JSMFI Description

JSMFI combines the appeal and intuition of a passive approach. It takes a quantitative approach that systematically analyzes, selects, weights and rebalances portfolio holdings based on a certain characteristic — called factor i.e. Momentum for this index. The theory behind Momentum is that stocks whose share prices have consistently risen for a given period of time are likely to keep rising. JSMFI has developed an index methodology that captures momentum in an intuitive and transparent way, making it accessible to all investors.

Please be advised that the Sales Load (including Front-End Load, Back-End Load and Contingent Load) up to 3.00% or 1.5%, as may be applicable, may be charged on the investment and/or upon redemption of funds, at the discretion of the Management Company.
