Chairperson Message

// I warmly welcome you all to the **AKD Securities** Profile, which provides a concise overview of our organization's breadth, introduces our people, and highlights our past performance, positioning us uniquely to grow alongside Pakistan's developmental milestones. **//**

Embodying the principles of resilience, AKD Securities has always been a truly Pakistani organization at heart, a value we wish to share with you in this profile. You will also see our consistent drive to expand boundaries, including innovations such as Pakistan's first online trading portal, the index tracker fund, and B2C telecommunication services.

The substantial inflow of foreign portfolio investments during the year, in contrast to last year's modest buying and the continuous outflow from FY16 to FY22, further strengthens positive sentiment. The potential of the domestic industry is no longer a secret, with foreign interest only recently beginning to highlight it.

At AKD Securities, we specialize in sharing our on-the-ground acumen, insights honed over more than five decades in some of Pakistan's high-growth, nascent, and emerging business sectors. We have taken bold risks and built our company's strength through continuous dedication to expanding the nation's service industry, marking AKD Securities as a pillar of Pakistan's resilient family-run business community.

We commend you for taking the first step in examining this profile, and we look forward to forming a trusted, mutually beneficial business relationship."

Message

“With the grace of Allah SWT, I begin by expressing my deep appreciation for our achievements, strengthened by an unwavering commitment to attaining sustained success and consistently embracing change.”

As we reflect on the past year, I am filled with immense gratitude for the steadfast support of our clients, partners, and dedicated team members at AKD Securities. We have navigated through a year that, while not without its challenges, has proven to be remarkably transformative for our equity markets and, consequently, for our company's performance.

The significant rise in equity markets, driven by a confluence of factors, is a testament to the potential within our domestic economy. The unwavering confidence of our clients has played a pivotal role in capitalizing on these positive dynamics, resulting in growth for our company. Over the past year, we have witnessed a healthy transformation of our economic landscape, with efforts primarily focused on fostering relationships with foreign investors and partners. This confidence from our bilateral and multilateral partners led to the replenishment of our foreign reserves to over two-year highs, providing essential stability to the domestic currency and significantly improving the inflation outlook. Additionally, a successful election year has further intensified optimism for the economic outlook in the periods to come. As Bernard Baruch aptly noted about overcoming challenges, “The art of living lies not in eliminating, but in growing with troubles.”

Our team at AKD Securities faces a bright future, with opportunities for sustainable growth, superior value delivery for clients, and enhanced competition within the industry. As a corporate brokerage house and investment bank, it is critical for the company to secure its fair share of the ever-increasing business volumes and financial market products.

We at AKD Securities present this corporate profile as an overview of our achievements and extend an invitation to form a profitable relationship with us.

Directors' Review to the Members

The Board of Directors of AKD Securities Limited ("the Company") is pleased to present the audited financial statements together with the Auditors' report thereon for the year ended 30 June 2026.

Economic Review

Pakistan's economy demonstrated sustained improvement and continued path of stabilization during FY26, reflecting the resilience built by disciplined fiscal and monetary policies along with structural reforms, despite floods and geopolitical tensions emerging in the later half of the year. The economic growth rate improves to 3.7%, while inflation rose slightly to 7.1%, supported by a lower policy rate, exchange rate stability, and prudent macroeconomic management.

Economic growth remained broad based in FY26, as the Agricultural sector grew by 2.89%, supported by Industrial and Services sectors growth of 3.51% and 4.09%, respectively. GDP at current market prices increased by 11.3%YoY to PkR126.8 trillion in FY26. In dollar terms, GDP grew at a stronger pace of 10.8% YoY to US\$452.1 billion, supported by stable exchange rate. Similarly, the country's per capita income in US dollar terms rose to record US\$1,901 compared to US\$1,751 in FY25.

In FY26, CPI inflation slightly increase to 7.1%YoY from 4.5% during the last year due to supply chain disruptions caused by floods and higher international prices post Middle East conflict. The external account has remained broadly balanced, with the current account recording a marginal deficit given record high remittance amid growing imports. Curtailed current account along with higher foreign exchange reserves helped offset the import recovery associated with economic recovery.

On the fiscal front, country reported its lowest fiscal deficit on record of 2.6% of GDP in FY26, with revenue collection of PkR19.8 trillion. Notably, the primary balance rose to record PkR3.6 trillion (2.9% of GDP) from PkR2.7 trillion due to continued revenue growth and contained government expenditures. This created room for higher development spending, as federal PSDP rose by 9.7%YoY to PkR3.3 trillion as compared to PkR3.0 trillion in FY25.

In FY26, the current account recorded a marginal deficit of US\$304 million, after posting the first annual surplus in 14 years and the largest surplus in 22 years in FY25. Goods exports declined by 4.7%YoY, reaching US\$30.8 billion, while imports increased to

US\$64.5 billion compared to US\$59.1 billion in FY25, due to continued domestic growth. As a result, the goods trade deficit inclined to US\$33.7 billion from US\$26.8 billion in the prior year. On the contrary, services deficit declined by 29.5% to US\$2.0 billion due to strong growth of 18.6% in services exports supported by robust Technology exports. Meanwhile, remittances saw 8.6%YoY increase, reaching record US\$41.6 billion in FY26.

Equity Market Review

The KSE-100 Index continued its upward trajectory, delivering a robust return of 43.5% during the year, following gains of 60.1% and 89.2% in FY25 and FY24, respectively. Policy consistency through prudent monetary and fiscal measures under the umbrella of IMF, coupled with rating upgrades followed by Pakistan's successful re-entry into international debt markets and significant diplomatic achievements, underpinned the KSE 100 Index's strong performance in FY26. Furthermore, the effective management of the recent commodity price shock triggered by regional geopolitical tensions helped restore investor confidence, enabling the market to recover most of the losses incurred after reaching its peak at the end of Jan'26. Market participation remained strong, with the average daily traded volume rising by 40.8% YoY to 1,168 million shares. Higher volumes, combined with increased share prices, led to a 48.5% YoY surge in average traded value. As a result, the Value-to-Volume ratio (average price per traded unit) rose to PkR 48.5 per share, up from PkR 46.1 per share in the same period last year (SPLY).

In terms of sector performance, Technology, Commercial Banks, and Investment Companies emerged as the top-performing sectors, posting gains of 52%, 51%, and 50% respectively during the year. The Fertilizer, Power and Oil & Gas Exploration sector also recorded solid growth, with returns of 41%, 39% and 33%, respectively, during the same period. Notably, all major sectors posted positive returns during FY26.

Foreign investors offloaded equities worth US\$848 million, given the exit of foreign groups as part of group restructuring and elevated interest rates in developed countries. The largest outflows were seen in the Cement (US\$311 million), FMCG (US\$191 million), and Banks (US\$143 million) sectors. Additionally, Oil & Gas Exploration sector and Fertilizer sectors recorded outflows of US\$39.8 million and US\$34.6 million, respectively.

Companies, Mutual Funds and Individuals absorbed the aggressive foreign selling, rushing to buy equities at lower valuations. Companies increased their exposure to equities the most, adding US\$587mn, followed by Mutual Funds and Individuals with a net buy of US\$401mn and US\$328mn, respectively. However, Insurance companies, Banks and Other Organizations remained net sellers, with outflows of US\$241/172/54 million, respectively.

Debt and Currency Market Review

The current account remained broadly contained in FY26 along with continuous improvement in SBP's FX reserves improved significantly from US\$14.5 billion at end-Jun'25 to record fiscal year closing of US\$18.4 billion at end-Jun'26. The ongoing IMF Extended Fund Facility (EFF), and Resilience & Sustainability Facility (RSF) have helped strengthen the macroeconomic environment, rebuild investor confidence, and attract private investment. Furthermore, the government is addressing long-term challenges such as climate change through climate finance initiatives, including access to the RSF and the successful launch of the Green Sukuk, which reinforce the path towards inclusive and sustainable growth. On the back of these developments, International Credit Rating Agencies recently upgraded Pakistan's long-term sovereign credit ratings, indicating improved institutional capacity, sustained implementation of reforms, improved fiscal performance, and a significant rebuilding of foreign exchange reserves.

The SBP tightened the monetary policy to 11.5% to contain inflationary pressures post Middle East conflict, particularly emerged from uptick in domestic fuel prices triggered by higher prices in Int'l energy markets. Despite the recent uptick in energy prices, we expect inflation to remain at within the SBP targeted range of 5–7%, given the stable currency and positive resolution of Middle East conflict in the first half of this year. Therefore, we foresee SBP cutting the policy rate by 200 basis points during FY27, driven by increasing real interest rates amid a contained

current account position, foreign exchange reserves at import cover of more than 3.0 months, and lowering of short-term external debt servicing due to change in debt profile.

Commodity Market Review

Renewed geopolitical risk and tightening supply reversed FY25's subdued trend due to Middle East conflict, driving a broad-based rally across most commodities during FY26. Brent crude closed the year at US\$73/bbl compared to US\$68/bbl SPLY, up 7.8% YoY after pulling back from a high of US\$118 in April'26, following the ceasefire and gradual de-escalation between the U.S and Iran. Copper prices rose by 35.5%YoY to end FY26 at US\$13,375/ton versus US\$9,869/ton SPLY, attributed to severe supply disruptions from mine shutdowns coupled with booming structural demand from AI data centers. Similarly, cold-rolled coil (CRC) steel prices increased by 6.8%YoY to end at US\$550/ton, supported by steady automotive, engineering, and manufacturing demand along with protective trade policies in key markets. Grain markets remained up attributed to severe global harvest failures and soaring fertilizer costs. Wheat prices increased by 9.8%YoY to US\$581/bushel, while cotton futures gained 5%YoY to close at US\$72/lb. Gold continued to outperform, with prices rising 22.1%YoY to end at US\$4038/t.oz, backed by global central banks buying and increased safe-haven demand amid recessionary expectations and global geopolitical instability. Other commodities showed similar trends: coal (up 11.1%YoY) saw stronger demand as war-induced natural gas disruptions forced power plants to switch to coal, alongside global mining constraints. At the same time, urea prices continued growth momentum (up 6.8%YoY). PVC prices ended up 4.2%YoY at US\$740/ton, after pulling back from a high of US\$1,160/ton following the US-Iran ceasefire agreement.

Financial Performance

The financial performance of your Company for the year ended June 30, 2026, as compared to last year is as follows

Particulars	30 June 2026	30 June 2025
	Rs.	Rs.
Operating revenue	3,021,317,337	1,953,704,329
Operating profit	7,479,180,134	4,203,638,490
Profit before income and final tax	7,457,131,792	4,136,284,044
Profit after tax	5,770,022,192	3,156,335,624
Earnings per share	10.34	5.66

The Company delivered a strong and resilient financial performance during 2026, achieving substantial growth across its core business segments. Operating revenue increased by 55% compared with the preceding year, reflecting sustained business momentum and the Company's ability to capitalize on opportunities across the capital markets.

The Brokerage Division remained the principal driver of the Company's performance. Total brokerage revenue increased to PKR 2,898 million, compared with PKR 1,921 million in FY2025, representing an impressive 51% year-on-year growth. Equity Brokerage continued to be the largest contributor to brokerage revenue, while the Money Market and Commodity Brokerage businesses also recorded significant growth during the year, contributing to the overall expansion of the Company's revenue base.

The Financial Advisory Division also delivered exceptional growth during the year. Revenue from the division increased by Rs. 113 million, representing a remarkable 278% increase compared with the corresponding period of the previous year.

On the expense side, administrative and operating costs increased by 27%, mainly reflecting inflationary pressures and higher variable costs associated with the growth in business volume.

The Company's improved financial performance was also reflected in its earnings per share. EPS increased to Rs. 10.34 from Rs. 5.66 in FY2025, representing an increase of 83% year-on-year. This significant improvement demonstrates the Company's strong earnings growth and enhanced value generation for its shareholders.

Overall, 2026 marked a year of significant growth and improved profitability for the Company, supported by strong brokerage performance, notable expansion in Financial Advisory activities, and continued growth across its diversified business segments.

Future Outlook

Real GDP is expected to improve and remain broad based in FY27, as the stabilization gains of last 4 years continued to support economic recovery and strengthen prospects for sustainable growth.

Moreover, reforms aimed at enhancing agricultural productivity, revitalizing industrial activity, promoting exports, and expanding the digital landscape are expected to support the attainment of 5.7% growth in the medium term. Inflation is projected to remain within the SBP's target range of 5–7%, supported by easing global commodity prices post positive settlement of Middle East crisis. This, along with exports diversification and pick up in Food sector exports, is expected to help contain the trade deficit. The government's push to scale up domestic production, coupled with growth in IT exports and the deployment of skilled labor to GCC, would further strengthen the external account position. Consequently, the current account deficit is expected to remain at a sustainable level of 0% to 1% of GDP over the medium term, supporting stable economic growth.

Pak Rupee is expected to remain strong, supported by robust workers' remittance inflows, lower interest payments, improving foreign exchange buffers, and renewed access to international markets following credit rating upgrades. Moreover, upcoming schemes to encourage remittances are expected to outweigh the impact of reduced subsidies for remittances amid structural improvements in the FX market and strengthened governance. The recent uptick in oil and other commodity prices along with lower RLNG inflows will also help offset any rise in petroleum imports, thereby keeping persistent external pressures at bay.

Comfortable external account position due to positive current account surplus and successful re-entry into Int'l bond market, especially tapping world's second largest market through issuance of Panda Bonds and issuance of US\$3 billion Eurobond in a single day, along with focus on structural reforms would keep equities in limelight. Declining fixed income yields would make the case stronger for equities that are trading at a cheaper forward P/E of 6.8x while providing DY of 7.5%. We anticipate that sectors benefiting from monetary easing and structural reforms, particularly related to energy chain, would remain prominent.

فنانشل ایڈوائزری ڈویژن نے بھی سال کے دوران غیر معمولی ترقی کی۔ اس شعبے کی آمدنی میں 113 ملین روپے کا اضافہ ہوا جو گزشتہ سال کی اسی مدت کے مقابلے میں 278 فیصد کا نمایاں اضافہ ہے۔

اخراجات کے حوالے سے انتظامی اور آپریٹنگ لاگتوں میں 27 فیصد اضافہ ہوا جس کی بنیادی وجہ افراط زر کے دباؤ اور کاروباری حجم میں اضافے کے باعث متغیر اخراجات میں اضافہ ہے۔

کمپنی کی بہتر مالی کارکردگی کا اظہار فی حصص آمدن میں ہوتا ہے۔ فی حصص آمدن مالی سال 2025 میں 5.66 روپے فی حصص کے مقابلے میں 10.34 روپے فی حصص رہی جو سالانہ بنیادوں پر 83 فیصد کا اضافہ اور کمپنی کی آمدنی میں مضبوط اضافے اور حصص یافتگان کے لیے زیادہ قدر پیدا کرنے کی صلاحیت کو ظاہر کرتی ہے۔

کمپنی کیلئے مالی سال 2026 مجموعی طور نمایاں ترقی اور بہتر منافع کا سال رہا جسے بروکریج کی مضبوط کارکردگی، فنانشل ایڈوائزری کی سرگرمیوں میں توسیع اور متنوع کاروباری شعبوں میں مسلسل ترقی کا سہارا ملا۔

مستقبل کی پیش بینی

مالی سال 2027 میں حقیقی جی ڈی پی میں مزید بہتری اور تمام شعبوں میں ترقی جاری رہنے کی توقع ہے۔ گزشتہ چار سال میں معاشی استحکام کے لیے کیے گئے اقدامات سے معیشت کی بحالی میں مدد ملی ہے جبکہ پائیدار معاشی ترقی کے امکانات بھی بہتر ہوئے ہیں۔

زرعی پیداوار میں اضافہ، صنعتی سرگرمی کی بحالی، برآمدات کے فروغ اور ڈیجیٹل منظر نامہ کی توسیع کے حوالے سے اصلاحات سے درمیانی مدت میں 5.7 فیصد شرح نمو حاصل کرنے میں معاونت ملنے کی توقع ہے۔ مشرق وسطیٰ کے بحران کے مثبت حل کے بعد عالمی سطح پر کموڈٹی کی قیمتوں میں کمی کی وجہ سے افراط زر اسٹیٹ بینک کے 5 سے 7 فیصد کے ہدف کے اندر رہنے کی توقع ہے۔ اس سے برآمدات میں تنوع اور غذائی اشیاء کی برآمدات میں اضافے سے تجارتی خسارے کو قابو میں رکھنے میں مدد ملے گی۔ حکومت کی جانب سے ملکی پیداوار بڑھانے کی کوششوں، آئی ٹی برآمدات میں اضافہ اور ٹیکنی ممالک کو ہنرمند افرادی قوت بھیجنے سے بیرونی شعبے کی صورت حال مزید مضبوط ہوگی۔ بیہیاد درمیانی مدت میں حسابات جاریہ کا خسارہ جی ڈی پی کے 0 سے 1 فیصد کے درمیان رہنے کی توقع ہے جس سے معاشی ترقی کا سلسلہ مستحکم رکھنے میں مدد ملے گی۔

بیرون ملک ورکروں کی طرف سے ترسیلات زر میں اضافہ، سود کی ادائیگیوں میں کمی، غیر ملکی زرمبادلہ میں بہتری اور کریڈٹ ریٹنگ میں بہتری کے بعد عالمی منڈیوں تک رسائی کی وجہ سے روپے کی قدر مضبوط رہنے کی توقع ہے۔ اس کے علاوہ ترسیلات زر کھینچوانے کی حوصلہ افزائی کے لیے متوقع نئی اسکیموں سے ترسیلات زر پر دی جانے والی سہولتوں میں کمی کے اثرات پر قابو پانے کی توقع ہے۔ زرمبادلہ کی مارکیٹ میں بنیادی بہتری اور بہتر انتظامی نظام بھی اس میں مددگار ثابت ہوگا۔ حالیہ عرصے میں تیل اور دیگر کموڈٹی کی قیمتوں میں اضافہ جبکہ آرائل این جی کی درآمد میں کمی پٹرولیم مصنوعات کی درآمد میں ممکنہ اضافے کے اثرات کو بھی متوازن کرنے میں مدد دے گی۔ اس طرح بیرونی شعبے پر مسلسل دباؤ کو قابو میں رکھنے میں مدد ملے گی۔

بیرونی حسابات کی مضبوط پوزیشن برقرار رہنے کی توقع ہے جن کی وجوہات میں حسابات جاریہ میں مثبت سرپلس، عالمی بانڈ مارکیٹ میں کامیاب واپسی بخصوص دنیا کی دوسری بڑی بانڈ مارکیٹ سے پانڈا بانڈز کے اجرا اور ایک ہی دن میں 3 ارب ڈالر کے پوروبانڈ کے اجرا اور ڈھانچے جاتی اصلاحات پر توجہ شامل ہیں۔ فکسڈ انکم سرمایہ کاری کے منافع میں کمی سے حصص میں سرمایہ کاری مزید پرکشش ہو سکتی ہے کیونکہ حصص کی فاریور ڈی/ای شری 6.8 گنا کی نسبتاً کم سطح پر ہے جبکہ ڈیویڈنڈ پر منافع 7.5 فیصد ہے۔ توقع ہے کہ

مالیاتی نرمی اور ڈھانچے جاتی اصلاحات سے فائدہ اٹھانے والے بلخصوص توانائی سے متعلق شعبے نمایاں رہیں گے۔

پہنچنے کے بعد بریٹن کروڈ آئل کی قیمتیں سال کے اختتام پر 68 ڈالر فی بیرل رہی جو سالانہ بنیادوں پر 7.8 فیصد زیادہ ہیں۔ مالی سال 2026 کے اختتام پر تاجے کی قیمت سال بہ سال کی بنیاد پر 35.5 فیصد اضافہ کے ساتھ گزشتہ سال کی اسی مدت میں 9,869 ٹن کے مقابلے میں 13,375 ڈالر ٹن رہی جس کی وجہ کانوں کی بندش سے سپلائی میں شدید خلل اور آئی ڈیٹا سینٹرز سے طلب میں اضافہ ہے۔

اسی طرح کوئلہ رولڈ کواکس (سی آر سی) اسٹیل کی قیمت بھی سالانہ بنیادوں پر 6.8 فیصد بڑھ کر 550 ڈالر فی ٹن ہو گئی جس کی وجوہات میں آٹو موٹائل، انجینئرنگ اور مینوفیکچرنگ شعبوں کی مسلسل طلب کے ساتھ اہم مارکیٹوں میں تجارتی تحفظ کی پالیسیوں کا جاری رہنا شامل ہے۔ دنیا بھر میں فصلوں کی شدید کمی اور کھاد کی قیمتوں میں نمایاں اضافہ کی وجہ سے اناج کی قیمتوں میں بھی اضافہ جاری رہا۔ گندم کی قیمت سال بہ سال بنیاد پر 9.8 فیصد بڑھ کر 581 امریکی سینٹ فی بشل ہو گئی جبکہ کپاس کے فیوچرز 5 فیصد اضافے کے بعد 72 امریکی سینٹ فی پائونڈ پر بند ہوئے۔ سونے کی قیمتوں میں بھی نمایاں اضافہ جاری رہا اور سالانہ بنیادوں پر 22.1 فیصد اضافہ سے 4,038 ڈالر فی ٹرائے اونس ہو گئی جس کی بنیادی وجوہات میں دنیا بھر کے مرکزی بینکوں کی جانب سے سونے کی خریداری میں اضافہ، کساد بازاری کے خدشات اور عالمی جیو پالیسیکل کشیدگی کے باعث محفوظ سرمایہ کاری کی طلب میں اضافہ شامل ہیں۔ دیگر کموڈٹیز میں بھی اسی طرح کارباجان دیکھنے کو ملا۔ کونکے کی قیمت میں 11.1 فیصد اضافہ ہوا جبکہ جنگ کے باعث قدرتی گیس کی فراہمی متاثر ہونے سے بجلی گھروں کو نلے کا استعمال بڑھایا جس سے طلب میں اضافہ ہوا۔ دوسری جانب یورپ کی قیمت میں بھی اضافے کا سلسلہ جاری رہا اور سالانہ بنیاد پر اس میں 6.8 فیصد اضافہ ہوا۔ پی وی سی کی قیمت 4.2 فیصد اضافہ کے ساتھ 740 ڈالر فی ٹن ہو گئی۔ امریکا اور ایران کے درمیان جنگ بندی کے معاہدے کے بعد قیمت 1,160 ڈالر فی ٹن کی بلند سطح سے نیچے آئی تاہم مجموعی طور پر سالانہ بنیادوں پر اس میں اضافہ ریکارڈ کیا گیا۔

اس کے علاوہ، حکومت موسمیاتی تبدیلی جیسے طویل مدتی مسائل سے نمٹنے کے لیے آر ایس ایف اور گرین سٹوک کے اجراء سمیت موسمیاتی فنانسنگ کے اقدامات کر رہی ہے جو پائیدار اور سب کو شامل کرنے والی معاشی ترقی کی راہ ہموار کر رہے ہیں۔ ان پیش رفتوں کے نتیجے میں بین الاقوامی کریڈٹ ریٹنگ ایجنسیوں نے حال ہی میں پاکستان کی طویل مدتی خود مختار کریڈٹ ریٹنگ میں بہتر کی ہے۔ اس سے ادارہ جاتی صلاحیت میں بہتری، اصلاحات پر مسلسل عمل درآمد، مالیاتی کارکردگی میں بہتری اور زر مبادلہ کے ذخائر میں نمایاں اضافے کی عکاسی ہوتی ہے۔ اسٹیل بینک آف پاکستان نے مشرق وسطیٰ کشیدگی، مخصوص عالمی توانائی مارکیٹ میں قیمتوں میں اضافہ کی وجہ سے ملکی فیول قیمتوں میں اضافہ کے بعد افراط زر کے دباؤ کو قابو کرنے کیلئے زری پالیسی کو 11.5 فیصد پر رکھا۔ ہوائی توانائی کی قیمتوں میں حالیہ اضافہ کے باوجود ہمیں توقع ہے کہ افراط زر ایس بی پی کے ہدف شدہ 5-7 فیصد کے اندر رہے گی جس کی وجہ مستحکم کرنسی اور رواں سال کی پہلی ششماہی میں مشرق وسطیٰ کے تنازع کے مثبت حل کے باعث صورتحال میں بہتری ہے۔ اس لیے ہمارا اندازہ ہے کہ مالی سال 2027 کے دوران اسٹیل بینک پالیسی ریٹ میں 200 بیس پوائنٹس کمی کرے گا جس کی وجہ حقیقی شرح سود میں اضافہ ہے جبکہ حسابات جاریہ کی بہتر صورتحال، زر مبادلہ کے ایسے ذخائر ہیں جو 3 ماہ سے زیادہ کی درآمدات کے لیے کافی ہیں، قرضوں کی مدت اور ڈھانچہ جاتی تبدیلی کے باعث مختصر مدت کے بیرونی قرضوں کی ادائیگی کا بوجھ بھی کم ہو رہا ہے۔

کموڈٹی مارکیٹ کا جائزہ

مشرق وسطیٰ کشیدگی کے باعث مالی سال 2025 میں کموڈٹیز کی قیمتوں میں کمی کارباجان تھا جو جیو پالیسیکل کشیدگی بڑھنے اور سپلائی کم ہونے سے بدل گیا۔ نیپھیہ مالی سال 2026 کے دوران زیادہ تر کموڈٹیز کی قیمتوں میں نمایاں اضافہ ہوا۔ امریکا اور ایران کے درمیان جنگ بندی اور کشیدگی میں بتدریج کمی کے باعث اپریل 2026 میں 118 ڈالر کی بلند ترین سطح پر

ایکویٹی مارکیٹ کا جائزہ

کے ایس ای 100 انڈکس نے اپنے اضافے کا رجحان جاری رکھا اور مالی سال 2025 اور مالی سال 2024 میں بالترتیب 60.1 فیصد اور 89.2 فیصد اضافے کے بعد سال کے دوران 43.5 فیصد کا مضبوط منافع کمایا۔ آئی ایم ایف پروگرام کے تحت ٹھوس مالی اور زری اقدامات کے ذریعے پالیسی میں مسلسل کے ساتھ ساتھ پاکستان کی عالمی ڈیٹ مارکیٹ میں دوبارہ کامیاب انٹری کے بعد ریٹنگ میں اضافہ نے مالی سال 2026 میں کے ایس ای 100 انڈکس کی مضبوط کارکردگی میں کردار ادا کیا۔ مزید یہ کہ جیو پوبلیکیشن کشیدگی کے باعث کموڈٹی پریز کی قیمتوں میں اچانک اضافے سے موثر انداز میں نمٹنے سے سرمایہ کاروں کا اعتماد بحال ہوا۔ نیپہیا مارکیٹ نے جنوری 2026 کے آخر میں بلند ترین سطح پر پہنچنے کے بعد ہونے والے زیادہ تر نقصانات کا ازالہ کر لیا۔ مارکیٹ میں سرمایہ کاروں کی سرگرمیاں بھی مضبوط رہیں اور پوبلیکیشن اور پوبلیکیشن کے حجم سالانہ بنیادوں پر 40.8 فیصد بڑھ کر 1,168 ملین حصص ہو گیا۔ کاروباری حجم میں اضافے اور حصص کی قیمتیں بڑھنے کے باعث پوبلیکیشن اور پوبلیکیشن میں بھی 48.5 فیصد اضافہ ہوا۔ نیپہیا قدر اور حجم میں تناسب (اوسط قیمت فی ٹریڈ یونٹ) بڑھ کر 48.5 روپے فی حصص ہو گیا جو گزشتہ سال اسی مدت میں 46.1 روپے فی حصص تھا۔

کارکردگی کے لحاظ سے ٹیکنالوجی، کمرشل بینک اور سرمایہ کار کمپنیاں نمایاں شعبے رہے جنہوں نے سال کے دوران بالترتیب 52 فیصد، 51 فیصد اور 50 فیصد منافع کمایا۔ اسی طرح فریلا نر، پاور اور آئل اینڈ گیس ایکسپلوریشن کے شعبوں نے بھی اچھی کارکردگی کا مظاہرہ کیا اور بالترتیب 41 فیصد، 39 فیصد اور 33 فیصد منافع حاصل کیا۔ مجموعی مالی سال 2026 کے دوران تمام بڑے شعبوں میں مثبت منافع ریٹرن ریکارڈ کیا گیا۔

غیر ملکی سرمایہ کاروں نے 848 ملین ڈالر مالیت کے حصص فروخت کیے جس کی وجوہات میں گروپ کی تنظیم نو کے باعث غیر ملکی گروپس کا سرمایہ نکالنا اور ترقی یافتہ ممالک میں بلند شرح سود شامل ہیں۔ سب سے زیادہ سرمایہ سینٹ (311 ملین ڈالر)، ایف ایم جی سی (191 ملین ڈالر) اور بینکنگ (143 ملین ڈالر) نکالا گیا۔ اس کے علاوہ آئل اینڈ گیس ایکسپلوریشن اور فریلا نر کے شعبوں سے بالترتیب 39.8 ملین ڈالر اور 34.6 ملین ڈالر کا سرمایہ نکالا گیا۔ کمپنیوں، میوچل فنڈز اور افراد نے کم قدر پر ایکویٹی خرید کر غیر ملکیوں کی طرف سے حصص کی فروخت کو جذب کیا۔ کمپنیوں نے 587 ملین ڈالر کے حصص خریدے۔ اس کے بعد میوچل فنڈز اور افراد نے بالترتیب 401 ملین ڈالر اور 328 ملین ڈالر کی خالص خریداری کی۔ دوسری جانب، بیمہ کمپنیوں، بینکوں اور دیگر اداروں نے بالترتیب 241 ملین ڈالر، 172 ملین ڈالر اور 54 ملین ڈالر کے حصص فروخت کئے۔

ڈیٹ اور کرنسی مارکیٹ کا جائزہ

مالی سال 2026 میں حسابات جاریہ بڑی حد تک قابو میں رہے۔ اسٹیٹ بینک آف پاکستان کے غیر ملکی زرمبادلہ کے ذخائر بھی نمایاں بہتری کے ساتھ جون 2025 کے آخر میں 14.5 ملین ڈالر سے بڑھ کر جون 2026 کے آخر میں ریکارڈ 18.4 ملین ڈالر ہو گئے۔ آئی ایم ایف کے جاری توسیعی فنڈ سہولت (ای ایف ایف) اور ریزر ویلہس اینڈ سہین ایلپنی فیلڈی (آر ایس ایف) پروگراموں نے بھی معاشی ماحول کو بہتر بنانے، سرمایہ کاروں کے اعتماد میں بحال اور نئی سرمایہ کاری بڑھانے میں مدد دی۔

اے کے ڈی سیکورٹیز لمیٹڈ کے بورڈ آف ڈائریکٹرز 30 جون، 2026 کو اختتام پذیر ہونے والے سال کیلئے سیمپنی کے پڑتال شدہ مالی گوشوارے بشمول آڈیٹر رپورٹ پیش کرنے میں خوشی محسوس کرتے ہیں۔

پاکستان کی معیشت نے مالی سال 2026 کے دوران بہتری اور استحکام کا مظاہرہ کیا جو منظم مالی اور زری پالیسیوں اور معاشی اصلاحات کا عکاس ہے تاہم سال کی دوسری ششماہی میں سیلاب اور جیو پوبلیکیشن کشیدگی جیسے مسائل بھی سامنے آئے۔ معاشی شرح نمو بہتر ہو کر 3.7 فیصد رہی جبکہ افراط زر معمولی اضافے کے ساتھ 7.1 فیصد رہی۔ کم پالیسی ریٹ، روپے کی قدر میں استحکام اور بہتر میکرو اکنامک انتظام نے بھی معیشت کو سہارا دیا۔

مالی سال 2026 میں معیشت کے اہم شعبوں میں ترقی نظر آئی، زری شعبہ میں 2.89 فیصد نمو ہوئی جسے صنعت اور خدمات کے شعبوں کی بالترتیب 3.51 فیصد اور 4.09 فیصد نمو نے سہارا دیا۔ مارکیٹ کی موجودہ قیمتوں پر پاکستان کی مجموعی قومی پیداوار مالی سال 2026 میں سال پر سال بنیاد پر 11.3 فیصد بڑھ کر 126.8 ٹریلین روپے رہی۔ ڈالر کے لحاظ سے بھی جی ڈی پی میں سالانہ بنیادوں پر 10.8 فیصد کا مضبوط اضافہ ہوا جو 452.1 بلین ڈالر تک پہنچ گئی جس میں شرح مبادلہ میں استحکام نے اہم کردار ادا کیا۔ اسی طرح فی کس آمدنی مالی سال 2025 میں 1,751 ڈالر سے بڑھ کر ریکارڈ 1,901 ڈالر ہو گئی۔

مالی سال 2026 میں سی پی آئی افراط زر گزشتہ سال کی 4.5 فیصد کے مقابلے میں سالانہ بنیادوں پر معمولی اضافے کے ساتھ 7.1 فیصد رہا جس کی وجہ سیلاب اور مشرق وسطیٰ تنازع کے بعد عالمی سطح پر زیادہ قیمتوں کے باعث سپلائی چین خلل ہے۔ بیرونی حسابات کا مجموعی توازن بڑی حد تک برقرار رہا۔ ترسیلات زر میں ریکارڈ اور درآمدات بڑھنے سے حسابات جاریہ میں معمولی خسارہ ریکارڈ ہوا۔ دوسری جانب حسابات جاریہ کے محدود خسارے اور زرمبادلہ کے زیادہ ذخائر نے معاشی بحالی کے نتیجے میں درآمدات میں ہونے والے اضافے کے اثرات کو کم کرنے میں مدد دی۔

مالی محاذ پر مالی سال 2026 میں حکومتی محاصل 19.8 ٹریلین تک پہنچ گئے جبکہ مالی خسارہ جی ڈی پی کے 2.6 فیصد کی کم ترین سطح پر رہا۔ قابل ذکر بات یہ ہے کہ بنیادی توازن 2.7 ٹریلین روپے سے بڑھ کر 3.6 ٹریلین روپے ہو گیا (جی ڈی پی کا 2.9 فیصد) جس کی وجہ محصولات میں مسلسل اضافے اور حکومتی اخراجات کو قابو میں رکھنے کی کوششیں ہیں۔ اس صورتحال سے ترقیاتی اخراجات میں اضافے کی گنجائش پیدا ہوئی۔ نیپہیا وفاقی پی ایس ڈی پی مالی سال 2026 میں سالانہ بنیادوں پر 9.7 فیصد اضافے کے ساتھ 3.3 ٹریلین روپے ہو گیا جبکہ مالی سال 2025 میں یہ 3 ٹریلین روپے تھے۔

14 سالوں میں پہلے سالانہ سرپلس اور مالی سال 2026 میں 22 سالوں کے سب سے بڑے سرپلس کے بعد مالی سال 2026 میں حسابات جاریہ میں 304 ملین ڈالر کا معمولی خسارہ ریکارڈ کیا گیا۔ اشیاء کی برآمدات سالانہ بنیادوں پر 4.7 فیصد کی ساتھ 30.8 ملین ڈالر رہیں جبکہ درآمدات میں مالی سال 2025 میں 59.1 ملین ڈالر کے مقابلے میں 64.5 ملین تک پہنچ گئیں جس کی وجہ ملکی مسلسل ترقی ہے۔ نیپہیا اشیاء کی تجارت کا خسارہ گزشتہ مالی سال کے 26.8 ملین ڈالر کے مقابلے میں بڑھ کر 33.7 ملین ڈالر ہو گیا۔ دوسری جانب، خدمات کے شعبے کا خسارہ 29.5 فیصد کمی کے ساتھ 2.0 ملین ڈالر رہا جس کی وجہ خدمات کی برآمدات میں 18.6 فیصد اضافہ تھا جسے ٹیکنالوجی کی مضبوط برآمدات کا سہارا ملا۔ دریں اثنا، ترسیلات زر میں سالانہ بنیاد پر 8.6 فیصد اضافہ ہوا اور مالی سال 2026 میں یہ ریکارڈ 41.6 ڈالر تک پہنچ گئیں۔

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

3	Valuation of Al Jomaih Power Limited (AJPL). As disclosed in Note 10.3 the company's financial statements include investment at Fair value through Other Comprehensive Income in unquoted foreign company AJPL amounting to Rs. 258.69 million. The valuation of investment in AJPL was significant to the audit due to foreign currency risk involved in the investment and the categorization of the investment is level 3 of the Fair Value hierarchy which uses input other than the observable market date.	Our audit procedures, amongst others, included the following: We obtained confirmation of AJPL in respect of shareholding of the company in AJPL and net assets value per share as at year end, as per books and records of AJPL. We checked that the investment at the year-end has been translated using appropriate exchange rate. We checked that at the year end, the investment is adjusted for changes if any in the net assets value on the basis of information received from AJPL. We checked that basis of valuation of investment is adequately disclosed in the financial statements of the company.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's reports thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- (a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- (b) the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;

- (a) financial assets measured at amortized cost;
- (b) financial assets measured at fair value through other comprehensive income (FVOCI); and
- (c) financial assets measured at fair value through profit or loss (FVTPL).

Notes to the Unconsolidated Financial Statements

For the year ended June 30, 2026

(a) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it is held within business model whose objective is to hold assets to collect contractual cash flows, and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

Such financial assets are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issue thereof.

(b) Financial assets at FVOCI

A financial asset is classified as at fair value through other comprehensive income when either:

- (i) It is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding; or
- (ii) It is an investment in equity instrument which is designated as at fair value through other comprehensive income in accordance with the irrevocable election available to the company at initial recognition.

Such financial assets are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issue thereof.

(c) Financial assets at FVTPL

A financial asset shall be measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income, as aforesaid.

Such financial assets are initially measured at fair value.

5.5.2 Initial recognition

Financial assets and liabilities, with the exception of bank balances, loans and advances to employees / counter parties and due to counterparties, are initially recognized on the settlement date, i.e., the date that the company settles the transaction. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place.

All financial instruments are measured initially at their fair value plus transaction costs, except in the case of financial assets and financial liabilities recorded as 'at fair value through profit or loss'.

5.5.3 Subsequent measurement

(a) Financial assets measured at amortized cost

These assets are subsequently measured at amortized cost (determined using the effective interest method) less accumulated impairment losses. Interest / markup income, foreign exchange gains and losses and impairment losses arising from such financial assets are recognized in the profit and loss account.

(b) Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

Notes to the Unconsolidated Financial Statements

For the year ended June 30, 2026

(c) Debt investments at FVOCI

These assets are subsequently measured at fair value. Interest income is calculated using the effective interest method. Foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

(d) Financial assets at FVTP

These assets are subsequently measured at fair value. Net gains or losses arising from remeasurement of such financial assets as well as any interest income accruing thereon are recognized in profit and loss account.

5.5.4 Impairment of Financial assets

The company's financial assets that are subject to the impairment requirements of IFRS 9 are trade receivables, debt instruments accounted for at amortized cost or at FVTOCI, most loan commitments, financial guarantee contracts, and lease receivables under IFRS 16 Leases.

For trade and other receivables, the company has applied the standard's simplified approach and has calculated ECLs based on lifetime expected credit losses. The company has established a provision matrix that is based on the company's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

5.6 Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than twelve months after the balance sheet date, which are classified as non-current assets.

5.7 Impairment

The carrying amount of assets are reviewed at each balance sheet date to determine whether there is any indication of impairment of any asset or a group of assets. If any such indication exists, the recoverable amount of that asset is estimated and impairment losses are recognized in the profit and loss account.

5.8 Off-setting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if the company has a legally enforceable right to set-off the transaction and also intends either to settle on a net basis or to realize the asset and settle the liability simultaneously. Income and expenses arising from such assets and liabilities are also accordingly offset.

5.9 Revenue recognition

Revenue is recognized at an amount that reflects the consideration to which the company is expected to be entitled in exchange for transferring goods or services to a customer.

- Brokerage, consultancy and advisory fee, underwriting commission etc. are recognized as and when such services are provided.
- Capital gains and losses on sale of securities is recognized as and when transaction occurred.
- Mark-up income, return on bank deposits and balances are recognized on accrual basis.

Notes to the Unconsolidated Financial Statements

For the year ended June 30, 2026

5.10 Taxation

Levy

In accordance with the Income Tax Ordinance, 2001, computation of final taxes is not based on taxable income. Therefore, as per IAS 12 Application Guidance on Accounting for Minimum Taxes and Final Taxes issued by the ICAP, these fall within the scope of IFRIC 21/IAS 37 and accordingly have been classified as levy in these unconsolidated financial statements, except for taxes on dividends on the Company's investments in subsidiaries and associates which are specifically within the scope of IAS 12 and hence these continue to be categorized as current income tax.

Current

Provision for current taxation is based on taxable income at the current rates of taxation after taking into account tax credits, rebates and tax exemptions available, if any. The charge for the current tax also includes adjustments where necessary, relating to prior years which arise from assessment framed / finalized during the year.

Deferred

Deferred tax is recognized using the balance sheet method on all temporary differences arising between tax bases of assets and liabilities and their carrying amounts appearing in the financial statements. A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefits will be realized.

Deferred tax is calculated at the rates that are expected to apply to the year when the differences reverse, based on tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax is charged or credited to the profit and loss account.

Deferred tax, if any, on revaluation of investments is recognized as an adjustment to surplus arising on revaluation.

5.11 Dividend distributions and appropriations

Dividend distributions and appropriations are recorded in the period in which the distributions and appropriations are approved.

5.12 Employees' benefits

Defined contribution plan

The company operates a defined contribution plan i.e. recognized provident fund ("the Fund") for all of its eligible employees in accordance with trust deed and rules made there under. Whereas after sanction of merger scheme monthly contribution rate has been increased from 5% to 10% of basic salary.

Notes to the Unconsolidated Financial Statements

For the year ended June 30, 2026

5.14 Foreign currency transactions

Foreign currency transactions are recorded at the exchange rates prevailing on the date of the transaction. Monetary assets and liabilities in foreign currencies are translated at the rates of exchange prevailing on the balance sheet date. Gains and losses on translation are taken into income currently. Non-monetary-items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

5.15 Provisions

Provisions are recognized when the company has the legal or constructive obligation as a result of past events, and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made.

5.16 Trade and other receivables

Trade and other receivables are recognized and carried at transaction price less an allowance for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of the receivables. The amount of the provision is recognized in the statement of profit or loss. Bad debts are written-off in the statement of profit or loss on identification.

The allowance for doubtful debts of the company is based on the ageing analysis and management's continuous evaluation of the recoverability of the outstanding receivables. In assessing the ultimate realization of these receivables, management considers, among other factors, the creditworthiness and the past collection history of each customer.

5.17 Trade and other payables

Trade and other payables are recognized initially at fair value plus directly attributable costs, if any, and subsequently measured at carrying value.

5.18 Ijarah

An agreement under Islamic mode in which a significant portion of the risks and rewards of ownership is retained by the Muj'ir is classified as Ijarah. Payments made under Ijarah are charged to profit or loss on a straight-line basis over the period of Ijarah.

5.19 Borrowing costs

Borrowing costs incurred on long term finances directly attributable for the construction / acquisition of qualifying assets are capitalized up to the date the respective assets are available for intended use. All other mark-up, interest and other related charges are taken to the statement of profit or loss directly.

5.20 Right-of-use assets

The company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the company is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognized right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

Notes to the Unconsolidated Financial Statements

For the year ended june 30, 2026

5.21 Lease liabilities

At the commencement date of the lease, the company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the company uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

5.22 Short term leases and leases of low-value assets

The company applies the short-term lease recognition exemption to its short-term leases of property and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered of low value. Lease payments on short term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

5.23 Fiduciary Assets

Assets held in trust or in a fiduciary capacity by the company are not treated as assets of the company and accordingly are not included in these financial statements.

5.24 Related Party Transactions

Related party transactions are carried out on an arm's length basis and exceptions are backed by the approval of board of directors. Pricing of these transactions are determined on the basis of comparable uncontrolled price methods, which sets the price by reference to the comparable goods and services sold in an economical comparable market to the buyer unrelated to the seller.

5.25 Investment in subsidiary

Investments in subsidiary are stated at cost less accumulated impairment losses, if any.

6 ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements requires management to make judgments, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which form the basis of making judgments about carrying values of assets and liabilities. The estimates and underlying assumptions are reviewed on an ongoing basis.

The estimates, judgments and assumptions that have significant effect on the financial statements are as follows:

The value in use calculations are based on cash flow projections. These are then extrapolated for a period of 5 years using a steady long term expected demand growth of 6% and terminal value determined based on long term earning multiples. The cash flows are discounted using a discount rate of 18.08%. Based on this calculation no impairment is required to be accounted for against the carrying amount of goodwill.

The net assets of the subsidiary company have reduced due to full impairment of investment of Rs. 81.567 million in an associated company New Horizon Exploration and Production Limited (NHEPL), and provision against advance for purchase of land of Rs. 187.5 million.

Structured Venture (Private) Limited (SVPL) had given advance against purchase of property Rs. 375 million which was being developed as a Housing Scheme (the 'Project') by M/s. Noor Developer (Private) Limited (the 'Developer'), the majority shareholder of which is Mr. Arif Ali Shah Bukhari. This amount includes development charges of Rs. 75 million paid to the Developer. The Developer had communicated in the previous years that the Project was pending final approval from the Cantonment Board Korangi Creek (CBKC) for last few years due to modification and revision required by the CBKC in the Project.

During the year 2015, the Developer cancelled provisional booking vide its letter dated June 15, 2015 and in response, SVPL has filed legal suit for specific performance, declaration, injunction, partition and damages in the Sindh High Court.

In addition to the above, as per CBKC letter to Military Lands & Cantonments dated July 04, 2011, the land on which provisional booking was made is not eligible for the type of allotment made to SVPL as per sale agreement dated November 10, 2010 between SVPL and the Developer. Further, the development work on the Project, as communicated by the Developer vide their letter dated December 28, 2013, has also not been undertaken.

Moreover, verification from the Registrar of Housing Society has revealed that no record exists for the said Project, namely Noor Town, situated at survey number 288, 289 and 290 at Deh Korangi Township Karachi. Prima facie a fraud was committed with the Company against which, criminal and civil proceedings have already been initiated.

Considering the facts stated above, the history of this transaction and legal implications, SVPL as a matter of prudence, had fully provided this amount. Hence, the Company's investment in SVPL stands impaired.

On request of the Company for complaints against Criminal Acts of M/s. Noor Developers (Private) Limited, SECP vide its letter dated September 27, 2017, has informed that appropriate steps have been taken as to referring the matter to National Accountability Bureau (NAB) under Section 41-B of Securities and Exchange Commission of Pakistan (Amendment) Act, 2016. On the recommendation/ approval of SECP, NAB has initiated enquiry into the matter.

During the year, M/s. Noor Developers (Pvt.) Limited and Structured Venture (Pvt.) Limited (the "Parties") entered into a settlement agreement dated March 31, 2026 for the settlement and withdrawal of the ongoing litigation between the Parties, in accordance with the terms and conditions stipulated therein.

Under the terms of the settlement agreement, M/s. Noor Developers (Pvt.) Limited agreed to refund the amount received from Structured Venture (Pvt.) Limited, while Structured Venture (Pvt.) Limited agreed to settle the matter for an amount of Rs. 375,000,000, to be paid/refunded by M/s. Noor Developers (Pvt.) Limited as full and final settlement. Consequently, the Parties agreed to cancel and terminate the Sale Agreement dated 10 November 2010, executed in respect of the booking of 375 residential plots measuring 80 square yards each in the abandoned "Noor Town" project, situated at Survey Nos. 288, 289 and 290, Deh Dih, Korangi Township, Karachi, which had been booked by Structured Venture (Pvt.) Limited.

In accordance with the settlement agreement, Structured Venture (Pvt.) Limited has received Rs. 187,500,000 and Rs. 93,750,000 on 1 April 2026 and 1 July 2026, respectively. The remaining amount of Rs. 93,750,000 is contractually due to be received on 1 October 2026.

The recoverable amount of investment was estimated using "Value in use" approach. In considering the impairment, various business assumptions for estimating cash flows were used, which includes but are not limited to, historical performance of the investment, development and production activity in NHEPL's working interests, recoverability of future cash flows from the investment etc. Based on such analysis, the Company fully impaired its investment in NHEPL and an impairment loss of Rs. 31.63 million was recognized up to year 2016. During the current year, the Company reversed the impairment previously recognized against its investment in SVPL, as funds were received from M/s. Noor Developers (Private) Limited in SVPL against the advance paid for property. Accordingly, management reassessed the recoverable value of the investment and recognized a reversal of impairment to the extent considered recoverable.

39 FINANCIAL INSTRUMENTS

Financial Risk Factors

The company's activities expose it to a variety of financial risks: market risk (interest/mark-up rate risk, foreign currency and price risk), liquidity risk and credit risk. The company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance. Overall, risks arising from the company's financial assets and liabilities are limited. The company consistently manages its exposure to financial risk without any material change from previous periods in the manner described in notes below.

The Board of Directors has overall responsibility for the establishment and oversight of Company's risk management framework. All treasury related transactions are carried out within the parameters of these policies.

39.1 Market risk

Market risk means that the future cash flows of a financial instrument will fluctuate because of changes in market prices such as foreign exchange rates, equity prices and interest rates. The objective is to manage and control market risk exposures within acceptable parameters, while optimizing the return. The Company's market risk comprises of three types of risk: interest/markup rate risk, foreign exchange or currency risk and equity price risk. The market risks associated with the Company's business activities are discussed as under:

(i) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect the value of the financial instruments. As of the balance sheet date, the company is exposed to such risk mainly in respect of bank balances, lease liabilities, short term and long term loan. Effective interest rates on such instruments are disclosed in respective notes to the financial statements.

The Company estimates that 1% increase in the market interest rate, with all other factors remaining constant, would increase the Company's total comprehensive income by Rs. 13.65 million (2025: Rs. 4.43 million) and a 1% decrease would result in decrease in the Company's total comprehensive income by the same amount. However, in practice, the actual results may differ from the sensitivity analysis.

Notes to the Unconsolidated Financial Statements

For the year ended june 30, 2026

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The company's exposure to the risk of change in foreign exchange rates relates only to the investment in Al Jomaih Power Limited maintained in US dollars amounting to Rs. 258.69 million (2025: Rs. 624.28 million) [US dollars 0.93 million (2025: US dollars 2.2 million)].

With 10% increase / (decrease) in the exchange rate between US dollars and Pak Rupees, comprehensive income of the company would have increased / (decreased) by Rs.25.87million (2025: Rs. 62.43 million).

(iii) Equity price risk

Equity price risk is the risk of volatility in share prices resulting from their dependence on market sentiments, speculative activities, supply and demand for shares and liquidity in the market. The management believes that 10% increase or decrease in the value of investments at fair value through profit and loss, with all other factors remaining constant would result in increase or decrease of the company's profit by Rs.866.06 million (2025: Rs. 543.20 million) and 10% of such increase or decrease would result in increase or decrease of unrealized gain on re-measurement of long term investment at fair value through other comprehensive income by Rs. 8.61 million (2025: Rs 4.48 million).

39.2 Liquidity risk

Liquidity risk is the risk that an enterprise may encounter difficulty in raising funds to meet commitments associated with financial instruments. The Company manages liquidity risk by following internal guidelines of the company executive committee such as monitoring maturities of financial assets and financial liabilities and investing in liquid financial assets.

On the reporting date, the Company had cash and bank balance amounting to Rs. 3,037.34 million (2025: Rs. 1,567.40 million) unutilized credit lines nil (2025: nil) and liquid assets in the form of short term securities amounting to Rs.8,660.69 million (2025: Rs. 5,432 million).

The following are the contractual maturities of financial liabilities, including estimated interest payments:

39.3 Credit risk

Credit risk is the risk that a party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company attempts to control credit risk by monitoring credit exposures, limiting transactions with specific counterparties and continuously assessing the credit worthiness of counter parties. The Company seeks to minimize the credit risk exposure through having exposures only to customers considered credit worthy and obtaining securities where applicable. The table below analyses the Company's maximum exposure to credit risk:

40 CAPITAL RISK MANAGEMENT

The Company's objectives when managing capital include:

- Reinforcing Company's ability to continue as a going concern in order to provide returns to all its stakeholders with their corresponding risk profiles;
- Maintaining a strong capital base - resulting in enhancement of Company's business operations.

In order to maintain the balance of its capital structure, the Company may consider adjusting its dividend payouts, controlling non-developmental cash outflows and issuing fresh debt or capital instruments.

The Company monitors capital on the basis of the gearing ratio and its related profitability ratios. Gearing is calculated as debt divided by debt plus equity. Debt represents redeemable capital and other long-term borrowings, if any, as shown in the balance sheet. Equity represents paid-up capital of the Company, general reserve and unappropriated profit and loss.

Net capital requirements of the Company are set and regulated by PSX. These requirements are put in place to ensure sufficient solvency margins and are based on excess of current assets over current liabilities. The Company manages its net capital requirements by assessing its capital structure against required capital level on a regular basis.

41 FAIR VALUE OF FINANCIAL INSTRUMENT

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction. Consequently, differences can arise between carrying value and fair value estimates. The carrying values of all the financial assets and liabilities reflected in the financial statements approximate their fair values.

Under the definition of fair value is the presumption that the Company is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

41.1 Financial Assets Fair Value Hierarchy

All financial instruments carried at fair value are categorized in three categories defined as follows:

- Level 1- quoted prices in active markets for identical assets.
- Level 2- other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.
- Level 3- techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

As at year end, the Company held the following financial instruments measured at fair value:

**INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF AKD SECURITIES LIMITED
REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS**

Opinion

We have audited the annexed financial statements of AKD Securities Limited and its subsidiary (the Group), which comprise the consolidated statement of financial position as at June 30, 2026, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity, the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion, consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at June 30, 2026 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the accounting and reporting standards as applicable in Pakistan.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the key audit matters:

Sr.No.	Key Audit Matters	How the matter was addressed in our audit
1	Revenue Recognition: As disclosed in notes 5.9 and 25 to the consolidated financial statements relating to revenue recognition. The Group generates revenue from brokerage services as well as advisory and related services. We identified revenue recognition as key audit matter as it is one of the key performance indicators of the Group and because of the potential risk that revenue transactions may not been recognized in the appropriate period.	Our audit procedures to verify revenue, amongst others included the following: Assessing the appropriateness of the Group's accounting policies for revenue recognition and compliance of those policies with applicable financial reporting standards. On a sample basis, analyzing related documents to assess whether the related revenue is recognized in accordance with the requirements of applicable financial reporting framework. On a sample basis, analyzing specific revenue transactions before and after the reporting date with underlying documentation to assess whether the revenue has been recognized in the correct accounting period. Assessed the adequacy of disclosure presented in the consolidated financial statements in accordance with the applicable financial reporting standards.
2	Valuation of Goodwill and its Impairment As disclosed in note 9 the group has recorded goodwill amounting to Rs. 3,137.83 million on merger. The valuation of goodwill was significant to the audit due to the amount involved and its valuation requires complex calculations therefore the matter was addressed as a key audit matter.	Our audit procedures, amongst others, included the following: We obtained independent valuers' report used by the management to calculate the carrying value and recoverable amount of the cash generating units involved. Test the data used by the valuer for assessing the reasonableness of assumptions. Perform other audit procedures as per requirements of International Auditing Standards as applicable in Pakistan. Checked that appropriate disclosures were made in the consolidated financial statements.

3	Valuation of Al Jomaih Power Limited (AJPL). As disclosed in Note 10.3 the Group's financial statements include investment at Fair value through other comprehensive income in unquoted foreign company AJPL amounting to Rs. 258.69 million. The valuation of investment in AJPL was significant to the audit due to foreign currency risk involved in the investment and the categorization of the investment is level 3 of the Fair Value hierarchy which uses input other than the observable market data.	Our audit procedures, amongst others, included the following: We obtained confirmation of AJPL in respect of shareholding of the Group in AJPL and net assets value per share as at year end, as per books and records of AJPL. We checked that the investment at the year-end has been translated using appropriate exchange rate. We checked that at the year end, the investment is adjusted for changes if any in the net assets value on the basis of information received from AJPL. We checked that basis of valuation of investment is adequately disclosed in the consolidated financial statements of the Group.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the unconsolidated and consolidated financial statements and our auditor's reports thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of directors is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communications.

The engagement partner on the audit resulting in this independent auditor's report is Syed Naveed Abbas.

The following new standards and amendments to approved accounting standards are not effective for the financial year beginning on July 1, 2025 and have not been early adopted by the group:

a) New standard IFRS 18 'Presentation and Disclosure in Financial Statements' is applicable on accounting periods beginning on or after January 1, 2027. The standard focuses on updates to the statement of profit or loss. It introduces key concepts such as the structure of the statement of profit required disclosures for certain profit or loss performance measures reported outside the financial statements (management-defined performance measures), and enhances principles on aggregation and disaggregation applicable to the primary financial statements and notes.

b) New standards IFRS S1 'General Requirements for Disclosure of Sustainability-related Financial Information' and IFRS S2 'Climate-related Disclosures' are applicable on accounting periods beginning on or after July 1, 2026. 5 MATERIAL ACCOUNTING POLICY INFORMATION

5.1 IFRS 8: Operating Segments

An operating segment is a component of the group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the group's other components. An operating segment's operating results are reviewed regularly by the Board of Directors and Chief Executive Officer to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

The group applied IFRS 8 and presented income from its business segments as per the requirements of the standard. The main operating segments identified are:

- (i) Brokerage
- (ii) Financial Advisory
- (iii) Underwriting
- (iv) Other Operations

These segments are based on the percentage of gross revenue.

5.2 Property and equipment

These are stated at cost less accumulated depreciation and impairment, if any. Such costs include the cost of replacing parts of property and equipment when that cost is incurred. Maintenance and normal repairs are charged to income as and when incurred. Depreciation is charged to income over the useful life of the asset on a systematic basis applying the straight line method at the rates specified in note 7 to the financial statements.

Notes to the Consolidated Financial Statements

For the Year Ended June 30, 2026

Property and equipment are assessed for impairment whenever there is an indication that the same are impaired. Depreciation is charged from the month in which asset are available for use and no depreciation is charged in the month of disposal.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal.

The asset's residual values, useful lives and methods are reviewed and adjusted, if appropriate at each financial year end.

Gains and losses on disposals, if any, of assets are included in income currently.

5.3 Intangible assets

- Goodwill

Goodwill arising on the acquisition of business represents future economic benefits arising from assets that are not capable of being individually identified and separately recognized. Goodwill is initially recognized at a cost which is determined as the excess of the cost of the business combination over the net fair value of the identifiable assets, liabilities, and contingent liabilities of the acquire. Subsequent to initial recognition, goodwill is measured at cost less accumulated impairment losses, if any.

- Other intangible assets

Intangible assets with definite useful lives are stated at cost less accumulated amortization and impairment, if any. Amortization is charged over the useful life of the asset on a systematic basis to income applying the straight line method at the rate specified in note 9 to the financial statements.

Intangible assets with indefinite useful lives are not amortized. These are annually tested for impairment to assess whether these are in excess of their recoverable amounts, and where the carrying amounts exceeds the estimated recoverable amounts, the carrying amounts are written down to the estimated recoverable amounts.

Intangible assets are assessed for impairment whenever there is an indication that the same are impaired. Costs associated with maintaining assets are recognized as an expense in the period in which these are incurred. Gains and losses on disposals, if any, of assets are included in income currently.

5.4 Investment properties

Investment properties are carried at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is charged at specified rates. Subsequent expenditures, depreciation and gains or losses on disposals are accounted for in the same manner as property and equipment.

5.5 Financial Instruments

5.5.1 The group classifies its financial assets in the following three categories

- (a) financial assets measured at amortized cost;
- (b) financial assets measured at fair value through other comprehensive income (FVOCI); and
- (a) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it is held within business model whose objective is to hold assets to collect contractual cash flows, and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

Such financial assets are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issue thereof.

Notes to the Consolidated Financial Statements

For the Year Ended June 30, 2026

(b) Financial assets at FVOCI

A financial asset is classified as at fair value through other comprehensive income when either:

- (i) It is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding; or
- (ii) It is an investment in equity instrument which is designated as at fair value through other comprehensive income in accordance with the irrevocable election available to the group at initial recognition.

Such financial assets are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issue thereof.

(c) Financial assets at FVTPL

A financial asset shall be measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income, as aforesaid.

Such financial assets are initially measured at fair value.

5.5.2 Initial recognition

Financial assets and liabilities, with the exception of bank balances, loans and advances to employees / counter parties and due to counterparties, are initially recognized on the settlement date, i.e., the date that the group settles the transaction. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place.

All financial instruments are measured initially at their fair value plus transaction costs, except in the case of financial assets and financial liabilities recorded as 'at fair value through profit or loss'.

5.5.3 Subsequent measurement

(a) Financial assets measured at amortized cost

These assets are subsequently measured at amortized cost (determined using the effective interest method) less accumulated impairment losses. Interest / markup income, foreign exchange gains and losses and impairment losses arising from such financial assets are recognized in the profit and loss account.

(b) Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

(c) Debt investments at FVOCI

These assets are subsequently measured at fair value. Interest income is calculated using the effective interest method. Foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

(d) Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains or losses arising from remeasurement of such financial assets as well as any interest income accruing thereon are recognized in profit and loss account.

Notes to the Consolidated Financial Statements

For the Year Ended June 30, 2026

5.5.4 Impairment of Financial assets

The group's financial assets that are subject to the impairment requirements of IFRS 9 are trade receivables, debt instruments accounted for at amortized cost or at FVTOCI, most loan commitments, financial guarantee contracts, and lease receivables under IFRS 16 Leases.

For trade and other receivables, the group has applied the standard's simplified approach and has calculated ECLs based on lifetime expected credit losses. The group has established a provision matrix that is based on the group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

5.6 Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than twelve months after the balance sheet date, which are classified as non-current assets.

5.7 Impairment

The carrying amount of assets are reviewed at each balance sheet date to determine whether there is any indication of impairment of any asset or a group of assets. If any such indication exists, the recoverable amount of that asset is estimated and impairment losses are recognized in the profit and loss account.

5.8 Off-setting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if the group has a legally enforceable right to set-off the transaction and also intends either to settle on a net basis or to realize the asset and settle the liability simultaneously. Income and expenses arising from such assets and liabilities are also accordingly offset.

5.9 Revenue recognition

Revenue is recognized at an amount that reflects the consideration to which the group is expected to be entitled in exchange for transferring goods or services to a customer.

- Brokerage, consultancy and advisory fee, underwriting commission etc. are recognized as and when such services are provided.
- Capital gains and losses on sale of securities is recognized as and when transaction occurred.
- Mark-up income, return on bank deposits and balances are recognized on accrual basis.
- Dividend income is recorded when the right to receive the dividend is established.

5.10 Taxation

Levy

In accordance with the Income Tax Ordinance, 2001, computation of final taxes is not based on taxable income. Therefore, as per IAS 12 Application Guidance on Accounting for Minimum Taxes and Final Taxes issued by the ICAP, these fall within the scope of IFRIC 21/IAS 37 and accordingly have been classified as levy in these consolidated financial statements, except for taxes on dividends on the group's investments in subsidiaries and associates which are specifically within the scope of IAS 12 and hence these continue to be categorized as current income tax.

Notes to the Consolidated Financial Statements

For the Year Ended June 30, 2026

Current

Provision for current taxation is based on taxable income at the current rates of taxation after taking into account tax credits, rebates and tax exemptions available, if any. The charge for the current tax also includes adjustments where necessary, relating to prior years which arise from assessment framed / finalized during the year.

Deferred

Deferred tax is recognized using the balance sheet method on all temporary differences arising between tax bases of assets and liabilities and their carrying amounts appearing in the financial statements. A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefits will be realized.

Deferred tax is calculated at the rates that are expected to apply to the year when the differences reverse, based on tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax is charged or credited to the profit and loss account.

Deferred tax, if any, on revaluation of investments is recognized as an adjustment to surplus arising on revaluation.

5.11 Dividend distributions and appropriations

Dividend distributions and appropriations are recorded in the period in which the distributions and appropriations are approved.

5.12 Employees' benefits

Defined contribution plan

The group operates a defined contribution plan i.e. recognized provident fund ("the Fund") for all of its eligible employees in accordance with trust deed and rules made there under. Monthly contributions at the rate of 5% of basic salary are made to the Fund by the group and the employees. Whereas after sanction of merger scheme monthly contribution rate has been increased from 5% to 10% of basic salary.

Employee compensated absences

The group allows its management and non-management employees' to avail 30 days annual earned leave. The unutilized portion of the earned leave is accumulated but not encashable.

5.13 Cash and cash equivalents

Cash in hand and at banks is carried at cost. For the purposes of cash flow statement, cash and cash equivalents consist of cash in hand and bank balances. For the purposes of statement of cash flows, cash and cash equivalents are presented net of short term borrowings which are repayable on demand or in the short term and form an integral part of the group's cash management.

5.14 Foreign currency transactions

Foreign currency transactions are recorded at the exchange rates prevailing on the date of the transaction. Monetary assets and liabilities in foreign currencies are translated at the rates of exchange prevailing on the balance sheet date. Gains and losses on translation are taken into income currently. Non monetary-items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Notes to the Consolidated Financial Statements

For the Year Ended June 30, 2026

5.15 Provisions

Provisions are recognized when the group has the legal or constructive obligation as a result of past events, and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made.

5.16 Trade and other receivables

Trade and other receivables are recognized and carried at transaction price less an allowance for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the group will not be able to collect all amounts due according to the original terms of the receivables. The amount of the provision is recognized in the statement of profit or loss. Bad debts are written-off in the statement of profit or loss on identification.

The allowance for doubtful debts of the group is based on the ageing analysis and management's continuous evaluation of the recoverability of the outstanding receivables. In assessing the ultimate realization of these receivables, management considers, among other factors, the creditworthiness and the past collection history of each customer.

5.17 Trade and other payables

Trade and other payables are recognized initially at fair value plus directly attributable costs, if any, and subsequently measured at carrying value.

5.18 Ijarah

An agreement under Islamic mode in which a significant portion of the risks and rewards of ownership is retained by the Muj'ir is classified as Ijarah. Payments made under Ijarah are charged to profit or loss on a straight-line basis over the period of Ijarah.

5.19 Borrowing costs

Borrowing costs incurred on long term finances directly attributable for the construction / acquisition of qualifying assets are capitalized up to the date the respective assets are available for intended use. All other mark-up, interest and other related charges are taken to the statement of profit or loss directly.

5.20 Right-of-use assets

The group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognized right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

5.21 Lease liabilities

At the commencement date of the lease, the group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

Notes to the Consolidated Financial Statements

For the Year Ended June 30, 2026

In calculating the present value of lease payments, the group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

5.22 Short term leases and leases of low-value assets

The group applies the short-term lease recognition exemption to its short-term leases of property and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered of low value. Lease payments on short term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

5.23 Fiduciary Assets

Assets held in trust or in a fiduciary capacity by the group are not treated as assets of the group and accordingly are not included in these financial statements.

5.24 Related Party Transactions

Related party transactions are carried out on an arm's length basis and exceptions are backed by the approval of board of directors. Pricing of these transactions are determined on the basis of comparable uncontrolled price methods, which sets the price by reference to the comparable goods and services sold in an economical comparable market to the buyer unrelated to the seller.

5.25 Investment in subsidiary

Investments in subsidiary are stated at cost less accumulated impairment losses, if any.

6 ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements requires management to make judgments, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which form the basis of making judgments about carrying values of assets and liabilities. The estimates and underlying assumptions are reviewed on an ongoing basis.

The estimates, judgments and assumptions that have significant effect on the financial statements are as follows:

9.2 Impairment testing

Group engaged an independent valuer for impairment testing of the recoverable amount of goodwill amounting to Rs. 3.138 billion including intangible assets acquired through a business combination has been tested for impairment as at 30 June 2026. This represents excess over fair value of net assets of AKD Securities Limited (AKDSL) on its acquisition. The recoverable amount of goodwill was tested for impairment by allocating the amount of goodwill to respective assets on which it arose, based on value in use in accordance with IAS-36 "Impairment of Assets". The value in use calculations are based on cash flow projections. These are then extrapolated for a period of 5 years using a steady long term expected demand growth of 6% and terminal value determined based on long term earning multiples. The cash flows are discounted using a discount rate of 18.08%. Based on this calculation no impairment is required to be accounted for against the carrying amount of goodwill.

The recoverable amount of investment was estimated using "Value in use" approach. In considering the impairment, various business assumptions for estimating cash flows were used, which includes but are not limited to, historical performance of the investment, development and production activity in NHEPL's working interests, recoverability of future cash flows from the investment etc. Based on such analysis, the Group fully impaired its investment in NHEPL and an impairment loss of Rs. 31.63 million was recognized up to year 2016. During the current year, the Group reversed the impairment previously recognized against its investment in SVPL, as funds were received from M/s. Noor Developers (Private) Limited in SVPL against the advance paid for property. Accordingly, management reassessed the recoverable value of the investment and recognized a reversal of impairment to the extent considered recoverable

39 FINANCIAL INSTRUMENTS

Financial Risk Factors

The company's activities expose it to a variety of financial risks: market risk (interest/mark-up rate risk, foreign currency and price risk), liquidity risk and credit risk. The company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance. Overall, risks arising from the company's financial assets and liabilities are limited. The company consistently manages its exposure to financial risk without any material change from previous periods in the manner described in notes below.

Notes to the Consolidated Financial Statements

For the Year Ended June 30, 2026

The Board of Directors has overall responsibility for the establishment and oversight of Group's risk management framework. All treasury related transactions are carried out within the parameters of these policies.

39.1 Market risk

Market risk means that the future cash flows of a financial instrument will fluctuate because of changes in market prices such as foreign exchange rates, equity prices and interest rates. The objective is to manage and control market risk exposures within acceptable parameters, while optimizing the return. The Group's market risk comprises of three types of risk: interest/markup rate risk, foreign exchange or currency risk and equity price risk. The market risks associated with the Group's business activities are discussed as under:

(i) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect the value of the financial instruments. As of the balance sheet date, the Group is exposed to such risk mainly in respect of bank balances, lease liabilities, short term and long term loan. Effective interest rates on such instruments are disclosed in respective notes to the financial statements.

The Group estimates that 1% increase in the market interest rate, with all other factors remaining constant, would increase the Group's total comprehensive income by Rs. 13.65 million (2025: Rs. 4.43 million) and a 1% decrease would result in decrease in the Group's total comprehensive income by the same amount. However, in practice, the actual results may differ from the sensitivity analysis.

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group's exposure to the risk of change in foreign exchange rates relates only to the investment in Al Jomaih Power Limited maintained in US dollars amounting to Rs. 258.69 million (2025: Rs. 624.28 million) [US dollars 0.93 million (2025: US dollars 2.2 million)].

With 10% increase / (decrease) in the exchange rate between US dollars and Pak Rupees, comprehensive income of the Group would have increased / (decreased) by Rs.25.87million (2025: Rs. 62.43 million).

(iii) Equity price risk

Equity price risk is the risk of volatility in share prices resulting from their dependence on market sentiments, speculative activities, supply and demand for shares and liquidity in the market. The management believes that 10% increase or decrease in the value of investments at fair value through profit and loss, with all other factors remaining constant would result in increase or decrease of the Group's profit by Rs.866.06 million (2025: Rs. 543.20 million) and 10% of such increase or decrease would result in increase or decrease of unrealized gain on re-measurement of long term investment at fair value through other comprehensive income by Rs. 8.61 million (2025: Rs 4.48 million).

39.2 Liquidity risk

Liquidity risk is the risk that an enterprise may encounter difficulty in raising funds to meet commitments associated with financial instruments. The Group manages liquidity risk by following internal guidelines of the Group executive committee such as monitoring maturities of financial assets and financial liabilities and investing in liquid financial assets.

On the reporting date, the Group had cash and bank balance amounting to Rs. 3,041.07 million (2025: Rs. 1,567.40 million) unutilized credit lines nil (2025: nil) and liquid assets in the form of short term securities amounting to Rs.8,660.69 million (2025: Rs. 5,432 million).

The following are the contractual maturities of financial liabilities, including estimated interest payments:

39.3 Credit risk

Credit risk is the risk that a party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Group attempts to control credit risk by monitoring credit exposures, limiting transactions with specific counterparties and continuously assessing the credit worthiness of counter parties. The Group seeks to minimize the credit risk exposure through having exposures only to customers considered credit worthy and obtaining securities where applicable. The table below analyses the Group's maximum exposure to credit risk:

40 CAPITAL RISK MANAGEMENT

The Group's objectives when managing capital include :

- Reinforcing Group's ability to continue as a going concern in order to provide returns to all its stakeholders with their corresponding risk profiles;
- Maintaining a strong capital base - resulting in enhancement of Group's business operations.

In order to maintain the balance of its capital structure, the Group may consider adjusting its dividend payouts, controlling non-developmental cash outflows and issuing fresh debt or capital instruments.

The Group monitors capital on the basis of the gearing ratio and its related profitability ratios. Gearing is calculated as debt divided by debt plus equity. Debt represents redeemable capital and other long-term borrowings, if any, as shown in the balance sheet. Equity represents paid-up capital of the Group, general reserve and unappropriated profit and loss.

Net capital requirements of the Group are set and regulated by PSX. These requirements are put in place to ensure sufficient solvency margins and are based on excess of current assets over current liabilities. the Group manages its net capital requirements by assessing its capital structure against required capital level on a regular basis.

41 FAIR VALUE OF FINANCIAL INSTRUMENT

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction. Consequently, differences can arise between carrying value and fair value estimates. The carrying values of all the financial assets and liabilities reflected in the financial statements approximate their fair values.

Under the definition of fair value is the presumption that the Group is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

41.1 Financial Assets Fair Value Hierarchy

All financial instruments carried at fair value are categorized in three categories defined as follows:

Level 1 - quoted prices in active markets for identical assets.

Level 2 - other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3 - techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.
