**The General Manager,**  
Pakistan Stock Exchange Limited,  
Stock Exchange Building,  
Stock Exchange Road,  
Karachi.

**Subject: Disclosure of Material Information**

Dear Sir,

In line with Sections 96 and 131 of the Securities Act, 2015 and Clause 5.6.1(a) of the Rule Book of the Pakistan Stock Exchange Limited, we would like to share the following update regarding the Company's ongoing sustainability and energy efficiency initiatives.

Panther Tyres Limited has awarded the contract for the installation of a 3.5 MW solar power system to a well-established solar energy solutions provider. The procurement process has started, and implementation work is currently underway.

Once this project is completed and operational, the Company's total solar energy capacity will increase to 6 MW, including the existing 2.5 MW solar power system. This step is expected to further improve cost efficiency by reducing energy expenses and increasing the use of clean, renewable energy.

Key highlights of the project include:

- Installation of high-efficiency Jinko 720W solar panels along with Huawei inverters.
- An estimated annual reduction of around 4,700 metric tons of CO<sub>2</sub> emissions, which is environmentally equivalent to planting approximately 220,000 trees.

This initiative reflects the Company's continued commitment to environmental sustainability and its broader ESG goals, particularly in reducing carbon emissions and promoting renewable energy usage.

Yours sincerely,

**Mohsin Muzaffar Butt**  
Company Secretary
