CLARIFICATION REGARDING PRODUCTION SUSPENSION AND INVENTORY AVAILABLE FOR LOCAL SALES

Dear Sir,

Further to our disclosure dated October 19, 2026, bearing reference GCWL/CORP/PSX-67, we wish to clarify that the Company holds sufficient inventory, which is available for sale in the domestic market. The suspension of production should therefore be read in conjunction with the availability of this inventory to meet local sales requirements.

Exports were envisaged as a principal driver of the Company's business and growth. However, the ongoing situation in the Gulf, including disruption to maritime routes and congestion at ports, have affected both exports and imports. As disclosed earlier, these conditions have prevented the Company from fulfilling its export orders and have led to the suspension of production activities.

The Company intends to sell its accumulated inventory in the local market during the production suspension. Accordingly, while fresh production remains suspended, existing stock provides a basis for domestic sales, subject to prevailing demand and market conditions. The suspension of manufacturing activities does not, in itself, constitute a suspension of local sales from available inventory.

This clarification supplements our earlier disclosure by explaining both the disruption to the Company's export plans and the availability of inventory for domestic sales. The Company will inform shareholders through PSX upon resumption of production and will communicate further material developments as appropriate.

You may please inform the TRE Certificate Holders of the Exchange accordingly.

For and on behalf of
Ghani ChemWorld Limited
