4. DISCLAIMER

(i) Regulatory disclaimer

In line with the Companies Act, 2017 and the Companies (Further Issue of Shares) Regulations, 2020, this document does not require approval of the Securities Exchange (Pakistan Stock Exchange Limited) and the Securities and Exchange Commission of Pakistan (SECP).

The Securities Exchange and the SECP disclaims:

a) Any liability whatsoever for any loss however arising from or in reliance upon this document to anyone, arising from any reason, including, but not limited to, inaccuracies, incompleteness and/or mistakes, for decisions and/or actions taken, based on this document.
b) Any responsibility for the financial soundness of the Company and any of its schemes/projects stated herein or for the correctness of any of the statements made or opinions expressed with regards to them by the Company in this Offer document.
c) Any responsibility with respect to the quality of the issue.

It is clarified that information in this Offer Document should not be construed as advice on any particular matter by the SECP and the Securities Exchange (PSX) and the same must not be treated as a substitute for the specific advice.

(ii) Investment risk and shareholder returns

Investment in the Company's shares and rights involves risk. The issue price, being at a discount to a historical market price, and the theoretical value of rights do not establish a minimum trading value or guarantee a return. Share prices and rights prices may fluctuate, which may affect the investment of members / investors. Neither future earnings nor dividends are assured. Investors should read the entire Offer Document, including the risk factors in section 11 before deciding whether to subscribe, acquire or dispose of rights.

(iii) Disclaimer on financial projections

The success of any investment depends on many factors, some of which may be within management's control, while many depend on market conditions and the general business environment. With respect to any financial projections, the management of the Company has prepared the same on a best-estimate basis using assumptions considered reasonable at the time of preparation. However, actual results and outcomes may differ materially from those projected due to changes in market and business conditions and other factors beyond management's control or reasonable anticipation. The financial projections do not constitute a guarantee of future performance, profitability, dividends or investment returns.

Projected financing cost savings, working capital returns and earnings are sensitive to repayment timing, procurement and sales volumes, trading margins, collection periods and the realization of internal funds. Historical financial statements and adjusted before-and-after financial positions should be distinguished from future financial projections.

Mr. Ali Alam Qamar (CEO / Executive Director) 3. Mr. Nouman Ul Hassan (Executive Director) 4. Mr. Sohail Wajahat Siddiqui (Independent Director) 5. Mr. Muhammad Afzal Chaudhry (Independent Director) 6. Mr. Juneid Akram (Non-Executive Director) 7. Mrs. Meezan Fahd Mukhtar (Non-Executive Director)
h) Brief purpose of utilization of right issue proceeds	The Right Issue proceeds shall primarily be utilized to fund incremental working capital for expansion of the existing business and to repay the Sukuk issued in October 2026.

Prescribed item	Disclosure
i) Purpose of the Right Issue – Details of the main objects for raising funds through present Right Issue	The incremental funding requirement is PKR 3,370,941,275/-, comprising additional working capital of PKR 1,370,941,275/- and Sukuk principal repayment (being the face value of the Sukuks) of PKR 2,000,000,000/-. Net Right Issue proceeds will provide an estimated PKR 2,951,500,000/- (87.56%), while internal funds generation of PKR 419,441,275/- (12.44%) will be used for the incremental funding requirement.
j) 'Minimum level of subscription' (MLS)	No separate MLS is opted for under Regulation 3(6); no separate MLS-triggered options apply.
k) Application Supported by Blocked amount (ASBA) facility, if any, will be provided for subscription of right shares.	Not Applicable.
l) Clear justification for issuance of shares of different class or kind, if applicable.	Not Applicable.

ii. Principal Purpose of the Issue and funding arrangements:

A. Details of the principal purpose of the issue.

The Right Issue will support expansion of the current business through better utilization of working capital, including repayment of the outstanding principal amount of the PKR 2 billion short-term Sukuk (i.e. the face value of the Sukuks), and additional funding for commodity procurement, supplier advances, inventory and receivables.

Use of proceeds	Amount PKR	% of gross	Completion status
Sukuk principal repayment (i.e. face value of the Sukuks)	2,000,000,000	66.66%	Principal repayment after receipt of proceeds and in accordance with Sukuk settlement terms.
Additional working capital	951,500,000	31.72%	Deployment after receipt of proceeds, according to procurement and operating requirements.
Issue expenses	48,500,000	1.62%	Issue-related expenditure, subject to actual invoices and final terms.
Total gross proceeds	3,000,000,000	100.00%	Right Issue pending subscription.

Net proceeds of PKR 2,951,500,000/- will be applied towards Sukuk principal repayment (i.e. the face value of the Sukuks) and additional working capital. Internal funds generation of PKR 419,441,275/- will meet the balance of the incremental working capital requirement of the Company. Sukuk profit will be paid separately from internal sources.

B. Additional disclosures relating to purpose of the issue shall be made in case of the following:

The planned funding requirement is PKR 3,370,941,275/-, comprising PKR 1,370,941,275 of additional working capital and PKR 2,000,000,000/- to repay the principal portion of the short-term Sukuk (i.e., the face value of the Sukuks). It will be funded by net Right Issue proceeds of PKR 2,951,500,000/- and internal funds generation of PKR 419,441,275/-.

Prescribed purpose category	Applicability
a. If purpose of the issue is to finance a project	Not applicable.

f. If purpose of the issue is loan/debt repayment	Applicable: repayment of the short-term Sukuk. Financing terms are disclosed below.
g. If purposes of the issue is BMR/investment in greenfield project	Not applicable.
h. If purpose of the issue is to acquire a company	Not applicable.

(ii) B. Working capital financing and short-term Sukuk repayment

Business line sales and cost assumptions

Working capital comprises funds deployed in inventory, advances to suppliers and trade debts (receivables), less trade payables. These balances support commodity procurement, stockholding and credit sales in the ordinary course of business.

Particular	Platform fee	Agri-commodities	Total PKR
Sales for FY 2026	454,041,909	2,303,594,297	2,757,636,206
Cost of Sales for FY 2026	(27,529,556)	(1,860,023,175)	(1,887,552,731)
Cost of Sales for FY 2026	6.06%	80.74%	68.45%

Particular	Platform fee	Agri-commodities	Total PKR
Sales Projected for FY 2027	567,552,386	4,026,290,485	4,593,842,871
Cost of Sales Projected for FY 2027	(34,411,945)	(3,251,003,712)	(3,285,415,657)

FY 2027 total sales are projected at PKR 4,593,842,871/-. Consequently, platform fee revenue growth is expected by 25% to PKR 567,552,386/-; agricultural commodity revenue forms the balance of PKR 4,026,290,485/-. Each business line retains its FY 2026 cost-of-sales ratio. Note that these are planning assumptions and do not assure sales or profits.

Planned FY 2027 requirement compared with FY 2026 closing balances

Particular	Expected days	FY 2027 planned PKR	FY 2026 PKR
Trade Receivables	65	818,081,607	362,231,953
Stocks & Advances	175	1,575,199,288	748,212,770
Trade Creditors	40	(206,855,094)	(294,960,197)
Net working capital	200	2,186,425,801	815,484,526

Additional working capital of PKR 1,370,941,275/- supports projected sales growth from PKR 2.758 billion in FY 2026 to PKR 4.594 billion in FY 2027. Receivables assume 65 days of projected sales; stocks and advances assume 175 days of projected cost of sales; and creditors assume 40 days of FY 2027 cost of sales. The projected net operating cycle is 200 days. Short-term investments are excluded from the operating working capital calculation.

Comparative cash conversion cycle in days

Measure in days	Standalone 2026	2025	2024	Group 2026
Receivables	54.88	84.87	87.24	54.52
Stocks and advances	130.02	170.38	438.54	130.02
Creditors	28.86	18.17	3.61	28.94
Net operating cycle	156.03	237.08	522.16	155.60

The Right Issue proceeds shall primarily be utilized to fund incremental working capital for expansion of the Company's existing business and to repay the Sukuk issued in October 2026. The Company projects an incremental working capital requirement of PKR 1,370.94 million, to be financed through PKR 951.50 million from net Right Issue proceeds and PKR 419.44 million from internal funds. A further PKR 2,000 million from net proceeds will be allocated to Sukuk principal repayment (i.e., the face value of the Sukuks), while the related profit will be paid from internal resources.

The planned cash conversion cycle for FY 2027 is 200 days, comprising 65 days for receivables and 175 days for stocks and supplier advances, less 40 days for creditors, compared with approximately 156 days in FY 2026. The longer cycle reflects the Company's strategy to strengthen its position across the agricultural commodity supply chain through advance procurement, greater inventory availability and customer credit support. These measures are intended to deepen supplier relationships, secure supply

during seasonal procurement periods, improve influence over procurement terms and support higher sales volumes. The additional working capital commitment therefore supports the Company's planned expansion and greater participation across the supply chain.

Historical turnover days use average balances, whereas the FY 2027 plan applies year-end funding assumptions. Projected creditor balances are based on FY 2026 cost of sales, while stocks and advances are based on projected FY 2027 cost of sales; the stated cycles are therefore indicative rather than directly comparable turnover measures.

Short-term Sukuk repayment

The Company's Sukuk issue which is currently outstanding is the PKR 2,000,000,000/- PPSTS issued on 6 October 2026, for six months, @ six-month KIBOR plus 2.50% per annum. Net proceeds from the Right Issue will be utilized to repay the principal portion of the same (i.e. the face value of the Sukuks), while related profit amounts accruing thereon will be paid from internal sources.

Required disclosure	Particulars

iii. General Requirements:

Requirement	Disclosure
(a) Activity-wise cost	Additional working capital of PKR 1,370,941,275/-; Sukuk principal PKR 2,000,000,000/-; total PKR 3,370,941,275/-.
(b) Phased project costs	No phased capital project is financed by this Issue; working capital is deployed through the operating cycle.
(c) Material transactions with promoters directors key management or associates	Historical related-party transactions and balances disclosed in Note 36 of the FY 2026 standalone financial statements comprise investment in Zarea Commerce – FZCO, a receivable from Zarea Agri-Tech (Private) Limited, donations to MM Foundation and dividends paid to Goldfinger (Private) Limited. These do not relate to the proposed incremental working capital requirements of the company. No material related-party transaction involving the Right Issue proceeds is currently envisaged. Should any such transaction arise, the Company shall obtain the requisite approvals under Section 208 or Section 199 of the Companies Act, 2017, if and when applicable.

Explanatory notes

1. Short-term investments: The Company intends to continue its investment activities in short term investment portfolio and does not intend for the foreseeable period (subject to the Board's determination) to liquidate that portfolio to fund operating working capital. These investments are excluded from the operating cycle and funding calculations.
2. Sukuk profit: Estimated profit of approximately PKR 148 million on the outstanding Sukuk will be met from internal sources. The allocation of Right Issue proceeds covers the principal portion (i.e. the outstanding face value of the Sukuks) only.
3. **Timelines of Utilization of Funds** (Net of Issue Expenses): The Company plans to utilize the net proceeds of the Right Issue, amounting to PKR 2,951,500,000/-, as follows: (i) PKR 2,000,000,000/- towards repayment of the outstanding Sukuk principal on April 5, 2027 (subject to the terms of the Sukuk documents); and (ii) PKR 951,500,000/- towards additional working capital requirements, including commodity procurement, supplier advances, inventory and receivables, with full utilization planned by June 30, 2027. 11. RISK FACTORS

A. RISKS ASSOCIATED WITH THE RIGHTS ISSUE

A.1. UNDERSUBSCRIPTION RISK

Directors and sponsors have provided irrevocable letters of intent for planned subscriptions of PKR 1.5 billion, representing 50% of the Right Issue. The remaining PKR 1.5 billion is underwritten by Dawood Equities Limited, Adam Securities Limited, Pak Libya Holding Company (Private) Limited and K-Trade Securities Limited. These arrangements mitigate undersubscription risk and the Right Issue has been announced at a price which is below the current share trading price in the market; hence there is minimal investment risk associated with the Right Issue.

B. RISKS ASSOCIATED WITH THE ISSUER

B.1. INTERNAL RISK FACTORS

B.1.1. OPERATIONAL RISK

Operational risk refers to the potential for loss arising from inadequate or failed internal processes, systems, human resources, or external events.

Disruptions in supply chain operations, technology platforms, or third-party service providers may result in delayed deliveries, increased costs, or loss of customer confidence. In addition, inefficiencies in internal controls, system failures, or cybersecurity incidents may adversely impact operations and financial performance.

The Company mitigates these risks through process automation, system monitoring, internal controls, and continuous operational oversight.

B.1.2. PROCUREMENT AND SUPPLY CHAIN RISK

The Company is exposed to procurement and supply chain risks arising from volatility in agricultural commodity availability, seasonal variations, quality inconsistencies, and disruptions in transportation. Any interruption in supply from suppliers, or delays in logistics, may affect the Company's ability to fulfill customer demand and impact margins. The Company mitigate these risks through effective internal controls and supply chain planning.

B.1.3. TECHNOLOGY AND PLATFORM RISK

The Company's operations rely significantly on its digital platform and supporting IT infrastructure. System outages, software defects, data breaches, or cybersecurity threats could disrupt operations, compromise sensitive data, and damage the Company's reputation.

The Company mitigates these risks through data security protocols, system backups, access controls, and regular monitoring of IT systems.

B.1.4. CREDIT RISK

Credit risk represents the risk that counterparties may fail to meet their contractual payment obligations. The Company is exposed to credit risk primarily in respect of trade receivables, advances to suppliers, deposits, and bank balances. A significant portion of sales may involve extended credit periods, particularly with institutional or large customers.

The Company manages this risk through customer credit assessments, monitoring of receivable aging, and provisioning in line with applicable accounting standards.

B.1.5. LIQUIDITY RISK

Liquidity risk arises when the Company may face difficulty in meeting its financial obligations as they fall due. The Company manages liquidity risk by maintaining sufficient cash balances and ensuring access to short-term financing facilities.

At 30 June 2026, current assets were PKR 4,070.502 million and current liabilities PKR 1,368.397 million, giving a current ratio of 2.97 times. The subsequent PKR 2 billion Sukuk requires timely settlement. Liquidity also depends on collections, realizable investment values and the internal funding contribution; historical ratios do not assure cash availability when obligations fall due.

The financial standing of the Company indicated by its Current Ratio, Interest Coverage and Debt Service Coverage ratios demonstrates that the Company has the ability to fulfil its financial obligations on time. Further, clean eCIB of the Company also demonstrates that the Company has not defaulted or dishonoured its financial obligations.

B.2. EXTERNAL RISKS

B.2.1. BUSINESS RISK

The Company's performance may be adversely affected by fluctuations in agricultural commodity prices, changes in demand patterns, increased competition, or reduced purchasing power of customers. Adverse weather conditions or crop failures may also impact supply volumes. The Company seeks to mitigate these risks through commodity price forecasting, crop monitoring, data-driven demand and supply planning, and efficient supply chain management.

B.2.2. INTEREST RATE RISK

At 30 June 2026, long-term bank finance, including its current portion, was PKR 27.646 million and carried fixed rates. The PKR 2 billion Sukuk issued in October 2026 carries profit @ six-month KIBOR plus 2.50% per annum and creates financing-cost exposure until repayment.

B.2.3. FOREIGN EXCHANGE RISK

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates and arises where transactions are conducted in foreign currency.

B.3. ADDITIONAL RISKS

B.3.1 SEASONALITY OF THE BUSINESS

The Company's agricultural commodity and biomass business is exposed to seasonal variations in harvest cycles, supply availability and customer demand. Procurement during peak harvest periods may require higher supplier advances and inventory holdings, increasing working capital requirements. Delayed harvests, supply shortages or slower inventory sales may adversely affect trading volumes, margins and cash flows. The Company mitigates these risks through diversified sourcing, data collection, advance procurement planning, efficient inventory management and working capital arrangements to manage seasonal fluctuations and maintain operational continuity.

DECLARATION

IT IS STATED THAT TO THE BEST OF OUR KNOWLEDGE AND BELIEF, ALL MATERIAL RISK FACTORS HAVE BEEN DISCLOSED AND THAT NOTHING HAS BEEN CONCEALED IN THIS RESPECT.
