Economic Outlook (FY26):

The country exhibited sustained resilience on the macro-economic front despite significant headwinds during FY26, with contained inflation, restrained current account deficit, strengthening foreign exchange reserves, stable exchange rate etc. Despite abysmal performance on the tax collection front, the country managed to achieve IMF's target of primary surplus for FY26. Headline inflation averaged at 7.0% in FY26, as compared to 4.5% in the preceding year. Amid ample food supply in the country, perishable food prices declined by 6.7% YoY which provided a much need cushion to inflation readings in a time when fuel prices increased substantially due to heightened geopolitical tensions. The monetary policy committee of the SBP increased the key policy rate by a cumulative 50bps during the year, with the only increase of the year of 100bps coming in the last quarter, in view of the potential macro-economic impacts of the geopolitical tensions.

On the external front, the current account balance reported a marginal deficit of USD 0.14bn against IMF's projection of a deficit of USD 1.96bn, thanks to the robust inflows of foreign worker's remittances of USD 41.6bn, inching up by 8.6% YoY. The healthy remittances helped partially offset the impact of 25.4% YoY increase in trade deficit to USD 33.6bn. The State Bank of Pakistan successfully achieved its year-end FX reserves target of USD 18.3bn despite the repayment of ~USD 3.4bn to the UAE in the last quarter of the year primarily against SAFE deposits and commercial loans. The resulting gap was largely offset by the Kingdom of Saudi Arabia which increased its deposits with Pakistan by USD 3 billion.

On the fiscal front, provisional figures indicate that Pakistan comfortably met the IMF's targets for both the primary surplus and the fiscal deficit, recording 2.5% and 3.9% of GDP, respectively. The Federal Board of Revenue collected PKR 13.0 trillion during FY2025-26, marginally exceeding its revised target of PKR 12.9 trillion. It is noteworthy that the original budgeted target of PKR 14.1 trillion had been revised downward twice during the fiscal year, representing structural weaknesses in the tax machinery.

Real GDP growth (provisional figures) remained modest at ~3.7% in FY26, the highest since FY22 (6.2%) supported by recovery in crops production and large-scale manufacturing (LSM). The growth in LSM was led by positive contributions from Food, Wearing Apparel and the Automobile sectors. Meanwhile, the growth in crops is primarily attributed to improved output of wheat, rice and sugarcane.

During the year, Pakistan completed two reviews of the Extended Fund Facility (EFF) and Resilient and Sustainable Financing (RSF) with the IMF, unlocking total disbursements of USD 2.5bn. In addition, the government raised USD 750mn in the international capital market through a Eurobond, marking the first such issuance in four years. The issuance was initially planned at USD 500mn which was subsequently increased to USD 750mn, due to stronger than expected investors demand, reflecting improving investor confidence and Pakistan's enhanced creditworthiness.

Debt Market Review

During FY26, the debt market remained volatile, reflecting changing monetary policy expectations and evolving macroeconomic conditions. The State Bank of Pakistan (SBP) maintained the policy rate during the first five months of the fiscal year, resulting in relatively stable secondary market yields. Following the 50-bps policy rate cut in December 2025, market participants anticipated a continued easing cycle, leading to a decline in yields.

However, the SBP kept the policy rate unchanged in January, dampening the expectations of further rate cuts. Subsequently, escalating geopolitical tensions and rising inflationary concerns shifted market sentiment toward the possibility of monetary tightening. This outlook materialized when the State Bank of Pakistan (SBP) pre-emptively increased the policy rate by 100 basis points in response to heightened regional tensions, prompting yields to rise across the yield curve.

Currently, the market has largely stabilized, with the prevailing expectation that the policy rate will remain unchanged in the near term. As a result, yields are expected to remain broadly range-bound, barring any significant shifts in the inflation or monetary policy outlook arising from geopolitical developments.

Demand for Treasury bills (T-bills) remained strong throughout the year, with total bids in T-bill auctions amounting to PKR 56.7 trillion. During the period, the government raised PKR 23.63 trillion, including non-competitive bids. The majority of investor demand was concentrated in the 1-month tenor, which accounted for 39.5% of total participation. The 3-month, 6-month, and 12-month tenors represented 23.0%, 11.2%, and 26.3% of total bids, respectively.

Participation in fixed-rate Pakistan Investment Bonds (PIBs) remained steady during the year, with total bids amounting to PKR 19.082 trillion. Investor demand in the first half of the period was supported by expectations of declining interest rates, while geopolitical developments later in the year prompted investors to seek higher yields.

The government accepted PKR 4.464 trillion (realized value), including non-competitive bids, broadly in line with its target of PKR 4.550 trillion. Of the total realized amount, PKR 450 billion was raised through 2-year zero-coupon PIBs, PKR 905 billion through 3-year bonds, PKR 1.384 trillion through 5-year papers, PKR 1.374 trillion through 10-year bonds, and PKR 351 billion through 15-year zero-coupon PIBs.

Demand for floating-rate Pakistan Investment Bonds (PIBs) remained strong during the year, despite issuance being limited to the 10-year tenor. Total bids received amounted to PKR 17.01 trillion,

significantly exceeding the government's target of PKR 2.5 trillion. However, the government accepted bids worth PKR 1.959 trillion during the period, in line with its borrowing requirements and issuance strategy.

Investor demand for fixed-rate Ijara Sukuk remained firm during the year, with total bids received amounting to PKR 5.8 trillion. The government raised PKR 2.43 trillion, compared with its target of PKR 2.92 trillion. Of the total amount raised, PKR 456 billion was accepted through 3-year Sukuk, PKR 615 billion through 5-year Sukuk, PKR 453 billion through 10-year Sukuk, and PKR 913 billion through 1-year discounted Sukuk.

In contrast, demand for floating-rate Ijara Sukuk was comparatively lower and remained heavily concentrated in the 10-year tenor, which accounted for 95% of total bids. Total bids for floating-rate Sukuk amounted to PKR 5.10 trillion, of which the government accepted PKR 1.071 trillion, slightly below its target of PKR 1.125 trillion. All bids received for the 5-year tenor were rejected, and issuance of this tenor was discontinued in November.

Stock Market Review

FY2025–26 proved to be another exceptional year for the Pakistan equity market, with the benchmark KSE-100 Index delivering an impressive return of 44% to close at 180,302. The local bourse outperformed all major asset classes and has generated a remarkable compound annual growth rate (CAGR) of 63% over the past three years. The positive performance remained mainly concentrated in Commercial Banks, Fertilizers & Energy chain companies (Exploration, Oil and Gas Marketing and Power), which contributed 21,612pts, 7,748pts and 6,151pts, respectively. Majority of the performance however, came in the first half of FY26 whereas, the second half of the year was marked by heightened volatility on the back of the geopolitical tensions which weighed on investors' sentiments.

Future Outlook

Looking ahead, inflation is expected to average around 8.0-8.5% in FY27, slightly above SBP's medium term target of 5-7%. The longevity of the geopolitical tensions and subsequent impact on energy and food prices remain key risk to inflation trajectory and stance of the monetary policy committee, going forward. Steady flow of remittances would be pivotal to counter rising import pressure emanating from phased

reduction in import tariffs, in line with the agreement with the IMF. The SBP expects remittances to clock-in at USD 44bn (+6.0% YoY) in FY27.

On the fiscal front, the government has set a tax collection target of PKR 15.2 trillion for the Federal Board of Revenue (FBR) for FY27, which appears challenging to achieve given the relief measures introduced in the Federal Budget FY27. The performance of the tax authority would be the focal point in the forthcoming reviews with the IMF. On the capital market's side, inflation outlook, monetary policy and internal politics would direct investors' sentiment. The much-awaited resolution of the gas circular debt, steady growth in economic activity and decline in interest rates and commodity prices, remain key positive triggers for the equity market.

معاشی منظر نامہ (مالی سال 26):

مالی سال 26 کے دوران نمایاں مشکلات کے باوجود ملک نے مجموعی معاشی محاذ پر مسلسل چمک کا مظاہرہ کیا، جس میں افراط زر کو قابو میں رکھنا، کرنٹ اکاؤنٹ خسارے کو محدود رکھنا، زرمبادلہ کے ذخائر میں بہتری اور شرح مبادلہ کا مستحکم رہنا شامل ہے۔ ٹیکس وصولیوں کے محاذ پر انتہائی ناقص کارکردگی کے باوجود ملک مالی سال 26 کے لیے آئی ایم ایف کا بنیادی بجٹ سرپلس کا ہدف حاصل کرنے میں کامیاب رہا۔ مالی سال 26 میں مجموعی افراط زر کی اوسط شرح 7.0 فیصد رہی، جبکہ گزشتہ سال یہ شرح 4.5 فیصد تھی۔ ملک میں اشیائے خورد و نوش کی وافر فراہمی کے باعث جلد خراب ہونے والی غذائی اشیاء کی قیمتوں میں سال بہ سال 6.7 فیصد کمی ہوئی، جس سے افراط زر کی شرح پر فی الوقت ضروری سہارا ملا جبکہ جغرافیائی سیاسی کشیدگی میں اضافے کے باعث ایندھن کی قیمتوں میں نمایاں اضافہ ہوا۔ اسٹیٹ بینک آف پاکستان کی مانیٹری پالیسی کمیٹی نے سال کے دوران کلیدی پالیسی ریٹ میں مجموعی طور پر 50 پیس پوائنٹس کا اضافہ کیا، جبکہ جغرافیائی سیاسی کشیدگی کے ممکنہ معاشی اثرات کے پیش نظر سال کا واحد 100 پیس پوائنٹس کا اضافہ آخری سہ ماہی میں کیا گیا۔

بیرونی محاذ پر کرنٹ اکاؤنٹ بیلنس میں معمولی 0.14 بلین امریکی ڈالر کا خسارہ ریکارڈ کیا گیا، جبکہ آئی ایم ایف نے 1.96 بلین امریکی ڈالر کے خسارے کی پیش گوئی کی تھی۔ اس کی بڑی وجہ بیرون ملک مقیم پاکستانی کارکنوں کی ترسیلات زر کی مضبوط آمد تھی، جو سال بہ سال 8.6 فیصد اضافے کے ساتھ 41.6 بلین امریکی ڈالر تک پہنچ گئی۔ ترسیلات زر میں اس نمایاں اضافے نے تجارتی خسارہ میں سال بہ سال 25.4 فیصد اضافے کے اثرات کو جزوی طور پر زائل کیا، جس کے نتیجے میں تجارتی خسارہ 33.6 ٹریلین امریکی ڈالر رہا۔ اسٹیٹ بینک آف پاکستان نے سال کے اختتام پر 18.3 ٹریلین امریکی ڈالر کے زرمبادلہ کے ذخائر کا ہدف کامیابی سے حاصل کر لیا، حالانکہ سال کی آخری سہ ماہی میں متحدہ عرب امارات کو تقریباً 3.4 بلین امریکی ڈالر کی ادائیگی کی گئی، جو بنیادی طور پر سیف ڈیپازٹس اور کمرشل قرضوں کے عوض تھی۔ اس کے نتیجے میں پیدا ہونے والے خلاق کو بڑی حد تک سعودی عرب نے پورا کیا، جس نے پاکستان میں اپنے ڈیپازٹس میں 3 بلین امریکی ڈالر کا اضافہ کیا۔

مالیاتی محاذ پر عبوری اعداد و شمار سے ظاہر ہوتا ہے کہ پاکستان نے بنیادی بجٹ سرپلس اور مالیاتی خسارہ، دونوں کے حوالے سے آئی ایم ایف کے اہداف با آسانی حاصل کر لیے، جو بالترتیب جی ڈی پی کے 2.5 فیصد اور 3.9 فیصد ریکارڈ کیے گئے۔ فیڈرل بورڈ آف ریونیو نے مالی سال 2025-26 کے دوران 13.0 ٹریلین روپے ٹیکس وصول کیے، جو اس کے نظر ثانی شدہ 12.9 ٹریلین روپے کے ہدف سے معمولی طور پر زیادہ تھے۔ یہ امر قابل ذکر ہے کہ اصل بجٹ میں مقرر کردہ 14.1 ٹریلین روپے کا ہدف مالی سال کے دوران دومرتبہ کم کیا گیا، جو ٹیکس وصولی کے نظام میں موجود ساختی کمزوریوں کی عکاسی کرتا ہے۔

حقیقی جی ڈی پی کی شرح نمو (عبوری اعداد و شمار کے مطابق) مالی سال 26 میں تقریباً 3.7 فیصد رہی، جو مالی سال 22 کے بعد سب سے زیادہ شرح نمو ہے، جب یہ 6.2 فیصد رہی تھی۔ اس بہتری کو فصلوں کی پیداوار اور بڑی سطح کی صنعتی پیداوار (LSM) میں بحالی سے تقویت ملی۔ بڑی سطح کی صنعتی پیداوار میں نمونہ نمایاں حصہ غذائی اشیاء، ملبوسات اور آٹوموبائل کے شعبوں نے ڈالا۔ دریں اثنا، فصلوں کی پیداوار میں اضافہ بنیادی طور پر گندم، چاول اور گنے کی بہتر پیداوار سے منسوب کیا جاتا ہے۔

سال کے دوران پاکستان نے آئی ایم ایف کے ساتھ ایکسٹینڈڈ فنڈنسلیٹی (EFF) اور ریزولیوٹ اینڈ سسٹین ایبل فنانسنگ (RSF) کے تحت دو جائزے مکمل کیے، جس کے نتیجے میں مجموعی طور پر 2.5 بلین امریکی ڈالر کی رقم جاری ہوئیں۔ علاوہ ازیں، حکومت نے بین الاقوامی کمپنیل مارکیٹ میں یورو بانڈ کے ذریعے 750 بلین امریکی ڈالر حاصل کیے، جو چار سال کے عرصے میں اس نوعیت کا پہلا اجراء تھا۔ اس بانڈ کا اجراء ابتدائی طور پر 500 بلین امریکی ڈالر کا منصوبہ تھا، تاہم سرمایہ کاروں کی توقع سے زیادہ مضبوط طلب کے باعث اسے بڑھا کر 750 بلین امریکی ڈالر کر دیا گیا۔ یہ صورتحال سرمایہ کاروں کے اعتماد میں بہتری اور پاکستان کی بہتر ہوتی ہوئی قرضہ جاتی سہک کی عکاسی کرتی ہے۔

ڈیٹ مارکیٹ کا جائزہ

مالی سال 26 کے دوران ڈیٹ مارکیٹ اتار چڑھاؤ کا شکار رہی، جو بدلتی ہوئی مانیٹری پالیسی کی توقعات اور ارتقا پذیر معاشی حالات کی عکاسی کرتی ہے۔ اسٹیٹ بینک آف پاکستان (SBP) نے مالی سال کے پہلے پانچ ماہ کے دوران پالیسی ریٹ برقرار رکھا، جس کے نتیجے میں ثانوی مارکیٹ میں منافع کی شرحیں نسبتاً مستحکم رہیں۔ دسمبر 2025 میں پالیسی ریٹ میں 50 پیس پوائنٹس کی کمی کے بعد مارکیٹ کے شرکاء نے شرح سود میں مزید کمی کے سلسلے کے جاری رہنے کی توقع کی، جس کے باعث منافع کی شرحوں میں کمی واقع ہوئی۔

تاہم، اسٹیٹ بینک آف پاکستان نے جنوری میں پالیسی ریٹ برقرار رکھا، جس سے مزید شرح سود میں کمی کی توقعات متاثر ہوئیں۔ بعد ازاں، جغرافیائی سیاسی کشیدگی میں اضافے اور افراط زر سے متعلق بڑھتے ہوئے خدشات نے مارکیٹ کے رجحان کو مانیٹری پالیسی میں سختی کے امکان کی جانب موڑ دیا۔ یہ توقع اس وقت حقیقت کا روپ دھار گئی جب اسٹیٹ بینک آف پاکستان (SBP) نے خطے میں بڑھتی ہوئی کشیدگی کے رد عمل میں پیشگی طور پر پالیسی ریٹ میں 100 پیس پوائنٹس کا اضافہ کر دیا، جس کے نتیجے میں پوری ہیپڈ گرو میں منافع کی شرحیں بڑھ گئیں۔

فی الوقت مارکیٹ بڑی حد تک مستحکم ہو چکی ہے، جبکہ عمومی توقع یہ ہے کہ قلیل مدت میں پالیسی ریٹ میں کوئی تبدیلی نہیں ہوگی۔ چنانچہ توقع ہے کہ منافع کی شرحیں مجموعی طور پر ایک محدود دائرے میں رہیں گی، بشرطیکہ جغرافیائی سیاسی پیش رفت کے نتیجے میں افراط زر یا مانیٹری پالیسی کے منظر نامہ میں کوئی نمایاں تبدیلی رونما نہ ہو۔

ٹریڈری بلز (T-Bills) کی طلب پورے سال مضبوط رہی، اور ٹی بلز کی نیلامیوں میں موصول ہونے والی مجموعی بولیوں کی مالیت 56.7 ٹریلین روپے رہی۔ اس عرصے کے دوران حکومت نے غیر مسابقتی بولیوں سمیت 23.63 ٹریلین روپے حاصل کیے۔ سرمایہ کاروں کی طلب کا بڑا حصہ 1 ماہ کی مدت کے ٹی بلز میں مرکوز رہا، جس نے مجموعی شرکت میں 39.5 فیصد حصہ لیا۔ 3 ماہ، 6 ماہ اور 12 ماہ کی مدت کے ٹی بلز نے بالترتیب مجموعی بولیوں میں 23.0 فیصد، 11.2 فیصد اور 26.3 فیصد حصہ حاصل کیا۔

مقررہ شرح منافع والے پاکستان انویسٹمنٹ بانڈز (PIBs) میں سرمایہ کاروں کی شرکت سال کے دوران مستحکم رہی، اور موصول ہونے والی مجموعی بولیوں کی مالیت 19.082 ٹریلین روپے رہی۔ مدت کی پہلی ششماہی میں سرمایہ کاروں کی طلب کو شرح سود میں کمی کی توقعات سے تقویت ملی، جبکہ سال کے بعد کے عرصہ میں جغرافیائی سیاسی پیش رفت نے سرمایہ کاروں کو زیادہ منافع کی شرحوں کی تلاش پر آمادہ کیا۔

حکومت نے غیر مسابقتی بولیوں سمیت 4.464 ٹریلین روپے (حقیقی وصولی کی مالیت) قبول کیے، جو اس کے 4.550 ٹریلین روپے کے ہدف کے تقریباً مطابق تھے۔ مجموعی طور پر حاصل کردہ رقم میں سے 450 بلین روپے 2 سالہ زیر کوپن پاکستان انویسٹمنٹ بانڈز کے ذریعے، 905 بلین روپے 3 سالہ بانڈز کے ذریعے، 1.384 ٹریلین روپے 5 سالہ سیکورٹیز کے ذریعے، 1.374 ٹریلین روپے 10 سالہ بانڈز کے ذریعے، جبکہ 351 بلین روپے 15 سالہ زیر کوپن پاکستان انویسٹمنٹ بانڈز کے ذریعے حاصل کیے گئے۔

فلوٹنگ ریٹ پاکستان انویسٹمنٹ بانڈز (PIBs) کی طلب بھی سال کے دوران مضبوط رہی، اگرچہ ان کا اجراء صرف 10 سالہ مدت تک محدود رہا۔ موصول ہونے والی مجموعی بولیوں کی مالیت 17.01 ٹریلین روپے رہی، جو حکومت کے 2.5 ٹریلین روپے کے ہدف سے نمایاں طور پر زیادہ تھی۔ تاہم، حکومت نے اپنی قرض لینے کی ضروریات اور اجراء کی حکمت عملی کے مطابق اس عرصے کے دوران 1.959 ٹریلین روپے مالیت کی بولیاں قبول کیں۔

فلسڈ ریٹ اجارہ سکوک میں سرمایہ کاروں کی طلب سال کے دوران مضبوط رہی، اور موصول ہونے والی مجموعی بولیوں کی مالیت 5.8 ٹریلین روپے رہی۔ حکومت نے 2.43 ٹریلین روپے حاصل کیے، جبکہ اس کا ہدف 2.92 ٹریلین روپے تھا۔ حاصل کردہ مجموعی رقم میں سے 456 بلین روپے 3 سالہ سکوک کے ذریعے، 615 بلین روپے 5 سالہ سکوک کے ذریعے، 453 بلین روپے 10 سالہ سکوک کے ذریعے، جبکہ 913 بلین روپے 1 سالہ ڈسکاوینڈ سکوک کے ذریعے قبول کیے گئے۔

اس کے برعکس، فلوٹنگ ریٹ اجارہ سکوک کی طلب نسبتاً کم رہی اور یہ زیادہ تر 10 سالہ مدت تک محدود رہی، جس نے مجموعی بولیوں میں 95 فیصد حصہ لیا۔ فلوٹنگ ریٹ سکوک کے لیے موصول ہونے والی مجموعی بولیوں کی مالیت 5.10 ٹریلین روپے رہی، جس میں سے حکومت نے 1.071 ٹریلین روپے کی بولیاں قبول کیں، جو اس کے 1.125 ٹریلین روپے کے ہدف سے معمولی کم تھیں۔ 5 سالہ مدت کے لیے موصول ہونے والی تمام بولیاں مسٹرڈ کردی گئیں، جبکہ نومبر میں اس مدت کے سکوک کا اجراء بھی بند کر دیا گیا۔

اشٹاک مارکیٹ کا جائزہ

مالی سال 2025-26 پاکستان کی ایکویٹی مارکیٹ کے لیے ایک اور غیر معمولی سال ثابت ہوا، جس میں بیچ مارک KSE-100 انڈیکس نے 44 فیصد شاندار منافع فراہم کرتے ہوئے 180,302 کی سطح پر سال کا اختتام کیا۔ مقامی اشٹاک مارکیٹ نے تمام بڑے اثاثہ جاتی طبقات سے بہتر کارکردگی کا مظاہرہ کیا اور گزشتہ تین سال کے دوران 63 فیصد کی قابل ذکر مرکب سالانہ شرح نمو (CAGR) حاصل کی۔ مثبت کارکردگی بنیادی طور پر کمرشل بینکس، فریٹلائزرز اور انرجی چین سے وابستہ کمپنیوں (ایکسپلوریشن، آئل اینڈ گیس مارکیٹنگ اور پاور) تک محدود رہی، جنہوں نے بالترتیب 21,612 پوائنٹس، 7,748 پوائنٹس اور 6,151 پوائنٹس کا حصہ ڈالا۔ تاہم، کارکردگی کا بڑا حصہ مالی سال 2025-26 کی پہلی ششماہی میں سامنے آیا، جبکہ سال کی دوسری ششماہی جغرافیائی سیاسی کشیدگی کے باعث بڑھتے ہوئے اتار چڑھاؤ کی زد میں رہی، جس نے سرمایہ کاروں کے جذبات کو متاثر کیا۔

مستقبل کا منظر نامہ

آئندہ عرصے میں مالی سال 27 کے دوران افراط زر کی اوسط شرح تقریباً 8.0 تا 8.5 فیصد رہنے کی توقع ہے، جو اسٹیٹ بینک آف پاکستان کے 5 تا 7 فیصد کے درمیانی مدت کے ہدف سے قدرے زیادہ ہے۔ جغرافیائی سیاسی کشیدگی کا دورانیہ اور اس کے نتیجے میں توانائی اور غذائی اشیاء کی قیمتوں پر پڑنے والے اثرات مستقبل میں افراط زر کی سمت اور مانیٹری پالیسی کمیٹی کے موقف کے لیے اہم خطرات ہیں۔ درآمدی ٹریف میں مرحلہ وار کمی کے نتیجے میں بڑھنے والے درآمدی دباؤ کا مقابلہ کرنے کے لیے ترسیلات زر کی مسلسل آمد کلیدی اہمیت رکھے گی، جو آئی ایم ایف کے ساتھ معاہدے کے مطابق کی جا رہی ہے۔ اسٹیٹ بینک کو توقع ہے کہ مالی سال 27 میں ترسیلات زر 44 بلین امریکی ڈالر (6.0 فیصد سال بہ سال) تک پہنچ جائیں گی۔

مالیاتی محاذ پر حکومت نے مالی سال 27 کے لیے فیڈرل بورڈ آف ریونیو (FBR) کے لیے 15.2 ٹریلین روپے کا ٹیکس وصولی کا ہدف مقرر کیا ہے، جو مالی سال 27 کے وفاقی بجٹ میں متعارف کرائے گئے ریلیف اقدامات کے پیش نظر ایک مشکل ہدف دکھائی دیتا ہے۔ آئی ایم ایف کے ساتھ آئندہ جائزوں میں ٹیکس وصولی کے ادارے کی کارکردگی مرکزی توجہ کا محور ہوگی۔ کپٹل مارکیٹ کے محاذ پر افراط زر کا منظر نامہ، مانیٹری پالیسی اور داخلی سیاسی صورتحال سرمایہ کاروں کے جذبات کا رخ متعین کریں گے۔ گیس کے گزشتہ قرضے کے طویل انتظار کے بعد حل، معاشی سرگرمیوں میں مسلسل نمو، شرح سود اور اجناس کی قیمتوں میں کمی ایکویٹی مارکیٹ کے لیے اہم مثبت محرکات بدستور رہیں گے۔

مینجمنٹ کمپنی انٹرنل کنٹرول رиск مینجمنٹ (ERM) کی پیروی کرتی ہے جو کہ ایک مسلسل جاری عمل ہے اور کسی بھی ادارہ کے سطح کے لوگوں سے اثر انداز ہوتا ہے جو انٹرنل پرائز میں ہر سطح اور یونٹ پر لاگو حکمت عملی کی ترتیب میں نافذ ہوتا ہے، اور اس میں ممکنہ واقعات کی شناخت کے لئے تیار کردہ خطرے کا ادارے کی سطح کے پورٹ فولیو کا جائزہ لینا بھی شامل ہے جو اگر واقع ہوتے ہیں تو ادارے کو متاثر کریں گے اور خطرات کو کم کرنے کے انتظام کو کمزور کرے گا۔

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS**Report on the audit of the financial statements****Opinion**

We have audited the financial statements UBL Pakistan Enterprise Exchange Traded Fund ("the Fund"), which comprise the statement of assets and liabilities as at June 30, 2026, and the income statement, statement of comprehensive income, statement of movement in unit holders' fund and cash flow statement for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at June 30, 2026, and of its financial performance and its cash flows for the year then ended in accordance with accounting and reporting standards as applicable in Pakistan.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following is the key audit matter:

S.NO	Key audit matter	How the matter was addressed in our audit
1.	Existence and valuation of investments As disclosed in note 6 to the accompanying financial statements of the Fund for the year ended June 30, 2026, the investment constitutes the most significant component of the Net Assets Value. Investments of the Fund as at June 30, 2026 amounted to Rs. 743.370 million and these represents 99.62% of the total assets. The existence and valuation of investments are significant components of statement of asset and liabilities for the determination of net asset value of the Fund as at June 30, 2026.	Our audit procedures amongst others included the following: Obtained independent confirmations for verifying the existence of the investments portfolio as at June 30, 2026 and traced it with the books and records of the Fund.

S.NO	Key audit matter(s)	How the matter was addressed in our audit
	We considered existence and valuation of investments as Key audit matter due to significance of these in relation to total assets.	• Re-performed valuation to assess that investment are carried as per the valuation methodology specified in the accounting policies; • Assessed the Funds' compliance with the requirements of the Non-Banking Finance Companies and Notified Entities Regulations, 2008 in relation to the concentration of investments and exposure limits prescribed in such Regulations and the applicability of disclosures in this regard, and • Evaluated the adequacy of the disclosures in the financial statements in respect of the investment portfolio in accordance with the requirements of accounting and reporting standards as applicable in Pakistan.

Information other than the financial statements and auditor's report thereon

The Management company is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management company and Those Charged with Governance of the Management Company for the Financial Statements

The Management company is responsible for the preparation and fair presentation of the financial statements in accordance with accounting and reporting standards as applicable in Pakistan and for such internal control as the Management Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management company is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management company either intends to liquidate the Fund or to cease operations or has no realistic alternative but to do so.

Those Charged with Governance of the Management Company are responsible for overseeing the Fund's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Management Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management Company.
- Conclude on the appropriateness of the Management Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance of the Management Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance of the Management Company with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance of the Management Company, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

Based on our audit, in our opinion the financial statements have been prepared in all material respects in accordance with the relevant provisions of the Non-Banking Finance Companies and Notified Entities Regulations, 2008.

The engagement partner on the audit resulting in this independent auditor's report is Zulfikar Ali Causer.

Even though IFRS 18 will not have any effect on the recognition and measurement of items in the financial statements, it is expected to have a significant effect on the presentation and disclosure of certain items. These changes include categorisation and sub-totals in the statement of profit or loss, aggregation/disaggregation and labelling of information, and disclosure of management-defined performance measures.

4 MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies applied in the preparation of these financial statements are set out below. These accounting policies have been consistently applied unless otherwise stated.

4.1 Cash and cash equivalents

Cash and cash equivalents comprise of deposits and current accounts maintained with banks and short term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short term cash commitments rather than for investments and other purposes.

4.2 Financial assets

4.2.1 Initial recognition and measurement

The Fund recognises financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instrument.

All financial assets and liabilities are initially measured at cost which is the fair value of the consideration given or received. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of financial assets or liabilities, as appropriate, on initial recognition. Transaction costs pertaining to financial assets are recognised in the income statement.

4.2.2 Classification and subsequent measurement

Financial assets

There are three principal classification categories for financial assets:

- At amortised cost (AC);
- At fair value through other comprehensive income (FVOCI); and
- At fair value through profit or loss (FVPL).

Financial assets at amortized cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVPL;

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial asset classified at amortised cost is subsequently carried at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Profit / markup income, foreign exchange gains and losses and impairment are recognised in income statement.

Financial asset at FVTOCI

A financial asset is classified at FVOCI only if it meets both of the following conditions and is not designated as FVPL;

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at FVOCI are subsequently measured at fair value with gains and losses arising due to changes in fair value recognised in OCI, except for the recognition of impairment losses. In case of debt instrument, when the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from OCI to income statement.

Financial asset at FVPL

All other financial assets are classified as FVPL .

In addition, on initial recognition, the Fund may irrevocably designate a financial asset, that otherwise meets the requirements to be measured at amortised cost or at FVTOCI, as at FVPL, if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets designated at fair value through profit or loss are subsequently carried at fair value. Net gains and losses, including any profit / markup or dividend income, are recognised in income statement.

Business model assessment

The Fund makes an assessment of the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management.

The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Fund's
- the risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed.
- how managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Fund's stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

The Fund has determined that it has three business models:

- Held-to-collect business model: This includes cash and cash equivalents and receivables, if any. These financial assets are held to collect contractual cash flows.
- Held-to-collect and sell business model: If any. These financial assets are held to collect contractual cash flow and sell the financial assets.
- Other business model: This includes equity investment. These financial assets are held for trading and managed and their performance is evaluated, on a fair value basis, with frequent sales taking place.

Assessments whether contractual cash flows are solely payments of principal and interest (SPPI)

For the purposes of this assessment, ‘principal’ is defined as the fair value of the financial asset on initial recognition. ‘Interest’ is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (eg. liquidity risk and administrative costs), as well as profit margin.

In assessing whether the contractual cash flows are SPPI, the Fund considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Fund considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Fund’s claim to cash flows from specified assets (e.g. non-recourse loans); and
- features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

Reclassifications

Financial assets are not reclassified subsequent to their initial recognition unless the Fund were to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model.

Equity instruments

On initial recognition of an equity investment that is not held for trading, the Fund may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

An equity instrument held for trading purposes is classified as measured at FVTPL.

4.2.3 Financial liabilities

The Fund's financial liabilities are classified and measured at amortised cost using the effective interest method. Any gain or loss on derecognition is in the income statement.

4.2.4 Impairment of financial assets

The Fund at each reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired. If such an indication exists, the recoverable amount of such asset is estimated. An impairment loss is recognised whenever the carrying amount of an asset exceeds the recoverable amount.

4.2.5 Regular way contracts

All purchases and sales of securities that require delivery within the timeframe established by regulation or market convention are recognised at the trade date. Trade date is the date on which the Fund commits to purchase or sell assets.

4.2.6 De-recognition

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership. On derecognition of a financial asset, the difference between the carrying amount of the asset and the consideration received is recognised in income statement.

The Fund derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid is recognised in income statement.

4.2.7 Fair value measurement principles and provision

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Fund has access at that date.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets traded in active markets i.e. listed equity shares are based on the quoted market prices at the close of trading on the period end date. A market is regarded as 'active' if transactions for the asset take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The quoted market prices used for financial assets held by the Fund is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The fair value of financial instruments is determined as follows:

Basis of valuation of equity investments

Equity investments are marked-to-market on the basis of rates at year end date as quoted on PSX, as all equity investments are made in listed securities only.

4.3 Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statement of assets and liabilities when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle on a net basis or realize the assets and settle the liabilities simultaneously.

4.4 Derivatives

Derivative instruments are initially recognized at fair value and subsequent to initial measurement each derivative instrument is remeasured to its fair value and the resultant gain or loss is recognized in the income statement.

4.5 Provisions

Provisions are recognised when the Fund has a present, legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of obligation can be made. Provisions are regularly reviewed and adjusted to reflect the current best estimate.

4.5 Issue and redemption of units

Units issued are recorded at the offer price determined by the Management Company when the Fund is open for subscription. The purchase / offer price open for subscription, shall be calculated and announced by the Management on a daily basis and be made available to the public at the office and branches of the Distributors and will also be published daily on the Management Company's and MUFAP's website.

The offer price shall be equal to the sum of:

- (i) the Net Asset Value (NAV) as of the close of the previous business day (historical pricing);
- (ii) such amount as the Management Company may consider an appropriate provision for duties and charges; and
- (iii) such sum shall be adjusted upward to the nearest paisa.

Investors can sell the units at market prices on PSX which may be above or below actual NAV of the Fund. Only the Authorized Participants can directly redeem units with the Fund in Creation Unit size or multiples thereof. Units can be redeemed on in-kind basis calculated on the basis of NAV determined on the business day prior to the day of receipt of redemption application. The Management Company at the time of announcing the NAV of the Fund, would also announce the composition of Portfolio Deposit and the Cash Component required to be exchanged against redemption of Units.

4.6 Distributions to unit holders

Distribution to the unit holders are recognised upon declaration and approval by the Board of Directors of the Management Company. Based on Mutual Funds Association of Pakistan's (MUFAP) guidelines duly consented by the SECP, distribution for the year also includes portion of income already paid on units redeemed during the year.

Distributions declared subsequent to reporting date are considered as non-adjusting events and are recognised in the financial statements of the year in which such distributions are declared and approved by the Board of Directors of the Management Company.

The rate of distribution is adjusted with effect of refund of capital, if any, based on the period of investment made during the year/period. Resultantly, the rate of distribution per unit may vary depending on the period of investment.

4.7 Element of income and capital gains / (losses) included in prices of units issued less those in units redeemed

Element of income represents the difference between net asset value (NAV) per unit on the issuance or redemption date, as the case may be, of units and the NAV per unit at the beginning of the relevant accounting period.

Under SECP circular no. SCD/AMCW/ETF/240/2020, It is clarified that due to hybrid nature of the exchange traded funds, the treatment of element of income as defined in clause (xiib) of regulation (2) of the Non-Banking Finance Companies and Notified Entities Regulations, 2008 is not applicable in case of Exchange Traded Funds. Element of Income in case of Exchange Traded Funds shall be taken to Income statement both at the time of issuance and redemption of units to the extent it pertains to Income Statement. Accordingly, as per Regulation 63 of the NBFC Regulations, 2008, Accounting Income for ETF shall also include net of element of income created at the time of issuance and income paid on redemption of units.

4.8 Revenue recognition

- Realized capital gains/ (losses) arising on sale of investments is accounted for in the year in which it arises.
- Dividend income is recognised when the right to receive dividend is established i.e. on the date of book closure of the investee company / institution declaring the dividend.
- Unrealized (loss) / gain on revaluation of investments classified as financial assets at fair value through profit or loss it included in the income statement in the year in which it arises.
- Mark-up on bank deposits is recorded on accrual basis.

4.9 Expenses

All expenses chargeable to the Fund including remuneration of the Management Company, Trustee fee and annual fee of the SECP are recognised in the income statement on an accrual basis.

4.10 Taxation

The income of the Fund is exempt from income tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of its accounting income for the year, as reduced by accumulated losses/capital gains, whether realised or unrealised, is distributed amongst the unit holders. Furthermore, for the purpose of determining distribution of at least 90% of the accounting income, the income distributed through bonus units shall not be taken into account.

The Fund is also exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001. Moreover, super tax introduced in the Finance Act, 2015 is also not applicable on funds (Section 4B of the Income Tax Ordinance, 2001).

4.11 Earnings / (loss) per unit

Earnings / (loss) per unit (EPU) is calculated by dividing the net profit / loss of the year after taxation of the Fund by the weighted average number of units outstanding during the year. EPU has not been disclosed as in the opinion of the management determination of weighted average units for calculating EPU is not practicable.

4.12 Critical accounting estimates and judgements

The preparation of these financial statements in accordance with the accounting and reporting standards as applicable in Pakistan requires the management to make estimates, judgements and assumptions that affect the reported amount of assets, liabilities, income and expenses. It also requires the management to exercise judgement in application of accounting policies. The estimates, judgements and associated assumptions are based on the historical experience and various other factors that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognised in the year in which the estimates are revised if the revision affects only that year, or in the year of revision and future years if the revision affects both current and future years.

The areas involving a higher degree of judgement or complexity, or areas where estimates and assumptions are significant to the financial statements as a whole are as follows:

23 FINANCIAL RISK MANAGEMENT

The Board of Directors of the Management Company has overall responsibility for the establishment and oversight of the Fund's risk management framework. The Board is also responsible for developing and monitoring the Fund's risk management policies.

The Fund's risk management policies are established to identify and analyze the risks faced by the Fund, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Fund's activities.

The fund preliminarily invest in a portfolio of equity securities. These Fund's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk.

23.1 Market risk

Market risk is a risk that the fair value or the future cash flows of a financial instrument may fluctuate as a result of changes in market prices.

The Management Company manages market risk by monitoring exposure on marketable securities by following the internal risk management policies and investment guidelines approved by the Investment Committee and regulations laid down by the Securities and Exchange Commission of Pakistan.

Market risk comprises of three types of risk; currency risk, interest rate risk and price risk.

23.1.1 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in foreign exchange rates. The Fund, at present, is not exposed to currency risk.

23.1.2 Interest rate risk

Interest rate risk is a risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates.

a) Cash flow interest rate risk

The Fund is exposed to cash flow interest rate risk for balances in certain savings account, the interest rates on which range between 9% to 12.5% (2025: 8% to 20%) per annum.

Yield / interest rate sensitivity position for financial instruments is based on the earlier of contractual repricing or maturity date as follows:

b) Fair value interest rate risk

23.1.3 Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer or factors affecting all similar financial instruments traded in the market.

23.2 Credit risk

Credit risk represents the risk of a loss if the counter parties fail to perform as contracted. The Fund's credit risk mainly arises from saving with banks and financial institutions and credit exposure arising as a result of dividend receivable on equity securities.

Management of credit risk

For banks and financial institutions, the Fund keeps deposits with reputed institutions. Credit risk on account of dividend receivable is minimal due to the statutory protections. All transactions in listed securities are settled / paid for upon delivery using the system of National Clearing Company of Pakistan Limited. The risk of default in these transactions is considered minimal due to inherent systematic measures taken therein. The Fund's policy is to enter into financial contracts in accordance with the investment guidelines approved by the Investment Committee, its Trust Deed and the requirements of the NBFC Rules and the regulations and the guidelines given by the SECP from time to time.

23.2.1 The analysis below summarises the credit quality of the Fund's bank balances as at June 30, 2026 and June 30, 2025.

Concentration of credit risk

Concentration of credit risk arises when a number of financial instruments or contracts are entered into with the same counterparty, or where a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. The Fund mainly deals in equity securities which are primarily subject to price risk. The Fund's portfolio of other financial assets are entered into with diverse credit worthy counterparties thereby mitigating any significant concentration of credit risk.

The Fund's major bank balance is held with one bank. Management believes that such bank is a reputed institution and a related party.

23.3 Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations arising from its financial liabilities that are settled by delivering cash or another financial asset or such obligations will have to be settled in a manner disadvantageous to the Fund.

The Fund is exposed to the daily settlement of equity securities and to daily cash redemption requests on a regular basis. Units are redeemable at the holders' option based on the Fund's net asset value per unit, at the time of redemption, calculated in accordance with the Fund's constitutive document and guidelines laid down by the SECP.

The Fund's approach to manage liquidity is to ensure, as far as possible, that the Fund will always have sufficient liquidity to meet its liabilities when due under both normal and stressed conditions without incurring unacceptable losses or risking damage to the Fund's reputation. The Fund's policy is therefore to invest the majority of its assets in investments that are traded in an active market and can be readily realised.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

24 UNIT HOLDERS' FUND RISK MANAGEMENT

The unit holders' fund is represented by the net assets attributable to unit holders / redeemable units. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Fund is subject to daily issuance and redemptions at the discretion of unit holders. These unit holders of the Fund are entitled to distributions and to payment of a proportionate share based on the Fund's net asset value per unit on the redemption date. The relevant movements are shown on the statement of movement in the unit holders' fund. Unit holders fund risk management is carried out by the Management Company through following steps:

- Monitors the level of daily issuance and redemptions relative to the liquid assets and adjusts the amount of distributions the Fund pays to the unit holders;
- Redeems and issues units in accordance with the constitutive documents of the Fund. This includes the Fund's ability to restrict redemptions; and
- The Fund Manager / Investment Committee members and the Chief Executive Officer of the Management Company critically track the movement of 'Assets under Management'. The Board of Directors is updated regarding key performance indicators, e.g. yield and movement of NAV and total Fund size at the end of each quarter.

The Fund has maintained and complied with the requirements of minimum fund size during the current year.

25 FAIR VALUE AND CATEGORIES OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets i.e. listed equity shares are based on the quoted market prices at the close of trading on the reporting date. The quoted market price used for financial assets held by the Fund is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

As per the requirements of IFRS 7 (Financial Instruments: Disclosures) and IFRS 13 (Fair Value Measurement), the Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities (level - 1)
- Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level - 2) and,
- Fair value measurements using Inputs for assets or liability that are not based on observable market data (i.e. unobservable inputs) (level - 3).

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.
