Subject: **Disclosure of Material Information**

Dear Sir,

Pursuant to Sections 96 and 131 of the Securities Act, 2015, and Clause 5.6.1(a) of the Rule Book of the Pakistan Stock Exchange Limited, we are pleased to disclose the following material information: In continuation of our earlier disclosure regarding the Company's expansion plan, including installation of a solar power plant as part of the project, the Company is pleased to inform that the construction and execution of the project has been started.

The contract for solar panels installation has been awarded, and necessary steps for the project's procurement and arrangements are currently underway.

Further, the Company has applied for the requisite sanctioned load from the Lahore Electric Supply Company (LESCO). The solar panels installation and the enhancement of the sanctioned load are anticipated to be completed within approximately four (4) months. Upon commissioning of the 5 MW solar power system, the Company is projected to generate an average of 600,000 Kwh of electricity per month. This is expected to yield estimated cost savings of approximately PKR 16.8 million per month, or PKR 201 million on an annualized basis. You are requested to disseminate the above information to TREC holders of the Exchange accordingly.

Thank you and best regards

Yours truly,
