Management is responsible for the preparation and presentation of these interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standards on Review Engagements 2410, "Review of Interim Financial Information performed by the Independent Auditor of the Entity." A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements are not prepared, in all material respects, in accordance with the accounting and financial reporting standards as applicable in Pakistan for interim financial reporting.

The figures for the quarter ended December 31, 2022 and December 31, 2021 in the condensed interim statement of profit or loss and condensed interim statement of comprehensive income have not been reviewed and we do not express a conclusion on them.

Material Uncertainty Related to Going Concern

Without qualifying to our conclusion, we draw attention to Note 1.3 in the condensed interim financial information which indicates that the Company's current liabilities exceeded its current assets by Rs. 35.351 million. The Company has accumulated loss of Rs. 52.325 million. The Company's accumulated losses exceeded the issued, subscribed and paid up capital by Rs. 39.325 million. These

Behrooz

conditions, along with other matters as set forth in Note 1.3, indicate the existence of material uncertainty which may cast doubt about the Company's ability to continue as going concern.

The engagement partner on the review audit resulting in this independent auditors review report is Iffat Hussain.

18 FINANCIAL RISK MANAGEMENT

The Company's financial risk management objective and policies are consistent with that disclosed in the financial statements for the year ended June 30, 2022.

19 FAIR VALUE MEASUREMENT

The carrying values of all financial assets and liabilities reflected in the interim financial statements approximate their fair values. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties, in an arm's length transaction.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices) (level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The management assessed that the carrying value of cash and short term deposits, trade debts, other receivables trade and other payables and other current liabilities approximate their fair values largely due to the short term maturities of these instruments. Fair value is determined on the basis of objective evidence at each reporting date.

Transfers during the period

During the six month period ended December 31, 2022, there were no transfers into or out of Level 3 fair value measurements.

As at December 31, 2022 and June 30, 2022 the Company did not hold any financial instruments carried at fair value. Moreover, free hold land, buildings and plant and machinery are measured at fair value.

The Company has revalued its freehold land, buildings and plant and machinery on December 31, 2021 by independent valuer M/s Asrem (Private) Limited on the basis of market values of similar properties. The fair value of plant and machinery is a level 3 recurring fair value measurement.

Fair value of land and building are based on assumptions considered to be level 2 in the fair value hierarchy due to significant observable inputs used in the valuation, while fair value of plant and machinery are considered to be level 3 in the fair value hierarchy due to significant unobservable inputs used in the valuation.

Valuation techniques used to derive level 2 fair values - Land and Building

Fair value of land and building has been derived using a sales comparison approach. Sale prices of comparable land and buildings in close proximity are adjusted for differences in key attributes such as location and size of the property. Moreover value of building also depends upon the type of construction, age and quality. The most significant input in this valuation approach is price / rate per square foot in particular locality. This valuation is considered to be level 2 in fair value hierarchy due to significant observable inputs used in the valuation.

Valuation techniques used to derive level 3 fair values - Plant and Machinery

In the absence of current prices in an active market, the fair value is determined by taking into account the following factors:

- Make, model, country of origin and etc.;
- Operational capacity;
- Present physical condition;
- Resale prospects; and
- Obsolescence.

The valuation is considered to be level 3 in the fair value hierarchy due to the above unobservable inputs used in the valuation. Most significant input in this valuation is the current replacement cost which is adjusted for factors above.

A reconciliation from opening balances to closing balances of fair value measurements categorised in level 3 is provided below:

	December 31, 2022 Rupees Unaudited	June 30, 2022 Rupees Audited

Closing balance (level 3 recurring fair values)	<u>23,776,362</u>	<u>25,027,750</u>

There were no transfers between levels 2 and 3 for recurring fair value measurements during the period.
