DIRECTORS' REPORT TO THE MEMBERS

On behalf of the Board of Directors of the Company, it gives me immense pleasure to present the Annual Report of the Company for the year ended June 30th, 2023 together with the audited financial statements for the year in accordance with the accounting, regulatory and legal standards and requirements.

ECONOMIC PERFORMANCE:

The VUCA (Volatile, Uncertain, Complex, Ambiguous) global environment, driving economic slowdown and inflationary pressures, has had a substantial impact on Pakistan's economy. Fiscal Year 2022-23 brought extraordinary challenges such as poor demand, rising policy rate, record floods and a fluid political landscape. In addition, the war in Ukraine severely disrupted the global demand-supply balance and increased the prices manifold.

The Country's economic growth slowed drastically and large-scale manufacturing (LSM) witnessed contraction in volume, drastic tightening of monetary policy and controls to curb imports. Steep PKR depreciation made overseas employment opportunities attractive which triggered migration along with salary inflation and increased cost of production locally. In FY2023, Pakistan's GDP grew by 0.3% (1.6% in agriculture, -2.9% in industrial sector, and 0.9% in the services sector). LSM shrunk by 10.26% during FY2023 versus growth of 10.6% in the previous year. The contraction in LSM volumes was witnessed across all major sectors, especially automobiles, textiles and construction. Iron & Steel production dropped by 4.0% during the period under review compared to a growth of 16.6% in the same period last year. Annual per capita income decreased from US\$ 1,765 to US\$ 1,568 in FY2023. This deceleration was attributed to the significant depreciation of PKR and the contraction in economic activity. The depreciation of the Rupee resulted in record inflation in our import-dependent economy recorded at 28.2% compared to 11.0% during the same period last year.

Uncertainties surrounding an IMF agreement finally came to an end as it approved a US\$ 3 billion stand-by agreement and released US\$ 1.2 billion in June 2023. The fears of an imminent sovereign default have been averted. The IMF has forecasted Pakistan's economic growth for FY 2024 at 3.5%.

STOCK MARKET PERFORMANCE:

Domestic stocks suffered during the year amid a burgeoning external account deficit, rising inflationary pressures exacerbated by the commodity super cycle, increased political noise and change in political leadership. The year under review has seen some volatile movements in the Pakistan Stock Exchange (PSX). The change of government in April 2022 caused a certain degree of political instability. With rupee depreciating, inflation rising, low reserves, caused the index to break below the 40,000 level during the year. The most significant factor for the decline has been continuous increase in policy rate. IMF program provided the much needed optimism with index closing at 41,453 on June 2023 a negligible decline of 0.20%. However in dollar terms the index saw a decline of 29%, primarily due to 28% rupee depreciation. Foreigners were net sellers and during the year. PSX experienced a substantial decline of 34% in volumes. The market is trading at price to earnings ratio (PE) at a very low level of 3.5 against regional multiples of 11. With such low prices dividend yield has increased to 12% against region's 3%.

In spite of all the uncertainties and economic challenges companies listed in KSE-100 performed well showing resilience, posting a profitability growth of 9%.

FINANCIAL PERFORMANCE

We are pleased to share with you the following financial performance of the company for FY23 despite multiple headwinds:

ڈاؤمیکٹرز کی رپورٹ

کپنی کے بورڈ آف ڈائریکٹرز کی جانب سے، 30 جون 2023 کو ختم ہونے والے سال کے لئے کپنی کی سالانہ رپورٹ محاسبانہ لئے نظر ثانی شدہ مالیاتی گوشوارے اور اکاؤنٹنگ، ریگولیٹری اور وفاقی معیارات اور ضروریات کے مطابق ان پراڈیجز کی رپورٹ پیش کرتے ہوئے مجھے انتہائی خوشی ہو رہی ہے۔

اقتصادی اور کاروباری ماحول

VUCA (متحرک، غیر یقینی، پیچیدہ، مبہم) عالمی ماحول، جو معاشرہ سے رومی اور افراط زر کے دباؤ کو آگے بڑھا رہا ہے، نے پاکستان کی معیشت کو بہت زیادہ متاثر کیا ہے۔ مالی سال 2022-23 غیر معمولی کم طلب، بڑھتی ہوئی پالیسی کی شرح، ریکارڈ سیلاب اور سیاسی منظر نامے کی روانی مشکلات نے لے کر آیا۔ اس کے علاوہ، یوکرین میں جنگ نے عالمی طلب اور رسد کے توازن کو بُری طرح متاثر کیا اور قیمتیں کی گنا بڑھ گئیں۔

ملک کی اقتصادی نمو میں تیزی سے کمی آئی اور بڑے پیمانے پر میٹریکیپرنگ (ایبل ایس ایم) کے حجم میں کمی آئی، مانیٹری پالیسی میں بہت زیادہ سختی اور درآمدات کو روکنے کے لیے کنٹرولز دیکھے۔ پاکستانی روپیہ میں زبردستی سے بیرون ملک روزگار کے مواقع کو کھینچنا، ناداروں جس سے تنخواہوں میں افراط زر اور مقامی طور پر پیداواری الاگت میں اضافہ کے ساتھ ساتھ جہت شروع ہوئی۔ مالی سال 2023 میں، پاکستان کی جی ڈی پی میں 0.3% (زراعت میں 1.6%، صنعتی شعبے میں -2.9%، اور خدمات کے شعبے میں 0.9%) اضافہ ہوا۔ مالی سال 2023 کے دوران ایبل ایس ایم 10.26 فیصد کم ہو گیا۔ پچھلے سال میں 10.6 فیصد اضافہ ہوا۔ ایبل ایس ایم کے حجم میں سگڑاؤ تمام بڑے شعبوں خصوصاً آٹوموبائل، ٹیکسٹائل اور تعمیرات میں دیکھا گیا۔ زیر جائزہ مدت کے دوران آئرن اینڈ اسٹیل کی پیداوار میں 4.0 فیصد کمی واقع ہوئی ہے جبکہ گزشتہ سال کی اسی مدت میں 16.6 فیصد کمی ہوئی۔ مالی سال 2023 میں سالانہ نئی کس آمدنی 1,765 امریکی ڈالر سے کم ہو کر 1,568 امریکی ڈالر رہ گئی۔ اس کی وجہ پاکستانی روپیہ کی نمایاں گراؤت اور معاشی سرگرمیوں میں سگڑاؤ ہے۔ روپے کی قدر میں کمی کے نتیجے میں ہماری درآمدات پر منحصر معیشت میں افراط زر کی شرح 28.2 فیصد ریکارڈ کی گئی جو گزشتہ سال کی اسی مدت کے دوران 11.0 فیصد تھی۔

آئی ایم ایف کے معاہدے کے ارد گرد کی غیر یقینی صورتحال یا آخر ختم ہو گئی کیونکہ اس نے 3 بلین امریکی ڈالر کے اسٹیٹ بانی معاہدے کی منظوری دے دی اور جون 2023 میں 1.2 بلین امریکی ڈالر جاری کر دیے ہیں۔ آئی ایم ایف نے مالی سال 2024 کے لیے پاکستان کی اقتصادی شرح نمو 3.5 فیصد رہنے کی پیش گوئی کی ہے۔

اسٹاک مارکیٹ کی کارکردگی:

سال کے دوران بڑھتے ہوئے بیرونی اکاؤنٹ خسارہ، اشیاء کے ہر سائیکل کی وجہ سے بڑھتے ہوئے افراط زر کا دباؤ، بڑھتے ہوئے سیاسی شور اور سیاسی قیادت میں تبدیلی کے درمیان ہلکی اسٹاکس کو نقصان پہنچا۔ زیر جائزہ سال کے دوران پاکستان اسٹاک ایکسچینج (PSX) میں کچھ اتار چڑھاؤ دیکھنے میں آیا۔ اپریل 2022 میں حکومت کی تبدیلی نے ایک خاص حد تک سیاسی عدم استحکام پیدا کیا۔ روپے کی قدر میں کمی، افراط زر میں اضافہ، کم ذخائر، سال کے دوران انڈیکس 40,000 کی سطح سے نیچے گرنے کا سبب بنے۔ کمی کا سبب سے اہم عنصر پالیسی ریٹ میں مسلسل اضافہ ہے۔ آئی ایم ایف پروگرام نے انتہائی مطلوبہ رجائیت فراہم کی جس میں انڈیکس جون 2023 کو 41,453 پر بند ہوا جو 0.20 فیصد کی معمولی کمی ہے۔ تاہم ڈالر کے لحاظ سے، بنیادی طور پر روپے کی قدر میں 28% کمی کی وجہ سے انڈیکس میں 29% کمی دیکھی گئی۔ غیر ملکی نالغہ فروخت کنندہ تھے اور سال کے دوران PSX کے حجم میں 34% کمی نمایاں ہوئی۔ مارکیٹ قیمت سے آمدنی کے تناسب (PE) پر علاقائی 11 کے مقابلے میں 3.5 کی انتہائی کم سطح پر فیڈر رہی ہے۔ اس طرح کی کم قیمتوں کے ساتھ ڈیویڈنڈ کی شرح خطی 3% کے مقابلے میں 12% تک بڑھ گئی ہے۔

تمام غیر یقینی صورتحال اور معاشی مشکلات کے باوجود KSE-100 میں درج کمپنیوں نے پلک کے ساتھ اچھی کارکردگی کا مظاہرہ کرتے ہوئے منافع میں 9% اضافہ کیا۔

مالی سال 2022-23 کے لئے DEL کے کل آپریٹنگ اخراجات تقابلی سال میں 53.9 ملین روپے کے مقابلے میں 44.6 ملین روپے ریکارڈ کئے گئے۔ انتظامیہ نے مختصر ضرورت کی بنیاد پر اخراجات برداشت کر کے الگ برشمار مندی دکھائی جس کے نتیجے میں معمول کے کاروباری اخراجات میں بچت ہوئی۔ سال کے دوران کپنی نے 9 IFRS کی تعمیل میں متوقع کریڈٹ نقصان کی رقم 9 ملین روپے کے الاؤنس کو تسلیم کیا۔ کپنی کی مالیاتی لاگت بڑھ کر 8.4 ملین روپے ہو گئی جو مرکزی بینک کی طرف سے جارحانہ مالیاتی سختی کے باعث سود کی بلند شرحوں اور بہتر مواقع اور ورگنگ کیمپبل کی ضرورت میں کپنی کی سرمایہ کاری کو متنوع بنانے کے لیے قرض لینے کی زیادہ لاٹوں کے استعمال کی وجہ سے زیادہ ہوئی ہے۔

بیلنس شیٹ کی تاریخ تک کپنی کی ایکویٹی 250.2 ملین روپے (جون 2022 میں 279.9 ملین روپے) ہے جس کے نتیجے میں بک ویلج 9.10 روپے فی شیئر (30 جون، 2022 میں 10.17 روپے) حاصل ہوئی ہے۔

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of the users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and the related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);

4. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted in the preparation of these financial statements are the same as those applied in the preparation of the financial statements of the Company for the year ended June 30, 2022 unless otherwise stated.

4.1 Property and equipment

Operating fixed asset

These are operating fixed assets which are stated at cost less accumulated depreciation and impairment, if any. Such costs include the cost of replacing parts of property and equipment when that cost is incurred. Maintenance and normal repairs are charged to statement of profit or loss as and when incurred. Depreciation is charged to statement of profit or loss over the useful life of the asset on a systematic basis applying the straight line method at the rates specified in note 5 to the financial statements.

Depreciation on additions is charged from the month in which the assets are put to use while no depreciation is charged in the month in which the assets are disposed off.

DAWOOD EQUITIES LIMITED

The carrying amounts are reviewed at each reporting date to assess whether they are recorded in excess of their recoverable amounts, and where carrying values exceed estimated recoverable amount, assets are written down to their estimated recoverable amount.

An item of operating fixed asset is derecognised upon disposal or when no future economic benefits are expected from its use or disposal.

The residual values and useful lives of assets are reviewed at each financial year end and adjusted, if appropriate.

Gains and losses on disposals, if any, are included in the statement of profit or loss.

Right of use assets

Right-of-use assets are recognised at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.

"Unless the Company is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight line basis over the shorter of its estimated useful life and the lease term.

The carrying amounts are reviewed at each reporting date to assess whether they are recorded in excess of their recoverable amounts, and where carrying values exceed estimated recoverable amount, assets are written down to their estimated recoverable amount."

4.2 Investment property

Investment property is held to earn rentals or for capital appreciation or both and is measured at cost less any accumulated depreciation and any impairment losses, if any. Maintenance and normal repairs are charged to statement of profit or loss as and when incurred. Depreciation is charged to statement of profit or loss over the useful life of the asset on a systematic basis applying the straight line method at the rates specified in note 6.

4.2.1 Depreciation

Depreciation on this property is measured at cost less any accumulated depreciation and any impairment losses, if any. The depreciation on investment property measured at cost is charged to administrative expenses.

4.3 Intangible assets

"Intangible assets are stated at cost less accumulated amortisation and impairment losses, if any. Amortisation is charged over the estimated useful life of the asset on a systematic basis applying the straight line method. The estimate of useful life and amortisation method are reviewed at the end of each financial year with the effect of any changes in estimate being accounted for prospectively.

An intangible asset with an indefinite useful life is not be amortised. Its useful life reviewed at each reporting period to determine whether events and circumstances continue to support an indefinite useful life assessment for that asset. If they do not, the change in the useful life assessment from indefinite to finite is be accounted for as a change in an accounting estimate."

The amortisation is charged from the month in which asset is available for use while no amortisation is charged for the month in which that asset is disposed off.

4.4 Taxation

Current

The charge for current taxation is based on taxable income at current rates of taxation after taking into consideration available tax credits, rebates and tax losses, if any. However, for income covered under final tax regime, taxation is based on applicable tax rules under such regime. The charge for current tax also includes adjustments where necessary, relating to prior years which arise from assessments framed / finalised during the year.

Deferred

Deferred tax is accounted for using the statement of financial position method in respect of all temporary timing differences arising from difference between the carrying amount of the assets and liabilities in the financial statements and corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilised.

4.5 Impairment of non-financial asset

The carrying amounts of the Company's assets, for which policy is given separately, are reviewed at each reporting date to determine whether there is any indication of impairment. If such indication exists the assets' recoverable amount, being higher of value in use and fair value less cost to sell, is estimated. An impairment loss is recognised wherever the carrying amount of the asset exceeds its recoverable amount. Impairment losses are charged to statement of profit or loss.

4.6 Financial instruments

4.6.1 Initial measurement of financial asset

The Company classifies its financial assets into following three categories:

- at amortised cost;
- at fair value through other comprehensive income (FVTOCI); or
- at fair value through profit or loss (FVTPL).

Financial assets at amortised cost

Financial assets that meet the following conditions are measured at amortised cost:

- a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issue thereof.

Financial assets at FVTOCI

Financial assets that meet the following conditions are subsequently measured at FVTOCI:

DAWOOD EQUITIES LIMITED

- a) the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issue thereof.

Financial assets at FVTPL

A financial asset is measured at fair value through profit or loss unless it is measured at amortised or at fair value through profit or loss.

4.6.2 Subsequent measurement

Financial assets and liabilities at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest / markup income, and impairment are recognised in the statement of profit or loss.

Financial assets at FVTOCI

These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in other comprehensive income and are never classified to the statement of profit or loss.

Financial assets and liabilities at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest / markup or dividend income, are recognised in the statement of profit and loss.

Valuation of investments

Fair values of investments are determined as follows:

Listed shares

These are valued on the basis of closing market prices quoted on the respective stock exchange. For frozen shares, per share value of Rs. Nil is used to incorporate the impact of fair value adjustment.

Unlisted shares

These are valued on the basis of actuarial valuation of the investee Company based on embedded value.

4.6.3 Impairment of financial assets at amortised cost

The Company recognises a loss allowance for expected credit losses (ECLs) on financial assets that are measured at amortised cost. Loss allowances for trade receivable are always measured at an amount equal to lifetime ECL.

The company measures loss allowance at an amount equal to life time ECLs, except for the following, which are measured at 12 months ECL:

DAWOOD EQUITIES LIMITED

- Debt security that are determined to have low credit risk at the reporting date.
- Other debt security and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

When determining whether the credit risk of financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

The company assumes that the credit risk on a financial asset has increased significantly if it is more than past due for a reasonable period of time. Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering of a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery.

4.6.4 Derecognition

Financial assets

The Company derecognises financial assets only when the contractual rights to cash flows from the financial assets expire or when it transfers the financial assets and substantially all the associated risks and rewards of ownership to another entity.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying value and the sum of the consideration received and receivable is recognised in statement of profit or loss.

In addition, on derecognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss.

In contrast, on derecognition of an investment in equity instrument which the Company has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to profit or loss, but is transferred to revenue reserve.

4.7 Trade debts and other receivables

Trade debts and other receivables are recognised and carried at original invoiced amount. When a trade debt is uncollectible, it is written off and charge to statement of profit or loss account. Subsequent recoveries of amounts previously written off are credited to the statement of profit or loss.

4.8 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost. For the purpose of cash flow statement, cash and cash equivalent consist of cash and bank balances and bank overdraft.

4.9 Leases

The Company assesses whether a contract is or contains a lease at inception of the contract. This assessment involves the exercise of judgement about whether it depends on a specified asset, whether the Company obtains substantially all the economic benefits from the use of that asset, and whether the Company has the right to direct the use of the asset.

The Company recognises a right of use (ROU) asset and a lease liability at the lease commencement date, except for short term leases of 12 months or less and leases of low value items, which are expensed in the statement of profit or loss on a straight-line basis over the lease term.

4.9.1 Lease liabilities

At the commencement date of the lease, lease liabilities are recognised and measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Company uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

4.10 Financial liabilities

The Company derecognises financial liabilities only when its obligations under the financial liabilities are discharged, cancelled or expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in the statement of profit or loss.

4.11 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position when there is a legally enforceable right to set off the recognised amounts and the Company intends to either settle on a net basis, or to realise the asset and settle the liability simultaneously.

4.12 Trade and other payables

Liabilities for trade and other payable amounts are carried at cost which is the fair value of the consideration to be paid in the future for goods and services received, whether or not billed to the Company.

4.13 Proposed dividend and transfer between reserves

Dividends declared and transfer between reserves, except appropriations which are required by the law, made subsequent to the reporting date are considered as non adjusting events and are recognised in the financial statements in the year in which such dividends are declared or transfers between reserves are made.

4.14 Revenue recognition

The Company is in the business of rendering of brokerage services. Revenue from contracts with customers is recognised when services are rendered to the customer and thereby the performance obligation is satisfied, at amount that reflects the consideration to which the Company expects to be entitled in exchange for those services.

DAWOOD EQUITIES LIMITED

To determine whether to recognize revenue, the Company follows a 5-step process:

- Identifying the contract with a customer;
- Identifying the performance obligations;
- Determining the transaction price;
- Allocating the transaction price to the performance obligations; and
- Recognizing revenue when/as performance obligation(s) are satisfied.

Brokerage commission, income from margin finance and other income are recognised as and when services are rendered.

Remuneration for investment advisory and asset management services are recognised on accrual basis.

Commission income is recognised on accrual basis.

Gains and losses on sale of marketable securities are recognised on the date of sale.

Dividend income is recorded when the right to receive the dividend is established. Return on securities other than shares is recognised on accrual basis.

Return on bank deposits recognised on receipt basis i.e. when the profit is credited by the respective bank.

4.15 Rental income

The rental income in respect of this investment property has been recognised in profit or loss and included in 'other operating income'.

4.16 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, if it is probable that outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

4.17 Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses including revenues and expenses that relate to transactions with any of the Company's other components. The Company has only one reportable segment.

4.18 Settlement date accounting

All purchases and sales of securities that require delivery within the time frame established by regulation or market convention such as 'T+2' purchases and sales are recognised at the settlement date. Trade date is the date on which the Company commits to purchase or sale an asset.

4.19 Employee retirement benefits-defined contribution plan

The Company operates recognised provident fund scheme for all its eligible employees. Equal monthly contributions are made, both by the Company and its employees, to the fund at the rate of 10 percent of basic salary.

29.2 FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Company's overall risk management focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance.

The Board of Directors (the Board) has overall responsibility for the establishment and oversight of Company's risk management framework. The Board is also responsible for developing and monitoring the Company's risk management policies. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the company's activities.

a) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss, without taking into account the fair value of any collateral. There is a possibility of default by participants and of failure of the financial markets, the depositories, the settlements or clearing system etc.

DAWOOD EQUITIES LIMITED

Exposure to credit risk

Credit risk of the Company arises principally from trade debts, money market, advance deposits and prepayments, other receivables, bank balances and receivable against margin finance. The carrying amount of these financial assets represents the maximum credit exposure. To reduce the exposure to credit risk, the Company has developed its own risk management policies and guidelines whereby clients are provided trading limits according to their worth and proper margins are collected and maintained from the clients. The management continuously monitors the credit exposure towards the clients and makes provision against those balances considered doubtful of recovery.

Out of the total financial assets of Rs. 290.29 million (June 30, 2022 : Rs. 296.17 million) the financial assets which are subject to credit risk amounted to Rs. 235.06 million (June 30, 2022 : Rs. 220.96 million).

All investing transactions are settled / paid for upon delivery as per the advice of investment committee. The company's policy is to enter into financial instrument contract by following internal guidelines such as approving counter parties and approving credits.

The carrying amount of following financial assets represents the maximum credit exposure. The maximum exposure to the credit risk at the reporting date is:

	June 30, 2023	June 30, 2022
	----- (Rupees) -----

Bank balances	9,098,148	7,272,834

Concentration of credit risk exists when changes in economic or industry factors similarly affect groups of counterparties whose aggregate credit exposure is significant in relation to the Company's total credit exposure. The Company's portfolio of financial instruments is broadly diversified and transactions are entered into with diverse credit-worthy counterparties thereby mitigating any significant concentrations of credit risk.

b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its financial obligations as they fall due. Liquidity risk arises because of the possibility that the Company could be required to pay its liabilities earlier than expected or face difficulty in raising funds to meet commitments associated with financial liabilities as they fall due. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding to an adequate amount of committed credit facilities and the ability to close out market positions due to the dynamic nature of the business. The Company's treasury aims at maintaining flexibility in funding by keeping committed credit lines available.

The Company manages market risk by monitoring exposure on marketable securities by following the internal risk management and investment policies and guidelines. Market risk comprises of three types of risk: currency risk, interest rate risk and other price risk.

DAWOOD EQUITIES LIMITED

	Effect on profit and loss	
	100 bp increase	100 bp decrease
	----- (Rupees) -----

Other price risk

As of the reporting date the Company was exposed to price risk since it had investments in quoted securities amounting to Rs. 25.25 (June 30, 2022 : Rs. 55.74 million) and also because the Company held collaterals in the form of equity securities against their debtor balances.

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1:** Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2:** Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3:** Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:
