Directors' Report

The Directors are pleased to present the Annual Report with the audited financial results of the Company for the year ended December 31, 2022.

Principal Business Activities:

The Company manufactures and markets home and personal care products such as Beauty, Antibacterial soaps and handwashes under the brand names Capri, HYPro and Opal.

Economic Landscape:

The year 2022 has been quite challenging for the country's economy. The effects of COVID-19 started to normalize but this was overshadowed by ballooning current account deficit, ever rising commodity prices including increase in energy and fuel prices, country's unstable political situation, and continuously escalating inflation.

Palm Oil, which is a key component used in the soap making process, reached its highest ever price level in the international market by the mid of 2022. Subsequently these prices depicted a declining trend owing to normalization in international supply chain and COVID-19 constraints. On the flip side, the continued Pak rupee devaluation against the dollar posed pressure on the import of raw materials.

On the domestic front, the country witnessed massive floods which destroyed crops and livestock, made millions homeless, and damaged the country's roads and communication network. On account of these un-favorable conditions, local businesses found many difficulties in managing daily operations.

Financial Performance at a Glance

Company achieved improved margins and profits in the second half of 2022 mainly due to decline in global commodity rates, retail price increases and improved sales volumes coupled with enhanced business efficiencies. A brief comparative analysis of the annual and last quarter's financial performance is presented hereunder:

Company Operating Performance:

Amid these challenging times, the Company continuously worked to enhance margins by improving sales volume, identifying and capitalizing on opportunities to bring efficiencies in raw material purchases, outsourcing the manufacturing facilities, prioritizing Company's resources on more profitable channels, taking timely decisions on discontinuing non-profitable SKUs, optimizing product formulations, rationalizing sales volume mix and increasing retail prices considering market dynamics.

Consequently, the Management achieved a significant turnaround this year, where Gross Sales Value for the year increased by 50% as compared to last year. As a result, Net Sales Value increased by 51% which stood at Rs.4.1 billion vs 2.7 billion. Gross Profits observed healthy growth of 950 bps. Other positive measures employed by the Management further helped the Company to deliver Profit After Tax of Rs.23 M vs a loss of Rs.292 M last year.

We have always taken pride in our unique culture and people practices. Our employees have been our strength, who showed their usual commitment and passion, thereby contributed to this turnaround through their dedication and hard work along with their "can-do" attitude in this volatile and uncertain environment. They ensured that all operations continued smoothly in these challenging business conditions. Our people developed sound business improvement strategies and initiatives and successfully translated those strategies into actions with teamwork, perseverance and resilience, which has created good momentum for future endeavors.

Future Outlook and Key Risks:

Considering the current economic situation of the country, the Company, like many others, is facing extreme difficulties in establishing and retiring letters of credit. As a result, this is creating unprecedented problems in importation of critical raw materials and ensuring continued availability of the same.

Further, high inflation has seriously affected the sourcing of local raw and packaging materials as well. Economic indicators show a disappointing trend of real GDP growth vs rising inflation. Therefore, Management still expects uncertainty in the foreseeable future with progressive rise in input and logistics costs. The uprising inflationary environment is taking a serious toll on the consumers' purchasing

power, which constitutes an underlying risk to the Company as the consumers may shift towards more economical products.

The political landscape of the country has been unstable during the year especially with the sudden change in the government. These conditions have shaken the investors' confidence and costs of doing business have also significantly increased owing to rising interest rates.

Devaluation of Pak rupee will consequently result in high import cost of Palm Oil and Perfumes which in result can seriously impact the Company's gross margins. The Management will however continue to remain vigilant in closely monitoring the import costs and take necessary actions by placing orders at favorable times to mitigate some of these impacts.

Management fully understands the impacts of these factors and remains committed to protecting both margins and volumes by meeting consumer expectations.

Considering the business challenges and uncertain future outlook, the Board of Directors has decided not to give any dividend this year.

حصص میں خرید و فروخت:

ادارتی نظم و ضبط کے ضابطے کے تحت کمپنی کے ڈائریکٹران، اعلیٰ انتظامی عملے اور ان کے شریک حیات اور چھوٹے بچوں کی کمپنی کے حصص میں تمام خرید و فروخت کو منکشف کرنا ضروری ہوتا ہے۔ سال کے دوران مسز فیمل علی مہدی (کمپنی کی ڈائریکٹر اور چیئر مین) نے اپنے بھائی سے کمپنی کے 1,322,417 حصص حاصل کیے۔ دیگر کسی اعلیٰ انتظامی عملے، CFO، CEO، کمپنی سیکریٹری اور انٹرنل آڈٹ کے سربراہ اور ان کے شریک حیات اور چھوٹے بچوں نے کمپنی کے حصص میں کوئی خرید و فروخت نہیں کی۔

PSX ریگولیشنز کی شق 5.6.4 اور اضافی انضباطی تقاضوں کے تحت بورڈ نے کمپنی کے حصص میں خرید و فروخت منکشف کرنے کے حوالے سے اعلیٰ انتظامی عملے کی حد مقرر کی ہے۔

کمپنی کی کاروباری کارکردگی:

ان دشوار گزار اوقات میں کمپنی نے تسلسل کے ساتھ فروخت کے حجم میں بہتری، خام مال کی خریداری میں مختلف مواقعوں کی شناخت اور استفادہ، پیداواری سہولیات کے بیرونی ذرائع، کمپنی کے وسائل کو زیادہ منافع بخش ذرائع میں استعمال، غیر منافع بخش SKU میں کمی کے بروقت فیصلوں، مصنوعات کی ترکیب میں بہتری، مصنوعات کے فروخت کے بہتر مرکب اور مارکیٹ کے پہلوؤں کو مد نظر رکھتے ہوئے خوردہ قیمتوں میں اضافہ کے ذریعے شرح منافع میں اضافہ کے لئے کام کیا۔

جس کے نتیجے میں انتظامیہ کو اس سال قابل ذکر سنگ میل حاصل ہوا جس میں سالانہ فروخت کی مالیت میں گزشتہ سال کی نسبت 50 فیصد اضافہ ہوا۔ نتیجتاً خالص فروخت کی مالیت میں 51 فیصد اضافہ ہوا جو کہ گزشتہ سال کے 2.7 بلین روپے کے مقابلے میں 4.1 بلین روپے رہی۔ منافع میں 950 بنیادی پوائنٹس کا صحت مند اضافہ ہوا۔ انتظامیہ کے دیگر مثبت اقدامات کی وجہ سے کمپنی کا بعد از ٹیکس منافع 23 بلین روپے رہا جبکہ گزشتہ سال 292 بلین روپے کا خسارہ تھا۔

ہم نے اپنی امتیازی ثقافت اور لوگوں کے طور طریقوں پر ہمیشہ فخر کیا ہے۔ ہمارے ملازمین ہماری طاقت ہیں جنہوں نے عمومی ذمہ داری اور گرجوشی کا مظاہرہ کیا، لہذا اس متنزل اور غیر یقینی ماحول میں ان کی انتھک محنت کے ساتھ "کر سکتے ہیں" کے رویہ نے اور لگن سے یہ سنگ میل حاصل ہوا۔ ان دشوار گزار کاروباری حالات میں انہوں نے تمام افعال کے ہموار تسلسل کو یقینی بنایا۔ ہمارے لوگوں نے بہتری کے لئے مضبوط کاروباری حکمت عملیاں ترتیب دیں اور اقدامات کئے اور کامیابی سے ان حکمت عملیوں کو ٹیم ورک، استقامت اور شائستگی میں ڈھالا جس سے مستقبل کی جدوجہد کو تقویت ملی۔

مستقبل کی پیش بینی اور کلیدی خطرات:

ملک کی موجودہ معاشی صورتحال کو مد نظر رکھتے ہوئے کمپنی کو لیٹر آف کریڈٹس کھولنے اور ان کو ریٹائر کرانے میں شدید مشکلات کا سامنا ہے۔ جس کے نتیجے میں بنیادی خام مال کی درآمد اور اس کی مسلسل فراہمی کو یقینی بنانے میں غیر معمولی مسائل کا سامنا ہے۔

مزید برآں، بلند افراط زر کی وجہ سے مقامی خام اور پیننگ کے مال کی فراہمی پر بھی شدید اثرات مرتب ہوئے ہیں۔ معاشی اشاریے حقیقی GDP کے نمو برخلاف بڑھتے ہوئے افراط زر کا مایوس کن رجحان دکھا رہے ہیں۔ لہذا انتظامیہ مستقبل میں بھی خام مال اور انتظام و انصرام کی لاگوں میں مسلسل اضافہ دیکھ رہی ہے۔ بڑھتے ہوئے افراط زر کا ماحول صارفین کی قوت خرید پر شدید اثرات مرتب کر رہا ہے جس سے کمپنی کو بھی خطرات لاحق ہیں کیونکہ صارفین مزید سستی مصنوعات کی جانب مائل ہو سکتے ہیں۔

خاص طور پر حکومت کی اچانک تبدیلی کی وجہ سے ملک کا سیاسی منظر نامہ سال کے دوران غیر مستحکم رہا۔ ان حالات نے سرمایہ کاروں کے اعتماد کو گھٹیس پہنچائی ہے اور بڑھتی ہوئی شرح سود کی وجہ سے کاروباری لاگت میں قابل ذکر اضافہ ہوا ہے۔

پاکستان روپے کی قدر میں کمی کے نتیجے میں پام آئل اور عطریات کی بلند درآمدی لاگت کی وجہ سے کمپنی کی شرح منافع پر شدید اثرات مرتب ہوئے۔ تاہم انتظامیہ تسلسل کے ساتھ درآمدی لاگوں کا باریک بینی سے جائزہ لے رہی ہے اور موزوں اوقات میں آرڈرز دینے کے لئے ضروری اقدامات کر رہی ہے تاکہ ان اثرات کو کم کیا جاسکے۔ انتظامیہ ان عوامل کے اثرات سے مکمل آگاہ ہے اور صارفین کی توقعات پر پورا اترتے ہوئے شرح منافع اور حجم کو محفوظ رکھنے کے لئے پرعزم ہے۔

منافع منقسمہ:

کاروباری دشواریوں اور غیر یقینی مستقبل کے منظر نامہ کو مد نظر رکھتے ہوئے بورڈ آف ڈائریکٹرز نے اس سال کوئی منافع منقسمہ نہ دینے کا فیصلہ کیا ہے۔

کاروباری اخلاقیات:

انتظامیہ کا ضابطہ اخلاق مخصوص اصولوں اور اخلاقیات پر مشتمل ہے جو کہ ہماری ادارتی فلاسفی کا بنیادی جزو ہیں اور ایک بیانیہ ہے کہ ہم کون ہیں اور ہم کس طرح کاروبار کرتے ہیں۔ اس میں پیشہ ورانہ اخلاقیات، ملازمین کے لئے کمپنی کی ذمہ داریوں اور کمپنی کے لئے ملازمین کی ذمہ داریوں کو اجاگر کیا گیا ہے۔ ادارتی نظم و ضبط کے ساتھ اخلاقی رویے پر عمل بنیادی جزو ہے جس کی عکاسی ہر اس چیز میں ہوتی ہے جو ZIL کرتی ہے۔ کمپنی اور اس کے تمام ملازمین کمپنی کے کاروبار کو چلانے میں اعلیٰ اخلاقی معیارات برقرار رکھتے ہیں۔ پائیداری، تنوع، کسٹمر پرمکوز حکمت عملی، اختیارات اور سیکھنے کا عمل بنیادی اقدار ہیں جس پر ZIL عمل کرتا ہے اور حوصلہ افزائی کرتا ہے اور یہ اقدار اس ضابطہ اخلاق کے بنیادی اصول ہیں۔

ڈائریکٹرز رپورٹ

کمپنی کے ڈائریکٹران سالانہ رپورٹ کے ساتھ آڈٹ شدہ مالیاتی نتائج برائے سال ختمہ 31 دسمبر 2022 پیش کرتے ہوئے اظہار مسرت کرتے ہیں۔

بنیادی کاروباری سرگرمیاں:

کمپنی گھریلو اور ذاتی نگہداشت کی اشیاء جیسے کہ خوبصورتی، جراثیم کشن صابن اور ہینڈ واش کو یکپہری، ہائیر اور اوپل کے برانڈ ناموں سے تیار اور فروخت کرتی ہے۔

معاشی منظر نامہ:

سال 2022 ملکی معیشت کے لئے انتہائی دشوار گزار رہا۔ COVID-19 کے اثرات کے بعد سرگرمیاں معمول پر آنے لگی لیکن بڑھتے ہوئے رواں کھاتے کے خسارے، اشیاء بشمول توانائی اور ایندھن کی مسلسل بڑھتی ہوئی قیمتوں، ملک میں سیاسی عدم استحکام کی صورتحال اور مسلسل بڑھتے ہوئے افراط زر سے ماند پڑ گئی۔ پام آئل جو کہ صابن بنانے کے عمل میں ایک بنیادی جزو ہے 2022 کے وسط میں اس کی قیمت عالمی مارکیٹ میں بلند ترین سطح پر پہنچ گئی۔ تاہم عالمی سطح پر طلب و رسد معمول پر آنے اور COVID-19 کی پابندیاں ختم ہونے کے بعد قیمتیں معمول پر آنا شروع ہوئیں۔ اس کے ساتھ ڈالر کے مقابلے میں پاکستانی روپے کی قدر میں مسلسل کمی سے خام مال کی درآمدات پر دباؤ برقرار رہا۔

مقامی سطح پر ملک میں بڑے پیمانے پر سیلاب کا مشاہدہ کیا گیا جس سے فصلیں اور مویشی تباہ ہو گئے، لاکھوں لوگ بے گھر ہو گئے اور ملک کی سڑکوں اور ذرائع ابلاغ کا نیٹ ورک تباہ ہو گیا۔ ان ناموافق حالات کی وجہ سے مقامی کاروبار کو اپنے روزمرہ معاملات کو چلانے میں کئی مشکلات کا سامنا کرنا پڑا۔

مالیاتی کارکردگی کا خلاصہ:

2022 کی دوسری ششماہی میں کمپنی کے منافع اور شرح منافع میں بہتری کی بنیادی وجہ اشیاء کی عالمی قیمتوں میں کمی، خوردہ قیمت میں اضافہ اور فروخت کے حجم میں بہتری کے ساتھ کاروباری صلاحیت تھی۔ سالانہ اور گزشتہ سہ ماہی کی مالیاتی کارکردگی کا مختصر اکتالی تجزیہ درج ذیل ہے:

Information Other than the Financial Statements and Auditor's Report thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);

Any change in the estimates in future years might affect the carrying amount of the respective items of property, plant and equipment with a corresponding effect on the depreciation charge and impairment.

2.4.6 Intangible assets

The Company reviews the rate of amortization and value of intangible assets for possible impairment on an annual basis. Any change in the estimates in future years might affect the carrying amount of intangible assets with the corresponding effect on the amortization charge and impairment.

2.4.7 Assets classified as held for sale

The Company considered the manufacturing facility to meet the criteria to be classified as held for sale at the that date for the following reasons:

- The manufacturing facility is available for immediate sale and can be sold to the buyer in its current condition
- The actions to complete the sale were initiated and expected to be completed within one year from the date of classification.
- An active buyer programme has been located and negotiations as at the reporting date are in progress.
- The shareholders approved the plan to sell on 30 November 2022.

2.4.8 Contingencies

The assessment of the contingencies inherently involves the exercise of significant judgment as the outcome of the future events cannot be predicted with certainty. The Company, based on the availability of the latest information, estimates the value of contingent assets and liabilities which may differ on the occurrence / nonoccurrence of the uncertain future events.

Notes to the Financial Statements

For the year ended 31 December 2022

2.4.9 Impairment of financial and non-financial assets

Estimates with respect to impairment of financial and non-financial assets as disclosed in note 3.18 to these financial statements.

2.4.10 Revaluation of property, plant and equipment

The fair value of the freehold land has been determined based on residential use of the land which reflects the highest and best use of the land as per applicable financial reporting standards. Consequently, the fair values of the leasehold land, building on freehold / leasehold land and plant and machinery have been restricted to the disposal value which represents the exit price under the applicable financial reporting standards and fall under level 2 "Valuation Techniques (market observable)" of fair value hierarchy as disclosed in notes 3.1.1,4 and 17 to these financial statements.

2.4.11 Leases

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its Incremental Borrowing Rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The Company estimates the IBR using observable inputs (such as market interest rates) and incorporate applicable spread.

2.5 Adoption of standards, amendments and improvements to International Financial Reporting Standards (IFRSs) effective during the year

The Company has adopted the following accounting standards and amendments of IFRSs and the framework for financial reporting which became effective for the current year:

Amendments

- IFRS 3 - Reference to the Conceptual Framework (Amendments)

3. SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies applied in the preparation of these financial statements are set forth below and have been applied consistently to all years presented.

Notes to the Financial Statements

For the year ended 31 December 2022

3.1 Property, plant and equipment

3.1.1 Owned assets

Initial recognition

The cost of an item of property, plant and equipment is recognized as an asset if it is probable that future economic benefits associated with the item will flow to the entity and the cost of such item can be measured reliably. Recognition of the cost in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by the management.

Measurement

Except for the leasehold and freehold lands, buildings on leasehold and freehold lands and plant and machinery, all others items of property, plant and equipment (refer note 4.1) are stated at cost less accumulated depreciation and accumulated impairment losses, if any.

Leasehold and freehold land, buildings and plant and machinery are measured at revalued amounts, which is the fair value at the date of revaluation less accumulated depreciation / accumulated impairment losses, if any, recognised subsequent to the date of revaluation. In case of revalued assets, transfer from the asset revaluation surplus to retained earnings is made for the difference between depreciation based on the revalued carrying amount of the asset and depreciation based on the asset's original cost. Additionally, any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount restated at the revalued amount of the asset. Upon disposal, any revaluation surplus relating to the particular asset being sold is transferred to retained earnings. A revaluation surplus is recorded in OCI and credited to the asset revaluation surplus in equity. However, to the extent that it reverses a revaluation deficit of the same asset previously recognised in profit or loss, the increase is recognised in profit and loss. A revaluation deficit is recognised in the statement of profit or loss, except to the extent that it offsets an existing surplus on the same asset recognised in the asset revaluation surplus. The revaluation is carried out under the market value basis at regular intervals so as to ensure that the revalued amounts are not significantly different from the carrying amounts. For the purpose of revaluation, the Company also takes into consideration the highest and best use considering the alternate use if legally permissible, less costs to be incurred for the alternate use in which case the value is then allocated to land and building in proportion to the values determined on "as is" basis.

Valuations are performed frequently to ensure that the fair value of the revalued assets do not differ materially from their carrying value amount at the reporting date.

Cost in relation to items of property, plant and equipment stated at cost represents the historical costs.

Expenditure incurred to replace a component of an item of operating assets is capitalised and the asset so replaced is retired. Other subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the asset will flow to the Company and the cost of the asset can be measured reliably. The carrying amount of the replaced part is derecognised.

Capital work in progress

Capital work-in-progress is stated at cost less impairment losses, if any. All expenditure connected with specific assets incurred during installation and construction period are carried under this head. The assets are transferred to relevant category of operating fixed assets when they are available for intended use.

Notes to the Financial Statements

For the year ended 31 December 2022

Depreciation and amortization

Depreciation is charged to the statement of profit or loss applying the reducing balance method whereby costs of assets, less their residual values, is written off over their estimated useful lives at rates disclosed in note 4.1. Cost of the leasehold land is amortised over the period of the lease. Depreciation of the above assets / amortization of the cost of land on additions is charged from the month in which the asset is available for use up to the month preceding the disposal.

Useful lives are determined by the management based on expected usage of asset, expected physical wear and tear, technical and commercial obsolescence, legal and similar limits on the use of assets and other similar factors.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the statement of profit or loss in the year the asset is derecognized.

When revalued assets are sold, the relevant remaining surplus is transferred directly by the Company to its retained earnings.

Normal repairs and maintenance are charged to the statement of profit or loss during the financial year in which these are incurred.

3.1.2 Right-of-use assets

A contract is, or contains a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. The Company mainly leases properties for its operations. The Company recognizes a right-of-use asset and lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, and subsequently at cost less any accumulated depreciation and impairment losses, and adjusted for certain remeasurements of the lease liability. The right-of-use asset is depreciated using the straight line method from the commencement date to the earlier of end of the useful life of right-of-use asset or end of the lease term. The estimated useful lives of assets are determined on the same basis as that for owned assets. In addition, the right-of-use asset is periodically reduced by impairment losses, if any.

3.2 Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Costs that are directly associated with identifiable software products controlled by the Company and have probable economic benefit beyond one year are recognized as intangible assets. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

Cost associated with maintaining computer software products are recognised as an expense when incurred.

Intangible assets with finite useful lives are amortised over the useful economic life as specified in note 5 and assessed for impairment whenever there is an indication that the intangible asset may be impaired. In respect of additions and deletions of intangible assets during the year, amortization is charged from the month of acquisition and up to the month preceding the deletion, respectively.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Notes to the Financial Statements

For the year ended 31 December 2022

3.3 Stores and spares

These are stated at weighted average cost less impairment loss, if any. The Company reviews the carrying amount of the stores and spares on a regular basis for slow moving items. Adequate provision is made for any excess carrying value over the estimated net realizable value and is recognized in the statement of profit or loss.

3.4 Stock-in-trade

These are valued at lower of cost and net realisable value (NRV). Cost of raw materials, packing materials, work in process and finished goods is determined on weighted average cost basis, except that in case of stock in transit, it is determined at invoice value and other charges incurred thereon, net of NRV adjustment.

Cost of finished goods consists of materials, labour and applicable production overheads. However, the work-in-process is valued at material cost only as conversion costs are immaterial.

Net realisable value signifies the estimated selling price in the ordinary course of business less estimated cost of completion and selling expenses.

3.5 Trade debts and other receivables

Trade debts and other receivables are stated initially at fair value and subsequently measured at amortized cost. Credit loss is based on the expected credit losses, (ECLs) model and also considers the specific exposure where there is no expectation of recovery. Trade debts and other receivables are written off when considered irrecoverable.

3.6 Cash and cash equivalents

Cash and cash equivalents are stated at cost and comprise cash and bank balances and short term investments having maturity of less than 3 months. Cash and cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash that are subject to insignificant risk of change in value.

3.7 Assets classified as held for sale

Disposal group comprising of non-current assets and current assets is classified as asset held for sale when its carrying amount is to be recovered principally through a single sale transaction and a sale is considered highly probable. They are recorded at lower of their carrying amount and fair value less cost to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset (disposal group), excluding finance costs and income tax expense.

The criteria for assets held for sale classification is regarded as met only when the sale is highly probable, and the asset or disposal group is available for immediate sale in its present condition. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the plan to sell the asset and the sale expected to be completed within one year from the date of the classification.

Assets classified held for sale are not depreciated once classified as held for sale.

Assets classified as held for sale are presented separately as current items in the statement of financial position. Additional disclosures are provided in note 15 to these financial statements.

Notes to the Financial Statements

For the year ended 31 December 2022

3.8 Staff Retirement benefits

a) Gratuity scheme - defined benefit plan

The Company operates an unfunded gratuity scheme for its eligible employees. Permanent employees who have completed four years of service with the Company are eligible employees for this scheme and payment is made on the basis of employee's last drawn basic salary. Provision is made in the financial statements based on actuarial valuation (conducted at the reporting date - 31 December 2022) using the projected unit credit method. Remeasurement of the defined benefit liability, which comprises actuarial gain and losses are recognised immediately in other comprehensive income. Net interest expense and other expenses relating to defined benefit plan are recognised in the statement of profit or loss. Amount recognised in the statement of financial position represents the present value of defined benefit obligation.

b) Retirement benefit scheme - defined benefit plan

In addition, the Company also operates an un-funded retirement benefit scheme for its eligible employees. The employees who were on Company's permanent payroll on or before 30 June 1999 and have completed ten years of services with the Company are eligible for benefits under this scheme and payment is made on the basis of employee's last drawn basic salary.

Provisions are made to cover the obligation on accrual basis and are charged as an expense. The amount of liability recognized in the statement of financial position is calculated by the Company using the above basis as the difference in liability is not expected to be material using the Projected Unit Credit method.

c) Provident fund - defined contribution plan

Provident fund is a defined contribution plan for regular staff. Monthly contributions are made both by the Company and the employees to the fund at the rate of 10% of the basic salary.

3.9 Compensated absences

The Company recognises the liability for compensated absences in respect of employees in the period in which they are earned up to the reporting date on the basis of un-availed earned leaves balance at the end of the year.

Provisions are made to cover the obligation on accrual basis and are charged as an expense. The amount of liability recognized in the statement of financial position is calculated by the Company using the above basis as the difference in liability is not expected to be material using the Projected Unit Credit method.

3.10 Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the statement of profit or loss except to the extent that it relates to items recognized directly in equity.

Current

Provision for current taxation is based on taxable income at the enacted or substantively enacted rates of taxation after taking into account available tax credits and rebates, if any, and the minimum tax payable, in accordance with the provisions of Income Tax Ordinance, 2001. The charge for current tax includes adjustments to charge for prior years, if any.

Notes to the Financial Statements

For the year ended 31 December 2022

Deferred

Deferred tax is recognised using balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax recognised is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using the enacted or substantively enacted rates of taxation. A deferred tax asset is recognised to the extent that it is probable that the future taxable profits will be available against which temporary difference can be utilised. Deferred tax assets are reviewed at reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. Deferred tax arising on surplus on revaluation of property, plant and equipment is recorded directly in the surplus account.

Deferred tax assets and deferred tax liabilities are offset only if there is a legally enforceable right to offset current tax assets and liabilities and they relate to the income tax levied by the same authorities.

3.11 Lease liabilities

The Company assesses at contract inception whether a contract is, or contains a lease, i.e., if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The lease liability against right of use assets is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made. It is re-measured when there is a change in future lease payments arising from a change in an index or rate, a change in assessment of whether extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in-substance fixed lease payments or a change in the assessment to purchase the underlying asset. Lease payments on short-term leases are recognised as expense on a straight-line basis over the lease term.

3.12 Trade and other payables

Trade and other payables are recognized initially at fair value plus directly attributable cost, if any, and subsequently measured at amortized cost which approximates to its fair value.

3.13 Provisions

Provisions are recognised in the statement of financial position when the Company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimates.

3.14 Government grant

Government grants are recognised when there is a reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to expense, it is recognised as income on a systematic basis over the periods that the related cost, for which it is introduced to compensate, are expensed out.

Notes to the Financial Statements

For the year ended 31 December 2022

3.15 Revenue recognition

- Sales are stated net of sales tax, trade discount and sales return and are recognised when persuasive evidence of a sale exists. The key area of judgment in recognising revenue is the timing of recognition, which reflects the point or period when the Company has transferred the control of the product, being when the products are delivered to the customers. Delivery occurs when the product has been delivered to the customer destination / specific location, the risk of loss has been transferred to the customer and the customer has accepted the product either as per the sales contract or the Company has objective evidence that all criteria for acceptance has been satisfied. Revenue from sale of goods is measured at fair value of the consideration received or receivable.
- Scrap sales are stated net of sales tax and are recognised in the year in which scrap sales are made.
- Return on bank deposits is accounted for using effective interest method.
- Dividend income is recognized when the right to receive payment is established.

3.16 Financial instruments

The Company recognises financial asset or a financial liability when it becomes a party to the contractual provision of the instrument. Financial assets and liabilities are recognised initially at cost, which respectively is the fair value of the consideration given or received. These are subsequently measured at amortised cost.

a) Initial recognition and measurement

Under IFRS 9, on initial recognition, a financial asset is classified as measured at: amortised cost; Fair Value through Other Comprehensive Income (FVOCI) – debt investment; FVOCI – equity investment; or Fair Value through Profit or Loss (FVTPL).

The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes to the Financial Statements

For the year ended 31 December 2022

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI or at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

b) Subsequent measurement

Financial assets at FVTPL - These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in statement of profit or loss.

Financial assets at amortised cost - These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses, if any. Interest income, foreign exchange gains and losses and impairment are recognised in statement of profit or loss. Any gain or loss on derecognition is recognised in statement of profit or loss.

Debt investments at FVOCI - These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in statement of profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to statement of profit or loss.

Equity investments at FVOCI - These assets are subsequently measured at fair value. Dividends are recognised as income in statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses including on account of derecognition are recognised in OCI and are never reclassified to statement of profit or loss.

c) Derecognition of financial assets

Financial assets are derecognised when the contractual right to cash flows from the asset expire, or when substantially all the risks and reward of ownership of the financial asset are transferred. Financial liability is derecognised when the Company's contractual obligations are discharged, cancelled or expired. Gain or loss on derecognition is recognised in the statement of profit or loss.

3.17 Off-setting of financial assets and financial liabilities

A financial asset and a financial liability is offset and the net amount reported in the statement of financial position, if the Company has the enforceable legal right to set off the transaction and also intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

3.18 Impairment

Financial assets

A financial asset is assessed at each reporting date to determine if there is an objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event has a negative effect on the estimated future cash flows of the asset.

Notes to the Financial Statements

For the year ended 31 December 2022

The Company recognises loss allowances for Expected Credit Losses (ECLs) in respect of financial assets measured at amortised cost.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the bank balance for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition (although in this case the measurement is at 12 month ECLs) or in cases where the likelihood of losses are remote.

Loss allowances for trade receivables are measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than past due for a reasonable period of time. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. 12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Non-financial assets

The carrying amounts of non-financial assets are assessed at each reporting date to ascertain whether there is any indication of impairment. If any, such indication exists then the asset's recoverable amount is estimated. An impairment loss is recognised, as an expense in the statement of profit or loss, at the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Value in use is assessed through discounting of the estimated future cash flows using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

An impact on the estimated future cash flows of that asset that can be estimated reliably. Objective evidence that the financial asset is impaired includes default or delinquency by a debtor, restructuring of an amount due to the Company on the terms that the Company would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, adverse changes in the payment status of borrowers or issuers, economic conditions that correlate with defaults or the disappearance of an active market for a security.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of estimated cash flows discounted at the original effective interest rate. When an event occurring after the impairment was recognised causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through statement of profit or loss.

Notes to the Financial Statements

For the year ended 31 December 2022

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics. All impairment losses are recognised in the statement of profit or loss.

3.19 Borrowings

All interest bearing borrowings are initially recognized at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest bearing borrowings are subsequently measured at amortized cost using the effective interest rate method.

Borrowing costs are recognised as an expense in the period in which these are incurred, except that those which are direct attributable to the acquisition, construction or production of a qualifying asset (i.e. an asset that necessarily takes a substantial period of time to get ready for its intended use or sale) are capitalised as part of the cost of that asset.

3.20 Foreign currency translation and transactions

Foreign currency transactions during the year are recorded at the exchange rates approximating those ruling on the date of the transaction. Monetary assets and liabilities in foreign currencies are translated at the rates of exchange which approximate those prevailing on the reporting date. Gains and losses on translation are taken to the statement of profit or loss currently.

3.21 Dividend and appropriations

Dividends and appropriations to reserves are recognised in the period in which these are declared / approved. However, if these are approved after the reporting date but before the financial statements are authorised for issue, they are disclosed in the notes to the financial statements.

3.22 Earnings per share

The Company presents basic and diluted earnings per shares (EPS) data. Basic EPS is calculated by dividing the profit or loss attributable to share holders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to shareholders and the weighted average number of ordinary shares outstanding, adjusted for the effects of all dilutive potential ordinary shares.

3.23 Contract liabilities

A contract liability is the obligation to transfer services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs its obligation under the contract.

3.24 Sales tax

Revenues, expenses and assets are recognized, net of the amount of sales tax except:

- where sales tax incurred on a purchase of asset or service is not recoverable from the taxation authorities, in which case the sales tax is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable;

Notes to the Financial Statements

For the year ended 31 December 2022

- when receivables and payables are stated with the amount of sales tax included the net amount of sales tax recoverable from, or payable to, the taxation authorities is included as part of Receivables or payables in the statement of financial position.

3.25 Contingent liabilities

A contingent liability is disclosed when the Company has a possible obligation as a result of past events, whose existence will be confirmed only by the occurrence or non-occurrence, of one or more uncertain future events not wholly within the control of the Company; or the Company has a present legal or constructive obligation that arises from past events, but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or the amount of obligation cannot be measured with sufficient reliability.

25.1 Provision for current tax is based on minimum tax under section 113 of income tax ordinance 2001, accordingly reconciliation of tax expense and profit before tax has not not been presented in these financial statements.

25.2 In view of loss for the financial year ended 31 December 2015, provision for tax for the then year ended 31 December 2015, including the minimum tax under the Income Tax Ordinance, 2001, was not made in the financial statements for the year ended 31 December 2015. The Company had obtained an opinion from a tax advisor based on which it believes that it is not required to pay tax under section 113 of the Income Tax Ordinance, 2001, in view of gross loss for the year ended 31 December 2015, before the set off of depreciation and other inadmissible expenses under the Income Tax Ordinance, 2001 (as under the above section minimum tax is not payable in case of gross loss before the set off of depreciation and other inadmissible expenses). However, Finance Act 2016 has deleted the said proviso of gross loss. The management, believes that the minimum tax for the year ended 31 December 2015 is not payable as the amendment to the said proviso is applicable for tax year 2017 and onwards and accordingly provision for minimum tax amounting to Rs. 14.23 million has not been made. However, CIR had levied minimum tax on the Company vide an amended assessment order, against which the Company has filed an appeal with the CIR Appeals. The Company filed appeal before ITR(A) who vide an order dated 5 October 2018 has confirmed the levy of minimum tax. Disagreeing with this, the Company has filed an appeal with the Appellate Tribunal Inland Revenue, since the management believes that the minimum tax for the year ended 31 December 2015 is not payable due to the reason given above. Accordingly, no provision of above demand, has been made in these financial statements.

Notes to the Financial Statements

For the year ended 31 December 2022

25.3 Income Tax Assessments of the Company have been completed up to and including the financial year ended 31 December 2021 with the exception of accounting years 2007, 2011, 2012, 2014, 2015, and 2016. For tax year ended 2011, audit proceedings were initiated and completed vide order passed under section 122(1)(5) of the Income Tax Ordinance, 2001 in which certain disallowances were made amounting to Rs. 12.289 million against which appeal was filed by the Company. The appeal was heard and then subsequently the CIR Appeals passed a revised order in which certain expenses earlier disallowed were allowed amounting to Rs. 4.66 million while expenses amounting to Rs. 6.65 million were remanded back by CIR Appeals to Deputy Commissioner Inland Revenue (DCIR). In respect of the remaining amount, the Company has already filed an appeal before the Appellate Tribunal Inland Revenue (ATIR) which is pending decision. Based on the Company's tax advisor's view, a favourable decision is expected and therefore the subject demand is expected to be quashed. Accordingly, no provision of above demand, has been made in these financial statements.

Furthermore, on 21 April 2015, an order under sub-section (5A) of section 122 of the Income Tax Ordinance, 2001 was passed by the Additional Commissioner Inland Revenue for the tax year 2012, in which tax demand of Rs. 0.75 million was raised against certain disallowances. The Company has filed an appeal against the alleged order before the Commissioner Inland Revenue Appeals who vide its order dated 8 September 2016 has allowed certain expenses of Rs. 1.82 million which were earlier disallowed (tax effect being Rs. 0.65 million). In respect of the remaining amount, the Company has already filed an appeal before the ATIR which is pending decision. Based on the Company's tax advisor's view, a favourable decision is expected and therefore the subject demand is expected to be quashed. Accordingly, no provision of above demand, has been made in these financial statements.

25.4 Return for the tax year 2007 was selected for audit under section 177 of Income Tax Ordinance 2001 and an amended assessment order dated 30 March 2009 was passed in which certain disallowances were made by the taxation authorities. Disagreeing to the above, the Company filed an appeal before the Commissioner Inland Revenue, Appeal (CIR-A) and also filed an appeal before the CIR-A against the refusal of the Taxation Officer to rectify certain mistakes. The CIR-A vide his order No. 15 and 16 dated 25 October 2011 deleted all the additions except for the alleged unreconciled production of manufactured goods amounting to Rs. 3.3 million. The Company filed an appeal before Appellate Tribunal Inland Revenue (ATIR) for not allowing relief in respect of disallowance of Rs. 3.3 million on account of alleged unreconciled production of manufactured goods. Further, the tax department has also filed an appeal before ATIR on certain reliefs of Rs. 4.8 million earlier decided in favour of the Company. In the Appellate Order (AO) dated 8 October 2013 passed by the ATIR, the issue of unreconciled production was deleted (decided in favour of the Company) simultaneously setting aside the same for reverification. In response to it the department filed MA in response to which, ATIR passed AO dated 5 May 2015 by remanding back the issue for reverification of unreconciled difference, strictly in the light of history of the case and subsequent years. Following the judgement of ATIR, department has initiated set-aside proceedings. The Company has submitted the response and details regarding unreconciled production.

On November 23, 2021, the Company had filed application for appeal effect u/s 124 of the Income Tax Ordinance 2001, in the light of the ATIR order dated on April 07, 2022. The Deputy Commissioner Inland Revenue (DCIR) has rejected the Company's appeal on the ground of ATIR order dated 5 May 2015 is barred by time. Disagreeing to the above order, the Company filed an appeal before the Commissioner (IR) Appeal (CIR-A). The CIR-A in its order vide bar code No. 100000138584499 dated 28 December 2022, remand back to the DCIR with the instruction to pass a speaking order u/s 124 preferably within 30 days of this order. The management believes that there is no merit in the above demands. Accordingly, no provision has been made in these financial statements.

Notes to the Financial Statements

For the year ended 31 December 2022

25.5 Returns for the financial years ended 31 December 2014 and 31 December 2015 were amended under section 122(9) of Income Tax Ordinance 2001 and amended assessment orders dated 22 September 2017 and 18 April 2017 respectively were passed in which certain disallowances were made by the taxation authorities. Disagreeing to the above, the Company had filed appeals before the CIR Appeals. During the year 2018, these appeals were partly decided in favour of the Company by the CIR(A), allowing the Company expenses amounting to Rs. 15.70 million (for year ended 31 December 2014) and Rs. 36.6 million (for year ended 31 December 2015). The tax authorities have filed appeals before the ATIR against the CIR(A)'s order to allow relief to the Company. The management believes that there is no merit in above demands. Accordingly, no provision has been made in these financial statements.

25.6 During the year ended 31 December 2019, on 25 September 2019 an order under sub section (1) of section 122 of the Income Tax Ordinance, 2001 was passed by the Deputy Commissioner Inland Revenue (DCIR) for the financial year 2016 in which certain disallowances amounting to Rs. 9.83 million were made. Disagreeing to the above, the Company has filed an appeal before the Commissioner Inland Revenue - Appeals against the alleged order of DCIR, which is pending decision. However, adequate provision is being held by the Company.

25.7 On 8 January 2019, the Company received a show cause notice from Additional Commissioner - I (AC-I) Punjab Revenue Authority (PRA) for failure to deduct and deposit withholding tax in full for the period 01 January 2015 to 31 December 2017 amounting to Rs. 70.401 million. The above show cause notice was converted into demand on 03 September 2019, creating demand of Rs. 60.241 million (including penalty of Rs. 2.869 million) and default surcharge to be calculated at the time of payment.

Being aggrieved, the Company filed an appeal before Commission Appeals-PRA who modified the above order of AC-I by reducing the amount of sales tax to Rs. 45.551 million along with default surcharge to be calculated at the time of payment.

The Company filed appeal before Appellate Tribunal - PRA against the above order of Commission Appeals which is pending adjudication. The Company, based on the opinion of tax advisor expects a favourable outcome on legal grounds which were not addressed by the Commission Appeals. Accordingly, no provision, in respect of above demand, has been made in these financial statements.

25.8 During the year ended December 31, 2020, orders under sub section (1) of section 122(5A) of the Income Tax Ordinance, 2001 were passed by Additional Commissioner Inland Revenue (ACIR) for the tax year 2018 and 2019 (corresponding financial year 2017 and 2018) in which certain disallowances amounting to Rs. 7.463 million and Rs. 5.91 million respectively were made. During the year, these appeals were partly decided in favour of the Company by allowing the expenses amounting to Rs. 1.768 million and Rs 1.635 million respectively and remaining issues remanded back to the department for re examination after providing opportunity of being heard to the Company. Till date, the Department has not initiated set aside proceedings.

During the year, the Company filed an appeal before ATIR against the order for the tax year 2018 on the ground of remand back of issues. Based on the Company's tax advisor's view, reasonable grounds are available to contest the remand back issues. Being prudent, the management has provided Rs.1.01 million in these financial statements.

37.6 Fair value of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Company is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets i.e. listed equity shares are based on the quoted market prices at the close of trading on the reporting date. The quoted market prices used for financial assets held by the Company is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13, 'Fair Value Measurements' requires the Company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Notes to the Financial Statements

For the year ended 31 December 2022

- Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date (level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly (level 2).
- Unobservable inputs for the asset or liability (level 3).

The carrying value of all financial assets and liabilities reflected in the financial statements approximate fair values.

The following table shows the carrying amounts of financial assets and financial liabilities, including their levels in the fair value hierarchy. The Company has not disclosed the fair values of financial assets and financial liabilities, as these are either short term in nature or repriced, periodically. Therefore, their carrying amounts are reasonable approximations of their fair values.
