Corporate Sustainability

At HBL Bank, sustainable practices and principles are woven into the very fabric of our operations, strategies, and decision-making. Our pivotal role in the financial sector allows us to direct capital and investments toward initiatives that are both sustainable and socially responsible.

HBL has charted a course to achieve its corporate social responsibility objectives, in line with the United Nations Sustainable Development Goals (SDGs). These goals serve as a global call to action, offering a framework for achieving peace and prosperity for current and future generations. Our commitment is to lower carbon emissions, boost investments in sustainable projects, enhance sustainable finance and investment practices, and broaden access to financial services.

In 2023, HBL formed a sustainability forum steered by the Bank's executive committee members. This forum is tasked with overseeing sustainability efforts within the Bank and spearheading initiatives related to social responsibility.

Beyond direct support for community development, HBL allocates 1.5% of its profits to healthcare, education, culture, arts, and community development initiatives across the country through the HBL Foundation.

From 2021, HBL has embarked on publishing its Impact & Sustainability Report annually – accessible on its website at www.hbl.com/sustainability. The forthcoming Impact & Sustainability Report 2023, aligned with GRI standards and UN SDG commitments, will provide an in-depth review of HBL's contributions towards achieving these global goals. A synopsis of the Impact & Sustainability Report 2023 is provided below.

Gender Equality

In 2023, HBL was honored as 'The Most Inclusive Organization in Pakistan' for the second consecutive year, securing 'Best Practice' across all 15 categories of the Global Diversity, Equity, and Inclusion Benchmark (GDEIB) Awards. This recognition highlights HBL's unwavering commitment to fostering diversity, equity, and inclusion among its staff, clients, and the broader community.

With 22% women employees, HBL's gender diversity journey has been transformative. Initiatives like HBL Waapsi, maternity/paternity leave and miscarriage leaves, day care allowance, Falak mentorship, professional development opportunities, and our progressive flexible working policy are uplifting the role of women in the workforce. The Bank maintains a zero-tolerance policy towards gender-based violence and harassment, reinforced by a strong Anti-Harassment Policy.

HBL welcomed its first woman Agriculture Finance Officer in Hunza and the first woman Retail Lending Head in Jhelum, demonstrating the Bank's commitment to gender diversity across all levels and functions. HBL championed financial inclusion for women by opening 200,000 new Nisa accounts in 2023, disbursing nearly half a billion rupees to women entrepreneurs, and extending support to nearly 10 million women beneficiaries through BISP disbursements. Educational initiatives "Nanni Kissan" and "Agli Nasal" campaigns further underscored the importance of female education.

Expanding its efforts, HBL partnered with Visa for "She's Next" and Circle Women for "She Loves Tech", empowering women entrepreneurs. HBL also created its green finance framework in line with its Green Taxonomy, to achieve environmental objectives through green financing, such as climate change mitigation and adaption, pollution prevention and control, resource efficiency and ecosystem conservation. The framework will help identify Green Lending Activities and facilitate the direction of capital flow towards environmentally sustainable initiatives.

Chairman's Message

As we reflect on a year of unprecedented challenges, I am immensely proud of the resilience and dedication exhibited by our Bank in advancing financial inclusion and driving transformative growth. We firmly believe that access to banking services is a fundamental right, not a privilege. Through innovative measures and strategic partnerships, we have continued to extend our reach to underserved communities, enabling both businesses and individuals alike to participate in the formal economy. HBL now serves over 37 million customers. This is remarkable growth since 2018 when we served 12.5 million customers.

This year, HBL has delivered its highest-ever profit before tax of Rs. 113.6 billion, 47% higher than last year. Our earnings have strong contributions from the domestic franchise but also bear witness to an excellent performance by the international business. The Bank's profit after tax increased to Rs. 57.8 billion, a 68% growth over 2022. Earnings per share improved to Rs. 39.32 in 2023 from Rs. 23.23 in 2022. All this is underpinned by a strong balance sheet that has registered an increase of 19% to mark a footing of Rs. 5.5 trillion. In 2023, the Bank achieved a deposit market share of 12.44%, with a domestic deposit book of Rs. 3.5 trillion.

Despite a challenging economic environment, the Bank continued to grow its lending portfolios, be it the consumer portfolio that increased to Rs. 128 billion, or Agriculture financing, that combined with HBL Microfinance's agri lending increased to Rs. 107 billion, with a 23% market share. HBL considers Agriculture to be the bloodline of the economy, and this continues to be a key priority of the Bank.

Strengthening Agriculture

The Bank's unwavering commitment to sustainability, under the guidance of the Aga Khan Fund for Economic Development (AKFED) and in line with Pakistan's strategic priorities, has led us to play a leading role in developing the country's agricultural sector and promoting food security. HBL Zarai Services is the first agriculture extension services company in Pakistan, placing the Bank in a unique position to contribute towards improving value chains across every economically significant sector in the field of agriculture. As the champion bank for Balochistan, HBL continues to lead the industry with the highest agriculture disbursements in the province. After the successful agriculture pilot interventions in Punjab, which saw farmer incomes double, HBL is expanding this work to Khyber Pakhtunkhwa.

Capacity Building

The Bank has consciously worked hard on reviving industries by restructuring and reprofiling facilities where sponsor support and commitment have been forthcoming, expanding outreach in the corporate, consumer and retail segments, specifically in the "S" part of the SME business, we

have become the largest provider of services to this vital sector of the economy. HBL is the first bank in the industry to cross Rs. 100 billion in SME lending (with a market share of 19%).

Financial Inclusion

Recognising the Bank's efforts to promote financial inclusion, HBL received the 2023 Access to Finance Champion award. This accolade acknowledged the Bank's continuous efforts to improve women's representation in its customer base through the Nisa product suite.

In addition, the Bank and Visa have collaborated in “She’s Next” to support women entrepreneurs. Through this partnership, we aim to provide them with the skills and training to build their businesses and contribute towards the growth of Pakistan’s economy.

Through Konnect, HBL is the partner of choice for the Government for social safety net disbursements. HBL’s customer base now stands at over 37 million, the largest in the industry, and triple our own numbers from just five years ago. HBL’s digital transformation journey – led by HBL Konnect, HBL Mobile, and Robotics Process Automation (RPA) – has revolutionised the way the Bank connects with its clients, enabling them to manage their finances with ease.

Directors' Report 2023

On behalf of the Board of Directors, we are pleased to present the Consolidated Financial Statements for the year ended December 31, 2023.

Macroeconomic Review

FY'23 was a year of severe macroeconomic stress – a rapidly declining Rupee, import prioritisation and record interest rates threatening job losses and defaults, and political polarization; all reflected in a weak GDP growth of 0.3%. FY'24 started on a more positive note with the announcement of the IMF's Standby Arrangement (SBA) which provided a lifeline for the country. The first half of FY'24 has seen more stability and some nascent signs of growth, led by a rebound in agriculture. While the Large-Scale Manufacturing Index declined marginally YoY for H1FY'24, numbers are trending upwards; momentum in the industrial sector is expected to pick up in H2FY'24 and a 2–3% GDP growth forecast for FY'24 remains on track. Headline inflation peaked at 38% in May'23, averaging 29.2% for FY'23 compared to 12.2% in FY'22. While inflation has tapered, falling to 28.3% in Jan'24, frequent and sizeable adjustments in energy prices have slowed the pace of decline. Average inflation for 7MFY'24 was 28.7% compared to 25.4% in the same period last year; the SBP's forecast for FY'24 remains at 23 – 25%.

Suppressed demand, coupled with import management for most of the year, led to a 15% YoY decline in imports for H1FY'24, helped by lower commodity prices. Despite the global downturn, exports increased by 7.5%. Consequently, the trade deficit for H1FY'24 narrowed by 35% to USD 9.9 billion, with a current account surplus in Dec'23. The wide gap between the kerb and interbank markets at the start of FY'24 has been closed by tightened rules for exchange companies, as well as a crackdown on illegal FX activity and tightened monitoring of Afghan Transit Trade. Consequently, remittance flows through official channels improved, clawing back some of the decline seen in Q1FY'24. Remittances for H1FY'24 reached USD 13.4 billion, a drop of 7% over H1FY'23. The current account deficit for the first half of FY'24 fell by 77% to USD 0.8 billion compared to USD 3.6 billion during the same period last year.

Foreign exchange reserves had reached precarious levels at the end of FY'23. However, the signing of the SBA and the release of the first tranche, triggered the release of support from friendly countries, providing an immediate boost to reserves. Further gradual inflows from multi-lateral donors along with the declining current account deficit, have bolstered SBP's FX reserves; the release of the second SBA tranche in Jan'24 has kept reserves above USD 8 billion. As a result, the Rupee recovered from its low of 307/\$ in Sep'23 to Rs 282/\$ by the end of the year, a 24% depreciation for 2023.

The primary fiscal balance remained in surplus for H1FY'24, more than doubling over H1FY'23, to Rs 1.8 trillion; as a percentage of GDP, it improved to 1.7%, well ahead of IMF targets. Tax revenue rose by 30%, with FBR collection reaching Rs 4.5 trillion as the Government continued to increase taxes on existing payers rather than widening the tax base. The high interest rate environment led to 64% higher debt servicing costs, leading to a 45% growth in total expenditure. The total fiscal deficit thus increased to 2.3% of GDP from 2.0% in the same period last year.

A stable currency and expectations of a more dovish monetary policy propelled a strong rally in the equity market with the KSE-100 index rising by 35% in Q4'23 alone, closing at 62,451 in Dec'23, up 55% for the year. Foreign portfolio investment of USD 71.0 million in H2'23, the highest in 5 years, lent further support to the bull run.

Despite market expectations of monetary easing since the start of the last quarter, the central bank has kept the policy rate unchanged at 22% in the latter half of the year. The SBP cited that, while inflation has eased, the pace of decline is slower than previously anticipated due to substantial hikes in energy tariffs. The easing of demand pressure was reflected in private sector credit which fell by 1.4% in 2023 compared to a growth of 14% in 2022; although, in line with improving conditions, credit increased by 5% in the second half of 2023. Growth in industry advances and deposits was somewhat skewed due to the unusual levels in Dec'22 resulting from the ADR tax imposition; advances grew by a modest 3.6% over the prior year, while deposits increased by 24%. Banking spreads in 2023 have widened by 214 bps compared to 2022, as rising lending yields outpaced increases in deposit cost.

Financial Performance

In 2023, HBL has delivered its highest-ever profit before tax of Rs 113.6 billion, 47% higher than the Rs 77.0 billion recorded last year; a consistent growth trajectory led by excellent performance from the domestic franchise and a solid turnaround from the international business. The Bank's profit after tax increased to Rs 57.8 billion, a 68% growth over 2022. Earnings per share improved to Rs 39.32 in 2023 from Rs 23.23 in 2022.

HBL's balance sheet increased by 19% to Rs 5.5 trillion. Total deposits grew by 19% over Dec'22 to Rs 4.1 trillion resulting from strong deposit mobilization in both the domestic and international businesses; domestic deposits rose to Rs 3.5 trillion, a growth of 18% over last year. Average domestic deposits increased by Rs 346 billion, primarily driven from low-cost CASA, enabling HBL to manage its cost of deposits. Despite a slight decline in private sector credit, HBL's domestic advances remained steady at Rs 1.4 trillion, while total advances rose 4% to Rs 1.9 trillion. The Bank's flagship consumer

portfolio increased to Rs 128 billion. Agriculture financing continues to be a key priority of the Bank; the lending book increased to Rs 57 billion and, combined with HBL Microfinance, was well over Rs 100 billion.

With continued rapid monetary tightening in 2023, net interest margins improved by 158 bps over 2022. The average domestic balance sheet grew by Rs 486 billion which, coupled with the higher spreads resulted in a 45% rise in domestic net interest income. With expanding spreads across most locations, the international business also returned a 33% growth; HBL's total net interest income increased by 46% to Rs 242 billion in 2023. Non-fund income grew by 23% to Rs 57.5 billion with HBL's dominant fee franchise delivering excellent results, yet again rising by 34% to Rs 42.3 billion. Its flagship Cards business continued to lead the market, contributing nearly 50% of the total fee increase while trade, cash management and retail banking all delivered solid double-digit contributions. Consequently, HBL's total revenue increased by 41% to Rs 300 billion.

In the midst of record inflation and steep devaluation, administrative expenses of the bank increased to Rs 170.1 billion. However, with a strong revenue base, the domestic cost / income ratio improved to 47.3% compared to 51.1% last year. The Bank's non-performing loans have increased and, with a flat loan book, there was a slight uptick in the infection ratio to 5.2%. As a result of prudent provisioning, the total coverage remains above 100%.

Capital Ratios

With the strong results, internally generated capital grew by 20% in 2023, adding 256 bps to the Tier 1 Capital Adequacy Ratio (CAR). However, the large Rupee devaluation of Rs 55.4/\$ diluted the profitability impact by 130 bps. As a result, HBL's consolidated Tier 1 CAR increased by 63 bps over the year, to 12.44%. The increased headroom over minimum capital requirements, also added to Tier II capital eligibility, increasing total CAR by 118 bps to 16.01%. Both ratios remain comfortably above current regulatory requirements.

Business Developments

HBL continues to spearhead the purpose-driven transformation of the banking industry in Pakistan and enhance customer engagement, remaining at the forefront of providing thought leadership across various spheres of development. In 2023, the bank achieved a deposit market share of 12.44%, with a domestic deposit book of Rs 3.5 trillion. This was aided through the addition of nearly 800,000 new customers through its branch network. HBL aims to become a major player in the rapidly growing Islamic Banking space. After an extensive project to convert part of the conventional branch network, the Islamic branch footprint has reached 408 with 100 branches converted in 2023 alone. Deposits in this segment grew by 32%, to Rs 422 billion.

HBL embarked on a journey to offer a renewed approach to client segmentation, acknowledging the importance of tailoring products and services to meet customer needs. This purpose-driven strategy was meticulously crafted to fortify the franchise, positioning HBL to remain deeply connected with its customers and sustain its leadership role in the years ahead.

The Prestige proposition is designed to change the landscape of priority banking across Pakistan. At Prestige, understanding client needs and aspirations underpins delivering exceptional financial services, offering clients a bespoke product suite in line with their sophisticated needs. Prestige serves the banking needs of the high net worth (HNW) client segment through 39 dedicated lounges across 18 cities in Pakistan along with its first international lounge, in Dubai. The scope of Prestige is augmented through a non-lounge strategy; in the absence of a dedicated lounge footprint, 650 branches have been enabled to on-board Prestige customers, offering them broader access to the value proposition.

HBL continues to solidify its position as a market leader in innovative products, serving 5 million women customers, including over 1 million under its women's market program, HBL Nisa. This one-of-a-kind, comprehensive platform goes beyond banking for women and offers them financial freedom and increased opportunities through its tailored value proposition, women-centric insurance coverage, and consumer lending options. During 2023, HBL Nisa acquired over 145,000 new accounts with Rs 40 billion of incremental deposits; total deposits under the Nisa program are Rs 126 billion including Rs 51 billion under Nisa Tawfir, the Islamic offering. To cater to the growing savings needs of women, a mutual funds proposition, exclusively for women, was launched in collaboration with HBL Asset Management Limited. Recognizing the Bank's efforts of promoting financial inclusion, HBL received the 2023 Access to Finance Champion award at the annual summit of the Financial Alliance For Women. This accolade acknowledged the Bank's continuous efforts to improve women's representation in its customer base through the Nisa product suite.

The Bancassurance business built on the leadership position achieved in 2022, growing market share from 28% to 32%. The bank partnered with IGI to launch Prime Vitality, targeted to cater to the health and lifestyle needs of HNW individuals. Total premiums written increased by 5% to Rs 4.3 billion, bucking the overall decline in the industry. HBL fosters financial literacy and empowers its clientele to make informed investment decisions. Sales of HBL AMC's mutual funds delivered excellent results with sales of ~Rs 30 billion in Assets Under Management (AUMs) in 2023.

HBL's Consumer Banking business had another stellar year with total lending growing to Rs 128 billion. The credit cards business increased its leadership with a growth of nearly 40% in card usage, with spend rising to over Rs 250 billion; the portfolio increased by 36%, to Rs 32 billion. Over 85,000 new credit cards were issued in 2023 and significant limit increases were given to existing qualifying customers to assist them in light of inflationary pressures. HBL's credit cards remain top-of-wallet, with one out of every three Rupees spent on credit cards in Pakistan being on HBL. The Bank further solidified its position as the largest debit card issuer in Pakistan with a total of 7.1 million debit cards issued – one in every five debit cards in the country is an HBL debit card – with spend volumes in 2023 increasing by 48%, to Rs 181 billion. HBL's consistent industry leadership in this area earned it the Best Consumer Bank award at the Pakistan Banking Awards 2023.

HBL entrenched its leadership position in merchant acquiring with a POS network of 46,000, the largest in the industry. HBL has extended its network to smaller cities and its terminals are present in more than 250 cities. This remains key to taking digital payments mainstream, and increasing acceptance across all areas of the country, contributing to the national priority of digitization and documentation of the economy. With focused efforts over the past few years, 16% of HBL's POS spend now comes from these smaller towns and cities.

HBL strengthened its market leading position in personal loans with a portfolio of Rs 41.5 billion and an impressive 35% market share; this product continues to be the largest component of consumer finance with fresh disbursements of Rs 26 billion made during the year. In auto financing, despite an overall decline in the industry due to supply constraints, HBL solidified its leadership position, increasing market share from 12.5% to 15% with a portfolio of Rs 36 billion. This was made possible through fresh bookings of over Rs 10 billion as HBL remains the bank of choice for customers due to its superior value creation through alliances with leading auto manufacturers. Home Finance demonstrated steady progress in 2023, with the outstanding increasing to Rs 14 billion and is expected to be a key driver for future growth. Under this initiative, HBL demonstrated a 63% growth in its portfolio in the province, the highest amongst all institutions; the Bank also created farmer awareness and collaborated with educational institutions to develop a skilled labor force. HBL also utilized a number of SBP schemes designed to uplift farmers, providing assistance with farm mechanization, water conservation, and renewable energy solutions for tubewells and cold storage.

HBL continued to create an impact on farmers by conducting awareness and financial literacy programs through its flagship platform Kissan Ki Awaaz. The Bank conducted more than 40 Kissan ki Awaaz sessions during the year covering all provinces of Pakistan and reaching out to over 3,000 farmers.

Through its ground-breaking development finance initiative HBL, as Pakistan's largest commercial bank, has been helping farmers improve their farm productivity and economics by assisting them at every stage of the crop cycle. Over the last three years, in a series of ever-expanding pilots, the Bank worked closely with farmers through a team of dedicated field agronomists, covering the entire production and post-harvest cycles, ensuring that farmers employ scientific farming practices. HBL also provided quality farm inputs in a timely manner at their doorstep and farm mechanization services at a competitive cost point. The outcome was transformed farm economics. Independent economists at Princeton and Yale concluded that yields and profitability for these pilot farmers were, on average, 46% and 194% higher than regional averages.

Based on this successful proof of concept, HBL has taken the next step towards its goal of revolutionizing the agricultural value chain by introducing HBL Zarai Services Limited (HBL Zarai) – a wholly owned agriculture services extension subsidiary. HBL Zarai will offer a host of unique services from advisory and inputs, to crop offtake, warehousing and logistics, right at the farmer's doorstep. Farmers will be serviced through Deras – dedicated distribution and service centers etched among the heart of the farmlands. The company has been incorporated and the first Dera has just been launched in February 2024.

During a turbulent year for the global and domestic economy, HBL's corporate and commercial banking teams implemented robust risk management strategies to identify and address potential challenges stemming from a dynamic environment. By closely monitoring market trends and maintaining a disciplined credit evaluation process, portfolio quality was upheld while improving profitability. Through a one-window, wholesale banking approach, HBL offered its clients customized products for the entire gamut of their financial requirements. The Bank's focus remained on supporting clients through the cycle, enabling them to manage their risks in a volatile environment. Customers were provided sound advice on managing the high interest rate environment and their debt levels. Total lending to corporate and commercial customers, including under Shariah-compliant modes, declined by 5% during 2023 as overall private sector credit also declined.

The recently established Global Trade Services (GTS) function was crucial for managing trade flows during a challenging year. Along with customized trade-based solutions, GTS worked closely with Treasury to manage foreign exchange liquidity by strategically managing import and export flows. GTS is also enhancing the Bank's trade penetration into the SME and Commercial segments and in 2023 alone, has successfully grown the Bank's share of exports by 1.8% to 13%. The bank has been able to make inroads in export markets, increasing volumes by 3% even as the country's total exports reduced by 11% in 2023.

HBL recognizes that being Pakistan's leading bank comes with great responsibility. An excellent example of the Bank's capacity building efforts was the corporate restructuring of one of Pakistan's largest home textile exporters which had faced problems during the 2008-10 financial crisis. With HBL's support, the company has now restarted operations and, in the first 18 months of operations, delivered significant revenue, reduced its debt load, and re-employed 3,000 people with the potential for future growth.

HBL maintained its leadership position in the transaction banking business and continues to tailor its service suite to meet client needs. Total cash management throughput increased by 22% to Rs 15.0 trillion; digital transactions, which constitute over 78% of total transactions, increased by 24%, crossing Rs 10 trillion. HBL won the Domestic Cash Management Bank of the Year award from the Asian Banking & Finance Whole Banking Awards. AsiaMoney ranked HBL as the market leader

amongst domestic banks for cash management as well as the Best Service for Cash Management in Pakistan for the third year in a row; the latter is all the more gratifying as it is based on votes by HBL's customers and is a testament to its goal of delivering innovative products tailored to client needs.

HBL continues to lead the employee banking segment by providing pension and payroll services to over 3.1 million employees, with deposit balances growing to over Rs 400 billion. Over 95% of all employee banking transactions are via digital channels. HBL continues to enhance this product by offering additional benefits to enrolled individuals.

HBL's dominant Investment Banking business provides a complete suite of Investment Banking products and structured solutions through dedicated specialist teams. Despite challenging economic conditions in 2023, HBL was able to successfully close 26 deals valued at over Rs 765 billion. The transactions were in diverse sectors including renewable energy, real estate, telecom, power generation & transmission, and FMCG companies. The mandates included the entire range of investment banking options, covering both debt and equity. As a recognition of its superior delivery, HBL's Investment Banking Team received 19 accolades from international and domestic publications during the year, sweeping the awards space across all asset classes and including the Best Investment Bank in Pakistan award.

In line with HBL's strategy of contributing to Pakistan's growth and development, the Investment Banking teams have been engaged with the Government in a number of advisory capacities to facilitate projects of national interest. Through extensive interaction, the business has developed an active pipeline of deals across a diversified universe to ensure maximum economic impact across the spectrum of industries from agriculture to infrastructure to renewable energy.

2023 saw significant market volatility – especially in the 1st half of the year – with a reduction in liquidity across asset classes. In the prevailing uncertain environment, client engagement, along with balance sheet and risk management were the primary areas of focus with close monitoring of transaction flows and client activity. Treasury's sales team ensured that clients were kept well abreast of developments in the economy and in the market through frequent and in-depth customer calls; this was very well received by the Bank's client base. While volumes were 25% lower than in 2022 on the back of shrinking trade and other flows, close attention to margin management ensured continued revenue growth.

HBL Symphony®, the bank's fixed income platform, saw a doubling of volumes and we expect these to increase substantially in 2024 with the launch of additional features and functionality. However, reduced country trade flows along with a tightly controlled interbank market, saw a sharp drop in volumes transacted on HBL Infinity®, the Bank's FX portal.

HBL's digital channels facilitated secure digital banking across Pakistan; in the process, the Bank garnered seven prestigious awards, including the Best Bank for Digital Solutions and the Most Innovative Bank. These awards provide an important external validation of HBL's efforts in this area.

The Bank's mobile and internet channels witnessed an 89% YoY rise in transactions, with 1 billion financial transactions and services processed in 2023; financial transaction volumes through HBL Mobile and Internet Banking doubled to Rs 4.7 trillion. Committed to inclusivity, HBL introduced Urdu as a language option and audio TalkBack compatibility for visually impaired Mobile users, making it the first app in the country with these features. Within a month of its launch, audio talkback had been experienced by 52,000 people and it continues to have a base of 47,000 users. This underscores HBL's continued efforts to meeting the needs of Pakistan's people and its pivotal role in enabling financial empowerment. In addition to the new features and enhanced security, the app also saw a revamped menu, over 99.5% service availability and its rating rise to 4.8 on Google Play Store.

HBL also commercialized cutting-edge digital payment solutions tailored to the e-commerce sector. HBL Digital Invoicing is revolutionizing the social e-commerce space by enabling home-based sellers to accept card-based payments for orders received through social media platforms, reducing reliance on cash-on-delivery and increasing accessibility to international buyers. HBL Tap & Pay is enabling the retail sector and courier and delivery services to accept "last-mile" card-based payments through mobile POS, again enabling reduced reliance on cash. HBL became the first bank in Pakistan to offer aggregator services to other financial institutions through 1-Link, connecting customers of different banks with its billing partners. This ground-breaking move has accelerated the digitization of payments across the industry with 320,000 transactions processed during the year. With a resurgence of QR acceptability in the market, transactions at HBL's QR locations rose to Rs 7.3 billion in 2023, more than 5 times higher than the previous year; transactions through HBL's Mobile and Konnect Apps totaled Rs 4.4 billion accounting for 60% of the QR volume.

Konnect by HBL achieved a number of milestones in 2023, solidifying its position as a pioneer in branchless banking. Total volume processed exhibited a 60% growth, crossing Rs 1 trillion. This substantial increase underscores Konnect's expanding operational capability and its growing influence in the market. A key driver of this success was the onboarding of 1 million new customers, driving the total portfolio to 9.1 million customers, 11% higher than last year; women continue to make up nearly a quarter of Konnect's customers. This is a testament to Konnect's sustained market appeal and effectiveness in attracting new clients. The Konnect Islamic Account attracted more than 300,000 new-to-bank customers in 2023, with the total portfolio now exceeding 500,000. Transactions processed through this account nearly doubled, to 1.9 million, signifying the rapid market adoption and the growing demand for Shariah-compliant financial products.

Konnect's foray into insurance services in 2023 was a significant milestone, with health and life insurance product offerings achieving a first-year volume of Rs 143 million. The launch of Konnect Travel in 2023, offering comprehensive solutions for

hotel and airline bookings, further diversified services, providing customers with market-competitive rates for airline tickets.

Konnect is a trusted partner of the government with its effectiveness in supporting crucial initiatives. Efficiently handling government mandates, Konnect disbursed more than Rs 330 billion for the Benazir Income Support Programme in 2023; Konnect also worked with other agencies such as WHO, WFP and UNHCR to distribute social transfer payments, growing total G2P volumes by 49%. Collections in 2023 crossed Rs 500 billion, a doubling over the previous year. Most of this increase was driven from corporate distributors and from educational fee collections. Disbursements rose by 30%, crossing Rs 30 billion, with pension disbursements being a key component of the growth.

Strategic partnerships played a pivotal role as HBL joined forces with the Pakistan Software Houses Association (P@SHA) to support freelancers and software houses. This initiative aims to contribute to growing the digital economy, providing specialized financial services to these thriving sectors, and nurturing innovation and entrepreneurship in the IT sector. In line with HBL's stated objective of contributing to Pakistan's development, the partnership plans to showcase Pakistani software houses in regional markets, positioning the country as a technology destination. HBL has facilitated freelancers by simplifying and digitizing their account opening process, making it easier for them to receive foreign payments seamlessly, and is planning tailored products for the freelancer community.

The Robotic Process Automation (RPA) program launched in 2022, is now seeing widespread adoption across the Bank. RPA aims to improve process accuracy as well as the customer experience by automating repetitive, rule based and other manual tasks. Significant process efficiencies have been achieved in multiple functions and the focus is now on a cross-functional approach, to digitize processes end-to-end. Since the launch of this initiative, 126 processes have been automated, saving ~21,000 person hours per month.

2023 has been significant for data democratization in the organization with the introduction of business self-service. This, coupled with centralization of most core system data into the data lake is empowering end users to concentrate on value addition instead of data preparation and consolidation. The ability to access data aggregates quickly and perform drag and drop analytics has improved decision making and allowed further insight into core banking transactions.

Sustained efforts over the last few years to reposition the international business are beginning to come to fruition. The relentless focus on building network business resulted in cross-regional clients increasing by 37% with sustained growth in deposits and lending. The China business remains key to network connectivity. HBL's unique position as one of only three RMB intermediaries in MENA and South Asia enables it to offer unmatched customer solutions with RMB volumes increasing by 1.75x in 2023. To further unlock regional trade potential, HBL China added new financial institution partnerships and capitalized on its LC advising rebate program for South Asia, enabling it to double its business. The strong growth in activity drivers, helped by widening spreads across global markets has led to International making a meaningfully positive contribution to the bottom line.

Customer acquisition reached a new high throughout the international network. Along with the increasing customer focus, new products and services are being developed. The Prestige proposition launched in the UAE has received enthusiastic customer response and plans are in place for expansion to Bahrain and UK. Islamic deposit products launched in Singapore are seeing good traction, and trade between network countries continues on an upward trajectory. Simultaneously, technology platforms, payment systems and digital applications are being upgraded to enhance product offerings.

HBL entered into a landmark alliance with Bank of China by signing a strategic Memorandum of Understanding, a first of its kind in Pakistan. The MoU signifies a shared commitment to driving economic empowerment, regional connectivity and creating seamless regional trade opportunities. It also underscores the importance of adherence to ESG principles. HBL is a founder member of Green Investment Principles and has now become the first and the only Pakistani bank to be a member of the Capacity-building Alliance of Sustainable Investment (CASI), evidencing its commitment to sustainable development. Launched at the recent COP28 in Dubai, CASI leverages innovative knowledge-sharing platforms to promote best practices for sustainable finance. Both these forums provide HBL access to global developments in Green Finance.

During 2023 HBL Microfinance Bank (HBL MfB) solidified its mantle as the largest microfinance bank in Pakistan. HBL MfB delivered a 14% growth in its loan portfolio to reach Rs 97.6 billion, while deposits rose by 10% to Rs 128 billion. 33% of its 3.7 million clients are women, underlining the bank's commitment to expanding access to women. The Bank is the largest provider of housing finance to microfinance clients with a portfolio of Rs 34 billion and is also the leading lender to agriculture with its portfolio of Rs 54 billion second only to HBL. The SBP has nominated HBL MfB as the agriculture Champion Bank for Gilgit Baltistan. Under this mandate, HBL MfB has been playing a leading role in steering the overall agri-banking strategy in the region, including engaging with a host of stakeholders to find solutions to region-specific issues.

HBL MfB has consistently invested in technology as a means to financial inclusion. An in-house developed Customer Management Solution (CMS) is a state-of-the-art system that enables customer on-boarding using tablets with loan processing within 48 hours. CMS has been implemented across the network and has helped it to transform from physical credit processes to end-to-end digital lending. In 2023, for the second year in a row, HBL MfB was named as The Best Microfinance Bank at the IBP's Pakistan Banking Awards and also recognized as The Best Microfinance Bank by the CFA Society of Pakistan. HBL Microfinance Bank takes great pride in having been able to transform its clients' lives by graduating them from microfinance to micro-SMEs. Citi-PPAF awards to 32 of its customers over the last several years is evidence of the bank's commitment to its mantra of "umeed say yaqeen tak" – turning hopes into realities.

HBL – AMC continued its growth momentum during the year and is now the 3rd largest AMC. The Bank's focus on individual investors to drive growth is now yielding dividends – Assets Under Management (AUMs) in the retail segment increased by 91% to Rs 84 bn, raising total AUMs by 30% to Rs 204 billion. This enabled the company to post its highest ever profit.

HBL Currency Exchange (Pvt) Ltd has become the largest bank-owned exchange company in Pakistan, doubling its footprint to 49 locations. After a record year in 2022, turnover declined by 37% due to regulatory changes as credit card settlement transactions were re-routed to commercial banks. However, elevated spreads and controlled expenses helped to contain the decline in revenue and profit.

Throughout the year, the Bank launched various initiatives to significantly reduce turnaround at both at the branch and back-end levels, helping to improve the customer experience. A simplified client on-boarding experience has led to 82% of low and medium risk accounts being opened on the same day. HBL also embarked on a channel migration drive to transition customers from traditional branch counter services to digital channels, providing them convenience while easing congestion in branches.

HBL's Contact Centre delivered 24 x 7 service, handling 13.2 million interactions over the year. During the year, IVR utilization increased from 48% to 54%. In 2023, the Bank received 450,274 complaints, resolved on average within 4 working days.

In 2022, HBL announced its commitment to meeting AKDN's Net Zero target by 2030 and is working on implementation with an international consultant. Solar panels have been installed at 235 premises and have resulted in a 500+ MT reduction in HBL's carbon footprint during the year. Another 80 branches have been targeted for solar conversion in 2024. The Bank obtained the WWF's Green Office certification for two of its premises after successfully implementing green operating protocols. Energy Audits of three premises were concluded, based on which a number of initiatives are being rolled out to reduce emissions. These include double glazing of windows, roof insulation and HVAC and lighting rationalization in major buildings. To improve the sustainability of its own operations, 3-bin recycling has been rolled out and awareness sessions held with staff and vendors.

The HBL brand remains Pakistan's strongest financial services brand. 2023 was marked by its innovative spirit, digital prowess, and unwavering commitment to clients. These efforts underlined HBL's pivot towards the burgeoning youth segment of Pakistan. The Bank understands that this segment is tech-savvy and hence, focuses its efforts on providing them with relevant products and services to stay connected. The Bank enhanced its already impressive social media footprint by embracing the TikTok platform with ~50 million followers. HBL is now the leading financial services player on almost all social media platforms.

Our pivot towards youth is a combination of activities, implemented in a consistent manner. Working with social media influencers is one such effort; combined, they have more than 150 million followers on different platforms. In 2023, HBL worked with over 130 influencers who created more than 180 content pieces and spearheaded 11 campaigns for the Bank, both for the Brand as well as for promoting our products. Recently, the Bank has made a foray into E-sports, a passion for over 37 million Pakistanis, by sponsoring an e-gaming version of a football competition. Under its Konnect umbrella HBL has launched both a brand and a product push to connect with this large audience. We have also begun creative collaborations with youth-centric brands to deepen our connection with and understanding of the youth segment.

HBL's industry-leading TikTok campaign and its ongoing association with HBLPSL, Pakistan's biggest sporting platform, now in its 9th year, are accelerating efforts to reach-out to youth. TikTok published a case study on the Bank's campaign for HBLPSL 8 as a TikTok Global Success Story. During the campaign, 8.9 million videos were created, generating over 8.7 billion views on the platform and reaching an incredible 97% of Pakistani TikTok users. For HBL PSL 9, the Bank has upped the ante by launching the Palat Do Khel campaign. This messaging, on both conventional and social media, helps Pakistanis celebrate the positive side of the country, capture the true spirit of Pakistan and showcase it to the world. Every time anyone sees something good around them, they too can become an influencer by recording a video on their phone and sharing it on social media using #PalatDoKhel. We hope that this will snowball into a celebration of the many positives and successes that each of us sees around us, every day, instilling self-belief in millions of Pakistanis.

HBL became the first bank in Pakistan to launch a dedicated client care 'X' (formerly known as Twitter) handle "@HBLCare". The dedicated customer care handle has diverted 38% of complaint volume from HBL's corporate profile (@HBLPak) and

allows for more immediate monitoring and resolution of customer concerns.

Human Resources

HBL's success lies in its unwavering commitment to its employees through its core value of Valuing People. This guiding principle has driven numerous staff initiatives in recent years, all aimed at enriching the lives of HBL's employees and their families.

In line with our aspiration to embed a pay for performance culture, the Bank revamped its Performance Management System. Goals for all employees have been aligned with those of the organization, within standardized categories, to create a better sense of purpose and an understanding of how each employee's contribution impacts HBL's overall success. A 360-degree feedback mechanism was also launched for 400 senior managers to enhance leadership capabilities and reinforce our commitment to an ethics and values-based culture. Discipline and rigor in differentiating performance enabled us to reward a larger population of employees.

As part of the Bank's commitment towards diversity, equity & inclusion (DEI), best practices were shared with organizations across various industries. Sessions like Power Hour and Empowering through Inclusion helped bring together leaders from financial and non-financial companies, enabling participants to share common challenges and solutions. The Bank also launched a day care allowance to support female colleagues with young children, helping them to balance motherhood and careers. To further our commitment towards inclusion of differently-abled people and facilitate their mainstreaming, engagement activities were held during the year, including after-school internships, pop-up stalls to provide them a platform to showcase their products and staff sensitization sessions. HBL's commitment to DEI was recognized as, for the second consecutive year, the Bank was awarded the Most Inclusive Organization in Pakistan – 2023 by the Centre of Global Inclusion at the GDEIB awards.

Learning activities during the year were focused at optimizing human resources through reskilling and redeployment to enhance efficiency. To foster a culture of continuous learning and growth, HBL Nexus was launched as a platform for digital learning. The program provides tailored and immersive learning experiences to facilitate digital upskilling. The Leadership Excellence journey, launched in 2022 for General Managers, was cascaded to the next level of over 800 mid-level leaders. More than 500,000 person-hours of training were delivered to help employees remain updated with regulatory requirements, global best practices, and job-based skills. In 2023, HBL became the first organization in Pakistan to implement the SAFE® - Scaled Agile Framework. This working methodology encompasses a set of principles and values that will help us to efficiently and rapidly offer customer-centric, innovative solutions.

To encourage and support junior staff in building assets and owning their own homes, house loan facilities were enhanced with higher limits and lower markup rates. Given the Bank's leadership on sustainability matters, a solar financing facility was also introduced for staff.

Risk Management Framework

HBL manages the identification, assessment and mitigation of top and emerging risks through a robust internal governance process and the use of risk management tools and processes. The Board of Directors exercises strong oversight and the Board Risk Management Committee (BRMC) monitors and assesses the risk profile of the Bank on an ongoing basis. At senior management level, various risk committees are responsible for oversight and execution, with day-to-day risk management activities delegated to different levels.

The Bank's approach to risk identification and impact assessment aims to ensure that we mitigate the impact of these risks on our financial results, long-term strategic goals and reputation. Key risks as reflected in HBL's risk taxonomy include credit risk, market & liquidity risk, reputational risk and operational risk.

As economic conditions remained challenging, stress testing and frequent portfolio reviews to identify vulnerable segments helped to ensure the strength and resilience of the Bank's credit portfolio. Similarly, in view of the volatile global economic and political environment, country risk exposures were proactively managed. There was a continued focus on enhancing portfolio monitoring and implementing tools for the early identification of risks. Credit scorecards were also upgraded from expert judgment to statistical models in the Consumer and SME segments.

HBL continues to invest in its people by providing them the tools and skills in a constantly changing external environment. HBL Credit School, a comprehensive modular training program plays a major role in fostering a consistent credit risk assessment mindset that is focused on forward-looking risk drivers, and hence helps to adopt a proactive, rather than a reactive approach based merely on historical data. The program has been fully developed in-house and is delivered by the Bank's senior resources.

Market and liquidity risk indicators are reviewed on a monthly basis by the Market & Liquidity Risk Committee and by ALCO. A comprehensive structure is in place to ensure that the Bank remains within its tolerance for market risk. Operational Risk Management remained an area of focus during the year. Policies and procedures have been established to govern operational risk management in a systematic and consistent manner. Key tools such as an Integrated Risk & Control Repository (IRCR), Key Risk Indicators and Operational Loss Data Management are used to gauge the likelihood and

severity of operational risk incidents. The Bank's operational risk profile and fraud risk assessment are regularly discussed at senior management forums and at the BRMC.

The risk management functions are complemented by the Enterprise Risk Management Framework (ERMF). Applicable to all functions in the Bank, it outlines the risk management principles and sets out the governance structure, standards, objectives and key responsibilities of different functions. A bank-wide IRCR is now embedded in the organization and helps to identify and assess all risks and issues in a holistic manner, thereby ensuring that these are adequately monitored and mitigated. During the year a Reputational Risk Management framework has also been established to monitor and mitigate against this critical risk.

The Bank continues to foster a values-driven culture. Accordingly, to comply with leading practices, the Ethics & Conduct team has been repositioned within the Compliance function. As part of further integrating values driven behaviors, the bank is expanding its Conduct & Culture framework.

The Board Compliance & Conduct Committee (BCNCC) supports the Board in overseeing the implementation of a compliance and conduct framework and also provides governance over the implementation of a bank-wide compliance program. The BCNCC oversees ethics and conduct-related matters including whistle-blowing complaints. HBL's whistleblowing program is directed at safeguarding the Bank's integrity and reputation and aims to increase employee ownership in reporting suspected cases of fraud, corruption, harassment, and other infringements of the Bank's Code of Conduct. Any related investigations are overseen by the Board Audit Committee (BAC) while disciplinary actions are reviewed by the Board Human Resource & Remuneration Committee (BHRRC). The Compliance Committee of Management, chaired by the President, monitors and reviews compliance and conduct-related matters at the management level.

The Compliance function continues to strengthen the enterprise-wide compliance environment and manage compliance risk by enabling the Bank to comply with applicable laws and regulations including financial crime compliance management. HBL has implemented a robust regulatory risk management framework for enabling adequate design and operating effectiveness of regulatory controls. Accordingly, a design-level evaluation of the Bank's Compliance Risk Profile was completed during the year.

With the focus on standardizing and automating enterprise-wide compliance controls, the Bank is leading the innovation agenda in the Pakistan banking industry by establishing the industry's first Digital Workforce with the successful implementation of BOTs for multiple processes. The Compliance Centre of Excellence in Pakistan for global insourcing from HBL's international branches provides active support in transaction monitoring and alert disposition and is yet another landmark initiative. In 2023, HBL's transaction monitoring and sanctions screening systems successfully completed an international benchmarking and validation review which demonstrated that the systems are working robustly to effectively monitor and manage underlying risks in accordance with leading international standards. The Bank's steady investment in this area is a testament to its commitment to sustainable controls and continuous enhancements.

HBL's priority is to protect its customers and their data from cyberattacks and data breaches. The Bank's Information Security function plays a pivotal role in protecting HBL's data assets from both internal and external threats through the effective management of cybersecurity risk. The Bank's 24x7 Security Operations Centre continues to contribute to a robust security posture through regular monitoring, supported by a number of detection and prevention mechanisms.

Information security awareness campaigns are held throughout the year to provide training and guidance on information security related matters to employees. These are supplemented by targeted awareness campaigns for customers using multiple delivery channels. The Bank remains compliant with the SWIFT Customer Security Program as well as ISO 27001. The Bank is committed to strengthening its cyber-defenses through the use of automation and advanced technologies, while proactively mitigating against advanced security threats. These security measures allow HBL to continue offering innovative digital solutions to its clients while ensuring them protection and peace of mind.

Corporate Social Responsibility (CSR)

HBL's commitment to corporate social responsibility shines through its extensive charitable actions, deeply engrained in its ethos of giving back to the community. Its contributions are directed towards health, education and community welfare. After the 2022 floods, the Bank played a critical role in the rehabilitation of the affected people, donating Rs 264 million to provide 100 prefabricated houses in each of 2 villages, marking a significant stride in natural disaster response. HBL's dedication to public health and welfare is underlined through its contributions to the National Institute of Child Health Trust and to the Taskeen Health Initiative. As part of its inclusion initiatives, a contribution to the Pakistan Special Olympics reflects the Bank's support for empowering differently-abled athletes. In the educational sector HBL donated Rs 1 million to the Progressive Education Network, showcasing the bank's commitment to nurturing educational development. HBL's international branches also stepped up to support crisis management and in Turkey, the Bank made contributions to different organisations engaged in rehabilitation efforts in the wake of the 2023 earthquake.

The HBL Foundation (HBLF), as a beacon of HBL's philanthropic vision, has influenced Pakistan's socio-economic fabric and in 2023, channeled nearly Rs 400 million to healthcare, Rs 100 million to education and Rs 20 million to community development. These funds have been instrumental in elevating healthcare services, enriching educational experiences, preserving cultural heritage, and fortifying community welfare across Pakistan.

In healthcare, the Foundation donated funds for advanced cancer treatment facilities, emergency pediatric care, mobile healthcare units and many other comprehensive healthcare initiatives. This diverse array of support showcases HBL's understanding of the multifaceted nature of healthcare needs in the country. HBL believes in the transformative power of education and through the Foundation, contributed towards a number of scholarships for female students at premier universities, to the enhancement of digital literacy, and to support special needs education including the empowerment of visually impaired students.

The HBL Foundation undertook impactful community development efforts towards strengthening food security and improving living conditions in underserved regions, reflecting HBL's holistic approach to societal well-being. HBLF supported the Living Masters project, a commitment to safeguarding Pakistan's rich cultural heritage and ensuring that the artistic legacy of its classical music is preserved for future generations.

HBL's Employee Volunteering Program epitomizes the Bank's commitment to sustainable social impact through its own employees. With over 1,600 volunteering hours, the program has fostered a robust culture of community service and corporate responsibility within the organization. The activities undertaken by the volunteers range from tree plantation and clean-up drives to supporting disadvantaged communities, demonstrating their intertwined connection with the communities they serve, and solidifying HBL's status as a socially responsible corporate entity.

Credit Ratings

In June 2023, the Bank's credit ratings were re-affirmed by VIS Credit Rating Company Limited at AAA/A-1+ for long-term and short-term respectively. The ratings of the TFCs issued as Additional Tier 1 Capital have also both been re-affirmed as AA+. The Outlook on all ratings is Stable. The ratings incorporate HBL's position as the largest commercial bank in the country, its systemic importance and the diversity of its operations. In support of the ratings, VIS also pointed out HBL's significant liquid reserves as well as its strong and consistent performance in domestic lending while maintaining favourable asset quality indicators. In February, Moody's downgraded the sovereign rating from Caa1 to Caa3, with the Outlook changed from Negative to Stable. It subsequently mirrored this action for the large Pakistan banks, including HBL.

Future Outlook

Pakistan narrowly averted a balance of payments crisis near the end of FY'23. As the previous EFF was essentially all but dropped, the government managed to secure a 9-month SBA which provided the desperately needed lifeline at that time. The SBA runs out in March and the healthier, but still delicate financial situation of the country, with FX reserves less than 2 months of imports, cannot be managed outside the IMF umbrella. At this point, the conditionalities of the SBA's second review have been broadly met and the messages from the IMF appear positive. However, a longer-term EFF programme has to be negotiated by March as an existential necessity. Despite national elections having been somewhat successfully concluded in early February, at the time of writing, a new Government, and most critically, a new Finance Minister has yet to be announced. Therefore, the incoming government will have its hands full on day one in securing the EFF.

We are encouraged by the signs of structural reform undertaken by the caretakers – such as the decision to clamp down on illegal capital flight, and the progress on SOE privatization. The fervent hope is that all political parties are ready to continue in this vein and to sign up to a new IMF programme, in letter and spirit, and that the populist posturing of recent years – which has been so damaging to the economy – will remain dormant. A steady path to recovery is therefore possible, with growth coming in at around 2.5-3.0% for FY'24. However, to achieve sustainable and more inclusive economic growth, the government needs to prioritize the implementation of energy sector reforms, radically improve the governance of loss-making state-owned enterprises leading to their privatization, and widen the tax base – the last perhaps the most critical to ensure it has funds for much needed social and economic development.

High inflation has been the single largest economic issue faced by the majority of the population; we expect the SBP to maintain positive real interest rates (over core inflation) in order to continue driving down price increases. With the FX rate outlook relatively benign, and global commodity and other prices starting to soften, we expect a steady decline in inflation over the course of the year, accompanied by a gradual easing of the Policy rate. However, upside risks remain, this time from geopolitical factors – a worsening of the Middle East situation and an aimless stalemate in Ukraine are taking their toll on global prices and shipping costs and it is only a matter of time before these impact import-dependent economies such as ours.

The international outlook may be more supportive in 2024, with G-20 inflation heading lower, global interest rates forecast to decline later in the year, and GDP growth easing off, thus releasing more risk capital into Emerging and Frontier markets. This should help support capital flows into Pakistan and across the globe, benefiting HBL's domestic and international franchises. On the expected initiation of the EFF in March, we expect GCC institutions to re-enter into the market, albeit gradually, thus helping the country's external sector to recover slowly.

In one of the most challenging years in recent memory, HBL has successfully navigated choppy waters, delivering another record year. Excellent results from the strong domestic franchise have been supplemented by a solid contribution from the international business. Leadership positions have been attained or further extended across most areas of our operations. Our Investment Banking business remains the dominant player, sweeping the awards space, while Transaction Banking

continues to be acclaimed by its customers who, year after year, have voted us as the Best Service Provider; the fact that these are based on client feedback makes them even more meaningful. We dedicate these results to our customers, many of whom have banked with us across generations and who are at the heart of all we do.

HBL has transformed Agriculture financing in Pakistan with sustained commitment over a number of years. Our pathbreaking development finance initiative has already had a dramatic positive impact on farmers' lives and HBL Zarai will pioneer an entirely new agriculture paradigm in Pakistan. Our 5-time recognition as the Best Agriculture Bank in Pakistan is a testament to our initiatives in this area as we have been recognized by regulators, customers and the industry for our transformative leadership.

At HBL increasing digitalization of every aspect of our businesses has become a way of life – from paperless consumer financing through the mobile app, remote digital on-boarding of farmers, e-wallets for microfinance customers and our most recent venture into e-sports. This year, we have again introduced trailblazing products to shape Pakistan's financial services landscape – Digital Invoicing, an Urdu mobile app, TalkBack for the visually impaired. HBL has established itself as a key player in every aspect of the digital banking space, accelerating adoption and usage among customers. Its partnership with P@SHA promises a landmark opportunity to showcase one of Pakistan's premier but under-celebrated sectors, thus meeting HBL's stated objective of contributing to Pakistan's growth and development. From HBL Mobile to Konnect, from QR to HBL Pay, the Bank continues to raise the bar in delivering creative, first-of-a-kind solutions for its customers, cementing its position as a technology company with a banking license. HBL's slew of digital awards, from Asiamoney's Best Bank for Digital Solutions to the CFA Society's Best Digital Services award, provide independent external validation of our progress.

Everything we do is underpinned by one word – Sustainability – in all its aspects. This year we launched our second Sustainability Report, widely lauded by a swathe of stakeholders. HBL has and will keep stepping up in every sphere to support the country. We remain obsessed with providing thought leadership across the full spectrum of the economy, supporting the Government under a public-private partnership model. We are passionate about our founding support to HBLPSL – an event that has undoubtedly helped put Pakistan back on the map of world cricket, delighting tens of millions of Pakistanis in Pakistan and across the globe. Through #PalatDoKhel, we hope to rekindle Pakistanis' pride in Pakistan, encouraging them to showcase the myriad positives we see every single day. As a founding member of the Green Investment Principles and our recent membership of CASI, we underscore our commitment to tackling the world's most important issue – climate change. We remain relentlessly focused on financial inclusion in all its aspects – inclusion of women through HBL Nisa and our own gender diversity targets; inclusion of the underserved through Konnect and microfinance; inclusion of the differently-abled through targeted hiring and facilities at our touchpoints; and inclusion of the youth through our leading social media presence – to ensure a brighter future for Pakistan and Pakistanis. We are honoured, privileged and humbled to once again have been named as The Most Inclusive Organization in Pakistan.

The Committee provides oversight of the Bank's Internal Audit function; approves and monitors the progress of the risk-based annual audit plan; and ensures that the Internal Audit Function has adequate resources and is appropriately placed within the organization structure to maintain its independence.

The BAC reviews the consolidated & unconsolidated financial statements and associated matters, before recommending them to the Board for approval. As part of this process, the BAC also recommends the appointment, both of the statutory auditors, as well as the auditors of overseas branches, to the Board, while ensuring their independence and effectiveness. In addition, the BAC is responsible for monitoring the implementation of new accounting standards; in particular, the Board has designated the BAC as the committee responsible for oversight of the implementation of IFRS 9. For areas that are under its purview, the BAC recommends policies to the Board for approval.

Further, the BAC oversees the compliance of corrective actions determined by the Shariah Board on the reports of Internal and External Shariah audits.

ڈائریکٹرز رپورٹ 2023

ہمیں بورڈ آف ڈائریکٹرز کی جانب سے سالِ مختتمہ 31 دسمبر 2023ء کے مجموعی مالیاتی گوشوارے پیش کرتے ہوئے مسرت محسوس ہو رہی ہے۔

کلیاتی اقتصادیات کا جائزہ

مالی سال 23ء شدید کلیاتی اقتصادی تباہی کا سال تھا۔ روپے کی تیزی سے گرتی ہوئی قدر، درآمدات میں ترجیحات اور شرح سود میں ریکارڈ اضافہ، بے روزگاری میں خطرناک اضافہ اور ڈیفالٹ سمیت پولیٹیکل پولرائزیشن۔ تمام جی ڈی پی کی 0.3% کی کمزور نمو میں ظاہر ہوا۔ مالی سال 24ء کا آغاز مثبت انداز میں IMF کے اسٹیٹڈ بائی انٹظامات (SBA) کے اعلان کے ساتھ ہوا جس نے ملک کے لیے لائف لائن فراہم کی۔ مالی سال 24ء کی پہلی ششماہی میں زیادہ استحکام اور ترقی کی کچھ نئی علامات نظر آئیں۔ جس کی وجہ زراعت کے شعبے میں بحالی ہے۔ اگرچہ لارج اسکیل مینوفیکچرنگ انڈیکس میں مالی سال 24ء کی پہلی ششماہی کے دوران سال بہ سال معمولی کمی واقع ہوئی ہے، لیکن اعداد و شمار اوپر کی طرف جارہے ہیں۔ توقع ہے کہ مالی سال 24ء کی دوسری ششماہی میں صنعتی شعبے کی رفتار تیز ہو جائے گی اور مالی سال 24ء کے لیے 3-2% جی ڈی پی نمو پیش گوئی کے مطابق بدستور ٹریک پر ہے۔ مئی 23ء میں ہیڈ لائن افراط زر کی شرح 38% تک پہنچ گئی جو مالی سال 23ء میں اوسطاً 29.2% رہی جبکہ مالی سال 22ء میں یہ 12.2% تھی۔ اگرچہ افراط زر کی شرح کم ہو کر جنوری 24ء میں 28.3% رہ گئی ہے، لیکن توانائی کی قیمتوں میں بار بار اور قابل ذکر ایڈجسٹمنٹ نے کمی کی رفتار سست کر دی ہے۔ مالی سال 24ء کے 7 ماہ کے دوران اوسط افراط زر 28.7% رہی جو گزشتہ سال کے اسی عرصے میں 25.4% تھی۔ مالی سال 24ء کے لیے اسٹیٹ بینک کی پیش گوئی 23 سے 25% پر برقرار ہے۔

مالی سال 24ء کی پہلی ششماہی کے دوران درآمدات میں سال بہ سال 15% کمی واقع ہوئی جس کی وجہ اجناس کی قیمتوں میں کمی ہے۔ عالمی مندی کے باوجود برآمدات میں 7.5% اضافہ ہوا۔ اس کے نتیجے میں مالی سال 24ء کی پہلی ششماہی میں تجارتی خسارہ 35 فیصد کم ہو کر 9.9 بلین ڈالر رہ گیا جس میں دسمبر 23ء میں کرنٹ اکاؤنٹ کا سرپلس شامل ہے۔ مالی سال 24ء کے آغاز میں KERB اور انٹربینک مارکیٹوں کے درمیان خلا کیچھنچ کھینچوں کے لیے سخت قوانین کے ساتھ ساتھ زر مبادلہ کی غیر قانونی سرگرمیوں کے خلاف کریک ڈاؤن اور افغان ٹرانزٹ ٹریڈ کی نگرانی سخت کر کے پُر کر دیا گیا ہے۔ نتیجتاً سرکاری چینلز کے ذریعے ترسیلات زر کے بہاؤ میں بہتری آئی جس سے مالی سال 24ء کی پہلی سہ ماہی میں دیکھی جانے والی سست روی میں کچھ کمی آگئی۔ مالی سال 24ء کی پہلی ششماہی میں ترسیلات زر 13.4 بلین ڈالر تک پہنچ گئیں جو مالی سال 23ء کی پہلی ششماہی کے مقابلے میں 7% کم ہیں۔ مالی سال 24ء کی پہلی ششماہی میں کرنٹ اکاؤنٹ خسارہ 77% کم ہو کر 0.8 بلین ڈالر رہ گیا جو گزشتہ سال کے اسی عرصے میں 3.6 بلین ڈالر تھا۔

مالی سال 23ء کے اختتام پر زر مبادلہ کے ذخائر غیر یقینی سطح پر پہنچ گئے تھے۔ تاہم، SBA پر دستخط اور پہلی قسط کے اجراء نے دوست ممالک سے مدد کو تحریک دی، جس سے ذخائر میں فوری اضافہ ہوا۔ کرنٹ اکاؤنٹ خسارے میں کمی کے ساتھ ملٹی لیٹرل ڈونرز کی جانب سے بتدریج ترسیلات زر نے اسٹیٹ بینک کے زر مبادلہ کے ذخائر میں اضافہ کیا ہے۔ جنوری 24ء میں SBA کی دوسری قسط کے اجراء سے ذخائر 8 بلین ڈالر سے اوپر رہے۔ اس کے نتیجے میں روپیہ ستمبر 23ء میں 307/\$ کی کم ترین سطح سے بہتر ہو کر سال کے اختتام تک 282/\$ تک پہنچ گیا، جو 2023ء کے لیے 24% کمی ہے۔

مالی سال 24ء کی پہلی ششماہی میں بنیادی مالیاتی بیلنس سرپلس میں رہا جو مالی سال 23ء کی پہلی ششماہی کے مقابلے میں ڈگنے سے زیادہ 1.8 ٹریلین روپے تک پہنچ گیا ہے۔ جی ڈی پی کے فیصد کے طور پر، یہ IMF کے اہداف سے بہت پہلے 1.7% بہتر ہوا ہے۔ حکومت نے ٹیکس میں کو وسیع کرنے کے بجائے موجودہ ٹیکس دہندگان پر ٹیکسوں میں اضافہ جاری رکھا جس سے ٹیکس محصولات میں 30% اضافہ ہوا اور ایف بی آر کی وصولی 4.5 ٹریلین روپے تک پہنچ گئی۔ بلند شرح سود کی وجہ سے قرضوں کی ادائیگی کے اخراجات میں 64% اضافہ ہوا، جس کے نتیجے میں مجموعی اخراجات میں 45% بڑھ گئے۔ اس طرح مجموعی مالیاتی خسارہ جی ڈی پی کے 2.3% تک بڑھ گیا جو گزشتہ سال کے اسی عرصے میں 2.0% تھا۔

مستحکم کرنسی اور زیادہ مضبوط مانیٹری پالیسی کی توقعات نے ایکویٹی مارکیٹ میں زبردست تیزی پیدا کی اور کے ایس ای 100 انڈیکس صرف چوتھی سہ ماہی میں 35% کے ساتھ دسمبر 23ء میں 62,451 پر بند ہوا، جو سال کے لیے 55% اضافہ ہے۔ دوسری سہ ماہی میں 71.0 ملین ڈالر کی فارن پورٹ فولیو انویسٹمنٹ، جو 5 سال میں سب سے زیادہ ہے، نے مارکیٹ میں مزید تیزی پیدا کر دی۔

گزشتہ سہ ماہی کے آغاز سے ہی مارکیٹ میں مالیاتی نرمی کی توقعات کے باوجود سینٹرل بینک نے سال کی آخری ششماہی میں پالیسی ریٹ 22% فیصد پر برقرار رکھا ہے۔ اسٹیٹ بینک کا کہنا ہے کہ اگرچہ افراط زر میں کمی آئی ہے لیکن توانائی کی قیمتوں میں خاطر خواہ اضافے کی وجہ سے کمی کی رفتار پہلے کی توقعات سے کم ہے۔ طلب کے دباؤ میں کمی کی عکاسی نجی شعبے کے قرضوں میں ہوئی جو 2022ء میں 14 فیصد اضافے کے مقابلے میں 2023ء میں 1.4% کم ہوا۔ گوکہ، بہتر حالات کے مطابق، 2023ء کی

HBL Konnect by HBL نے 2023ء میں متعدد سنگ میل عبور کیے اور برانچ لیس بینکنگ میں اپنی بانی کی حیثیت مستحکم کی۔ پروسیسنگ کے کل حجم میں 60% اضافہ ہوا جو 1 ٹریلین روپے سے تجاوز کر گیا۔ یہ خاطر خواہ اضافہ Konnect کی بڑھتی ہوئی استعمال کی صلاحیت اور مارکیٹ میں بڑھتے ہوئے اثر کی نشاندہی کرتا ہے۔ اس کامیابی کا ایک اہم محرک 1 ملین نئے صارفین کی آن بورڈنگ تھا، جس نے کل پورٹ فولیو کو 9.1 ملین صارفین تک پہنچا دیا، جو پچھلے سال کے مقابلے میں 11% زیادہ ہے۔ خواتین Konnect کے کسٹمرز کا تقریباً ایک چوتھائی حصہ ہیں۔ یہ نئے کسٹمرز کو راغب کرنے میں Konnect کی مستقل مارکیٹ اپیل اور اثر کا ثبوت ہے۔ Konnect اسلامک اکاؤنٹ نے 2023ء میں 300,000 سے زیادہ نئے بینک صارفین کو اپنی طرف راغب کیا، جس کا مجموعی پورٹ فولیو اب 500,000 سے تجاوز کر گیا ہے۔ اس اکاؤنٹ کے ذریعے پروسیس کی جانے والی ٹرانزیکشنز تقریباً دوگنی ہو کر 1.9 ملین تک پہنچ گئیں، جو تیزی سے مارکیٹ کو اپنانے اور شریعت کے مطابق مالیاتی مصنوعات کی بڑھتی ہوئی طلب کی نشاندہی کرتی ہیں۔

2023ء میں انشورنس سروسز میں Konnect کی شمولیت ایک اہم سنگ میل تھا، جس میں ہیلیتھ اور لائف انشورنس پروڈکٹس کی پیشکشوں نے پہلے سال 143 ملین روپے کا حجم حاصل کیا۔ 2023ء میں Konnect ٹریول کا آغاز، ہوٹل اور ایئر لائن بکنگ کے لیے جامع حل پیش کرتا ہے، مزید متنوع سروسز کے ساتھ صارفین کو ایئر لائن ٹکٹوں کے لیے مارکیٹ کے مسابقتی نرخ فراہم کرتا ہے۔

Konnect اہم اقدامات کی معاونت میں اپنے اثرات کے ساتھ حکومت کا ایک قابل اعتماد شراکت دار ہے۔ حکومت کے مینڈیٹ کو موثر طریقے سے نبھاتے ہوئے، Konnect نے 2023ء میں بے نظیر انکم سپورٹ پروگرام کے لیے 330 ملین روپے سے زائد رقم تقسیم کی۔ Konnect نے دیگر ایجنسیوں جیسے WHO، WFP اور UNHCR کے ساتھ بھی سوشل ٹرانسفر پیمنٹس کے لیے کام کیا، جس سے G2P کے کل حجم میں 49% اضافہ ہوا۔ سال 2023ء میں ٹیکس وصولیاں 500 ملین روپے سے تجاوز کر گئیں جو گزشتہ سال کے مقابلے میں دوگنی ہیں۔ اس میں سے زیادہ تر اضافہ کارپوریٹ ڈسٹری بیوٹرز اور تعلیمی فیس کی وصولیوں کی وجہ سے ہوا تھا۔ پنشن کی ادائیگی میں 30% اضافہ ہوا اور یہ 30 ملین روپے سے تجاوز کر گئی، جس میں پنشن کی تقسیم ترقی کا ایک اہم جزو رہی ہے۔

اسٹریٹجک پارٹنرشپس نے اہم کردار ادا کیا کیونکہ HBL نے فری لانسرز اور سافٹ ویئر ہاؤسز کی مدد کے لیے پاکستان سافٹ ویئر ہاؤسز ایسوسی ایشن (P@SHA) کے ساتھ مل کر کام کیا۔ اس اقدام کا مقصد ڈیجیٹل معیشت کو فروغ دینا، ان پروان چڑھتے شعبوں کو خصوصی مالیاتی خدمات فراہم کرنا اور IT کے شعبے میں جدت اور

میں بہتر مشورہ فراہم کیا گیا۔ سال 2023ء کے دوران، مجموعی طور پر نجی شعبے کے قرضوں میں کمی کے ساتھ، کارپوریٹ اور کمرشل صارفین کو دیے جانے والے قرضوں بشمول شریعت کے مطابق قرضوں میں 5 فیصد کمی واقع ہوئی۔

مشکلات سے بھرپور سال کے دوران تجارتی آمدن کے انتظام کے لیے، حال ہی میں قائم کردہ گلوبل ٹریڈ سروسز (GTS) فنکشن اہمیت کا حامل تھا۔ تجارت پر مبنی خصوصی خدمات کے ساتھ، GTS نے درآمد اور برآمد کے بہاؤ کو اسٹریٹجک طور پر منظم کر کے غیر ملکی زرمبادلہ کی لیکویڈٹی کا انتظام کرنے کے لیے ٹریڈری کے ساتھ مل کر کام کیا۔ GTS کی جانب سے SME اور کمرشل شعبوں میں بینک کی تجارتی رسائی بھی بڑھائی جا رہی ہے اور صرف 2023 میں برآمدات میں بینک کے حصے کو کامیابی سے 1.8% سے 13% تک بڑھایا ہے۔ بینک برآمدی منڈیوں میں قدم جمانے میں کامیاب رہا ہے، حجم میں 3% اضافہ ہوا ہے جبکہ 2023ء میں ملک کی مجموعی برآمدات میں 11% کمی واقع ہوئی ہے۔

HBL بخوبی واقف ہے کہ پاکستان کا معروف بینک ہونے کے ناتے اس پر بھاری ذمہ داری عائد ہوتی ہے۔ بینک کی استعداد کار بڑھانے کی کوششوں کی ایک عمدہ مثال پاکستان کے سب سے بڑے گھریلو ٹیکسٹائل برآمد کنندگان میں سے ایک کی کارپوریٹ تنظیم نو تھی جسے 2008-10ء کے مالی بحران کے دوران مسائل کا سامنا کرنا پڑا تھا۔ HBL کی مدد سے، کمپنی نے اب آپریشنز دوبارہ شروع کر دیے ہیں اور آپریشنز کے پہلے 18 مہینوں میں نمایاں آمدنی فراہم کی، اپنے قرضوں کے بوجھ کو کم کیا، اور مستقبل کی ترقی کے امکانات کے ساتھ 3,000 افراد کو دوبارہ ملازمت دی۔

HBL نے ٹرانزیکشن بینکنگ کے کاروبار میں اپنی قائدانہ پوزیشن برقرار رکھی اور کلائنٹ کی ضروریات کو پورا کرنے کے لیے اپنی خدمات کے دائرہ کار کی توسیع جاری رکھی۔ مجموعی کیش مینجمنٹ تھرپوٹ 22% اضافے کے ساتھ 15.0 ٹریلین روپے تک پہنچ گیا۔ ڈیجیٹل ٹرانزیکشنز میں، جو کل ٹرانزیکشنز کا 78% سے زیادہ ہیں، 24% اضافہ ہوا اور یہ 10 ٹریلین روپے سے تجاوز کر گیا۔ HBL کو ایشیائی بینکنگ اینڈ فنانس ہول بینکنگ ایوارڈز کی جانب سے ڈومیسٹک کیش مینجمنٹ بینک آف دی ایئر کا ایوارڈ حاصل ہوا۔ ایشیائی HBL کو کیش مینجمنٹ کے لیے مقامی بینکوں میں مارکیٹ لیڈر کے ساتھ ساتھ مسلسل تیسرے سال پاکستان میں بہترین سروس برائے کیش مینجمنٹ قرار دیا۔ مؤخر الذکر اعزاز مزید اطمینان بخش ہے کیونکہ یہ HBL کے صارفین کے دوٹوں کی بنیاد پر دیا گیا ہے اور کلائنٹ کی ضروریات کے مطابق جدید مصنوعات کی فراہمی کے ہدف کا ثبوت ہے۔

HBL ایچ پی آئی بینکنگ کے شعبے میں 3.1 بلین سے زائد ملازمین کو پنشن اور پے رول خدمات فراہم کر کے سرفہرست ہے، جس کے تحت ڈپازٹ بیلنس 400 بلین روپے سے زائد تک بڑھ گیا ہے۔ ایچ پی آئی بینکنگ کی تمام ٹرانزیکشنز کا 95% سے زیادہ حصہ ڈیجیٹل چینلوں کے ذریعے پروسیس ہوتا ہے۔ HBL اس پیشکش کے تحت مندرجہ افراد کو اضافی فوائد کی پیشکش کر کے اس پروڈکٹ میں توسیع جاری رکھے ہوئے ہے۔

HBL کا انویسٹمنٹ بینکنگ کا نمایاں کاروبار خصوصی ماہر ٹیویوں کے ذریعے انویسٹمنٹ بینکنگ کی مصنوعات اور منظم خدمات کا ایک مکمل مجموعہ فراہم کرتا ہے۔ 2023ء میں مشکل معاشی حالات کے باوجود HBL نے 765 بلین روپے سے زائد مالیت کے 26 سوڈے کامیابی کے ساتھ مکمل کیے۔ ان ٹرانزیکشنز کا تعلق قابل تجدید توانائی، ریئل اسٹیٹ، ٹیلی کام، توانائی کی پیداوار اور ٹرانسمیشن اور FMCG کمپنیوں سمیت مختلف شعبوں سے تھا۔ اس میڈیٹ میں انویسٹمنٹ بینکنگ کی تمام سہولتیں شامل تھیں، جن میں قرض اور ایکویٹی دونوں کا احاطہ کیا گیا تھا۔ اپنی بہترین سروس کے اعتراف کے طور پر، HBL کی انویسٹمنٹ بینکنگ ٹیم نے سال کے دوران بین الاقوامی اور مقامی اداروں کی جانب سے 19 اعزازات حاصل کیے، جن میں پاکستان میں بہترین انویسٹمنٹ بینک کا ایوارڈ بھی شامل ہے۔

HBL کی پاکستان کی ترقی میں کردار ادا کرنے کی حکمت عملی کے مطابق انویسٹمنٹ بینکنگ ٹیمیں قومی مفاد کے منصوبوں کو آسان بنانے کے لیے متعدد معاملات میں حکومت کے ساتھ مشاورت کے عمل میں مصروف ہیں۔ وسیع پیمانے پر بات چیت کے ذریعے، اس شعبے نے زراعت اور بنیادی ڈھانچے سے لے کر قابل تجدید توانائی تک کی صنعتوں میں زیادہ سے زیادہ اقتصادی نتائج یقینی بنانے کے لیے کئی متنوع معاہدے کیے ہیں۔

2023ء میں، خصوصاً سال کی پہلی ششماہی میں، اثاثہ جات کے درجات میں لیکویڈٹی کی کمی کے ساتھ، مارکیٹ میں نمایاں اتار چڑھاؤ دیکھا گیا۔ موجودہ غیر یقینی ماحول میں، کلائنٹ کے ساتھ تعلق، بیلنس شیٹ اور رسک مینجمنٹ کے ساتھ ٹرانزیکشنز کے بہاؤ اور کلائنٹ کی سرگرمی کی قربانی توجہ کا بنیادی مرکز تھے۔ ٹریڈری کی سیلز ٹیم نے اس بات کو یقینی بنایا کہ صارفین کو فون کال کے ذریعے باقاعدگی سے اور تفصیل کے ساتھ معیشت اور مارکیٹ میں ہونے والی پیش رفت سے اچھی طرح آگاہ رکھا جائے۔ بینک کے صارفین نے اسے بہت سراہا۔ اگرچہ تجارتی اور دیگر آمدن کے سکڑتے ہوئے بہاؤ کی وجہ سے حجم 2022ء کے مقابلے میں 25% کم تھا، لیکن مارجن مینجمنٹ پر گہری توجہ نے آمدنی میں مسلسل اضافے کو یقینی بنایا۔

بینک کے فکسڈ انکم پلیٹ فارم HBL Symphony® کے حجم میں دگنا اضافہ دیکھا گیا ہے اور ہمیں توقع ہے کہ اضافی خصوصیات اور فعالیت کے ساتھ 2024ء میں اس

سال بھر کے دوران، بینک نے براؤنچ اور بیک اینڈ دونوں سطحوں پر تبدیلی نمایاں طور پر کم کرنے کے لیے مختلف اقدامات شروع کیے، جس سے صارفین کے تجربے کو بہتر بنانے میں مدد ملی۔ ایک آسان کلائنٹ آن بورڈنگ کی وجہ سے 82% کم اور درمیانے خطرے والے اکاؤنٹس ایک ہی دن کھولے جاتے ہیں۔ HBL نے صارفین کو روایتی براؤنچ کاؤنٹر سروسز سے ڈیجیٹل چینلز میں منتقل کرنے کے لیے جیٹیل مائیکریشن مہم کا بھی آغاز کیا، جس سے انہیں سہولت فراہم کی جاسکے جبکہ براؤنچوں میں بھیڑ کم ہو سکے۔

2023ء میں بزنس سیلف سروس کے آغاز کے ساتھ ادارے میں ڈیٹا ڈیمو کو انیٹیشن کے لیے یہ سال اہم رہا ہے۔ یہ ڈیٹا لیک میں زیادہ تر بنیادی سسٹم ڈیٹا کی سینٹرلائزیشن کے ساتھ مل کر آخری صارف کو ڈیٹا کی تیاری اور ترتیب کے بجائے ویلو ایڈیشن پر توجہ کے لیے باختیار بنا رہا ہے۔ ڈیٹا تک تیزی سے رسائی اور ڈریگ اینڈ ڈراپ اینالٹکس انجام دینے کی صلاحیت نے فیصلہ سازی بہتر بنائی ہے اور بنیادی بینکنگ ٹرانزیکشنز میں مزید دور تک جانے کی صلاحیت دی ہے۔

گزشتہ چند سالوں میں بین الاقوامی کاروبار بحال کرنے کی مسلسل کوششیں رنگ لانے لگی ہیں۔ نیٹ ورک بزنس کی تعمیر پر مسلسل توجہ کے نتیجے میں ڈپازٹس اور قرضوں میں مسلسل اضافے کے ساتھ اس ریجنل کلائنٹس میں 37% اضافہ ہوا۔ چین کا کاروبار نیٹ ورک کنیکٹیوٹی کے لیے بدستور اہم ہے۔ MENA اور جنوبی ایشیا میں صرف تین RMB انٹر میڈیٹرز میں سے ایک کے طور پر HBL کی منفرد حیثیت اسے 2023ء میں RBM حجم میں 1.75 گنا اضافے کے ساتھ بے مثال کسٹمر سلوشنز پیش کرنے کے قابل بناتی ہے۔ علاقائی تجارتی امکانات کو مزید فروغ دینے کے لیے HBL چین نے نئے مالیاتی اداروں سے شراکت داریوں کا اضافہ کیا اور جنوبی ایشیا کے لیے اپنے LC ایڈوائزر پروگرام سے فائدہ اٹھا رہا ہے، جس سے اسے اپنے کاروبار کو گنا کرنے میں مدد ملی۔ عالمی منڈیوں میں اسپریڈز وسیع کرنے میں سرگرمی کے محرک میں اضافے نے بین الاقوامی سطح پر با معنی انداز میں مثبت کردار ادا کیا ہے۔

کسٹمر کا حصول پورے بین الاقوامی نیٹ ورک میں ایک نئی بلندی پر پہنچ گیا۔ صارفین کی بڑھتی ہوئی توجہ کے ساتھ، نئی مصنوعات اور خدمات تیار کی جا رہی ہیں۔ متحدہ عرب امارات میں شروع کی گئی Prestige کی سہولت کو صارفین کا پر جوش جواب ملا اب بحرین اور برطانیہ میں توسیع کے منصوبے پر کام ہو رہا ہے۔ سنگاپور میں متعارف کی جانے والی اسلامک ڈپازٹ پروڈکٹس کو اچھی پذیرائی مل رہی ہے اور نیٹ ورک ممالک کے درمیان تجارت میں اضافہ ہو رہا ہے۔ اس کے ساتھ ساتھ ٹیکنالوجی پلیٹ فارمز، ادائیگی کے نظام اور ڈیجیٹل اپیلی کیشنز کو اپ گریڈ کیا جا رہا ہے تاکہ مصنوعات کی پیشکشوں کو بڑھایا جاسکے۔

رسک مینجمنٹ فریم ورک

HBL ایک مضبوط انٹرنل گورننس اور رسک مینجمنٹ ٹولز اور پروسیجرز کے ذریعے بڑے اور ابھرتے ہوئے خطرات کی نشاندہی، تجزیہ اور کمی کا انتظام کرتا ہے۔ بورڈ آف ڈائریکٹرز سخت نگرانی اور بورڈ رسک مینجمنٹ کمیٹی (BRMC) مسلسل بنیادوں پر بینک کے رسک پروفائل کی مانیٹرنگ اور تجزیہ کرتی ہے۔ سینئر مینجمنٹ لیول پر، مختلف رسک کمیٹیاں نگرانی اور عملدرآمد کی ذمہ دار ہیں، جس میں روزانہ کی رسک مینجمنٹ سرگرمیاں مختلف لیول پر مقرر کی جاتی ہیں۔

بینک کے خطرے کی نشاندہی اور اثرات کے تجزیے کے طریقہ کار کا مقصد یقینی بنانا ہے کہ ہم اپنے مالی نتائج، طویل المیعاد اسٹریٹجک گولز اور ساکھ پر ان خطرات کے اثرات کم کریں۔ HBL کے رسک ٹیکسونومی میں ظاہر ہونے والے کلیدی خطرات میں کریڈٹ رسک، مارکیٹ اور لیکویڈیٹی رسک، ساکھ کا خطرہ اور آپریشنل رسک شامل ہیں۔

معاشی حالات چیلنجنگ رہنے کی وجہ سے تناؤ کی جانچ اور کمزور طبقوں کی نشاندہی کے لیے پورٹ فولیو کے بار بار جائزے سے بینک کے کریڈٹ پورٹ فولیو کی مضبوطی اور چک یقینی بنانے میں مدد ملی۔ اسی طرح، غیر مستحکم عالمی معاشی اور سیاسی ماحول کے پیش نظر، ملک کو لاحق خطرات کا مستعدی سے بندوبست کیا گیا۔ پورٹ فولیو مانیٹرنگ میں اضافے اور خطرات کی ابتدائی شناخت کے لیے ٹولز کے استعمال پر مسلسل توجہ مرکوز رکھی گئی۔ کریڈٹ اسکور کارڈز صارفین اور SME سیگمنٹ میں ماہرین کے فیصلے سے اپ گریڈ کر کے اسٹیٹس ٹیکل ماڈل بنا دیے گئے۔

HBL مسلسل بدلتے ہوئے بیرونی ماحول میں اپنے لوگوں کو ٹولز اور مہارت فراہم کر کے ان کی معاونت جاری رکھے ہوئے ہے۔ HBL کریڈٹ اسکول، ایک جامع ماڈولر تربیتی پروگرام، ایک مستقل کریڈٹ رسک اسیسمنٹ ذہنیت کو فروغ دینے میں اہم کردار ادا کرتا ہے جو آئندہ خطرات کے محرکین پر نظر رکھنے میں اہم ہے، اور اس طرح صرف تاریخی اعداد و شمار پر مبنی رد عمل کے بجائے ایک موثر نقطہ نظر اپنانے میں مدد کرتا ہے۔ یہ پروگرام مکمل طور پر بینک کے سینئر ریورسز نے تیار کیا ہے۔

مارکیٹ اور لیکویڈیٹی رسک کمیٹی اور ALCO ماہانہ بنیادوں پر مارکیٹ اور لیکویڈیٹی رسک انڈیکسز کا جائزہ لیتے ہیں۔ اس بات کو یقینی بنانے کے لیے ایک جامع ڈھانچہ موجود ہے کہ بینک مارکیٹ کے خطرے کی برداشت کے اندر رہے۔ آپریشنل رسک مینجمنٹ سال کے دوران توجہ کا مرکز رہا۔ آپریشنل رسک مینجمنٹ کو منظم اور مستقل انداز میں چلانے کے لیے پالیسیاں اور طریقہ کار وضع کیے گئے۔ انٹیگریٹڈ رسک اینڈ کنٹرول ریپوزیٹری (IRCR)، کی رسک انڈیکسز اور آپریشنل لاس ڈیٹا مینجمنٹ جیسے اہم ٹولز آپریشنل رسک کے امکانات اور واقعات کی شدت کا اندازہ لگانے کے لیے استعمال کیے جاتے ہیں۔ بینک کے آپریشنل رسک پروفائل اور دھوکہ دہی کے خطرے کی تجزیے پر باقاعدگی سے سینئر مینجمنٹ فورمز اور BRMC میں تبادلہ خیال ہوتا ہے۔

رسک مینجمنٹ فنکشنز میں انٹریڈرسک مینجمنٹ فریم ورک (ERMF) کے ذریعہ بہتری لائی گئی ہے۔ بینک کے تمام فنکشنز پر لاگو ہونے والی یہ ادارہ رسک مینجمنٹ کے اصولوں کا خاکہ پیش کرتا ہے اور گورننس کے ڈھانچے، معیارات، مقاصد اور مختلف فنکشنز کی بنیادی ذمہ داریوں کا تعین کرتا ہے۔ IRCR بینک کے ہر شعبے کا احاطہ کرتا ہے اور ایک جامع انداز میں تمام خطرات اور مسائل کی نشاندہی اور تجزیے میں مدد کرتا ہے، جس سے ان کی مناسب نگرانی اور خطرات میں کمی یقینی ہو جاتی ہے۔ اس سال اہم خطرے کی نگرانی اور کمی کے لیے ایک ریپوٹیشنل رسک مینجمنٹ فریم ورک بھی تیار کیا گیا ہے۔

بینک اقدار پر مبنی ثقافت کا فروغ جاری رکھے ہوئے ہے۔ اس کے مطابق، معروف طریقوں کی تعمیل کے لیے، آئٹھکس اینڈ کنڈکٹ ٹیم کپلائنس فنکشن میں شامل کر دی گئی ہے۔ اقدار پر مبنی طرز عمل کو مزید مربوط کرنے کے لیے، بینک اپنے طرز عمل اور ثقافت کے فریم ورک کو توسیع دے رہا ہے۔

بورڈ کپلائنس اینڈ کنڈکٹ کمیٹی (BCNCC) تعمیل اور طرز عمل کے فریم ورک کے نفاذ کی نگرانی میں بورڈ کی معاونت کرتی ہے اور بینک بھر میں کپلائنس کے پروگرام کے نفاذ کی نگرانی کرتی ہے۔ BCNCC اخلاقیات اور طرز عمل سے متعلق معاملات کی نگرانی کرتی ہے جس میں وسل بلونگ کی شکایات بھی شامل ہیں۔ HBL کے وسل بلونگ پروگرام کا مقصد بینک کی سالمیت اور ساکھ کا تحفظ ہے۔ اس کا مقصد دھوکہ دہی، بد عنوانی، ہراسانی اور بینک کے ضابطہ اخلاق کی دیگر خلاف ورزیوں کے مشتبہ کیسز کی اطلاع دینے میں ملازمین کے احساس ذمہ داری میں اضافہ کرنا ہے۔ کسی بھی متعلقہ تحقیقات کی نگرانی بورڈ آڈٹ کمیٹی (BAC) کرتی ہے جبکہ

نوجوانوں کی طرف ہماری توجہ سرگرمیوں کا مجموعہ ہے، جسے مستقل انداز میں نافذ کیا جاتا ہے۔ سوشل میڈیا انفلوئنسرز کے ساتھ کام کرنا ایسی ہی ایک کوشش ہے۔ مشترکہ طور پر، ان کے مختلف پلیٹ فارمز پر 150 ملین سے زیادہ فالوورز ہیں۔ 2023ء میں HBL نے 130 سے زائد انفلوئنسرز کے ساتھ کام کیا جنہوں نے 180 سے زائد مواد تیار کیا اور برانڈ کے ساتھ ہماری مصنوعات کے فروغ کے لیے بینک کے لیے 11 کمپینز کیں۔ حال ہی میں، بینک نے ایک فٹ بال مقابلے کے ای گیمنگ ورژن کو اسپانسر کر کے 37 ملین سے زائد پاکستانیوں کا شوق ای-اسپورٹس میں بڑھایا ہے۔ اپنی Konnect ایپ کے تحت HBL نے بڑے سامعین سے جڑنے کے لیے ایک برانڈ اور پروڈکٹ پیش دونوں لانچ کیے ہیں۔ ہم نے نوجوانوں پر مرکوز برانڈ کے ساتھ تخلیقی تعاون بھی شروع کیا ہے تاکہ نوجوانوں کے شعبے کے ساتھ اپنے روابط اور سمجھ کو گہرا کیا جاسکے۔

HBL کی صنعت کی معروف ٹک ٹاک کمیونٹی اور پاکستان کے سب سے بڑے کھیلوں کے پلیٹ فارم HBLPSL کے ساتھ اس کی جاری وابستگی اب اپنے 9 ویں سال میں ہے، جو نوجوانوں تک رسائی کی کوششوں کو تیز کر رہی ہے۔ ٹک ٹاک نے HBLPSL* کے لیے بینک کی کمیونٹی پر ایک کیس اسٹڈی کو ٹک ٹاک گلوبل کامیابی کی کہانی کے طور پر شائع کیا۔

کمیونٹی کے دوران 8.9 ملین ویڈیوز بنائی گئیں، جس سے پلیٹ فارم پر 8.7 ملین سے زیادہ ویوز پیدا ہوئے اور ناقابل یقین طور پر 97% پاکستانی ٹک ٹاک صارفین تک پہنچ گئے۔ HBLPSL کے لیے بینک نے پلیٹ دو کھیل مہم کا آغاز کیا ہے۔ روایتی اور سوشل میڈیا دونوں پر یہ پیغام پاکستانیوں کو ملک کے مثبت پہلو کا جشن منانے، پاکستان کی حقیقی روح سمجھنے اور اسے دنیا کے سامنے پیش کرنے میں مدد دیتا ہے۔ ہر بار جب کوئی اپنے ارد گرد کچھ اچھا دیکھتا ہے تو وہ بھی اپنے فون پر ویڈیو ریکارڈ کر کے اور Palat #DoKhel استعمال کرتے ہوئے اسے سوشل میڈیا پر شیئر کر کے انفلوئنسر بن سکتا ہے۔ ہم امید کرتے ہیں کہ یہ ان بہت سے مثبت اور کامیابیوں کا جشن بن جائے گا جو ہم میں سے ہر ایک اپنے ارد گرد ہر روز دیکھتا ہے اور لاکھوں پاکستانیوں میں خود اعتمادی پیدا کرے گا۔

HBL پاکستان کا پہلا بینک بن گیا ہے جس نے کلائنٹ کیئر 'X' (جسے پہلے ٹویٹر کے نام سے جانا جاتا تھا) ہینڈل "@HBLCare" لانچ کیا۔ کسٹمر کیئر ہینڈل نے HBL کا رپورٹ پر وفاکس (@HBLPak) سے شکایات کے حجم کا 38% موڈ دیا ہے اور صارفین کے خدشات کی فوری نگرانی اور حل دیتا ہے۔

ہیومن ریسورس

HBL کی کامیابی کاراز اپنے ایمپلائیز کے لیے، اپنی بنیادی اقدار میں سے لوگوں کی قدر پر مضبوطی سے قائم رہنے میں ہے۔ اس رہنما اصول کے تحت حالیہ برسوں میں عملے کے لیے متعدد اقدامات کیے گئے ہیں، جن کا مقصد HBL کے ملازمین اور ان کے اہل خانہ کی زندگیاں بھرا پور بنانا ہے۔

Pay for Performance Culture کے ذریعے کارکردگی میں اضافے کی خواہش کے مطابق، بینک نے اپنے پرفارمنس مینجمنٹ سسٹم کو از سر نو تشکیل دیا۔ تمام ملازمین کے لیے گولڈ اسٹینڈرڈ انڈیکس میں بینک کے گولڈ سے ہم آہنگ کیے گئے، تاکہ اپنے ہاؤسنگ کے ہونے کا بہتر احساس پیدا کیا جاسکے اور اس بات کی آگاہی پیدا کی جاسکے کہ ہر ملازم کی شراکت HBL کی مجموعی کامیابی پر کس طرح اثر انداز ہوتی ہے۔ قائدانہ صلاحیتوں میں اضافے اور ہماری اخلاقیات اور اقدار پر مبنی ثقافت کے عزم کے اعادے کے لیے 400 سینئر مینجمنٹ کے لیے 360 ڈگری فیڈبیک میکانزم بھی شروع کیا گیا۔ کارکردگی میں نظم و ضبط اور محتاط اور بغور جائزے سے ہم ملازمین کی ایک بڑی تعداد کی حوصلہ افزائی کر سکے۔

بینک کے تنوع، مساوات اور شمولیت (DEI) کے عزم کے ایک حصے کے طور پر، مختلف صنعتوں کے اداروں سے بہترین طریقے شیئر کیے گئے۔ "PowerHour and Empowering through Inclusion" جیسے سیشنز نے مالیاتی اور غیر مالیاتی کمپنیوں کے رہنماؤں کو اکٹھا کرنے میں مدد کی، جس سے شرکاء کو مشترکہ چیلنجز اور حل شیئر کرنے میں مدد ملی۔ بینک نے چھوٹے بچوں والی خواتین کو لیگنڈ کی مدد کے لیے ڈے کیئر الاؤنس بھی شروع کیا، جس سے انہیں ماں کی حیثیت سے گھر اور کیریئر میں توازن قائم کرنے میں مدد ملتی ہے۔ مختلف صلاحیتوں کے حامل افراد کی شمولیت اور انہیں مرکزی دھارے میں لانے کے عزم کو آگے بڑھانے کے لیے سال بھر باہمی میل جول پر مبنی سرگرمیاں کی گئیں، جن میں اسکول کے بعد انٹرن شپ اور پاپ اپ اسٹالز تاکہ انہیں اپنی مصنوعات کی نمائش کا موقع ملے اور Staff Sensitization کے سیشن شامل تھے۔ HBL کی DEI سے وابستگی کو مسلسل دوسرے سال GDEIB ایوارڈز میں سینئر آف گلوبل انکلوژن کی جانب سے پاکستان میں سب سے زیادہ شمولیت والی تنظیم - 2023 کے اعزاز سے نوازا گیا۔

اس سال کے دوران سیکھنے کی سرگرمیاں کارکردگی میں اضافے کے لیے دوبارہ ہنرمندی اور دوبارہ تعیناتی کے ذریعے ہیومن ریسورسز بہتر بنانے پر مرکوز تھیں۔ مسلسل سیکھنے اور ترقی کے کلچر کے فروغ کے لیے ایک ڈیجیٹل لرننگ پلیٹ فارم، NEXUS HBL کا آغاز کیا گیا۔ یہ پروگرام ڈیجیٹل اپ اسکالنگ میں سہولت کے لیے خصوصی تیار کردہ اور گہرائی تک سیکھنے کے مواقع فراہم کرتا ہے۔ جنرل مینجمنٹ کے لیے 2022ء میں شروع کیا گیا لیڈرشپ ایکسیلنس کا سفر، 800 سے زائد درمیانے درجے کے رہنماؤں کی اگلی سطح تک لے جایا گیا۔ ملازمین کی ریگولیشن ضروریات، عالمی بہترین طریقوں اور ملازمت پر مبنی مہارتوں سے باخبر رہنے میں مدد کے لیے 500,000

HBL فاؤنڈیشن نے غذائی تحفظ کی بہتری اور پسماندہ علاقوں میں معیار زندگی بہتر بنانے کے لیے موثر کمیونٹی ڈویلپمنٹ کی کوششیں کیں، جو سماجی بہبود کے لیے HBL کے مجموعی کوششوں کی عکاسی کرتی ہیں۔ HBLF نے لیونگ ماسٹر زپر وجیکٹ کی معاونت کی، جو پاکستان کے بھرپور ثقافتی ورثے کے تحفظ اور اس عزم کا اظہار ہے کہ اس کی کلاسیکی موسیقی کی فنی وراثت آنے والی نسلوں کے لیے محفوظ رہے۔

HBL کا ایمپلائز و انٹینسٹیٹنگ پروگرام اپنے ملازمین کے ذریعے پائیدار سماجی اثرات کے لیے بینک کے عزم کی عکاسی کرتا ہے۔ 1,600 سے زیادہ رضاکارانہ گھنٹوں کے ساتھ، پروگرام نے ادارے میں سماجی خدمت اور کارپوریٹ ذمہ داری کی ایک مضبوط ثقافت کو فروغ دیا ہے۔ رضاکارانہ سرگرمیوں میں شجرکاری اور صفائی مہم سے لے کر پسماندہ برادریوں کی مدد، ان کمیونٹیز کے ساتھ ان کے باہمی تعلق کا مظاہرہ اور سماجی ذمہ داریوں کا احساس رکھنے والے کارپوریٹ ادارے کے طور پر HBL کی حیثیت کو مستحکم کرتا ہے۔

کریڈٹ ریٹنگ

جون 2023ء میں، بینک کی کریڈٹ ریٹنگ کی دوبارہ تصدیق VIS کریڈٹ ریٹنگ کمپنی لمیٹڈ کے ذریعے بالترتیب طویل المیعاد اور قلیل المیعاد کے لیے AAA/A-1 + ہوئی۔ حال ہی میں دونوں اضافی Tier 1 سرمائے کے طور پر جاری کردہ TFCs کی ریٹنگ کی بھی AA+ کے طور پر دوبارہ تصدیق کی گئی۔ تمام ریٹنگ میں منظر نامہ مستحکم ہے۔ یہ ریٹنگ ملک کے سب سے بڑے کمرشل بینک کی حیثیت سے HBL کے مقام کی توثیق کرتی ہے اور اس کی مستحکم تنظیمی اہمیت اور انتظامی تنوع کی عکاس ہے۔ ریٹنگ کی حمایت میں VIS نے HBL کے نمایاں لیونڈ ذخائر کے ساتھ ڈویسٹک لینڈنگ میں اس کی مستقل مستحکم کارکردگی اور سازگار ایسیٹ کو اٹلی برقرار رکھنے کی بھی نشان دہی کی۔ Moody's نے ریٹنگ منفی سے مستحکم منظر نامے کے ساتھ کم کر کے Caa1 سے Caa3 کی ہے۔ جو HBL سمیت ملک کے تمام بڑے بینکوں کے لیے اس اقدام کی عکاسی کرتا ہے۔

مستقبل کا منظر نامہ

مالی سال 23ء کے اختتام پر پاکستان نے ادائیگیوں کے توازن کے بحران کو بالائے طاق رکھ دیا۔ چونکہ پچھلے EFF کو بنیادی طور پر ختم کر دیا گیا تھا، لہذا حکومت 9 ماہ کا SBA حاصل کرنے میں کامیاب رہی جس نے اس وقت ڈوبتے کو تنکے کا سہارا دے دیا۔ مارچ میں SBA ختم ہو جائے گا اور ملک کی رو بصحت لیکن اب بھی نازک مالی صورتحال، جس میں FX کے ذخائر 2 ماہ سے بھی کم درآمدات پر ہیں، جنہیں IMF کی چھتری سے باہر منظم نہیں کیا جاسکتا ہے۔ اس وقت SBA کے دوسرے جائزے کی شرائط بڑی حد تک پوری کر دی گئی ہیں اور IMF کے پیغامات مثبت نظر آ رہے ہیں۔ تاہم، ایک طویل المیعاد EFF پروگرام پر مارچ تک بات چیت کرنا ہوگی جو بقا کے لیے ضروری ہے۔ فروری کے اوائل میں قومی انتخابات کسی حد تک کامیابی کے ساتھ مکمل ہونے کے باوجود، تحریر کے وقت، ایک نئی حکومت، اور سب سے اہم، ایک نئے وزیر خزانہ کا اعلان ہونا بھی باقی ہے۔ لہذا EFF کو محفوظ بنانے میں آنے والی حکومت پہلے سے ہی مصروف ہوگی۔

مگر ان حکومت کی جانب سے کی جانے والی ڈھانچہ جاتی اصلاحات سے ہماری حوصلہ افزائی ہوئی ہے۔ جیسے غیر قانونی سرمائے کی منتقلی روکنے کا فیصلہ، اور SOE نجکاری پر پیش رفت۔ قومی امید یہ ہے کہ تمام سیاسی جماعتیں اس سلسلے کو جاری رکھیں اور IMF کے نئے پروگرام پر دستخط کرنے کے لیے بھرپور انداز سے تیار ہوں گی اور حالیہ برسوں میں پاپولسٹ رویہ۔ جو معیشت کے لیے بہت نقصان دہ رہا ہے۔ غیر فعال رہے گا۔ لہذا بحالی کا ایک مستحکم راستہ ممکن ہے اور مالی سال 24ء کے لیے شرح نمو 2.5 سے 3.0 کے درمیان رہے گی۔ تاہم، پائیدار اور زیادہ جامع معاشی ترقی کے حصول کے لیے حکومت کو توانائی کے شعبے میں اصلاحات کے نفاذ کو ترجیح دینے، خسارے میں چلنے والے سرکاری اداروں کی گورننس بنیادی طور پر بہتر بنانے کے لیے نجکاری اور ٹیکس بیس وسیع کرنے کی ضرورت ہے۔ یہ آخری کام اس لیے ضروری اور سب سے اہم ہے تاکہ یقینی بنایا جائے کہ ان کے پاس دیرینہ سماجی اور معاشی ترقی کے لیے فنڈز ہوں۔

افراط زر میں اضافہ آبادی کی اکثریت کو درپیش واحد سب سے بڑا معاشی مسئلہ رہا ہے۔ ہم توقع کرتے ہیں کہ اسٹیٹ بینک قیمتوں میں اضافہ کم کرنے کے لیے مثبت حقیقی شرح سود (بنیادی افراط زر پر) برقرار رکھے گا۔ FX ریٹ کا منظر نامہ بے ضرر ہے، اور عالمی اجناس اور دیگر قیمتوں میں نرمی آنا شروع ہوگئی ہے، ہم توقع کرتے ہیں کہ سال کے دوران افراط زر میں مسلسل کمی آئے گی، جس کے ساتھ پالیسی ریٹ میں بتدریج نرمی ہوگی۔ تاہم، اس بار جو پولیٹیکل عوامل کی وجہ سے بڑھتے ہوئے خطرات موجود ہیں۔ مشرق وسطیٰ کی صورتحال کی بگڑتی ہوئی صورتحال اور یوکرین میں ایک بے مقصد تعطل عالمی قیمتوں اور شپنگ کے اخراجات پر اثر انداز ہو رہا ہے اور یہ وقتی ہے کہ یہ ہماری جیسی درآمد پر منحصر معیشتوں کو متاثر کریں۔

2024ء میں بین الاقوامی منظر نامہ زیادہ مددگار ثابت ہو سکتا ہے، کیونکہ G-20 افراط زر کم ہو رہا ہے، سال کے آخر میں عالمی شرح سود میں کمی کی پیش گوئی کی گئی ہے، اور جی ڈی پی کی نمو میں نرمی آئے گی، اس طرح ابھرتی ہوئی اور فرٹیلر مارکیٹوں میں زیادہ رسک کیپٹل جاری ہوگا۔ اس سے پاکستان اور دنیا بھر میں سرمائے کے بہاؤ میں

انضباطی کارروائیوں کا جائزہ بورڈ ہومن ریورس اینڈ ریویژن کمیٹی (BHRRC) لیتی ہے۔ صدر کی سربراہی میں کمپلائنس کمیٹی آف مینجمنٹ انتظامی سطح پر تعمیل اور طرز عمل سے متعلق امور کی نگرانی اور جائزہ لیتی ہے۔

کمپلائنس فنکشن ادارے بھر میں تعمیل کا ماحول مضبوط بنانے اور بینک کو فنانشل کرائم کمپلائنس مینجمنٹ سمیت قابل اطلاق قوانین اور ضوابط کی تعمیل کے قابل بنا کر کمپلائنس رسک کا بندوبست جاری رکھے ہوئے ہے۔ HBL نے ریگولیٹری کنٹرولز کے مناسب ڈیزائن اور انتظامی اثرات قابل عمل بنانے کے لیے ایک مضبوط ریگولیٹری رسک مینجمنٹ فریم ورک نافذ کیا ہے۔ اس کے مطابق، سال کے دوران بینک کے کمپلائنس رسک پروفائل کا ڈیزائن لیول جائزہ مکمل کیا گیا۔

ادارے میں وسیع پیمانے پر کمپلائنس کنٹرولز کو معیاری اور خود کار بنانے پر توجہ کے ساتھ، بینک متعدد پروسیجرز کے لیے BOTs کے کامیاب نفاذ کے ساتھ صنعت کی پہلی ڈیجیٹل ورک فورس قائم کر کے پاکستان بینکنگ انڈسٹری میں جدت کے ایجنڈا میں آگے بڑھ رہا ہے۔ HBL کی انٹرنیشنل برانچز سے گلوبل انورسٹمنٹ کے لیے پاکستان میں کمپلائنس سینٹر آف ایکسی لٹس ٹرانزیکشن مانیٹرنگ اور الرٹ ڈیسپوزیشن میں معاونت فراہم کرتا ہے جو ایک اور تاریخی اقدام ہے۔ 2023ء میں HBL کے ٹرانزیکشن مانیٹرنگ اور سینکشن اسکریپٹنگ سسٹم نے کامیابی سے ایک بین الاقوامی بیچ مارکنگ اور توثیقی جائزہ مکمل کیا جس سے ظاہر ہوتا ہے کہ سسٹم معروف بین الاقوامی معیارات کے مطابق بنیادی خطرات کی موثر نگرانی اور انتظام کے لیے مضبوطی سے کام کر رہا ہے۔ اس شعبے میں بینک کی مستقل سرمایہ کاری پائیدار کنٹرول اور مسلسل اضافے کے لیے اس کے عزم کا ثبوت ہے۔

اپنے صارفین اور ان کے ڈیٹا کو سائبر حملوں اور ڈیٹا کی خلاف ورزیوں سے محفوظ رکھنا HBL کی ترجیح ہے۔ بینک کا انفارمیشن سیکیورٹی فنکشن HBL کے ڈیٹا سیکورٹی سائبر سیکیورٹی رسک کے موثر انتظام کے ذریعے اندرونی اور بیرونی خطرات سے محفوظ رکھنے میں اہم کردار ادا کرتا ہے۔ بینک کا 24x7 سیکیورٹی آپریشنز سینٹر باقاعدگی سے نگرانی کے ذریعے مضبوط سیکیورٹی پوزیشن میں اپنا کردار ادا کر رہا ہے، جس میں سرانجام لگانے اور روک تھام کے متعدد میکانزم کی مدد حاصل ہے۔

ملازمین کو انفارمیشن سیکیورٹی سے متعلق امور پر تربیت اور رہنمائی فراہم کرنے کے لیے سال بھر انفارمیشن سیکیورٹی آگاہی مہمات کا انعقاد کیا جاتا ہے۔ ان کو متعدد ڈیوری چینلز کا استعمال کرتے ہوئے صارفین کے لیے مخصوص آگاہی مہمات کے ذریعے پورا کیا جاتا ہے۔ بینک SWIFT کسٹمر سیکیورٹی پروگرام کے ساتھ ساتھ ISO 27001 کی تعمیل کر رہی ہے۔ بینک آٹومیشن اور جدید ٹیکنالوجیز کے استعمال کے ذریعے اپنے سائبر دفاع کو مضبوط بنانے کے لیے پرعزم ہے، جبکہ جدید سیکیورٹی خطرات تیزی سے کم کرنے کے لیے پرعزم ہے۔ یہ حفاظتی اقدامات HBL کی اپنے صارفین کا تحفظ اور ذہنی سکون یقینی بناتے ہوئے جدید ڈیجیٹل حل پیش کرنے میں معاونت کرتے ہیں۔

کارپوریٹ سماجی ذمہ داری

کارپوریٹ سماجی ذمہ داری سے HBL کی وابستگی اس کے وسیع تر فلاحی کاموں سے جھلکتی ہے، جو کمیونٹی کے احسانات چکانے کے گہرے احساس پر مبنی ہے۔ اس کا تعاون صحت، تعلیم اور سماجی فلاحی شعبوں کے لیے ہے۔ 2022ء کے سیلاب کے بعد، بینک نے متاثرہ افراد کی بحالی میں اہم کردار ادا کیا، 2 گاؤں میں سے ہر ایک میں 100 پہلے سے تیار شدہ مکانات فراہم کرنے کے لیے 264 ملین روپے کا عطیہ دیا، جو قدرتی آفات سے نمٹنے میں ایک اہم پیش رفت ہے۔ HBL کی صحت عامہ اور فلاح و بہبود سے وابستگی کو نیشنل انسٹی ٹیوٹ آف چائلڈ ہیلتھ ٹرسٹ اور ٹاسکین ہیلتھ اینڈ نیٹ ورکس میں اپنی شراکت کے ذریعے اجاگر کیا گیا ہے۔ شمولیت کے اقدامات کے ایک حصے کے طور پر، پاکستان اسپیشل اوپنکس میں شراکت مختلف صلاحیتوں کے حامل کھلاڑیوں کو بااختیار بنانے کے لیے بینک کے عزم کی عکاسی کرتی ہے۔ تعلیمی شعبے میں HBL نے پروگریسو ایجوکیشن نیٹ ورک کو 10 لاکھ روپے کا عطیہ دیا جو تعلیمی ترقی کے فروغ کے لیے بینک کے عزم کو ظاہر کرتا ہے۔ HBL کی انٹرنیشنل برانچز نے بھی بحران میں مدد کے لیے قدم بڑھایا اور ترکی میں، بینک نے 2023ء کے زلزلے کے تناظر میں بحالی کی کوششوں میں مصروف مختلف تنظیموں کے ساتھ تعاون کیا۔

HBL فاؤنڈیشن (HBLF) نے پاکستان کے سماجی و اقتصادی تانے بانے کو مضبوط کیا ہے اور 2023ء میں ہیلتھ کیئر کے لیے تقریباً 400 ملین روپے، تعلیم کے لیے 100 ملین روپے اور کمیونٹی کی ترقی کے لیے 20 ملین روپے خرچ کیے ہیں۔ یہ فنڈز ہیلتھ کیئر سروسز، تعلیمی تجربات بہتر بنانے، ثقافتی ورثے کے تحفظ اور پاکستان بھر میں کمیونٹی کی فلاح و بہبود کی بہتری میں اہم کردار ادا کرتے ہیں۔

ہیلتھ کیئر میں، فاؤنڈیشن نے کینسر کے علاج کی جدید سہولیات، بچوں کی ہنگامی دیکھ بھال، موبائل ہیلتھ کیئر پورٹل اور ہیلتھ کیئر کے کئی دیگر جامع اقدامات کے لیے فنڈز عطیہ کیے۔ مدد کا یہ متنوع سلسلہ HBL کی ملک میں ہیلتھ کیئر کی ضروریات کی مختلف پہلوؤں پر مبنی نوعیت کی سمجھ کو ظاہر کرتا ہے۔ HBL تعلیم کی تبدیلی کی طاقت پر یقین رکھتا ہے اور فاؤنڈیشن کے ذریعے معروف یونیورسٹیوں میں طالبات کے لیے متعدد وظائف، ڈیجیٹل لٹریسی میں اضافے اور بصارت سے محروم طالب علموں کو بااختیار بنانے سمیت خصوصی ضروریات کے لیے تعلیم کی معاونت کرتا ہے۔

مد ملے گی، جس سے HBL کی مقامی اور بین الاقوامی فرنیچائز کو فائدہ ہو گا۔ مارچ میں EFF کے متوقع آغاز پر، ہم توقع کرتے ہیں کہ GCC کے ادارے مارکیٹ میں دوبارہ داخل ہوں گے، اگرچہ آہستہ آہستہ، اس طرح ملک کے بیرونی شعبے کو آہستہ آہستہ بحال کرنے میں مد ملے گی۔

ماضی قریب میں سب سے مشکل سالوں میں سے ایک میں، HBL نے ایک اور ریکارڈ سال فراہم کرتے ہوئے مشکلات کا مقابلہ کیا ہے۔ مضبوط ڈیویڈنڈ فرنیچائز کے عمدہ نتائج کو بین الاقوامی کاروبار کی طرف سے ٹھوس شراکت کے ساتھ پورا کیا گیا ہے۔ ہمارے آپریشنز کے زیادہ تر شعبوں میں قائدانہ مقام حاصل کیا گیا ہے یا مزید توسیع کی گئی ہے۔ ہمارا نوٹسمنٹ بینکنگ بزنس اہم ہے، جو ایوارڈز لیتا جا رہا ہے، جبکہ ٹرانزیکشن بینکنگ کو اس کے صارفین کی طرف سے سراہا جاتا ہے جنہوں نے سال بہ سال، ہمیں بہترین سروس فراہم کنندہ کے طور پر ووٹ دیا ہے۔ حقیقت یہ ہے کہ یہ کلائنٹ کی رائے پر مبنی ہیں جو انہیں اور بھی با معنی بناتے ہیں۔ ہم ان نتائج کو اپنے کلائنٹ کے نام کرتے ہیں، جن میں سے بہت سے نسلوں سے ہمارے ساتھ بینکنگ کر رہے ہیں اور جو ہمارے تمام کاموں کا مرکز ہیں۔

HBL نے کئی سالوں میں مستقل عزم کے ساتھ پاکستان میں زرعی فنانشنگ کو تبدیل کیا ہے۔ ہمارے ترقیاتی مالیاتی اقدام نے پہلے ہی کسانوں کی زندگیوں پر ڈرامائی مثبت اثرات مرتب کیے ہیں اور HBL زرعی پاکستان میں ایک بالکل نئے زرعی پیراڈائم کا آغاز کرے گا۔ پاکستان کے بہترین زرعی بینک کے طور پر ہمارا پانچ مرتبہ تسلیم کیا جانا اس شعبے میں ہمارے اقدامات کا ثبوت ہے کیونکہ ہمیں ریگولیٹرز، صارفین اور صنعت کی جانب سے تبدیلی لانے والی قیادت کے طور پر تسلیم کیا گیا ہے۔

HBL میں ہمارے کاروبار کے ہر پہلو کی ڈیجیٹلائزیشن میں اضافہ طرز زندگی بن گیا ہے۔ موبائل ایپ کے ذریعے پیپر لیس کنزیومر فنانشنگ سے لے کر کسانوں کی ریویٹ ڈیجیٹل آن بورڈنگ، مائیکرو وٹانس صارفین کے لیے ای والٹ اور ای اسپورٹس میں ہمارے تازہ ترین منصوبے تک۔ اس سال، ہم نے ایک بار پھر پاکستان کی مالیاتی خدمات کے منظر نامے کو تشکیل دینے کے لیے ٹریل بلینگ مصنوعات متعارف کروائی ہیں۔ ڈیجیٹل انوائسنگ، ایک اردو موبائل ایپ، بصارت سے محروم افراد کے لیے ٹاک بیک۔ HBL نے خود کو ڈیجیٹل بینکاری کی جگہ کے ہر پہلو میں ایک اہم کھلاڑی کے طور پر منوایا ہے، جس سے صارفین کے استعمال میں تیزی آئی ہے۔ P@ SHA کے ساتھ اس کی شراکت داری پاکستان کے نمایاں لیکن کم شہرت یافتہ شعبوں میں سے ایک کو ظاہر کرنے کا ایک موقع فراہم کرتی ہے، اس طرح HBL کے پاکستان کی کامیابی اور ترقی میں اپنا کردار ادا کرنے کا مقصد پورا کرتا ہے۔ HBL موبائل سے لے کر Kconnect تک، QR سے HBL Pay تک، بینک اپنے صارفین کے لیے تخلیقی، اپنی نوعیت کا پہلا حل پیش کرنے میں آگے ہے اور بینکنگ لائسنس کے ساتھ ٹیکنالوجی کمپنی کی حیثیت سے اپنی پوزیشن کو مستحکم کرتا ہے۔ HBL کے ڈیجیٹل ایوارڈز، ایشیائی بینک برائے ڈیجیٹل سلوشنز سے لے کر CFA سوسائٹی کے بہترین ڈیجیٹل سروسز ایوارڈز تک، ہماری پیشرفت کی آزادانہ بیرونی توثیق فراہم کرتے ہیں۔

ہم جو کچھ بھی کرتے ہیں اس کے تمام پہلوؤں میں ایک لفظ۔ پائیداری۔ ہوتا ہے۔ اس سال ہم نے اپنی دوسری سسٹینبلٹی رپورٹ جاری کی، جسے اسٹیک ہولڈرز کی ایک بڑی تعداد نے وسیع پیمانے پر سراہا۔ HBL نے ملکی مدد کے لیے ہر شعبے میں قدم رکھا ہے اور رکھتا رہے گا۔ ہم پبلک پرائیویٹ پارٹنرشپ ماڈل کے تحت حکومت کی مدد کرتے ہوئے معیشت کے تمام شعبوں میں فکری قیادت فراہم کرنے کا جنون رکھتے ہیں۔ ہم HBL PSL کے لیے اپنی سپورٹ کے لیے برجوش ہیں۔ ایک ایسا یونٹ جس نے بلاشبہ پاکستان کو عالمی کرکٹ کے نقشے پر واپس لانے میں مدد کی ہے اور لاکھوں پاکستانیوں کو خوش کیا ہے۔ پاکستان اور دنیا بھر میں۔ PalatDoKhel# کے ذریعے ہم امید کرتے ہیں کہ پاکستانیوں کا پاکستان پر فخر بحال ہو گا اور ان کی حوصلہ افزائی ہو گی کہ وہ ان بے شمار مثبت پہلوؤں کو ظاہر کریں جو ہم ہر روز دیکھتے ہیں۔ گرین انویسٹمنٹ اصولوں کے بانی رکن اور CASI کے حالیہ رکن کی حیثیت سے، ہم دنیا کے سب سے اہم مسئلے۔ آب و ہوا کی تبدیلی سے نمٹنے کے عزم پر زور دیتے ہیں۔ ہم HBL نساء کے ذریعے خواتین کی شمولیت اور صنفی تنوع کے اہداف سمیت تمام پہلوؤں میں مالی شمولیت پر مسلسل توجہ مرکوز کیے ہوئے ہیں۔ کنیکٹ اور مائیکرو وٹانس کے ذریعے پسماندہ افراد کو شامل کرنا؛ ہمارے ٹچ پوائنٹس پر مخصوص بھرتیوں اور سہولیات کے ذریعے مختلف صلاحیتوں کے حامل افراد کو شامل کرنا؛ اور پاکستان اور پاکستانیوں کے روشن مستقبل کو یقینی بنانے کے لیے ہماری معروف سوشل میڈیا موجودگی کے ذریعے نوجوانوں کو شامل کرنا۔ ہم ایک بار پھر پاکستان میں سب سے زیادہ شمولیت والے ادارے کے طور پر نامزد ہونے پر فخر محسوس کرتے ہیں۔

منافع منقسمہ

بورڈ نے سال محترمہ 31 دسمبر 2023ء کے لیے 4.00 روپے فی حصص (شیر) کے حتمی نقد منافع منقسمہ کی تجویز دی، جس سے سال کا مجموعی نقد منافع منقسمہ 9.75 روپے فی حصص (شیر) تک پہنچ گیا۔ اس سے قبل بورڈ مجموعی طور پر 5.75 روپے فی حصص کے عبوری منافع منقسمہ کا اعلان اور ادائیگی کر چکا تھا۔

Annual Statement on Internal Controls 2023

A strong internal control system consists of a comprehensive framework, along with robust processes, effective communication and a resilient monitoring mechanism, which are all designed to work in tandem to timely mitigate the risk of control failures and of not meeting the objectives of the Bank. It is the responsibility of the Bank's management to establish such a robust internal control system that facilitates effective and efficient operations in a well-controlled environment.

The management of the Bank has accordingly implemented an internal controls system, approved by the Board of Directors (BoD), to achieve effective and efficient operations, safeguard the Bank's assets, comply with applicable laws and regulations and ensure the reliability of financial reporting. However, even a well-designed system of internal controls has inherent limitations and therefore can only provide reasonable but not absolute assurance regarding the adequacy and effectiveness of controls. Internal controls also require continuous review and improvement to align them with the evolving environment and to safeguard against emerging risks. The Bank increasingly relies on the use of advanced technology, including data analytics and Robotics Process Automation, to improve operating efficiencies, increase scalability and further strengthen the control environment.

The Bank's internal control structure comprises of different levels of monitoring activities. The Bank follows the "three lines of defense" model, with the first line comprising of front office, customer-facing and enabling functions, the second line being Compliance, Risk and other control functions and the third line of defense being the Internal Audit (IA) function.

The first line's role is to ensure that business risks are properly identified and mitigated, while ensuring that controls are operating effectively and corrective actions are implemented promptly. The second line's role is to conduct end-to-end reviews of processes, identify gaps and ensure that timely remedial action is taken for rectification of such gaps. The second line, as part of its governance responsibilities, also sets policies and defines risk tolerance levels. The third line of defense provides independent assurance on the adequacy and effectiveness of the control environment.

The Global Compliance & Conduct (GCC) function's role is to strengthen the compliance environment and manage compliance risk across the Bank by enabling compliance with applicable laws, regulations, guidelines and internal policies and procedures. GCC is also responsible for advising on, and overseeing, the implementation of regulatory requirements and related policies, including financial crime compliance management. Accordingly, GCC in liaison with the business, identifies, assesses, monitors and reports compliance risk through regulatory themed Risk & Control Self-Assessments (RCSAs). A comprehensive regulatory repository management process has been implemented for ensuring the adequate design and effectiveness of controls around regulatory requirements. GCC has also implemented robotics solutions for enhanced monitoring and management of financial crime-related processes. As part of integrating values-driven behaviors the Bank is expanding its Conduct & Culture framework.

A Shariah Board (SB), established by the BoD, ensures a strong governance framework for the Bank's Islamic Banking business. The Shariah Compliance Department works under the direct supervision of the SB and conducts Shariah reviews on a sample basis, to monitor compliance with the SB guidelines and the Shariah standards adopted by the SBP.

The Board Risk Management Committee provides strategic guidance as per the Bank's Risk Management Framework. The Management Risk Committee is responsible for the development and implementation of risk-related policies and for monitoring the risks arising out of the various activities of the Bank, to embed effective risk management and a strong risk management culture. The Enterprise Risk Management function has created an Integrated Risk & Control Repository (IRCR) covering the spectrum of risks faced by the Bank and their mitigating controls. This is being used by the Bank to evaluate the operating effectiveness of controls, identify exceptions and report the same at an appropriate level, thus enhancing the control environment.

The Compliance Committee of Management (CCM) and the Controls Committee (CC), both chaired by the President, monitor, review and provide oversight on regulatory and control related matters at the enterprise level, to ensure that control observations and emerging risks are highlighted appropriately. Accordingly, for identified gaps, management's remediation plans are reviewed and monitored by the respective committee to ensure that these gaps are addressed in a timely and effective manner. The Board Compliance & Conduct Committee (BCNCC) assists the Board in overseeing the implementation of a compliance and conduct culture and provides governance over the implementation of a bank-wide compliance program. It also monitors the GCC function's mandate and ensures its capabilities to effectively manage the Bank's compliance and regulatory risks. The BCNCC reviews inspection reports from domestic and international regulatory authorities including time-bound management action plans to remediate identified issues.

The Board Audit Committee (BAC) oversees the implementation of internal controls to ensure that any identified risks are mitigated to safeguard the interest of the Bank. IA provides independent assurance by conducting risk-based audits of activities and processes to evaluate the adequacy and effectiveness of the control environment, serving as the third line of defense. IA also applies advanced technology-based auditing techniques to enhance the risk-based auditing approach. IA has unrestricted access to the BAC which approves the annual internal audit plan for the Bank, including Shariah operations and monitors its progress and implementation. All significant findings of IA and External Audit, with agreed management action plans and timelines, are reported to the BAC. IA tracks closure of all findings through validation of these agreed management actions and the status is regularly reported at the CC and the BAC. Considering the rapidly changing economic and operating environment, IA carries out several risk-based thematic reviews annually, to provide insights on governance and enhance the overall control environment of the Bank. The Bank periodically engages external specialized consultants to carry out independent quality assurance reviews, to assess the professional capacity and effectiveness of its IA function.

The Bank has also established a comprehensive Internal Controls over Financial Reporting (ICFR) Framework. The Bank's External Auditors are engaged annually to provide a Long Form Report (LFR) on ICFR, which is presented to the BAC, along with the progress on rectification of identified issues. The Bank has conducted testing of financial reporting controls to ensure the effectiveness of ICFR throughout the year. All the deficiencies identified are procedural and are not expected to have a material impact on financial reporting. These are remediated forthwith.

Based on the results achieved from the ongoing testing of internal controls, and from audits conducted during the year 2023, management considers that the Bank's existing system of internal controls, including ICFR, is adequate and has been effectively implemented and monitored. To augment the overall control environment, the management continues to identify areas for process improvement.

The Board of Directors has duly endorsed management's evaluation of internal controls, including ICFR, in the Directors' Report.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Bank. Our responsibility is to review whether the Statement of Compliance reflects the status of the Bank's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Bank's personnel and review of various documents prepared by the Bank to comply with the Regulations.

As part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. Shariah Board Report 2023

For the year ended December 31, 2023

Presented to the Board of Directors

الحمد لله رب العالمين، والصلاة والسلام على أشرف الأنبياء والمرسلين،
و على آله واصحابه اجمعين، و بعد

By the grace of Allah Almighty, HBL Islamic Banking “(HBL-IB)” achieved remarkable progress in 2023, driven by a strategic focus on customer centricity, technology, geographic expansion, and financial inclusion. This performance demonstrates management’s commitment to provide Shariah compliant banking solutions accessible to customers across urban and rural communities. Under the branch conversion strategy, the HBL-IB branch network expanded by 39% with the addition of 114 branches in both urban and rural areas, bringing the total Islamic branch network to 408. This initiative strengthened HBL-IB’s position as a leading provider of Shariah-compliant banking solutions in the banking industry.

Board of Directors and Executive Management:

The Board of Directors “(BOD)” and the Management is obligated to ensure that the operations of HBL-IB are conducted in a manner that complies with Shariah principles. The BOD met with the Shariah Board twice in the year for a detailed briefing on the Shari’ah compliance environment of HBL. The BOD and the Management’s continuing support for Islamic Banking, empowered the Shariah Board to maintain an overall acceptable Shariah compliance environment in HBL-IB. We thank and acknowledge the commitment of the BOD and the Management on implementation of Shariah Board’s instructions and guidance to maintain a Shariah compliant environment.

Shariah Board:

During the year, the Shariah Board conducted multiple discussions apart from required quarterly meetings. The Shariah Board reviewed and approved the following:

- a. Policies and procedures, new products/renewals of existing products, transaction structures, Shariah queries, process flows, business and marketing material, etc.
- b. Shariah Compliance review reports and Internal/External Shariah Audit Reports.

Additionally, to ensure Shariah compliant environment in HBL-IB, Shariah Board visited newly opened branches and other support functions.

Shariah Compliance Department:

HBL-IB has a dedicated Shariah Compliance Department “(SCD)” working under the guidance of the Shariah Board to ensure that all policies, products, processes, and procedures are compliant with the Shariah principles, and Accounting and Auditing Organization for Islamic Financial Institutions (AAOIFI) standards. The SCD team comprises of experienced professionals, including a Shariah scholar, who are committed to maintain the Shariah compliance environment of HBL. SCD remained engaged in the post-disbursement Shariah reviews of the financing portfolio to ensure compliance with Shariah principles and Shariah Board approved guidelines. SCD also presented the Shariah Reviews and the Internal Shariah Audit report in the quarterly Shariah Board meetings for review.

Training and Awareness sessions:

Recognizing the critical role of skilled human resources in supporting network expansion, the Management imparted a comprehensive 5-day training program through the Learning and Development Centre. This initiative aimed to equip staff with the latest developments and knowledge in Islamic banking products and services. The training sessions encompassed the spectrum of Islamic banking, from fundamental Shariah principles to specialized products like low-cost housing, Prestige banking, and trade finance. Over 5,900 staff across branches, windows, and support departments were successfully equipped with the essential knowledge of Shariah and Islamic Banking products to assist the Bank’s customers effectively. Furthermore, the Management organized five Islamic Banking awareness sessions in major cities led by Shariah Board members. These sessions addressed common misconceptions, clarified customer concerns, and provided informative answers to their queries. This initiative promoted transparency and fostered trust among potential customers of HBL.

Charity:

As per the HBL’s approved Charity policy, a separate remunerative Charity Fund account is maintained for charity collections. During the year 2023, an amount of PKR 44.803 million was collected as Charity from the customer in lieu of delay in payments against financing facility /locker rents. The Charity Fund was utilized in line with the HBL’s approved Charity policy for charitable

and social welfare purposes. An amount of PKR 63 million was disbursed to the health sector. Details of the Charity Fund account is as under:

	(PKR in 000)
Opening Balance	25,121
Charity collected during the year 2023	44,803
Profit credited	3,654
Charity amount disbursed	63,000
Closing Balance	10,578

(Refer to note 7 of Annexure I to the consolidated financial statements)

Shariah Opinion:

Based on Shariah compliance reviews of both local/international locations, External and Internal Shariah Audit reports, and explanations given by the management, the Shariah Board is of the view that overall:

- i. HBL-IB has complied with Shariah rules and principles in the light of Fatawa, rulings, and guidelines issued by the Shariah Board.
- ii. HBL-IB has complied with directives, regulations, instructions, and guidelines related to Shariah compliance issued by the State Bank of Pakistan (“SBP”) in accordance with the rulings of SBP’s Shariah Board.
- iii. HBL-IB has a mechanism in place to ensure Shariah compliance in its operations.
- iv. HBL-IB has placed a satisfactory system to ensure that any earnings realized from sources or by means prohibited by Shariah have been credited to the Charity Fund account. HBL-IB has a well-defined system in place to utilize the charity properly.
- v. HBL-IB has complied with the SBP instructions on profit and loss distribution and pool management.
- vi. HBL-IB has satisfactory level of awareness, capacity, and sensitization of the staff, management, and the BOD in appreciating the importance of Shariah compliance in the products and processes of the Bank.
- vii. Shariah Board has been provided adequate resources enabling it to discharge its duties effectively.

Recommendations:

The opinion formed, in the light of the Shariah reviews by SCD/ Internal/External Shariah Audit reports of domestic operations, international locations’ Shariah Advisor report, and considering branch conversion strategy, we have the following recommendations for management’s consideration:

- **Branch Conversion Plan:** The branch conversion plan should summarize the conversion process for each asset and liability category, including the transition plan of all existing asset and liability products to Shariah-compliant models.
- **Technology and Infrastructure:** An efficient core banking system is essential to address the unique features of Islamic financing products. Therefore, system related issues should be prioritized for smooth functioning of Islamic Banking products and services.
- **Shariah Compliance Environment:** To foster a robust and effective Shariah governance framework, HBL-IB is encouraged to introduce a culture of accountability for Shariah compliance across all its operations. This would involve proactively promoting adherence to Shariah principles and establishing clear consequences for non-compliance.
- **Risk Mitigation through Takaful:** Recognizing that conventional insurance does not fulfill Shariah requirements, whereas Takaful presents a compelling alternative to conventional insurance. It is encouraged to educate HBL’s clients to align with the Islamic alternative as it offers a wide range of coverage options.

Staff Benefits:

- **Islamic finance:** Explore the feasibility for the availability of Islamic staff housing and auto finance options across the board to address the staff needs.
- **Investment of staff Funds:** The Bank may explore options for investing of staff funds in Shariah-compliant avenues. Additionally, medical, life, and accidental risks cover through Takaful.
- **Training and Development.**
Islamic banking’s success depends on a skilled workforce. Shariah review of branch and support functions, reveals understanding gap of Shariah principles for Islamic banking products. To bridge this gap, tailored in-person training programs are essential to cater to the unique requirements of different Islamic products / segments. Further, to maximize the impact of these initiatives, management should consider tying them directly to key performance indicators.

May Almighty Allah (Subhanahu Wata’ala) help us to practice Islamic Banking in its true spirit.

2. شریعیہ کمپلائنس ری ویورپورٹس اور داخلی / بیرونی شریعیہ آڈٹ رپورٹس۔

مزید یہ کہ ایچ بی ایل اسلامک بینکنگ میں شریعت کے مطابق ماحول کی نگرانی و تصدیق کرنے کے لیے شریعیہ بورڈ نے نئی کھولی گئی برانچوں اور دیگر سپورٹ فنکشنز کا دورہ کیا۔

شریعیہ کمپلائنس ڈیپارٹمنٹ

شریعیہ بورڈ کی رہنمائی میں، ایچ بی ایل اسلامک بینکنگ کا شریعیہ کمپلائنس ڈیپارٹمنٹ تجربہ کار پیشہ وارانہ ٹیم بشمول شریعیہ اسکالر اس بات کو یقینی بناتے ہیں کہ تمام پالیسیاں، پروڈکٹس، پروسیس فلو اور طریقہ کار شرعی اصولوں اور اکاؤنٹنگ اینڈ آڈیٹنگ آرگنائزیشن برائے اسلامی مالیاتی ادارے (AAOIFI) کے معیارات کے مطابق ہوں اور اسلامک بینکنگ کے شرعی ماحول کو برقرار رکھنے کے لئے پر عزم ہیں۔ نیز شریعیہ کمپلائنس ڈیپارٹمنٹ بینک کے فنانسنگ پورٹ فولیو کے شرعی جائزے کی تصدیق شرعی اصولوں اور شریعیہ بورڈ کی دی گئی ہدایات کے مطابق کرتا ہے اور اس کی رپورٹ شریعیہ بورڈ کی سہ ماہی اجلاسوں میں پیش کرتا ہے۔

ترتیب اور آگاہی سیشن:

اسلامی بینکنگ نیٹ ورک کی توسیع میں ماہر تجربہ کار افراد کی اہمیت کو مد نظر رکھتے ہوئے انتظامیہ نے لرننگ اینڈ ڈیولپمنٹ ڈیپارٹمنٹ کے توسط سے پانچ روزہ جامع تربیتی پروگرام منعقد کرائے تاکہ اسٹاف کو اسلامک بینکنگ سے متعلق شرعی اصولوں سے لے کر کم لاگت ہاؤسنگ فنانس، پریسٹیج بینکنگ، ٹریڈ فنانس جیسی خصوصی پروڈکٹ کے بارے میں موجودہ اور نئی ڈیولپمنٹ سے متعلق تربیت دی جاسکے تاکہ بینک کسٹمرز کی موثر طریقے سے رہنمائی کر سکے۔ اس ضمن میں برانچوں، اسلامک بینکنگ ونڈوز اور سپورٹ فنکشن ڈیپارٹمنٹس کے 5900 سے زائد اسٹاف کو اسلامک بینکنگ کے شرعی اصولوں اور بینکنگ پروڈکٹس سے متعلق تربیت فراہم کی گئی۔

• تربیت اور ترقی

اسلامک بینکنگ کی کامیابی کا مدار تجربہ کار اور ماہر افراد پر ہے۔ اسلامک برانچز اور متعلقہ انتظامی شعبوں کا شرعی جائزہ درحقیقت اسلامک بینکنگ پروڈکٹس کی معلومات میں موجود خلا کو پر کرتا ہے اس خلا کو پُر کرنے کے لیے ہر فرد کی فزیکل ٹریننگ بنیادی اہمیت کی حامل ہے تاکہ اس کے ذریعے مختلف اسلامک بینکنگ پروڈکٹس کے منفرد فیچرز کا احاطہ کیا جاسکے مزید یہ کہ ان اقدامات کے اثرات بڑھانے کے لیے بینک کی انتظامیہ کو خدمات بہتر بنانے والے اشاریوں پر براہ راست کام کرنے کی ضرورت ہے۔

شریعیہ بورڈ کی رائے:

ملکی / غیر ملکی مقامات کے شریعیہ کمپلائنس کے جائزے، ایکسٹرنل اور انٹرنل شریعیہ آڈٹ رپورٹس، اور مینجمنٹ کی طرف سے فراہم کردہ وضاحتوں اور سنجیدہ یقین دہانیوں کی بنیاد پر شریعیہ بورڈ کی رائے یہ ہے کہ بحیثیت مجموعی:

- ایچ بی ایل اسلامک بینکنگ نے فتاویٰ، احکام اور شریعیہ بورڈ کی جانب سے جاری کردہ ہدایات کی روشنی میں شرعی قواعد و ضوابط کی تعمیل کی ہے۔
- ایچ بی ایل اسلامک بینکنگ نے اسٹیٹ بینک کے شریعیہ بورڈ کے فیصلوں کے مطابق اسٹیٹ بینک کی جانب سے جاری کردہ ہدایات اور ضوابط کی تعمیل کی ہے۔
- ایچ بی ایل اسلامک بینکنگ کے پاس اپنے مجموعی آپریشنز میں شریعیہ کمپلائنس کو یقینی بنانے کے لیے ایک مکمل طریقہ کار موجود ہے۔
- ایچ بی ایل اسلامک بینکنگ نے اس بات کو یقینی بنانے کے لیے ایک ایسا تسلی بخش نظام قائم کیا ہے جس کے تحت شریعیہ کے ممنوعہ ذرائع یا طریقوں سے حاصل ہونے والی آمدنی چیریٹی اکاؤنٹ میں جمع کر دی گئی ہے۔ ایچ بی ایل اسلامک بینکنگ کے پاس چیریٹی صحیح طریقے سے استعمال کرنے کے لیے بھی ایک واضح نظام موجود ہے۔
- ایچ بی ایل اسلامک بینکنگ نے نفع و نقصان کی تقسیم اور پول مینجمنٹ سے متعلق اسٹیٹ بینک کی ہدایات پر عمل کیا ہے۔
- بینک کی پروڈکٹس اور پروسیجرز میں شریعیہ کمپلائنس کی اہمیت سمجھنے کے لیے اسٹاف، مینجمنٹ اور بورڈ آف ڈائریکٹرز میں آگاہی اور صلاحیت کی اچھی سطح موجود ہے۔
- شریعیہ بورڈ کو مناسب وسائل فراہم کیے گئے ہیں تاکہ وہ اپنے فرائض مؤثر طریقے سے انجام دے سکے۔

سفارشات:

ایس سی ڈی، انٹرنل آڈٹ، ایکسٹرنل آڈٹ رپورٹس (ملکی غیر ملکی آپریشنز) شریعیہ ایڈوائزر رپورٹس کے جائزوں کی بنیاد اور کنونیٹیشنل بینکوں کی اسلامی برانچوں میں تبدیلی کی وضع کردہ حکمت عملی کی روشنی میں تشکیل دی گئی رائے کی بنیاد پر شریعیہ بورڈ درج ذیل تجاویز پیش کرتا ہے:

- برانچ کنورژن پلان: برانچ کنورژن پلان، ہر آئٹم اور ذمہ داری کی کنورژن کا طریقہ کار سے ہم آہنگ ہو جس میں تمام موجودہ اثاثہ جات اور ذمہ داری کی پروڈکٹس کو شریعیہ کے اصولوں کے مطابق بنا سکیں۔
- ٹیکنالوجی اور بنیادی ڈھانچہ: اسلامی فنانسنگ پروڈکٹس کی منفرد خصوصیات کو عملی جامہ پہنانے کے لیے ایک موثر بنیادی بینکاری آئی ٹی سسٹم ضروری ہے۔ لہذا اسلامی بینکاری کی پروڈکٹس اور خدمات کو بہتر طریقے سے فراہم کرنے کے لئے آئی ٹی سسٹم سے متعلق امور کو ترجیح دی جانی چاہئے۔
- شریعیہ کمپلائنس ماحول: ایک موثر شریعیہ گورننس فریم ورک کے لئے ایچ بی ایل، اسلامک بینکنگ کے تمام آپریشنز میں شریعیہ کی تعمیل کے لئے احتساب کا کلچر متعارف کرائے جو شرعی اصولوں کی پاسداری کو فعال بنانے اور عدم تعمیل کی صورت میں واضح نتائج کے تعین کو شامل ہو۔
- تکافل کے ذریعے خطرات کو کم کرنا: روایتی انشورنس شرعی تقاضوں کو پورا نہیں کرتی جبکہ تکافل روایتی انشورنس کا ایک اچھا متبادل ہے۔ ایچ بی ایل کے کسٹمرز کو اسلامی متبادل تکافل کے ساتھ ہم آہنگ کرنے کے لیے آگاہی فراہم کرے کیونکہ تکافل روایتی انشورنس کے شرعی متبادل کی وسیع ضروریات پوری کرتا ہے۔

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following is the key audit matter:

S. No.	Key audit matter	How the matter was addressed in our audit
1	<p>Provision against advances</p> <p>Refer notes 4.4 and 9.5 to the consolidated financial statements for accounting policy and particulars of provision against advances.</p> <p>The Group's advances to customers represent 34% of its total assets. These are stated net of provision against advances of Rs. 103.31 billion as at 31 December 2023.</p> <p>Estimation of provision against advances involves use of significant management judgements and estimation uncertainty along with compliance with the regulatory requirements. These judgments are subjective and can significantly influence the provision against advances. Therefore, we have considered provision against advances as a key audit matter.</p>	<p>Our audit procedures to access the provision against domestic advances, amongst others, included the following:</p> <ul style="list-style-type: none"> • Assessed the design and tested the operating effectiveness of controls over classification and grading of customers, including: <ul style="list-style-type: none"> - The accuracy of data input into the system used for credit grading; - The ongoing monitoring and identification of advances displaying indicators of impairment and whether they are migrating on a timely basis to early alert or to higher risk grade; - Identification of past due customers. • For a sample of advances, where the management has not identified as displaying indicators of impairment, challenged the management's assessment by comparing the historical performance, financial ratios and reports on security maintained and formed our own view whether any impairment indicators are present. • For a sample of advances, where management has identified as displaying indicators of impairment, assessed the number of days overdue including the basis used for the calculation of provision in accordance with the Prudential Regulations. • Analysed the days past due report and factors used for calculation of specific provision required in accordance with Prudential Regulations. <p>We issued instructions to the auditors of those components which were selected for audit, highlighting 'Impairment of loans and advances' as a significant risk. The auditors of those components performed audit procedures to respond to the significant risk and reported the results thereof to us. We, as auditors of the Group, also evaluated the work performed by the component auditors through their files review and discussions with them.</p>

Information Other than the Consolidated and Unconsolidated Financial Statements and Auditor's Reports Thereon

Management is responsible for the other information. The other information comprises the information included in the Bank's Annual Report for the year ended 31 December 2023, but does not include the consolidated and unconsolidated financial statements and our auditor's reports thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and the Board of Directors for Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan and the Companies Act, 2017 and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Aryn Pirani.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

The SBP, vide its BSD Circular Letter no. 10 dated August 26, 2002, has deferred the applicability of International Accounting Standard 39, Financial Instruments: Recognition and Measurement and International Accounting Standard 40, Investment Property, for banking companies till further instructions. Further, the SECP, through S.R.O 411(1)/2008 dated April 28, 2008, has deferred the applicability of IFRS 7, Financial Instruments: Disclosures, to banks. Accordingly, the requirements of these standards have not been considered in the preparation of these consolidated financial statements. However, investments have been classified and valued in accordance with the requirements prescribed by the SBP through various circulars.

The SECP has notified IFAS 3, Profit and Loss Sharing on Deposits with effect from January 1, 2014. The SBP, through BPRD Circular Letter No. 4 dated 25 February 2015, has deferred the applicability of IFAS 3 till further instructions.

IFRS 10, Consolidated Financial Statements, was notified by the SECP as applicable for accounting periods beginning from January 1, 2015. However, the SECP, through SRO 56(I)/2016 dated January 28, 2016, has directed that the requirement of consolidation under this standard and under Section 228 of the Companies Act, 2017 is not applicable in the case of investments by a bank in mutual funds managed by its own asset management company and established under the trust structure. Therefore, investments by the Bank in mutual funds managed by HBL AMC are not consolidated, as would otherwise be required under the definition of control specified in IFRS 10.

2.4 Amendments to existing accounting and reporting standards that have become effective in the current year

There are certain amendments to existing accounting and reporting standards that have become applicable to the Group for accounting periods beginning on or after January 1, 2023. These are considered either to not be relevant or to not have any material impact on these consolidated financial statements.

2.5 Standards and amendments to existing accounting and reporting standards that are not yet effective

As directed by SBP vide BPRD Circular letter no. 7 of 2023, IFRS 9, Financial Instruments is effective for periods beginning on or after January 1, 2024.

The financial statements of overseas branches, subsidiaries and associates used for the purpose of consolidation will continue to be based on the respective host country's regulatory regime. For accounting periods beginning on or after January 1, 2025, banks will be required to comply with the SBP's application instructions for overseas branches, subsidiaries and associates in preparing the Bank's consolidated financial statements.

The Bank expects that amendments to existing accounting and reporting standards will not affect its financial statements in the period of initial application.

2.5.1 IFRS 9, Financial Instruments

The management of the Bank has carried out an assessment of the impact of the application of IFRS 9, taking into account the SBP's application instructions. The assessment is based on currently available information and may be subject to change at the time of recognizing the initial impact of the adoption of IFRS 9. The actual impact on the Bank's financial statements for the year 2024 will depend on the financial instruments that the Bank holds during that period and the economic conditions at that time, as well as accounting elections and judgements that it will make in future.

Classification and measurement

The classification and measurement of financial assets depends on their contractual cash flow characteristics and the entity's business model. Financial assets that meet the Solely Payment of Principal and Interest (SPPI) criteria are measured at amortized cost, Fair Value Through Profit & Loss (FVTPL) or Fair Value through Other Comprehensive Income (FVOCI). However, financial assets that do not meet the SPPI criteria are always measured at FVTPL. The Bank has reviewed the impact of the initial adoption of IFRS 9 on its financial assets as follows:

Equity Securities

Listed equity securities currently classified as held-for-trading will be classified as FVTPL.

For certain listed equity securities currently classified as available-for-sale (AFS) with gains and losses recorded in OCI, the Bank will apply the option to classify them as FVOCI. Therefore, the application of IFRS 9 will not have an impact on equity on initial adoption. However, in accordance with the requirements of the standard, gains and losses subsequently recognized in OCI will not be recycled through the profit and loss account, even on derecognition of these securities.

The remaining listed equity securities will be measured at FVTPL. The current surplus / deficit on revaluation of those securities will be transferred to retained earnings. Hence, there will be no impact on equity.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

Unlisted equity securities are currently carried at the lower of cost or breakup value as per SBP instructions. These will be measured at fair value under IFRS 9, and the Bank is in the process of developing methodologies to assess their fair values. These will be classified in the same manner as described above for listed equity securities.

Debt securities and Loans and advances

Debt securities may be classified at FVTPL, FVOCI or at amortized cost. Debt securities that pass the SPPI test will be measured at FVOCI or at amortized cost as per the Bank's business model i.e. either to hold those assets to collect contractual cash flows and also to sell those assets or just to hold the assets to collect contractual cash flows.

Debt securities that do not pass the SPPI test will be measured at FVTPL.

Impairment

The impairment requirements of IFRS 9 apply to financial assets measured at amortized cost and FVOCI (other than equity instruments), and certain loan commitments and financial guarantee contracts. At initial recognition, an impairment allowance (or provision in the case of commitments and guarantees) is required for expected credit losses (ECL) from potential default events.

For calculating ECL, the Bank shall classify its financial assets under the following three categories:

- Stage 1 - Performing assets: For financial assets where there has not been a Significant Increase in Credit Risk (SICR) since initial recognition, the Bank shall recognize an impairment allowance based on the 12-month ECL.
- Stage 2 - Underperforming assets: For financial assets where there has been a SICR since initial recognition, but which are not credit impaired, the Bank shall recognize an impairment allowance based on lifetime ECL.
- Stage 3 - Non-performing assets: For financial assets which have evidence of credit impairment at the reporting date, the Bank shall recognize ECL using the higher of (a) the total lifetime ECL computed for all stage 3 loans under IFRS 9 and (b) the corresponding provision required as per the Prudential Regulations.

Under the SBP's instructions, the Bank is not required to compute ECL on Government Securities and on Government-guaranteed credit exposure in local currency.

Based on the SBP's IFRS 9 application instructions, the Bank has performed an ECL assessment taking into account the following key elements:

- Probability of Default (PD): The probability that a counterparty will default over the next 12 months from the reporting date (12-month ECL, Stage 1) or over the lifetime of the product (lifetime ECL, Stage 2).
- Exposure at Default (EAD): The expected balance sheet exposure at the time of default, incorporating expectations on drawdowns, amortization, prepayments and forward-looking information where relevant.
- Loss Given Default (LGD): An estimate of the loss incurred on a facility in the event of default by a customer. LGD is calculated as the difference between contractual cash flows due and those that the Bank expects to receive, including from the liquidation of any collateral. It is expressed as a percentage of the EAD.

Significant increase in credit risk (SICR)

A SICR is assessed in the context of an increase in the risk of a default occurring over the life of the financial instrument compared to the risk of default expected at the time of initial recognition. The Bank uses a number of qualitative and quantitative measures in assessing SICR including, inter alia, the deterioration of Obligor Risk Ratings (ORR), payments being past due by 60 days or more, unavailability of financial information and pending litigation.

At every reporting date, the Bank shall assess whether there has been a SICR since the initial recognition of the asset, in which case, the asset must be assigned to the appropriate stage of credit impairment (Stage 2 or 3).

Presentation and disclosure

IFRS 9 also requires expanded disclosures and changes in presentation which will be incorporated as per the SBP's revised format.

Impact of adoption of IFRS 9

The Bank has elected to follow the modified retrospective approach for restatement i.e. comparative figures will not be restated on the initial application of IFRS 9. Instead, the cumulative impact will be recorded as an adjustment to equity at the beginning of the accounting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

Financial impact

The total estimated impact (net of tax) of the adoption of IFRS 9 on the opening balance of the Group's equity as at January 1, 2024 is a decrease of approximately Rs. 19.964 billion due to ECL.

Impact on regulatory capital

The SBP has permitted banks to adopt a transitional approach to phase in the initial impact of the ECL for stage 1 and 2 financial assets over a period of five years.

Governance, ownership and responsibilities

The Bank has adopted a governance framework under which the Board Audit Committee is tasked with overseeing the implementation of IFRS 9. A Steering Committee for the implementation of IFRS 9, chaired by the CFO, is in place including representation from Risk, all front-line businesses, Operations and IT.

Risk Management has developed models / methodologies for calculating the PD, LGD, EAD and Credit Conversion Factors (CCF) for off-balance sheet exposures. These models shall be validated annually including:

- ECL model design, data quality and benchmarking with external best practices.
- Calibration testing which ensures the accuracy of the observed PDs.

Finance identifies, prepares and extracts the data required for the modelling of risk parameters and the ECL calculations. The Bank has also implemented an automated system for the calculation of ECL.

2.6 Critical accounting estimates

The preparation of consolidated financial statements in conformity with accounting and reporting standards as applicable in Pakistan requires the use of certain accounting estimates. It also requires the management to exercise judgement in the process of applying the Group's accounting policies. Estimates and judgements are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. The areas where various assumptions and estimates are significant to the Group's financial statements or where judgement was exercised in the application of accounting policies are as follows:

- Classification of investments (note 4.3)
- Valuation and impairment of investments and associates (note 4.3)
- Provision against advances (note 4.4)
- Valuation and depreciation of fixed assets (note 4.5)
- Valuation and depreciation of right-of-use assets and related lease liabilities (note 4.6)
- Valuation and amortization of intangible assets (note 4.7)
- Valuation of non-banking assets acquired in satisfaction of claims (note 4.8)
- Valuation of defined benefit plans (note 4.12)
- Taxation (note 4.15)
- Fair value of derivatives (note 4.21)

Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

During the year, the Bank has reviewed its estimate of the useful life of vehicles used in its UAE business, resulting in a change in the Bank's estimate of their useful lives. These revisions have been accounted for as a change in accounting estimate as per the requirements of IAS 8 and accordingly, have been recognised prospectively in the consolidated profit and loss account from the current year.

The impact of this change is disclosed in note 10.2.1.

3 BASIS OF MEASUREMENT

3.1 Accounting convention

These consolidated financial statements have been prepared under the historical cost convention except for:

- Certain classes of fixed assets and non-banking assets acquired in satisfaction of claims, which are stated at revalued amounts less accumulated depreciation.
- Investments classified as held-for-trading and available-for-sale, which are measured at fair value.
- Derivative financial instruments, including forward foreign exchange contracts, which are measured at fair value.
- Right-of-use assets and their related lease liabilities, which are measured at their present values.
- Net obligations in respect of defined benefit schemes, which are measured at their present values.

4.3.2 Subsequent measurement

Held-for-trading

Investments classified as held-for-trading are subsequently measured at fair value. Any unrealised surplus / deficit arising on revaluation is taken to the profit and loss account.

Held-to-maturity

Investments classified as held-to-maturity are subsequently measured at amortised cost using the effective interest rate method, less any impairment recognised to reflect irrecoverable amounts.

Available-for-sale

Listed securities classified as available-for-sale are subsequently measured at fair value. Any unrealised surplus / deficit arising on revaluation is recorded in the surplus / deficit on revaluation of securities account (shown as part of equity in the statement of financial position) and is taken to the profit and loss account either when realised upon disposal or when the investment is considered to be impaired.

Unlisted equity securities are carried at the lower of cost and break-up value. The break-up value is calculated with reference to the net assets of the investee company as per its latest available audited financial statements. The Bank may also use unaudited or management accounts to determine if any additional impairment needs to be charged beyond amounts already charged based on audited financial statements. Other unlisted securities are valued at cost less impairment, if any.

4.3.3 Investments in associates

Associates are accounted for using the equity method of accounting. Under the equity method, the investment is initially recognised at cost. The carrying amount is subsequently increased / decreased to recognize the investor's share of the investee's profit and loss and reserves subsequent to the date of acquisition. The share of the investee's profit and loss is recognised through the profit and loss account while the share of reserves is recognised through Other Comprehensive Income.

4.3.4 Impairment

The Group determines that available-for-sale listed equity investments are impaired when there has been a significant or prolonged decline in the fair value of these investments below their cost. The determination of what is significant or prolonged requires judgement. In making this judgement, the Group evaluates, among other factors, the normal volatility in share price. In addition, impairment may be appropriate when there is evidence of deterioration in the financial condition of the investee, industry and sector performance and changes in technology. A subsequent increase in the fair value of a previously impaired listed equity security is recorded in the statement of financial position in the surplus / deficit on revaluation of securities account and only recorded through the profit and loss account when realised on disposal.

A decline in the carrying value of unlisted equity securities is charged to the profit and loss account. A subsequent increase in the carrying value, up to the cost of the investment, is credited to the profit and loss account.

Provision for diminution in the value of debt securities held in Pakistan is made as per the Prudential Regulations issued by the SBP. Provision against investments by the Group's overseas operations is made as per the requirements of their respective regulatory regimes.

When a debt security, classified as available-for-sale, is considered to be impaired, the balance in the surplus / deficit on revaluation of securities account is transferred to the profit and loss account as an impairment charge. If, in a subsequent period, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised, the impairment loss is reversed through the profit and loss account.

When a debt security, classified as held-to-maturity, is considered to be impaired, the impairment is directly charged to the profit and loss account as held-to-maturity securities are carried at amortized cost. Any subsequent reversal of an impairment loss, up to the cost of the investment in the debt security, is credited to the profit and loss account.

Provision for diminution in the value of other securities is made after considering objective evidence of impairment.

The Group considers that a decline in the recoverable value of its investments in associates below their carrying value may be evidence of impairment. Recoverable value is calculated as the higher of fair value less costs to sell and value in use. An impairment loss is recognised when the recoverable value falls below the carrying value and is charged to the profit and loss account. Any subsequent reversal of an impairment loss, up to the carrying value of the investment in associates, is credited to the profit and loss account.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

4.4 Advances

Advances are stated net of specific and general provisions. Provision against advances by the Group's operations in Pakistan is made in accordance with the requirements of the Prudential Regulations. Provision against advances by the Group's overseas operations is made as per the requirements of their respective regulatory regimes. Advances are written off in line with the Bank's policy when there are no realistic prospects of recovery.

Since 2020, several borrowers have been severely impacted, initially by the COVID-19 pandemic, and since then, by the stressed economic conditions. The potential impact of the economic stress is difficult to predict, as many such borrowers have also availed the SBP enabled deferment / restructuring & rescheduling relief. Hence, management feels that it is appropriate to maintain an additional general provision on the domestic, funded performing credit portfolio excluding:

- Government guaranteed exposure
- Consumer and staff lending
- Exposure secured by cash / near cash collateral

This additional provision as at any statement of financial position date, is based on management's best estimate and can be up to a maximum of 1% of the above mentioned portfolio. HBL MfB also maintains an additional general provision, based on management's best estimate, in respect of the portion of its microfinance portfolio which has been deferred, restructured or rescheduled under the SBP scheme and on account of the devastating floods in 2022 which have impacted customers in its area of operations.

4.4.1 Finance lease receivables

Leases where the Group transfers a substantial portion of the risks and rewards incidental to the ownership of an asset to the lessee are classified as finance leases. A receivable is recognised at an amount equal to the present value of the future lease payments including any guaranteed residual value discounted at the rate implicit in the lease. The net investment in finance lease is included in advances.

4.4.2 Islamic financing and related assets

Murabaha financing is a cost plus profit transaction. Funds disbursed for the purchase of goods are recorded as an advance against Murabaha. Once the goods are sold to the customers, the transaction is recorded as financing. Goods purchased by the Bank but remaining unsold are recorded as inventories.

The financing is recorded at the deferred sale price. Profit earned on financing is recognised as unearned income and amortised into the profit and loss account over the term of the Murabaha financing. It is possible for Bank to buy the inventory on customer's behalf and sell it to the customers on spot basis. In this case, the entire profit is recognised immediately in the profit and loss account.

Under Ijarah financing, the Bank transfers the rights to use an asset to the customer for an agreed period for an agreed consideration. Assets given under Ijarah are stated at cost less accumulated depreciation, residual value and impairment losses, if any. The depreciation is calculated on a straight-line basis over the term of the Ijarah after taking into account the estimated residual value. Impairment of Ijarah assets is recognised in line with the Prudential Regulations or upon the occurrence of an impairment event which indicates that the carrying value of the Ijarah asset may exceed its recoverable amount. The Ijarah rental received / receivable is recognised as income on an accrual basis.

Gains or losses on disposal of Ijarah assets are taken to the profit and loss account in the period in which they arise.

For Running Musharakah the Bank and the customer enter a Musharakah (transaction or business partnership arrangement) where the Bank agrees to finance the operating activities of the customer's business and share the profit or loss at a pre-agreed ratio. Profit is provisionally recognised on an accrual basis and is adjusted once the customer declares the final profit after issuance of audited financial statements.

Under Diminishing Musharakah financing, the Bank and the customer create joint beneficial ownerships over tangible assets to fulfill the customer's capital expenditure / project requirements. The Bank receives periodic payments, partly for renting its portion of the assets to the customer and partly for the gradual transfer / sale of its share of ownership to the customer. The rental payment is recognised as profit while the asset transfer / sale payments are applied towards reducing the outstanding principal.

Under Istisna financing, the Bank gives an advance to customers for manufacturing goods and may allow their sale immediately after the goods are manufactured or allow a pre-agreed time to sell the goods on deferred payment basis as the Bank's agent to a third party. Profit is recognised at the time when the goods are sold to the third party. In case of a deferred sale, the profit is recognised on an accrual basis over the term of the financing.

Under Tijarah financing, the Bank purchases finished goods from the customer against payment, takes possession and appoints the customer as an agent to sell these goods to the ultimate buyer, generally on a deferred payment basis. Goods purchased by the Bank and sold by the customer on a deferred payment basis are recognised as financing while goods purchased by the Bank but remaining unsold by the customer are recorded as inventories. Profit on the financing is recognised on an accrual basis over the period of transaction.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

Wakalah is an agency contract in which the Bank provides funds to a customer to invest in a Shariah compliant manner. This is recorded as financing and profit is recognised on an accrual basis and is adjusted once the customer declares Wakalah business performance.

Salam is a sale whereby the Bank undertakes to supply some specific commodity (ies) or asset (s) to the customer at a future date in exchange for an advance price fully paid on spot.

Currency Salam is an exchange or sale of a currency with another currency at a future date, at conversion rate within the spot range on the day of such contract execution.

Under Musawamah financing, the Bank purchases the goods and, after taking possession, sells them to the customer at an agreed price without disclosing the cost. Goods purchased by the Bank can either be sold to the customer as a spot transaction or on a deferred payment basis. Goods purchased by the Bank but remaining unsold are recorded as inventories.

4.5 Fixed Assets

Fixed assets are stated at cost, except for land and buildings which are carried at revalued amounts, less any applicable accumulated depreciation and accumulated impairment losses.

Land, capital work-in-progress and works of art are not depreciated. Other items included in fixed assets are depreciated over their expected useful lives using the straight-line method. Depreciation is calculated so as to write down the assets to their residual values over their expected useful lives at the rates specified in note 10.2 to these consolidated financial statements. Depreciation on additions is charged from the month in which the assets are available for use. No depreciation is charged in the month in which the assets are disposed off. The residual values, useful lives and depreciation methods are reviewed and adjusted, if appropriate, at each statement of financial position date.

Land and buildings are revalued by independent professionally qualified valuers with sufficient regularity to ensure that their net carrying value does not differ materially from their fair value. If an asset's carrying value increases as a result of revaluation, such increase or surplus arising on revaluation is credited to the surplus on revaluation of fixed assets account. However, if the increase reverses a deficit on the same asset previously recognised in the profit and loss account, such increase is also recognised in the profit and loss account to the extent of the previous deficit and thereafter in the surplus on the revaluation of fixed assets account. Any accumulated depreciation at the date of revaluation is eliminated against any additional surplus on revaluation and the net carrying value is restated at the revalued amount of the asset. If the asset's carrying value decreases as a result of a revaluation, such decrease is recognised as a reduction in the surplus on revaluation of fixed assets account or, if no surplus exists / remains, is charged to the profit and loss account as an impairment of that asset.

Surplus on revaluation of fixed assets (net of associated deferred tax) is transferred to unappropriated profit to the extent of the incremental depreciation charged on the related assets.

Normal repairs and maintenance are charged to the profit and loss account as and when incurred. However, major repairs and renovations that increase the useful life of an asset are capitalised.

Gains or losses arising on the disposal of fixed assets are included in the profit and loss account. Surplus on revaluation (net of deferred tax) realised on disposal of fixed assets is transferred directly to unappropriated profit.

4.6 Right-of-use assets and their related lease liability

4.6.1 Right-of-use assets

On initial recognition, right-of-use assets (ROU) are measured at an amount equal to the initial lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to be incurred to restore the underlying asset or the site on which it is located to its original condition.

ROU assets are subsequently stated at cost less any accumulated depreciation / accumulated impairment losses and are adjusted for any remeasurement of lease liability. Such remeasurement only occurs in cases where the terms of the lease are changed during the lease tenor.

ROU assets are depreciated using the straight-line method over a period starting from the commencement date of the lease contract to the end of the estimated useful life of the ROU asset or the end of the lease term, whichever is earlier. The estimated useful lives of ROU assets are determined on the same basis as that for owned assets. Depreciation on additions (new leases) is charged from the month in which the leases are entered into. No depreciation is charged in the month in which the leases mature or are terminated.

4.6.2 Lease liability against ROU assets

Lease liabilities against ROU assets are initially measured at the present value of the remaining lease payments, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, then at the applicable incremental borrowing rate. The lease liability is subsequently measured at amortised cost using the effective interest rate method.

Each lease payment is allocated between a reduction of the liability and a finance cost. The finance cost is charged to the profit and loss account as markup expense over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

4.7 Intangible assets

4.7.1 Intangible assets other than goodwill

Intangible assets having a finite useful life are stated at cost less accumulated amortisation and accumulated impairment losses, if any. Such intangible assets are amortised over their estimated useful lives using the straight-line method. Amortisation is calculated so as to write down the assets to their residual values over their expected useful lives at the rates stated in note 11.1 to these consolidated financial statements. Amortisation on additions is charged from the month in which the assets are available for use. No amortisation is charged in the month in which the assets are disposed off. The residual values, useful lives and amortisation methods are reviewed and adjusted, if appropriate, at each statement of financial position date.

Intangible assets which arise from contractual or other legal rights on the acquisition of another entity and are deemed separable are considered as part of the net identifiable assets acquired. These are initially measured at fair value. Intangible assets with a finite useful life are amortized over their expected useful lives and are stated at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets having an indefinite useful life are stated at cost less impairment, if any. Such intangible assets are tested for impairment annually, or whenever there is an indication of impairment, as per the requirements of IAS 36, Impairment of Assets. An impairment charge in respect of intangible assets is recognised through the profit and loss account. Any subsequent reversal of an impairment loss, up to the extent of the impairment, is credited to the profit and loss account.

4.7.2 Goodwill

Goodwill arises in a business combination and is initially recognised at fair value as the excess of the purchase price paid over the fair value of the specifically identifiable tangible and intangible assets and liabilities acquired. Goodwill is subsequently carried at its initially recorded amount less impairment, if any. Goodwill is tested for impairment annually, or whenever there is an indication of impairment, as per the requirements of IAS 36, Impairment of Assets. An impairment charge in respect of goodwill is recognised through the profit and loss account.

4.8 Non-banking assets acquired in satisfaction of claims

Non-banking assets acquired in satisfaction of claims are initially recorded at cost and are carried at revalued amounts less accumulated depreciation and impairment, if any. These assets are revalued with sufficient regularity by professionally qualified valuers to ensure that their net carrying value does not differ materially from their fair value. An increase in the market value over the acquisition cost is recorded as a surplus on revaluation. A decline in the market value is adjusted against the surplus of that asset or, if no surplus exists, is charged to the profit and loss account as an impairment. A subsequent increase in the market value of an impaired asset is reversed through the profit and loss account up to the extent of the impairment and thereafter credited to the surplus on revaluation of that asset. All direct costs of acquiring title to the asset are charged immediately to the profit and loss account.

Depreciation on assets acquired in satisfaction of claims is charged to the profit and loss account on the same basis as depreciation charged on the Group's owned fixed assets.

If the recognition of such assets results in a reduction in non-performing loans, such reductions and the corresponding reductions in provisions held against non-performing loans are disclosed separately.

These assets are generally intended for sale. Gains and losses realised on the sale of such assets are disclosed separately from gains and losses realised on the sale of fixed assets. Surplus on revaluation (net of deferred tax) realised on disposal of these assets is transferred directly to unappropriated profit.

However, if such an asset, subsequent to initial recording, is used by the Group for its own operations, the asset, along with any related surplus, is transferred to fixed assets.

4.9 Borrowings / deposits

Borrowings / deposits are recorded at the amount of proceeds received. The cost of borrowings / deposits is recognised as an expense on an accrual basis in the period in which it is incurred.

4.10 Subordinated debt

Subordinated debt is recorded at the amount of proceeds received. Mark-up accrued on subordinated debt is charged to the profit and loss account.

4.11 Acceptances

Acceptances comprise undertakings by the Group to pay bills of exchange drawn on customers. Acceptances are recognised as a financial liability in the statement of financial position with the contractual right of reimbursement from the customer recognised as a financial asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

4.12 Employee benefits

The Bank operates a number of post-retirement benefit plans, which include both defined contribution plans and defined benefit plans.

For defined contribution plans, the Bank pays contributions to the fund on a periodic basis, and such amounts are charged to the profit and loss account when the payment obligation is established. The Bank has no further payment obligations once the contributions have been paid.

For funded defined benefit plans, the liability recognised in the statement of financial position is the present value of the defined benefit obligations less the fair value of plan assets as at the statement of financial position date. Contributions to the fund are made by the Bank on a periodic basis.

For non-funded defined benefit plans, the liability recognised in the statement of financial position is the present value of the defined benefit obligations as at the statement of financial position date.

The liability in respect of all obligations under defined benefit schemes is calculated annually by an independent actuary using the Projected Unit Credit Method.

Actuarial gains and losses

Actuarial gains and losses that arise out of experience adjustments and changes in actuarial assumptions are recognised in other comprehensive income with no subsequent recycling through the profit and loss account. However, actuarial gains and losses on remeasurement of the liability for compensated absences are recognised in the profit and loss account.

Past Service Cost

Past service cost is the change in the present value of the defined benefit obligation resulting from a plan amendment and is recognised through the profit and loss account when the plan is amended.

Current Service Cost

Current service cost is the increase in the present value of the defined benefit obligation resulting from employee service in the current period, and is recognised through the profit and loss account.

4.13 Foreign currency

4.13.1 Foreign currency transactions

Transactions in foreign currencies are translated into rupees at the foreign exchange rates prevailing on the transaction date. Monetary assets and liabilities denominated in foreign currency are translated into rupees at the rates of exchange prevailing on the date of the statement of financial position. Forward transactions in foreign currencies and foreign bills purchased are translated at forward foreign exchange rates applicable to their respective maturities.

4.13.2 Foreign operations

The assets and liabilities of foreign operations are translated to Pakistani rupees at exchange rates prevailing on the date of the statement of financial position. The income and expenses of foreign operations are translated to Pakistani Rupees at average rates of exchange prevailing during the year.

Goodwill arising on the acquisition of an entity by an overseas subsidiary is treated as an asset of the overseas subsidiary and is translated at foreign exchange rates prevailing as at the date of the statement of financial position.

4.13.3 Translation gains and losses

Gains and losses arising from foreign currency translations are taken to the profit and loss account, except those arising from the translation of the net investment in foreign branches, associates and subsidiaries, which are recognized through the statement of other comprehensive income as an Exchange Translation Reserve (ETR). Balances in the ETR are only taken to the profit and loss account on disposal of the investment.

4.13.4 Contingencies and Commitments

Commitments for outstanding forward foreign exchange contracts are disclosed in the financial statements at contracted rates. Contingent liabilities / commitments denominated in foreign currencies are expressed in rupee terms at the rates of exchange prevailing on the date of the statement of financial position.

4.14 Income recognition

Revenue is recognised to the extent that the economic benefits associated with a transaction will flow to the Group and the revenue can be reliably measured.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

4.14.1 Advances and investments

Income on performing advances and debt securities is recognised on a time proportion basis as per the terms of the contract. Where debt securities are purchased at a premium or discount, such premium / discount is amortised through the profit and loss account over the remaining maturity of the debt security using the effective yield method.

Income recoverable on classified advances and investments is recognised on a receipt basis. Income on rescheduled / restructured advances and investments is recognised as permitted by SBP regulations or by the regulatory authorities of the countries in which the Group operates.

4.14.2 Lease financing

Income from lease financing is accounted for using the financing method. Under this method, the unearned lease income (defined as the sum of total lease rentals and estimated residual value less the cost of the leased assets) is taken to income over the term of the lease so as to produce a constant periodic rate of return on the outstanding net investment in the lease. Gains and losses on termination of lease contracts are recognised through the profit and loss account when these are realised. For classified leases, unrealised lease income and other fees are recognised on a receipt basis.

4.14.3 Fee, Commission and Brokerage Income

Fee, commission and brokerage income is recognised on an accrual basis.

4.14.4 Dividend income

Dividend income is recognised when the right to receive the dividend is established.

4.15 Taxation

Income tax expense comprises of the charge for current and prior years and deferred tax. Income tax expense is recognised in the profit and loss account except to the extent that it relates to items which are recognised, net of tax, directly in equity.

4.15.1 Current

The charge for current taxation is calculated on taxable income earned during the year from local as well as foreign operations using tax rates enacted as at the date of the statement of financial position.

4.15.2 Prior years

The charge for prior years represents adjustments to the tax charge for prior years, arising from assessments, changes in estimates, and retrospectively applied changes to law, made during the current year.

4.15.3 Deferred

Deferred tax is recognised using the balance sheet liability method on all temporary differences between the amounts attributed to assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deductible temporary differences (deferred tax assets) are temporary differences that are deductible from the taxable income of future periods when the carrying amount of the underlying asset or liability is recovered or settled. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized.

Taxable temporary differences (deferred tax liabilities) are temporary differences that will result in a tax liability in future periods when the carrying amount of the asset or liability is recovered or settled.

Deferred tax is calculated at the tax rates that are expected to be applicable to the temporary differences when they reverse, based on laws that have been enacted or substantively enacted as at the date of the statement of financial position.

The Bank also records a deferred tax asset / liability on items recognised directly in the statement of comprehensive income such as surplus / deficit on revaluation of assets and actuarial gains / losses. These items are disclosed net of the related deferred tax asset / liability.

Deferred tax assets are reviewed annually for impairment. Where objective evidence exists that the carrying value of a deferred tax asset may not be recoverable, the deferred tax asset is reduced to its recoverable value. The difference between the carrying value and the recoverable value is recognised through the profit and loss account as a deferred tax expense.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

4.16 Impairment of non-financial assets

The carrying values of non-financial assets are reviewed at each statement of financial position date to determine whether there is any indication of impairment. If such indication exists, the recoverable value of the asset is estimated. An impairment loss is recognised through the profit and loss account whenever the recoverable value of an asset is lower than its carrying value.

A subsequent increase in the recoverable value of the asset results in a reversal of the impairment loss through the profit and loss account, up to the original carrying value of the asset, if the reversal can be objectively related to an event occurring after the impairment loss was recognised.

A provision is also recognised on other assets where the chances of recovery of those balances are very low.

4.17 Provisions

Provisions are recognised when the Group has present legal or constructive obligations as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made.

A provision for off balance sheet obligations is recognised when the Bank becomes aware of the obligation and reasonable certainty exists that the Group will settle the obligation. The charge to the profit and loss account is stated net of expected recoveries and the obligation is recognised in other liabilities.

Provisions are reviewed at each statement of financial position date and are adjusted to reflect the current best estimate.

4.18 Contingent Liabilities

Contingent liabilities are not recognised in the statement of financial position as they are possible obligations where it has yet to be confirmed whether a liability, which will ultimately result in an outflow of economic resources to settle the obligation, will arise. In cases where the probability of an outflow of economic resources is considered remote, based on legal / professional opinions or other relevant assessments, it is not disclosed as a contingent liability.

4.19 Off setting

Financial assets and financial liabilities are set-off and the net amount is reported in the consolidated financial statements when there is a legally enforceable right to set-off and the Group intends either to settle on a net basis, or to realise the assets and to settle the liabilities simultaneously.

4.20 Financial Assets and Liabilities

Financial assets and liabilities carried on the statement of financial position include cash and bank balances, lending to financial institutions, investments, advances, certain other receivables, bills payable, borrowings, deposits, subordinated debt, lease liabilities against ROU assets and certain payables. The particular recognition methods adopted for significant financial assets and financial liabilities are disclosed in the relevant policy notes.

4.21 Derivative Financial Instruments

Derivative financial assets and liabilities are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently measured at their fair values using appropriate valuation techniques. Derivative financial instruments are carried as an asset when the fair value is positive and as a liability when the fair value is negative. Any change in the fair value of derivative financial instruments is taken directly to the profit and loss account.

4.22 Dividends and appropriation to reserves

Dividends and appropriations to reserves, which are approved subsequent to the date of the statement of financial position are, except where required by law, recognised in the year in which these are approved and disclosed as a non-adjusting event after the balance sheet date.

4.23 Earnings per share

The Group presents basic and diluted earnings per share (EPS). Basic EPS is calculated by dividing profit after tax for the year attributable to equity holders of the Group by the weighted average number of ordinary shares outstanding during the year. Diluted earnings per share is not calculated separately, as the Bank does not have any convertible instruments in issue.

11.3 Goodwill arising on acquisition of	Note	2023 (Rupees in '000)	2022
- Habibsons Bank Limited	11.3.1	4,425,807	3,370,300
- PICIC Asset Management Company (PICIC AMC)	11.3.2	355,507	355,507
		<u>4,781,314</u>	<u>3,725,807</u>

11.3.1 The carrying value of goodwill is determined in accordance with IFRS 3 - Business Combinations and IAS 36 - Impairment of Assets. Goodwill arose on the acquisition of Habibsons Bank Limited in 2011 and represents the excess of the purchase consideration over the fair value of the assets acquired less the liabilities and contingent liabilities assumed on the date of the acquisition. Goodwill is tested annually for impairment, or more frequently when there are indications that impairment may have occurred.

Goodwill is allocated to the Wealth Management cash generating unit (CGU) which is the segment that is expected to benefit from the synergies of the acquisition. Goodwill is considered to be impaired if the carrying amount of the CGU exceeds its recoverable amount. The recoverable amount is calculated as the higher of the CGU's value-in-use (VIU) and its fair value less costs to sell.

The recoverable value of goodwill was determined based on VIU calculations. VIU is calculated as the present value of the CGU's approved pre-tax cash flows, covering a period of five years and a terminal value based on a perpetuity, calculated using long-term GDP growth rates. All cash flows are discounted using a discount rate which reflects the risks appropriate to the CGU. As at December 31, 2023, the recoverable value of the CGU exceeded its carrying amount.

The following table sets out the key assumptions which were used for the determination of the VIU of goodwill. These are consistent with industry forecasts and are management's best estimates of the future performance of the segment.

	2023	2022
Advances growth rate	(8.57%)	20.43%
Yield on advances	5.05%	3.94%
Yield on surplus funds	4.13%	2.78%
Deposits growth rate	3.21%	11.52%
Cost of deposits	1.05%	0.54%
Long term weighted average growth rate	2.08%	1.93%
Pre-tax discount rate	9.29%	8.81%

11.3.2 The carrying value of goodwill and management rights is determined in accordance with IFRS 3 - Business Combinations and IAS 36 - Impairment of Assets. Goodwill and management rights arose on the acquisition of PICIC AMC by HBL AMC in 2016. Management rights represent the present value of the income stream from the rights to manage the acquired funds. Goodwill represents the excess of the purchase consideration over the fair value of the tangible and intangible assets acquired less the liabilities and contingent liabilities assumed on the date of the acquisition. Goodwill and management rights are tested annually for impairment, or more frequently when there are indications that impairment may have occurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

The funds under management acquired from PICIC AMC have been considered as one CGU. Goodwill and/or management rights are considered to be impaired if the carrying amount of the CGU exceeds its recoverable amount. The recoverable amount for both goodwill and management rights is calculated as the higher of the CGU's VIU and its fair value less costs to sell.

The recoverable value was determined based on VIU calculations. VIU is calculated as the present value of the CGU's approved pre-tax cash flows, covering a period of ten years, and a terminal value based on a perpetuity, calculated using long-term GDP growth rates. All cash flows are discounted using a discount rate which reflects the risks appropriate to the CGU. As at December 31, 2023, the recoverable value of the CGU exceeded its carrying amount.

	2023	2022
Pre-tax discount rate	18.50%	17.20%
Assets Under Management (AUMs) growth rate	-16.0% to 377.2%	4.3% to 575.0%
Terminal growth rate	9.00%	9.00%

The Income Tax Department has amended the assessments of the Bank for prior years, up to and including for the tax year 2022. The amendments mainly relate to gain on translation of net investment in foreign branches, taxable income subject to enhanced rate, retirement benefits, and provisions against loans and advances, investments and other assets. These matters are at various stages of appeal with the appellate authorities. The management of the Bank, in consultation with its tax advisors, is confident that the decisions in respect of these appeals would be in the Bank's favor.

The income tax returns of the Bank's Azad Kashmir, Gilgit-Baltistan and overseas branches have been submitted up to and including for the accounting year 2022. The tax returns submitted in Azad Kashmir and Gilgit Baltistan are considered as deemed assessments under section 120 of the Income Tax Ordinance, 2001.

The income tax returns of domestic and overseas subsidiaries have been submitted to the respective tax authorities up to and including for the accounting year 2022.

During the year, a windfall tax was imposed on the foreign exchange income of the Bank for the years 2021 and 2022. The aggregate tax liability for both years, if calculated in the manner specified, amounts to Rs. 4,865 million against which a recovery notice has also been issued by the tax department.

The Bank has filed a Constitutional Petition before the Honourable High Court of Sindh, challenging the operation of the S.R.O 1588 (I)/2023 dated November 21, 2023 imposing the windfall tax. The Court has suspended the operation of the said S.R.O till the next hearing date. Similar orders have also been passed by the High Courts of Lahore, Islamabad and Peshawar for other banks. The management, based on legal advice, is confident that the banks' view is likely to prevail and as such, no provision is required in these financial statements.

36 DEFINED BENEFIT PLANS

36.1 General Information

The Bank operates the following schemes:

36.1.1 Pension Fund (defined benefit scheme)

The Bank operates an approved funded pension scheme which is applicable to:

- All clerical employees who opted for this scheme when it was introduced in 1974 and those who joined after this date.
- Executives and officers who joined the Bank during the period from May 01, 1977, till December 31, 2001, and those who joined the Bank prior to introduction of the scheme and opted for this scheme when it was introduced.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

For clerical employees, the benefit is based on their actual years of service as of the statement of financial position date and their current basic salary.

For executives and officers, the benefit is based on their years of service up to March 31, 2005, and their basic salary as on March 31, 2014. For service subsequent to this date (i.e., from April 01, 2005), they are entitled to the Bank's contributory provident fund (refer note 37.1) and contributory gratuity fund (refer note 37.2).

All eligible employees are entitled to a certain minimum pension as per applicable rules.

36.1.2 Benevolent Fund (defined benefit scheme)

The Bank operates an approved funded benevolent fund scheme for all employees who joined on or before December 31, 2018 and who retire from or expire during service. Under this scheme, a fixed monthly subscription is made by employees by way of a salary deduction and a matching monthly contribution is made by the Bank. All eligible employees are entitled to receive a fixed monthly amount or a one-time lump sum payment in lieu of a fixed monthly amount, as per the rules of the Fund. Clerical employees are additionally entitled to marriage and funeral grants during the period of their service as specified in the rules of the Fund.

36.1.3 Post-Retirement Medical Benefits (defined benefit scheme)

The Bank operates a non-funded scheme for post-retirement medical benefits for all employees.

Executives and officers who retire on or after January 01, 2006, receive a lump sum payment as a full and final settlement in lieu of post-retirement medical benefits. Executives and officers who retired prior to this date, and all clerical employees, receive these benefits as reimbursements when incurred.

36.1.4 Compensated Absences (defined benefit scheme)

The Bank maintains a non-funded scheme for compensated absences. This is applicable to those employees who were in the service of the Bank as of December 31, 2008, and who had accumulated leave balances up to a maximum of 365 days as at that date. Employees are entitled to proceed on Leave Prior to Retirement (LPR) up to the amount of their accrued leaves or up to 365 days, whichever is less, while continuing to receive gross salary. This benefit vests on retirement or, in the case of premature retirement, on the completion of 30 years of service. In the case of death-in-service, up to 50% of accrued leave or 180 days, whichever is less, may be encashed.

Employees may be required by the Bank to continue working during the whole or part of their LPR period. Such employees are additionally entitled to leave encashment amounting to 50% of this period up to a maximum of 180 days.

Clerical employees have the option of not proceeding on LPR and instead encashing 50% of their accumulated leave balance up to a maximum of 180 days.

36.1.5 Other Post-Retirement Benefits (defined benefit scheme)

The Bank offers an additional benefit to all executives on retirement. Under this scheme, a lump sum amount equal to six months of house rent allowance, utilities allowance, car benefit allowance and conveyance allowance is paid to the executive on retirement. In the case of death-in-service of an executive, an additional six months of house rent allowance will be payable to the family along with the above-mentioned benefits.

36.1.6 Pension and Life Assurance Scheme (defined benefit scheme)

The Bank operates a pension and life assurance scheme for those employees who joined its UK operations prior to December 26, 2001. The scheme was established with effect from May 01, 1978, under a Trust Deed of that date and is governed by that Trust Deed together with various supplemental and amending deeds executed over the lifetime of the scheme.

The triennial actuarial valuation as at May 01, 2022, revealed a deficit of £2.373 million under the Statement of Funding Principles (SFP). In order to address this deficit, the Bank is required to pay £50,500 per month starting from September 01, 2020 till July 2024.

Investment risks

The risk that the investments of the Funds will underperform and not be sufficient to meet the liabilities.

Final salary risks

40 FAIR VALUE MEASUREMENTS

The fair values of traded investments are based on quoted market prices.

The fair values of unquoted equity investments are estimated using the break-up value of the investee company.

The fair value of unquoted debt securities, fixed term advances, fixed term deposits and borrowings, other assets and other liabilities, cannot be calculated with sufficient reliability due to the absence of a current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments and therefore, are not reported as part of this disclosure.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since they are either short-term in nature or, in the case of customer advances, deposits and certain long term borrowings, are frequently repriced.

All assets and liabilities for which fair value is measured or disclosed in these consolidated financial statements are categorised within the following fair value hierarchy based on the lowest level input that is significant to the fair value measurement:

Level 1 - Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Fair value measurements using inputs, other than quoted prices included within Level 1, that are observable for the assets or liabilities either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Fair value measurements using inputs that are not based on observable market data.

Valuation techniques used in determination of fair values within Level 2 and Level 3

Federal Government securities	The fair values of Federal Government securities are determined on the basis of rates / prices taken from Reuters.
Non-Government debt securities	Non-Government debt securities denominated in Rupees are valued on the basis of rates announced by the Mutual Funds Association of Pakistan (MUFAP). Non-Government debt securities denominated in other currencies are valued on the basis of rates taken from Bloomberg / Reuters.
Foreign Government debt securities	The fair values of foreign Government debt securities are determined on the basis of rates taken from Bloomberg/ Reuters.
Units of mutual funds	The fair values of units of mutual funds are determined based on their net asset values as published at the close of each business day.
Derivatives	The Group enters into derivatives contracts with various counterparties. Derivatives that are valued using valuation techniques based on market observable inputs are mainly interest rate swaps and cross currency swaps. The most frequently applied valuation techniques include forward pricing and swap models using present value calculations.
Forward foreign exchange contracts and Forward Government securities transactions	The fair values of forward foreign exchange contracts and forward Government securities transactions are determined using forward pricing calculations.
Fixed assets and non-banking assets acquired in satisfaction of claims	Land, buildings and non-banking assets acquired in satisfaction of claims are revalued on a periodic basis using professional valuers. The valuation is based on their assessment of the market value of the assets. The effect of changes in the unobservable inputs used in the valuations cannot be determined with certainty. Accordingly, a qualitative disclosure of sensitivity, required for Level 3 assets, has not been presented in these consolidated financial statements.

40.1 Fair value of financial assets

The following table provides the fair values of those of the Group's financial assets that are recognised or disclosed at fair value in these consolidated financial statements:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

44.1 Capital management

The Group's policy is to maintain a strong capital base to maintain investor, depositor, creditor and market confidence and to sustain future development of the business, while providing adequate returns to shareholders.

The Group's lead regulator, the SBP, sets and monitors capital requirements for the Bank and the Group as a whole. The Bank's branches and subsidiaries outside Pakistan are required to follow capital requirements applicable in their respective jurisdictions.

The SBP, through BSD Circular No. 07 dated April 15, 2009, has required that Banks should maintain a minimum paid-up capital of Rs. 10 billion (net of accumulated losses). The paid-up capital of the Bank as at December 31, 2023 stood at Rs. 14.669 billion (2022: Rs. 14.669 billion) and is in compliance with SBP requirements.

The Group and its individually regulated operations are in compliance with all applicable capital requirements.

The Group's regulatory capital is classified as follows:

- Tier 1 capital comprises of CET 1 and AT 1 capital.
- CET1 capital includes fully paid-up capital, balance in share premium account, reserves (excluding exchange translation reserves), unappropriated profit and non-controlling interest meeting the eligibility criteria.
- AT 1 capital includes perpetual TFCs meeting the prescribed SBP criteria.
- Tier 2 capital includes general provisions for loan losses, surplus / (deficit) on revaluation of fixed assets and investments and exchange translation reserves.

Banking operations are categorised as either Trading Book or Banking Book.

- On and off-balance sheet exposures in the banking book are segregated into various asset classes for the calculation of credit risk weighted assets. Ratings reflecting the credit worthiness of counterparties are applied using various External Credit Assessment Institutions (ECAIs) and are mapped to appropriate risk buckets. Collateral, if any, is used as an outflow adjustment. Eligible collateral includes Government of Pakistan (GoP) guarantees, GoP securities, bank guarantees, lien on deposits and margin accounts. Risk weights notified by the SBP are applied to net exposures to arrive at risk weighted assets.
- The Group calculates capital requirements for market risk in its trading book based on the methodology provided by the SBP, which takes into account interest rate risk using the maturity method, equity position risk and foreign exchange risk.

44.2 The full disclosures on the Capital Adequacy Ratio, Leverage Ratio & Liquidity Requirements calculated as per SBP instructions issued from time to time have been placed on the Bank's website. The link to the full disclosure is available at <https://www.hbl.com/capitalandliquidity>.

45 RISK MANAGEMENT FRAMEWORK

HBL has a well-developed and robust risk management framework, appropriate for its size, regional and target market diversification and complexity of operations. The Bank's risk management framework includes a clearly documented risk appetite, well-articulated policies and procedures and multi-tier management supervision, supported by strong Board oversight.

The Board of Directors provides the strategic direction for effective risk management and ensures that the risk management framework covers all aspects of the Bank's operations, including human resources, policies, procedures, and systems, and is updated regularly to safeguard the Bank against emerging risks. It is supported in this task by the Board Risk Management Committee (BRMC) as well as by various management committees.

For effective implementation of the risk management framework, the Risk Management function, headed by the Chief Risk Officer (CRO), operates independently of the business units within the Bank. Risk Management is responsible for the development and implementation of risk policies and for monitoring the risks associated with various activities of the Bank. The CRO reports to the President, with a functional reporting line to the BRMC.

The Risk Management function comprises of the following areas:

- Credit Approvals
- Credit Administration
- Market Risk & Financial Risk Modeling
- Operational Risk
- Enterprise Risk Management
- Risk Corporate Governance

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

45.1 Credit risk management

Credit risk is defined as the risk of financial loss stemming from a borrower's failure to repay a loan or otherwise meet a contractual obligation. While loans are the largest and most obvious source, credit risk also stems from both on and off-balance sheet activities. The Bank's credit risk appetite is defined through a Global Risk Appetite Statement that is approved by the Board. It also covers the concentration risks the Bank is willing to take with reference to risk ratings, sectors and large exposures. The credit process at the Bank is governed by well-defined and documented credit policies and procedures including dedicated policies for consumer loans, agriculture banking and SME financing. Certain types of exposures/ facilities are managed under product programs that contain their own detailed credit criteria, compliance and documentation requirements.

The core pillars of credit risk management at the Bank are:

- Approval rules based on a three-initial system and joint Business / Risk sign-offs.
- An independent Internal Audit function which includes a Business Risk Review (BRR) unit.

Credit approval authorities are delegated to individuals based on their qualifications and experience. Disbursement authorization, collateral and security management, documentation and monitoring are managed by the Credit Administration Department. Proactive monitoring is ensured for assets under stress. This enables the Bank to put in place viable solutions to prevent further deterioration in credit quality. An independent Structured Credits and Remedial Assets function handles stressed assets and ensures a focused remedial strategy.

Credit risk management software to automate loan origination has been implemented domestically for Corporate, Commercial and Retail (non-program based) lending and is being rolled out to overseas locations. The software is designed to improve approval efficiency; enable capture, storage and retrieval of approval data; and generate MIS for decision making.

Stress testing on the credit portfolio is performed in line with SBP guidelines. In addition to the mandatory stress tests defined by the regulator, the Bank has also developed advanced stress tests for credit risk including macroeconomic stress tests and reverse stress tests to test the adequacy of the Bank's capital under various stress conditions. The Bank also regularly conducts rapid portfolio reviews in line with emerging risks.

The Bank has undertaken several initiatives to strengthen its credit risk management framework including the establishment of a Financial Risk Modelling & Stress Testing unit which carries out back testing, validation of credit risk scorecards, internal risk ratings (obligor risk rating and facility risk rating) and probability of default models for the portfolio. The performance of the risk rating models over the years is continuously monitored.

BRR performs an independent review of the credit portfolio. It provides an assessment of portfolio quality by reviewing the efficacy of the relevant processes, ensuring regulatory / policy compliance, and assessing the appropriateness of risk ratings, classification and provisioning.

45.1.1 Credit risk - general disclosures

The Bank follows the Standardized Approach for its credit risk exposures, which sets out fixed risk weights corresponding to external credit ratings or type of exposure, whichever is applicable.

Under the Standardized Approach, the capital requirement is based on the credit rating assigned to counterparties by External Credit Assessment Institutions (ECAIs) duly recognized by the SBP. The Bank selects different ECAIs for each type of exposure. The Bank utilizes credit ratings assigned by Pakistan Credit Rating Agency (PACRA), Vital Information Services (VIS), Fitch, Moody's and Standard & Poor's (S&P). The Bank also utilizes rating scores of Export Credit Agencies (ECAs).

45.1.2 Credit Risk Mitigation under the Standardized Approach

The Bank has adopted the Simple Approach for Credit Risk Mitigation in the Banking Book. Under this approach, cash, deposits under lien, Government securities and eligible guarantees etc. are considered as eligible collateral. The Bank has detailed guidelines regarding the valuation and management of each of these types of collateral. Where the Bank's exposure on an obligor is wholly or partially guaranteed by an eligible guarantee, the risk weight / credit rating of the guarantor is substituted for the risk weight of the obligor.

No credit risk mitigation benefit is taken in the Trading Book.

For each asset class, the risk weights as specified by the SBP or corresponding to the SBP rating grades are applied to the net exposure for the calculation of Risk Weighted Assets.

45.1.3 Country Risk

The Bank has in place a comprehensive Country Risk Policy applicable to domestic and international branches. Country risk is generated through trade, guarantees, lending and investing transactions in foreign currency and / or accepting a sovereign guarantee as collateral for a loan in foreign currency. Country risk limits are approved after detailed due diligence and risk assessment of the country by considering political risk, economic and environmental factors, and contagion risk. Ratings assigned by international rating agencies, where available, are also considered while extending country limits.

All transactions that generate cross-border risk are carried-out with countries that have approved limits. These limits are approved at Head Office and allocation to international branches is extended from the approved limits. Country risk exposures are reported to the BRMC on a quarterly basis.

45.2 Market Risk Management

Market risk is the risk that the fair value of a financial instrument will fluctuate due to movements in market prices. It results from changes in interest rates, exchange rates and equity prices as well as from changes in the correlations between them. Each of these components of market risk consists of a general market risk and a specific market risk that is driven by the nature and composition of the portfolio.

The Bank is exposed to market risk in several ways. The largest component is Interest Rate Risk on the Banking Book, which refers to the interest rate risk that the Bank is exposed to due to mismatches in the repricing of its on-balance sheet assets and liabilities. The Bank also has a Trading Book in which the assets are marked-to-market through the profit and loss account.

The objective of the Bank's market risk management strategy is to assess an acceptable level of risk for each market variable (as stated in the Bank's Risk Appetite Statement), and to manage the risk arising from fluctuations in these variables to optimize the Bank's income streams.

Treasury and Global Markets is tasked with proactively managing exposures. The Bank's ALCO provides governance with respect to market risk exposures and limits, while monitoring and measurement is carried out by Market Risk Management (MRM). MRM provides a dynamic and proactive approach to market risk monitoring, including the use of tools such as portfolio sensitivity, scenario analysis, stress testing and the use of Management Action Triggers (MAT) and limits.

45.2.2 Foreign Exchange Risk

Foreign exchange risk is the risk that the fair value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Bank manages this risk by setting and monitoring currency-wise exposure limits. The Bank's assets in a particular currency are typically funded in the same currency to minimize foreign currency exposure. However, the Bank maintains a net open position in various currencies resulting from its transactions. Foreign exchange risk is controlled and monitored through limits approved by ALCO, within the overall limit advised by the SBP.

45.2.3 Equity Position Risk

Equity position risk is the risk that the fair value of a financial instrument will fluctuate as a result of changes in the prices of individual stocks or the levels of equity indices.

The Bank has exposure to a range of equity instruments, and is thus exposed to losses arising from movements in equity prices. The Bank holds equity investments in both the AFS and HFT portfolios. The realization of short-term capital gains is the principal objective of the HFT portfolio while the AFS portfolio takes a medium-term market view with the objective of earning both capital gains and dividend income. The portfolios are managed by the Bank within the structure encapsulated in the Equity Investment Policy approved by the Board, which defines position limits, portfolio limits and loss triggers for the equity desk. The Bank also applies stress tests on the equity portfolio which is part of the Bank's overall market risk exposure limit on the trading book.

45.2.4 Interest Rate Risk

Interest rate risk arises due to changes in interest rates, including changes in the shape of the yield curve. The Bank is exposed to interest rate risk in both the Trading and Banking Books. Interest rate sensitivity analysis is conducted at both Banking Book and Trading Book levels, at least on a monthly basis or more frequently, if required. The analysis helps in estimating and managing the impact of interest rate volatility on the Bank's earnings and on the economic value of equity within defined tolerance limits. Limits are also in place for fixed income investments of the treasury portfolio at dealer, transaction, portfolio and Trading / Banking Book levels. Regulatory stress testing is conducted on a quarterly basis. Metrics to assess Interest Rate Risk include Interest Rate Gap Reports, Earnings at Risk (EAR) and Economic Value of Equity (EVE). These metrics are also calculated based on different stress testing scenarios.

To further strengthen interest rate risk management, the Bank has developed a standardized framework for computing the Interest Rate Risk in the Banking Book (IRRBB) under the updated guidelines issued by the Basel Committee on Banking Supervision Standards.

45.3 Enterprise Risk Management (ERM)

The Bank's ERM framework, approved by the Board, outlines the essential ERM components, principles and concepts, and the use of a common ERM language, while providing a clear direction and guidance for integrated risk management within the Bank. Day-to-day responsibility for risk management is distributed through the delegation of accountability to individuals, with reporting and escalation facilitated through a governance structure. Standards, policies, and limits are well defined to ensure tasks and processes are consistently controlled.

A Bank-wide Integrated Risk and Control Repository (IRCR) is fully embedded in the organization with the objective of identifying and assessing all risks and issues in a holistic manner and ensuring that they are adequately monitored and mitigated.

45.4 Operational Risk Management (ORM)

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events.

A comprehensive ORM framework is in place which addresses all significant aspects of ORM. The Bank uses loss data management, Risk and Control Self Assessments (as part of IRCR self-testing) and tracking of Key Risk Indicators to gauge the likelihood and severity of operational risk. Operational Risk coordinators are present in all departments and are responsible for implementation of the framework in coordination with the ORM department. A specialized SAS software is used for tracking operational risk issues, leading to identification of prevalent themes to better mitigate operational risks issues faced by the Bank. An Operational Risk Management Committee (ORMC) monitors and oversees operational risk issues.

The Bank uses stress testing to proactively assess impacts to the Bank. Operational risk reports are regularly submitted to the senior risk forums and to the BRMC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

45.6 Derivatives Risk

The policy guidelines for derivatives exposures are approved by the Board.

The responsibility for derivatives activity lies with the Treasury and Global Markets business. Measurement and monitoring of market and credit risk limits and exposure, and their reporting to senior management and the Board is done by the Market Risk Management (MRM) unit within Risk Management. MRM, in coordination with the business, also presents limits for review and approval to ALCO and the BRMC. Treasury Operations records derivatives activity in the Bank's books, executes settlements of trades and carries out regulatory reporting to the SBP.

45.6.1 Credit Risk

Credit risk is the risk of non-performance by a counterparty which could result in an adverse impact on the Bank's profitability. The credit risk associated with derivative transactions is categorized into settlement risk and pre-settlement risk. Pre-settlement and settlement risk limits for derivative transactions are determined and monitored daily using an approved framework.

45.6.2 Market Risk

The Bank, as a policy, hedges all Options transactions back-to-back. The Bank minimizes the exchange rate risk on its Cross Currency Swaps portfolio by hedging the exposure in the interbank market on a rolling basis. The Bank also manages the interest rate risk of Interest Rate Derivatives and Cross Currency Swaps through Price Value of a Basis Point (PVBP) limits which are monitored and reported by MRM to senior management on a daily basis. These limits are approved by ALCO annually and then approved by the Board on the recommendation of the BRMC.

45.6.3 Operational Risk

The Bank has put in place a robust control framework for derivatives transactions. Front office staff dealing in derivatives have the requisite training and experience to conduct this business; responsibilities have been divided amongst the Structuring Desk (tasked with the overall ownership of derivatives and structured products), Treasury Sales (who are involved in marketing and executing transactions with the Bank's client base) and Trading (which proactively manages the risk from a business perspective).

A detailed product program, approved by the Board, governs the entire value chain for derivatives, including credit and market risk management, booking, sales and settlement. There is a clear segregation of duties whereby operational aspects are handled by Treasury Operations, whereas all risk issues are the responsibility of the Risk department. MRM carries out daily monitoring of exposures, while Compliance monitors any deviation from approved policies and procedures. Internal Audit also regularly reviews systems, transactional processes, accounting practices and end-user roles and responsibilities as part of their reviews of this function.

45.6.4 Liquidity Risk

The types of derivative transactions entered into by HBL are typically straightforward, or 'vanilla' transactions, whereby the Bank is exposed to a negligible amount of liquidity risk.

46 NON-ADJUSTING EVENTS AFTER THE BALANCE SHEET DATE

46.1 The Board of Directors, in its meeting held on February 23, 2024, has proposed a final cash dividend of Rs 4.00 per share for the year 2023. This is in addition to the Rs 5.75 already paid during the year bringing the total dividend for the year to Rs 9.75 per share (2022: Rs 6.75 per share). This appropriation is expected to be approved by the shareholders in the forthcoming Annual General Meeting. The consolidated financial statements for the year ended December 31, 2023 do not include the effect of this appropriation which will be accounted for in the consolidated financial statements for the year ending December 31, 2024.

12 The Islamic Banking Business maintains the following pools:

General Pool PKR (Mudarabah)

Remunerative rupee deposits of customers form part of the General Pool.

The objective of this pool is to effectively manage Rupee deposits of customers to earn and distribute returns from Rupee denominated earning assets. The funds in this pool are generally deployed in financing assets, placements with FIs, investments in Sukuks etc. A loss, if any, is borne by the depositors as per their proportionate share in the overall volume of the pool.

Special Pool PKR (Mudarabah)

HBL also manages a Rupee denominated Special Pool, with the objective of offering higher returns for selected clients.

The objective of this pool is to effectively manage Rupee deposits of customers to earn and distribute higher returns from Rupee denominated earning assets. The funds in this pool are generally deployed in financing assets, placement with FIs, investments in Sukuks etc. A loss, if any, is borne by the depositors as per their proportionate share in the overall volume of the pool.

Treasury Pool(s) (Mudarabah / Wakalah / Musharakah)

Treasury pools are created when the Bank accepts placements of funds from FIs for liquidity management. Treasury pools may be based on the principle of Mudarabah, Wakalah or Musharakah. These pools are maintained separately from depositors' pools as these are formed by funds from professional counterparties and are generally obtained for a shorter tenor. The liquidity can also be deployed to fund earning assets in the depositor pools. HBL's preference is to accept funds from Islamic Banking Institutions but is permitted to deal with conventional banks as well. A loss, if any, is borne by the FIs as per their proportionate share of investment.

General Pool FCY (Mudarabah)

Remunerative foreign currency (FCY) deposits of customers form part of the FCY General Pool.

The objective of this pool is to effectively manage FCY deposits of customers to earn and distribute returns, generally from FCY denominated assets. However, in case FCY denominated assets are not available, the Bank may invest these funds in local currency assets by converting the funds to local currency and charging the cost of Shariah compliant hedging to the pool. The funds in this pool are generally deployed in financing assets, placements with FIs, investments in Sukuks etc. A loss, if any, is borne by the depositors as per their proportionate share in the overall volume of the pool.

ANNEXURE I: ISLAMIC BANKING BUSINESS

Special Pool FCY (Mudarabah)

HBL also manages an FCY denominated Special Pool, with the objective of offering higher returns for selected clients.

The objective of this pool is to effectively manage FCY deposits of customers to earn and distribute higher returns, generally from FCY denominated assets. However, in case FCY denominated assets are not available, the Bank may invest these funds in local currency assets by converting the funds to local currency and charging the cost of Shariah compliant hedging to the pool. The funds in this pool are generally deployed in financing assets, placements with FIs, investments in Sukuks etc. A loss, if any, is borne by the depositors as per their proportionate share in the overall volume of the pool.

Islamic Export Refinance Scheme (IERS) Pool PKR (Musharakah)

IERS is an SBP program which offers the Islamic equivalent of conventional export refinance and enables exporters to avail refinance through Islamic Banks under Shariah compliant modes. This pool is created on a Musharakah basis and the profit distribution mechanism is the same as that for pre-agreed profit sharing. Since this is structured as a Musharakah (partnership) as opposed to Mudarabah (fund management), there is no Mudarib share in the profit.

- 13 The Mudarib's share of profit is 33.44% (2022: 28.63%) and, after netting of Hiba to depositors amounting to Rs 154.214 million (2022: Rs 4.99 million), amounts to Rs. 14.670 million (2022: Rs 7.347 million). For the Bank's overseas branch, the Mudarib's share of profit is 14.58% (2022: 12.71%) and, after netting of Hiba to depositors amounting to Rs 28.641 million (2022: Rs 6.488 million), amounts to Rs 18.477 million (2022: Rs 4.280 million).
- 14 The following parameters are used for profit distribution from the pool:
- Permissible direct expenses can be charged to the relevant pool. Administrative and operating expenses are paid by the Mudarib and not charged to the relevant pool.
 - No profit or loss is passed on to current account depositors, however these funds are treated as equity for the purpose of profit calculation and any profit earned / loss incurred on these funds are allocated to the equity of the Bank.
 - The Bank first charges the proportionate profit on average equity allocated to the pools and then charges the Mudarib fee before distribution of profit to depositors.
 - The Bank gives priority to depositors' funds over its own equity for placement in investing activities.
 - Provisions for non-performing accounts are borne by the Mudarib. These are only charged to the respective pool on write off.
 - Income generated from non-funded activities is not considered as income of the pool.
- 15 The average rate of profit earned on the earning assets of the Islamic banking business during the year was 17.91% (2022: 12.80%) and a profit rate of 11.02% (2022: 7.65%) was distributed to depositors. For the overseas branch, the average rate of profit earned on the earning assets of the Islamic banking business during the year was 14.58% (2022: 12.71%) and a profit rate of 8.60% (2022: 7.24%) was distributed to depositors.

Unconsolidated Financial Statements

Directors' Report 2023

On behalf of the Board of Directors, we are pleased to present the Unconsolidated Financial Statements for the year ended December 31, 2023.

Macroeconomic Review

FY'23 was a year of severe macroeconomic stress – a rapidly declining Rupee, import prioritisation and record interest rates threatening job losses and defaults, and political polarization; all reflected in a weak GDP growth of 0.3%. FY'24 started on a more positive note with the announcement of the IMF's Standby Arrangement (SBA) which provided a lifeline for the country. The first half of FY'24 has seen more stability and some nascent signs of growth, led by a rebound in agriculture. While the Large-Scale Manufacturing Index declined marginally YoY for H1FY'24, numbers are trending upwards; momentum in the industrial sector is expected to pick up in H2FY'24 and a 2–3% GDP growth forecast for FY'24 remains on track. Headline inflation peaked at 38% in May'23, averaging 29.2% for FY'23 compared to 12.2% in FY'22. While inflation has tapered, falling to 28.3% in Jan'24, frequent and sizeable adjustments in energy prices have slowed the pace of decline. Average inflation for 7MFY'24 was 28.7% compared to 25.4% in the same period last year; the SBP's forecast for FY'24 remains at 23 – 25%.

Suppressed demand, coupled with import management for most of the year, led to a 15% YoY decline in imports for H1FY'24, helped by lower commodity prices. Despite the global downturn, exports increased by 7.5%. Consequently, the trade deficit for H1FY'24 narrowed by 35% to USD 9.9 billion, with a current account surplus in Dec'23. The wide gap between the kerb and interbank markets at the start of FY'24 has been closed by tightened rules for exchange companies, as well as a crackdown on illegal FX activity and tightened monitoring of Afghan Transit Trade. Consequently, remittance flows through official channels improved, clawing back some of the decline seen in Q1FY'24. Remittances for H1FY'24 reached USD 13.4 billion, a drop of 7% over H1FY'23. The current account deficit for the first half of FY'24 fell by 77% to USD 0.8 billion compared to USD 3.6 billion during the same period last year.

Foreign exchange reserves had reached precarious levels at the end of FY'23. However, the signing of the SBA and the release of the first tranche, triggered the release of support from friendly countries, providing an immediate boost to reserves. Further gradual inflows from multi-lateral donors along with the declining current account deficit, have bolstered SBP's FX reserves; the release of the second SBA tranche in Jan'24 has kept reserves above USD 8 billion. As a result, the Rupee recovered from its low of 307/\$ in Sep'23 to Rs 282/\$ by the end of the year, a 24% depreciation for 2023.

The primary fiscal balance remained in surplus for H1FY'24, more than doubling over H1FY'23, to Rs 1.8 trillion; as a percentage of GDP, it improved to 1.7%, well ahead of IMF targets. Tax revenue rose by 30%, with FBR collection reaching Rs 4.5 trillion as the Government continued to increase taxes on existing payers rather than widening the tax base. The high interest rate environment led to 64% higher debt servicing costs, leading to a 45% growth in total expenditure. The total fiscal deficit thus increased to 2.3% of GDP from 2.0% in the same period last year.

A stable currency and expectations of a more dovish monetary policy propelled a strong rally in the equity market with the KSE-100 index rising by 35% in Q4'23 alone, closing at 62,451 in Dec'23, up 55% for the year. Foreign portfolio investment of USD 71.0 million in H2'23, the highest in 5 years, lent further support to the bull run.

Despite market expectations of monetary easing since the start of the last quarter, the central bank has kept the policy rate unchanged at 22% in the latter half of the year. The SBP cited that, while inflation has eased, the pace of decline is slower than previously anticipated due to substantial hikes in energy tariffs. The easing of demand pressure was reflected in private sector credit which fell by 1.4% in 2023 compared to a growth of 14% in 2022; although, in line with improving conditions, credit increased by 5% in the second half of 2023. Growth in industry advances and deposits was somewhat skewed due to the unusual levels in Dec'22 resulting from the ADR tax imposition; advances grew by a modest 3.6% over the prior year, while deposits increased by 24%. Banking spreads in 2023 have widened by 214 bps compared to 2022, as rising lending yields outpaced increases in deposit cost.

Financial Performance

In 2023, HBL has delivered its highest-ever profit before tax of Rs 111.7 billion, 56% higher than the Rs 71.6 billion recorded last year; a consistent growth trajectory led by excellent performance from the domestic franchise and a solid turnaround from the international business. The Bank's profit after tax increased to Rs 56.9 billion, a 84% growth over 2022. Earnings per share improved to Rs 38.76 in 2023 from Rs 21.04 in 2022.

HBL's balance sheet increased by 19% to Rs 5.2 trillion. Total deposits grew by 20% over Dec'22 to Rs 3.9 trillion resulting from strong deposit mobilization in both the domestic and international businesses; domestic deposits rose to Rs 3.5 trillion, a growth of 18% over last year. Average domestic deposits increased by Rs 346 billion, primarily driven from low-cost CASA, enabling HBL to manage its cost of deposits. Despite a slight decline in private sector credit, HBL's domestic advances remained steady at Rs 1.4 trillion, while total advances rose 3% to Rs 1.7 trillion. The Bank's flagship consumer

portfolio increased to Rs 128 billion. Agriculture financing continues to be a key priority of the Bank; the lending book increased to Rs 57 billion.

With continued rapid monetary tightening in 2023, net interest margins improved by 158 bps over 2022. The average domestic balance sheet grew by Rs 486 billion which, coupled with the higher spreads resulted in a 45% rise in domestic net interest income. With expanding spreads across most locations, the international business also returned a 44% growth; HBL's total net interest income increased by 47% to Rs 223 billion in 2023. Non-fund income grew by 41% to Rs 53.9 billion with HBL's dominant fee franchise delivering excellent results, yet again rising by 35% to Rs 37.3 billion. Its flagship Cards business continued to lead the market, contributing nearly 50% of the total fee increase while trade, cash management and retail banking all delivered solid double-digit contributions. Consequently, HBL's total revenue increased by 46% to Rs 277 billion.

In the midst of record inflation and steep devaluation, administrative expenses of the bank increased to Rs 152.3 billion. However, with a strong revenue base, the domestic cost / income ratio improved to 47.3% compared to 51.1% last year. The Bank's non-performing loans have increased and, with a flat loan book, there was a slight uptick in the infection ratio to 5.4%. As a result of prudent provisioning, the total coverage remains above 100%.

Capital Ratios

With the strong results, internally generated capital grew by 21% in 2023, adding 294 bps to the Tier 1 Capital Adequacy Ratio (CAR). However, the large Rupee devaluation of Rs 55.4/\$ diluted the profitability impact by 97 bps. As a result, HBL's unconsolidated Tier 1 CAR increased by 66 bps over the year, to 13.44%. The increased headroom over minimum capital requirements, also added to Tier II capital eligibility, increasing total CAR by 228 bps to 17.28%. Both ratios remain comfortably above current regulatory requirements.

Business Developments

HBL continues to spearhead the purpose-driven transformation of the banking industry in Pakistan and enhance customer engagement, remaining at the forefront of providing thought leadership across various spheres of development. In 2023, the bank achieved a deposit market share of 12.44%, with a domestic deposit book of Rs 3.5 trillion. This was aided through the addition of nearly 800,000 new customers through its branch network. HBL aims to become a major player in the rapidly growing Islamic Banking space. After an extensive project to convert part of the conventional branch network, the Islamic branch footprint has reached 408 with 100 branches converted in 2023 alone. Deposits in this segment grew by 32%, to Rs 422 billion.

HBL embarked on a journey to offer a renewed approach to client segmentation, acknowledging the importance of tailoring products and services to meet customer needs. This purpose-driven strategy was meticulously crafted to fortify the franchise, positioning HBL to remain deeply connected with its customers and sustain its leadership role in the years ahead.

The Prestige proposition is designed to change the landscape of priority banking across Pakistan. At Prestige, understanding client needs and aspirations underpins delivering exceptional financial services, offering clients a bespoke product suite in line with their sophisticated needs. Prestige serves the banking needs of the high net worth (HNW) client segment through 39 dedicated lounges across 18 cities in Pakistan along with its first international lounge, in Dubai. The scope of Prestige is augmented through a non-lounge strategy; in the absence of a dedicated lounge footprint, 650 branches have been enabled to on-board Prestige customers, offering them broader access to the value proposition.

HBL continues to solidify its position as a market leader in innovative products, serving 5 million women customers, including over 1 million under its women's market program, HBL Nisa. This one-of-a-kind, comprehensive platform goes beyond banking for women and offers them financial freedom and increased opportunities through its tailored value proposition, women-centric insurance coverage, and consumer lending options. During 2023, HBL Nisa acquired over 145,000 new accounts with Rs 40 billion of incremental deposits; total deposits under the Nisa program are Rs 126 billion including Rs 51 billion under Nisa Tawfir, the Islamic offering. To cater to the growing savings needs of women, a mutual funds proposition, exclusively for women, was launched in collaboration with HBL Asset Management Limited. Recognizing the Bank's efforts of promoting financial inclusion, HBL received the 2023 Access to Finance Champion award at the annual summit of the Financial Alliance For Women. This accolade acknowledged the Bank's continuous efforts to improve women's representation in its customer base through the Nisa product suite.

The Bancassurance business built on the leadership position achieved in 2022, growing market share from 28% to 32%. The bank partnered with IGI to launch Prime Vitality, targeted to cater to the health and lifestyle needs of HNW individuals. Total premiums written increased by 5% to Rs 4.3 billion, bucking the overall decline in the industry. HBL fosters financial literacy and empowers its clientele to make informed investment decisions. Sales of HBL AMC's mutual funds delivered excellent results with sales of ~Rs 30 billion in Assets Under Management (AUMs) in 2023.

HBL's Consumer Banking business had another stellar year with total lending growing to Rs 128 billion. The credit cards business increased its leadership with a growth of nearly 40% in card usage, with spend rising to over Rs 250 billion; the portfolio increased by 36%, to Rs 32 billion. Over 85,000 new credit cards were issued in 2023 and significant limit increases were given to existing qualifying customers to assist them in light of inflationary pressures. HBL's credit cards remain top-of-wallet, with one out of every three Rupees spent on credit cards in Pakistan being on HBL. The Bank further solidified its position as the largest debit card issuer in Pakistan with a total of 7.1 million debit cards issued – one in every five debit cards in the country is an HBL debit card – with spend volumes in 2023 increasing by 48%, to Rs 181 billion. HBL's consistent industry leadership in this area earned it the Best Consumer Bank award at the Pakistan Banking Awards 2023.

HBL entrenched its leadership position in merchant acquiring with a POS network of 46,000, the largest in the industry. HBL continues to invest in the latest technology with its SmartPOS terminals being the top choice of merchants, providing them access to real-time transactional information. Throughput at HBL's terminals grew by 32% to Rs 348 billion, accounting for more than 30% of the country's total POS sales volume. HBL has extended its network to smaller cities and its terminals are present in more than 250 cities. This remains key to taking digital payments mainstream, and increasing acceptance across all areas of the country, contributing to the national priority of digitization and documentation of the economy. With focused efforts over the past few years, 16% of HBL's POS spend now comes from these smaller towns and cities.

HBL strengthened its market leading position in personal loans with a portfolio of Rs 41.5 billion and an impressive 35% market share; this product continues to be the largest component of consumer finance with fresh disbursements of Rs 26 billion made during the year. In auto financing, despite an overall decline in the industry due to supply constraints, HBL solidified its leadership position, increasing market share from 12.5% to 15% with a portfolio of Rs 36 billion. This was made possible through fresh bookings of over Rs 10 billion as HBL remains the bank of choice for customers due to its superior value creation through alliances with leading auto manufacturers. Home Finance demonstrated steady progress in 2023, with the outstanding increasing to Rs 14 billion and is expected to be a key driver for future growth. HBL remains focused on digitization to improve customer convenience with faster processing. In 2023, almost 50% of credit cards and 20% of Personal Loans were booked through HBL Mobile, a paperless process with instant decisioning.

SME businesses are the key drivers of the economy, and this sector requires enhanced access to formal finance in a more convenient and seamless manner. HBL has taken a number of initiatives to help transform the SME landscape, fostering growth and creating opportunities for small businesses. HBL is the first bank in the industry to cross Rs 100 billion in SME lending, with a market share of 19%. During the year, HBL on-boarded 4,400 new customers, driving a 29% increase in the customer base and a 18% growth in advances. The Bank endeavors to remain at the forefront of SBP-related schemes for the SME sector; total lending under these schemes reached Rs 16 billion in 2023. HBL's unique cashflow based lending has been well received by customers, crossing Rs 5 billion since its launch in 2022.

Driven by our aspirations for financial inclusion, awareness sessions were conducted across the country, covering banking products as well as subsidized schemes. HBL specifically focused on capacity building among women entrepreneurs, disbursing more than Rs 1.5 billion to 600 women during 2023. HBL successfully launched the high-profile She's Next program in collaboration with Visa. This awards 5 women entrepreneurs a grant of USD 10,000 and a year-long mentorship and guidance journey to help them grow their businesses. The inaugural selection was held in 2024.

For several years, HBL has dominated the Agriculture Financing segment with lending well ahead of competitors, evidenced by a market share of 35%. In 2023 the portfolio grew by 13% to Rs 57 billion; more than 8,500 new customers were added while fresh disbursements increased by 15%, to Rs 19 billion. HBL was awarded the Best Bank for Agriculture at the Pakistan Banking Awards for the second consecutive year and 2023 is the 5th time it has won this award.

HBL has pioneered the use of technology in the Agriculture lending space and engaged with multiple agri-tech operators to digitize farm coordinates, farmers' profiling and sales force tracking. For several years, HBL has remained the largest user of the Punjab Land Record Authority's portal in retrieving online records, thus delivering best-in-class turnaround times for agriculture loan processing. HBL has been at the forefront of Electronic Warehouse Receipt (EWR) financing and has a market share of more than 70%. SBP has nominated HBL as the role model for upscaling the EWR regime in the country.

The SBP also designated HBL as the Champion Bank for Baluchistan to address outreach challenges and to lead the industry in enhancing access to agriculture credit and financial inclusion in the province. Under this initiative, HBL demonstrated a 63% growth in its portfolio in the province, the highest amongst all institutions; the Bank also created farmer awareness and collaborated with educational institutions to develop a skilled labor force. HBL also utilized a number of SBP schemes designed to uplift farmers, providing assistance with farm mechanization, water conservation, and renewable energy solutions for tubewells and cold storage.

HBL continued to create an impact on farmers by conducting awareness and financial literacy programs through its flagship platform Kissan Ki Awaaz. The Bank conducted more than 40 Kissan ki Awaaz sessions during the year covering all provinces of Pakistan and reaching out to over 3,000 farmers.

Through its ground-breaking development finance initiative HBL, as Pakistan's largest commercial bank, has been helping farmers improve their farm productivity and economics by assisting them at every stage of the crop cycle. Over the last three years, in a series of ever-expanding pilots, the Bank worked closely with farmers through a team of dedicated field agronomists, covering the entire production and post-harvest cycles, ensuring that farmers employ scientific farming practices. HBL also provided quality farm inputs in a timely manner at their doorstep and farm mechanization services at a competitive cost point. The outcome was transformed farm economics. Independent economists at Princeton and Yale concluded that yields and profitability for these pilot farmers were, on average, 46% and 194% higher than regional averages.

Based on this successful proof of concept, HBL has taken the next step towards its goal of revolutionizing the agricultural value chain by introducing HBL Zarai Services Limited (HBL Zarai) – a wholly owned agriculture services extension subsidiary. HBL Zarai will offer a host of unique services from advisory and inputs, to crop offtake, warehousing and logistics, right at the farmer's doorstep. Farmers will be serviced through Deras – dedicated distribution and service centers etched among the heart of the farmlands. The company has been incorporated and the first Dera has just been launched in February 2024.

During a turbulent year for the global and domestic economy, HBL's corporate and commercial banking teams implemented robust risk management strategies to identify and address potential challenges stemming from a dynamic environment. By closely monitoring market trends and maintaining a disciplined credit evaluation process, portfolio quality was upheld while improving profitability. Through a one-window, wholesale banking approach, HBL offered its clients customized products for the entire gamut of their financial requirements. The Bank's focus remained on supporting clients through the cycle, enabling them to manage their risks in a volatile environment. Customers were provided sound advice on managing the high interest rate environment and their debt levels. Total lending to corporate and commercial customers, including under Shariah-compliant modes, declined by 5% during 2023 as overall private sector credit also declined.

The recently established Global Trade Services (GTS) function was crucial for managing trade flows during a challenging year. Along with customized trade-based solutions, GTS worked closely with Treasury to manage foreign exchange liquidity by strategically managing import and export flows. GTS is also enhancing the Bank's trade penetration into the SME and Commercial segments and in 2023 alone, has successfully grown the Bank's share of exports by 1.8% to 13%. The bank has been able to make inroads in export markets, increasing volumes by 3% even as the country's total exports reduced by 11% in 2023.

HBL recognizes that being Pakistan's leading bank comes with great responsibility. An excellent example of the Bank's capacity building efforts was the corporate restructuring of one of Pakistan's largest home textile exporters which had faced problems during the 2008-10 financial crisis. With HBL's support, the company has now restarted operations and, in the first 18 months of operations, delivered significant revenue, reduced its debt load, and re-employed 3,000 people with the potential for future growth.

HBL maintained its leadership position in the transaction banking business and continues to tailor its service suite to meet client needs. Total cash management throughput increased by 22% to Rs 15.0 trillion; digital transactions, which constitute over 78% of total transactions, increased by 24%, crossing Rs 10 trillion. HBL won the Domestic Cash Management Bank of the Year award from the Asian Banking & Finance Whole Banking Awards. AsiaMoney ranked HBL as the market leader amongst domestic banks for cash management as well as the Best Service for Cash Management in Pakistan for the third year in a row; the latter is all the more gratifying as it is based on votes by HBL's customers and is a testament to its goal of delivering innovative products tailored to client needs.

HBL continues to lead the employee banking segment by providing pension and payroll services to over 3.1 million employees, with deposit balances growing to over Rs 400 billion. Over 95% of all employee banking transactions are via digital channels. HBL continues to enhance this product by offering additional benefits to enrolled individuals.

HBL's dominant Investment Banking business provides a complete suite of Investment Banking products and structured solutions through dedicated specialist teams. Despite challenging economic conditions in 2023, HBL was able to successfully close 26 deals valued at over Rs 765 billion. The transactions were in diverse sectors including renewable energy, real estate, telecom, power generation & transmission, and FMCG companies. The mandates included the entire range of investment banking options, covering both debt and equity. As a recognition of its superior delivery, HBL's Investment Banking Team received 19 accolades from international and domestic publications during the year, sweeping the awards space across all asset classes and including the Best Investment Bank in Pakistan award.

In line with HBL's strategy of contributing to Pakistan's growth and development, the Investment Banking teams have been engaged with the Government in a number of advisory capacities to facilitate projects of national interest. Through extensive interaction, the business has developed an active pipeline of deals across a diversified universe to ensure maximum economic impact across the spectrum of industries from agriculture to infrastructure to renewable energy.

2023 saw significant market volatility – especially in the 1st half of the year – with a reduction in liquidity across asset classes. In the prevailing uncertain environment, client engagement, along with balance sheet and risk management were the primary areas of focus with close monitoring of transaction flows and client activity. Treasury's sales team ensured that clients were kept well abreast of developments in the economy and in the market through frequent and in-depth customer calls; this was very well received by the Bank's client base. While volumes were 25% lower than in 2022 on the back of shrinking trade and other flows, close attention to margin management ensured continued revenue growth.

HBL Symphony®, the bank's fixed income platform, saw a doubling of volumes and we expect these to increase substantially in 2024 with the launch of additional features and functionality. However, reduced country trade flows along with a tightly controlled interbank market, saw a sharp drop in volumes transacted on HBL Infinity®, the Bank's FX portal.

HBL's digital channels facilitated secure digital banking across Pakistan; in the process, the Bank garnered seven prestigious awards, including the Best Bank for Digital Solutions and the Most Innovative Bank. These awards provide an important external validation of HBL's efforts in this area.

The Bank's mobile and internet channels witnessed an 89% YoY rise in transactions, with 1 billion financial transactions and services processed in 2023; financial transaction volumes through HBL Mobile and Internet Banking doubled to Rs 4.7 trillion. Committed to inclusivity, HBL introduced Urdu as a language option and audio TalkBack compatibility for visually impaired Mobile users, making it the first app in the country with these features. Within a month of its launch, audio talkback had been experienced by 52,000 people and it continues to have a base of 47,000 users. This underscores HBL's continued efforts to meeting the needs of Pakistan's people and its pivotal role in enabling financial empowerment. In addition to the new features and enhanced security, the app also saw a revamped menu, over 99.5% service availability and its rating rise to 4.8 on Google Play Store.

HBL also commercialized cutting-edge digital payment solutions tailored to the e-commerce sector. HBL Digital Invoicing is revolutionizing the social e-commerce space by enabling home-based sellers to accept card-based payments for orders received through social media platforms, reducing reliance on cash-on-delivery and increasing accessibility to international buyers. HBL Tap & Pay is enabling the retail sector and courier and delivery services to accept "last-mile" card-based payments through mobile POS, again enabling reduced reliance on cash. HBL became the first bank in Pakistan to offer aggregator services to other financial institutions through 1-Link, connecting customers of different banks with its billing partners. This ground-breaking move has accelerated the digitization of payments across the industry with 320,000 transactions processed during the year. With a resurgence of QR acceptability in the market, transactions at HBL's QR locations rose to Rs 7.3 billion in 2023, more than 5 times higher than the previous year; transactions through HBL's Mobile and Konnect Apps totaled Rs 4.4 billion accounting for 60% of the QR volume.

Konnect by HBL achieved a number of milestones in 2023, solidifying its position as a pioneer in branchless banking. Total volume processed exhibited a 60% growth, crossing Rs 1 trillion. This substantial increase underscores Konnect's expanding operational capability and its growing influence in the market. A key driver of this success was the onboarding of 1 million new customers, driving the total portfolio to 9.1 million customers, 11% higher than last year; women continue to make up nearly a quarter of Konnect's customers. This is a testament to Konnect's sustained market appeal and effectiveness in attracting new clients. The Konnect Islamic Account attracted more than 300,000 new-to-bank customers in 2023, with the total portfolio now exceeding 500,000. Transactions processed through this account nearly doubled, to 1.9 million, signifying the rapid market adoption and the growing demand for Shariah-compliant financial products.

Konnect's foray into insurance services in 2023 was a significant milestone, with health and life insurance product offerings achieving a first-year volume of Rs 143 million. The launch of Konnect Travel in 2023, offering comprehensive solutions for hotel and airline bookings, further diversified services, providing customers with market-competitive rates for airline tickets.

Konnect is a trusted partner of the government with its effectiveness in supporting crucial initiatives. Efficiently handling government mandates, Konnect disbursed more than Rs 330 billion for the Benazir Income Support Programme in 2023;

Konnnect also worked with other agencies such as WHO, WFP and UNHCR to distribute social transfer payments, growing total G2P volumes by 49%. Collections in 2023 crossed Rs 500 billion, a doubling over the previous year. Most of this increase was driven from corporate distributors and from educational fee collections. Disbursements rose by 30%, crossing Rs 30 billion, with pension disbursements being a key component of the growth.

Strategic partnerships played a pivotal role as HBL joined forces with the Pakistan Software Houses Association (P@SHA) to support freelancers and software houses. This initiative aims to contribute to growing the digital economy, providing specialized financial services to these thriving sectors, and nurturing innovation and entrepreneurship in the IT sector. In line with HBL's stated objective of contributing to Pakistan's development, the partnership plans to showcase Pakistani software houses in regional markets, positioning the country as a technology destination. HBL has facilitated freelancers by simplifying and digitizing their account opening process, making it easier for them to receive foreign payments seamlessly, and is planning tailored products for the freelancer community.

The Robotic Process Automation (RPA) program launched in 2022, is now seeing widespread adoption across the Bank. RPA aims to improve process accuracy as well as the customer experience by automating repetitive, rule based and other manual tasks. Significant process efficiencies have been achieved in multiple functions and the focus is now on a cross-functional approach, to digitize processes end-to-end. Since the launch of this initiative, 126 processes have been automated, saving ~21,000 person hours per month.

2023 has been significant for data democratization in the organization with the introduction of business self-service. This, coupled with centralization of most core system data into the data lake is empowering end users to concentrate on value addition instead of data preparation and consolidation. The ability to access data aggregates quickly and perform drag and drop analytics has improved decision making and allowed further insight into core banking transactions.

Sustained efforts over the last few years to reposition the international business are beginning to come to fruition. The relentless focus on building network business resulted in cross-regional clients increasing by 37% with sustained growth in deposits and lending. The China business remains key to network connectivity. HBL's unique position as one of only three RMB intermediaries in MENA and South Asia enables it to offer unmatched customer solutions with RMB volumes increasing by 1.75x in 2023. To further unlock regional trade potential, HBL China added new financial institution partnerships and capitalized on its LC advising rebate program for South Asia, enabling it to double its business. The strong growth in activity drivers, helped by widening spreads across global markets has led to International making a meaningfully positive contribution to the bottom line.

Customer acquisition reached a new high throughout the international network. Along with the increasing customer focus, new products and services are being developed. The Prestige proposition launched in the UAE has received enthusiastic customer response and plans are in place for expansion to Bahrain and UK. Islamic deposit products launched in Singapore are seeing good traction, and trade between network countries continues on an upward trajectory. Simultaneously, technology platforms, payment systems and digital applications are being upgraded to enhance product offerings.

HBL entered into a landmark alliance with Bank of China by signing a strategic Memorandum of Understanding, a first of its kind in Pakistan. The MoU signifies a shared commitment to driving economic empowerment, regional connectivity and creating seamless regional trade opportunities. It also underscores the importance of adherence to ESG principles. HBL is a founder member of Green Investment Principles and has now become the first and the only Pakistani bank to be a member of the Capacity-building Alliance of Sustainable Investment (CASI), evidencing its commitment to sustainable development. Launched at the recent COP28 in Dubai, CASI leverages innovative knowledge-sharing platforms to promote best practices for sustainable finance. Both these forums provide HBL access to global developments in Green Finance.

Throughout the year, the Bank launched various initiatives to significantly reduce turnaround at both at the branch and back-end levels, helping to improve the customer experience. A simplified client on-boarding experience has led to 82% of low and medium risk accounts being opened on the same day. HBL also embarked on a channel migration drive to transition customers from traditional branch counter services to digital channels, providing them convenience while easing congestion in branches.

HBL's Contact Centre delivered 24 x 7 service, handling 13.2 million interactions over the year. A range of non-voice touch points have been made available for customers, including WhatsApp, Facebook Bots, and other social media channels, which collectively facilitated ~80,000 customer interactions monthly. The self-service menu offers 35 IVR services through which 2 million transactions were executed, including critical activities such as instant debit and credit card activation/blocking and credit card payments. During the year, IVR utilization increased from 48% to 54%. In 2023, the Bank received 450,274 complaints, resolved on average within 4 working days.

In 2022, HBL announced its commitment to meeting AKDN's Net Zero target by 2030 and is working on implementation with an international consultant. Solar panels have been installed at 235 premises and have resulted in a 500+ MT reduction in HBL's carbon footprint during the year. Another 80 branches have been targeted for solar conversion in 2024. The Bank obtained the WWF's Green Office certification for two of its premises after successfully implementing green operating protocols. Energy Audits of three premises were concluded, based on which a number of initiatives are being rolled out to reduce emissions. These include double glazing of windows, roof insulation and HVAC and lighting rationalization in major

buildings. To improve the sustainability of its own operations, 3-bin recycling has been rolled out and awareness sessions held with staff and vendors.

The HBL brand remains Pakistan's strongest financial services brand. 2023 was marked by its innovative spirit, digital prowess, and unwavering commitment to clients. These efforts underlined HBL's pivot towards the burgeoning youth segment of Pakistan. The Bank understands that this segment is tech-savvy and hence, focuses its efforts on providing them with relevant products and services to stay connected. The Bank enhanced its already impressive social media footprint by embracing the TikTok platform with ~50 million followers. HBL is now the leading financial services player on almost all social media platforms.

Our pivot towards youth is a combination of activities, implemented in a consistent manner. Working with social media influencers is one such effort; combined, they have more than 150 million followers on different platforms. In 2023, HBL worked with over 130 influencers who created more than 180 content pieces and spearheaded 11 campaigns for the Bank, both for the Brand as well as for promoting our products. Recently, the Bank has made a foray into E-sports, a passion for over 37 million Pakistanis, by sponsoring an e-gaming version of a football competition. Under its Konnect umbrella HBL has launched both a brand and a product push to connect with this large audience. We have also begun creative collaborations with youth-centric brands to deepen our connection with and understanding of the youth segment.

HBL's industry-leading TikTok campaign and its ongoing association with HBLPSL, Pakistan's biggest sporting platform, now in its 9th year, are accelerating efforts to reach-out to youth. TikTok published a case study on the Bank's campaign for HBLPSL 8 as a TikTok Global Success Story. During the campaign, 8.9 million videos were created, generating over 8.7 billion views on the platform and reaching an incredible 97% of Pakistani TikTok users. For HBL PSL 9, the Bank has upped the ante by launching the Palat Do Khel campaign. This messaging, on both conventional and social media, helps Pakistanis celebrate the positive side of the country, capture the true spirit of Pakistan and showcase it to the world. Every time anyone sees something good around them, they too can become an influencer by recording a video on their phone and sharing it on social media using #PalatDoKhel. We hope that this will snowball into a celebration of the many positives and successes that each of us sees around us, every day, instilling self-belief in millions of Pakistanis.

HBL became the first bank in Pakistan to launch a dedicated client care 'X' (formerly known as Twitter) handle "@HBLCare". The dedicated customer care handle has diverted 38% of complaint volume from HBL's corporate profile (@HBLPak) and allows for more immediate monitoring and resolution of customer concerns.

Human Resources

HBL's success lies in its unwavering commitment to its employees through its core value of Valuing People. This guiding principle has driven numerous staff initiatives in recent years, all aimed at enriching the lives of HBL's employees and their families.

In line with our aspiration to embed a pay for performance culture, the Bank revamped its Performance Management System. Goals for all employees have been aligned with those of the organization, within standardized categories, to create a better sense of purpose and an understanding of how each employee's contribution impacts HBL's overall success. A 360-degree feedback mechanism was also launched for 400 senior managers to enhance leadership capabilities and reinforce our commitment to an ethics and values-based culture. Discipline and rigor in differentiating performance enabled us to reward a larger population of employees.

As part of the Bank's commitment towards diversity, equity & inclusion (DEI), best practices were shared with organizations across various industries. Sessions like Power Hour and Empowering through Inclusion helped bring together leaders from financial and non-financial companies, enabling participants to share common challenges and solutions. The Bank also launched a day care allowance to support female colleagues with young children, helping them to balance motherhood and careers. To further our commitment towards inclusion of differently-abled people and facilitate their mainstreaming, engagement activities were held during the year, including after-school internships, pop-up stalls to provide them a platform to showcase their products and staff sensitization sessions. HBL's commitment to DEI was recognized as, for the second consecutive year, the Bank was awarded the Most Inclusive Organization in Pakistan – 2023 by the Centre of Global Inclusion at the GDEIB awards.

Learning activities during the year were focused at optimizing human resources through reskilling and redeployment to enhance efficiency. To foster a culture of continuous learning and growth, HBL Nexus was launched as a platform for digital learning. The program provides tailored and immersive learning experiences to facilitate digital upskilling. The Leadership Excellence journey, launched in 2022 for General Managers, was cascaded to the next level of over 800 mid-level leaders. More than 500,000 person-hours of training were delivered to help employees remain updated with regulatory requirements, global best practices, and job-based skills. In 2023, HBL became the first organization in Pakistan to implement the SAFE® - Scaled Agile Framework. This working methodology encompasses a set of principles and values that will help us to efficiently and rapidly offer customer-centric, innovative solutions.

To encourage and support junior staff in building assets and owning their own homes, house loan facilities were enhanced with higher limits and lower markup rates. Given the Bank's leadership on sustainability matters, a solar financing facility was also introduced for staff.

Risk Management Framework

HBL manages the identification, assessment and mitigation of top and emerging risks through a robust internal governance process and the use of risk management tools and processes. The Board of Directors exercises strong oversight and the Board Risk Management Committee (BRMC) monitors and assesses the risk profile of the Bank on an ongoing basis. At senior management level, various risk committees are responsible for oversight and execution, with day-to-day risk management activities delegated to different levels.

The Bank's approach to risk identification and impact assessment aims to ensure that we mitigate the impact of these risks on our financial results, long-term strategic goals and reputation. Key risks as reflected in HBL's risk taxonomy include credit risk, market & liquidity risk, reputational risk and operational risk.

As economic conditions remained challenging, stress testing and frequent portfolio reviews to identify vulnerable segments helped to ensure the strength and resilience of the Bank's credit portfolio. Similarly, in view of the volatile global economic and political environment, country risk exposures were proactively managed. There was a continued focus on enhancing portfolio monitoring and implementing tools for the early identification of risks. Credit scorecards were also upgraded from expert judgment to statistical models in the Consumer and SME segments.

HBL continues to invest in its people by providing them the tools and skills in a constantly changing external environment. HBL Credit School, a comprehensive modular training program plays a major role in fostering a consistent credit risk assessment mindset that is focused on forward-looking risk drivers, and hence helps to adopt a proactive, rather than a reactive approach based merely on historical data. The program has been fully developed in-house and is delivered by the Bank's senior resources.

Market and liquidity risk indicators are reviewed on a monthly basis by the Market & Liquidity Risk Committee and by ALCO. A comprehensive structure is in place to ensure that the Bank remains within its tolerance for market risk. Operational Risk Management remained an area of focus during the year. Policies and procedures have been established to govern operational risk management in a systematic and consistent manner. Key tools such as an Integrated Risk & Control Repository (IRCR), Key Risk Indicators and Operational Loss Data Management are used to gauge the likelihood and severity of operational risk incidents. The Bank's operational risk profile and fraud risk assessment are regularly discussed at senior management forums and at the BRMC.

The risk management functions are complemented by the Enterprise Risk Management Framework (ERMF). Applicable to all functions in the Bank, it outlines the risk management principles and sets out the governance structure, standards, objectives and key responsibilities of different functions. A bank-wide IRCR is now embedded in the organization and helps to identify and assess all risks and issues in a holistic manner, thereby ensuring that these are adequately monitored and mitigated. During the year a Reputational Risk Management framework has also been established to monitor and mitigate against this critical risk.

The Bank continues to foster a values-driven culture. Accordingly, to comply with leading practices, the Ethics & Conduct team has been repositioned within the Compliance function. As part of further integrating values driven behaviors, the bank is expanding its Conduct & Culture framework.

The Board Compliance & Conduct Committee (BCNCC) supports the Board in overseeing the implementation of a compliance and conduct framework and also provides governance over the implementation of a bank-wide compliance program. The BCNCC oversees ethics and conduct-related matters including whistle-blowing complaints. HBL's whistleblowing program is directed at safeguarding the Bank's integrity and reputation and aims to increase employee ownership in reporting suspected cases of fraud, corruption, harassment, and other infringements of the Bank's Code of Conduct. Any related investigations are overseen by the Board Audit Committee (BAC) while disciplinary actions are reviewed by the Board Human Resource & Remuneration Committee (BHRRC). The Compliance Committee of Management, chaired by the President, monitors and reviews compliance and conduct-related matters at the management level.

The Compliance function continues to strengthen the enterprise-wide compliance environment and manage compliance risk by enabling the Bank to comply with applicable laws and regulations including financial crime compliance management. HBL has implemented a robust regulatory risk management framework for enabling adequate design and operating effectiveness of regulatory controls. Accordingly, a design-level evaluation of the Bank's Compliance Risk Profile was completed during the year.

With the focus on standardizing and automating enterprise-wide compliance controls, the Bank is leading the innovation agenda in the Pakistan banking industry by establishing the industry's first Digital Workforce with the successful implementation of BOTs for multiple processes. The Compliance Centre of Excellence in Pakistan for global insourcing from HBL's international branches provides active support in transaction monitoring and alert disposition and is yet another landmark initiative. In 2023, HBL's transaction monitoring and sanctions screening systems successfully completed an international benchmarking and validation review which demonstrated that the systems are working robustly to effectively monitor and manage underlying risks in accordance with leading international standards. The Bank's steady investment in this area is a testament to its commitment to sustainable controls and continuous enhancements.

HBL's priority is to protect its customers and their data from cyberattacks and data breaches. The Bank's Information Security function plays a pivotal role in protecting HBL's data assets from both internal and external threats through the effective management of cybersecurity risk. The Bank's 24x7 Security Operations Centre continues to contribute to a robust security posture through regular monitoring, supported by a number of detection and prevention mechanisms.

Information security awareness campaigns are held throughout the year to provide training and guidance on information security related matters to employees. These are supplemented by targeted awareness campaigns for customers using multiple delivery channels. The Bank remains compliant with the SWIFT Customer Security Program as well as ISO 27001. The Bank is committed to strengthening its cyber-defenses through the use of automation and advanced technologies, while proactively mitigating against advanced security threats. These security measures allow HBL to continue offering innovative digital solutions to its clients while ensuring them protection and peace of mind.

Corporate Social Responsibility (CSR)

HBL's commitment to corporate social responsibility shines through its extensive charitable actions, deeply engrained in its ethos of giving back to the community. Its contributions are directed towards health, education and community welfare. After the 2022 floods, the Bank played a critical role in the rehabilitation of the affected people, donating Rs 264 million to provide 100 prefabricated houses in each of 2 villages, marking a significant stride in natural disaster response. HBL's dedication to public health and welfare is underlined through its contributions to the National Institute of Child Health Trust and to the Taskeen Health Initiative. As part of its inclusion initiatives, a contribution to the Pakistan Special Olympics reflects the Bank's support for empowering differently-abled athletes. In the educational sector HBL donated Rs 1 million to the Progressive Education Network, showcasing the bank's commitment to nurturing educational development. HBL's international branches also stepped up to support crisis management and in Turkey, the Bank made contributions to different organisations engaged in rehabilitation efforts in the wake of the 2023 earthquake.

The HBL Foundation (HBLF), as a beacon of HBL's philanthropic vision, has influenced Pakistan's socio-economic fabric and in 2023, channeled nearly Rs 400 million to healthcare, Rs 100 million to education and Rs 20 million to community development. These funds have been instrumental in elevating healthcare services, enriching educational experiences, preserving cultural heritage, and fortifying community welfare across Pakistan.

In healthcare, the Foundation donated funds for advanced cancer treatment facilities, emergency pediatric care, mobile healthcare units and many other comprehensive healthcare initiatives. This diverse array of support showcases HBL's understanding of the multifaceted nature of healthcare needs in the country. HBL believes in the transformative power of education and through the Foundation, contributed towards a number of scholarships for female students at premier universities, to the enhancement of digital literacy, and to support special needs education including the empowerment of visually impaired students.

The HBL Foundation undertook impactful community development efforts towards strengthening food security and improving living conditions in underserved regions, reflecting HBL's holistic approach to societal well-being. HBLF supported the Living Masters project, a commitment to safeguarding Pakistan's rich cultural heritage and ensuring that the artistic legacy of its classical music is preserved for future generations.

HBL's Employee Volunteering Program epitomizes the Bank's commitment to sustainable social impact through its own employees. With over 1,600 volunteering hours, the program has fostered a robust culture of community service and corporate responsibility within the organization. The activities undertaken by the volunteers range from tree plantation and clean-up drives to supporting disadvantaged communities, demonstrating their intertwined connection with the communities they serve, and solidifying HBL's status as a socially responsible corporate entity.

Credit Ratings

In June 2023, the Bank's credit ratings were re-affirmed by VIS Credit Rating Company Limited at AAA/A-1+ for long-term and short-term respectively. The ratings of the TFCs issued as Additional Tier 1 Capital have also both been re-affirmed as AA+. The Outlook on all ratings is Stable. The ratings incorporate HBL's position as the largest commercial bank in the country, its systemic importance and the diversity of its operations. In support of the ratings, VIS also pointed out HBL's significant liquid reserves as well as its strong and consistent performance in domestic lending while maintaining favourable asset quality indicators. In February, Moody's downgraded the sovereign rating from Caa1 to Caa3, with the Outlook changed from Negative to Stable. It subsequently mirrored this action for the large Pakistan banks, including HBL.

Future Outlook

Pakistan narrowly averted a balance of payments crisis near the end of FY'23. As the previous EFF was essentially all but dropped, the government managed to secure a 9-month SBA which provided the desperately needed lifeline at that time. The SBA runs out in March and the healthier, but still delicate financial situation of the country, with FX reserves less than 2 months of imports, cannot be managed outside the IMF umbrella. At this point, the conditionalities of the SBA's second review have been broadly met and the messages from the IMF appear positive. However, a longer-term EFF programme has to be negotiated by March as an existential necessity. Despite national elections having been somewhat successfully concluded in early February, at the time of writing, a new Government, and most critically, a new Finance Minister has yet to be announced. Therefore, the incoming government will have its hands full on day one in securing the EFF.

We are encouraged by the signs of structural reform undertaken by the caretakers – such as the decision to clamp down on illegal capital flight, and the progress on SOE privatization. The fervent hope is that all political parties are ready to continue in this vein and to sign up to a new IMF programme, in letter and spirit, and that the populist posturing of recent years – which has been so damaging to the economy – will remain dormant. A steady path to recovery is therefore possible, with growth coming in at around 2.5-3.0% for FY'24. However, to achieve sustainable and more inclusive economic growth, the government needs to prioritize the implementation of energy sector reforms, radically improve the governance of loss-making state-owned enterprises leading to their privatization, and widen the tax base – the last perhaps the most critical to ensure it has funds for much needed social and economic development.

High inflation has been the single largest economic issue faced by the majority of the population; we expect the SBP to maintain positive real interest rates (over core inflation) in order to continue driving down price increases. With the FX rate outlook relatively benign, and global commodity and other prices starting to soften, we expect a steady decline in inflation over the course of the year, accompanied by a gradual easing of the Policy rate. However, upside risks remain, this time from geopolitical factors – a worsening of the Middle East situation and an aimless stalemate in Ukraine are taking their toll on global prices and shipping costs and it is only a matter of time before these impact import-dependent economies such as ours.

The international outlook may be more supportive in 2024, with G-20 inflation heading lower, global interest rates forecast to decline later in the year, and GDP growth easing off, thus releasing more risk capital into Emerging and Frontier markets. This should help support capital flows into Pakistan and across the globe, benefiting HBL's domestic and international franchises. On the expected initiation of the EFF in March, we expect GCC institutions to re-enter into the market, albeit gradually, thus helping the country's external sector to recover slowly.

In one of the most challenging years in recent memory, HBL has successfully navigated choppy waters, delivering another record year. Excellent results from the strong domestic franchise have been supplemented by a solid contribution from the international business. Leadership positions have been attained or further extended across most areas of our operations. Our Investment Banking business remains the dominant player, sweeping the awards space, while Transaction Banking continues to be acclaimed by its customers who, year after year, have voted us as the Best Service Provider; the fact that these are based on client feedback makes them even more meaningful. We dedicate these results to our customers, many of whom have banked with us across generations and who are at the heart of all we do.

HBL has transformed Agriculture financing in Pakistan with sustained commitment over a number of years. Our pathbreaking development finance initiative has already had a dramatic positive impact on farmers' lives and HBL Zarai will pioneer an entirely new agriculture paradigm in Pakistan. Our 5-time recognition as the Best Agriculture Bank in Pakistan is a testament to our initiatives in this area as we have been recognized by regulators, customers and the industry for our transformative leadership.

At HBL increasing digitalization of every aspect of our businesses has become a way of life – from paperless consumer financing through the mobile app, remote digital on-boarding of farmers, e-wallets for microfinance customers and our most recent venture into e-sports. This year, we have again introduced trailblazing products to shape Pakistan's financial services landscape – Digital Invoicing, an Urdu mobile app, TalkBack for the visually impaired. HBL has established itself as a key player in every aspect of the digital banking space, accelerating adoption and usage among customers. Its partnership with P@SHA promises a landmark opportunity to showcase one of Pakistan's premier but under-celebrated sectors, thus meeting HBL's stated objective of contributing to Pakistan's growth and development. From HBL Mobile to Konnect, from QR to HBL Pay, the Bank continues to raise the bar in delivering creative, first-of-a-kind solutions for its customers, cementing its position as *a technology company with a banking license*. HBL's slew of digital awards, from Asiamoney's Best Bank for Digital Solutions to the CFA Society's Best Digital Services award, provide independent external validation of our progress.

Everything we do is underpinned by one word – Sustainability – in all its aspects. This year we launched our second Sustainability Report, widely lauded by a swathe of stakeholders. HBL has and will keep stepping up in every sphere to support the country. We remain obsessed with providing thought leadership across the full spectrum of the economy, supporting the Government under a public-private partnership model. We are passionate about our founding support to HBLPSL – an event that has undoubtedly helped put Pakistan back on the map of world cricket, delighting tens of millions of Pakistanis in Pakistan and across the globe. Through #PalatDoKhel, we hope to rekindle Pakistanis' pride in Pakistan, encouraging them to showcase the myriad positives we see every single day. As a founding member of the Green Investment Principles and our recent membership of CASI, we underscore our commitment to tackling the world's most important issue – climate change. We remain relentlessly focused on financial inclusion in all its aspects – inclusion of women through HBL Nisa and our own gender diversity targets; inclusion of the underserved through Konnect and microfinance; inclusion of the differently-abled through targeted hiring and facilities at our touchpoints; and inclusion of the youth through our leading social media presence – to ensure a brighter future for Pakistan and Pakistanis. We are honoured, privileged and humbled to once again have been named as The Most Inclusive Organization in Pakistan.

ڈائریکٹرز رپورٹ 2023

ہمیں بورڈ آف ڈائریکٹرز کی جانب سے سالِ مختتمہ 31 دسمبر 2023ء کے غیر مجموعی مالیاتی گوشوارے پیش کرتے ہوئے مسرت محسوس ہو رہی ہے۔

کلیاتی اقتصادیات کا جائزہ

مالی سال 23ء شدید کلیاتی اقتصادی تباہی کا سال تھا۔ روپے کی تیزی سے گرتی ہوئی قدر، درآمدات میں ترجیحات اور شرح سود میں ریکارڈ اضافہ، بے روزگاری میں خطرناک اضافہ اور ڈیفالٹ سمیت پولیٹیکل پولرائزیشن۔ تمام جی ڈی پی کی 0.3% کی کمزور نمو میں ظاہر ہوا۔ مالی سال 24ء کا آغاز مثبت انداز میں IMF کے اسٹیٹڈ بائی انظامات (SBA) کے اعلان کے ساتھ ہوا جس نے ملک کے لیے لائف لائن فراہم کی۔ مالی سال 24ء کی پہلی ششماہی میں زیادہ استحکام اور ترقی کی کچھ نئی علامات نظر آئیں۔ جس کی وجہ زراعت کے شعبے میں بحالی ہے۔ اگرچہ لارج اسکیل مینوفیکچرنگ انڈیکس میں مالی سال 24ء کی پہلی ششماہی کے دوران سال بہ سال معمولی کمی واقع ہوئی ہے، لیکن اعداد و شمار اوپر کی طرف جارہے ہیں۔ توقع ہے کہ مالی سال 24ء کی دوسری ششماہی میں صنعتی شعبے کی رفتار تیز ہو جائے گی اور مالی سال 24ء کے لیے 3-2% جی ڈی پی نمو پیش گوئی کے مطابق بدستور ٹریک پر ہے۔ مئی 23ء میں ہیڈ لائن افراط زر کی شرح 38% تک پہنچ گئی جو مالی سال 23ء میں اوسطاً 29.2% رہی جبکہ مالی سال 22ء میں یہ 12.2% تھی۔ اگرچہ افراط زر کی شرح کم ہو کر جنوری 24ء میں 28.3% رہ گئی ہے، لیکن توانائی کی قیمتوں میں بار بار اور قابل ذکر ایڈجسٹمنٹ نے کمی کی رفتار سست کر دی ہے۔ مالی سال 24ء کے 7 ماہ کے دوران اوسط افراط زر 28.7% رہی جو گزشتہ سال کے اسی عرصے میں 25.4% تھی۔ مالی سال 24ء کے لیے اسٹیٹ بینک کی پیش گوئی 23 سے 25% پر برقرار ہے۔

مالی سال 24ء کی پہلی ششماہی کے دوران درآمدات میں سال بہ سال 15% کمی واقع ہوئی جس کی وجہ اجناس کی قیمتوں میں کمی ہے۔ عالمی مندی کے باوجود برآمدات میں 7.5% اضافہ ہوا۔ اس کے نتیجے میں مالی سال 24ء کی پہلی ششماہی میں تجارتی خسارہ 35 فیصد کم ہو کر 9.9 بلین ڈالر رہ گیا جس میں دسمبر 23ء میں کرنٹ اکاؤنٹ کا سرپلس شامل ہے۔ مالی سال 24ء کے آغاز میں KERB اور انٹربینک مارکیٹوں کے درمیان خلا کیچھنچ کھینچوں کے لیے سخت قوانین کے ساتھ ساتھ زر مبادلہ کی غیر قانونی سرگرمیوں کے خلاف کریک ڈاؤن اور افغان ٹرانزٹ ٹریڈ کی نگرانی سخت کر کے پُر کر دیا گیا ہے۔ نتیجتاً سرکاری چینلز کے ذریعے ترسیلات زر کے بہاؤ میں بہتری آئی جس سے مالی سال 24ء کی پہلی سہ ماہی میں دیکھی جانے والی سست روی میں کچھ کمی آگئی۔ مالی سال 24ء کی پہلی ششماہی میں ترسیلات زر 13.4 بلین ڈالر تک پہنچ گئیں جو مالی سال 23ء کی پہلی ششماہی کے مقابلے میں 7% کم ہیں۔ مالی سال 24ء کی پہلی ششماہی میں کرنٹ اکاؤنٹ خسارہ 77% کم ہو کر 0.8 بلین ڈالر رہ گیا جو گزشتہ سال کے اسی عرصے میں 3.6 بلین ڈالر تھا۔

مالی سال 23ء کے اختتام پر زر مبادلہ کے ذخائر غیر یقینی سطح پر پہنچ گئے تھے۔ تاہم، SBA پر دستخط اور پہلی قسط کے اجراء نے دوست ممالک سے مدد کو تحریک دی، جس سے ذخائر میں فوری اضافہ ہوا۔ کرنٹ اکاؤنٹ خسارے میں کمی کے ساتھ ملٹی لیٹرل ڈونرز کی جانب سے بتدریج ترسیلات زر نے اسٹیٹ بینک کے زر مبادلہ کے ذخائر میں اضافہ کیا ہے۔ جنوری 24ء میں SBA کی دوسری قسط کے اجراء سے ذخائر 8 بلین ڈالر سے اوپر رہے۔ اس کے نتیجے میں روپیہ ستمبر 23ء میں 307/\$ کی کم ترین سطح سے بہتر ہو کر سال کے اختتام تک 282/\$ تک پہنچ گیا، جو 2023ء کے لیے 24% کمی ہے۔

مالی سال 24ء کی پہلی ششماہی میں بنیادی مالیاتی بیلنس سرپلس میں رہا جو مالی سال 23ء کی پہلی ششماہی کے مقابلے میں ڈگنے سے زیادہ 1.8 ٹریلین روپے تک پہنچ گیا ہے۔ جی ڈی پی کے فیصد کے طور پر، یہ IMF کے اہداف سے بہت پہلے 1.7% بہتر ہوا ہے۔ حکومت نے ٹیکس میں کو وسیع کرنے کے بجائے موجودہ ٹیکس دہندگان پر ٹیکسوں میں اضافہ جاری رکھا جس سے ٹیکس محصولات میں 30% اضافہ ہوا اور ایف بی آر کی وصولی 4.5 ٹریلین روپے تک پہنچ گئی۔ بلند شرح سود کی وجہ سے قرضوں کی ادائیگی کے اخراجات میں 64% اضافہ ہوا، جس کے نتیجے میں مجموعی اخراجات میں 45% بڑھ گئے۔ اس طرح مجموعی مالیاتی خسارہ جی ڈی پی کے 2.3% تک بڑھ گیا جو گزشتہ سال کے اسی عرصے میں 2.0% تھا۔

مستحکم کرنسی اور زیادہ مضبوط مانیٹری پالیسی کی توقعات نے ایکویٹی مارکیٹ میں زبردست تیزی پیدا کی اور کے ایس ای 100 انڈیکس صرف چوتھی سہ ماہی میں 35% کے ساتھ دسمبر 23ء میں 62,451 پر بند ہوا، جو سال کے لیے 55% اضافہ ہے۔ دوسری سہ ماہی میں 71.0 ملین ڈالر کی فارن پورٹ فولیو انویسٹمنٹ، جو 5 سال میں سب سے زیادہ ہے، نے مارکیٹ میں مزید تیزی پیدا کر دی۔

گزشتہ سہ ماہی کے آغاز سے ہی مارکیٹ میں مالیاتی نرمی کی توقعات کے باوجود سینٹرل بینک نے سال کی آخری ششماہی میں پالیسی ریٹ 22% فیصد پر برقرار رکھا ہے۔ اسٹیٹ بینک کا کہنا ہے کہ اگرچہ افراط زر میں کمی آئی ہے لیکن توانائی کی قیمتوں میں خاطر خواہ اضافے کی وجہ سے کمی کی رفتار پہلے کی توقعات سے کم ہے۔ طلب کے دباؤ میں کمی کی عکاسی نجی شعبے کے قرضوں میں ہوئی جو 2022ء میں 14% اضافے کے مقابلے میں 2023ء میں 1.4% کم ہوا۔ گوکہ، بہتر حالات کے مطابق، 2023ء کی

سرمائے کا تناسب

مضبوط نتائج کے ساتھ اندرونی سرمائے کی پیداوار میں 2023ء میں 21% اضافہ ہوا۔ Tier 1 کیپٹل ایڈیکوسی ریشو (CAR) میں 294 bps تک اضافہ کیا۔ تاہم روپے کی قدر میں انتہائی کمی \$ / 55.4 سے منافع پر اثر ہو جو 97 bps رہا۔ اس کے نتیجے میں HBL کا مجموعی Tier 1 CAR، 66 bps بڑھ کر 13.44% ہو گیا۔ کم از کم سرمائے کے تقاضوں میں ہیڈروم میں اضافے سے Tier II سرمائے کی اہلیت میں اضافہ ہوا، جس سے کل CAR بڑھ کر 228 bps سے 17.28% ہو گیا۔ دونوں تناسب موجودہ ریگولیٹری تقاضوں سے زیادہ اوپر رہے۔

کاروباری ترقی

HBL نے پاکستان میں بینکاری کی صنعت میں مقصدیت پیش نظر رکھتے ہوئے تبدیلی کے عمل کی قیادت اور کسٹمرز کے ساتھ تعلق مزید بہتر بنانے کی کوششیں جاری رکھیں، جبکہ ترقی کے مختلف شعبوں میں فکری قیادت فراہم کرنے میں بھی پیش پیش ہے۔ 2023ء میں، بینک نے 3.5 ٹریلین روپے کی ڈومیسٹک ڈپازٹ بک کے ساتھ ڈپازٹ مارکیٹ کا 12.44% شیئر حاصل کیا۔ اس میں بینک کے برانچ نیٹ ورک کے ذریعے تقریباً 800,000 نئے کسٹمرز کے اضافے سے مدد ملی۔ تیزی سے ترقی کی راہ پر گامزن اسلامی بینکاری کے شعبے میں HBL نمایاں کردار بننا چاہتا ہے۔ کنونشنل برانچ نیٹ ورک کے ایک حصے کو اسلامک بینکنگ میں ڈھالنے کے بڑے منصوبے کے بعد، اسلامک برانچ نیٹ ورک اب 408 برانچوں پر مشتمل ہے، جن میں سے 100 برانچیں صرف 2023ء ہی میں کنورٹ ہوئیں۔ اس شعبے میں ڈپازٹس 32% اضافے کے ساتھ 422 بلین روپے تک پہنچ چکے ہیں۔

HBL نے صارفین کی ضروریات پوری کرنے کے لیے خصوصی مصنوعات اور خدمات کی اہمیت تسلیم کرتے ہوئے کلائنٹس کو مختلف درجوں میں تقسیم کرنے کا ایک نیا طریقہ کار اپنانے کے عمل کا آغاز کیا۔ اس مقصد پر مبنی یہ حکمت عملی فریجائز کو مستحکم کرنے کے لیے احتیاط سے تشکیل دی گئی، تاکہ HBL اپنے صارفین کے ساتھ گہری وابستگی اور آئندہ سالوں میں اس کا قائدانہ کردار برقرار رہے۔

پرسٹیج پیٹکس کو پاکستان بھر میں ترقی پزیر بینکاری کا منظر نامہ تبدیل کرنے کے لیے ترتیب دیا گیا۔ پرسٹیج کے تحت، غیر معمولی مالیاتی خدمات کی فراہمی کے لیے کلائنٹس کی ضروریات اور خواہشات سے واقفیت بنیادی پہلو ہے، جس کی بدولت کلائنٹس کو ان کی جدید ضرورتوں کے مطابق خصوصی پروڈکٹس فراہم کی جاتی ہیں۔ پرسٹیج پاکستان کے 18 شہروں میں 39 مخصوص لاؤنج کے ساتھ ساتھ دبئی میں اپنے پہلے انٹرنیشنل لاؤنج کے ذریعے ہائی نیٹ ورک (HNW) کلائنٹس کی مالی ضروریات پوری کر رہا ہے۔ خصوصی لاؤنج کی دستیابی نہ ہونے کی صورت میں، نان-لاؤنج حکمت عملی کے ذریعے پرسٹیج کا دائرہ کار بڑھایا جاتا ہے اور 650 برانچوں کو پرسٹیج کسٹمرز آن بورڈ کرنے کی صلاحیت دی گئی ہے جس سے اس سہولت تک رسائی وسیع ہوئی ہے۔

HBL جدید مصنوعات کی پیشکش میں اپنا قائدانہ کردار مستحکم کرتے ہوئے 5 ملین خواتین کسٹمرز کو خدمات فراہم کر رہا ہے، جن میں 1 ملین سے زائد خواتین بینک کے ویمن مارکیٹ پروگرام، HBL نساء کا حصہ ہیں۔ اپنی نوعیت کا یہ منفرد اور جامع پلیٹ فارم خواتین کے لیے بینکاری سے بڑھ کر ہے اور انھیں مالی آزادی دینے کے ساتھ ساتھ خصوصی سہولتیں، خواتین پر مرکوز انشورنس کوریج، اور کمزور قرضے فراہم کرتا ہے۔ 2023ء کے دوران، HBL نساء میں 145,000 سے زائد نئے اکاؤنٹس اور 40 بلین روپے کے اضافی ڈپازٹس شامل ہوئے جس سے نساء پروگرام کے مجموعی ڈپازٹ 126 بلین روپے ہو گئے۔ ان میں 51 بلین روپے اس پروگرام کی اسلامی

دوسری ششماہی میں کریڈٹ میں 5% اضافہ ہوا۔ اے ڈی آر ٹیکس کے نفاذ کے نتیجے میں دسمبر 22ء میں غیر معمولی سطح کی وجہ سے انڈسٹری ایڈوانسز اور ڈپازٹس میں اضافہ کسی حد تک غیر معمولی تھا۔ گزشتہ سال کے مقابلے میں ایڈوانسز میں معمولی 3.6% اضافہ ہوا جبکہ ڈپازٹس میں 24% اضافہ ہوا۔ قرضوں کے منافع میں اضافے نے ڈپازٹ لاگت میں اضافے کو پیچھے چھوڑ دیا ہے لہذا 2022ء کے مقابلے میں 2023ء میں بینکنگ اسپریڈ میں 214 بی پی ایس کا اضافہ ہوا ہے۔

مالیاتی کارکردگی

سال 2023ء میں HBL نے 111.7 بلین روپے کا سب سے زیادہ قبل از ٹیکس منافع حاصل کیا جو گزشتہ سال کے 71.6 بلین روپے کے مقابلے میں 56% زیادہ ہے۔ مقامی فرنیچائز سے عمدہ کارکردگی اور بین الاقوامی کاروبار سے ٹھوس نتائج نے اسے مسلسل ترقی کی راہ پر گامزن رکھا۔ بینک کا بعد از ٹیکس منافع 56.9 بلین روپے تک بڑھ گیا جو 2022ء کے مقابلے میں 84% زیادہ ہے۔ 2022ء میں فی حصص آمدنی 21.04 روپے سے بڑھ کر 2023ء میں 38.76 روپے ہو گئی۔

HBL کی بیلنس شیٹ 19% اضافے سے 5.2 ٹریلین روپے تک پہنچ گئی۔ ملکی اور بین الاقوامی کاروباری اداروں میں مضبوط ڈپازٹ مولد ہونے کے نتیجے میں دسمبر 22ء کے دوران مجموعی ڈپازٹس 20% اضافے سے 3.9 ٹریلین روپے تک پہنچ گئے۔ گھریلو ڈپازٹس بڑھ کر 3.5 ٹریلین روپے تک پہنچ گئے جو گزشتہ سال کے مقابلے میں 18% زیادہ ہے۔ اوسط ملکی ڈپازٹس میں 346 بلین روپے کا اضافہ ہوا جس کی بنیادی وجہ کم لاگت CASA ہے جس کی وجہ سے HBL کو ڈپازٹس کی لاگت منجھ کرنے میں مدد ملی ہے۔ نجی شعبے کے قرضوں میں معمولی کمی کے باوجود HBL کے ملکی قرضے 1.4 ٹریلین روپے پر مستحکم رہے جبکہ مجموعی قرضے 3% اضافے کے ساتھ 1.7 ٹریلین روپے تک پہنچ گئے۔ بینک کا فلیگ شپ کنزیومر پورٹ فولیو بڑھ کر 128 بلین روپے تک پہنچ گیا۔ زرعی فنانسنگ بدستور بینک کی ایک اہم ترجیح ہے۔ قرضے بڑھ کر 57 بلین روپے ہو گئے۔

2023ء میں مسلسل تیزی سے مالیاتی سختی کے ساتھ، خالص سود کے مارجن میں 2022ء کے مقابلے میں 158 بی پی ایس کی بہتری آئی ہے۔ اوسط ملکی بیلنس شیٹ میں 486 بلین روپے کا اضافہ ہوا جس کے نتیجے میں ملکی خالص سودی آمدنی میں 45% اضافہ ہوا۔ زیادہ تر مقامات پر اسپریڈز کے ساتھ، بین الاقوامی کاروبار نے بھی 44% اضافہ کیا۔ 2023ء میں HBL کی کل خالص سودی آمدنی 47% اضافے کے ساتھ 223 بلین روپے رہی۔ نان فنڈ انکم 41% اضافے کے ساتھ 53.9 بلین روپے تک پہنچ گئی، HBL کے فیس فرنیچائز نے شاندار نتائج دیئے، ایک بار پھر 35% اضافے کے ساتھ 37.3 بلین روپے تک پہنچ گئے۔ بینک کا فلیگ شپ کارڈز کا کاروبار مارکیٹ لیڈر رہا، جس نے کل فیس میں تقریباً 50% اضافہ کیا جبکہ ٹریڈ، کیش مینجمنٹ اور ریٹیل بینکنگ نے ٹھوس شراکت سے اس میں ڈبل ڈیجٹ تک اضافہ کیا۔ اس کے نتیجے میں HBL کی مجموعی آمدنی 46% اضافے کے ساتھ 277 بلین روپے تک پہنچ گئی۔

کئی سالوں سے HBL زرعی فنانشنگ کے شعبے میں سر فہرست رہا ہے اور اپنے حریفوں سے بہت آگے ہے، جس کا ثبوت بینک کا 35% مارکیٹ شیئر ہے۔ 2023ء میں پورٹ فولیو 13% اضافے کے ساتھ 57 بلین روپے تک پہنچ گیا۔ 8,500 سے زائد نئے صارفین کا اضافہ ہوا جبکہ نئے قرضوں کی فراہمی 15% اضافے کے ساتھ 19 بلین روپے تک پہنچ گئی۔ HBL کو مسلسل دوسرے سال پاکستان بینکنگ ایوارڈز میں بہترین بینک برائے ایگری کلچر کا ایوارڈ دیا گیا اور 2023ء میں اس ایوارڈ کے ساتھ HBL کو یہ اعزاز پانچویں بار حاصل ہوا ہے۔

HBL ایچ پی آئی بینکنگ کے شعبے میں 3.1 ملین سے زائد ملازمین کو پمپشن اور پے رول خدمات فراہم کر کے سرفہرست ہے، جس کے تحت ڈپازٹ بیلنس 400 بلین روپے سے زائد تک بڑھ گیا ہے۔ ایچ پی آئی بینکنگ کی تمام ٹرانزیکشنز کا 95% سے زیادہ حصہ ڈیجیٹل چینلوں کے ذریعے پروسیس ہوتا ہے۔ HBL اس پیشکش کے تحت مندرجہ افراد کو اضافی فوائد کی پیش کش کر کے اس پروڈکٹ میں توسیع جاری رکھے ہوئے ہے۔

HBL کا انویسٹمنٹ بینکنگ کا نمایاں کاروبار خصوصی ماہر ٹیموں کے ذریعے انویسٹمنٹ بینکنگ کی مصنوعات اور منظم خدمات کا ایک مکمل مجموعہ فراہم کرتا ہے۔ 2023ء میں مشکل معاشی حالات کے باوجود HBL نے 765 بلین روپے سے زائد مالیت کے 26 سودے کامیابی کے ساتھ مکمل کیے۔ ان ٹرانزیکشنز کا تعلق قابل تجدید توانائی، ریئل اسٹیٹ، ٹیلی کام، توانائی کی پیداوار اور ٹرانسمیشن اور FMCG کمپنیوں سمیت مختلف شعبوں سے تھا۔ اس میٹڈیٹ میں انویسٹمنٹ بینکنگ کی تمام سہولتیں شامل تھیں، جن میں قرض اور ایکویٹی دونوں کا احاطہ کیا گیا تھا۔ اپنی بہترین سروس کے اعتراف کے طور پر، HBL کی انویسٹمنٹ بینکنگ ٹیم نے سال کے دوران بین الاقوامی اور مقامی اداروں کی جانب سے 19 اعزازات حاصل کیے، جن میں پاکستان میں بہترین انویسٹمنٹ بینک کا ایوارڈ بھی شامل ہے۔

HBL کی پاکستان کی ترقی میں کردار ادا کرنے کی حکمت عملی کے مطابق انویسٹمنٹ بینکنگ ٹیمیں قومی مفاد کے منصوبوں کو آسان بنانے کے لیے متعدد معاملات میں حکومت کے ساتھ مشاورت کے عمل میں مصروف ہیں۔ وسیع پیمانے پر بات چیت کے ذریعے، اس شعبے نے زراعت اور بنیادی ڈھانچے سے لے کر قابل تجدید توانائی تک کی صنعتوں میں زیادہ سے زیادہ اقتصادی نتائج یقینی بنانے کے لیے کئی متنوع معاہدے کیے ہیں۔

2023ء میں، خصوصاً سال کی پہلی ششماہی میں، اثاثہ جات کے درجات میں لیکویڈٹی کی کمی کے ساتھ، مارکیٹ میں نمایاں اتار چڑھاؤ دیکھا گیا۔ موجودہ غیر یقینی ماحول میں، کلائنٹ کے ساتھ تعلق، بیلنس شیٹ اور رسک مینجمنٹ کے ساتھ ٹرانزیکشنز کے بہاؤ اور کلائنٹ کی سرگرمی کی قریبی نگرانی توجہ کا بنیادی مرکز تھے۔ ٹریڈری کی سیلز ٹیم نے اس بات کو یقینی بنایا کہ صارفین کو فون کال کے ذریعے باقاعدگی سے اور تفصیل کے ساتھ معیشت اور مارکیٹ میں ہونے والی پیش رفت سے اچھی طرح آگاہ رکھا جائے۔ بینک کے صارفین نے اسے بہت سراہا۔ اگرچہ تجارتی اور دیگر آمدن کے سکڑتے ہوئے بہاؤ کی وجہ سے حجم 2022ء کے مقابلے میں 25% کم تھا، لیکن مارجن مینجمنٹ پر گہری توجہ نے آمدنی میں مسلسل اضافے کو یقینی بنایا۔

بینک کے فلکڈ انکم پلیٹ فارم HBL Symphony® کے حجم میں دگنا اضافہ دیکھا گیا ہے اور ہمیں توقع ہے کہ اضافی خصوصیات اور فعالیت کے ساتھ 2024ء میں اس میں خاطر خواہ اضافہ ہوگا۔ تاہم انٹرنیشنل مارکیٹ میں سختی سے کنٹرول کیے جانے کے ساتھ ساتھ ملکی تجارت کے بہاؤ میں کمی کی وجہ سے بینک کے FX پورٹل HBL Infinity® پر ٹرانزیکشن کے حجم میں تیزی سے کمی دیکھی گئی۔

WWF کا گرین آفس سرٹیفیکیشن حاصل کیا۔ تین دفاتر کے انرجی آڈٹ مکمل ہوئے، جس کی بنیاد پر اخراج کم کرنے کے لیے متعدد اقدامات شروع کیے جا رہے ہیں۔ ان میں کھڑکیوں کی ڈبل گلیزنگ، چھت انسولیشن اور HVAC اور بڑی عمارتوں میں لائٹنگ کو معقول بنانا شامل ہے۔ اپنے آپریشنز کی پائیداری کو بہتر بنانے کے لیے، bin-3ری سائیکلنگ شروع کی گئی ہے اور عملے اور دکانداروں کے ساتھ آگاہی سیشن منعقد کیے گئے ہیں۔

HBL برانڈ پاکستان کا مضبوط ترین مالیاتی خدمات فراہم کرنے والا برانڈ ہے۔ 2023ء جدید جذبے، ڈیجیٹل مہارت اور کسٹمرز کے ساتھ مستقل وابستگی کی علامت تھا۔ ان کاوشوں نے HBL کو پاکستان کے ابھرتے ہوئے نوجوانوں کے بینک کے طور پر اجاگر کیا۔ بینک سمجھتا ہے کہ یہ شعبہ ٹیکنالوجی سے واقف ہے اور اس لیے وہ انہیں رابطے میں رہنے کے لیے متعلقہ مصنوعات اور خدمات فراہم کرنے پر اپنی توجہ مرکوز کرتا ہے۔ بینک نے تقریباً 50 ملین فالوورز کے ساتھ ٹک ٹاک پلیٹ فارم کو اپنا کراہیل سے ہی متاثر کن سوشل میڈیا موجودگی کو بڑھایا ہے۔ HBL اب تقریباً تمام سوشل میڈیا پلیٹ فارمز پر مالیاتی خدمات فراہم کرنے والا معروف ادارہ ہے۔

نوجوانوں کی طرف ہماری توجہ سرگرمیوں کا مجموعہ ہے، جسے مستقل انداز میں نافذ کیا جاتا ہے۔ سوشل میڈیا انفلوئنسرز کے ساتھ کام کرنا ایسی ہی ایک کوشش ہے۔ مشترکہ طور پر، ان کے مختلف پلیٹ فارمز پر 150 ملین سے زیادہ فالوورز ہیں۔ 2023ء میں HBL نے 130 سے زائد انفلوئنسرز کے ساتھ کام کیا جنہوں نے 180 سے زائد مواد تیار کیا اور برانڈ کے ساتھ ساتھ ہماری مصنوعات کے فروغ کے لیے بینک کے لیے 11 کمپینز کیں۔ حال ہی میں، بینک نے ایک فٹ بال مقابلے کے ای گیمنگ ورژن کو اسپانسر کر کے 37 ملین سے زائد پاکستانیوں کا شوق ای-اسپورٹس میں بڑھایا ہے۔ اپنی Kconnect ایپ کے تحت HBL نے بڑے سامعین سے جڑنے کے لیے ایک برانڈ اور پروڈکٹ پیش دونوں لانچ کیے ہیں۔ ہم نے نوجوانوں پر مرکوز برانڈز کے ساتھ تخلیقی تعاون بھی شروع کیا ہے تاکہ نوجوانوں کے شعبے کے ساتھ اپنے روابط اور سمجھ کو گہرا کیا جاسکے۔

HBL کی صنعت کی معروف ٹک ٹاک کمپین اور پاکستان کے سب سے بڑے کھیلوں کے پلیٹ فارم HBLPSL کے ساتھ اس کی جاری وابستگی اب اپنے 9 ویں سال میں ہے، جو نوجوانوں تک رسائی کی کوششوں کو تیز کر رہی ہے۔ ٹک ٹاک نے HBLPSL8 کے لیے بینک کی کمپین پر ایک کیس اسٹڈی کو ٹک ٹاک گلوبل کامیابی کی کہانی کے طور پر شائع کیا۔

کمپین کے دوران 8.9 ملین ویڈیوز بنائی گئیں، جس سے پلیٹ فارم پر 8.7 ملین سے زیادہ ویوز پیدا ہوئے اور ناقابل یقین طور پر 97% پاکستانی ٹک ٹاک صارفین تک پہنچ گئے۔ HBLPSL9 کے لیے بینک نے پلٹ دو کھیل مہم کا آغاز کیا ہے۔ روایتی اور سوشل میڈیا دونوں پر یہ پیغام پاکستانیوں کو ملک کے مثبت پہلو کا جشن منانے، پاکستان کی حقیقی روح سمجھنے اور اسے دنیا کے سامنے پیش کرنے میں مدد دیتا ہے۔ ہر بار جب کوئی اپنے ارد گرد کچھ اچھا دیکھتا ہے تو وہ بھی اپنے فون پر ویڈیو ریکارڈ کر کے اور-Palat DoKhel # کا استعمال کرتے ہوئے اسے سوشل میڈیا پر شیئر کر کے انفلوئنسر بن سکتا ہے۔ ہم امید کرتے ہیں کہ یہ ان بہت سے مثبت اور کامیابیوں کا جشن بن جائے گا جو ہم میں سے ہر ایک اپنے ارد گرد ہر روز دیکھتا ہے اور لاکھوں پاکستانیوں میں خود اعتمادی پیدا کرے گا۔

HBL پاکستان کا پہلا بینک بن گیا ہے جس نے کلائنٹ کیئر 'X' (جسے پہلے ٹویٹر کے نام سے جانا جاتا تھا) ہینڈل "@HBLCare" لانچ کیا۔ کسٹمر کیئر ہینڈل نے HBL کے کارپوریٹ پروفاٹل (@HBLPak) سے شکایات کے حجم کا 38% موڑ دیا ہے اور صارفین کے خدشات کی فوری نگرانی اور حل دیتا ہے۔

HBL کی کامیابی کاراز اپنے ایمپلائیز کے لیے، اپنی بنیادی اقدار میں سے لوگوں کی قدر پر مضبوطی سے قائم رہنے میں ہے۔ اس رہنما اصول کے تحت حالیہ برسوں میں عملے کے لیے متعدد اقدامات کیے گئے ہیں، جن کا مقصد HBL کے ملازمین اور ان کے اہل خانہ کی زندگیاں بھرپور بنانا ہے۔

Pay for Performance Culture کے ذریعے کارکردگی میں اضافے کی خواہش کے مطابق، بینک نے اپنے پرفارمنس مینجمنٹ سسٹم کو از سر نو تشکیل دیا۔ تمام ملازمین کے لیے گولڈ اسٹینڈرڈ کیئر میں بینک کے گولڈ سے ہم آہنگ کیے گئے، تاکہ اپنے با معنی ہونے کا بہتر احساس پیدا کیا جاسکے اور اس بات کی آگاہی پیدا کی جاسکے کہ ہر ملازم کی شراکت HBL کی مجموعی کامیابی پر کس طرح اثر انداز ہوتی ہے۔ قائدانہ صلاحیتوں میں اضافے اور ہماری اخلاقیات اور اقدار پر مبنی ثقافت کے عزم کے اعادے کے لیے 400 سینئر مینیجرز کے لیے 360 ڈگری فیڈبیک میکانزم بھی شروع کیا گیا۔ کارکردگی میں نظم و ضبط اور محتاط اور بغور جائزے سے ہم ملازمین کی ایک بڑی تعداد کی حوصلہ افزائی کر سکے۔

بینک کے تنوع، مساوات اور شمولیت (DEI) کے عزم کے ایک حصے کے طور پر، مختلف صنعتوں کے اداروں سے بہترین طریقے شیئر کیے گئے۔ "PowerHour and Empowering through Inclusion" جیسے سیشنز نے مالیاتی اور غیر مالیاتی کمپنیوں کے رہنماؤں کو اکٹھا کرنے میں مدد کی، جس سے شرکاء کو مشترکہ چیلنجز اور حل شیئر کرنے میں مدد ملی۔ بینک نے چھوٹے بچوں والی خواتین کو لیکچرز کی مدد کے لیے ڈے کیئر الاؤنس بھی شروع کیا، جس سے انہیں ماں کی حیثیت سے گھر اور کیریئر میں توازن قائم کرنے میں مدد ملتی ہے۔ مختلف صلاحیتوں کے حامل افراد کی شمولیت اور انہیں مرکزی دھارے میں لانے کے عزم کو آگے بڑھانے کے لیے سال بھر باہمی

ان کی ضرورت کے مطابق تیار کردہ مصنوعات کی فراہمی کی منصوبہ بندی کر رہا ہے۔

روبونک پروسیسز آٹومیشن (RPA) پروگرام 2022ء میں شروع کیا گیا تھا، جو اب بینک بھر میں بڑے پیمانے پر اپنایا جا رہا ہے۔ RPA کا مقصد بار بار، اصول پر مبنی اور دیگر مینول کاموں کو خود کار بنا کر عمل کی درستگی کے ساتھ ساتھ کسٹمر کا تجربہ بہتر بنانا ہے۔ اس سے کئی فنکشنز میں کارکردگی میں اضافہ ہوا ہے اور اب توجہ کو اس فنکشنز پر ہے، تاکہ تمام پروسیسز کو شروع سے آخر تک ڈیجیٹل بنایا جاسکے۔ اس اقدام کے آغاز کے بعد سے، 126 پروسیسز خود کار بنائے گئے ہیں، جن سے ہر ماہ تقریباً 21,000 افرادی گھنٹوں کی بچت ہوتی ہے۔

2023ء میں بزنس سیلف سروس کے آغاز کے ساتھ ادارے میں ڈیٹا ڈیمو کرائزیشن کے لیے یہ سال اہم رہا ہے۔ یہ، ڈیٹا لیک میں زیادہ تر بنیادی سسٹم ڈیٹا کی سینٹرلائزیشن کے ساتھ مل کر آخری صارف کو ڈیٹا کی تیاری اور ترتیب کے بجائے ویلو ایڈیشن پر توجہ کے لیے بااختیار بنا رہا ہے۔ ڈیٹا تک تیزی سے رسائی اور ڈریگ اینڈ ڈراپ اینالٹکس انجام دینے کی صلاحیت نے فیصلہ سازی بہتر بنائی ہے اور بنیادی بینکنگ ٹرانزیکشنز میں مزید دور تک جانے کی صلاحیت دی ہے۔

گزشتہ چند سالوں میں بین الاقوامی کاروبار بحال کرنے کی مسلسل کوششیں رنگ لانے لگی ہیں۔ نیٹ ورک بزنس کی تعمیر پر مسلسل توجہ کے نتیجے میں ڈپازٹس اور قرضوں میں مسلسل اضافے کے ساتھ کراس ریجنل کلائنٹس میں 37% اضافہ ہوا۔ چین کا کاروبار نیٹ ورک کنیکٹیوٹی کے لیے بدستور اہم ہے۔ MENA اور جنوبی ایشیا میں صرف تین RMB انٹر میڈیٹرز میں سے ایک کے طور پر HBL کی منفرد حیثیت اسے 2023ء میں RBM حجم میں 1.75 گنا اضافے کے ساتھ بے مثال کسٹمر سلوشنز پیش کرنے کے قابل بناتی ہے۔ علاقائی تجارتی امکانات کو مزید فروغ دینے کے لیے HBL چین نے نئے مالیاتی اداروں سے شراکت داریوں کا اضافہ کیا اور جنوبی ایشیا کے لیے اپنے LC ایڈوائزر پروگرام سے فائدہ اٹھایا ہے، جس سے اسے اپنے کاروبار کو دگنہ کرنے میں مدد ملی۔ عالمی منڈیوں میں اسپریڈز وسیع کرنے میں سرگرمی کے محرک میں اضافے نے بین الاقوامی سطح پر با معنی انداز میں مثبت کردار ادا کیا ہے۔

کسٹمر کا حصول پورے بین الاقوامی نیٹ ورک میں ایک نئی بلندی پر پہنچ گیا۔ صارفین کی بڑھتی ہوئی توجہ کے ساتھ، نئی مصنوعات اور خدمات تیار کی جا رہی ہیں۔ متحدہ عرب امارات میں شروع کی گئی Prestige کی سہولت کو صارفین کا پر جوش جواب ملا اب بحرین اور برطانیہ میں توسیع کے منصوبے پر کام ہو رہا ہے۔ سنگاپور میں متعارف کی جانے والی اسلامک ڈپازٹ پروڈکٹس کو اچھی پذیرائی مل رہی ہے اور نیٹ ورک ممالک کے درمیان تجارت میں اضافہ ہو رہا ہے۔ اس کے ساتھ ساتھ ٹیکنالوجی پلیٹ فارمز، ادائیگی کے نظام اور ڈیجیٹل اپیلی کیشنز کو اپ گریڈ کیا جا رہا ہے تاکہ مصنوعات کی پیشکشوں کو بڑھایا جاسکے۔

HBL نے بینک آف چائنا کے ساتھ ایک اسٹریٹجک مفاہمت کی یادداشت پر دستخط کر کے تاریخی اتحاد کیا جو پاکستان میں اپنی نوعیت کا پہلا معاہدہ ہے۔ یہ معاہدہ اقتصادی خود مختاری، علاقائی رابطے اور ہموار علاقائی تجارتی مواقع پیدا کرنے کے مشترکہ عزم کی عکاسی کرتا ہے۔ یہ ESG اصولوں کی پاسداری کی اہمیت کو بھی اجاگر کرتا ہے۔ HBL گرین انویسٹمنٹ پرنسپلز کا بانی رکن ہے اور اب پائیدار ترقی کے لیے اپنے عزم کو تقویت دیتے ہوئے استعداد کار بڑھانے والے الائنس آف سسٹیمز اینیل انویسٹمنٹ (CASI) کا رکن بننے والا پہلا اور واحد پاکستانی بینک بن گیا ہے۔ دہلی میں حال ہی میں COP28 شروع کیا گیا، CASI پائیدار مالیات کے لیے بہترین طریقوں کو فروغ دینے کے لیے جدید معلومات کے تبادلے کے پلیٹ فارمز سے مستفید ہوتا ہے۔ یہ دونوں فورم HBL کو گرین فنانس کے حوالے سے عالمی تبدیلیوں سے جوڑے رکھتے ہیں۔

سال بھر کے دوران، بینک نے برانچ اور بیک اینڈ دونوں سطحوں پر تبدیلی نمایاں طور پر کم کرنے کے لیے مختلف اقدامات شروع کیے، جس سے صارفین کے تجربے کو بہتر بنانے میں مدد ملی۔ ایک آسان کلائنٹ آن بورڈنگ کی وجہ سے 82% کم اور درمیانے رسک اکاؤنٹس ایک ہی دن کھولے جاتے ہیں۔ HBL نے صارفین کو روایتی برانچ کاؤنٹرس سے ڈیجیٹل چینلز میں منتقل کرنے کے لیے چینل مینجمنٹ مہم کا بھی آغاز کیا، جس سے انہیں سہولت فراہم کی جاسکے جبکہ برانچوں میں بھیڑ کم ہو سکے۔

HBL کے کانٹیکٹ سینٹر نے سال بھر میں 13.2 ملین انٹراکشنز ہوئے اور 24x7 سروس فراہم کی۔ واٹس ایپ، فیس بک بوٹس اور دیگر سوشل میڈیا چینلز سمیت صارفین کے لیے متعدد نان واٹس ٹچ پوائنٹس دستیاب کیے گئے ہیں، جس سے مجموعی طور پر ماہانہ تقریباً 80 ہزار صارفین سے بات چیت کی سہولت فراہم کی گئی ہے۔ سیلف سروس مینو IVR 35 خدمات پیش کرتا ہے جس کے ذریعے 2 ملین ٹرانزیکشنز انجام دی گئیں، جس میں فوری ڈیپٹ اور کریڈٹ کارڈ ایکٹیویشن / بلاکنگ اور کریڈٹ کارڈ کی ادائیگی جیسی اہم سرگرمیاں شامل ہیں۔ سال کے دوران IVR کا استعمال 48% سے بڑھ کر 54% ہو گیا۔ سال 2023ء میں بینک کو 450,274 شکایات موصول ہوئیں جنہیں اوسطاً 4 کاروباری دن کے اندر حل کیا گیا۔

2022ء میں HBL نے 2030ء تک AKDN کے نیٹ زیرو کے ہدف کو پورا کرنے کے عزم کا اعلان کیا اور ایک بین الاقوامی کنسلٹنٹ کے ساتھ اس پر عمل درآمد پر کام کر رہا ہے۔ 235 دفاتر میں سولر بیٹیل نصب کیے گئے ہیں اور اس کے نتیجے میں سال کے دوران HBL کے کاربن فٹ پرنٹ میں 500 ملین ٹن سے زیادہ کمی واقع ہوئی ہے۔ 2024ء میں شمسی تبدیلی کے لیے مزید 80 برانچ کا ہدف مقرر کیا گیا ہے۔ بینک نے گرین آپریٹنگ پروٹوکول کو کامیابی سے نافذ کرنے کے بعد اپنے دو دفاتر کے لیے

بینک اقدار پر مبنی ثقافت کا فروغ جاری رکھے ہوئے ہے۔ اس کے مطابق، معروف طریقوں کی تعمیل کے لیے، آئیٹھکس اینڈ کنڈکٹ ٹیم کمپلائنس فنکشن میں شامل کر دی گئی ہے۔ اقدار پر مبنی طرز عمل کو مزید مربوط کرنے کے لیے، بینک اپنے طرز عمل اور ثقافت کے فریم ورک کو توسیع دے رہا ہے۔

بورڈ کمپلائنس اینڈ کنڈکٹ کمیٹی (BCNCC) تعمیل اور طرز عمل کے فریم ورک کے نفاذ کی نگرانی میں بورڈ کی معاونت کرتی ہے اور بینک بھر میں کمپلائنس کے پروگرام کے نفاذ کی نگرانی کرتی ہے۔ BCNCC اخلاقیات اور طرز عمل سے متعلق معاملات کی نگرانی کرتی ہے جس میں وسائل بلونگ کی شکایات بھی شامل ہیں۔ HBL کے وسائل بلونگ پروگرام کا مقصد بینک کی سالمیت اور ساکھ کا تحفظ ہے۔ اس کا مقصد دھوکہ دہی، بد عنوانی، ہراسانی اور بینک کے ضابطہ اخلاق کی دیگر خلاف ورزیوں کے مشتبہ کیسز کی اطلاع دینے میں ملازمین کے احساس ذمہ داری میں اضافہ کرنا ہے۔ کسی بھی متعلقہ تحقیقات کی نگرانی بورڈ آڈٹ کمیٹی (BAC) کرتی ہے جبکہ انضباطی کارروائیوں کا جائزہ بورڈ جوہن ریسورس اینڈ ریموڈیشن کمیٹی (BHRRC) لیتی ہے۔ صدر کی سربراہی میں کمپلائنس کمیٹی آف مینجمنٹ انتظامی سطح پر تعمیل اور طرز عمل سے متعلق امور کی نگرانی اور جائزہ لیتی ہے۔

کمپلائنس فنکشن ادارے بھر میں تعمیل کا ماحول مضبوط بنانے اور بینک کو فنانشل کرائم کمپلائنس مینجمنٹ سمیت قابل اطلاق قوانین اور ضوابط کی تعمیل کے قابل بنا کر کمپلائنس رسک کا بندوبست جاری رکھے ہوئے ہے۔ HBL نے ریگولیٹری کنٹریولز کے مناسب ڈیزائن اور انتظامی اثرات قابل عمل بنانے کے لیے ایک مضبوط ریگولیٹری رسک مینجمنٹ فریم ورک نافذ کیا ہے۔ اس کے مطابق، سال کے دوران بینک کے کمپلائنس رسک پر وفا کال کا ڈیزائن لیول جائزہ مکمل کیا گیا۔

ادارے میں وسیع پیمانے پر کمپلائنس کنٹریولز کو معیاری اور خود کار بنانے پر توجہ کے ساتھ، بینک متعدد پروسیجرز کے لیے BOTs کے کامیاب نفاذ کے ساتھ صنعت کی پہلی ڈیجیٹل ورک فورس قائم کر کے پاکستان بینکنگ انڈسٹری میں جدت کے ایجنڈا میں آگے بڑھ رہا ہے۔ HBL کی انٹرنیشنل برانچز سے گلوبل انسورسنگ کے لیے پاکستان میں کمپلائنس سینٹر آف ایکسی لٹس ٹرانزیکشن مانیٹرنگ اور الٹ ڈسپوزیشن میں معاونت فراہم کرتا ہے جو ایک اور تاریخی اقدام ہے۔ 2023ء میں HBL کے ٹرانزیکشن مانیٹرنگ اور سیکوریشن اسکریپٹنگ سسٹم نے کامیابی سے ایک بین الاقوامی بیجنگ مارکنگ اور توثیقی جائزہ مکمل کیا جس سے ظاہر ہوتا ہے کہ سسٹم معروف بین الاقوامی معیارات کے مطابق بنیادی خطرات کی موثر نگرانی اور انتظام کے لیے مضبوطی سے کام کر رہا ہے۔ اس شعبے میں بینک کی مستقل سرمایہ کاری پائیدار کنٹرول اور مسلسل اضافے کے لیے اس کے عزم کا ثبوت ہے۔

اپنے صارفین اور ان کے ڈیٹا کو سائبر حملوں اور ڈیٹا کی خلاف ورزیوں سے محفوظ رکھنا HBL کی ترجیح ہے۔ بینک کا انفارمیشن سیکورٹی فنکشن HBL کے ڈیٹا سیکورٹی سائبر سیکورٹی رسک کے موثر انتظام کے ذریعے اندرونی اور بیرونی خطرات سے محفوظ رکھنے میں اہم کردار ادا کرتا ہے۔ بینک کا 24x7 سیکورٹی آپریشنز سینٹر باقاعدگی سے نگرانی کے ذریعے مضبوط سیکورٹی پوزیشن میں اپنا کردار ادا کر رہا ہے، جس میں سرخ لگانے اور روک تھام کے متعدد میکانزم کی مدد حاصل ہے۔

ملازمین کو انفارمیشن سیکورٹی سے متعلق امور پر تربیت اور رہنمائی فراہم کرنے کے لیے سال بھر انفارمیشن سیکورٹی آگاہی مہمات کا انعقاد کیا جاتا ہے۔ ان کو متعدد ڈیجیٹل چیلنجز کا استعمال کرتے ہوئے صارفین کے لیے مخصوص آگاہی مہمات کے ذریعے پورا کیا جاتا ہے۔ بینک SWIFT کسٹمر سیکورٹی پروگرام کے ساتھ ساتھ ISO 27001 کی تعمیل کر رہی ہے۔ بینک آٹومیشن اور جدید ٹیکنالوجیز کے استعمال کے ذریعے اپنے سائبر دفاع کو مضبوط بنانے کے لیے پرعزم ہے، جبکہ جدید سیکورٹی خطرات تیزی سے کم کرنے کے لیے پرعزم ہے۔ یہ حفاظتی اقدامات HBL کی اپنے صارفین کا تحفظ اور ذہنی سکون یقینی بناتے ہوئے جدید ڈیجیٹل حل پیش کرنے میں معاونت کرتے ہیں۔

میل جول پر مبنی سرگرمیاں کی گئیں، جن میں اسکول کے بعد انٹرن شپ اور پاپ اپ اسٹالز تاکہ انہیں اپنی مصنوعات کی نمائش کا موقع ملے اور StaffSensitization کے سیشن شامل تھے۔ HBL کی DEI سے وابستگی کو مسلسل دوسرے سال GDEIB ایوارڈز میں سینئر آف گلوبل انکلوژن کی جانب سے پاکستان میں سب سے زیادہ شمولیت والی تنظیم-2023 کے اعزاز سے نوازا گیا۔

اس سال کے دوران سیکھنے کی سرگرمیاں کارکردگی میں اضافے کے لیے دوبارہ ہنرمندی اور دوبارہ تعیناتی کے ذریعے ہیومن ریسورسز بہتر بنانے پر مرکوز تھیں۔ مسلسل سیکھنے اور ترقی کے کلچر کے فروغ کے لیے ایک ڈیجیٹل لرننگ پلیٹ فارم، NEXUSHBL کا آغاز کیا گیا۔ یہ پروگرام ڈیجیٹل اپ اسکالنگ میں سہولت کے لیے خصوصی تیار کردہ اور گہرائی تک سیکھنے کے مواقع فراہم کرتا ہے۔ جنرل منیجرز کے لیے 2022ء میں شروع کیا گیا لیڈرشپ ایکسی لنس کا سرف، 800 سے زائد درمیانے درجے کے رہنماؤں کی اگلی سطح تک لے جایا گیا۔ ملازمین کی ریگولیشن ضروریات، عالمی بہترین طریقوں اور ملازمت پر مبنی مہارتوں سے باخبر رہنے میں مدد کے لیے 500,000 سے زیادہ افرادی گھنٹوں کی تربیت فراہم کی گئی۔ 2023ء میں HBL پاکستان کا پہلا ادارہ بن گیا جس نے Scaled Agile Framework (SAFe) نافذ کیا۔ یہ کام کرنے کا طریقہ کار اصولوں اور اقدار کا ایک مجموعہ ہے جو کسٹمر پر مرکوز موثر، تیز اور جدید حل پیش کرنے میں ہماری مدد کرے گا۔

رسک مینجمنٹ فریم ورک

HBL ایک مضبوط انٹرنل گورننس اور رسک مینجمنٹ ٹولز اور پروسیسز کے ذریعے بڑے اور ابھرتے ہوئے خطرات کی نشاندہی، تجزیہ اور کمی کا انتظام کرتا ہے۔ بورڈ آف ڈائریکٹرز سخت نگرانی اور بورڈ رسک مینجمنٹ کمیٹی (BRMC) مسلسل بنیادوں پر بینک کے رسک پروفائل کی مانیٹرنگ اور تجزیہ کرتی ہے۔ سینئر مینجمنٹ لیول پر، مختلف رسک کمیٹیاں نگرانی اور عملدرآمد کی ذمہ دار ہیں، جس میں روزانہ کی رسک مینجمنٹ سرگرمیاں مختلف لیول پر مقرر کی جاتی ہیں۔

بینک کے خطرے کی نشاندہی اور اثرات کے تجزیے کے طریقہ کار کا مقصد یقینی بنانا ہے کہ ہم اپنے مالی نتائج، طویل المیعاد اسٹریٹجک گولز اور ساکھ پر ان خطرات کے اثرات کم کریں۔ HBL کے رسک ٹیکونومی میں ظاہر ہونے والے کلیدی خطرات میں کریڈٹ رسک، مارکیٹ اور لیکویڈیٹی رسک، ساکھ کا خطرہ اور آپریشنل رسک شامل ہیں۔

معاشی حالات چیلنجنگ رہنے کی وجہ سے تناؤ کی جانچ اور کمزور طبقوں کی نشاندہی کے لیے پورٹ فولیو کے بار بار جائزے سے بینک کے کریڈٹ پورٹ فولیو کی مضبوطی اور چک یقینی بنانے میں مدد ملی۔ اسی طرح، غیر مستحکم عالمی معاشی اور سیاسی ماحول کے پیش نظر، ملک کو لاحق خطرات کا مستعدی سے بندوبست کیا گیا۔ پورٹ فولیو مانیٹرنگ میں اضافے اور خطرات کی ابتدائی شناخت کے لیے ٹولز کے استعمال پر مسلسل توجہ مرکوز رکھی گئی۔ کریڈٹ اسکور کارڈز صارفین اور SME سیگمنٹ میں ماہرین کے فیصلے سے اپ گریڈ کر کے اسٹیٹس ٹیکل ماڈل بنا دیے گئے۔

HBL مسلسل بدلتے ہوئے بیرونی ماحول میں اپنے لوگوں کو ٹولز اور مہارت فراہم کر کے ان کی معاونت جاری رکھے ہوئے ہے۔ HBL کریڈٹ اسکول، ایک جامع ماڈولر تربیتی پروگرام، ایک مستقل کریڈٹ رسک اسیسمنٹ ذہنیت کو فروغ دینے میں اہم کردار ادا کرتا ہے جو آئندہ خطرات کے محرمین پر نظر رکھنے میں اہم ہے، اور اس طرح صرف تاریخی اعداد و شمار پر مبنی رد عمل کے بجائے ایک مؤثر نقطہ نظر اپنانے میں مدد کرتا ہے۔ یہ پروگرام مکمل طور پر بینک کے سینئر ریسورسز نے تیار کیا ہے۔

مارکیٹ اور لیکویڈیٹی رسک کمیٹی اور ALCO ماہانہ بنیادوں پر مارکیٹ اور لیکویڈیٹی رسک انڈیکسز کا جائزہ لیتے ہیں۔ اس بات کو یقینی بنانے کے لیے ایک جامع ڈھانچہ موجود ہے کہ بینک مارکیٹ کے خطرے کی برداشت کے اندر رہے۔ آپریشنل رسک مینجمنٹ سال کے دوران توجہ کا مرکز رہا۔ آپریشنل رسک مینجمنٹ کو منظم اور مستقل انداز میں چلانے کے لیے پالیسیاں اور طریقہ کار وضع کیے گئے۔ انٹیگریٹڈ رسک اینڈ کنٹرول رپوزیٹوری (ICRC)، کی رسک انڈیکسز اور آپریشنل لاس ڈیٹا مینجمنٹ جیسے اہم ٹولز آپریشنل رسک کے امکانات اور واقعات کی شدت کا اندازہ لگانے کے لیے استعمال کیے جاتے ہیں۔ بینک کے آپریشنل رسک پروفائل اور دھوکہ دہی کے خطرے کی تجزیے پر باقاعدگی سے سینئر مینجمنٹ فورمز اور BRMC میں تبادلہ خیال ہوتا ہے۔

رسک مینجمنٹ فنکشنز میں انٹرنل رسک مینجمنٹ فریم ورک (ERMF) کے ذریعہ بہتری لائی گئی ہے۔ بینک کے تمام فنکشنز پر لاگو ہونے والا یہ ادارہ رسک مینجمنٹ کے اصولوں کا خاکہ پیش کرتا ہے اور گورننس کے ڈھانچے، معیارات، مقاصد اور مختلف فنکشنز کی بنیادی ذمہ داریوں کا تعین کرتا ہے۔ ICRC بینک کے ہر شعبے کا احاطہ کرتا ہے اور ایک جامع انداز میں تمام خطرات اور مسائل کی نشاندہی اور تجزیے میں مدد کرتا ہے، جس سے ان کی مناسب نگرانی اور خطرات میں کمی یقینی ہو جاتی ہے۔ اس سال اہم خطرے کی نگرانی اور کمی کے لیے ایک ریپوٹیشنل رسک مینجمنٹ فریم ورک بھی تیار کیا گیا ہے۔

موجود ہیں۔ مشرق وسطیٰ کی صورت حال کی بگڑتی ہوئی صورت حال اور یوکرین میں ایک بے مقصد تعطل عالمی قیمتوں اور شپنگ کے اخراجات پر اثر انداز ہو رہا ہے اور یہ وقتی ہے کہ یہ ہماری جیسی درآمد پر منحصر معیشتوں کو متاثر کریں۔

2024ء میں بین الاقوامی منظر نامہ زیادہ مددگار ثابت ہو سکتا ہے، کیونکہ G-20 افراط زر کم ہو رہا ہے، سال کے آخر میں عالمی شرح سود میں کمی کی پیش گوئی کی گئی ہے، اور جی ڈی پی کی نمو میں نرمی آئے گی، اس طرح ابھرتی ہوئی اور فرنیچر مارکیٹوں میں زیادہ رسک کیپٹل جاری ہو گا۔ اس سے پاکستان اور دنیا بھر میں سرمائے کے بہاؤ میں مدد ملے گی، جس سے HBL کی مقامی اور بین الاقوامی فرنیچرز کو فائدہ ہو گا۔ مارچ میں EFF کے متوقع آغاز پر، ہم توقع کرتے ہیں کہ GCC کے ادارے مارکیٹ میں دوبارہ داخل ہوں گے، اگرچہ آہستہ آہستہ، اس طرح ملک کے بیرونی شعبے کو آہستہ آہستہ بحال کرنے میں مدد ملے گی۔

ماضی قریب میں سب سے مشکل سالوں میں سے ایک میں، HBL نے ایک اور ریکارڈ سال فراہم کرتے ہوئے مشکلات کا مقابلہ کیا ہے۔ مضبوط ڈیویڈنڈ میسج فرنیچرز کے عہدہ نتائج کو بین الاقوامی کاروبار کی طرف سے ٹھوس شراکت کے ساتھ پورا کیا گیا ہے۔ ہمارے آپریشنز کے زیادہ تر شعبوں میں قائدانہ مقام حاصل کیا گیا ہے یا مزید توسیع کی گئی ہے۔ ہمارا نوایسٹمنٹ بینکنگ بزنس اہم ہے، جو ایوارڈز لیتا جا رہا ہے، جبکہ ٹرانزیکشن بینکنگ کو اس کے صارفین کی طرف سے سراہا جاتا ہے جنہوں نے سال بہ سال، ہمیں بہترین سروس فراہم کنندہ کے طور پر ووٹ دیا ہے۔ حقیقت یہ ہے کہ یہ کلائنٹ کی رائے پر مبنی ہیں جو انہیں اور بھی بامعنی بناتے ہیں۔ ہم ان نتائج کو اپنے کلائنٹ کے نام کرتے ہیں، جن میں سے بہت سے نسلوں سے ہمارے ساتھ بینکنگ کر رہے ہیں اور جو ہمارے تمام کاموں کا مرکز ہیں۔

HBL نے کئی سالوں میں مستقل عزم کے ساتھ پاکستان میں زرعی فنانسنگ کو تبدیل کیا ہے۔ ہمارے ترقیاتی مالیاتی اقدام نے پہلے ہی کسانوں کی زندگیوں پر ڈرامائی مثبت اثرات مرتب کیے ہیں اور HBL زرعی پاکستان میں ایک بالکل نئے زرعی پیراڈائم کا آغاز کرے گا۔ پاکستان کے بہترین زرعی بینک کے طور پر ہمارا پانچ مرتبہ تسلیم کیا جانا اس شعبے میں ہمارے اقدامات کا ثبوت ہے کیونکہ ہمیں ریگولیٹرز، صارفین اور صنعت کی جانب سے تبدیلی لانے والی قیادت کے طور پر تسلیم کیا گیا ہے۔

HBL میں ہمارے کاروبار کے ہر پہلو کی ڈیجیٹلائزیشن میں اضافہ طرز زندگی بن گیا ہے۔ موبائل ایپ کے ذریعے پیپر لیس کنزیومر فنانسنگ سے لے کر کسانوں کی ریویو ڈیجیٹل آن بورڈنگ، مائیکرو فنانس صارفین کے لیے ای والٹ اور ای اسپورٹس میں ہمارے تازہ ترین منصوبے تک۔ اس سال، ہم نے ایک بار پھر پاکستان کی مالیاتی خدمات کے منظر نامے کو تشکیل دینے کے لیے ٹریل بلیزنگ مصنوعات متعارف کروائی ہیں۔ ڈیجیٹل انوائسنگ، ایک اردو موبائل ایپ، بصارت سے محروم افراد کے لیے ٹاک بیک۔ HBL نے خود کو ڈیجیٹل بینکاری کی جگہ کے ہر پہلو میں ایک اہم کھلاڑی کے طور پر منوایا ہے، جس سے صارفین کے استعمال میں تیزی آئی ہے۔ P@ SHA کے ساتھ اس کی شراکت داری پاکستان کے نمایاں لیکن کم شہرت یافتہ شعبوں میں سے ایک کو ظاہر کرنے کا ایک موقع فراہم کرتی ہے، اس طرح HBL کے پاکستان کی کامیابی اور ترقی میں اپنا کردار ادا کرنے کا مقصد پورا کرتا ہے۔ HBL موبائل سے لے کر Konnect تک، QR سے HBL Pay تک، بینک اپنے صارفین کے لیے تخلیقی، اپنی نوعیت کا پہلا حل پیش کرنے میں آگے ہے اور بینکنگ لائسنس کے ساتھ ٹیکنالوجی کمپنی کی حیثیت سے اپنی پوزیشن کو مستحکم کرتا ہے۔ HBL کے ڈیجیٹل ایوارڈز، ایشیائی کے بہترین بینک برائے ڈیجیٹل سلوشنز سے لے کر CFA سوسائٹی کے بہترین ڈیجیٹل سروسز ایوارڈ تک، ہماری پیشرفت کی آزادانہ بیرونی توثیق فراہم کرتے ہیں۔

ہم جو کچھ بھی کرتے ہیں اس کے تمام پہلوؤں میں ایک لفظ۔ پائیداری۔ ہوتا ہے۔ اس سال ہم نے اپنی دوسری سسٹینبلٹی رپورٹ جاری کی، جسے اسٹیک ہولڈرز کی ایک بڑی تعداد نے وسیع پیمانے پر سراہا۔ HBL نے ملکی مدد کے لیے ہر شعبے میں قدم رکھا ہے اور رکھتا ہے گا۔ ہم پبلک پرائیویٹ پارٹنرشپ ماڈل کے تحت حکومت کی مدد کرتے ہوئے معیشت کے تمام شعبوں میں فکری قیادت فراہم کرنے کا جنون رکھتے ہیں۔ ہم HBLPSL کے لیے اپنی سپورٹ کے لیے پرجوش ہیں۔ ایک ایسا پونٹ جس نے بلاشبہ پاکستان کو عالمی کرکٹ کے نقشے پر واپس لانے میں مدد کی ہے اور لاکھوں پاکستانیوں کو خوش کیا ہے۔ پاکستان اور دنیا بھر میں۔ PalatDoKhel# کے ذریعے ہم امید کرتے ہیں کہ پاکستانیوں کا پاکستان پر فخر بحال ہو گا اور ان کی حوصلہ افزائی ہوگی کہ وہ ان بے شمار مثبت پہلوؤں کو ظاہر کریں جو ہم ہر روز دیکھتے ہیں۔ گرین انویسٹمنٹ اصولوں کے بانی رکن اور CASI کے حالیہ رکن کی حیثیت سے، ہم دنیا کے سب سے اہم مسئلے۔ آب و ہوا کی تبدیلی سے نمٹنے کے عزم پر زور دیتے ہیں۔ ہم HBL نساء کے ذریعے خواتین کی شمولیت اور صنفی تنوع کے اہداف سمیت تمام پہلوؤں میں مالی شمولیت پر مسلسل توجہ مرکوز کیے ہوئے ہیں۔ کنیکٹ اور مائیکرو فنانس کے ذریعے پسماندہ افراد کو شامل کرنا؛ ہمارے ٹچ پوائنٹس پر مخصوص بھرتیوں اور سہولیات کے ذریعے مختلف صلاحیتوں کے حامل افراد کو شامل کرنا؛ اور پاکستان اور پاکستانیوں کے روشن مستقبل کو یقینی بنانے کے لیے ہماری معروف سوشل میڈیا موجودگی کے ذریعے نوجوانوں کو شامل کرنا۔ ہم ایک بار پھر پاکستان میں سب سے زیادہ شمولیت والے ادارے کے طور پر نامزد ہونے پر فخر محسوس کرتے ہیں۔

کریڈٹ ریٹنگ

جون 2023ء میں، بینک کی کریڈٹ ریٹنگ کی دوبارہ تصدیق VIS کریڈٹ ریٹنگ کمپنی لمیٹڈ کے ذریعے بالترتیب طویل المیعاد اور قلیل المیعاد کے لیے AAA/A-1 ہوئی۔ حال ہی میں دونوں اضافی Tier 1 سرمائے کے طور پر جاری کردہ TFCs کی ریٹنگ کی بھی AA+ کے طور پر دوبارہ تصدیق کی گئی۔ تمام ریٹنگ میں منظر نامہ مستحکم ہے۔ یہ ریٹنگ ملک کے سب سے بڑے کمرشل بینک کی حیثیت سے HBL کے مقام کی توثیق کرتی ہے اور اس کی مستحکم تنظیمی اہمیت اور انتظامی تنوع کی عکاس ہے۔ ریٹنگ کی حمایت میں VIS نے HBL کے نمایاں لیکوئڈ ذخائر کے ساتھ ڈومیسٹک لینڈنگ میں اس کی مستقل مستحکم کارکردگی اور سازگار ایسیٹ کوالٹی برقرار رکھنے کی بھی نشان دہی کی۔ Moody's نے ریٹنگ منفی سے مستحکم منظر نامے کے ساتھ کم کر کے Caa1 سے Caa3 کی ہے۔ جو HBL سمیت ملک کے تمام بڑے بینکوں کے لیے اس اقدام کی عکاسی کرتا ہے۔

مستقبل کا منظر نامہ

مالی سال 23ء کے اختتام پر پاکستان نے ادائیگیوں کے توازن کے بحران کو بلائے طاق رکھ دیا۔ چونکہ پچھلے EFF کو بنیادی طور پر ختم کر دیا گیا تھا، لہذا حکومت 9 ماہ کا SBA حاصل کرنے میں کامیاب رہی جس نے اس وقت ڈوبتے کو تنکے کا سہارا دے دیا۔ مارچ میں SBA ختم ہو جائے گا اور ملک کی رو بصحت لیکن اب بھی نازک مالی صورتحال، جس میں FX کے ذخائر 2 ماہ سے بھی کم درآمدات پر ہیں، جنہیں IMF کی چھتری سے باہر منظم نہیں کیا جاسکتا ہے۔ اس وقت SBA کے دوسرے جائزے کی شرائط بڑی حد تک پوری کر دی گئی ہیں اور IMF کے پیغامات مثبت نظر آ رہے ہیں۔ تاہم، ایک طویل المیعاد EFF پروگرام پر مارچ تک بات چیت کرنا ہوگی جو بقا کے لیے ضروری ہے۔ فروری کے اوائل میں قومی انتخابات کسی حد تک کامیابی کے ساتھ مکمل ہونے کے باوجود، تحریر کے وقت، ایک نئی حکومت، اور سب سے اہم، ایک نئے وزیر خزانہ کا اعلان ہونا بھی باقی ہے۔ لہذا EFF کو محفوظ بنانے میں آنے والی حکومت پہلے سے ہی مصروف ہوگی۔

نگران حکومت کی جانب سے کی جانے والی ڈھانچہ جاتی اصلاحات سے ہماری حوصلہ افزائی ہوئی ہے۔ جیسے غیر قانونی سرمائے کی منتقلی روکنے کا فیصلہ، اور SOE نجکاری پر پیش رفت۔ قوی امید یہ ہے کہ تمام سیاسی جماعتیں اس سلسلے کو جاری رکھنے اور IMF کے نئے پروگرام پر دستخط کرنے کے لیے بھرپور انداز سے تیار ہوں گی اور حالیہ برسوں میں پاپولسٹ رویہ۔ جو معیشت کے لیے بہت نقصان دہ رہا ہے۔ غیر فعال رہے گا۔ لہذا بحالی کا ایک مستحکم راستہ ممکن ہے اور مالی سال 24ء کے لیے شرح نمو 2.5 سے 3.0 کے درمیان رہے گی۔ تاہم، پائیدار اور زیادہ جامع معاشی ترقی کے حصول کے لیے حکومت کو توانائی کے شعبے میں اصلاحات کے نفاذ کو ترجیح دینے، خسارے میں چلنے والے سرکاری اداروں کی گورننس بنیادی طور پر بہتر بنانے کے لیے نجکاری اور ٹیکس بیس وسیع کرنے کی ضرورت ہے۔ یہ آخری کام اس لیے ضروری اور سب سے اہم ہے تاکہ یقینی بنایا جائے کہ ان کے پاس دیرینہ سماجی اور معاشی ترقی کے لیے فنڈز ہوں۔

افراط زر میں اضافہ آبادی کی اکثریت کو درپیش واحد سب سے بڑا معاشی مسئلہ رہا ہے۔ ہم توقع کرتے ہیں کہ اسٹیٹ بینک قیمتوں میں اضافہ کم کرنے کے لیے مثبت حقیقی شرح سود (بنیادی افراط زر پر) برقرار رکھے گا۔ FX ریٹ کا منظر نامہ بے ضرر ہے، اور عالمی اجناس اور دیگر قیمتوں میں نرمی آنا شروع ہو گئی ہے، ہم توقع کرتے ہیں کہ سال کے دوران افراط زر میں مسلسل کمی آئے گی، جس کے ساتھ پالیسی ریٹ میں بتدریج نرمی ہوگی۔ تاہم، اس بار جیو پالیٹکل عوامل کی وجہ سے بڑھتے ہوئے خطرات

In our opinion and to the best of our information and according to the explanations given to us, the unconsolidated statement of financial position, unconsolidated profit and loss account, the unconsolidated statement of comprehensive income, unconsolidated statement of changes in equity and unconsolidated cash flow statement together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Bank's affairs as at 31 December 2023 and of the profit and other comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements section of our report. We are independent of the Bank in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the unconsolidated financial statements of the current period. These matters were addressed in the context of our audit of the unconsolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following is the key audit matter:

S. No.	Key audit matter	How the matter was addressed in our audit
1	<p>Provision against advances</p> <p>Refer notes 4.4 and 9.5 to the Bank's unconsolidated financial statements for the accounting policy and particulars of provision against advances.</p> <p>The Bank's advances to customers represent 32% of its total assets. These are stated net of provision against advances of Rs. 96.28 billion as at 31 December 2023.</p> <p>Estimation of provision against advances involves use of significant management judgements and estimation uncertainty along with compliance with the regulatory requirements. These judgments are subjective and can significantly influence the provision against advances. Therefore, we have considered provision against advances as a key audit matter.</p>	<p>Our audit procedures to access the provision against domestic advances, amongst others, included the following:</p> <ul style="list-style-type: none"> • Assessed the design and tested the operating effectiveness of controls over classification and grading of customers, including: <ul style="list-style-type: none"> - The accuracy of data input into the system used for credit grading; - The ongoing monitoring and identification of advances displaying indicators of impairment and whether they are migrating on a timely basis to early alert or to higher risk grade; - Identification of past due customers. • For a sample of advances, where the management has not identified as displaying indicators of impairment, challenged the management's assessment by comparing the historical performance, financial ratios and reports on security maintained and formed our own view whether any impairment indicators are present. • For a sample of advances, where management has identified as displaying indicators of impairment, assessed the number of days overdue including the basis used for the calculation of provision in accordance with the Prudential Regulations. • Analysed the days past due report and factors used for calculation of specific provision required in accordance with Prudential Regulations. <p>We issued instructions to the auditors of those overseas branches which were selected for audit, highlighting 'Impairment of loans and advances' as a significant risk. The auditors of those overseas branches performed audit procedures to respond to the significant risk and reported the results thereof to us. We, as auditors of the Bank, also evaluated the work performed by the component auditors through their files review and discussions with them.</p>

Information Other than the Consolidated and Unconsolidated Financial Statements and Auditor's Reports Thereon

Management is responsible for the other information. The other information comprises the information included in the Bank's Annual Report for the year ended 31 December 2023 but does not include the consolidated and unconsolidated financial statements and our auditor's reports thereon.

Our opinion on the unconsolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the unconsolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the unconsolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and the Board of Directors for the Unconsolidated Financial Statements

Management is responsible for the preparation and fair presentation of the unconsolidated financial statements in accordance with the accounting and reporting standards as applicable in Pakistan, the requirements of Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of unconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the unconsolidated financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Board of directors is responsible for overseeing the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the unconsolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these unconsolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the unconsolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the unconsolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the unconsolidated financial statements, including the disclosures, and whether the unconsolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the unconsolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. Based on our audit, we further report that in our opinion:
 - a) proper books of account have been kept by the Bank as required by the Companies Act, 2017 (XIX of 2017) and the returns referred above from the branches have been found adequate for the purpose of our audit;
 - b) the unconsolidated statement of financial position, the unconsolidated profit and loss account, the unconsolidated statement of comprehensive income, unconsolidated statement of changes in equity and unconsolidated cash flow statement together with the notes thereon have been drawn up in conformity with the Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
 - c) investments made, expenditure incurred and guarantees extended during the year were in accordance with the objects and powers of the Bank and the transactions of the Bank which have come to our notice have been within the powers of the Bank; and
 - d) zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980) was deducted by the Bank and deposited in the Central Zakat Fund established under section 7 of that Ordinance.
2. We confirm that for the purpose of our audit we have covered more than sixty per cent of the total loans and advances of the Bank.

The engagement partner on the audit resulting in this independent auditor's report is Aryn Pirani..

2.2 Statement of compliance

These unconsolidated financial statements have been prepared in accordance with accounting and reporting standards as applicable in Pakistan. These comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act, 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan (ICAP) as are notified under the Companies Act, 2017;

Whenever the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017, or the directives issued by the SBP and the SECP differ with the requirements of IFRS or IFAS, the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives shall prevail.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

The SBP, vide its BSD Circular Letter no. 10 dated August 26, 2002, has deferred the applicability of International Accounting Standard 39, Financial Instruments: Recognition and Measurement and International Accounting Standard 40, Investment Property, for banking companies till further instructions. Further, the SECP, through S.R.O 411(1)/2008 dated April 28, 2008, has deferred the applicability of IFRS 7, Financial Instruments: Disclosures, to banks. Accordingly, the requirements of these standards have not been considered in the preparation of these unconsolidated financial statements. However, investments have been classified and valued in accordance with the requirements prescribed by the SBP through various circulars.

The SECP has notified Islamic Financial Accounting Standard (IFAS) 3, 'Profit and Loss Sharing on Deposits' with effect from January 1, 2014. The SBP through BPRD Circular Letter No. 4 dated 25 February 2015, has deferred the applicability of IFAS 3 till further instructions.

IFRS 10, Consolidated Financial Statements, was notified by the SECP as applicable for accounting periods beginning from January 1, 2015. However, the SECP, through SRO 56(I)/2016 dated January 28, 2016, has directed that the requirement of consolidation under this standard and under Section 228 of the Companies Act, 2017, is not applicable in the case of investments by a bank in mutual funds managed by its own asset management company and established under the trust structure. Therefore, investments by the Bank in mutual funds managed by HBL AMC are not consolidated as would otherwise be required under the definition of control specified in IFRS 10.

These unconsolidated financial statements of the Bank are prepared using generally consistent accounting policies. However, Overseas branches comply with the local regulations enforced within their respective jurisdictions.

2.3 Amendments to existing accounting and reporting standards that have become effective in the current year

There are certain amendments to existing accounting and reporting standards that have become applicable to the Bank for accounting periods beginning on or after January 1, 2023. These are considered either to not be relevant or to not have any material impact on these unconsolidated financial statements.

2.4 Standards and amendments to existing accounting and reporting standards that are not yet effective

As directed by SBP vide BPRD Circular letter no. 7 of 2023, IFRS 9, Financial Instruments is effective for periods beginning on or after January 1, 2024.

The financial statements of overseas branches will continue to be based on the respective host country's regulatory regime. For accounting periods beginning on or after January 1, 2025, banks will be required to comply with the SBP's application instructions for overseas branches in preparing their unconsolidated financial statements.

The Bank expects that amendments to existing accounting and reporting standards will not affect its financial statements in the period of initial application.

2.4.1 IFRS 9, Financial Instruments

The management of the Bank has carried out an assessment of the impact of the application of IFRS 9, taking into account the SBP's application instructions. The assessment is based on currently available information and may be subject to change at the time of recognizing the initial impact of the adoption of IFRS 9. The actual impact on the Bank's financial statements for the year 2024 will depend on the financial instruments that the Bank holds during that period and the economic conditions at that time, as well as accounting elections and judgements that it will make in future.

Classification and measurement

The classification and measurement of financial assets depends on their contractual cash flow characteristics and the entity's business model. Financial assets that meet the Solely Payment of Principal and Interest (SPPI) criteria are measured at amortized cost, Fair Value Through Profit & Loss (FVTPL) or Fair Value through Other Comprehensive Income (FVOCI). However, financial assets that do not meet the SPPI criteria are always measured at FVTPL. The Bank has reviewed the impact of the initial adoption of IFRS 9 on its financial assets as follows:

Equity Securities

Listed equity securities currently classified as held-for-trading will be classified as FVTPL.

For certain listed equity securities currently classified as available-for-sale (AFS) with gains and losses recorded in OCI, the Bank will apply the option to classify them as FVOCI. Therefore, the application of IFRS 9 will not have an impact on equity on initial adoption. However, in accordance with the requirements of the standard, gains and losses subsequently recognized in OCI will not be recycled through the profit and loss account, even on derecognition of these securities.

The remaining listed equity securities will be measured at FVTPL. The current surplus / deficit on revaluation of those securities will be transferred to retained earnings. Hence, there will be no impact on equity.

Unlisted equity securities are currently carried at the lower of cost or breakup value as per SBP instructions. These will be measured at fair value under IFRS 9, and the Bank is in the process of developing methodologies to assess their fair values. These will be classified in the same manner as described above for listed equity securities.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

Debt securities and Loans and advances

Debt securities may be classified at FVTPL, FVOCI or at amortized cost. Debt securities that pass the SPPI test will be measured at FVOCI or at amortized cost as per the Bank's business model i.e. either to hold those assets to collect contractual cash flows and also to sell those assets or just to hold the assets to collect contractual cash flows.

Debt securities that do not pass the SPPI test will be measured at FVTPL.

Impairment

The impairment requirements of IFRS 9 apply to financial assets measured at amortized cost and FVOCI (other than equity instruments), and certain loan commitments and financial guarantee contracts. At initial recognition, an impairment allowance (or provision in the case of commitments and guarantees) is required for expected credit losses (ECL) from potential default events.

For calculating ECL, the Bank shall classify its financial assets under the following three categories:

- Stage 1 - Performing assets: For financial assets where there has not been a Significant Increase in Credit Risk (SICR) since initial recognition, the Bank shall recognize an impairment allowance based on the 12-month ECL.
- Stage 2 - Underperforming assets: For financial assets where there has been a SICR since initial recognition, but which are not credit impaired, the Bank shall recognize an impairment allowance based on lifetime ECL.
- Stage 3 - Non-performing assets: For financial assets which have evidence of credit impairment at the reporting date, the Bank shall recognize ECL using the higher of (a) the total lifetime ECL computed for all stage 3 loans under IFRS 9 and (b) the corresponding provision required as per the Prudential Regulations.

Under the SBP's instructions, the Bank is not required to compute ECL on Government Securities and on Government-guaranteed credit exposure in local currency.

Based on the SBP's IFRS 9 application instructions, the Bank has performed an ECL assessment taking into account the following key elements:

- Probability of Default (PD): The probability that a counterparty will default over the next 12 months from the reporting date (12-month ECL, Stage 1) or over the lifetime of the product (lifetime ECL, Stage 2).
- Exposure at Default (EAD): The expected balance sheet exposure at the time of default, incorporating expectations on drawdowns, amortization, prepayments and forward-looking information where relevant.
- Loss Given Default (LGD): An estimate of the loss incurred on a facility in the event of default by a customer. LGD is calculated as the difference between contractual cash flows due and those that the Bank expects to receive, including from the liquidation of any collateral. It is expressed as a percentage of the EAD.

Significant increase in credit risk (SICR)

A SICR is assessed in the context of an increase in the risk of a default occurring over the life of the financial instrument compared to the risk of default expected at the time of initial recognition. The Bank uses a number of qualitative and quantitative measures in assessing SICR including, inter alia, the deterioration of Obligor Risk Ratings (ORR), payments being past due by 60 days or more, unavailability of financial information and pending litigation.

At every reporting date, the Bank shall assess whether there has been a SICR since the initial recognition of the asset, in which case, the asset must be assigned to the appropriate stage of credit impairment (Stage 2 or 3).

Presentation and disclosure

IFRS 9 also requires expanded disclosures and changes in presentation which will be incorporated as per the SBP's revised format.

Impact of adoption of IFRS 9

The Bank has elected to follow the modified retrospective approach for restatement i.e. comparative figures will not be restated on the initial application of IFRS 9. Instead, the cumulative impact will be recorded as an adjustment to equity at the beginning of the accounting period.

Financial impact

The total estimated impact (net of tax) of the adoption of IFRS 9 on the opening balance of the Bank's equity as at January 1, 2024 is a decrease of approximately Rs. 17.611 billion due to ECL.

Impact on regulatory capital

The SBP has permitted banks to adopt a transitional approach to phase in the initial impact of the ECL for stage 1 and 2 financial assets over a period of five years.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

Governance, ownership and responsibilities

The Bank has adopted a governance framework under which the Board Audit Committee is tasked with overseeing the implementation of IFRS 9. A Steering Committee for the implementation of IFRS 9, chaired by the CFO, is in place including representation from Risk, all front-line businesses, Operations and IT.

Risk Management has developed models / methodologies for calculating the PD, LGD, EAD and Credit Conversion Factors (CCF) for off-balance sheet exposures. These models shall be validated annually including:

- ECL model design, data quality and benchmarking with external best practices.
- Calibration testing which ensures the accuracy of the observed PDs.

Finance identifies, prepares and extracts the data required for the modelling of risk parameters and the ECL calculations. The Bank has also implemented an automated system for the calculation of ECL.

2.5 Critical accounting estimates

The preparation of unconsolidated financial statements in conformity with accounting and reporting standards as applicable in Pakistan requires the use of certain accounting estimates. It also requires the management to exercise its judgement in the process of applying the Bank's accounting policies. Estimates and judgements are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. The areas where various assumptions and estimates are significant to the Bank's financial statements or where judgement was exercised in the application of accounting policies are as follows:

- Classification of investments (note 4.3)
- Valuation and impairment of subsidiaries, associates and investments (note 4.3)
- Provision against advances (note 4.4)
- Valuation and depreciation of fixed assets (note 4.5)
- Valuation and depreciation of right-of-use assets and their related lease liabilities (note 4.6)
- Valuation and amortization of intangible assets (note 4.7)
- Valuation of non-banking assets acquired in satisfaction of claims (note 4.8)
- Valuation of defined benefit plans (note 4.12)
- Taxation (note 4.15)
- Fair value of derivatives (note 4.21)

Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

During the year, the Bank has reviewed its estimate of the useful life of vehicles used in its UAE business, resulting in a change in the Bank's estimate of their useful lives. These revisions have been accounted for as a change in accounting estimate as per the requirements of IAS 8 and accordingly, have been recognised prospectively in the unconsolidated profit and loss account from the current year.

The impact of this change is disclosed in note 10.2.1.

3 BASIS OF MEASUREMENT

3.1 Accounting convention

These unconsolidated financial statements have been prepared under the historical cost convention except for:

- Certain classes of fixed assets and non-banking assets acquired in satisfaction of claims, which are stated at revalued amounts less accumulated depreciation.
- Investments classified as held-for-trading and available-for-sale, which are measured at fair value.
- Derivative financial instruments, including forward foreign exchange contracts, which are measured at fair value.
- Right-of-use assets and their related lease liabilities, which are measured at their present values.
- Net obligations in respect of defined benefit schemes, which are measured at their present values.

3.2 Functional and presentation currency

These unconsolidated financial statements are presented in Pakistani rupees, which is the Bank's functional currency. Amounts are rounded to the nearest thousand Rupees.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

4 MATERIAL ACCOUNTING POLICY INFORMATION

The accounting policies adopted in the preparation of these unconsolidated financial statements are consistent with those of the previous financial year.

4.1 Cash and cash equivalents

Cash and cash equivalents include cash and balances with treasury banks and balances with other banks.

4.2 Lending / borrowing transactions with financial institutions

The Bank enters into transactions of reverse repos and repos at contracted rates for a specified period of time. These are recorded as under:

4.2.1 Purchases under resale agreements (reverse repo)

Securities purchased under resale agreements are not recognised as investments in the financial statements and the amount extended to the counterparty is included in lendings to financial institutions. The difference between the purchase price and the contracted resale price is accrued on a time proportion basis over the period of the contract and recorded as markup / interest income.

4.2.2 Sales under repurchase agreements (repo)

Securities sold under repurchase agreements continue to be recognised as investments in the financial statements and the liability to the counterparty is included in borrowings. The difference between the sale price and the contracted repurchase price is accrued on a time proportion basis over the period of the contract and recorded as markup / interest expense.

4.2.3 Bai Muajjal

Bai Muajjal transactions represent sales of Sukuk on a deferred payment basis and are shown in lendings to financial institutions except for transactions undertaken directly with the Government of Pakistan which are disclosed as investments. The difference between the deferred payment amount receivable and the carrying value at the time of sale is accrued and recorded as income over the life of the transaction.

4.3 Investments

The Bank classifies its investments, other than its investments in subsidiaries and associates, into the following categories:

Held-for-trading

These are securities included in a portfolio in which a pattern of short-term trading exists, or which are acquired for generating a profit from short-term fluctuations in market prices or interest rate movements. Barring under exceptional circumstances these securities are required to be sold within 90 days from the date of their purchase.

Held-to-maturity

These are securities with fixed or determinable payments and fixed maturity that the Bank has the positive intent and ability to hold till maturity.

Available-for-sale

These are securities, other than investments in subsidiaries and associates, that do not fall under the held-for-trading or held-to-maturity categories.

4.3.1 Initial measurement

All purchases and sales of investments that require delivery within the time frame established by regulations or market convention are recognised at the trade date. The trade date is the date on which the Bank commits to purchase or sell the investment.

In the case of investments classified as held-for-trading, transaction costs are expensed through the profit and loss account. Transaction costs associated with investments other than those classified as held-for-trading are included in the cost of the investments.

4.3.2 Subsequent measurement

Held-for-trading

Investments classified as held-for-trading are subsequently measured at fair value. Any unrealised surplus / deficit arising on revaluation is taken to the profit and loss account.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

Held-to-maturity

Investments classified as held-to-maturity are subsequently measured at amortised cost using the effective interest rate method, less any impairment recognised to reflect irrecoverable amounts.

Available-for-sale

Listed securities classified as available-for-sale are subsequently measured at fair value. Any unrealised surplus / deficit arising on revaluation is recorded in the surplus / deficit on revaluation of securities account (shown as part of equity in the statement of financial position) and is taken to the profit and loss account either when realised upon disposal or when the investment is considered to be impaired.

Unlisted equity securities are carried at the lower of cost and break-up value. The break-up value is calculated with reference to the net assets of the investee company as per its latest available audited financial statements. The Bank may also use unaudited or management accounts to determine if any additional impairment needs to be charged beyond amounts already charged based on audited financial statements. Other unlisted securities are valued at cost less impairment, if any.

4.3.3 Investments in subsidiaries and associates

Investments in subsidiaries and associates are recorded at cost less impairment, if any.

4.3.4 Impairment

The Bank determines that available-for-sale listed equity investments are impaired when there has been a significant or prolonged decline in the fair value of these investments below their cost. The determination of what is significant or prolonged requires judgement. In making this judgement, the Bank evaluates, among other factors, the normal volatility in share price. In addition, impairment may be appropriate when there is evidence of deterioration in the financial condition of the investee, industry and sector performance and changes in technology. A subsequent increase in the fair value of a previously impaired listed equity security is recorded in the statement of financial position in the surplus / deficit on revaluation of securities account and only recorded through the profit and loss account when realised on disposal.

A decline in the carrying value of unlisted equity securities is charged to the profit and loss account. A subsequent increase in the carrying value, up to the cost of the investment, is credited to the profit and loss account.

Provision for diminution in the value of debt securities held in Pakistan is made as per the Prudential Regulations issued by the SBP. Provision against investments by the Bank's overseas branches is made as per the requirements of their respective regulatory regimes.

When a debt security, classified as available-for-sale, is considered to be impaired, the balance in the surplus / deficit on revaluation of securities account is transferred to the profit and loss account as an impairment charge. If, in a subsequent period, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised, the impairment loss is reversed through the profit and loss account.

When a debt security, classified as held-to-maturity, is considered to be impaired, the impairment is directly charged to the profit and loss account as held-to-maturity securities are carried at amortized cost. Any subsequent reversal of an impairment loss, up to the cost of the investment in the debt security, is credited to the profit and loss account.

Provision for diminution in the value of other securities is made after considering objective evidence of impairment.

The Bank considers that a decline in the recoverable value of its investments in subsidiaries and associates below their carrying value may be evidence of impairment. Recoverable value is calculated as the higher of fair value less costs to sell and value in use. An impairment loss is recognised when the recoverable value falls below the carrying value and is charged to the profit and loss account. Any subsequent reversal of an impairment loss, up to the carrying value of the investment in subsidiaries and associates, is credited to the profit and loss account.

4.4 Advances

Advances are stated net of specific and general provisions. Provision against advances by the Bank's operations in Pakistan is made in accordance with the requirements of the Prudential Regulations. Provision against advances by the Bank's overseas branches is made as per the requirements of the respective regulatory regimes. Advances are written off in line with the Bank's policy when there are no realistic prospects of recovery.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

Since 2020, several borrowers have been severely impacted, initially by the COVID-19 pandemic, and since then, by the stressed economic conditions. The potential impact of the economic stress is difficult to predict, as many such borrowers have also availed the SBP enabled deferment / restructuring & rescheduling relief. Hence, management feels that it is appropriate to maintain an additional general provision on the domestic, funded performing credit portfolio excluding:

- Government guaranteed exposure
- Consumer and staff lending
- Exposure secured by cash / near cash collateral

This additional provision as at any statement of financial position date, is based on management's best estimate and can be upto and maximum of 1% of above mentioned portfolio. And on account of the devastating floods in 2022 which have impacted customers in its area of operations.

4.4.1 Finance lease receivables

Leases where the Bank transfers a substantial portion of the risks and rewards incidental to the ownership of an asset to the lessee are classified as finance leases. A receivable is recognised at an amount equal to the present value of the future lease payments including any guaranteed residual value discounted at the rate implicit in the lease. The net investment in finance lease is included in advances.

4.4.2 Islamic financing and related assets

Murabaha financing is a cost plus profit transaction. Funds disbursed for the purchase of goods are recorded as an advance against Murabaha. Once the goods are sold to the customers, the transaction is recorded as financing. Goods purchased by the Bank but remaining unsold are recorded as inventories.

The financing is recorded at the deferred sale price. Profit earned on financing is recognised as unearned income and amortised into the profit and loss account over the term of the Murabaha financing. It is possible for Bank to buy the inventory on a customer's behalf and sell it to the customers on spot basis. In this case, the entire profit is recognised immediately in the profit and loss account.

Under Ijarah financing, the Bank transfers the rights to use an asset to the customer for an agreed period for an agreed consideration. Assets given under Ijarah are stated at cost less accumulated depreciation, residual value and impairment losses, if any. The depreciation is calculated on a straight-line basis over the term of the Ijarah after taking into account the estimated residual value. Impairment of Ijarah assets is recognised in line with the Prudential Regulations or upon the occurrence of an impairment event which indicates that the carrying value of the Ijarah asset may exceed its recoverable amount. The Ijarah rental received / receivable is recognised as income on an accrual basis.

Gains or losses on disposal of Ijarah assets are taken to the profit and loss account in the period in which they arise.

For Running Musharakah the Bank and the customer enter a Musharakah (transaction or business partnership arrangement) where the Bank agrees to finance the operating activities of the customer's business and share the profit or loss at a pre-agreed ratio. Profit is provisionally recognised on an accrual basis and is adjusted once the customer declares the final profit after issuance of audited financial statements.

Under Diminishing Musharakah financing, the Bank and the customer create joint beneficial ownerships over tangible assets to fulfill the customer's capital expenditure / project requirements. The Bank receives periodic payments, partly for renting its portion of the assets to the customer and partly for the gradual transfer / sale of its share of ownership to the customer. The rental payment is recognised as profit while the asset transfer / sale payments are applied towards reducing the outstanding principal.

Under Istisna financing, the Bank gives an advance to customers for manufacturing goods and may allow their sale immediately after the goods are manufactured or allow a pre-agreed time to sell the goods on deferred payment basis as the Bank's agent to a third party. Profit is recognised at the time when the goods are sold to the third party. In case of a deferred sale, the profit is recognised on an accrual basis over the term of financing.

Under Tijarah financing, the Bank purchases finished goods from the customer against payment, takes possession and appoints the customer as an agent to sell these goods to the ultimate buyer, generally on a deferred payment basis. Goods purchased by the Bank and sold by the customer on a deferred payment basis are recognised as financing while goods purchased by the Bank but remaining unsold by the customer are recorded as inventories. Profit on the financing is recognised on an accrual basis over the period of transaction.

Wakalah is an agency contract in which the Bank provides funds to a customer to invest in a Shariah compliant manner. This is recorded as financing and profit is recognised on an accrual basis and is adjusted once the customer declares Wakalah business performance.

Salam is a sale whereby the Bank undertakes to supply some specific commodity (ies) / asset(s) to the customer at a future date in exchange for an advance price fully paid on spot.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

Currency Salam is exchange / sale of a currency with another currency at a future date, at conversion rate within the spot range on the day of such contract execution.

Under Musawamah financing, the Bank purchases the goods and, after taking possession, sells them to the customer at an agreed price without disclosing the cost incurred by the Bank. Goods purchased by the Bank can either be sold to the customer as a spot transaction or on a deferred payment basis. Goods purchased by the Bank but remaining unsold are recorded as inventories.

4.5 Fixed Assets

Fixed assets are stated at cost, except for land and buildings which are carried at revalued amounts, less any applicable accumulated depreciation and accumulated impairment losses.

Land, capital work-in-progress and works of art are not depreciated. Other items included in fixed assets are depreciated over their expected useful lives using the straight-line method. Depreciation is calculated so as to write down the assets to their residual values over their expected useful lives at the rates specified in note 10.2 to these unconsolidated financial statements. Depreciation on additions is charged from the month in which the assets are available for use. No depreciation is charged in the month in which the assets are disposed off. The residual values, useful lives and depreciation methods are reviewed and adjusted, if appropriate, at each statement of financial position date.

Land and buildings are revalued by independent professionally qualified valuers with sufficient regularity to ensure that their net carrying value does not differ materially from their fair value. If an asset's carrying value increases as a result of revaluation, such increase or surplus arising on revaluation is credited to the surplus on revaluation of fixed assets account. However, if the increase reverses a deficit on the same asset previously recognised in the profit and loss account, such increase is also recognised in the profit and loss account to the extent of the previous deficit and thereafter in the surplus on the revaluation of fixed assets account. Any accumulated depreciation at the date of revaluation is eliminated against any additional surplus on revaluation and the net carrying value is restated at the revalued amount of the asset. If the asset's carrying value decreases as a result of a revaluation, such decrease is recognised as a reduction in the surplus on revaluation of fixed assets account or, if no surplus exists / remains, is charged to the profit and loss account as an impairment of that asset.

Surplus on revaluation of fixed assets (net of associated deferred tax) is transferred to unappropriated profit to the extent of the incremental depreciation charged on the related assets.

Normal repairs and maintenance are charged to the profit and loss account as and when incurred. However, major repairs and renovations that increase the useful life of an asset are capitalised.

Gains or losses arising on the disposal of fixed assets are included in the profit and loss account. Surplus on revaluation (net of deferred tax) realised on disposal of fixed assets is transferred directly to unappropriated profit.

4.6 Right-of-use assets and their related lease liability

4.6.1 Right-of-use assets

On initial recognition, right-of-use assets (ROU) are measured at an amount equal to the initial lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to be incurred to restore the underlying asset or the site on which it is located to its original condition.

ROU assets are subsequently stated at cost less any accumulated depreciation / accumulated impairment losses and are adjusted for any remeasurement of lease liability. Such remeasurement only occurs in cases where the terms of the lease are changed during the lease tenor.

ROU assets are depreciated using the straight-line method over a period starting from the commencement date of the lease contract to the end of the estimated useful life of the ROU asset or the end of the lease term, whichever is earlier. The estimated useful lives of ROU assets are determined on the same basis as that for owned assets. Depreciation on additions (new leases) is charged from the month in which the leases are entered into. No depreciation is charged in the month in which the leases mature or are terminated.

4.6.2 Lease liability against ROU assets

Lease liabilities against ROU assets are initially measured at the present value of the remaining lease payments, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, then at the applicable incremental borrowing rate. The lease liability is subsequently measured at amortised cost using the effective interest rate method.

Each lease payment is allocated between a reduction of the liability and a finance cost. The finance cost is charged to the profit and loss account as markup expense over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

4.7 Intangible assets

Intangible assets other than goodwill

Intangible assets having a finite useful life are stated at cost less accumulated amortisation and accumulated impairment losses, if any. Such intangible assets are amortised over their estimated useful lives using the straight-line method. Amortisation is calculated to write down the assets to their residual values over their expected useful lives at the rates stated in note 11.1 to these unconsolidated financial statements. Amortisation on additions is charged from the month in which the assets are available for use. No amortisation is charged in the month in which the assets are disposed off. The residual values, useful lives and amortisation methods are reviewed and adjusted, if appropriate, at each statement of financial position date.

Intangible assets which arise from contractual or other legal rights on the acquisition of another entity and are deemed separable are considered as part of the net identifiable assets acquired. These are initially measured at fair value. Intangible assets with a finite useful life are amortized over their expected useful lives and are stated at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets having an indefinite useful life are stated at cost less impairment, if any. Such intangible assets are tested for impairment annually, or whenever there is an indication of impairment, as per the requirements of IAS 36, Impairment of Assets. An impairment charge in respect of intangible assets is recognised through the profit and loss account. Any subsequent reversal of an impairment loss, up to the extent of the impairment, is credited to the profit and loss account.

4.8 Non-banking assets acquired in satisfaction of claims

Non-banking assets acquired in satisfaction of claims are initially recorded at cost and are carried at revalued amounts less accumulated depreciation and impairment, if any. These assets are revalued with sufficient regularity by professionally qualified valuers to ensure that their net carrying value does not differ materially from their fair value. An increase in the market value over the acquisition cost is recorded as a surplus on revaluation. A decline in the market value is adjusted against the surplus of that asset or, if no surplus exists, is charged to the profit and loss account as an impairment. A subsequent increase in the market value of an impaired asset is reversed through the profit and loss account up to the extent of the impairment and thereafter credited to the surplus on revaluation of that asset. All direct costs of acquiring title to the asset are charged immediately to the profit and loss account.

Depreciation on assets acquired in satisfaction of claims is charged to the profit and loss account on the same basis as depreciation charged on the Bank's owned fixed assets.

If the recognition of such assets results in a reduction in non-performing loans, such reductions and the corresponding reductions in provisions held against non-performing loans are disclosed separately.

These assets are revalue generally intended for sale. Gains and losses realized on the sale of such assets are disclosed separately from gains and losses realized on the sale of fixed assets. Surplus on revaluation (net of deferred tax) realized on disposal of these assets is transferred directly to unappropriated profit.

However, if such an asset, subsequent to initial recording, is used by the Bank for its own operations, the asset, along with any related surplus, is transferred to fixed assets.

4.9 Borrowings / deposits

Borrowings / deposits are recorded at the amount of proceeds received. The cost of borrowings / deposits is recognised as an expense on an accrual basis in the period in which it is incurred.

4.10 Subordinated debt

Subordinated debt is recorded at the amount of proceeds received. Mark-up accrued on subordinated debt is charged to the profit and loss account.

4.11 Acceptances

Acceptances comprise undertakings by the Bank to pay bills of exchange drawn on customers. Acceptances are recognised as a financial liability in the statement of financial position with the contractual right of reimbursement from the customer recognised as a financial asset.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

4.12 Employee benefits

The Bank operates a number of post-retirement benefit plans, which include both defined contribution plans and defined benefit plans.

For defined contribution plans, the Bank pays contributions to the fund on a periodic basis, and such amounts are charged to the profit and loss account when the payment obligation is established. The Bank has no further payment obligations once the contributions have been paid.

For funded defined benefit plans, the liability recognised in the statement of financial position is the present value of the defined benefit obligations less the fair value of plan assets as at the statement of financial position date. Contributions to the fund are made by the Bank on a periodic basis.

For non-funded defined benefit plans, the liability recognised in the statement of financial position is the present value of the defined benefit obligations as at the statement of financial position date.

The liability in respect of all obligations under defined benefit schemes is calculated annually by an independent actuary using the Projected Unit Credit Method.

Actuarial gains and losses

Actuarial gains and losses that arise out of experience adjustments and changes in actuarial assumptions are recognised in other comprehensive income with no subsequent recycling through the profit and loss account. However actuarial gains and losses on remeasurement of the liability for compensated absences are recognised in the profit and loss account.

Past Service Cost

Past service cost is the change in the present value of the defined benefit obligation resulting from a plan amendment and is recognised through the profit and loss account when the plan is amended.

Current Service Cost

Current service cost is the increase in the present value of the defined benefit obligation resulting from employee service in the current period, and is recognised through the profit and loss account.

4.13 Foreign currency

4.13.1 Foreign currency transactions

Transactions in foreign currencies are translated into rupees at the foreign exchange rates prevailing on the transaction date. Monetary assets and liabilities denominated in foreign currency are translated into rupees at the rates of exchange prevailing on the date of the statement of financial position. Forward transactions in foreign currencies and foreign bills purchased are translated at forward foreign exchange rates applicable to their respective maturities.

4.13.2 Foreign operations

The assets and liabilities of foreign operations are translated to Pakistani rupees at exchange rates prevailing on the date of the statement of financial position. The income and expenses of foreign operations are translated to Pakistani Rupees at average rates of exchange prevailing during the year.

4.13.3 Translation gains and losses

Gains and losses arising from foreign currency translations are taken to the profit and loss account, except those arising from the translation of the net investment in foreign branches, associates and subsidiaries, which are recognized through the statement of other comprehensive income as an Exchange Translation Reserve (ETR). Balances in the ETR are only taken to the profit and loss account on disposal of the investment.

4.13.4 Contingencies and Commitments

Commitments for outstanding forward foreign exchange contracts are disclosed in the financial statements at contracted rates. Contingent liabilities / commitments denominated in foreign currencies are expressed in rupee terms at the rates of exchange prevailing on the date of the statement of financial position.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

4.14 Income recognition

Revenue is recognised to the extent that the economic benefits associated with a transaction will flow to the Bank and the revenue can be reliably measured.

4.14.1 Advances and investments

Income on performing advances and debt securities is recognised on a time proportion basis as per the terms of the contract. Where debt securities are purchased at a premium or discount, such premium / discount is amortised through the profit and loss account over the remaining maturity of the debt security using the effective yield method.

Income recoverable on classified advances and investments is recognised on a receipt basis. Income on rescheduled / restructured advances and investments is recognised as permitted by SBP regulations or by the regulatory authorities of the countries in which the Bank operates.

4.14.2 Lease financing

Income from lease financing is accounted for using the financing method. Under this method, the unearned lease income (defined as the sum of total lease rentals and estimated residual value less the cost of the leased assets) is taken to income over the term of the lease so as to produce a constant periodic rate of return on the outstanding net investment in the lease. Gains and losses on termination of lease contracts are recognised through the profit and loss account when these are realised. For classified leases, unrealised lease income and other fees are recognised on a receipt basis.

4.14.3 Fee, Commission and Brokerage Income

Fee, commission and brokerage income is recognised on an accrual basis.

4.14.4 Dividend income

Dividend income is recognised when the right to receive the dividend is established.

4.15 Taxation

Income tax expense comprises of the charge for current and prior years and deferred tax. Income tax expense is recognised in the profit and loss account except to the extent that it relates to items which are recognized, net of tax, directly in equity.

4.15.1 Current

The charge for current taxation is calculated on taxable income earned during the year from local as well as foreign operations using tax rates enacted as at the date of the statement of financial position.

4.15.2 Prior years

The charge for prior years represents adjustments to the tax charge for prior years, arising from assessments, changes in estimates, and retrospectively applied changes to law, made during the current year.

4.15.3 Deferred

Deferred tax is recognised using the balance sheet liability method on all temporary differences between the amounts attributed to assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deductible temporary differences (deferred tax assets) are temporary differences that are deductible from the taxable income of future periods when the carrying amount of the underlying asset or liability is recovered or settled. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized.

Taxable temporary differences (deferred tax liabilities) are temporary differences that will result in a tax liability in future periods when the carrying amount of the asset or liability is recovered or settled.

Deferred tax is calculated at the tax rates that are expected to be applicable to the temporary differences when they reverse, based on laws that have been enacted or substantively enacted as at the date of the statement of financial position.

The Bank also records a deferred tax asset / liability on items recognised directly in the statement of comprehensive income such as surplus / deficit on revaluation of assets and actuarial gains / losses. These items are disclosed net of the related deferred tax asset / liability.

Deferred tax assets are reviewed annually for impairment. Where objective evidence exists that the carrying value of a deferred tax asset may not be recoverable, the deferred tax asset is reduced to its recoverable value. The difference between the carrying value and the recoverable value is recognised through the profit and loss account as a deferred tax expense.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

4.16 Impairment of non-financial assets

The carrying value of non-financial assets are reviewed at each statement of financial position date to determine whether there is any indication of impairment. If such indication exists, the recoverable value of the asset is estimated. An impairment loss is recognised through the profit and loss account whenever the recoverable value of an asset is lower than its carrying value.

A subsequent increase in the recoverable value of the asset results in a reversal of the impairment loss through the profit and loss account, up to the original carrying value of the asset, if the reversal can be objectively related to an event occurring after the impairment loss was recognised.

A provision is also recognised on other assets where the chances of recovery of those balances are very low.

4.17 Provisions

Provisions are recognised when the Bank has present legal or constructive obligations as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made.

A provision for off balance sheet obligations is recognised when the Bank becomes aware of the obligation and reasonable certainty exists that the Bank will settle the obligation. The charge to the profit and loss account is stated net of expected recoveries and the obligation is recognised in other liabilities.

Provisions are reviewed at each statement of financial position date and are adjusted to reflect the current best estimate.

4.18 Contingent Liabilities

Contingent liabilities are not recognised in the statement of financial position as they are possible obligations where it has yet to be confirmed whether a liability, which will ultimately result in an outflow of economic resources to settle the obligation, will arise. In cases where the probability of an outflow of economic resources is considered remote, based on legal / professional opinions or other relevant assessments, it is not disclosed as a contingent liability.

4.19 Off setting

Financial assets and financial liabilities are set-off and the net amount is reported in the unconsolidated financial statements when there is a legally enforceable right to set-off and the Bank intends either to settle on a net basis, or to realise the assets and to settle the liabilities simultaneously.

4.20 Financial Assets and Liabilities

Financial assets and liabilities carried on the statement of financial position include cash and bank balances, lending to financial institutions, investments, advances, certain other receivables, bills payable, borrowings, deposits, subordinated debt, lease liabilities against ROU assets and certain payables. The particular recognition methods adopted for significant financial assets and financial liabilities are disclosed in the relevant policy notes.

4.21 Derivative Financial Instruments

Derivative financial assets and liabilities are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently measured at their fair values using appropriate valuation techniques. Derivative financial instruments are carried as an asset when the fair value is positive and as a liability when the fair value is negative. Any change in the fair value of derivative financial instruments is taken directly to the profit and loss account.

4.22 Dividends and appropriation to reserves

Dividends and appropriations to reserves, which are approved subsequent to the date of the statement of financial position are except where required by law recognised in the year in which these are approved and disclosed as a non-adjusting event after the balance sheet date.

4.23 Earnings per share

The Bank presents basic and diluted earnings per share (EPS). Basic EPS is calculated by dividing profit after tax for the year attributable to equity holders of the Bank by the weighted average number of ordinary shares outstanding during the year. Diluted earnings per share is not calculated separately, as the Bank does not have any convertible instruments in issue.

32.2 The income tax returns of the Bank have been submitted up to and including for the accounting year 2022. The tax returns submitted are deemed assessments under section 120 of the Income Tax Ordinance, 2001.

The Income Tax Department has amended the assessments of the Bank for prior years, up to and including for the tax year 2022. The amendments mainly relate to gain on translation of net investment in foreign branches, taxable income subject to enhanced rate, retirement benefits, and provisions against loans and advances, investments and other assets. These matters are at various stages of appeal with the appellate authorities. The management of the Bank, in consultation with its tax advisors, is confident that the decisions in respect of these appeals would be in the Bank's favor.

The income tax returns of the Bank's Azad Kashmir, Gilgit-Baltistan and overseas branches have been submitted up to and including the accounting year 2022. The tax returns submitted in Azad Kashmir and Gilgit Baltistan are considered as deemed assessments under section 120 of the Income Tax Ordinance, 2001.

During the year, a windfall tax was imposed on the foreign exchange income of the Bank for the years 2021 and 2022. The aggregate tax liability for both years, if calculated in the manner specified, amounts to Rs. 4,865 million against which a recovery notice has also been issued by the tax department.

The Bank has filed a Constitutional Petition before the Honourable High Court of Sindh, challenging the operation of the S.R.O 1588 (I)/2023 dated November 21, 2023 imposing the windfall tax. The Court has suspended the operation of the said S.R.O till the next hearing date. Similar orders have also been passed by the High Courts of Lahore, Islamabad and Peshawar for other banks. The management, based on legal advice, is confident that the banks' view is likely to prevail and as such, no provision is required in these financial statements.

36 DEFINED BENEFIT PLANS AND OTHER BENEFITS

36.1 General Information

The Bank operates the following schemes:

36.1.1 Pension Fund (defined benefit scheme)

The Bank operates an approved funded pension scheme which is applicable to:

- All clerical employees who opted for this scheme when it was introduced in 1974 and those who joined after this date.
- Executives and officers who joined the Bank during the period from May 01, 1977, till December 31, 2001, and those who joined the Bank prior to introduction of the scheme and opted for this scheme when it was introduced.

For clerical employees, the benefit is based on their actual years of service as of the statement of financial position date and their current basic salary.

For executives and officers, the benefit is based on their years of service up to March 31, 2005, and their basic salary as on March 31, 2014. For service subsequent to this date (i.e., from April 01, 2005), they are entitled to the Bank's contributory provident fund (refer note 37.1) and contributory gratuity fund (refer note 37.2).

All eligible employees are entitled to a certain minimum pension as per applicable rules.

36.1.2 Benevolent Fund (defined benefit scheme)

The Bank operates an approved funded benevolent fund scheme for all employees who joined on or before December 31, 2018 and who retire from or expire during service. Under this scheme, a fixed monthly subscription is made by employees by way of a salary deduction and a matching monthly contribution is made by the Bank. All eligible employees are entitled to receive a fixed monthly amount or a one-time lump sum payment in lieu of a fixed monthly amount, as per the rules of the Fund. Clerical employees are additionally entitled to marriage and funeral grants during the period of their service as specified in the rules of the Fund.

36.1.3 Post-Retirement Medical Benefits (defined benefit scheme)

The Bank operates a non-funded scheme for post-retirement medical benefits for all employees.

Executives and officers who retire on or after January 01, 2006, receive a lump sum payment as a full and final settlement in lieu of post-retirement medical benefits. Executives and officers who retired prior to this date, and all clerical employees, receive these benefits as reimbursements when incurred.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

36.1.4 Compensated Absences (defined benefit scheme)

The Bank maintains a non-funded scheme for compensated absences. This is applicable to those employees who were in the service of the Bank as of December 31, 2008, and who had accumulated leave balances up to a maximum of 365 days as at that date. Employees are entitled to proceed on Leave Prior to Retirement (LPR) up to the amount of their accrued leaves or up to 365 days, whichever is less, while continuing to receive gross salary. This benefit vests on retirement or, in the case of premature retirement, on the completion of 30 years of service. In the case of death-in-service, up to 50% of accrued leave or 180 days, whichever is less, may be encashed.

Employees may be required by the Bank to continue working during the whole or part of their LPR period. Such employees are additionally entitled to leave encashment amounting to 50% of this period up to a maximum of 180 days.

Clerical employees have the option of not proceeding on LPR and instead encashing 50% of their accumulated leave balance up to a maximum of 180 days.

36.1.5 Other Post-Retirement Benefits (defined benefit scheme)

The Bank offers an additional benefit to all executives on retirement. Under this scheme, a lump sum amount equal to six months of house rent allowance, utilities allowance, car benefit allowance and conveyance allowance is paid to the executive on retirement. In the case of death-in-service of an executive, an additional six months of house rent allowance will be payable to the family along with the above-mentioned benefits.

Equity securities are subject to price risk whereas non-Government debt securities are subject to both credit risk and interest rate risk. These risks are regularly monitored by the Trustees of the employee funds.

36.4.11 Funding Policy

The Bank endeavors to ensure that liabilities under the various funded employee benefit schemes are covered by the assets of the Fund on any valuation date, based on actuarial assumptions.

36.4.12 The significant risks associated with the defined benefit schemes are as follows:

Mortality risks

The risk that the actual mortality experience is different. The impact depends on the beneficiaries' service / age distribution and the benefit.

Investment risks

The risk that the investments of the Funds will underperform and not be sufficient to meet the liabilities.

Final salary risks

The risk that the final salary at the time of cessation of service is higher than what was assumed. Since the benefit is calculated based on the final salary, the benefit amount increases similarly.

Withdrawal risks

The risk that withdrawals from the plan will be higher or lower than assumed. The impact depends on the beneficiaries' service / age distribution and the benefit.

37 DEFINED CONTRIBUTION PLANS

This scheme covers 15,518 employees (2022: 16,859 employees).

39 FAIR VALUE MEASUREMENTS

The fair values of traded investments are based on quoted market prices.

The fair values of unquoted equity investments are estimated using the break-up value of the investee company.

The fair value of unquoted debt securities, fixed term advances, fixed term deposits and borrowings, other assets and other liabilities, cannot be calculated with sufficient reliability due to the absence of a current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments and therefore, are not reported as part of this disclosure.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since they are either short-term in nature or, in the case of customer advances, deposits and certain long term borrowings, are frequently repriced.

All assets and liabilities for which fair value is measured or disclosed in these unconsolidated financial statements are categorised within the following fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

Level 1 - Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Fair value measurements using inputs, other than quoted prices included within Level 1, that are observable for the asset or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Fair value measurements using inputs that are not based on observable market data.

Valuation techniques used in determination of fair values within level 2 and level 3

Federal Government securities	The fair values of Federal Government securities are determined on the basis of rates / prices taken from Reuters.
Non-Government debt securities	Non-Government debt securities denominated in Rupees are valued on the basis of rates announced by the Mutual Funds Association of Pakistan (MUFAP). Non-Government debt securities denominated in other currencies are valued on the basis of rates taken from Bloomberg / Reuters.
Foreign Government debt securities	The fair values of Foreign Government debt securities are determined on the basis of rates taken from Bloomberg / Reuters.
Units of mutual funds	The fair values of units of mutual funds are determined based on their net asset values as published at the close of each business day.
Derivatives	The Bank enters into derivatives contracts with various counterparties. Derivatives that are valued using valuation techniques based on market observable inputs are mainly interest rate swaps and cross currency swaps. The most frequently applied valuation techniques include forward pricing and swap models using present value calculations.
Forward foreign exchange contracts and Forward Government securities transactions	The fair values of forward foreign exchange contracts and forward Government securities transactions are determined using forward pricing calculations.
Fixed assets and non-banking assets acquired in satisfaction of claims	Land, buildings and non-banking assets acquired in satisfaction of claims are revalued on a periodic basis using professional valuers. The valuation is based on their assessment of the market value of the assets. The effect of changes in the unobservable inputs used in the valuations cannot be determined with certainty. Accordingly, a qualitative disclosure of sensitivity, required for Level 3 assets, has not been presented in these unconsolidated financial statements.

39.1 Fair value of financial assets

The following table provides the fair values of those of the Bank's financial assets that are recognised or disclosed at fair value in these unconsolidated financial statements:

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

43.1 Capital management

The Bank's policy is to maintain a strong capital base so as to maintain investor, depositor, creditor and market confidence and to sustain future development of the business, while providing adequate returns to shareholders.

The Bank's lead regulator, the SBP, sets and monitors capital requirements for the Bank. The Bank's branches outside Pakistan are required to follow capital requirements applicable in their respective jurisdictions.

The SBP, through BSD Circular No. 07 dated April 15, 2009, has required that Banks should maintain a minimum paid-up capital of Rs. 10 billion (net of accumulated losses). The paid-up capital of the Bank as at December 31, 2023 stood at Rs 14.669 billion (2022: Rs. 14.669 billion) and is in compliance with SBP requirements.

The Bank and its individually regulated operations have complied with all capital requirements.

The Bank's regulatory capital is classified as follows:

- Tier 1 capital comprises of CET 1 and AT 1 capital.
- CET1 capital includes fully paid-up capital, balance in share premium account, reserves (excluding exchange translation reserves) and unappropriated profit meeting the eligibility criteria.
- AT 1 capital includes perpetual TFCs meeting the prescribed SBP criteria.
- Tier 2 capital includes general provisions for loan losses, surplus / (deficit) on revaluation of fixed assets and investments and exchange translation reserves.

Banking operations are categorised as either Trading or Banking Book.

- On and off-balance sheet exposures in the banking book are segregated into various asset classes for the calculation of credit riskweighted assets. Ratings reflecting the credit worthiness of counterparties are applied using various External Credit Assessment Institutions (ECAIs) and are mapped to appropriate risk buckets. Collateral, if any, is used as an outflow adjustment. Eligible collateral includes Government of Pakistan (GoP) guarantees, GoP securities, bank guarantees, lien on deposits and margin accounts. Risk weights notified by the SBP are applied to net exposures to arrive at risk weighted assets.
- The Bank calculates capital requirements for market risk in its trading book based on the methodology provided by the SBP, which takes into account interest rate risk using the maturity method, equity position risk and foreign exchange risk.

43.2 The full disclosures on the Capital Adequacy Ratio, Leverage Ratio & Liquidity Requirements calculated as per SBP instructions issued from time to time have been placed on the Bank's website. The link to the full disclosure is available at <https://www.hbl.com/capitalandliquidity>.

44 RISK MANAGEMENT FRAMEWORK

The Bank's risk management framework includes a clearly documented risk appetite, well-articulated policies and procedures and multi-tier management supervision, supported by strong Board oversight.

The Board of Directors provides the strategic direction for effective risk management and ensures that the risk management framework, covers all aspects of the Bank's operations, including human resources, policies, procedures, and systems, and is updated regularly to safeguard the Bank against emerging risks. It is supported in this task by the Board Risk Management Committee (BRMC) as well as by various management committees.

FOR THE YEAR ENDED DECEMBER 31, 2023

For effective implementation of the risk management framework, the Risk Management function, headed by the Chief Risk Officer (CRO), operates independently of the business units within the Bank. Risk Management is responsible for the development and implementation of risk policies and for monitoring the risks associated with various activities of the Bank. The CRO reports to the President, with a functional reporting line to the BRMC.

The Risk Management function comprises of the following areas:

- Credit Approvals
- Credit Administration
- Market Risk & Financial Risk Modeling
- Operational Risk

44.1 Credit risk management

Credit risk is defined as the risk of financial loss stemming from a borrower's failure to repay a loan or otherwise meet a contractual obligation. While loans are the largest and most obvious source, credit risk also stems from both on and off-balance sheet activities. The Bank's credit risk appetite is defined through a Global Risk Appetite Statement that is approved by the Board. It also covers the concentration risks the Bank is willing to take with reference to risk ratings, sectors and large exposures. The credit process at the Bank is governed by well-defined and documented credit policies and procedures including dedicated policies for consumer loans, agriculture banking and SME financing. Certain types of exposures/ facilities are managed under product programs that contain their own detailed credit criteria, compliance and documentation requirements.

The core pillars of credit risk management at the Bank are:

- Approval rules based on a three-initial system and joint Business / Risk sign-offs.
- An independent Internal Audit function which includes a Business Risk Review (BRR) unit.

Credit approval authorities are delegated to individuals based on their qualifications and experience. Disbursement authorization, collateral and security management, documentation and monitoring are managed by the Credit Administration Department. Proactive monitoring is ensured for assets under stress. This enables the Bank to put in place viable solutions to prevent further deterioration in credit quality. An independent Structured Credits and Remedial Assets function handles stressed assets and ensures a focused remedial strategy.

Credit risk management software to automate loan origination has been implemented domestically for Corporate, Commercial and Retail (non-program based) lending and is being rolled out to overseas locations. The software is designed to improve approval efficiency; enable capture, storage and retrieval of approval data; and generate MIS for decision making.

Stress testing on the credit portfolio is performed in line with SBP guidelines. In addition to the mandatory stress tests defined by the regulator, the Bank has also developed advanced stress tests for credit risk including macroeconomic stress tests and reverse stress tests to test the adequacy of the Bank's capital under various stress conditions. The Bank also regularly conducts rapid portfolio reviews in line with emerging risks.

The Bank has undertaken several initiatives to strengthen its credit risk management framework including the establishment of a Financial Risk Modelling & Stress Testing unit which carries out back testing, validation of credit risk scorecards, internal risk ratings (obligor risk rating and facility risk rating) and probability of default models for the portfolio. The performance of the risk rating models over the years is continuously monitored.

BRR performs an independent review of the credit portfolio. It provides an assessment of portfolio quality by reviewing the efficacy of the relevant processes, ensuring regulatory / policy compliance, and assessing the appropriateness of risk ratings, classification and provisioning.

44.1.1 Credit risk - general disclosures

The Bank follows the Standardized Approach for its credit risk exposures, which sets out fixed risk weights corresponding to external credit ratings or type of exposure, whichever is applicable.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

Under the Standardized Approach, the capital requirement is based on the credit rating assigned to counterparties by External Credit Assessment Institutions (ECAIs) duly recognized by the SBP. The Bank selects different ECAIs for each type of exposure. The Bank utilizes credit ratings assigned by Pakistan Credit Rating Agency (PACRA), Vital Information Services (VIS), Fitch, Moody's and Standard & Poor's (S&P). The Bank also utilizes rating scores of Export Credit Agencies (ECAs).

44.1.2 Credit Risk Mitigation for under the Standardized Approach

The Bank has adopted the Simple Approach for Credit Risk Mitigation in the banking book. Under this approach, cash, deposits under lien, Government securities and eligible guarantees etc. are considered as eligible collateral. The Bank has detailed guidelines regarding the valuation and management of each of these types of collateral. Where the Bank's exposure on an obligor is wholly or partially guaranteed by an eligible guarantee, the risk weight / credit rating of the guarantor is substituted for the risk weight of the obligor.

No credit risk mitigation benefit is taken in the trading book.

For each asset class, the risk weights as specified by the SBP or corresponding to the SBP rating grades are applied to the net exposure for the calculation of Risk Weighted Assets.

44.1.3 Country Risk

The Bank has in place a comprehensive Country Risk Policy applicable to domestic and international branches. Country risk is generated through trade, guarantees, lending and investing transactions in foreign currency and / or accepting a sovereign guarantee as collateral for a loan in foreign currency. Country risk limits are approved after detailed due diligence and risk assessment of the country by considering political risk, economic and environmental factors, and contagion risk. Ratings assigned by international rating agencies, where available, are also considered while extending country limits.

All transactions that generate cross-border risk are carried-out with countries that have approved limits. These limits are approved at Head Office and allocation to international branches is extended from the approved limits. Country risk exposures are reported to the BRMC on a quarterly basis.

44.2 Market Risk Management

Market risk is the risk that the fair value of a financial instrument will fluctuate due to movements in market prices. It results from changes in interest rates, exchange rates and equity prices as well as from changes in the correlations between them. Each of these components of market risk consists of a general market risk and a specific market risk that is driven by the nature and composition of the portfolio.

The Bank is exposed to market risk in several ways. The largest component is Interest Rate Risk on the Banking Book, which refers to the interest rate risk that the Bank is exposed to due to mismatches in the repricing of its on-balance sheet assets and liabilities. The Bank also has a Trading Book in which the assets are marked-to-market through the profit and loss account.

The objective of the Bank's market risk management strategy is to assess an acceptable level of risk for each market variable (as stated in the Bank's Risk Appetite Statement), and to manage the risk arising from fluctuations in these variables to optimize the Bank's income streams.

Treasury and Global Markets is tasked with proactively managing exposures. The Bank's ALCO provides governance with respect to market risk exposures and limits, while monitoring and measurement is carried out by Market Risk Management (MRM). MRM provides a dynamic and proactive approach to market risk monitoring, including the use of tools such as portfolio sensitivity, scenario analysis, stress testing and the use of Management Action Triggers (MAT) and limits.

44.2.2 Foreign Exchange Risk

Foreign exchange risk is the risk that the fair value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Bank manages this risk by setting and monitoring currency-wise exposure limits. The Bank's assets in a particular currency are typically funded in the same currency to minimize foreign currency exposure. However, the Bank maintains a net open position in various currencies resulting from its transactions. Foreign exchange risk is controlled and monitored through limits approved by ALCO, within the overall limit advised by the SBP.

44.2.3 Equity Position Risk

Equity position risk is the risk that the fair value of a financial instrument will fluctuate as a result of changes in the prices of individual stocks or the levels of equity indices.

The Bank has exposure to a range of equity instruments, and thus exposed to losses arising from movements in equity prices. The Bank holds equity investments in both the AFS and HFT portfolios. The realization of short-term capital gains is the principal objective of the HFT portfolio while the AFS portfolio takes a medium-term market view with the objective of earning both capital gains and dividend income. The portfolios are managed by the Bank within the structure encapsulated in the Equity Investment Policy approved by the Board, which defines position limits, portfolio limits and loss triggers for the equity desk. The Bank also applies stress tests on the equity portfolio which is part of the Bank's overall market risk exposure limit on the trading book.

44.2.4 Interest Rate Risk

Interest rate risk arises due to changes in interest rates, including changes in the shape of the yield curve. The Bank is exposed to interest rate risk in both the Trading and Banking Books. Interest rate sensitivity analysis is conducted at both Banking Book and Trading Book levels, at least on a monthly basis or more frequently, if required. The analysis helps in estimating and managing the impact of interest rate volatility on the Bank's earnings and on the economic value of equity within defined tolerance limits. Limits are also in place for fixed income investments of the treasury portfolio at dealer, transaction, portfolio and Trading / Banking Book levels. Regulatory stress testing is conducted on a quarterly basis. Metrics to assess Interest Rate Risk include Interest Rate Gap Reports, Earnings at Risk (EAR) and Economic Value of Equity (EVE). These metrics are assessed based on different stress scenarios.

To further strengthen interest rate risk management, the Bank has developed a standardized framework for computing the Interest Rate Risk in the Banking Book (IRRBB) under the updated guidelines issued by the Basel Committee on Banking Supervision Standards.

It is the Bank's priority to protect its customers and their data from cyberattacks and data breaches. The Bank's Information Security Group is responsible for protecting the Bank's data assets from both internal and external threats through effective cybersecurity risk management, supported by preventive and detective controls capable of responding to emerging threats. The Bank's 24x7 Security Operations Centre continues to contribute to a robust security posture through continuous monitoring, detection, and preventive mechanisms.

The Bank runs regular information security awareness campaigns to provide internal training and guidance on information security related matters. These are supplemented by targeted awareness enhancement campaigns for customers, using multiple delivery channels, to better equip them to counter ever-increasing security challenges. The Bank also completes an annual certification of compliance to the SWIFT Customer Security Program as well as to ISO 27001.

The Bank continues to strengthen its cyber-defenses through the use of advanced automation and modern technologies, in particular, AI and machine learning, while proactively mitigating against advanced security threats.

44.4 Liquidity Risk Management

Liquidity risk is the risk that the Bank may be unable to meet its cash obligations as they become due, or to fund assets at a reasonable cost, because of the inability to liquidate assets, or to obtain adequate funding.

The Bank follows a comprehensive liquidity risk management policy duly approved by the Board. The policy provides guidelines for establishing a robust liquidity risk management framework which helps in identifying the key liquidity and funding risks to which the bank is exposed, describes how these risks are identified, measured, monitored and reported, and prescribes the techniques and resources used to manage and mitigate these risks. The policy stipulates maintenance of various ratios, funding preferences, and evaluation of the Bank's liquidity under normal and crisis situations (stress testing). The Bank also has a Contingency Funding Plan in place to address liquidity issues in times of crisis. This plan identifies early warning indicators to preempt unforeseen liquidity crises. Triggers are used to ascertain potential stress scenarios.

The Bank's ALCO is responsible for the formulation of overall strategy and oversight of asset and liability management. Liquidity Risk is monitored using a range of metrics, including Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR); liquidity gaps and various liquidity ratios are regularly monitored by Market Risk Management. Liquidity risk is reviewed by ALCO on a monthly basis and an update is provided to the BRMC on a quarterly basis.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2023

44.5 Derivatives Risk

The policy guidelines for derivatives exposures are approved by the Board.

The responsibility for derivatives activity lies with the Treasury and Global Markets business. Measurement and monitoring of market and credit risk limits and exposure, and their reporting to senior management and the Board is done by the Market Risk Management (MRM) unit within Risk Management. MRM, in coordination with the business, also presents limits for review and approval to ALCO and the BRMC. Treasury Operations records derivatives activity in the Bank's books, executes settlements of trades and carries out regulatory reporting to the SBP.

44.5.1 Credit Risk

Credit risk is the risk of non-performance by a counterparty which could result in an adverse impact on the Bank's profitability. The credit risk associated with derivative transactions is categorized into settlement risk and pre-settlement risk. Pre-settlement and settlement risk limits for derivative transactions are determined and monitored daily using an approved framework.

44.5.2 Market Risk

The Bank, as a policy, hedges all Options transactions back-to-back. The Bank minimizes the exchange rate risk on its Cross Currency Swaps portfolio by hedging the exposure in the interbank market on a rolling basis. The Bank also manages the interest rate risk of Interest Rate Derivatives and Cross Currency Swaps through Price Value of a Basis Point (PVBP) limits which are monitored and reported by MRM to senior management on a daily basis. These limits are approved by ALCO annually and then approved by the Board on the recommendation of the BRMC.

44.5.3 Operational Risk

The Bank has put in place a robust control framework for derivatives transactions. Front office staff dealing in derivatives have the requisite training and experience to conduct this business; responsibilities have been divided amongst the Structuring Desk (tasked with the overall ownership of derivatives and structured products), Treasury Sales (who are involved in marketing and executing transactions with the Bank's client base) and Trading (which proactively manages the risk from a business perspective).

A detailed product program, approved by the Board, governs the entire value chain for derivatives, including credit and market risk management, booking, sales and settlement. There is a clear segregation of duties whereby operational aspects are handled by Treasury Operations, whereas all risk issues are the responsibility of the Risk department. MRM carries out daily monitoring of exposures, while, Compliance monitors any deviation from approved policies and procedures. Internal Audit also regularly reviews systems, transactional processes, accounting practices and end-user roles and responsibilities as part of their reviews of this function.

44.5.4 Liquidity Risk

The types of derivative transactions entered into by HBL are typically straightforward, or 'vanilla' transactions, whereby the Bank is exposed to a negligible amount of liquidity risk.

45 NON-ADJUSTING EVENTS AFTER THE BALANCE SHEET DATE
