We have sold 763 units with 138 apartments sold during the current nine months period. The inventory was sold for a total consideration of PKR 11.768 billion, including PKR 2.4 billion sold in the current nine months. The prices of apartments were increased in response to strong demand and to cater to the impact of the increase in construction cost. The recovery rate of instalments remains in the vicinity of 91%, exhibiting the quality of our buyers.

The construction progress is as per schedule. We have completed approximately 28% of the construction work. This progress is in line with our business plan, and we will continue to monitor it closely to ensure that we meet our timelines and quality standards.

## Outlook

Pakistan's economy is passing through a challenging readjustment phase: currency devaluation, interest rate hike, inflation, slower/negative growth. Real estate development sector, being capital intensive and devoid of financial facilitation is facing the brunt of prevailing economic conditions. Raw material prices have exhibited unprecedented increase, availability of raw material is uncertain and the demand for the product has curtailed significantly.

We believe that the sector deserves special government support and attention. This sector is the second largest provider of jobs especially to the semi-skilled/low wage earners. Responding to the government's incentives promulgated on 17 April, 2020 several projects were launched and these are in different stages of completion. Unprecedented challenges posed by the prevailing economic conditions warrant a suitable extension to the timelines as offered under the government's incentive scheme.

We believe that the strength of our structure, management capacity and the quality of our customers will further distinguish us amongst our competition in these testing times. We are confident that we shall be able to deliver our business plan within the defined cost, quality and timeline parameters. We are optimistic about the long-term prospects for our Development REIT.

## Acknowledgement

We extend our gratitude to our valued investors, the Securities and Exchange Commission of Pakistan(SECP), the management of Pakistan Stock Exchange(PSX), Central Depository Company of Pakistan Limited (CDC) - the Trustee, Arif Habib Development and Engineering Consultants(AHDECL) - the Project Manager, and our all other business partners for their continued cooperation and support. We also appreciate the effort put in by the management team and are proud of their commitment towards ensuring the success of our business.

## 24 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and fair value estimates.

Underlying the definition of fair value is the presumption that the REIT is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms until the development of the project.

#### 24.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the REIT to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Inputs for the asset or liability that are not based on observable market data (i.e., unobservable inputs).

As at December 31, 2022 and June 30, 2022, the REIT does not have any financial assets which are carried at fair value. The carrying values of all other financial assets approximate at their fair values.

#### 25 INTEREST IN JOINT ARRANGEMENTS

- 25.1 During the current period, the REIT and Meezan Bank Limited (the Bank) have entered into a 'Shirkat-ul-Aqd' arrangement for construction and development of residential Towers 2, 3 and 4 (the Musharaka Asset) of the Project. The Musharaka Asset is currently being owned by the REIT. The total estimated construction and development expenditures for the Musharaka Asset is Rs. 3,618 million. As per the framework agreement, both the REIT and the Bank (collectively referred as 'the Partners') have agreed to be jointly develop the Musharaka Asset under an equal partnership whereby each party shall invest 50% of the amount required for construction and development expenditures (including the value of land). Under the framework agreement, the Partners have agreed to jointly own the Musharaka Asset in such a manner that each Partner will have equal undivided ownership. During the Mushkaraka period, legal title to the Musharaka Asset so purchased by the Bank will be held by the REIT on the behalf of the Bank. All decisions with respect to development and sale of the Musharaka Asset would be made only with unanimous consent of the Partners. The Partners have agreed to share the operating profits generated from the sale of the Musharaka Asset in accordance with the agreed profit-sharing ratio of 50:50 and in case of loss will also share in the ratio of 50:50. During the Musharaka period, the Partners may make provisional profit payments in such manner and at such time as may be mutually agreed between the Partners.

The above arrangement falls within the purview of 'Joint Operations' in accordance with IFRS - 11 since both Partners jointly control the development and construction of the Musharaka Asset and have rights to the assets, and obligations for the liabilities relating to the Musharaka Asset.

- 25.2 In order to execute the above-mentioned arrangement, the REIT entered into an arrangement with the Bank on September 26, 2022 to sell 50% of the project site for the said towers (Musharakah Asset) at a consideration of Rs. 485.270 million. The carrying value of the land disposed of was Rs. 432.577 million which resulted in the gain on disposal of Rs. 52.693 million during the current period. Moreover, the cost incurred till September 26, 2022 (including cost of grey structure) appearing in the books of the REIT as "Inventory" amounted to Rs 456.800 million. As per the terms of agreement, the Bank was to make 50 percent contribution for the cost of the project. Therefore, 50 percent of the carrying amount of the grey structure was disposed off by the REIT to the Bank at the carrying amount of Rs 228.400 million.

During the current period, the Bank has contributed a total sum of Rs. 888.725 million which includes the consideration of Rs. 485.270 million for land as mentioned above. All of the expenses incurred till September 26, 2022 have been adjusted from the carrying amount of the Musharakah Asset. Any amount left is to be adjusted from future development expenditures.

- 25.3 Moreover, as disclosed in note 23.1 to these condensed interim financial statements, the tax charge for the period is calculated as a period cost since the total tax liability for the Project is computed as a fixed levy under the provisions of Section 100D. The proportionate tax charge till date (from the start of the Project) for the Musharakah Assets amounted to Rs 35.910 million. Accordingly, the Bank's share of tax amounted to Rs 17.955 million.

Subsequent to the Musharaka Agreement date, any development expenditures pertaining to the Bank's share of Musharaka Asset incurred by the REIT shall be adjusted against the balance payable / receivable to / from the joint operator.
