NIMIR

NIMIR GROWTH AND VISION 2030

Current Turnover: US$ 250 million
Vision 2030: US$ 500 million

Past Growth in 14 Years:
CAGR: 15.5%

Enablers

- **South Facility** – adding oleochemicals plant and other group products.
- **Central Asia** – expand to CAS and setting up local manufacturing facility.
- **Saudi Arabia** – Establishing a manufacturing setup for construction chemicals and then expanding it to other products.
- **Bangladesh** – Potential of capitalizing the opportunity of new friendly relationship through local presence.
- **Turkey** – Enhance exports and explore the option of setting up a manufacturing facility.
- **Africa** – Great opportunities both in direct exports from Pakistan as well as local manufacturing in African countries.

Vision 2025-30

- JVs in Pakistan and abroad
- International Presence
- Ehancing Exports
- Corporate Branding

NIMIR

NIMIR INDUSTRIAL CHEMICALS LTD

OUR REVENUE GROWTH

2027 Outlook

- We have set an ambitious yet achievable growth targets across all business segments for the year 2027.
- Despite the presence of some higher-cost inventory that is affecting the first quarter, we anticipate a significant improvement in margins thereafter. Already achieved double bottom line in Q1 despite these adjustments.
- With a disciplined strategy, operational excellence, and the commitment of our people, we expect FY 2027 to be a year of stronger performance and sustainable growth.
- Political developments in the Middle East may cause unexpected hinderance to the supply chain.
