CORPORATE BRIEFING SESSION

FY 2025-26

Agenda

01		Company Overview
02		Vision, Mission & Core Values
03		Products & Industrial Applications
04		Credit Ratings & Key Achievements
05		Strategic Projects & Sustainability (ESG)
06		Financial Highlights & Geographical Sales
07		Key Financial Indicators & Ratio Analysis
08		Financial Performance & Variance Analysis
09		Future Outlook & Disclaimer

ABOUT

ITTEHAD CHEMICALS
LIMITED

ITTEHAD
CHEMICALS
LIMITED

OUR JOURNEY AT GLANCE

The factory is strategically located on the 19th/20th Kilometers of GT Road from Lahore and spread over an area of 106 acres. It is approachable from the Lahore-Islamabad Motorway as well as from the main city of Lahore, being less than an hour drive. The place is known as Kala Shah Kaku, an industrial site which has seen the growth of industries over the past decades stretching up and beyond Gujranwala along the G.T Road.

VISION

To be a globally recognized organization that drives innovation and sustainable growth, creating lasting value for stakeholders, uplifting communities, and inspiring excellence.

MISSION

Our mission is to lead Pakistan's chemical industry by driving sustainable growth through innovation, transformation, and strategic investments. We are dedicated to incorporating world class systems, empowering our talent to create stakeholder value, and fostering a greener future while supporting our communities

CORE VALUE

INTEGRITY

We conduct ourselves in accordance with the highest moral and ethical standards, and in full compliance with all applicable laws.

RESPECT

We treat our employees and all our stakeholders with professionalism, respect and dignity, creating an environment where people can express their professional opinions, contribute, innovate and excel.

TEAMWORK

We are committed to promoting a culture of teamwork and cooperation among our employees to enhance their productivity and well-being.

ACCOUNTABILITY

We hold ourselves accountable for our actions to our customers, employees, management, shareholders and to the community that we operate in.

ICL Products & Industrial Applications

Caustic Soda

Caustic Soda is mainly used as a raw material in soap manufacturing and also for mercerization of cotton in the textile industry. ICL produces caustic Soda in liquid form (%31 & %50) and also in the form of flakes, supplied in 25kg bags.

LABSA (Linear Alkylbenzene Sulfonicacid)

LABSA is an anionic detergent widely used in production of laundry detergents and industrial cleaners. ICL supplies %96 LABSA in 215 KG drums and also in bulk tankers.

Liquid Chlorine

Liquid Chlorine is used in water treatment, paper industry, manufacturing of pharmaceuticals and agro chemicals. ICL supplies liquid chlorine in 100 Kg and 900 Kg cylinders.

Calcium Chloride

Calcium Chloride is produced primarily for use in Oil and Gas industry. The product is supplied in 25KG and 1000 KG bags to customers in Pakistan and in the Middle East.

Sodium Hypochlorite

Sodium hypochlorite is widely used as a bleaching agent and for disinfection and sanitization purposes. Sodium hypochlorite is supplied by ICL in rubber-lined tankers of 10 to 30 MT.

SLES (Sodium Lauryl Ether Sulfate)

SLES is primarily used in production of personal hygiene products such as shampoos, handwash, cosmetics products and oral hygiene products. ICL produces 3 grades of SLES being SLES1, SLES2 and SLES3. SLES is supplied in 160 Kg drums and also in bulk tankers.

Hydrochloric Acid

Hydrochloric acid has a very diverse range of applications. Some of the main applications include steel industry, manufacturing of gelatin, textile, dyestuff and synthetic rubber. ICL produces %33 HCL which is mainly transported in rubber-lined tankers of up to 30 MT.

Sodium Sulphate

Sodium Sulphate is used in manufacturing of detergents, textile and glass products. ICL produces %99 sodium sulphate, supplied in 50 kg bags.

ICL CREDIT RATING DETAILS

Rating Category	FY 2025-26	FY 2024-25
Medium to Long-term	A	A-
Short-term	A1	A2
Rating Outlook / Watch	Stable	Positive
Rating Action	Upgrade	Maintained
Rating Date	05-May-2026	29-Apr-2025

ICL Rating Highlights

- ✓ Long-term rating upgraded to A
- ✓ Short-term rating upgraded to A1
- ✓ Stable outlook reflects resilient operations
- ✓ Improved liquidity and financial strength
- ✓ Positive signal for lenders & stakeholders

ICL Credit Rating History

Rating Date	Medium/Long Term	Short Term	Rating Outlook	Rating Action
05/05/2026	A	A1	Upgrade	Stable
29/04/2025	A-	A2	Positive	Maintained
04/02/2024	A-	A2	Stable	Reaffirmed
03/30/2023	A-	A2	Stable	Maintained
02/25/2022	A-	A2	Positive	Reaffirmed
11/19/2020	A-	A2	Positive	Reaffirmed
08/26/2019	A-	A2	Positive	Maintained

ICL has maintained strong credit fundamentals over the years, culminating in a rating upgrade by VIS in May 2026. The Company's long-term rating improved from A- to A and short-term rating from A2 to A1, reflecting enhanced profitability, liquidity, and business strength.

ITTEHAD CHEMICALS LIMITED

KEY ACHIEVEMENTS

FORBES RANKING

We are thrilled to announce that Ittehad Chemicals has been recognized in **Forbes Asia's 200 Best Under a Billion 2024 list!** This prestigious accolade is a testament to our exceptional commitment to innovation, quality, and growth within the chemical industry. At Ittehad Chemicals, we are dedicated to pushing boundaries and setting new standards.

This inclusion highlights our impactful contributions and visionary leadership. We look forward to continued success and pioneering advancements in the future.

PSX CONGRATULATES

Ittehad Chemicals

for being recognized in Forbes
Asia's Best Under A Billion 2024 list.

Forbes

ITTEHAD CHEMICALS LIMITED

KEY ACHIEVEMENTS

Business Intelligence (BI) Module – Management Reporting & Stewardship

In order to optimize the decision making at various levels, ICL has implemented Qlik Sense Business intelligence module to provide the decision makers with the right set of information. The system is integrated with SAP and provides customized analytics based on user selected criteria. Based on the success of this tool for sales and distribution, company plans to implement similar solutions for finance, production planning and inventory management in the coming years.

Qlik Sense

Provision for Toll Manufacturing Process through ERP

ICL greatly values flexibility in its business operations. Our guiding principle is to understand specific requirements of our customers and to fulfill them in best possible way. Some of our key clients requested us to provide them with toll manufacturing services for specific products. The process of toll manufacturing involves same steps in plant operations but requires an entirely different treatment when handled within the ERP system starting from raw material handling, storage, conversion and the shipment of the end product. Our capable in-house IT team, working with supply chain, finance and operations department, not only handled the development and deployment process in-house but also implemented it in a seamless manner without any disruption to the normal operations.

Integrated Out-bound Logistics

In view of its commitment to sustainability and to reduce paper usage in its operations, ICL implemented an integrated out-bound logistics process through SAP. All the information sharing, approvals and reporting for outward product movement is now done through SAP. In addition to reducing the use of paper this has also resulted in significant improvement in end-to-end processing time.

KEY ACHIEVEMENTS

Efficiency Improvement of Gas Fired Power Plant:

Energy is as an essential factor of production for our industry. ICL currently operates a 30 MW (6 x 5 MW) gas-fired, engine based power plant adjacent to its plant facility at Kala Shah Kaku. Over the last few years, due to advancements in internal combustion engine technology, the efficiency of engine designs have improved significantly. A need was felt to enhance the efficiency of our power plant to reduce carbon emissions and to maximize the power output from given amount of fuel. Engine OEM (M/S Wartsila) was contracted for the job. Based on their detailed study and recommendations, the company has signed the agreement for efficiency enhancement of the power plant. The project shall be implemented in a phased manner with minimum disruption to plant operations. Once fully implemented, this shall enhance the plant capacity by almost 20% and fuel efficiency by 9%, thus reducing carbon emissions significantly and minimizing our dependence on the national grid.

Waste Water Treatment Plant:

Being a socially responsible company, ICL is one of the first chemical manufacturer in the industry to initiate work on a full capacity waste water treatment plant. This shall reduce the impact of effluent discharge to the waste water streams in the area and also help us conserve ground water.

CORPORATE SOCIAL RESPONSIBILITY

RESCUE 1122 visit to Ittehad Chemicals Limited for Safety Training

SEWING SCHOOL FOR GIRLS

Annual Sports Gala organized by Ittehad Chemicals Limited

Medical Ward at Ittehad Chemical Limited Premises

Medical Clinic at Ittehad Chemical Limited Premises

UP-GRADATION / RENOVATION OF LOCAL SCHOOLS

Environmental and Energy Sustainability

Management has maintained its strong commitment to a safe environment in its operations throughout the year. We apply strict environmental criteria in all our activities, thereby ensuring that projects are integrated into the community with the least possible impact on the environment and the maximum social consensus. Energy conservation is a key issue world-wide. Through successful Energy Conservation Management, we can vastly reduce energy wastage, bring down the cost of production, and ensure we respect the limited resources of our planet.

ICL has taken important measures starting with the formation of an Energy Conservation Task Team (ECTT) to identify various conservation measures and constraints. The team constantly analyzes system design, process design, and re-engineering of various factory operations in order to make the processes more efficient and minimize wastage of resources. Through the implementation of powerful IT solutions (e.g. SAP), the company is moving ever close towards a paperless environment. Through awareness we have arisen to confront the challenges to ensure a sustainable future for generations to come.

KEY BUSINESS RISKS

ENERGY & UTILITY RISK

Volatility in gas and electricity prices and availability may impact production costs and operating margins.

LIQUIDITY & WORKING CAPITAL RISK

Effective cash flow management and strong banking relationships are critical to maintain financial stability and support operations.

MARKET & FOREIGN EXCHANGE RISK

Fluctuations in product prices, demand conditions and exchange rates may affect profitability and competitiveness.

RAW MATERIAL & SUPPLY CHAIN RISK

Changes in raw material prices, supply disruptions and logistics constraints may impact production continuity and costs.

OPERATIONAL RISK

Plant downtime, equipment failure, maintenance shutdowns and project execution delays may affect operational performance.

ESG & REGULATORY RISK

Evolving environmental regulations and compliance requirements may lead to increased costs and require ongoing investments.

MAJOR UPCOMING PROJECTS

CAPEX

BIOMASS POWER PLANT

CAUSTIC SODA FLAKES
PLANT

CALCIUM CHLORIDE
PLANT

ICL POWER INAUGURATION

Breaking New Ground for a Greener Future!:

In our pursuit of environmental sustainability and a circular economy, we are thrilled to announce a major milestone with the Ground Breaking Ceremony for ICL Power (Pvt.) Ltd. inaugural project: a 37.2 MW biomass co-gen plant. By the grace of almighty, construction is starting at our site in Kala Shah Kaku and the team is excited to achieve commissioning as per schedule InshaAllah!

FLAKER PLANT - PROJECT

ICL is in a process to install new Flaker Plant with a capacity of 16,500 MT/annum.

CALCIUM CHLORIDE PLANT

ENVIRONMENTAL, SOCIAL & GOVERNANCE

We are committed to providing a safe and healthy work environment to our employees. The Company meets applicable laws and government regulations as well as Company's own standards. We actively strive for eliminating all possible causes of accidents, preventing environmental pollution, minimizing waste, energy conservation, safety awareness, training, emergency preparedness and managing environmental impact that can affect the surrounding communities and the environment at large.

ICL has been certified for Occupational Health & Safety Management System ISO 45001:2018, Quality Management System (QMS) ISO 9001:2015, Environmental Management Systems (EMS) ISO 14001:2015 by Global Inter Certifications (GIC), and Halal Food Management System PS 3733:2019 P-2 by ACTS - Al-Waiz certification and Training Services (Pvt.) Limited.
