Future Outlook

Future Outlook

Building on FY26 momentum while managing cost pressures

Opportunities

- Expansion into new international markets and growing direct exports (+35% in FY26).
- Product diversification and value-added yarn and fabric.
- Solar expansion to ~20% of power consumed in FY27, lowering energy cost and emissions.
- Lower finance cost from debt re-profiling and a lower interest-rate environment.
- Stable exchange rate and export incentives supporting steady growth in FY2027.

Challenges

- High energy tariffs and uncertainty over gas availability.
- Volatile cotton and raw material prices.
- Strong regional competition, particularly from India and Bangladesh.
- Tax and levy burden on the textile sector.
- Rising buyer requirements on traceability, sustainability and ESG reporting (IFRS S1/S2).
