# DIRECTORS' REVIEW

The Directors of Baba Farid Sugar Mills Limited are pleased to present the un-audited financial results of the Company for the half year ended March 31, 2026.

## OPERATIONAL PERFORMANCE

The crushing season 2025–26 commenced on November 20, 2025. During the period under review, the Company successfully crushed 587,963.945 metric tons of sugarcane and produced 59,060.750 metric tons of sugar, achieving an average recovery rate of 10.041% as compared to March 31, 2025 the company crushed 569,620.090 metric tons sugarcane and was able to produce 54,991.500 metric tons of sugar with the average recovery of 9.653%. The operational performance reflects the Company's continued focus on efficiency and effective plant management.

## SUGARCANE PROCUREMENT

The procurement of sugarcane remained a significant challenge during the season. Intense competition in the procurement area resulted in elevated sugarcane prices, which substantially increased the overall cost of production. Despite these challenges, the Company ensured an adequate supply of sugarcane through consistent engagement with growers and timely support.

## FINANCIAL PERFORMANCE

The Company's financial performance during the half year was impacted by higher input costs, particularly due to the increased sugarcane prices and rising energy costs. The global geopolitical situation, including the America-Iran conflict, contributed to volatility in energy markets, thereby increasing fuel and power costs. As a result, the overall cost of inputs remained high, exerting pressure on profit margins.

Net sales were recorded at Rs. 1,029.154 million during the period as compared Rs. 4,173.556 million during the corresponding period of last year.

The company recorded a pretax loss of Rs. 168.614 million during the period under review as compared to pretax profit of Rs. 108.069 million in the corresponding period of last year.

The management has undertaken various cost control measures and operational improvements to mitigate the impact of these challenges. However, the prevailing economic environment continues to pose pressures on profitability.

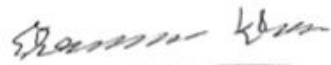

## NEAR FUTURE OUTLOOK

The domestic sugar market is currently experiencing downward pressure on prices, primarily due to an excess of sugar production within the country and existing restrictions on sugar exports. This situation is likely to persist unless the government approves deregulation of the sugar industry or permits sugar to be exported to international markets. Nevertheless, the sugar industry is expected to continue facing uncertainties stemming from fluctuating sugar prices, increasing production costs, and various external economic factors. In response, the Company is diligently managing these risks through careful financial and operational strategies.

## **ACKNOWLEDGMENT**

The Directors would like to express their sincere appreciation to the growers, customers, financial institutions, and regulatory authorities for their continued support. The Board also acknowledges the dedication and hard work of the Company's employees, which has been instrumental in achieving operational success during the period.

For and on behalf of the Board

# INDEPENDENT AUDITORS' REVIEW REPORT

TO THE MEMBERS OF THE BABA FARID SUGAR MILLS LIMITED  
REPORT ON REVIEW OF CONDENSED INTERIM FINANCIAL STATEMENTS

## INTRODUCTION

We have reviewed the accompanying condensed interim statement of financial position of **Baba Farid Sugar Mills Limited** (the "Company") as at March 31, 2026 and the related condensed interim statement of profit or loss, the condensed interim statement of comprehensive income, the condensed interim statement of changes in equity and the condensed interim statement of cash flows, and notes to the condensed interim financial statements for the six-month period then ended (here-in-after referred to as the "interim financial statements"). Management is responsible for the preparation and presentation of these interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

## SCOPE OF REVIEW

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements is not prepared, in all material respects, in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting.

## OTHER MATTER

Pursuant to the requirement of Section 237 (1) (b) of the Companies Act, 2017 only cumulative figures for the half year, presented in the second quarter accounts are subject to a limited scope review by the statutory auditors of the Company. Accordingly, the figures of the condensed interim statement of profit or loss and condensed interim statement of comprehensive income for the three months period ended March 31, 2026 and March 31, 2025 have not been reviewed by us.

The engagement partner on the audit resulting in this independent auditors' review report is Sajjad Hussain Gill.
