Farah Agha

Female Independent Director

Accomplished Business Strategist | Visionary Leader | Advocate for Economic Growth

Farah Agha comes from a distinguished business family with over three generations of expertise across the steel, shipbreaking and textile industries. Building on this legacy, she has forged a dynamic career spanning multiple sectors.

At the age of twenty-one, Ms. Agha founded a direct database marketing company. By twenty three, she procured, installed and successfully managed South Asia's largest open-end spinning mill. She later launched a vehicle tracking enterprise that became Pakistan's second-largest in its sector.

Expanding her reach internationally, Ms. Agha led the establishment of a real estate private equity fund in the United Arab Emirates and served as Chair of the country's largest property investment group. In this role, she collaborated with government authorities to help draft real estate sector legislation, promoting greater transparency and regulation.

Upon returning to Pakistan, she spearheaded Agha Grain Mills, a strategic food processing initiative aimed at

strengthening national food security and meeting growing consumer demand. She also founded a Western fashion line that blends innovative design with global trends.

In recognition of her leadership potential, Ms. Agha was selected by the U.S. Department of State at age twenty-eight for the International Mentoring Partnership Program, where she was mentored by Anne Mulcahy, former CEO of Xerox. During this program, she engaged with leaders including First Lady Laura Bush, Secretary of State Condoleezza Rice, and Senator Hillary Clinton. The same year, she was invited to speak at the Fortune Most Powerful Women Summit.

Her contributions to business and economic development earned her a role on the SAARC Women's Council and opportunities to represent Pakistan alongside Prime Minister Shaukat Aziz at diplomatic delegations in Shanghai and other global forums. Dedicated to supporting women entrepreneurs, Ms. Agha has led mentorship programs through the Export Promotion Bureau and was honored with a Business Excellence Award by the Sindh Government in 2007.

Most recently, she participated in the 2024 Fortune–U.S. Department of State Global Women's Mentoring Partnership Regional Gathering in Sri Lanka, fostering regional collaboration among leading women executives across South and Central Asia.

Information is considered material if omitting, misstating, or obscuring it could reasonably be expected to influence the decisions of primary users of general-purpose financial reports. The materiality assessment for this report was conducted based on the Company's specific circumstances and the information available at the reporting date.

2. GOVERNANCE

Din Textile Mills Limited's governance disclosures enable users of the financial statements to understand the governance processes, controls and procedures the Company applies to monitor, manage and oversee climate-related risks and opportunities arising from its manufacturing and others operations, including the Board's oversight role and management's responsibility for assessing and responding to these risks.

The Company's governance approach is embedded within its broader corporate governance framework, providing a structured basis for accountability and informed oversight of climate-related matters. The following sections describe the related responsibilities, capabilities, information flows, internal support and monitoring arrangements.

BOARD OVERSIGHT

STRATEGY

RISK MANAGEMENT

CAPITAL ALLOCATION

Board Oversight

The full Board directly oversees the Company's approach to sustainability and climate-related matters. This includes:

- Reviewing and approving the Company's climate-related strategy and targets.
- Monitoring the Company's exposure to climate-related risks and opportunities.
- Overseeing the integration of climate-related considerations into the Company's enterprise risk management (ERM) framework.
- Approving significant investments related to climate resilience, such as renewable energy projects and energy efficiency upgrades.

Management's Role

Management is responsible for implementing the Board-approved strategy and managing climate-related risks and opportunities on a day-to-day basis. The Chief Executive Officer (CEO) leads the management team in executing these responsibilities. The management team is also responsible for:

- Identifying, assessing, and prioritizing climate-related risks and opportunities.
- Developing and implementing action plans to mitigate risks and capitalize on opportunities.
- Monitoring and reporting progress against climate-related targets to the Board.
- Ensuring that appropriate controls and procedures are in place to support the oversight of climate-related matters.

Body Role

Board of Directors	Overall oversight of climate-related strategy, material risks and opportunities, and significant capital decisions
Audit Committee	Oversight of financial reporting integrity and related internal controls, insofar as climate-related information affects its existing remit.
CEO and management	Execution of Board direction, operational risk responses, monitoring and reporting.

Operational, technical and finance functions provide information through existing management reporting channels for escalation of significant matters to the CEO and Board.

Skills and Competencies

The Board and management team possess the necessary skills and competencies to oversee the Company's climate-related strategy. This is supported by the directors' extensive experience in the textile industry, their participation in various business and administration courses, and their exposure to international markets and industry trends. The Company actively develops its human capital through training and development programs to ensure the workforce is competent in addressing business needs linked to external forces and customer requirements.

3. STRATEGY

DTML's strategic approach integrates climate-related risks and opportunities into its business model, recognizing that the long-term viability of the textile industry is inextricably linked to environmental sustainability. The Company's vision is to transform into a complete textile unit that explores international markets for high-value products, with an emphasis on product and market diversification, value addition, and cost effectiveness. The Company considers physical risks, transition risks and related opportunities. Time horizons applied: short-term (1-3 years), medium-term (3-5 years) and long-term (beyond 5 years), aligned with strategic and capital-planning cycles.

Effects on the Business Model and Value Chain

The Company's value chain extends from raw material sourcing (cotton, man-made fibers) to its manufacturing operations (spinning, weaving, dyeing, stitching) and finally to its customers in local and international markets. Climate-related risks are concentrated in its operational facilities (due to energy and water use) and in its upstream supply chain (due to climate sensitivity of raw materials). The Company's strategic responses, such as renewable energy projects and sustainable sourcing initiatives, are aimed at building resilience across its value chain. The Company's manufacturing facilities are located in Pattoki and Raiwind, Punjab, and its products include a range of value-added yarns, greige fabric, and bed sheets.

Material Climate-Related Risks and Opportunities

In identifying climate-related risks and opportunities, the Company has considered its dependencies on natural resources (such as water and cotton), its energy-intensive operations, and its exposure to evolving regulatory landscapes and market expectations. The following key climate-related risks and opportunities have been identified:

Risk / Opportunity	Category	Time Horizon	Business relevance	Strategic response
Rising energy costs & supply insecurity	Transition Risk	Short-term	Energy-intensive manufacturing exposes cost structure and competitiveness to tariff volatility and unreliable supply.	Renewable energy, energy efficiency and greater resource independence.
Carbon pricing & regulatory compliance	Transition Risk	Medium-term	Evolving carbon regulation and mechanisms such as CBAM could increase costs and affect export competitiveness.	Monitor regulation, improve emissions performance and strengthen compliance readiness.
Changing consumer preferences	Transition Risk	Medium-term	International buyers increasingly demand sustainably sourced and produced textile products.	Certified sustainable yarns, traceability and lower-carbon product development.
Water scarcity & water stress	Physical Risk	Long term	Dyeing and processing operations depend on reliable water availability.	Water efficiency, wastewater treatment, recycling and conservation.
Cotton supply disruption	Physical Risk	Long term	Droughts, floods and unpredictable weather can reduce availability and increase raw-material prices.	Supply-chain resilience, sustainable sourcing and diversification.
Renewable energy & energy efficiency	Opportunity	Medium-term	Potential to reduce operating costs, carbon footprint and exposure to domestic energy tariffs.	Expand solar, waste heat recovery and energy-efficient machinery.
Sustainable product innovation	Opportunity	Long term	Certified sustainable yarns, recycled fibre and low-carbon products can support customer retention and differentiation.	Develop sustainable product lines and strengthen certifications.
Access to sustainable finance	Opportunity	Short-term	Strong ESG practices can improve access to green and sustainability-linked financing.	Strengthen disclosures, metrics and sustainability governance.

Financial Planning and Resilience

The Company's financial planning processes are progressively incorporating climate-related considerations. Capital expenditure is being directed towards renewable energy, wastewater treatment, and energy-efficient machinery. The Company's strategy is designed to be resilient to a range of climate-related scenarios. By investing in operational efficiency and resource independence, DTML aims to mitigate the financial impact of transition and physical risks while positioning itself to capture new market opportunities. The Company continues to evaluate opportunities for further reduction of carbon emissions through clean energy projects, process optimization, and improved energy management practices.

4. RISK MANAGEMENT

DTML has integrated the identification, assessment, and management of climate-related risks and opportunities into its overall enterprise risk management (ERM) framework. This ensures that climate-related matters are considered alongside other business, operational, and financial risks.

Processes for Identifying and Assessing Risks

The Company's risk management process involves:

- **Identification:** A thorough assessment of internal and external risks, including climate-related factors such as extreme weather events, water scarcity, energy price volatility, and regulatory changes.
- **Assessment:** Risks are assessed based on their likelihood and potential impact on the Company's operations, financial performance, and strategic objectives. This includes both qualitative and quantitative considerations.
- **Prioritization:** Identified risks are prioritized based on their severity and relevance to the Company's business.
- **Monitoring:** The Board and management continuously monitor the identified risks and the effectiveness of mitigation strategies. The risk management framework is reviewed regularly to ensure its effectiveness.

Processes for Identifying and Assessing Opportunities

The Company also proactively identifies climate-related opportunities, such as investing in renewable energy, developing sustainable products, and accessing green finance. These opportunities are assessed based on their potential to create long-term value and enhance the Company's competitive position.

Integration with Overall Risk Management

The risk management framework for climate-related matters is not a standalone process but is fully integrated into the Company's ERM framework. This integration ensures that climate considerations are embedded in strategic decision-making, operational planning, and capital allocation processes across the organization.

5. METRICS AND TARGETS

Baseline Metrics (FY 2026)

12.6 MW Approx. installed solar capacity	120 m ³ /day Wastewater treatment plant capacity	IFRS S2 Climate-related disclosure focus	13 Sustainability certifications / programs
--	---	--	---

In this first year of reporting under IFRS S2, the Company has focused on establishing a baseline for its climate-related performance and setting qualitative targets to guide its future actions. The Company uses the following metrics to measure and monitor its performance in relation to climate-related risks and opportunities:

Greenhouse Gas (GHG) Emissions

The Company is committed to reducing its carbon footprint. Through monitoring and strategic changes in operations, it has significantly lowered its CO₂ emissions. The Company's sustainability model includes targets for CO₂ emissions reduction, addressing greenhouse effects, and harnessing green energy. While quantitative data is still being developed, the Company's initiatives in this area include:

- **Solar Projects:** The Company has developed solar power projects with an approximate installed capacity of 12.6 MW, reducing reliance on conventional electricity and contributing to GHG emission reduction.
- **Waste Heat Recovery:** The Company has installed Waste Heat Recovery Boilers (WHRBs) at power generators to recover thermal energy for steam generation, improving energy efficiency and reducing fuel requirements.
- **Energy Efficiency:** The Company continues to invest in energy-efficient machinery and technologies to optimize energy consumption across its operations.

Water Management

Sustainable water management is a top priority. The Company has implemented water-saving technologies and processes to minimize water waste.

- **Wastewater Treatment:** DTML operates a 120 m³/day wastewater treatment plant (ETP) equipped with chemical and biological treatment processes. This plant ensures that wastewater is treated in accordance with National Environmental Quality Standards (NEQS) and relevant ZDHC requirements before discharge.
- **Water Recycling:** The Company is investing in water recycling processes to promote sustainability, significantly reduce its environmental footprint, and enhance resource recovery.

Waste Management and Recycling

The Company has established practices for the proper segregation, handling, and recycling of waste. Textile waste recycling is a key component of its resource-efficiency and circularity initiatives, aiming to minimize waste sent for disposal.

Sustainable Sourcing & Certifications

DTML maintains a comprehensive range of internationally recognized certifications and participates in sustainability programs, which serve as metrics for its commitment to responsible sourcing and production. These include:

ISO 9001 (Quality Management)

ISO 14001 (Environmental Management)

GOTS (Global Organic Textile Standard)

OCS (Organic Content Standard)

GRS (Global Recycled Standard)

RCS (Recycled Claim Standard)

Regenagri

BCI / Better Cotton

Higg FEM (Facility Environmental Module)

Higg FSLM (Facility Social & Labor Module)

OEKO-TEX® Standard 100

ZDHC (Zero Discharge of Hazardous Chemicals)

Textile Genesis (Supply Chain Traceability)

Targets

The Company has set the following qualitative and directional targets to guide its climate action:

CO₂ Emissions Reduction

Continuously reduce carbon footprint through monitoring, operational efficiency, and renewable energy adoption.

Renewable Energy

Expand renewable energy utilization and improve the share of clean energy in its overall energy mix.

Water Management

Improve water-use efficiency and minimize water losses through conservation and wastewater treatment.

Waste Management

Increase recycling and resource recovery to minimize waste generation.

Sustainable Sourcing

Maintain and strengthen credible sustainable sourcing frameworks, including the use of certified cotton and traceable supply chains.

CODE OF ETHICS

STATEMENT OF ETHICS AND BUSINESS PRACTICES For the year ended June 30, 2026

Policy Statement

MESSAGE FROM CHAIRMAN

It gives me great pleasure to present the Annual Report of Din Textile Mills Limited for the year ended June 30, 2026. The year under review represented a period of recovery and measured progress for your Company. Pakistan's textile industry continued to operate in a challenging environment characterised by elevated energy costs, intense regional competition, volatility in raw material prices, and evolving conditions in international markets. At the same time, the easing of monetary conditions provided some relief from the exceptionally high financing costs that had weighed heavily on the industry in preceding years.

Against this backdrop, I am pleased that Din Textile returned to profitability during the year. The Company recorded net sales of approximately Rs. 33.09 billion and gross profit of approximately Rs. 4.16 billion. The improvement in operating performance, together with a meaningful reduction in finance cost, enabled the Company to report profit after tax of approximately Rs. 103.55 million, compared with a loss of Rs. 706.50 million in the preceding year. Earnings per share consequently improved to Rs. 1.97. While these results are encouraging, I recognise that sustainable performance requires much more than recovery in a single financial year. Our focus remains on strengthening the underlying competitiveness of the business through operational efficiency, disciplined financial management, responsible investment and the development of a broader value added product portfolio.

Energy continues to be one of the most significant structural costs for textile manufacturers in Pakistan and accordingly remains an important area of strategic focus for the Company. During the year, we made further progress in reducing our exposure to conventional energy sources by expanding our operational solar generation capacity by 3.2 MW to 11.2 MW. Subsequent to the year end, the remaining planned expansion was successfully completed and operationalised, taking the Company's total operational solar capacity to 12.6 MW. This represents an important step in our continuing efforts to improve energy efficiency, strengthen cost competitiveness and conduct our operations on a more sustainable basis.

Our strategic direction continues to evolve with the changing textile landscape. Greater emphasis is being placed on value added products, resource efficiency, customer relationships and the effective utilisation of our manufacturing capabilities. Sustainability is increasingly interconnected with commercial competitiveness, as customers and international markets expect manufacturers to demonstrate responsible use of resources, greater energy efficiency and sound environmental and social practices. Our investment in renewable energy and our continuing focus on efficient production therefore represent both responsible business practices and commercially important initiatives. We believe that these areas provide a stronger foundation for sustainable growth and will enable Din Textile to respond more effectively to changing customer preferences and international market requirements.

Looking ahead, the operating environment is expected to remain competitive and subject to uncertainties arising from global economic conditions, energy costs, cotton availability and prices, exchange rate movements and international trade dynamics. We will continue to approach these challenges with financial discipline and operational prudence while pursuing opportunities that can strengthen margins and improve the quality of earnings. Our objective is not merely to preserve the progress achieved during the year, but to build upon it by strengthening the resilience of the business and positioning Din Textile for sustainable growth over the longer term.

The progress achieved during the year would not have been possible without the dedication of our people. I would like to express my sincere appreciation to the management team and all employees of Din Textile Mills Limited for their commitment, resilience and contribution throughout the year. I am equally grateful to my fellow Directors for their guidance and valuable contribution to the Board. On behalf of the Board, I also extend our sincere thanks to our shareholders, customers, suppliers, financial institutions, business partners and other stakeholders for their continued confidence and support. As we move forward, we remain committed to building upon the progress achieved during the year and to strengthening Din Textile through responsible growth, sound governance and disciplined execution.

Shaikh Muhammad Jawed
Chairman Board of Directors

CHAIRMAN'S REVIEW

As Chairman of the Board of Directors of Din Textile Mills Limited, I am pleased to present my review of the overall performance of the Board and the effectiveness of its role in achieving the objectives of the Company for the year ended June 30, 2026.

The year under review was one of consolidation and recovery. Following a difficult preceding year, the Board directed its attention to restoring profitability, strengthening financial discipline, improving operational efficiency and positioning the Company for sustainable growth. The Board remained actively engaged in providing strategic direction, monitoring performance, overseeing principal risks and safeguarding the long term interests of the Company and its stakeholders.

Economic and Industry Environment

The textile industry continued to operate under challenging conditions during the year. Domestic manufacturers remained exposed to elevated energy costs, volatility in cotton and other raw material prices, exchange rate movements and intense competition from regional textile producing countries, while international demand remained sensitive to broader economic and geopolitical developments. At the same time, moderation in domestic interest rates provided relief to businesses with substantial working capital and financing requirements. This development was particularly relevant for the textile industry, where the cost of financing had become a major constraint on profitability during the preceding periods. Within this environment, the Board remained focused on factors within the Company's control and encouraged management to maintain financial discipline, improve manufacturing efficiencies, optimise working capital, strengthen customer relationships and pursue initiatives capable of improving the Company's long term cost structure.

Financial Performance

The Company's financial performance improved during the year and marked a return to profitability. Net sales for the year amounted to approximately Rs. 33.09 billion, while gross profit increased to approximately Rs. 4.16 billion compared with Rs. 3.74 billion in the preceding year, notwithstanding the lower revenue base. This resulted in an improvement in gross margin and reflects better operating economics during the year. A significant improvement was also recorded in financing costs, with finance cost declining to approximately Rs. 2.11 billion from Rs. 3.04 billion in the preceding year. The reduction in financing burden, together with improvement in underlying operating performance, contributed materially towards the Company's return to profitability. The Company consequently recorded profit before levies and taxation of approximately Rs. 1,058.36 million compared with a loss before levies and taxation of Rs. 230.57 million in the preceding year. Profit after tax amounted to approximately Rs. 103.55 million compared with a loss after tax of Rs. 706.50 million in the previous year, while earnings per share improved from a loss per share of Rs. 13.47 to earnings per share of Rs. 1.97. Total

comprehensive income for the year amounted to approximately Rs. 110.56 million, including the impact of remeasurement of staff retirement benefits. The Board considers the return to profitability a positive development; nevertheless, it recognises that sustainable financial performance requires continued attention to operating margins, financing requirements, working capital efficiency and the quality of earnings.

Strategic Direction and Operational Efficiency

The Board continued to provide direction on the Company's strategic priorities and regularly reviewed management's progress against operational and financial objectives. The strategic focus remained centred on strengthening the Company's competitive position through improved operational efficiency, responsible capital allocation, value added operations, better utilisation of manufacturing capabilities and measures aimed at reducing structural operating costs. Energy cost remains one of the most significant challenges confronting the textile industry in Pakistan and the Board therefore continued to support the Company's transition towards renewable energy as an important component of its cost efficiency and sustainability strategy.

During FY 2026, the Company increased its operational solar capacity by 3.2 MW, bringing total operational solar capacity to 11.2 MW. The expansion represented tangible progress towards reducing dependence on conventional energy sources and improving the resilience of the Company's energy mix. Subsequent to the year end, the Company successfully completed and operationalised the remaining planned solar expansion and, as disclosed to the Pakistan Stock Exchange on August 21, 2026, total operational solar capacity consequently increased further to 12.6 MW. The progressive investment in renewable energy reflects a broader approach towards improving the economics of the business through cost efficiency, responsible investment and greater operational resilience.

Value Added Operations and Business Development

The Board continued to encourage the development of value added textile operations as part of the Company's longer term strategy, recognising that the textile industry is increasingly influenced by changing customer requirements, shorter product cycles, sustainability considerations and greater demand for integrated manufacturing capabilities. Against this backdrop, increasing participation in value added products provides an opportunity to diversify the Company's earnings base, strengthen customer relationships and capture a greater proportion of the textile value chain. The Board therefore continued to support management's efforts towards improving product mix, developing market opportunities and strengthening the Company's ability to respond to evolving customer requirements, while investment and expansion decisions continue to be assessed with due consideration to expected returns, market conditions, financing implications and their contribution to the Company's strategic objectives.

Financial Stewardship and Capital Management

The Board maintained close oversight of the Company's financing structure, liquidity, working capital requirements and capital expenditure throughout the year. The experience of recent years has reinforced the importance of maintaining an appropriate balance between growth and financial resilience, and management therefore continued to focus on efficient working capital management, rationalisation of financing costs and appropriate deployment of financial resources. The Board regularly reviewed the Company's financial position and financing requirements and remained conscious of the need to manage borrowings prudently. Although the reduction in financing costs during the year provided meaningful relief to profitability, maintaining financial discipline remains an important priority. Capital expenditure proposals continued to be evaluated in the context of strategic relevance, operational necessity, expected financial returns and their impact on the Company's overall financing position, with particular emphasis on investments capable of improving operating efficiency, reducing structural costs and strengthening the Company's competitive position.

Risk Management

The Board recognises that effective risk management is essential to the long term sustainability of the Company. During the year, the Board and its committees continued to oversee the principal risks affecting the business, including volatility in cotton and other raw material prices, availability and cost of energy, exchange rate movements, interest rates, customer credit risk, financing and liquidity requirements, competition in domestic and international markets, taxation and regulatory changes, geopolitical uncertainty and disruptions to international trade. The Board continued to encourage management to identify emerging risks at an early stage and incorporate risk considerations into strategic and operational decision making. Particular attention continued to be given to energy related risks, and the progressive expansion of the Company's solar generation capacity represents one of the measures undertaken to reduce exposure to conventional energy costs and improve the resilience of manufacturing operations.

Sustainability and Responsible Business

The Board recognises that sustainability considerations have become increasingly important to the long term competitiveness of textile manufacturers. International customers and markets continue to place greater emphasis on responsible sourcing, energy efficiency, resource conservation, environmental performance, workplace practices and transparency throughout the textile supply chain. The Company's continuing investment in renewable energy represents one of the most tangible components of its sustainability strategy. During the year, operational solar generation capacity increased to 11.2 MW, while completion of the planned expansion subsequent to the reporting date increased total operational capacity to 12.6 MW. The Board's approach is to integrate sustainability considerations into commercial and investment decisions rather than treating sustainability as an activity separate from the core business. Renewable energy, efficient utilisation of resources, responsible production practices, workplace safety and development of human capital therefore remain important components of the Company's approach to long term value creation.

Corporate Governance, Board Oversight and Evaluation

The Board remained committed to maintaining an effective governance framework and promoting accountability, transparency and responsible decision making throughout the Company. There was no change in the composition of the Board during the year. The Board continued to benefit from an appropriate combination of executive, non executive and independent representation, including female representation, bringing together relevant industry knowledge, commercial experience, financial expertise and independent judgement. The Board remained actively involved in matters requiring its consideration and received financial, operational and strategic information to support informed decision making. Significant matters were deliberated with due consideration to their commercial, financial, regulatory and risk implications, while the governance arrangements continued to provide an appropriate distinction between the oversight responsibilities of the Board and the executive responsibilities of management.

The Audit Committee continued to assist the Board in its oversight of financial reporting, internal and external audit, internal controls and related party transactions, while the Human Resource and Remuneration Committee continued to support the Board in matters falling within its terms of reference relating to human resource policies, organisational development and remuneration. The Board also continued to maintain a mechanism for annual evaluation of its performance in accordance with the applicable corporate governance framework. The evaluation process considers the effectiveness with which the Board performs its principal responsibilities and includes matters relating to Board composition and quality, Board functions, financial performance, statutory obligations, corporate governance, risk management, human resource management, research and development and business expansion. These areas are consistent with the evaluation framework historically applied by the Company.

During the year, the Board continued to provide oversight and direction on matters fundamental to the achievement of the Company's objectives, including financial performance, business strategy, working capital and financing, capital allocation, operational efficiency, renewable energy, risk management, governance and development of value added operations. The Board also continued to review the activities and recommendations of its committees and remained engaged with management on matters requiring strategic guidance or corrective action. Based on the annual evaluation and the manner in which the Board discharged its responsibilities during the year, I am satisfied that the Board performed its role effectively and remained appropriately engaged in the governance, strategic direction and oversight of the Company.

Effectiveness of the Board in Achieving the Company's Objectives

The Board's effectiveness is ultimately reflected in its ability to provide direction, exercise appropriate oversight and ensure that management remains focused on the Company's strategic and financial objectives. During the year, the Board's contribution was principally directed towards supporting the restoration of profitability, improving operating efficiency, strengthening financial discipline and positioning the Company for sustainable improvement. The return to profitability represents an encouraging development following the loss recorded in the preceding year. At the same time, the Board recognises that financial recovery must be supported by continued improvement in the underlying fundamentals of the business.

The increase in operational solar capacity during the year demonstrates tangible progress against the Company's objective of improving energy efficiency and reducing exposure to conventional energy costs, while the further increase following completion of the planned expansion subsequent to year end reinforces this strategic direction. The Board also continued to support development of value added operations and initiatives aimed at improving production efficiency and product mix. Collectively, these measures reflect the Board's focus on strengthening the resilience and competitiveness of the Company rather than relying solely on changes in external economic conditions.

The Board remains conscious that its responsibility extends beyond short term financial performance. Its continuing objective is to maintain an appropriate balance between growth, profitability, financial prudence, risk management, sustainability and sound corporate governance in the long term interests of the Company and its stakeholders. The Board is satisfied that the strategic direction set during the year provides a sound foundation for future performance and remains committed to discharging its oversight responsibilities with diligence and independence.

Future Outlook

The outlook for the textile sector continues to present both opportunities and challenges. Improvement in financing conditions provides some support to the industry, while Pakistan's established textile manufacturing base continues to provide opportunities in international markets. Nevertheless, the industry remains exposed to intense regional competition, energy costs, cotton availability and prices, exchange rate movements, changes in taxation and regulation and uncertainty in global demand. Against this background, the Board believes that the appropriate course for Din Textile is to remain focused on areas where sustainable competitive advantages can be developed. The Company will therefore continue to emphasise operating efficiency, disciplined working capital management, prudent financing, energy efficiency, development of value added products, customer relationships and improved utilisation of its manufacturing capabilities.

The completion of the planned solar expansion after the year end, taking operational solar capacity to 12.6 MW, represents further progress towards establishing a more efficient and resilient energy platform. The Board will continue to assess additional opportunities for efficiency improvements and renewable energy where they are commercially justified. Future investment decisions will continue to be evaluated carefully against expected returns, market conditions, financing requirements and their contribution to the Company's long term strategic

objectives. The Board believes that the progress achieved during the year provides a foundation upon which further improvement can be pursued. The priority ahead is to consolidate this progress through disciplined execution and to translate operational improvements into sustainable financial performance and long term shareholder value.

Acknowledgement

On behalf of the Board of Directors, I would like to express my sincere appreciation to the management and employees of Din Textile Mills Limited for their commitment, professionalism and contribution during the year. Their efforts have been instrumental in navigating a demanding operating environment and in restoring the Company to profitability. I would also like to acknowledge the contribution of my fellow Directors for their valuable guidance, constructive deliberations and continued commitment to the affairs of the Company. We remain grateful to our customers for their continued trust in our products, to our suppliers and business partners for their cooperation, and to our financial institutions for their continued support. Finally, I thank our shareholders for the confidence they continue to place in the Board and management of Din Textile Mills Limited. The Board remains committed to responsible stewardship of the Company and to pursuing sustainable growth through sound governance, financial discipline and strategic clarity.

On behalf of the Board
Shaikh Muhammad Jawed

DIRECTORS' R E P O R T

Directors' Report to the Members

The Directors are delighted to present their Thirty-Ninth Annual Report together with the audited Financial Statements and the Auditors' Report thereon of Din Textile Mills Limited for the year ended June 30, 2026. This report has been prepared in accordance with section 227 of the Companies Act, 2017 and Listed Companies (Code of Corporate Governance) Regulations, 2019.

Overview

Din Textile Mills Limited manufactures and sells yarn, fabric and bedding products. Its manufacturing facilities are located at Pattoki and Raiwind in Punjab. During the year, the Company remained focused on improving manufacturing efficiency, managing working capital and reducing the cost of borrowings while serving its domestic and export customers. The nature of the Company's principal business remained unchanged during the year.

Economic and Industry Review

The textile industry operated in a demanding environment during the year. Regional conflicts and changes in global trade conditions affected freight, insurance and input costs. Domestic manufacturers also faced high energy tariffs, taxation pressures and strong competition from imported yarn. Although the domestic economy showed signs of greater stability, the operating environment continued to require careful cost control and disciplined management of cash flows. Cotton availability and pricing remained important determinants of manufacturing cost. The industry continued to rely on imported cotton to supplement domestic supply, exposing textile manufacturers to movements in international prices, exchange rates and logistics costs. Against this background, the Company concentrated on procurement discipline, production efficiency, product mix and energy management.

Financial Results

The Company returned to profitability in 2026. Net sales were lower than the previous year, but a better gross margin and a substantial reduction in finance cost enabled the Company to report profit after taxation of Rs. 103.6 million compared with a loss of Rs. 706.5 million in 2025.

Operational Performance

We are pleased to report that, despite a decline in net sales by Rs. 7.03 billion to Rs. 33.09 billion, the Company delivered a marked improvement in operating performance during the year. Gross profit increased by Rs. 416.9 million to Rs. 4.16 billion, while the gross profit margin improved to 12.57 percent from 9.33 percent in the previous year, reflecting better recovery of manufacturing costs and improved operational efficiency despite the lower sales base. Distribution cost declined by 2.87 percent and administrative expenses remained broadly stable, although other operating expenses increased to Rs. 166.8 million from Rs. 36.7 million. Finance cost decreased substantially by Rs. 932.0 million to Rs. 2.11 billion, mainly due to lower borrowings and improved financing conditions, while other income increased to Rs. 246.1 million. As a result, the Company recorded profit before levies and taxation of Rs. 1,058 million compared with a loss of Rs. 230.6 million in the previous year. After accounting for levies of Rs. 439.4 million and taxation of Rs. 515.4 million, the Company achieved profit after taxation of Rs. 103.6 million compared with a loss of Rs. 706.5 million in 2025. Earnings per share accordingly improved to Rs. 1.97 from loss per share of Rs. 13.47 in the previous year.

Chairman's Review

The Directors of the Company endorse the contents of the Chairman's review, which provides a comprehensive analysis of business operations, the market outlook, and strategic investment plans for future growth. This review is annexed to this report.

Dividend

Although the Company returned to profitability during the year, the Board considers it prudent to retain the available funds to support working capital requirements, meet financing obligations and preserve liquidity in view of the continuing uncertainties in the textile industry. Accordingly, the Board of Directors has not recommended any dividend for the year ended June 30, 2026 (2025: Nil). The Board remains committed to reviewing the Company's dividend position in light of future profitability, cash flows, capital requirements and overall financial position.

Cash Flow Management

During the year, management focused on translating operational improvements into stronger cash flows and a more balanced financial position. Disciplined working capital management, careful resource allocation, and regular liquidity monitoring enabled the Company to generate Rs. 6.38 billion in cash from operations. After deducting finance costs, taxes, and retirement benefits, net cash from operating activities rose significantly to Rs. 3.60 billion, up from Rs. 788.4 million in 2025. This strengthened cash position allowed the Company to fund capital expenditure of Rs. 766.6 million while reducing its reliance on borrowed funds. Proceeds from the disposal of property, plant and equipment amounted to Rs. 664.5 million, bringing net cash used in investing activities to Rs. 228.4 million.

Management also continued to rationalise the Company's financing structure and contain borrowing costs. Long term financing decreased by Rs. 912.2 million, while short term borrowings were reduced by Rs. 2.91 billion, resulting in net cash used in financing activities of Rs. 3.82 billion. Cash and bank balances stood at Rs. 428.9 million at year end, while the current ratio, improved to approximately 1.01 times from 0.98 times in the previous year. The Board will continue to closely oversee liquidity, borrowing maturities, working capital requirements and finance cost to maintain financial stability and support the Company's operational requirements.

Principal Risks and Uncertainty

The Board oversees the Company's principal risks through its governance and internal control framework. Management reviews the likelihood and potential effect of material risks and reports significant matters to the Board and its committees. The principal risks include the following:

- Cotton supply and price risk arising from weather conditions, domestic crop availability and dependence on imported cotton.
- Energy cost and availability risk, including changes in electricity and gas tariffs and interruptions in supply.
- Finance and liquidity risk arising from borrowing levels, interest rates, refinancing requirements and working capital needs.
- Customer credit risk, particularly in relation to domestic trade receivables.

- Pressure on export sales due to geopolitical tensions and decreased demand due to the global recessionary impact, leading to reduced demand of textile products.
- Regulatory and taxation risk, including changes in export schemes, sales tax, income tax, levies and refund procedures.
- Operational, technology and cyber risk, including plant disruption, system failure, data loss and unauthorised access.
- Climate and environmental risk, including water availability, extreme weather, emissions requirements and changing buyer expectations.

Risk Management

The Company manages these risks through approved policies, delegated authority limits, insurance arrangements, credit controls, cash flow forecasts, inventory planning, preventive maintenance and regular management reporting. Internal Audit follows a risk based plan and reports its findings to the Audit Committee. The Board reviews the effectiveness of the risk management and internal control arrangements and requires corrective action where necessary.

Future Outlook

The Company enters the new financial year with improved operating cash generation and lower borrowings, although demand, energy cost, cotton prices, taxation and regional trade disruptions remain important uncertainties. Management will continue to protect margins through disciplined procurement, improved capacity utilisation, careful product selection and tighter working capital management. The Company will also continue to assess investments in efficient machinery, renewable energy and value added operations where the expected returns support the capital commitment. The timing and scale of investment will remain subject to market demand, financing capacity and the Company's liquidity position.

Transactions With Related Parties

Related party transactions are carried out on commercial terms and the details thereof are placed periodically before the Board Audit Committee for review and recommendation to the Board for approval. Any interest in related party transactions by the members of the Board is disclosed to the Company. The details of related party transactions are disclosed in notes to the Company's financial statements for the year ended June 30, 2026.

Directors' Training Program

The Directors on the Board are well aware of their duties and responsibilities, in compliance with the CCG Regulations, 2019. All our Directors, including the Chief Executive Officer, are either certificated under the Directors' Training Program or have exemption from the Directors' Training Program based on their experience. The Board is kept up-to-date on legal, regulatory, and governance matters through regular papers and briefings from the Company Secretary, and presentations by internal and external advisors. Directors are responsible for upholding Corporate Governance and giving the Company a strategic direction. Your Company ensures that the entire Board is aligned with the Organization's Mission and Corporate Governance.

Repayments of Debts / Loans

The Company has implemented an effective cash flow management strategy, under which inflows and outflows are regularly projected and closely monitored. This comprehensive approach enables the Company to ensure the timely settlement of its financial obligations and maintain resilience in the face of evolving financial challenges. In line with this strategy, Management continues to make consistent efforts to optimize borrowing costs through the maintenance of a well balanced funding portfolio and the execution of efficient financing arrangements. The Company has a strong track record of meeting its obligations on time, with no history of default on debt payments, including during the current year.

Adequacy of Internal Financial Control

Din Textile has an independent Internal Audit Function that forms an integral and effective part of the Company's

corporate governance framework. The Internal Audit Function provides management with reasonable assurance that internal controls are operating effectively and as intended. It also identifies opportunities to improve the efficiency and cost-effectiveness of controls, highlights weaknesses in existing systems and processes, and recommends appropriate corrective actions to strengthen the overall control environment.

The Audit Committee reviews the quarterly, half yearly and annual statements before submission to the Board and their publication. CFO, Head of Internal Audit and External Auditors attend the meetings where issues relating to accounts and audit are discussed. The Audit Committee also reviews internal audit findings and holds separate meetings with Internal Audit and External Audit as required under the Code of Corporate Governance. The Audit Committee also met with the External Auditors in the absence of the CFO and the Head of Internal Audit. Related Party Transactions are also placed before the Audit Committee prior to the approval of Board.

**Independent Auditor's Review Report to the members of
Din Textile Mills Limited on the Statement of Compliance contained in
Listed Companies (Code of Corporate Governance) Regulations, 2019**

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of **Din Textile Mills Limited** (the Company) for the year ended June, 30 2026 in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended June, 30 2026.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF DIN TEXTILE MILLS LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the annexed financial statements of **Din Textile Mills Limited** (the Company), which comprise the statement of financial position as at June 30, 2026, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of material accounting policy information and other explanatory information and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at June 30, 2026 and of the income and other comprehensive income, the changes in equity, and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the Key audit matters:

S. No	Key audit matters:	How the matter was addressed in our audit
01	Borrowings (Refer to note 22 and 28 of the financial statements) The Company has significant amounts of borrowings from Banks amounting to Rs. 18,163 million, being 79.63% of total liabilities, as at reporting date. Given the significant level of borrowings, finance costs, significant gearing, the disclosure given by the management in financial statements and compliance with various loan covenants, this is considered to be a key audit matter.	Our audit procedures include the following: • Review of loan agreements and facility letters to ascertain the terms and conditions of repayment, rates of markup used and disclosed by management for finance costs and to ensure that the borrowings have been approved at appropriate levels. • Verification of disbursement of loans and utilization on sample basis. Review of documents for charge registration with regulator - SECP • Verification of repayments made by the Company during the year on sample basis to confirm that repayments are being made on time and no default has been made. • Assessing procedures designed by management to comply with the debt covenants and performing covenant tests on sample basis. • Obtaining direct confirmations from Banks of the Company to confirm balances, terms & conditions stated in the facility offer letters and compliance thereof. • Performing analytical procedures, recalculations and other related procedures for verification of finance costs • Ensuring that the outstanding liabilities have been properly classified and related securities and other terms are adequately disclosed in the financial statements

S. No	Key audit matters:	How the matter was addressed in our audit
02	Sales (Refer note 30 to the financial statements) The Company's principal activities comprise the manufacturing and sale of yarn, fabric, dyeing, and related stitching products. Revenue is recognized at a point in time when control transfers to the customer pursuant to underlying contractual terms generally upon the issuance of delivery challans or shipment, in accordance with IFRS 15. We identified recognition of revenue amounting to Rs. 33,089 million of the Company as a key audit matter because revenue is one of the key performance indicators and gives rise to an inherent risk that revenue could be subject to misstatement to meet expectations or targets. The Company's material accounting policy information on revenue recognition is disclosed in note 4.21 to the financial statements.	We performed a range of audit procedures in relation to revenue including the following: • We obtained an understanding of the process relating to recognition of revenue and testing the design, implementation and operating effectiveness of key internal controls over recording of revenue; • Assessing whether the accounting policies for revenue recognition complies with the requirements of IFRS 15 'Revenue from Contracts with Customers' • We compared a sample of revenue transactions recorded during the year with sales orders, sales invoices, delivery documents and other relevant underlying documents; • We performed analytical review procedures and other test of details over various revenue streams including the cut-off procedures to check that revenue has been recognized in the appropriate accounting period; • We assessed the adequacy of the disclosures as per the guidelines set out in the applicable financial reporting requirements.

Emphasis of Matter

We draw attention to Note 51 to the financial statements, which describes that Production Unit DTM-04 was closed pursuant to a decision of the Board of Directors on September 24, 2025, and has remained closed as at the reporting date, June 30, 2026, without resuming commercial production. As described in the note, management has assessed the recoverable amount of the assets relating to the Unit and has concluded that no impairment loss is required to be recognized. Our opinion is not modified in respect of this matter.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit

evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);

- b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- d) no zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

2 BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) and Islamic Financial Accounting Standards (IFASs) issued by Institute of Chartered Accountant of Pakistan as notified under the Companies Act, 2017 and Provisions of and directives issued under the Companies Act, 2017.
- Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS or IFASs, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 Functional and presentation currency

These financial statements are presented in Pak Rupees, which is the Company's functional and presentation currency and figures are rounded to the nearest rupee.

2.3 Changes in accounting standards, interpretations and pronouncements

2.3.1 Standards, interpretations and amendments to published approved accounting standards that are effective in the current year and are relevant:

The following standards, amendments and interpretations are effective for the year ended June 30, 2026. These standards, amendments and interpretations are either not relevant to the Company's operations or are not expected to have significant impact on the Company's financial statements other than certain additional disclosures.

- Amendments to IAS 1 'Presentation of Financial Statements' and IFRS practice statement 2 - Disclosure of accounting policies
- Amendments to IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' - Definition of accounting estimates
- Amendments to 'IAS 12 Income Taxes' - deferred tax related to assets and liabilities arising from a

single transaction. Amendments to IAS 37 'Provisions, Contingent Liabilities and Contingent Assets' - Onerous Contracts – cost of fulfilling a contract

- Amendments to IAS 12 'Income taxes' - International Tax Reform – Pillar Two Model Rules

2.3.2 New accounting standards, amendments and IFRS interpretations that are not yet effective

The following standards, amendments and interpretations are only effective for accounting periods, beginning on or after the date mentioned against each of them. These standards, interpretations and the amendments are either not relevant to the Company's operations or are not expected to have significant impact on the Company's financial statements other than certain additional disclosures.

	Effective from accounting period beginning on or after:

• Amendment to IAS 21 - Translation to a Hyperinflationary Presentation Currency	July 01, 2027
• Amendment to IFRS 07 and IFRS 09	July 01, 2026

Other than the aforesaid amendments, IASB has also issued the following standards which have not been adopted locally by the Securities and Exchange Commission of Pakistan:

IFRS 1 First-time Adoption of International Financial Reporting Standards

IFRIC 12 Service Concession Arrangement

IFRS 20 Regulatory Assets and Regulatory Liabilities

3 BASIS OF MEASUREMENT

These financial statements have been prepared under the historical cost convention on accrual basis except cash flows and for revaluation of land and certain financial instruments at fair value and recognition of certain staff retirement benefits at present value.

The Company's material accounting policies are stated in note 4. Not all of these significant policies require the management to make difficult, subjective or complex judgments or estimates. The following is intended to provide an understanding of the policies which the management considers critical because of their complexity, judgment of estimation involved in their application and their impact on these financial statements. Estimates and judgments are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. These judgments involve assumptions or estimates in respect of future events and the actual results may differ from these estimates. The areas involving higher degree of judgments or complexity or areas where assumptions and estimates are significant to the financial statements are as follows:

3.1 Provision for taxation

The Company takes into account the current income tax law and decisions taken by the appellate authorities. Instances where the Company's view differs from the view taken by the income tax

department at the assessment stage and where the Company considers that its view on items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

3.2 Staff retirement benefits - gratuity

Certain actuarial assumptions have been adopted as disclosed in relevant note to the financial statements for valuation of present value of defined benefit obligation. Any changes in these assumptions in future year might affect unrecognized gains and losses in those years.

3.3 Financial instruments

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques based on assumptions that are dependent on market conditions existing at Statement of Financial Position date.

3.4 Property, plant and equipment

The Company reviews recoverable amount, useful life, residual value and possible impairment on an annual basis. Any changes, if material in the estimates in future years might affect the carrying amounts of the respective items of property, plant and equipment with a corresponding affect on the depreciation charge and impairment.

3.5 Provision for inventory obsolescence and measurement of quantities

The Company reviews the net realizable value of stock in trade and stores, spare and loose tools to assess any diminution in the respective carrying values. Net realizable value is determined with reference to estimated selling price less estimated cost to complete and estimated cost to make the sales. Determining the value of specific category of stock-in-trade and stores and spares i.e. cotton, yarn and fabric, involves the use of estimates and assumptions.

3.6 Other areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are as follows:

3.6.1 Provision for doubtful debts

3.6.2 Computation of deferred taxation

3.6.3 Disclosure of contingencies

3.6.4 Impairment of Assets

3.6.5 Non-current Assets Held for Sale and Discontinued Operations

4 MATERIAL ACCOUNTING POLICIES INFORMATION

The material accounting policies set out below are consistently applied for all periods presented in these financial statements.

4.1 Property, plant and equipment - owned

Recognition

Property, plant and equipment except for freehold land are stated at cost less accumulated depreciation and any identified impairment loss. Freehold land is stated at revalued amount determined by an independent valuer less any identified impairment loss. Cost of tangible assets consists of historical cost pertaining to erection / construction period and other directly attributable cost of bringing the asset to working condition.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance costs are charged to income during the period in which they are incurred.

Depreciation

Depreciation on all items of property, plant and equipment except for freehold land is charged to statement of profit / loss applying the reducing balance method so as to write off historical cost of an asset over its estimated useful life at the rates as disclosed in note 5. Depreciation on additions is charged from the month in which the asset is acquired or capitalized while no depreciation is charged in the month of disposal.

Derecognition

Any item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and carrying amount of the asset) is included in the statement of profit / loss in the year the asset is derecognized.

4.2 Investment property

Investment properties are stated at cost less accumulated depreciation and impairment losses, if any. Subsequent expenditure, including major renewals and improvements, is capitalized only when it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost can be measured reliably. Maintenance and normal repairs are charged to the statement of profit or loss as and when incurred.

Investment property is derecognized upon disposal, or when no future economic benefits are expected from its use or disposal. Disposal is recognized when the significant risks and rewards incidental to ownership have been transferred to the buyer. Gains and losses are determined by comparing proceeds with the carrying amount of the asset and are included in other income in the statement of profit or loss in the period in which they arise. The carrying values of investment properties are reviewed at each reporting date for any indication of impairment. Where the carrying value exceeds the estimated recoverable amount, the asset is written down to its recoverable amount, being the higher of fair value less costs to sell and value in use.

Partly Owner-Occupied Property

Where a portion of a property is held to earn rentals or for capital appreciation, and another portion is held for use in the production or supply of goods or services, or for administrative purposes, each portion is accounted for separately if it could be sold, or leased out under a finance lease, separately. Where the portions cannot be sold or leased out separately, the property is classified as investment property only if the owner-occupied portion is insignificant; otherwise, the entire property is classified as property, plant and equipment.

4.3 Capital work in progress

Capital work in progress is stated at cost less any identified impairment loss. Transfers are made to relevant fixed assets category as and when assets are available for use.

4.4 Intangible assets

Intangible assets, which are non-monetary assets without physical substance, are recognized at cost, which comprise purchase price, non-refundable purchase taxes and other directly attributable expenditures relating to their implementation and customization. After initial recognition, an intangible asset is carried at cost less accumulated amortization and impairment losses, if any. Intangible assets are amortized from the month, when these assets are available for use, using the straight line method, whereby the cost of the intangible asset is amortized over its estimated useful life over which economic benefits are expected to flow to the Company. The useful life and amortization method are reviewed and adjusted, if appropriate, at each reporting date.

4.5 Long term deposits

These are stated at cost which represents the fair value of consideration given.

4.6 Investments

Investments intended to be held for less than twelve months from the reporting date or to be sold to raise operating capital, are included in current assets, all other investments are classified as non-current. Management determines the appropriate classification of its investments at the time of the purchase and re-evaluates such decision on a regular basis.

4.6.1 Investment in subsidiary and associated companies

Investments in subsidiaries and associates are recognized at cost less impairment loss, if any. At each Statement of Financial Position date, the recoverable amounts are estimated to determine the extent of impairment losses, if any, and carrying amounts of investments are adjusted accordingly. Impairment losses are recognized as expense. Where impairment losses subsequently reverses, the carrying amounts of the investments are increased to the revised recoverable amounts but limited to the extent of initial cost of investments. A reversal of impairment loss is recognized in the Statement of Profit or Loss.

4.6.2 Derecognition

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in the statement of profit or loss. In addition, on derecognition of an investment in a debt instrument classified as at fair value through other comprehensive income (FVTOCI), the cumulative gain or loss previously accumulated in the investments' revaluation reserve is reclassified to the statement of profit or loss. In contrast, on derecognition of an investment in equity instrument which the Company has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the investments' revaluation reserve is not reclassified to the statement of profit or loss, but is transferred to retained earnings.

All purchases and sales are recognized on the trade date which is the date that the Company commits to purchase or sell the investment, except for sale and purchase of securities in future market which are accounted for at settlement date. Cost of purchase includes transaction cost.

4.7 Non current asset held for sale and discontinued operations

Non-current assets, or disposal groups, are classified as held for sale when their carrying amount will be recovered principally through a sale transaction rather than through continuing use, and a sale is considered highly probable within one year from the date of classification. Such assets are measured at the lower of their carrying amount and fair value less costs to sell, and depreciation on them ceases from the date they are classified as held for sale.

4.8 Stores, spare parts and loose tools

These are valued at lower of cost and net realizable value. Cost is determined by moving average method. Items considered obsolete are carried at nil value. Items in transit are valued at cost

comprising invoice value plus other charges incurred thereon.

4.9 Stock in trade

These are valued at lower of cost and net realizable value except waste which is valued at net realizable value. Cost is determined as follows.

4.9.1 Raw material

	In hand	Weighted average cost
	In transit	Cost comprising invoice value plus other charges incurred thereon
4.9.2	Work in process	Raw material cost plus appropriate manufacturing overheads
4.9.3	Finished goods	Raw material cost plus appropriate manufacturing overheads
4.9.4	Waste	Net realizable value

Net realizable value signifies the estimated selling prices in the ordinary course of business less estimated costs of completion and the estimated costs necessary to make the sales.

4.10 Trade debts and other receivables

Trade debts originated by the Company are recognized and carried at original invoice value less any allowance for uncollectable amounts. An estimated provision for doubtful debts is made when there is objective evidence that collection of the full amount is no longer probable. The amount of provision is charged to income. Bad debts are written off as incurred. Other receivables are stated at amortized cost. Known impaired receivables are written off, while receivables considered doubtful are provided for.

4.11 Cash and cash equivalents

Cash in hand, cash at bank and short term deposits, which are held to maturity, are carried at cost. For the purpose of cash flow statements, cash and cash equivalent comprise cash in hand, with banks on current & saving accounts.

4.12 Staff retirement benefits

Defined benefit plan

The Company operates an unfunded gratuity scheme covering for all its permanent employees who have attained the minimum qualifying period for entitlement to the gratuity.

Provision is made annually to cover the obligation on the basis of actuarial valuation and charged to income currently. The most recent actuarial valuation was carried on June 30, 2026 using the Projected Unit Credit Method.

Expense comprising of current service cost and interest cost is recorded in Statement of Profit or Loss, whereas any remeasurements due to actuarial assumptions are charged to other comprehensive income as and when they arise.

Compensated absences

As per human resource policy, there is no accumulated liability against leaves, the leaves unless availed within the year are encashed.

4.13 Levies

In accordance with Income Tax Ordinance, 2001 (the Ordinance), computation of final taxes and

unrecoupable minimum tax differential is not based on taxable income. Therefore, as per the 'IAS 12 - Application Guidance on Accounting for Minimum Taxes and Final Taxes' issued by the Institute of Chartered Accountants of Pakistan (ICAP), these fall within the scope of IFRIC 21 - 'Levies' (IFRIC 21) / IAS 37 - 'Provisions, contingent liabilities and contingent assets' (IAS 37) and accordingly have been classified as levies in these financial statements.

4.14 Taxation

Income tax expense comprises current, super tax and deferred tax. Income tax expense is recognized in the income statement, except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

4.14.1 Current

Provision for current taxation is based on taxability of income streams chargeable at current rate of taxation under the normal tax regime after taking into account tax credit and tax rebates available, if any. The charge for current tax includes any adjustment to past years liabilities.

4.14.2 Deferred

Deferred tax is provided, using the Statement of Financial Position liability method, on all temporary differences at the Statement of Financial Position date between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences and carry forward of unused tax losses and tax credits to the extent that it is probable that future taxable profits will be available against which deferred tax asset can be utilized, except where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability that, at the time of transaction, affects neither the accounting nor taxable profits.

The carrying amount of deferred tax assets is reviewed at each Statement of Financial Position date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax asset and liability is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the rates (and tax laws) that have been enacted or substantively enacted at the Statement of Financial Position date.

4.15 Trade and other payables

Liabilities for trade and other payable are carried at fair value plus any attributable cost, to be paid in the future for goods and services received, whether or not billed to the Company, and subsequently measured at amortized cost using the effective interest method.

4.16 Ijarah

In ijarah transactions significant portion of the risks and rewards of ownership are retained by the lessor. Islamic Financial Accounting Standard 2 - 'Ijarah', issued by the Institute of Chartered Accountants of Pakistan, requires the recognition of 'ujrah payments' (lease rentals) against ijarah financing as an expense in the statement of profit or loss on a straight-line basis over the ijarah term.

4.17 Provisions

A provision is recognized in the Statement of Financial Position when the Company has a legal or

constructive obligation as a result of past event, and it is probable that an outflow of resource embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation.

4.18 Borrowings and borrowing costs

Borrowings are recognized initially at fair value, net of transaction costs incurred, and subsequently at amortized cost.

Borrowing costs are recognized as an expense in the period in which these are incurred except to the extent of the borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset. Such borrowing costs are capitalized as part of the cost of that asset up to the date of its commissioning.

4.19 Contingent liabilities

There is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company, or

There is a present obligation that arises from past events but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

4.20 Contract liability

A contract liability is recognised for the Company's obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration, or the Company has a right to an amount of consideration that is unconditional (i.e. a receivable), before the Company transfers a good or service to the customer, the entity shall present the contract as a contract liability when the payment is made or the payment is due (whichever is earlier).

4.21 Revenue recognition

Revenue from contracts with customers is recognized at the point in time when the performance obligation is satisfied i.e. control of the goods is transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled to in exchange for those goods generally upon issuance of delivery challans or shipment, pursuant to underlying contractual terms.

Revenue from the export sale of goods is recognized at the point in time when the customer obtains control over the goods dependent on the relevant incoterms of shipment. Generally it is on the date of bill of lading or at the time of delivery of goods to the destination port.

4.22 Foreign currencies

Transactions in foreign currencies are translated into Pakistan Rupees using the exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into Pakistan Rupees at the exchange rates prevailing at the reporting date. All arising exchange gains and losses are recognized in the statement of profit or loss.

4.23 Financial instruments

4.23.1 Initial Measurement

Initially, the Company classifies its financial assets as fair value through other comprehensive income (FVTOCI), fair value through profit or loss (FVTPL), and measured at amortized cost. These are measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition. For an item at FVTPL, transaction cost

is charged to statement of profit or loss.

Subsequent Measurement

Debt instruments at FVTOCI are subsequently measured at fair value. Interest / markup income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in the statement of profit or loss. Other net gains and losses are recognized in other comprehensive income. On de-recognition, gains and losses accumulated in other comprehensive income are reclassified to the statement of profit or loss.

Equity instruments at FVTOCI are subsequently measured at fair value. Dividends are recognized as income in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to the statement of profit or loss.

Financial assets at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest / markup or dividend income, are recognized in profit or loss.

Financial assets measured at amortized cost are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest / markup income, foreign exchange gains and losses and impairment are recognized in the statement of profit or loss.

4.23.2 Financial Liabilities

Financial liabilities are classified as measured at amortized cost or 'at fair value through profit or loss' (FVTPL). A financial liability is classified as at FVTPL if it is classified as held for trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in the statement of profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in the statement of profit or loss. Any gain or loss on de-recognition is also recognized in the statement of profit or loss.

4.23.3 Offsetting of financial assets and liabilities

A financial asset and financial liability is offset and the net amount is reported in the Statement of Financial Position if the Company has a legal enforceable right to set off the recognized amounts and intends either to settle on net basis or to realize the assets and the liabilities simultaneously.

4.23.4 Impairment

At each Statement of Financial Position date, the Company reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. Recoverable amount is the higher of sale value less cost to sell and value in use.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. Impairment losses are recognized as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined, had no impairment loss been recognized for the asset in prior years. A reversal of an impairment loss is recognized as income immediately.

4.24 Related party transactions

All transactions with related parties are carried out by the Company at arms' length price using the method prescribed under the Companies Act 2017 with the exception of loan taken from related parties which is interest / mark up free.

4.25 Segment reporting

Segment reporting is based on the operating (business) segments of the entity. An operating segment is a component of the entity that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to the transactions with any of the entity's other components. An operating segment's operating results are reviewed regularly by the Chief Operating Decision Maker ('CODM') to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified by the Board of Directors of the entity that make the strategic decisions.

Segment results that are reported to the CODM include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Those incomes, expenses, assets, liabilities and other balances which cannot be allocated to a particular segment on a reasonable basis are reported as unallocated.

Transactions among the business segments are recorded at cost. Inter segment sales and purchases are eliminated from the total.

4.26 Government grants

Government grants are transfers of resources to an entity by a government entity in return for compliance with certain past or future conditions related to the entity's operating activities - e.g. a government subsidy. The definition of government refers to governments, government agencies and similar bodies, whether local, national or international.

The Company recognizes government grants when there is reasonable assurance that grants will be received and the Company will be able to comply with conditions associated with grants.

Government grants are recognized at fair value, as deferred income, when there is reasonable assurance that the grants will be received and the Company will be able to comply with the conditions associated with the grants.

Grants that compensate the Company for expenses incurred, are recognized on a systematic basis in the income for the year in which the related expenses are recognized. Grants that compensate for the cost of an asset are recognized in income on a systematic basis over the expected useful life of the related asset.

A loan is initially recognized and subsequently measured in accordance with IFRS 9. IFRS 9 requires loans at below-market rates to be initially measured at their fair value - e.g. the present value of the expected future cash flows discounted at a market-related interest rate. The benefit that is the government grant is measured as the difference between the fair value of the loan on initial recognition and the amount received, which is accounted for according to the nature of the grant.

4.27 Research and development cost

Research and development cost is charged to statement of profit or loss in the year in which it is incurred.

4.28 Dividend

The dividend distribution to the shareholders is recognized as a liability in the period in which it is approved by the shareholders.

- 25.1.1 The Company has filed an appeal in the Lahore High Court, Lahore and honorable Lahore High Court granted stay order against tariff difference amounted to Rs 22,416,224 (2025 Rs 22,416,224) from July 2016 to May 2017 claimed by SNGPL. The decision of court is still pending.
- 25.1.2 The Company has filed an appeal in the Lahore High Court, Lahore and honorable Lahore High Court granted stay order cost of supply amounted to Rs 30,251,733 (2025: Rs 30,251,733) from October 2017 to October 2018 claimed by SNGPL. The decision of court is still pending.
- 25.1.3 This includes an amount of Rs. 161.89 million (2025: Rs. 161.89 million) payable in respect of Gas Infrastructure Development Cess (GIDC) levied under GIDC Act, 2015. The case against GIDC was pending in various courts since 2012. The Supreme court of Pakistan, by declaring its judgement dated 13 August 2020 dismisses all appeals against GIDC and allows the government to recover the outstanding amount against GIDC till 31st July 2020 in two years but links future collections to the complete utilization of the cess on projects for which the levy was imposed. The apex court further stops the government to charge GIDC. The said 24 installments are duly paid to SNGPL. The outstanding amount reflects the amount charged by SNGPL in the period before GIDC ACT, 2015 and captive verses industrial connection rate difference as specified in GIDC ACT 2015. The decision of court against outstanding amounts is still pending.
- 25.1.4 The Company has filed an appeal in the Lahore High Court, Lahore and honorable Lahore High Court granted stay order against Cotton Cess amounted to Rs 99,228,948 (June 30, 2025: Rs 95,098,159). The decision of court is still pending. However, the Company has recorded a provision in the financial statements as Liability.
- 25.1.5 This includes an amount of Rs. 40.796 million (2025: Rs. Nil) payable in respect of the Sindh Infrastructure Development Cess (SIDC). The Company, along with other petitioners, challenged the levy of SIDC before the Honorable High Court of Sindh (SHC), which dismissed the petitions. The Company then appealed to the Honorable Supreme Court of Pakistan, which granted leave to appeal and suspended both the operation of the SHC judgment and the recovery of the cess. The appeal is pending adjudication. The Company's legal counsel is prima facie of the view that the SHC judgment is well reasoned and that the chances of its being overturned are very oblique. Accordingly, a provision for the full amount of Rs. 40.796 million has been recognized.
- 25.2 The Company has filed an appeal in the High Court of Sindh, Karachi against the order of Custom / Excise and Sales Tax Appellate Tribunal, Karachi regarding penalty and additional tax. The decision of court is still pending. However, the Company has recorded a provision in the financial statements as Liability.
- 25.3 This advance represents consideration received against the proposed sale of land classified as non-current assets held for sale in accordance with IFRS 5 as disclosed in Note 9 to these financial statements.
- 25.4 This includes Rs. 28.623 million received as an interest free, refundable security deposit against the short term lease of a portion of the Unit's warehouse as disclosed in Note 8 of these financial statements. The deposit is repayable on termination of the lease agreement.

26 CONTRACT LIABILITIES

The contract liabilities primarily relate to the advance consideration received from customers for sale of goods, for which revenue is being recognized at point in time when goods are transferred. It includes advances received from export parties amounting to Rs. 265,604 (2025: Rs.3,614,324). The balance of contract liability as at June 30, 2026 is expected to be recognized as revenue within one year.

38.1 During the year, pursuant to the 27th Constitutional Amendment, the cases relating to Sections 4B and 4C of the Ordinance were transferred to the Federal Constitutional Court (FCC). The FCC, through its short order dated January 27, 2026, upheld the constitutionality of Sections 4B and 4C of the Ordinance, confirming the validity of the Super Tax, including the retrospective application of Super Tax in prior periods, and setting aside any contrary findings by the lower courts.

The Company is now required to record the Super Tax amount relating to Section 4C of the Ordinance for tax years 2022, 2023, and 2024, and could explore the right to appeal on receipt of the full order.

Based on this order, the Company has recognized a provision amounting to Rs. 192.790 million relating to tax years 2022 to 2024 in these financial statements on account of the Super Tax levy under Section 4C of the Ordinance

43.2 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damages to the Company's reputation. The following are the contractual maturities of financial liabilities, including interest payments and excluding the impact of netting agreements.

43.2.1 The contractual cash flows relating to the above financial liabilities have been determined on the basis of mark up rates effective as at June 30. The rates of mark up have been disclosed in relevant notes to these financial statements.

43.3 Market risk

Market risk is the risk that the value of the financial instrument may fluctuate as a result of changes in market interest rates or the market price due to a change in credit rating of the issuer or the instrument, change in market sentiments, speculative activities, supply and demand of securities, and liquidity in the market. The Company is exposed to currency risk and interest rate risk only.

43.3.1 Currency risk

Exposure to currency risk

The Company is exposed to currency risk on trade debts, cash with banks, borrowings and import of raw material and stores that are denominated in a currency other than the respective functional currency of the company, primarily in US Dollar & Euro. The currencies in which these transactions primarily are denominated is US Dollar & Euro. The Company's exposure to foreign currency risk is as follows.

	US Dollar	Euro	Total in Foreign Currency	Rupees
Trade debts 2026	571,344	447,346	1,041,598	300,648,480

Cash with banks 2025	24,125	-	24,125	6,974,932

The following significant exchange rates applied during the year:

	Average Rates		Reporting Date Rates	
	2026	2025	2026	2025
US Dollar to Rupee	280.83	280.95	278.05	283.60
Euro to Rupee	324.60	315.07	316.95	332.25

Sensitivity analysis

5% strengthening of Pak Rupee against the following currencies at June 30, would have increased / (decreased) equity and income statement by the amount shown below. The analysis assumes that all other variables, in particular interest rates, remain constant. 5% weakening of Pak Rupee against the above currencies at periods ends would have had the equal but opposites effect on the above. currencies to the amount shown below, on the basis that all other variables remain constant.

	2026 Rupees	2025 Rupees
US Dollar	(7,943,108)	(14,946,535)
Euro	(7,089,316)	(8,615,530)

The sensitivity analysis prepared is not necessarily indicative of the effects on profit for the year and liabilities of the Company.

43.3.2 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Majority of the interest rate exposures arises from short and long term borrowings from bank and term deposits and deposits in PLS saving accounts with banks. At reporting date the interest rate profile of the Company's interest bearing financial instrument is as follows:

	2026 Rupees	2025 Rupees
Fixed rate instruments		
Financial liabilities		
-Long term Finance	4,130,771,705	5,051,277,132

	<u>5,427,595,142</u>	<u>6,333,933,792</u>

Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rates at reporting date would not affect statement of profit or loss.

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at reporting date would have increased / (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for June 30, 2026.

	Profit or Loss		Equity	
	100 bps increase	100 bps decrease	100 bps increase	100 bps decrease

44 OPERATING SEGMENTS

Management has determined the operating segments based on the information that is presented to the Board of Directors of the Company for allocation of resources and assessment of performance. Operating segments are reported in a manner consistent with internal reporting provided to the Chief Operating Decision Maker ('CODM'). Segment performance is generally evaluated based on certain key performance indicators including business volume and gross profit.

Based on internal management reporting structure and products produced and sold, the Company is organized into the following operating segments :

a) Spinning:

This segment relates to the production and sale of yarn.

b) Weaving:

This segment relates to the production and sale of greige & dyed fabric.

c) Other Operating Segments:

Other than yarn spinning & weaving, entity is also engage in providing fiber and yarn dyeing service to both inter-segment and external customers and generation of power for inter-segment sale only. However these segments do not meet the threshold specified by International Financial Reporting Standards "Operating Segments"(IFRS-08) for determination of reportable segments.

45 CAPITAL RISK MANAGEMENT

The Company's prime objective when managing capital is to safeguard its ability to continue as a going concern in order to provide adequate returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Company monitors capital on the basis of the gearing ratio. The ratio is calculated as total borrowings divided by total capital employed. Borrowings represent long term financing, others and short term borrowings. Total capital employed includes total equity as shown in the Statement of Financial Position plus borrowings.

		2026	2025
			Restated
Borrowings	Rupees	18,163,291,973	21,985,114,863
Total equity	Rupees	11,780,989,325	8,045,264,206
Total capital employed	Rupees	29,944,281,298	30,030,379,069
Gearing ratio	Percentage	60.66	73.21

46 PLANT CAPACITY AND PRODUCTION

It is difficult to describe precisely the production capacity in textile industry since it fluctuates widely depending on various factors such as count of yarn spun, raw material used, spindle speed and twist. It would also vary according to the pattern of production adopted in a particular year.

		2026	2025

Total number of looms worked		144	144
Number of shifts per day		3	3
Installed capacity after conversion into 50 picks-Square meter		88,314,777	88,314,777
Actual production after conversion into 50 picks-Square meter		83,728,989	83,332,936

46.1 Actual production of yarn and fabric is lower than capacity due to the manufacturing of specialized Mélange yarn and periodic repair and maintenance.

47 MEASUREMENT OF FAIR VALUES

A number of the Company's accounting policies and disclosure require the measurement of fair values, for both financial, if any and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Company uses valuation techniques that are appropriate in the circumstances and uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the

valuation techniques as follows:

Level 1: quoted prices (Unadjusted) in active markets for identical assets or liabilities;

Level 2: inputs other than quote prices included in Level 1 that are observables for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices);

Level 3: inputs for the asset or liability that are based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurements is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the management recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

51 SIGNIFICANT EVENT, STATUS OF DTM-04

The Board of Directors, in its meeting held on September 24, 2025, approved the temporary closure of one of the Company's production units, DTM-04, due to a lack of export sales orders. As at the reporting date, June 30, 2026, the Unit remains closed and has not resumed commercial production since that date. Management continues to consider this a temporary closure and has represented that it intends to recommence operations at the Unit once market conditions improve.

Management has performed an assessment of the recoverable amount of the Unit's related assets, having an aggregate carrying amount of Rs. 4,612.666 million Note 04, on the basis of fair value less costs of disposal, amounting to Rs. 5,097.213 million, as per an independent valuation report dated June 30, 2026 issued by M/S Harvester Services (Private) Limited. Based on this assessment, management has concluded that no impairment loss is required to be recognized as at the reporting date.

Separately, a portion of the Unit's warehouse space has been leased to a third party under a short term lease agreement during the year and has accordingly been classified as investment property, as more fully explained in Note 8.

پائیداری اور CSR

کمپنی ماحولیاتی ذمہ داری اور سماجی جوابدہی کی اہمیت کو تسلیم کرتے ہوئے پائیداری اور CSR کے لیے پُر عزم ہے۔ ہم نے اپنے ماحولیاتی اثرات کو کم کرنے اور معاشرے کی بہتری میں حصہ ڈالنے کے لیے مختلف اقدامات کیے ہیں، بشمول:

- ہمارے کاربن فوٹ پرنٹ کو کم کرنے کے لیے توانائی کے مؤثر آپریشنز اور قابل تجدید توانائی کا انضمام
- ماحول پر ہمارے اثرات کو کم کرنے کے لیے پانی کے تحفظ اور فضلہ کے انتظام کے اقدامات
- مقامی کمیونٹی کی مدد کے لیے کمیونٹی ڈویلپمنٹ پروگرام اور تعلیمی اقدامات
- فلاح و بہبود کو فروغ دینے کے لیے ملازمین اور کمیونٹی کی صحت اور تندرستی کے پروگرام

ہیومن ریسورس مینجمنٹ

کمپنی کاروباری کامیابی کو آگے بڑھانے میں انسانی سرمائے کی اہمیت کو تسلیم کرتی ہے۔ ہم نے ذہانت کو راغب کرنے، برقرار رکھنے اور ترقی دینے کے لیے مختلف اقدامات کیے ہیں، بشمول:

- ملازمین کے لیے ان کی مہارتوں اور علم کو بڑھانے کے لیے تربیت اور ترقی کے پروگرام
- کارکردگی پر مبنی معاوضہ اور ملازمین کو ان کے تعاون کے بدلے انعام دینے کے فوائد
- ملازمین کی مصروفیت اور فیڈبیک میکانزم اس بات کو یقینی بنانے کے لیے کہ ملازمین کی آراء سنی جاتی ہیں۔

اخلاقیات اور کاروباری طریقوں کا بیان

بورڈ نے اخلاقیات اور کاروباری طریقہ کار کا بیان تیار کر کے جاری کیا ہے، جس پر کمپنی کے ہر ڈائریکٹر اور ملازم نے دستخط کیے ہیں۔ یہ دستخط اس امر کی تصدیق کرتے ہیں کہ وہ کمپنی کے ساتھ یا کمپنی کی جانب سے کیے جانے والے تمام معاملات میں مطلوبہ ضابطہ اخلاق اور طرز عمل کے معیارات کو سمجھتے ہیں اور ان کی پابندی کے لیے پُر عزم ہیں۔

کوڈ آف کارپوریٹ گورننس کی تعمیل کا بیان

کمپنی SECP کی جانب سے مقرر کردہ کارپوریٹ گورننس کے اصولوں کی سختی سے پابندی کرتی ہے اور تمام مقررہ تقاضوں پر عمل درآمد یقینی بناتی ہے۔ ان تقاضوں کی تفصیلات لسٹڈ کمپنیز (کوڈ آف کارپوریٹ گورننس) ریگولیشنز، 2019 کے ساتھ مطابقت کے بیان میں درج کی گئی ہیں، جس کا آڈیٹرز نے باقاعدہ جائزہ لیا ہے اور اسے اس سالانہ رپورٹ کے ساتھ منسلک کیا گیا ہے۔

بعد از رپورٹنگ مدت کے واقعات

مالی سال کے اختتام اور اس رپورٹ کی تاریخ کے درمیان کمپنی کی مالیاتی پوزیشن کو متاثر کرنے والی کوئی اہم تبدیلی یا مالی ذمہ داری سامنے نہیں آئی۔

ہیومن ریسورس اینڈ ریمنیشن کمیٹی

سال کے دوران ہیومن ریسورس اینڈ ریمنیشن کمیٹی کا ایک ((1 اجلاس منعقد ہوا۔ ہر ایک رکن کی حاضری مندرجہ ذیل ہے:

نمبر شمار	ڈائریکٹرز کے نام	عہدہ	اجلاس میں حاضری کی تعداد

2	جناب فیصل جاوید	نان ایگزیکٹو ڈائریکٹر	01
3	جناب شیخ محمد رفیع	ایگزیکٹو ڈائریکٹر	01

ان ڈائریکٹرز کو غیر حاضری کی رخصت دی گئی جو بورڈ اور اس کی کمیٹی کے اجلاسوں میں شرکت نہیں کر سکتے تھے۔

ڈائریکٹرز کے معاوضے

کمپنی نے ہر ڈائریکٹر کے معاوضہ کے حوالے سے ایک باقاعدہ پالیسی وضع کر رکھی ہے۔ اس پالیسی کے مطابق نان ایگزیکٹو ڈائریکٹرز کو بورڈ اور اس کی کمیٹیوں کے اجلاسوں میں شرکت کی ڈائریکٹرز فیس کے علاوہ کوئی معاوضہ ادا نہیں کیا جاتا۔

ڈائریکٹرز کا تربیتی پروگرام

بورڈ کے ڈائریکٹرز CCG ریگولیشنز، 2019 کے تقاضوں کے مطابق اپنے فرائض اور ذمہ داریوں سے بخوبی آگاہ ہیں۔ ہمارے تمام ڈائریکٹرز، بشمول چیف ایگزیکٹو آفیسر، یا تو ڈائریکٹرز ٹریننگ پروگرام کے تحت تربیتی سرٹیفکیٹ حاصل کر چکے ہیں یا اپنے تجربے کی بنیاد پر ڈائریکٹرز ٹریننگ پروگرام سے مستثنیٰ ہیں۔ کمپنی سیکرٹری کی جانب سے باقاعدہ دستاویزات اور بریفنگز، نیز اندرونی اور بیرونی مشیروں کی جانب سے دی جانے والی پریزنٹیشنز کے ذریعے بورڈ کو قانونی، ضابطہ جاتی اور کارپوریٹ گورننس سے متعلق امور سے مسلسل آگاہ رکھا جاتا ہے۔ ڈائریکٹرز کا رپورٹ گورننس کے اصولوں کی پاسداری اور کمپنی کو اسٹریٹجک سمت فراہم کرنے کے ذمہ دار ہیں۔ آپ کی کمپنی اس امر کو یقینی بناتی ہے کہ پورا بورڈ ادارے کے مشن اور کارپوریٹ گورننس کے تقاضوں سے ہم آہنگ ہو۔

ڈیٹ / قرضوں کی واپس ادائیگیاں

کمپنی نے نقدی کے بہاؤ کے مؤثر انتظام کے لیے ایک جامع حکمت عملی نافذ کر رکھی ہے، جس کے تحت نقدی کی آمدورفت کا باقاعدگی سے تخمینہ لگایا جاتا ہے اور اس کی کڑی نگرانی کی جاتی ہے۔ یہ جامع طریقہ کار کمپنی کو اپنی مالی ذمہ داریوں کی بروقت ادائیگی یقینی بنانے اور بدلتے ہوئے مالیاتی چیلنجز کے مقابلے میں مالی استحکام برقرار رکھنے میں مدد دیتا ہے۔ اس حکمت عملی کے تحت انتظامیہ متوازن مالیاتی ذرائع برقرار رکھنے اور مؤثر مالیاتی انتظامات کے ذریعے قرض لینے کی لاگت کو کم سے کم رکھنے کے لیے مسلسل اقدامات کر رہی ہے۔ کمپنی کا اپنی مالی ذمہ داریاں بروقت پوری کرنے کا مضبوط ریکارڈ ہے اور قرضوں کی ادائیگی میں تاخیر کی کوئی سابقہ مثال نہیں، حتیٰ کہ موجودہ سال کے دوران بھی کمپنی نے اپنی تمام قرضہ جاتی ذمہ داریاں بروقت پوری کی ہیں۔

اندرونی مالیاتی کنٹرولز کی کفایت

دین ٹیکسٹائل میں ایک آزاد اندرونی آڈٹ کا شعبہ موجود ہے، جو کمپنی کے کارپوریٹ گورننس کے نظام کا ایک اہم اور مؤثر حصہ ہے۔ اندرونی آڈٹ کا

اہم خطرات اور غیر یقینی صورتحال

بورڈ کمپنی کے گورنرس اور اندرونی کنٹرول کے نظام کے ذریعے کمپنی کو درپیش اہم خطرات کی نگرانی کرتا ہے۔ انتظامیہ اہم خطرات کے وقوع پذیر ہونے کے امکانات اور ان کے ممکنہ اثرات کا جائزہ لیتی ہے اور اہم معاملات سے بورڈ اور اس کی کمیٹیوں کو آگاہ کرتی ہے۔ اہم خطرات میں درج ذیل شامل ہیں:

- کپاس کی فراہمی اور قیمتوں سے متعلق خطرہ، جو موسمی حالات، ہلکی فصل کی دستیابی اور درآمدی کپاس پر انحصار کے باعث پیدا ہو سکتا ہے۔
- توانائی کی لاگت اور دستیابی سے متعلق خطرہ، جس میں بجلی اور گیس کے نرخوں میں تبدیلی اور فراہمی میں تعطل شامل ہیں۔
- مالیاتی اور نقدی کی دستیابی سے متعلق خطرہ، جو قرضوں کی سطح، شرح سود، قرضوں کی دوبارہ فنانسنگ کی ضروریات اور ورکنگ کپینٹل کی ضروریات سے پیدا ہو سکتا ہے۔
- صارفین سے متعلق کریڈٹ رسک، خصوصاً ملکی کاروبار سے حاصل ہونے والی قابل وصول رقوم کے حوالے سے۔
- جغرافیائی و سیاسی کشیدگی کے باعث برآمدی فروخت پر دباؤ اور عالمی کساد بازاری کے اثرات کے نتیجے میں طلب میں کمی کا خطرہ۔
- ریگولیٹری اور ٹیکس سے متعلق خطرات، جن میں برآمدی اسکیموں، سیلز ٹیکس، انکم ٹیکس، لیویز اور ریفرنڈم کے طریقہ کار میں تبدیلیاں شامل ہیں۔
- آپریشنل، ٹیکنالوجی اور سائبر خطرات، جن میں پلانٹ کی سرگرمیوں میں تعطل، نظام کی خرابی، ڈیٹا کا ضائع ہونا اور غیر مجاز رسائی شامل ہیں۔
- ماحولیاتی اور موسمیاتی خطرات، جن میں پانی کی دستیابی، شدید موسمی حالات، اخراج سے متعلق تقاضے اور خریداروں کی بدلتی ہوئی توقعات شامل ہیں۔

رسک مینجمنٹ

کمپنی ان خطرات کا انتظام منظور شدہ پالیسیوں، تفویض کردہ اختیارات کی مقررہ حدود، انشورنس انتظامات، کریڈٹ کنٹرولز، نقدی کے بہاؤ کے تخمینوں، انویسٹری کی منصوبہ بندی، پیشگی دیکھ بھال اور انتظامیہ کی جانب سے باقاعدہ رپورٹس کے ذریعے کرتی ہے۔ اندرونی آڈٹ خطرات کی بنیاد پر تیار کردہ منصوبے کے مطابق کام کرتا ہے اور اپنے نتائج آڈٹ کمیٹی کو پیش کرتا ہے۔ بورڈ رسک مینجمنٹ اور اندرونی کنٹرول کے انتظامات کی مؤثریت کا جائزہ لیتا ہے اور جہاں ضروری ہو وہاں اصلاحی اقدامات کی ہدایت کرتا ہے۔

مستقبل کا منظر نامہ

کمپنی نئے مالی سال میں آپریشنز سے نقدی پیدا کرنے کی بہتر صلاحیت اور کم قرضوں کے ساتھ داخل ہو رہی ہے، تاہم طلب، توانائی کی لاگت، کپاس کی قیمتیں، ٹیکس اور علاقائی تجارتی رکاوٹیں بدستور اہم غیر یقینی عوامل ہیں۔ انتظامیہ خریداری میں نظم و ضبط، پیداواری صلاحیت کے بہتر استعمال، مصنوعات کے محتاط انتخاب اور ورکنگ کپینٹل کے مزید مؤثر انتظام کے ذریعے منافع کی شرح کو برقرار رکھنے کی کوشش جاری رکھے گی۔ کمپنی مؤثر مشینری، قابل تجدید توانائی اور ویلیو ایڈڈ آپریشنز میں سرمایہ کاری کے مواقع کا بھی جائزہ لیتی رہے گی، جہاں متوقع منافع سرمایہ کاری کے لیے درکار سرمائے کا جواز فراہم کرتا ہو۔ سرمایہ کاری کا وقت اور حجم مارکیٹ کی طلب، مالیاتی استعداد اور کمپنی کی نقدی کی دستیابی کو مد نظر رکھتے ہوئے طے کیا جائے گا۔

متعلقہ فریقین کے ساتھ لین دین

متعلقہ فریقوں کے ساتھ لین دین تجارتی بنیادوں پر کیا جاتا ہے اور اس کی تفصیلات باقاعدگی سے بورڈ کی آڈٹ کمیٹی کے سامنے جائزے اور بورڈ کو منظوری کی سفارش کے لیے پیش کی جاتی ہیں۔ بورڈ کے ارکان کا متعلقہ فریقوں کے ساتھ لین دین میں کسی بھی قسم کا مفاد ہو تو اس سے کمپنی کو آگاہ کیا جاتا ہے۔ متعلقہ فریقوں کے ساتھ لین دین کی تفصیلات 30 جون 2026 کو ختم ہونے والے سال کے لیے کمپنی کے مالیاتی گوشواروں کے نوٹس میں درج کی گئی ہیں۔

مادی تبدیلیاں اور وعدے۔

مالیاتی اخراجات میں 932.0 ملین روپے کی نمایاں کمی ہوئی اور یہ کم ہو کر 2.11 بلین روپے رہ گئے، جس کی بنیادی وجہ قرضوں میں کمی اور مالیاتی حالات میں بہتری تھی، جبکہ دیگر آمدنی بڑھ کر 246.1 ملین روپے ہو گئی۔ نتیجتاً، کمپنی نے واجبات اور ٹیکس سے قبل 1,058 ملین روپے کا منافع حاصل کیا، جبکہ گزشتہ سال 230.6 ملین روپے کا خسارہ ہوا تھا۔ 439.4 ملین روپے کے واجبات اور 515.4 ملین روپے کے ٹیکس کی کٹوتی کے بعد، کمپنی نے بعد از ٹیکس 103.6 ملین روپے کا منافع حاصل کیا، جبکہ 2025 میں 706.5 ملین روپے کا خسارہ ہوا تھا۔ اسی طرح فی حصص آمدنی بہتر ہو کر 1.97 روپے ہو گئی، جبکہ گزشتہ سال فی حصص 13.47 روپے کا خسارہ تھا۔

چیز مین کا جائزہ

کمپنی کے ڈائریکٹر چیز مین کے جائزہ کے مندرجات کی توثیق کرتے ہیں، جو کاروباری کارروائیوں، مارکیٹ کے نقطہ نظر، اور مستقبل کی نمو کے لیے اسٹریٹجک سرمایہ کاری کے منصوبوں کا ایک جامع تجزیہ فراہم کرتا ہے۔ یہ جائزہ اس رپورٹ کے ساتھ منسلک ہے۔

منافع منقسمہ

اگرچہ کمپنی نے سال کے دوران دوبارہ منافع حاصل کیا، تاہم بورڈ کی رائے میں ٹیکسٹائل کی صنعت میں جاری غیر یقینی صورتحال کے پیش نظر دستیاب فنڈز کو ورکنگ کیپیٹل کی ضروریات پوری کرنے، مالیاتی ذمہ داریوں کی ادائیگی اور نقدی کی دستیابی برقرار رکھنے کے لیے کمپنی کے پاس رکھنا مناسب ہے۔ چنانچہ بورڈ آف ڈائریکٹرز نے 30 جون 2026 کو ختم ہونے والے سال کے لیے کسی منافع منقسمہ کی سفارش نہیں کی (2025: صفر)۔ بورڈ کمپنی کے مستقبل کے منافع، نقدی کے بہاؤ، سرمائے کی ضروریات اور مجموعی مالیاتی پوزیشن کو مد نظر رکھتے ہوئے منافع منقسمہ کی پالیسی کا مسلسل جائزہ لیتا رہے گا۔

نقدی کے بہاؤ کا انتظام

سال کے دوران انتظامیہ نے آپریشنل کارکردگی میں بہتری کو بہتر نقدی کے بہاؤ اور زیادہ متوازن مالیاتی پوزیشن میں تبدیل کرنے پر توجہ مرکوز رکھی۔ ورکنگ کیپیٹل کے منظم انتظام، وسائل کی محتاط تقسیم اور نقدی کی دستیابی کی باقاعدہ نگرانی کے نتیجے میں کمپنی نے آپریشنز سے 6.38 بلین روپے کی نقدی پیدا کی۔ مالیاتی اخراجات، ٹیکس اور ریٹائرمنٹ فوائد کی ادائیگی کے بعد آپریشنل سرگرمیوں سے خالص نقدی کا بہاؤ نمایاں طور پر بڑھ کر 3.60 بلین روپے ہو گیا، جو 2025 میں 788.4 ملین روپے تھا۔ نقدی کی اس بہتر پوزیشن نے کمپنی کو 766.6 ملین روپے کے سرمایہ جاتی اخراجات پورے کرنے کے ساتھ ساتھ قرض شدہ فنڈز پر انحصار کم کرنے کے قابل بنایا۔ جائیداد، پلانٹ اور آلات کی فروخت سے 664.5 ملین روپے حاصل ہوئے، جس کے نتیجے میں سرمایہ کاری کی سرگرمیوں میں استعمال ہونے والی خالص نقدی 228.4 ملین روپے رہی۔

انتظامیہ نے کمپنی کے مالیاتی ڈھانچے کو مزید مؤثر بنانے اور قرض لینے کی لاگت کو محدود رکھنے کے لیے بھی اقدامات جاری رکھے۔ طویل مدتی فنانسنگ میں 912.2 ملین روپے کی کمی ہوئی، جبکہ قلیل مدتی قرضوں میں 2.91 بلین روپے کی کمی کی گئی، جس کے نتیجے میں مالیاتی سرگرمیوں میں استعمال ہونے والی خالص نقدی 3.82 بلین روپے رہی۔ سال کے اختتام پر نقدی اور بینک بیلنس 428.9 ملین روپے تھا، جبکہ کرنٹ ریٹو گزشتہ سال کے 0.98 گنا کے مقابلے میں بہتر ہو کر تقریباً 1.00 گنا ہو گیا۔ بورڈ مالیاتی استحکام برقرار رکھنے اور کمپنی کی آپریشنل ضروریات پوری کرنے کے لیے نقدی کی دستیابی، قرضوں کی میعاد، ورکنگ کیپیٹل کی ضروریات اور مالیاتی اخراجات کی کڑی نگرانی جاری رکھے گا۔

آپریٹنگ کارکردگی

ہمیں یہ بتانا ہے کہ خالص فروخت میں 7.03 بلین روپے کی کمی کے باوجود، جو کم ہو کر 33.09 بلین روپے رہ گئی، کمپنی نے سال کے دوران آپریٹنگ کارکردگی میں نمایاں بہتری حاصل کی۔ مجموعی منافع 416.9 بلین روپے بڑھ کر 4.16 بلین روپے ہو گیا، جبکہ مجموعی منافع کی شرح گزشتہ سال کی 9.33 فیصد کے مقابلے میں بڑھ کر 12.57 فیصد ہو گئی۔ یہ بہتری فروخت کے کم حجم کے باوجود پیداواری لاگت کی بہتر وصولی اور آپریٹنگ کارکردگی میں اضافے کی عکاسی کرتی ہے۔ تقسیم کاری کے اخراجات میں 2.87 فیصد کمی ہوئی جبکہ انتظامی اخراجات مجموعی طور پر تقریباً مستحکم رہے، تاہم دیگر آپریٹنگ اخراجات 36.7 بلین روپے سے بڑھ کر 166.8 بلین روپے ہو گئے۔

ڈائریکٹرز رپورٹ

ڈائریکٹرز کو اپنی انتالیسویں سالانہ رپورٹ، معہ 30 جون 2026 کو ختم ہونے والے سال کے لیے دین ٹیکسٹائل ملز لمیٹڈ کے آڈٹ شدہ مالیاتی گوشوارے اور ان پر آڈیٹرز کی رپورٹ پیش کرتے ہوئے خوشی محسوس ہو رہی ہے۔ یہ رپورٹ کمپنیز ایکٹ، 2017 کی دفعہ 227 اور سڈ کمپنیز (کارپوریٹ گورننس کوڈ) ریگولیشنز، 2019 کے تقاضوں کے مطابق تیار کی گئی ہے۔

جائزہ

دین ٹیکسٹائل ملز لمیٹڈ یارن، کپڑے اور ہیڈنگ کی مصنوعات تیار اور فروخت کرتی ہے۔ کمپنی کے پیداواری یونٹس پنجاب کے شہروں پتوکی اور رائیونڈ میں واقع ہیں۔ سال کے دوران کمپنی نے ملکی اور برآمدی صارفین کو خدمات فراہم کرنے کے ساتھ ساتھ پیداواری کارکردگی بہتر بنانے، ورکنگ کیپیٹل کے مؤثر انتظام اور قرضوں کی لاگت کم کرنے پر اپنی توجہ برقرار رکھی۔ سال کے دوران کمپنی کے بنیادی کاروبار کی نوعیت میں کوئی تبدیلی نہیں آئی۔

معاشی اور صنعتی جائزہ

سال کے دوران ٹیکسٹائل کی صنعت کو ایک مشکل کاروباری ماحول کا سامنا رہا۔ خطے میں جاری تنازعات اور عالمی تجارتی حالات میں تبدیلیوں کے باعث مال برداری، انشورنس اور خام مال کی لاگت متاثر ہوئی۔ مقامی صنعت کاروں کو توانائی کے زیادہ نرخوں، ٹیکسوں کے دباؤ اور درآمد شدہ دھاگے سے سخت مسابقت کا بھی سامنا رہا۔ اگرچہ ملکی معیشت میں نسبتاً زیادہ استحکام کے آثار نمایاں ہوئے، تاہم کاروباری ماحول میں اب بھی لاگت پر محتاط کنٹرول اور نقد رقوم کے بہاؤ کے مؤثر انتظام کی ضرورت برقرار رہی۔ کپاس کی دستیابی اور قیمتیں پیداواری لاگت کے اہم عوامل میں شامل رہیں۔ مقامی پیداوار کو پورا کرنے کے لیے صنعت بدستور درآمدی کپاس پر انحصار کرتی رہی، جس کے باعث ٹیکسٹائل مینوفیکچررز کو عالمی منڈی میں قیمتوں، شرح مبادلہ اور لاجسٹکس کی لاگت میں اتار چڑھاؤ کا سامنا رہا۔ اس پس منظر میں کمپنی نے خریداری کے مؤثر نظم و ضبط، پیداواری کارکردگی، مصنوعات کے بہتر امتزاج اور توانائی کے مؤثر انتظام پر توجہ مرکوز رکھی۔

مالیاتی نتائج

کمپنی نے 2026 میں دوبارہ منافع حاصل کیا۔ اگرچہ خالص فروخت گزشتہ سال کے مقابلے میں کم رہی، تاہم مجموعی منافع کی بہتر شرح اور مالیاتی اخراجات میں نمایاں کمی کے باعث کمپنی نے بعد از ٹیکس 103.6 ملین روپے کا منافع درج کیا، جبکہ 2025 میں 706.5 ملین روپے کا خسارہ ہوا تھا۔

آخر میں، میں اپنے شیئر ہولڈرز کا شکریہ ادا کرتا ہوں کہ وہ دین ٹیکسٹائل ملز لمیٹڈ کے بورڈ اور انتظامیہ پر مسلسل اعتماد کا اظہار کرتے ہیں۔ بورڈ کمپنی کی ذمہ دارانہ نگرانی اور مضبوط گورننس، مالیاتی نظم و ضبط اور واضح اسٹریٹجک سمت کے ذریعے پائیدار نمو کے حصول کے لیے بدستور پُر عزم ہے۔

کراچی: 23 ستمبر 2026

منجانب بورڈ
شیخ محمد جاوید
چیرمین

بورڈ نے ویلیو ایڈڈ پریشنز کی ترقی اور پیداواری کارکردگی اور مصنوعات کے امتزاج کو بہتر بنانے کے اقدامات کی بھی مسلسل حمایت کی۔ مجموعی طور پر یہ اقدامات کمپنی کی چمک پذیری اور مسابقتی صلاحیت کو مضبوط بنانے پر بورڈ کی توجہ کی عکاسی کرتے ہیں، بجائے اس کے کہ صرف بیرونی معاشی حالات میں تبدیلیوں پر انحصار کیا جائے

بورڈ اس سے آگاہ ہے کہ اس کی ذمہ داری قلیل مدتی مالیاتی کارکردگی سے آگے بڑھ کر ہے۔ اس کا مسلسل مقصد کمپنی اور اس کے اسٹیک ہولڈرز کے طویل مدتی مفادات میں ترقی، منافع، مالیاتی احتیاط، رسک مینجمنٹ، پائیداری اور مضبوط کارپوریٹ گورننس کے درمیان مناسب توازن برقرار رکھنا ہے۔

بورڈ مطمئن ہے کہ سال کے دوران متعین کی گئی اسٹریٹجک سمت مستقبل کی کارکردگی کے لیے ایک مضبوط بنیاد فراہم کرتی ہے اور وہ انگریزی کی ذمہ داریاں محنت، احتیاط اور آزادانہ حیثیت کے ساتھ انجام دینے کے لیے پُر عزم ہے۔

مستقبل کا منظر نامہ

ٹیکسٹائل کے شعبے کے لیے مستقبل کا منظر نامہ مواقع اور چیلنجز دونوں پیش کرتا ہے۔ مالیاتی حالات میں بہتری صنعت کے لیے کچھ معاونت فراہم کرتی ہے، جبکہ پاکستان کا قائم شدہ ٹیکسٹائل مینوفیکچرنگ بیس بین الاقوامی منڈیوں میں مسلسل مواقع فراہم کرتا ہے۔ تاہم، صنعت کو علاقائی سطح پر شدید مسابقت، توانائی کے اخراجات، کمپاس کی دستیابی اور قیمتوں، شرح تبادلہ میں تبدیلیوں، ٹیکس اور ریگولیٹری تبدیلیوں اور عالمی طلب میں غیر یقینی صورتحال جیسے عوامل کا سامنا بدستور رہے گا۔

اس پس منظر میں، بورڈ کا خیال ہے کہ دین ٹیکسٹائل کے لیے مناسب راستہ یہ ہے کہ وہ ان شعبوں پر توجہ مرکوز رکھے جہاں پائیدار مسابقتی فوائد پیدا کیے جاسکتے ہیں۔ چنانچہ کمپنی آپریشنل کارکردگی، منظم ورکنگ کپیٹل مینجمنٹ، محتاط مالیاتی انتظام، توانائی کی کارکردگی، ویلیو ایڈڈ مصنوعات کی ترقی، صارفین کے ساتھ تعلقات اور اپنی مینوفیکچرنگ صلاحیتوں کے بہتر استعمال کو ترجیح دیتی رہے گی۔

سال کے اختتام کے بعد منصوبہ بند سولر توسیع کی تکمیل اور آپریشنل سولر صلاحیت کو 12.6 میگا واٹ تک پہنچانا زیادہ مؤثر اور چمک پذیر توانائی کے نظام کے قیام کی جانب مزید پیش رفت کی نمائندگی کرتا ہے۔ بورڈ ایسی صورت میں کارکردگی بہتر بنانے اور قابل تجدید توانائی کے مزید مواقع کا جائزہ لیتا رہے گا جہاں وہ تجارتی اعتبار سے موزوں ہوں۔

مستقبل میں سرمایہ کاری سے متعلق فیصلوں کا جائزہ متوقع منافع، مارکیٹ کے حالات، مالیاتی ضروریات اور کمپنی کے طویل مدتی اسٹریٹجک مقاصد میں ان کے کردار کی بنیاد پر احتیاط سے لیا جاتا رہے گا۔ بورڈ کا خیال ہے کہ سال کے دوران حاصل ہونے والی پیش رفت ایک ایسی بنیاد فراہم کرتی ہے جس پر مزید بہتری کے عمل کو آگے بڑھایا جاسکتا ہے۔ مستقبل کی ترجیح اس پیش رفت کو منظم اور مؤثر عمل درآمد کے ذریعے مستحکم کرنا اور آپریشنل بہتری کو پائیدار مالیاتی کارکردگی اور شیئر ہولڈرز کے لیے طویل مدتی قدر میں تبدیل کرنا ہے۔

اظہار تشکر

بورڈ آف ڈائریکٹرز کی جانب سے، میں دین ٹیکسٹائل ملز لمیٹڈ کی انتظامیہ اور ملازمین کی سال کے دوران اُن کی وابستگی، پیشہ ورانہ صلاحیت اور خدمات پر دلی شکریہ ادا کرتا ہوں۔ اُن کی کاوشیں مشکل کاروباری ماحول سے نمٹنے اور کمپنی کو دوبارہ منافع بخش بنانے میں نہایت اہم ثابت ہوئی ہیں۔

میں اپنے ڈائریکٹرز کی قیمتی رہنمائی، تعمیری غور و فکر اور کمپنی کے معاملات کے لیے مسلسل وابستگی کو بھی سراہتا ہوں۔ ہم اپنے صارفین کے مسلسل اعتماد، اپنے سپلائرز اور کاروباری شراکت داروں کے تعاون اور اپنے مالیاتی اداروں کی مسلسل معاونت کے لیے شکر گزار ہیں۔

نمائندگی بھی شامل ہے۔ اس امتزاج کے ذریعے متعلقہ صنعتی معلومات، کاروباری تجربہ، مالیاتی مہارت اور آزادانہ رائے کو یکجا کیا گیا۔

بورڈ ان معاملات میں فعال طور پر شامل رہا جن پر اس کی توجہ درکار تھی اور باخبر فیصلہ سازی میں معاونت کے لیے اسے مالیاتی، آپریشنل اور اسٹریٹجک معلومات فراہم کی جاتی رہیں۔ اہم معاملات پر ان کے تجارتی، مالیاتی، ریگولیٹری اور رسک سے متعلق اثرات کو مد نظر رکھتے ہوئے غور کیا گیا، جبکہ گورننس کے انتظامات نے بورڈ کی نگرانی کی ذمہ داریوں اور انتظامیہ کی ایگزیکٹو ذمہ داریوں کے درمیان مناسب امتیاز برقرار رکھا۔

آڈٹ کمیٹی نے مالیاتی رپورٹنگ، اندرونی اور بیرونی آڈٹ، اندرونی کنٹرولز اور متعلقہ فریقوں کے ساتھ لین دین کی نگرانی میں بورڈ کی معاونت جاری رکھی، جبکہ ہیومن ریسورس اور ریزریشن کمیٹی نے انسانی وسائل کی پالیسیوں، تنظیمی ترقی اور معاونوں سے متعلق اپنے دائرہ کار میں آنے والے امور میں بورڈ کی معاونت جاری رکھی۔

بورڈ نے قابل اطلاق کارپوریٹ گورننس فریم ورک کے مطابق اپنی کارکردگی کے سالانہ جائزے کا طریقہ کار بھی برقرار رکھا۔ جائزے کے عمل میں اس امر کو مد نظر رکھا جاتا ہے کہ بورڈ اپنی بنیادی ذمہ داریاں کس حد تک مؤثر طریقے سے انجام دیتا ہے۔ اس میں بورڈ کی تشکیل اور معیار، بورڈ کے فرائض، مالیاتی کارکردگی، قانونی ذمہ داریاں، کارپوریٹ گورننس، رسک مینجمنٹ، ہیومن ریسورس مینجمنٹ، تحقیق و ترقی اور کاروباری توسیع سے متعلق امور شامل ہیں۔ یہ شعبہ کمپنی کی جانب سے تاریخی طور پر اختیار کیے جانے والے جائزے کے فریم ورک سے مطابقت رکھتے ہیں۔

سال کے دوران بورڈ نے کمپنی کے مقاصد کے حصول کے لیے بنیادی اہمیت رکھنے والے معاملات پر نگرانی اور رہنمائی جاری رکھی، جن میں مالیاتی کارکردگی، کاروباری حکمت عملی، ورکنگ کپٹل اور مالیاتی سہولیات، سرمایہ کی تخصیص، آپریشنل کارکردگی، قابل تجدید توانائی، رسک مینجمنٹ، گورننس اور ویلیو ایڈڈ آپریشنز کی ترقی شامل ہیں۔

بورڈ نے اپنی کمیٹیوں کی سرگرمیوں اور سفارشات کا بھی مسلسل جائزہ لیا اور ان معاملات میں انتظامیہ کے ساتھ فعال رابطہ برقرار رکھا جن میں اسٹریٹجک رہنمائی یا اصلاحی اقدامات درکار تھے۔ سالانہ جائزے اور سال کے دوران بورڈ کی جانب سے اپنی ذمہ داریاں انجام دینے کے طریقہ کار کی بنیاد پر، مجھے اطمینان ہے کہ بورڈ نے اپنا کردار مؤثر طریقے سے ادا کیا اور کمپنی کی گورننس، اسٹریٹجک سمت اور نگرانی میں مناسب طور پر فعال رہا۔

کمپنی کے مقاصد کے حصول میں بورڈ کی مؤثریت

بورڈ کی مؤثریت کا حتمی اظہار اس کی اس صلاحیت سے ہوتا ہے کہ وہ رہنمائی فراہم کرے، مناسب نگرانی کرے اور اس کو یقینی بنائے کہ انتظامیہ کمپنی کے اسٹریٹجک اور مالیاتی مقاصد پر اپنی توجہ برقرار رکھے۔ سال کے دوران بورڈ کی کاوشیں بنیادی طور پر منافع کی بحالی، آپریشنل کارکردگی میں بہتری، مالیاتی نظم و ضبط کو مضبوط بنانے اور کمپنی کو پائیدار بہتری کے لیے تیار کرنے پر مرکوز رہیں۔

گزشتہ سال ریکارڈ کیے گئے خسارے کے بعد دوبارہ منافع بخش ہونا ایک حوصلہ افزاء پیش رفت ہے۔ تاہم، بورڈ اس امر کو تسلیم کرتا ہے کہ مالیاتی بحالی کو کاروبار کے بنیادی عوامل میں مسلسل بہتری سے تقویت ملنا ضروری ہے۔

سال کے دوران آپریشنل سولر صلاحیت میں اضافہ توانائی کی کارکردگی بہتر بنانے اور روایتی توانائی کی لاگت سے کمپنی کے انحصار کو کم کرنے کے مقصد کی جانب ٹھوس پیش رفت کی عکاسی کرتا ہے، جبکہ سال کے اختتام کے بعد منصوبہ بند توسیع کی تکمیل کے نتیجے میں مزید اضافہ اس اسٹریٹجک سمت کو مزید تقویت دیتا ہے۔

میں کمی اور مالی وسائل کے مناسب استعمال پر توجہ مرکوز رکھی۔

بورڈ نے کمپنی کی مالیاتی پوزیشن اور مالیاتی ضروریات کا باقاعدگی سے جائزہ لیا اور قرضوں کے محتاط انتظام کی ضرورت کو مد نظر رکھا۔ اگرچہ سال کے دوران مالیاتی اخراجات میں کمی سے منافع پر نمایاں مثبت اثر پڑا، تاہم مالیاتی نظم و ضبط برقرار رکھنا ایک اہم ترجیح ہے۔

سرمایہ جاتی اخراجات کی تجاویز کا جائزہ اسٹریٹجک اہمیت، آپریشنل ضرورت، متوقع مالیاتی منافع اور کمپنی کی مجموعی مالیاتی پوزیشن پر ان کے اثرات کے تناظر میں لیا جاتا رہا، جس میں خاص طور پر ایسی سرمایہ کاری پر زور دیا گیا جو آپریشنل کارکردگی بہتر بنانے، ساختی اخراجات کم کرنے اور کمپنی کی مسابقتی پوزیشن مضبوط بنانے میں معاون ہو۔

رسک مینجمنٹ

بورڈ اس کو تسلیم کرتا ہے کہ مؤثر رسک مینجمنٹ کمپنی کی طویل مدتی پائیداری کے لیے ناگزیر ہے۔ سال کے دوران بورڈ اور اس کی کمیٹیوں نے کاروبار کو درپیش اہم خطرات کی نگرانی جاری رکھی، جن میں کپاس اور دیگر خام مال کی قیمتوں میں اتار چڑھاؤ، توانائی کی دستیابی اور لاگت، شرح تبادلہ میں تبدیلیاں، شرح سود، صارفین سے متعلق کریڈٹ رسک، مالیاتی اور لیکویڈیٹی کی ضروریات، ملکی اور بین الاقوامی منڈیوں میں مسابقت، ٹیکس اور ریگولیٹری تبدیلیاں، جغرافیائی سیاسی غیر یقینی صورتحال اور بین الاقوامی تجارت میں رکاوٹیں شامل ہیں۔

بورڈ نے انتظامیہ کی حوصلہ افزائی جاری رکھی کہ وہ اُبھرتے ہوئے خطرات کی ابتدائی مرحلے میں نشاندہی کرے اور حکمت عملی اور آپریشنل فیصلوں میں خطرات سے متعلق عوامل کو شامل کرے۔ توانائی سے متعلق خطرات پر خصوصی توجہ جاری رکھی گئی، جبکہ کمپنی کی سولر توانائی پیدا کرنے کی صلاحیت میں بتدریج توسیع ان اقدامات میں سے ایک ہے جو روایتی توانائی کی لاگت سے کمپنی کے انحصار کو کم کرنے اور مینوفیکچرنگ آپریشنز کی لچک پذیری بہتر بنانے کے لیے کیے گئے ہیں۔

پائیداری اور ذمہ دارانہ کاروبار

بورڈ اس کو تسلیم کرتا ہے کہ ٹیکسٹائل مصنوعات تیار کرنے والے اداروں کی طویل مدتی مسابقتی صلاحیت کے لیے پائیداری سے متعلق امور کی اہمیت میں مسلسل اضافہ ہو رہا ہے۔ بین الاقوامی صارفین اور منڈیاں ذمہ دارانہ ذرائع سے خام مال کے حصول، توانائی کی کارکردگی، وسائل کے تحفظ، ماحولیاتی کارکردگی، کام کی جگہ کے طریقہ کار اور ٹیکسٹائل سپلائی چین میں شفافیت پر مسلسل زیادہ زور دے رہی ہیں۔

قابل تجدید توانائی میں کمپنی کی مسلسل سرمایہ کاری اس کی پائیداری کی حکمت عملی کا ایک نمایاں جزو ہے۔ سال کے دوران آپریشنل سولر توانائی پیدا کرنے کی صلاحیت بڑھ کر 11.2 میگا واٹ ہو گئی، جبکہ رپورٹنگ کی تاریخ کے بعد منصوبہ بند توسیع کی تکمیل کے نتیجے میں کل آپریشنل صلاحیت مزید بڑھ کر 12.6 میگا واٹ ہو گئی۔

بورڈ کا نقطہ نظر یہ ہے کہ پائیداری سے متعلق امور کو بنیادی کاروبار سے الگ سرگرمی سمجھنے کے بجائے تجارتی اور سرمایہ کاری سے متعلق فیصلوں میں شامل کیا جائے۔ چنانچہ قابل تجدید توانائی، وسائل کا مؤثر استعمال، ذمہ دارانہ پیداواری طریقہ کار، کام کی جگہ پر حفاظت اور انسانی سرمائے کی ترقی کمپنی کے طویل مدتی قدر پیدا کرنے کے طریقہ کار کے اہم اجزاء ہیں۔

کارپوریٹ گورننس، بورڈ کی نگرانی اور جائزہ

بورڈ کمپنی بھر میں مؤثر گورننس فریم ورک برقرار رکھنے اور جواب دہی، شفافیت اور ذمہ دارانہ فیصلہ سازی کو فروغ دینے کے لیے پُر عزم رہا۔ سال کے دوران بورڈ کی تشکیل میں کوئی تبدیلی نہیں ہوئی۔ بورڈ کو ایگزیکٹو، نان ایگزیکٹو اور آزاد ائریکٹرز کی مناسب نمائندگی کے امتزاج سے مسلسل فائدہ حاصل رہا، جس میں خواتین کی

کارکردگی اور آمدنی کے معیار پر مسلسل توجہ دینا ضروری ہے۔

حکمت عملی کی سمت اور آپریشنل کارکردگی

بورڈ نے کمپنی کی حکمت عملی کی ترجیحات کے حوالے سے رہنمائی فراہم کرنے کا سلسلہ جاری رکھا اور آپریشنل اور مالیاتی اہداف کے مقابلے میں انتظامیہ کی پیش رفت کا باقاعدگی سے جائزہ لیا۔ حکمت عملی کا بنیادی مرکز آپریشنل کارکردگی میں بہتری، ذمہ دارانہ سرمایہ کاری، ویلیو ایڈڈ آپریشنز، مینوفیکچرنگ صلاحیتوں کے بہتر استعمال اور ساختی آپرینٹنگ اخراجات میں کمی کے اقدامات کے ذریعے کمپنی کی مسابقتی پوزیشن کو مضبوط بنانا رہا۔

توانائی کی لاگت پاکستان کی ٹیکسٹائل صنعت کو درپیش اہم ترین مشکلات میں سے ایک ہے، چنانچہ بورڈ نے قابل تجدید توانائی کی جانب کمپنی کی منتقلی کی مسلسل حمایت کی، جو کمپنی کی لاگت کی کارکردگی اور پائیداری کی حکمت عملی کا ایک اہم جزو ہے۔

مالی سال 2026 کے دوران کمپنی نے اپنی آپریشنل سولر صلاحیت میں 3.2 میگا واٹ کا اضافہ کیا، جس کے نتیجے میں کل آپریشنل سولر صلاحیت بڑھ کر 11.2 میگا واٹ ہو گئی۔ یہ توسیع روایتی توانائی کے ذرائع پر انحصار کم کرنے اور کمپنی کے توانائی کے امتزاج کی چمک پذیری بہتر بنانے کی جانب ایک نمایاں پیش رفت تھی۔

سال کے اختتام کے بعد کمپنی نے منصوبہ بند سولر توسیع کا بقیہ حصہ کامیابی سے مکمل کر کے اسے آپریشنل کر دیا اور، جیسا کہ 21 اگست 2026 کو پاکستان اسٹاک ایکسچینج کو مطلع کیا گیا، کل آپریشنل سولر صلاحیت مزید بڑھ کر 12.6 میگا واٹ ہو گئی۔

قابل تجدید توانائی میں بتدریج سرمایہ کاری، لاگت کی کارکردگی، ذمہ دارانہ سرمایہ کاری اور زیادہ آپریشنل چمک پذیری کے ذریعے کاروباری کارکردگی بہتر بنانے کے وسیع تر طریقہ کار کی عکاسی کرتی ہے۔

ویلیو ایڈڈ آپریشنز اور کاروباری ترقی

بورڈ نے کمپنی کی طویل مدتی حکمت عملی کے ایک حصے کے طور پر ویلیو ایڈڈ ٹیکسٹائل آپریشنز کی ترقی کی حوصلہ افزائی جاری رکھی۔ بورڈ اس کو مد نظر رکھتا ہے کہ ٹیکسٹائل کی صنعت صارفین کی بدلتی ہوئی ضروریات، مصنوعات کے مختصر ہوتے دورانیے، پائیداری سے متعلق تقاضوں اور مربوط مینوفیکچرنگ صلاحیتوں کی بڑھتی ہوئی طلب سے تیزی سے متاثر ہو رہی ہے۔

اس پس منظر میں، ویلیو ایڈڈ مصنوعات میں بڑھتی ہوئی شرکت کمپنی کی آمدنی کی بنیاد کو متنوع بنانے، صارفین کے ساتھ تعلقات مضبوط کرنے اور ٹیکسٹائل ویلیو چین میں زیادہ حصہ حاصل کرنے کا موقع فراہم کرتی ہے۔

چنانچہ بورڈ نے مصنوعات کے امتزاج کو بہتر بنانے، مارکیٹ کے مواقع پیدا کرنے اور صارفین کی بدلتی ہوئی ضروریات کے مطابق رد عمل دینے کی کمپنی کی صلاحیت مضبوط بنانے کے لیے انتظامیہ کی کوششوں کی حمایت جاری رکھی۔ تاہم، سرمایہ کاری اور توسیع سے متعلق فیصلوں کا جائزہ متوقع منافع، مارکیٹ کے حالات، مالیاتی اثرات اور کمپنی کے اسٹریٹجک مقاصد میں ان کے کردار کو مد نظر رکھتے ہوئے لیا جاتا رہا۔

مالیاتی نگرانی اور سرمایہ کا انتظام

بورڈ نے پورے سال کمپنی کے مالیاتی ڈھانچے، لیکویڈیٹی، ورکنگ کپیٹل کی ضروریات اور سرمایہ جاتی اخراجات کی کڑی نگرانی جاری رکھی۔ حالیہ برسوں کے تجربے نے ترقی اور مالیاتی چمک پذیری کے درمیان مناسب توازن برقرار رکھنے کی اہمیت کو مزید اجاگر کیا ہے، چنانچہ انتظامیہ نے ورکنگ کپیٹل کے مؤثر انتظام، مالیاتی اخراجات

چیرمین کا جائزہ

دین ٹیکسٹائل ملز لمیٹڈ کے بورڈ آف ڈائریکٹرز کے چیرمین کی حیثیت سے، مجھے 30 جون 2026 کو ختم ہونے والے سال کے دوران بورڈ کی مجموعی کارکردگی اور کمپنی کے مقاصد کے حصول میں اس کے کردار کی مؤثریت کا جائزہ پیش کرتے ہوئے خوشی ہو رہی ہے۔

زیر جائزہ سال انتہائی کام اور بحالی کا سال رہا۔ گزشتہ سال کی مشکل صورتحال کے بعد، بورڈ نے منافع بحال کرنے، مالیاتی نظم و ضبط کو مضبوط بنانے، آپریشنل کارکردگی بہتر بنانے اور کمپنی کو پائیدار نمو کے لیے تیار کرنے پر اپنی توجہ مرکوز رکھی۔ بورڈ نے حکمت عملی کی سمت متعین کرنے، کارکردگی کی نگرانی، اہم خطرات کی نگرانی اور کمپنی اور اس کے اسٹیک ہولڈرز کے طویل مدتی مفادات کے تحفظ کے لیے فعال کردار ادا کیا۔

معاشی اور صنعتی ماحول

سال کے دوران ٹیکسٹائل کی صنعت کو مسلسل مشکل حالات کا سامنا رہا۔ مقامی مینوفیکچررز کو بلند توانائی کے اخراجات، کپاس اور دیگر خام مال کی قیمتوں میں اتار چڑھاؤ، شرح تبادلہ میں تبدیلیوں اور علاقائی ٹیکسٹائل پیدا کرنے والے ممالک کی جانب سے شدید مسابقت کا سامنا رہا، جبکہ بین الاقوامی طلب وسیع تر معاشی اور جغرافیائی سیاسی پیش رفت کے حوالے سے حساس رہی۔ دوسری جانب، ملکی شرح سود میں کمی نے ان کاروباری اداروں کو کچھ ریلیف فراہم کیا جنہیں ورکنگ کپیٹل اور مالیاتی سہولیات کی نمایاں ضروریات کا سامنا تھا۔ یہ پیش رفت ٹیکسٹائل کی صنعت کے لیے خاص طور پر اہم تھی، جہاں گزشتہ ادوار کے دوران مالیاتی اخراجات منافع پر ایک بڑی رکاوٹ بن گئے تھے۔

اس ماحول میں بورڈ نے ان عوامل پر توجہ مرکوز رکھی جو کمپنی کے اختیار میں تھے اور انتظامیہ کی حوصلہ افزائی کی کہ وہ مالیاتی نظم و ضبط برقرار رکھے، مینوفیکچرنگ کی کارکردگی بہتر بنائے، ورکنگ کپیٹل کو مؤثر بنائے، صارفین کے ساتھ تعلقات مضبوط کرے اور ایسے اقدامات پر عمل درآمد کرے جو کمپنی کے طویل مدتی لاگت کے ڈھانچے کو بہتر بنانے میں معاون ثابت ہوں۔

مالیاتی کارکردگی

کمپنی کی مالیاتی کارکردگی میں سال کے دوران بہتری آئی اور کمپنی دوبارہ منافع بخش حیثیت میں آ گئی۔ سال کے دوران خالص فروخت تقریباً 33.09 بلین روپے رہی، جبکہ مجموعی منافع بڑھ کر تقریباً 4.16 بلین روپے ہو گیا، جو گزشتہ سال 3.74 بلین روپے تھا، حالانکہ آمدنی کی بنیاد نسبتاً کم رہی۔ اس کے نتیجے میں مجموعی منافع کے مارجن میں بہتری آئی، جو سال کے دوران بہتر آپریٹنگ معاشیات کی عکاسی کرتی ہے۔

مالیاتی اخراجات میں بھی نمایاں بہتری ریکارڈ کی گئی، جو گزشتہ سال کے 3.04 بلین روپے کے مقابلے میں کم ہو کر تقریباً 2.11 بلین روپے رہ گئے۔ مالیاتی بوجھ میں کمی اور بنیادی آپریشنل کارکردگی میں بہتری نے کمپنی کے دوبارہ منافع بخش ہونے میں نمایاں کردار ادا کیا۔

چنانچہ کمپنی نے محصولات اور ٹیکس سے قبل تقریباً 1,058.36 بلین روپے کا منافع ریکارڈ کیا، جبکہ گزشتہ سال 230.57 بلین روپے کا محصولات اور ٹیکس سے قبل خسارہ ریکارڈ کیا گیا تھا۔ ٹیکس کے بعد منافع تقریباً 103.55 بلین روپے رہا، جبکہ گزشتہ سال ٹیکس کے بعد 706.50 بلین روپے کا خسارہ تھا۔ فی حصص آمدنی بھی فی حصص 13.47 روپے کے خسارے سے بہتر ہو کر فی حصص 1.97 روپے ہو گئی۔

سال کی کل جامع آمدنی تقریباً 110.56 بلین روپے رہی، جس میں اسٹاف کے ریٹائرمنٹ فوائد کی دوبارہ پیمائش کا اثر بھی شامل ہے۔ بورڈ کمپنی کے دوبارہ منافع بخش ہونے کو ایک مثبت پیش رفت سمجھتا ہے؛ تاہم، وہ آگاہ ہے کہ پائیدار مالیاتی کارکردگی کے لیے آپریٹنگ مارجنز، مالیاتی ضروریات، ورکنگ کپیٹل کی
