11. RISK FACTORS

Risk Associated	Description	Internal/ External Risk	Remarks
Undersubscription Risk	There is a risk that the Right Issue may get undersubscribed due to lack of interest from shareholders of the Company. Failure to secure the full PKR 159 million will directly impact on the intended investments.	External	The Right Issue is being carried out at a price which is less than the current share price in the market and hence there is no major Undersubscription Risk associated with the Right Issue. The substantial shareholders and directors of the Company have confirmed that they shall subscribe to (or arrange the subscription of) their respective right entitlements, To mitigate this risk, 100% of the Right Issue will be underwritten by an independent underwriter in accordance with the applicable laws.
Credit Risk	Credit risk is the potential for loss if a counterparty to a financial instrument fails to discharge its obligation. As an investment company, LSEFSL is exposed to credit risk primarily on its cash and bank balances. Disclosure of Past Defaults: The Company confirms that there were no material advances or other receivables that have defaulted in the past three financial years (FY2023, FY2024, FY2025). The Company manages this risk by dealing with highly-rated financial institutions and associates, and any future default could negatively impact the financial performance of LSEFSL	Internal	The Company manages credit risk by dealing only with entities having sound financial standing.
Liquidity Risk	Liquidity risk is where an entity will encounter difficulty in meeting	Internal	The Company manages liquidity risk by maintaining adequate cash reserves and ensuring the

	obligations associated with financial liabilities. Latest Outstanding Financial Obligation: As of June 30, 2025, the Company's key outstanding financial obligation primarily relates to Specify Current Liabilities such as trade and other payables amounting to PKR 24 million. Ability to Honor Obligation: The Company maintains adequate cash balances and short-term liquid investments, and the proceeds from this Right Issue are intended to bolster the capital base, ensuring the Company's ability to honor these obligations. Effect on Performance: Failure to meet obligations could result in legal action or penalties; however, no material adverse impact on LSEFSL's reputation or financial performance is anticipated.	availability of funds through stable and sufficient revenue streams. Based on the above, the management believes the liquidity risk to be insignificant.
Investment Risk	Risks associated with SPACs: The investment in SPACs is subject to the risk of the SPAC failing to complete its acquisition (de-SPAC) within the stipulated regulatory time, which could lead to losses or only the return of initial capital without any return. Risks associated with Pre-IPO/IPO/SPO: Investments in Pre-IPO, IPO and SPO opportunities are subject to market volatility, performance of the investee company, liquidity risk and valuation risk, particularly in the case of unlisted entities. There may also be a difference between the valuation at the time of investment and the market value subsequently determined upon listing. Risk of Variation in Utilization of Proceeds:	External This is inherent to LSEFSL's core business. Any material variation in the utilization of proceeds for SPACs or other categories requires prior shareholder approval. The Company seeks to mitigate these risks through appropriate due diligence, evaluation of the investee company and investment opportunity, and internal approval processes prior to making an investment.

	Should the disclosed investment in SPACs or other categories be varied, LSEFSL is required to obtain prior shareholder approval for material changes in the utilization of proceeds.		
Regulatory Risk	Changes in SECP's regulatory framework for SPACs or capital markets could render the current investment strategy obsolete. Specifically, if LSE SPACs fail to meet the prescribed IPO or de-SPAC timelines due to changing compliance standards, LSEFSL's capital could be locked or devalued.	External	Investment is contingent on a stable regulatory environment. LSEFSL stays abreast of SECP circulars to ensure the SPAC's timelines remain compliant with the law.
Business Risk	The possibility of reporting lower profits or losses due to poor selection of investee companies.	Internal	Mitigated by a steady income stream from dividends of capital market infrastructure companies, providing a "safety net" against more speculative IPO/SPO investments.
Economic Slowdown	Deterioration of macroeconomic conditions (e.g., high interest rates or inflation) reduces market multiples, directly lowering the exit valuation of Pre-IPO and SPO investments. A slowdown shrinks the "appetite" for new listings, potentially delaying exits and trapping LSEFSL's capital.	External	Managed through a long-term, diversified portfolio approach to weather temporary market cycles.

j. Additional risk factors relating to the following areas shall necessarily be disclosed in the offer document, wherever applicable:

- (a) Approvals that are yet to be received by the issuer;

No such risk is involved

- (b) Seasonality of the business;

No such risk is involved

- (c) Risk associated with orders not having been placed for plant and machinery in relation to the principal purpose of the issue;

Not Applicable

- (d) Lack of experience of the Management to run the business;

No such risk is involved

- (e) If the issuer has incurred losses in the last three financial years;

	2025	2024	2023
Net Profit	Rs. 18,186,000	Rs. 61,267,000	Rs. 1,036,000

(f) Dependence of the issuer or any of its business segments upon a single customer or a few customers

Not Applicable

(g) Loans, if any, taken by the issuer and its subsidiaries that can be recalled at any time.

Not Applicable

(h) In case of outstanding debt instruments, any default in compliance with the material covenants;

Not Applicable

(i) Default in repayment of loan by the issuer and associated group companies, if any.

Not Applicable

(j) Potential conflict of interest of the Sponsors, substantial shareholders or directors of the issuer if involved with one or more ventures which are in the same line of activity or business as that of the issuer.

Not Applicable

(k) Excessive dependence on any key managerial personnel for the project for which the issue is being made.

Not Applicable

(l) Any material investment in debt instruments by the issuer which are unsecured.

Not Applicable

(m) Pending legal Proceeding against the issuer and associated group companies, which could have material adverse comments.

Nil

(n) Negative cashflow from operating activities in the last three preceding financial years.

	2025	2024	2023
Net Cash used in operating Activities	Rs. (52,096,000)	Rs. (17,098,000)	Rs. 7,039,000

Since the main source of revenue is the return on investment, the Company's operating cash flows are negative. The risk is mitigated through regular monitoring of liquidity and cash flows, prudent management of the investment portfolio, maintenance of adequate liquid resources, and alignment of investment commitments with the Company's available funds and expected cash inflows.

(o) Any restrictive covenant that could hamper the interest of the equity shareholders.

Not Applicable

(p) Low credit rating of the Issuer.

Not Applicable

(q) Dependence of the issuer or any of its business upon a single customer or few customers, loss of any one or more may have material adverse effect on the issuer.

Not Applicable

(r) Any portion of the issue proceed that is proposed to be paid by the issuer to the sponsors, directors or key management personnel of the issuer.
