Increase in Operational Production Capacity

In compliance with Section 96 of the Securities Act, 2015 and Clause 5.6.1 of the Pakistan Stock Exchange (PSX) Rule Book, we are pleased to inform our shareholders that Stylers International Limited has successfully increased its operational production capacity by 5,000 pieces per day, representing an approximately 14% increase over the Company's existing operational production capacity.

This increase forms part of the capacity expansion plan approved by the Board of Directors at its meeting held on 26 February 2026 and has been achieved through the continued operational ramp-up of the Company's Sunshine Manufacturing Facility.

Following this increase, the Sunshine Manufacturing Facility is now operating at approximately 75% of its Phase-I planned production capacity.

The additional capacity is expected to strengthen the Company's ability to meet growing customer demand, improve operational efficiencies, and support sustainable growth in revenue and profitability.

This information is being disseminated to all concerned in accordance with the applicable regulatory requirements.

Yours truly
