BENEFITS OF THIS SCHEME

Larger Equity Base

The Amalgamation of Modarabas would lead to increased asset base and size as well as improved strength of the merged entity. This would in turn assist the management to have increased access to external funds at competitive rates. Increased size of fund capital and asset base would also provide greater comfort to existing and future Certificate Holders and Creditors. Access to larger resources would also improve future growth prospects of the merged entity and the management's ability to undertake large assignments.

Synergies

All these Modarabas are multipurpose Modarabas primarily having identical lines of business. The Amalgamation would give an opportunity to operate the business of these Modarabas through singular unified departments which are operating separately in these Modarabas, thus resulting in economies of scales and improved utilization of human resources.

Increase in Risk Absorption Capacity

The larger equity base of the merged/amalgamated Modarabas would increase its risk absorption capacity thus an increased and improved capacity to manage the potential risks arising out of any adverse and uncertain operating environment. In the long run this factor would provide greater stability as well as sustainability in operations.

Reduction in Administrative Costs

The Amalgamation would enable the merged entity to consolidate its operations in order to carry out its business through singular operations managing various departments with sole set of management and staff, thus resulting in substantial cost savings and economies of scale leading to enhanced profitability.

Single Corporate and Tax Reporting

The Amalgamation will make single corporate and tax reporting possible for the merged/amalgamated Modarabas. It will entail elimination of maintenance of separate records for business operations, marketing, legal, administrative, secretarial and other records under the various laws resulting in duplication of work and higher costs of human resource and operations.

NOW THEREFORE, this Scheme is presented as follows:

Sub: Proposed Merger of First Pak Modaraba and KASB Modaraba into First Prudential Modaraba

Dear Sir

We refer to our engagement letter dated November 01, 2021 whereby Crowe Hussain Chaudhury & Co. was engaged by you to carry out the captioned engagement.

Scope of work and methodology

We carried out the valuation of First Pak Modaraba, KASB Modaraba and First Prudential Modaraba as at 31 December 2021 in order to calculate the certificate swap ratio. We used half yearly audited financial statements of these modarabas for the half year period ended 31 December 2021.

Further, we were provided with other related information and explanations as and when required in order to carry out the valuation. We have not conducted verification of the information provided to us.

For the above mentioned exercise, we considered generally accepted valuation methodologies namely Adjusted Net Asset Value (NAV) method, dividend growth model and P/E ratio methods. However, for the purpose of this engagement, NAV method was used as primary methodology.

Valuation results and conclusions

The valuation results are depicted below:

Valuation methodology	First Prudential Modaraba	KASB Modaraba	First Pak Modaraba
Net assets at fair value	5.0673	3.1206	5.0808
Historic P/E ratio method	0.7158	-9.0992	1.6438
P/E ratio method – projected EPC	1.2459	2.7558	0.2339
Gordon's dividend model	0.5097	3.0510	0.8164

We assigned 100% weightage to the NAV method due to the reasons mentioned in our detailed report. The swap ratio results are as follows under recommended method:

0.6158 certificate of First Prudential Modaraba against 1 certificate of KASB Modaraba

1.00265 certificate of First Prudential Modaraba against 1 certificate of First Pak Modaraba

Yours truly

Crowe Hussain Chaudhury & Co.
