

This condensed interim financial information is unaudited and has been prepared in accordance with the requirements of the International Accounting Standards IAS 34 Interim Financial Reporting as applicable in Pakistan. The condensed interim financial information does not include all of the information and disclosures required for annual financial statements, and should be read in conjunction with the financial statements of the Company as at and for the year ended September 30, 2025.

**4. SIGNIFICANT ACCOUNTING POLICIES**

4.1 The accounting policies and the methods of computation adopted in the preparation of this condensed interim financial report are the same as those applied in the preparation of the financial statements for the year ended 30 September 2025.

4.2 The preparation of condensed interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates. In preparing the condensed interim financial information, the significant judgments made by management in applying accounting policies and key sources of estimation were the same as those that were applied to the financial statements as at and for the year ended 30 September 2025.

**5. SEASONAL PRODUCTION**

Due to seasonal availability of sugarcane, the manufacturing of sugar is carried out during the crushing season and costs incurred/ accrued up to the reporting date have been accounted for. Accordingly, the cost incurred/ accrued after the reporting date will be reported in the subsequent financial statements.
