# DIRECTORS' REPORT

## Dear Shareholders:

Assalam-o-Alaikum Wa RehmatUllah Wa BarakatoH!

The directors of your Company (Ghani Chemical Industries Limited) are pleased to present the audited financial statements of the Company for the year ended June 30, 2023, in compliance with the requirements of Companies Act, 2017.

## OVERVIEW OF THE NATIONAL ECONOMY

The fiscal year 2023 posed significant challenges for Pakistan's economy, characterized by modest GDP growth compared to the previous year. Throughout FY 2023, Pakistan grappled with various economic crises, including global energy challenges, external debt burdens, flood disasters, inflationary pressures, and political uncertainty. In the early months of 2023, Pakistan faced severe economic stress but managed to regain stability through a USD 3 billion IMF Stand-By Arrangement (SBA) and financial aid from friendly nations. These inflows bolstered Pakistan's foreign exchange reserves, helping to maintain the exchange rate at 277.6 PKR/USD as of the end of June 2023.

Notably, the Current Account Deficit saw a remarkable reduction of 81% up to May 2023, driven by stringent import controls, shortages of foreign currency reserves, and a decrease in exports and remittances. Despite soaring to a peak of 38% in May 2023, inflation exhibited signs of moderation, with June's figures slowing down to 29.4%. Meanwhile, the overall average trading volumes for the KSE 100 index remained subdued throughout FY2023.

Due to political uncertainty and catastrophic floods, Pakistan faced unprecedented challenges during FY 22-23. The energy crises, infrastructure deficiencies, security concerns, significant depreciation of PKR against USD and trade imbalances are all legacy issues that cannot be overlooked. Furthermore, the Ukraine-Russia conflict substantially disrupted the global demand-supply balance, leading in a commodity super cycle and a slowing of global economic growth. The government's inability and thereafter delay in to finalize an agreement with the IMF aggravated the economy's problems.

According to the World Bank Pakistan's economy was expected to grow by only 2 percent in the fiscal year ended June 2023, and would increase to 3.2% in 2024.

متعدد چیلنجوں کے باوجود، آپ کی کمپنی نے مارکیٹ کے مواقع سے فائدہ اٹھاتے ہوئے، خاص طور پر صحت کی دیکھ بھال کے شعبے میں، ساتھ ہی ساتھ طویل اور درمیانی مدت کے معاہدے کے ساتھ ساتھ اعلیٰ اور بائٹم لائن دونوں کی ترقی اور لاگت میں کمی کے ساتھ ساتھ جاری ترقی کو برقرار رکھا۔

ملک کی صحت کی دیکھ بھال کی مارکیٹ آکسیجن کی کھپت کے لحاظ سے سب سے بڑی مارکیٹ میں سے ایک بننے کے لیے مسلسل بڑھ رہی ہے۔

پاکستان میں صنعتی شعبہ تنزیلی کا شکار ہے۔ انٹرنیشنل کی بگڑتی کارکردگی نے مجموعی اقتصادی ترقی میں رکاوٹ ڈالی۔ پیداوار کی زیادہ لاگت، ناکافی انفراسٹرکچر، کم پیداواری صلاحیت، صنعتی ترقی کے لیے ناسازگار ماحول سمیت دیگر نے پاکستان کے صنعتی شعبے میں زوال کا باعث بنا ہے۔ صنعتی گیسوں کی کھپت کو اکثر ترقی پذیر معیشت کے اشارے میں سے ایک سمجھا جاتا ہے۔

پاکستان میں صنعتی گیس مارکیٹ ایک اہم شعبہ ہے جو مختلف صنعتوں اور مینوفیکچرنگ کے عمل کو پورا کرتا ہے۔ اس میں گیسوں کی پیداوار اور فراہمی شامل ہے، جیسے آکسیجن، نائٹروجن، آرگن، اور دیگر گیس اور مائع دونوں شکلوں میں۔

آپ کی کمپنی ان گیسوں کو پیکنگ، کولنگ، کرائیوجینک، پروسیسنگ، کنگ اور ویلڈنگ، لیبارٹری کے استعمال، اور بہت کچھ کے لیے مختلف شعبوں میں فراہم کرتی ہے۔ تیل اور گیس، کیمیکل، پیٹروکیمیکل، خوراک اور مشروبات، بجلی کی پیداوار، گودا اور کاغذ، الیکٹرانکس، پانی کی صفائی، کان کنی، اور دیگر بڑے اختتامی استعمال کے شعبے اس کی مثالیں ہیں۔

### چوتھے ASU پلانٹ کا قیام:

جولائی 2022 کے دوران، آپ کی کمپنی نے طویل مدتی فراہمی کے معاہدے کے وعدوں کو پورا کرنے کے لیے پورٹ قاسم، کراچی میں آکسیجن اور نائٹروجن گیسوں کی تیاری کے لیے ASU 100 TPD پلانٹ قائم کیا ہے۔

### PSX پر لسٹنگ:

آپ کی کمپنی 14 نومبر 2022 کو G3 ٹیکنالوجیز لمیٹڈ (سابقہ سروس فیئر کس لمیٹڈ) کے غنی کیمیکل انڈسٹریز لمیٹڈ (کمپنی) کے ساتھ سمجھوتہ، انتظامات اور تعمیر نو کی معزز لاہور ہائی کورٹ، لاہور میں پیشین نمبر 25797/2022 کی منظوری کے نتیجے میں پاکستان اسٹاک ایکسچینج لمیٹڈ (PSX) میں لسٹ ہوئی۔

### غیر فعال ذیلی اداروں میں حصص کی تقسیم:

20 دسمبر 2022 کو ہونے والے غیر معمولی اجلاس عام میں کمپنی کے شیئر ہولڈرز کی منظوری کی تعمیل میں، کمپنی نے اپنی شیئر ہولڈنگز کو تین غیر فعال ذیلی کمپنیوں میں تقسیم کر دیا ہے یعنی، اے ون پری فیبر (پرائیویٹ) لمیٹڈ، اول انجینئرنگ (پرائیویٹ) لمیٹڈ اور اے ون بیٹریز (پرائیویٹ) لمیٹڈ جن کا برائے نام 14.5 کروڑ روپے / 25,000 روپے ہے۔ آپ کی کمپنی نے اس سرمایہ کاری کے تصرف پر -/150,090 روپے کا منافع حاصل کیا۔

### مستقبل کے امکانات

مارکیٹ میں رسائی اور حجم کو بہتر بنانے کے لیے صنعتی گیسوں کے لیے نئے مواقع تلاش کیے جا رہے ہیں۔

مینوفیکچرنگ کی صلاحیت کے لحاظ سے، GCIL مارکیٹ لیڈر ہے، جو ملک میں کل حجم کا 35% ہے۔ ہم شمال مغربی خطے میں طبی اور صنعتی گیسوں کے سب سے بڑے پروڈیوسر اور سپلائر ہیں۔

حطار اسپیشل اکنٹیک زون میں 5 ویں ASU پلانٹ کا سیٹ اپ اور آپ کی کمپنی کے امپورٹ متبادل کیمیکل پروجیکٹ پر کام جاری ہے۔ امید ہے کہ یہ منصوبے 2024 کی پہلی سہ ماہی کے دوران انشا اللہ شروع ہو جائیں گے۔

معاشی بحالی اور سیاسی استحکام کے ساتھ ساتھ مہنگائی کے دباؤ میں کمی اور پائیدار اور معقول ترقی کی جستجو آنے والے سال میں ملک کو آگے بڑھنے کے لیے اہم ہوگی۔

ہے۔ مجموعی منافع، طبعی اور صنعتی گیسوں کی تیاری کے لیے صرف خام مال/ لاگت ہونے کی وجہ سے بجلی کی لاگت میں خاطر خواہ اضافے کی وجہ سے 1,749 ملین روپے سے کم ہو کر 1,460 ملین روپے رہ گیا ہے۔ تقسیم کے اخراجات میں کمی واقع ہوئی ہے جبکہ انتظامی اخراجات میں فی صد فروخت کے لحاظ سے بالترتیب 7% سے 4% اور 4% سے 5% تک اضافہ کیا گیا ہے۔ تمام منعی عوامل کے باوجود آپ کی کمپنی کا آپریٹنگ جون 2023 کو ختم ہونے والے سال میں منافع 1,306 ملین روپے ہے پچھلے سال کے آپریٹنگ منافع 1,436 ملین روپے کے مقابلے میں 130 ملین روپے کمی کو ظاہر کرتا ہے جو کہ 9% کی کمی ہے۔ شرح سود میں نمایاں اضافے کی وجہ سے، مالیاتی لاگت اس کے مطابق 230 ملین روپے سے بڑھ کر 374 ملین روپے ہو گئی ہے اس کے مطابق ٹیکس کے بعد منافع 508 ملین روپے کے مقابلے میں پچھلے سال کی اسی مدت کے مقابلے میں 870 ملین روپے ہو گیا ہے۔ نتیجے میں فی شیئر آمدنی 1.06 روپے ہے۔ جبکہ گزشتہ سال کے دوران کمپنی کی فی حصص آمدنی 2.26 روپے تھی۔ زمین کی دوبارہ تشخیص کے نتیجے میں، آپ کی کمپنی مالیاتی نتائج میں 497 ملین روپے (2022: 1,329 ملین روپے) کا اضافہ کرنے میں کامیاب ہو گئی۔ اور اس کے مطابق سال کے لیے کل جامع آمدنی 1,005 ملین (2022: 2,200 ملین روپے) ہے۔ اور فی شیئر آمدنی (EPS) 2.10 (2022: 5.06 روپے) ہے۔

# ڈائریکٹرز رپورٹ

معزز حصص داران

السلام علیکم ورحمۃ اللہ وبرکاتہ

غنی کیمیکل انڈسٹریز لمیٹڈ کے ڈائریکٹران کمپنیز ایکٹ 2017 کے تصدیقات کے تحت سالانہ تنقیح شدہ اور غیر یکجا مالی حسابات برائے سال ختمہ 30 جون 2023 پیش کرتے ہوئے خوشی محسوس کرتے ہیں۔

## قومی معیشت کا جائزہ

مالی سال 2023 نے پاکستان کی معیشت کے لیے اہم چیلنجز پیدا کئے، جس کی خصوصیت گزشتہ سال کے مقابلے میں معمولی GDP نمو ہے۔ پورے مالی سال 2023 کے دوران، پاکستان مختلف اقتصادی بحرانوں سے نبرد آزما رہا، جن میں توانائی کے عالمی چیلنجز، بیرونی قرضوں کے بوجھ، سیلاب کی تباہ کاریاں، مہنگائی کے دباؤ اور سیاسی غیر یقینی صورتحال شامل ہیں۔ 2023 کے ابتدائی مہینوں میں، پاکستان کو شدید معاشی تناؤ کا سامنا کرنا پڑا لیکن وہ IMF کے 3 ارب امریکی ڈالر کے اسٹینڈ بائی اریٹجمنٹ (SBA) اور دوست ممالک کی مالی امداد کے ذریعے استحکام دوبارہ حاصل کرنے میں کامیاب رہا۔ ان ترسیلات زر سے پاکستان کے زرمبادلہ کے ذخائر کو تقویت ملی، جس سے جون 2023ء کے آخر تک شرح مبادلہ USD/ PKR 277.6 پر برقرار رکھنے میں مدد ملی۔

قابل ذکر بات یہ ہے کہ کرنٹ اکاؤنٹ خسارے میں مئی 2023 تک 81% کی نمایاں کمی دیکھی گئی، جو سخت درآمدی کنٹرول، غیر ملکی کرنسی کے ذخائر کی کمی، برآمدات اور ترسیلات زر میں کمی کی وجہ سے کارفرما ہے۔ مئی 2023 میں 38 فیصد کی بلندی تک بڑھنے کے باوجود، افراط زر نے اعتدال کے آثار ظاہر کیے، جون کے اعداد و شمار 29.4 فیصد تک کم ہو گئے۔ دریں اثنا، کے ایس ای 100 انڈیکس کے لیے مجموعی اوسط تجارتی حجم پورے مالی سال 2023 کے دوران کم رہا۔

سیاسی غیر یقینی صورتحال اور تباہ کن سیلاب کی وجہ سے پاکستان کو مالی سال 2022-23 کے دوران غیر معمولی چیلنجز کا سامنا کرنا پڑا۔ توانائی کے بحران، بنیادی ڈھانچے کی کمی، سیکورٹی کے خدشات، امریکی ڈالر کے مقابلے میں روپے کی قدر میں کمی اور تجارتی عدم توازن یہ تمام وراثتی مسائل ہیں جن کو نظر انداز نہیں کیا جاسکتا۔ مزید برآں، یوکرین-روس تنازعہ نے عالمی طلب اور رسد کے توازن کو کافی حد تک متاثر کیا، جس سے اجناس کے سپر سائیکل اور عالمی اقتصادی ترقی میں کمی واقع ہوئی۔ حکومت کی نااہلی اور اس کے بعد آئی ایم ایف کے ساتھ معاہدے کو حتمی شکل دینے میں تاخیر نے معیشت کی مشکلات کو مزید بڑھا دیا۔

ورلڈ بینک کے مطابق جون 2023ء کو ختم ہونے والے مالی سال میں پاکستان کی معیشت کی شرح نمو صرف 2 فیصد رہنے کی توقع تھی اور 2024 میں یہ بڑھ کر 3.2 فیصد ہو جائے گی۔

#### Information Other than the Financial Statements and Auditors' Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors is responsible for overseeing the Company's financial reporting process.

### **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained upto the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Report on Other Legal and Regulatory Requirements

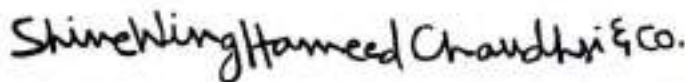

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);

#### **4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The significant accounting policies adopted in the preparation of these financial statements are the same as those applied in the preparation of the financial statements of the Company for the year ended June 30, 2022.

##### **4.1 Property, plant and equipment**

###### **a) Owned**

###### **Measurement**

Items of property, plant and equipment other than freehold and leasehold land are measured at cost less accumulated depreciation and impairment loss, if any. Freehold and leasehold land are stated at revalued amounts.

Residual value and the useful life of assets are reviewed at each financial year end and if expectations differ from previous estimates the change is accounted for as change in accounting estimate in accordance with IAS 8 - Accounting policies, changes in accounting estimates and errors.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Normal repairs and maintenance costs are charged to statement of profit or loss as and when incurred.

###### **Revaluation**

Increases in the carrying amounts arising on revaluation of freehold and leasehold land are recognised, in statement of other comprehensive income and accumulated in reserves in shareholders' equity. To the extent that the increase reverses a decrease previously recognised in statement of profit or loss, the increase is first recognised in statement of profit or loss. Decreases that reverse previous increases of the same asset are first recognised in statement of other comprehensive income to the extent of the remaining surplus attributable to the asset; all other decreases are charged to statement of profit or loss.

###### **Depreciation**

Depreciation is charged to statement of profit or loss using the reducing balance method. Depreciation on additions to property, plant and equipment is charged from the month in which the asset is acquired or capitalised, while no depreciation is charged for the month in which the asset is disposed-off.

###### **De-recognition**

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The gain or loss on disposal or retirement of an asset is represented by the difference between the sale proceeds and the carrying amount of the asset and is recognised as an income or expense.

###### **Judgment and estimates**

The useful lives, residual values and depreciation method are reviewed and adjusted, if appropriate, at each year-end. The effect of any change in estimates is accounted for on a prospective basis.

## **b) Right of use assets and related liabilities**

At the inception of a contract, the Company assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The extension and termination options are incorporated in determination of lease term only when the Company is reasonably certain to exercise these options.

Leases are recognised as right-of-use assets and corresponding liabilities at the date at which the leased assets are available for use by the Company.

The lease liabilities are initially measured at the present value of the remaining lease payments at the commencement date, discounted using the interest rate implicit in the lease, or if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate. At initial recognition, liabilities have been discounted using the Company's incremental borrowing rate of 8.50% ( 2022: 8.50%). Lease payment includes fixed payments with annual increments. The lease liabilities are subsequently measured at amortised cost using the effective interest rate.

Right-of-use assets are initially measured based on the initial amount of the lease liabilities adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred. The right-of-use assets are depreciated on a straight line method over the lease term as this method most closely reflects the expected pattern of consumption of future economic benefits. The carrying amount of the right-of-use asset is reduced by impairment losses, if any.

## **c) Capital work-in-progress**

Capital work-in-progress represents expenditure on item of property, plant and equipment, which are in the course of construction, erection or installation.

Capital work-in-progress and stores held for capital expenditure are stated at cost less any identified impairment loss. All expenditure connected with specific assets incurred during installation and construction period are carried under capital work-in-progress. Transfers are made to respective property, plant and equipment category as and when assets are available for use.

## **4.2 Intangible assets - Software**

Software is stated at cost less accumulated amortisation and any identified impairment loss. An intangible asset is recognised if it is probable that future economic benefits that are attributable to the asset will flow to the enterprise and that the cost of such asset can also be measured reliably.

Software is amortised using straight line method at the rate given in note 7.1 to these financial statements. Amortisation is charged to statement of profit or loss from the month in which the asset is available for use. Amortisation on additions is charged on pro-rata basis from the month in which asset is put to use, while for disposals, amortisation is charged upto the month of disposal.

Subsequent expenditure on intangible assets is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All expenditure are charged to income as and when incurred. Gain or loss arising on disposal and retirement of intangible asset is determined as a difference between the net disposal proceeds and the carrying amount of the asset and is recognised as income or expense in statement of profit or loss immediately.

### 4.3 Investments Subsidiaries

Investments in Subsidiaries are carried at cost less impairment loss, if any. Gain / loss on sale of investments is included in statement of profit or loss. Bonus shares are accounted for by increase in number of shares without any change in value.

At each reporting date, the Company reviews the carrying amounts of the investments in Subsidiaries to assess whether there is any indication that such investments have suffered an impairment loss. If any such indication exists, the recoverable amount is estimated in order to determine the extent of impairment loss, if any. In making an estimate of recoverable amount of these investments, the management considers future dividend stream and the net assets value of these investments. Impairment losses are recognised as expense in the statement of profit or loss.

Investments in Subsidiaries, that suffered an impairment, are reviewed for possible reversal of impairment at each reporting date. Impairment losses recognised in the statement of profit or loss on investments in Subsidiaries are reversed through the statement of profit or loss.

#### Associated Companies

Investments in Associated Companies are accounted for by using equity basis of accounting, under which the investments in Associated Companies are initially recognised at cost and the carrying amounts are increased or decreased to recognise the Company's share of profit or loss of the Associated Companies after the date of acquisition. The Company's share of profit or loss of the Associated Companies is recognised in the Company's profit or loss. Distributions received from Associated Companies reduce the carrying amount of investments. Adjustments to the carrying amounts are also made for changes in the Company's proportionate interest in the Associated Companies arising from changes in the Associated Companies' equity that have not been recognised in the Associated Companies' profit or loss. The Company's share of those changes is recognised directly in equity of the Company.

The carrying amount of investments is tested for impairment, by comparing its recoverable amount (higher of value in use and fair value less cost to sell) with its carrying amount and loss, if any, is recognised in profit or loss.

### 4.4 Stores, spares and loose tools

These are stated at lower of cost and net realisable value. Cost is determined by using the weighted average method. Items in transit are valued at cost comprising invoice value, plus other charges paid thereon. Provision is also made for slow moving and obsolete items.

### 4.5 Stock-in-trade

These are stated at the lower of cost and net realisable value. The cost is determined as follows:

Particulars	Mode of valuation
- Raw and packing materials	At weighted average cost.
- Work-in-process	At weighted average manufacturing cost.
- Finished goods	At weighted average manufacturing cost.
- Items in transit	Cost comprise invoice values plus other charges incurred thereon.

Net realisable value signifies the estimated selling price in the ordinary course of business less estimated costs of completion and selling expenses.

#### **4.6 Trade and other receivables**

Trade and other receivables are stated initially at fair value and subsequently measured at amortised cost. Allowance is made on the basis of lifetime expected credit losses that result from all possible default events over the expected life of the trade debts and other receivables. Bad debts are written-off when considered irrecoverable.

#### **4.7 Loans, advances, prepayments and trade deposits**

These are initially recognised at cost, which is the fair value of consideration given. The Company assesses at each reporting date whether there is any indication that assets excluding inventory may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying value exceeds recoverable amount, assets are written down to the recoverable amount and the difference is charged to statement of profit or loss.

#### **4.8 Cash and cash equivalents**

Cash and cash equivalents are carried in the statement of financial position at cost. For the purpose of cash flow statement, cash and cash equivalents comprise of cash-in-hand and cash at banks, which are subject to an insignificant risk of change in value.

#### **4.9 Trade and other payables**

Trade and other payables are initially measured at cost, which is the fair value of the consideration to be paid in future for goods and services, whether or not billed to the Company.

#### **4.10 Borrowings and borrowing costs**

Borrowings are recognised initially at fair value, net of transaction costs incurred and are subsequently measured at amortised cost using the effective interest rate method.

Borrowing costs are recognised as an expense in the period in which these are incurred except to the extent of borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset. Such borrowing costs, if any, are capitalised as part of the cost of that asset.

#### **4.11 Financial instruments**

Financial assets and financial liabilities are recognised in the statement of financial position when the Company becomes a party to the contractual provisions of the instrument. All the financial assets are derecognised at the time when the Company loses control of the contractual rights that comprise the financial assets. All financial liabilities are derecognised at the time when they are extinguished that is, when the obligation specified in the contract is discharged, cancelled, or expired. Any gains or losses on de-recognition of the financial assets and financial liabilities are taken to the statement of profit or loss.

##### **a) Financial assets**

###### **Classification**

The Company classifies its financial assets in the following measurement categories:

- i) amortised cost where the effective interest rate method is applied;
- ii) fair value through profit or loss; and
- iii) fair value through other comprehensive income.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses are either recorded in statement of profit or loss or other comprehensive income (OCI).

## **Recognition and derecognition**

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Company commits to purchase or sell the asset. Further, financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

## **Measurement**

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in statement of profit or loss.

## **Definition of default**

The Company considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable.

- when there is a breach of financial covenants by the counterparty; or
- information developed internally or obtained from external sources indicate that the debtor is unlikely to pay its creditors, including the Company, in full (without taking into account any collaterals held by the Company).

## **Impairment of financial assets**

The Company assesses on a historical as well as forward-looking basis, the expected credit loss (ECL) as associated with its trade debts. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Following are financial instruments that are subject to the ECL model:

- Trade debts
- Bank balances

## **Simplified approach for trade debts**

The Company recognises life time ECL on trade debts, using the simplified approach. The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

## **Recognition of loss allowance**

The Company recognises an impairment gain or loss in the statement of profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

## **Write-off**

The Company writes-off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded that there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount.

The Company may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written-off result in impairment gains.

## **b) Financial Liabilities**

### **Classification, initial recognition and subsequent measurement**

Financial liabilities are classified in the following categories:

- i) fair value through profit or loss; and
- ii) other financial liabilities.

The Company determines the classification of its financial liabilities at initial recognition. All financial liabilities are recognised initially at fair value and, in case of other financial liabilities also include directly attributable transaction costs. The subsequent measurement of financial liabilities depends on their classification, as follows:

#### **i) Fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held-for trading and financial liabilities designated upon initial recognition as being at fair value through profit or loss. The Company has not designated any financial liability upon recognition as being at fair value through profit or loss.

#### **ii) Other financial liabilities**

After initial recognition, other financial liabilities which are interest bearing subsequently measured at amortised cost, using the effective interest rate method. Gains and losses are recognised in statement of profit or loss for the year, when the liabilities are derecognised as well as through effective interest rate amortisation process.

### **Derecognition of financial liabilities**

The Company derecognises financial liabilities when and only when the Company's obligations are discharged, cancelled or expired.

### **Offsetting of financial assets and financial liabilities**

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when there is a legally enforceable right to offset the recognised amount and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

## **4.12 Impairment of non-financial assets other than inventories**

The assets that are subject to depreciation are assessed at each reporting date to determine whether there is any indication that the assets are impaired. If there is an indication of possible impairment, the recoverable amount of the asset is estimated and compared with its carrying amount.

An impairment loss is recognised if the carrying amount of an asset exceeds its estimated recoverable amount. The impairment loss is recognised in the statement of profit or loss.

An impairment loss is reversed only to the extent that the asset carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised. The Company recognises the reversal immediately in the statement of profit or loss.

## **4.13 Revenue recognition**

Revenue is measured at the fair value of the consideration received or receivable. Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably.

- Revenue from sale of goods or rendering of services is recognised when performance obligations are satisfied by transferring control (i.e. at the time when deliveries are made or services are rendered) of a promised good or service to a customer, and control either transfers over time or at a point in time. Revenue from sale of goods and rendering of services is measured net of sales tax, returns and trade discounts.
- Dividend income is recognised when the Company's right to receive dividend is established, i.e. on the date of books closure of the investee company declaring the dividend.
- Gains and losses arising on disposal of investments are included in income in the year in which these are disposed-off.
- Return on bank deposits is recognised on time proportion using the effective rate of return.

#### **Contract assets**

Contract assets arise when the Company performs its performance obligations by transferring goods and services to a customer before the customer pays its consideration or before payment is due.

#### **Contract liabilities**

Contract liability is the obligation of the Company to transfer goods and services to a customer for which the Company has received consideration from the customer. If a customer pays consideration before the Company transfers goods and services, a contract liability is recognised when the payment is made. Contract liabilities are recognised as revenue when the Company performs its performance obligations under the contract.

#### **4.14 Foreign currency transactions**

Foreign currency transactions are recorded in Pak Rupees using the exchange rates prevailing at the date of transactions. Monetary assets and liabilities in foreign currencies are translated in Pak Rupees at the rates of exchange prevailing at the reporting date. Exchange gains and losses are taken to statement of profit or loss.

#### **4.15 Taxation**

Taxation comprises of current tax and deferred tax.

Income tax expense is recognised in the statement of profit or loss except to the extent that it relates to items recognised in other comprehensive income or directly in equity, if any, in which case the tax amounts are recognised directly in other comprehensive income or equity.

##### **(a) Current**

Provision for current taxation is based on taxable income at the current rates of taxation after taking into account tax credits and rebates available, if any. The charge for current year also includes adjustments where necessary, relating to prior years which arise from assessments framed / finalised during the year.

## **(b) Deferred**

Deferred tax is recognised using the statement of financial position liability method on all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts appearing in the financial statements. Deferred tax liability is recognised for all taxable temporary differences. Deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that temporary differences will reverse in the future and taxable income will be available against which the temporary differences can be utilised. Deferred tax is charged or credited to the statement of profit or loss.

Deferred tax asset and liability is measured at the tax rate that is expected to apply to the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted by the reporting date.

### **4.16 Earnings per share**

The Company presents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year.

### **4.17 Related party transactions**

Transactions and contracts with related parties are based on the policy that all transactions between the Company and related parties are carried-out at an arm's length.

### **4.18 Provisions**

Provisions are recognised when the Company has a present obligation, legal or constructive, as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of reporting period, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of receivable can be measured reliably.

As the actual outflows can differ from estimates made for provisions due to changes in laws, regulations, public expectations, prices and conditions, and can take place many years in future, the carrying amounts of provisions are reviewed at each reporting date and adjusted to take account of such changes. Any adjustment to the amount of previously recognised provision is recognised in the statement of profit or loss unless the provision was originally recognised as part of cost of an asset.

### **4.19 Contingent liabilities**

A contingent liability is disclosed when the Company

- has a possible obligation as a result of past events, whose existence will be confirmed only by the occurrence or non-occurrence, of one or more uncertain future events not wholly within the control of the Company; or
- has a present legal or constructive obligation that arises from past events, but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or the amount of obligation cannot be measured with sufficient reliability.

### 46.1 Financial Risk Factors

The Company's activities expose it to a variety of financial risks: market risk (including interest rate risk and currency risk), credit risk and liquidity risk. The Company's overall risk management focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial performance.

Risk management is carried-out by the Company's finance department under policies approved by the board of directors. The Company's finance department evaluates financial risks based on principles for overall risk management as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk and investment of excess liquidity, provided by the board of directors.

### 46.2 Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of three types of risks: currency risk, interest rate risk and price risk.

#### (a) Currency risk

Foreign currency risk arises mainly where receivables and payables exist due to transactions entered into in foreign currencies. The Company is exposed to currency risk on import of stores & spares and stock-in-trade mainly denominated in U.S. \$. The Company is not exposed to foreign currency risk as at June 30, 2023 and June 30, 2022 as it has no foreign currency funded financial instrument at the respective reporting dates.

#### (b) Profit rate risk

Profit rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in market profit rates. At the reporting date, the profit rate profile of the Company's profit bearing financial instruments is as follows:

	2023	2022	2023	2022
	Effective rates per annum		Carrying amount	
			Rupees in thousand	
<b>Fixed rate instruments</b>				
Cash at banks on deposit accounts	5.97% to 17.08%	2.75% to 8.5%	291,198	714,316
<b>Variable rate instruments</b>				
Long term finances	SBP rate + 3 months to 1 year KIBOR + 1%	SBP rate + 3 months to 1 year KIBOR + 1%	1,493,931	910,313
Redeemable capital - Sukuk	3 months KIBOR + 1%	3 months KIBOR + 1%	162,500	379,167
Lease liabilities	8.50 to 8.85%	8.50 to 8.85%	6,121	6,040
Short term borrowings	11.58% to 23.88%	8.20% to 16.54%	1,127,439	1,351,927

#### Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in profit rate at the reporting date would not affect profit or loss of the Company.

#### Fair value sensitivity analysis for variable rate instruments

At June 30, 2023, if profit rate on variable rate financial liabilities had been 1% higher / lower with all other variables held constant, profit before taxation for the year would have been lower / higher by Rs.27.900 million ( 2022: Rs.26.474 million) mainly as a result of higher profit rates.

#### (c) Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instruments or its issuer or factors affecting all similar financial instruments traded in the market. The Company is not exposed to any significant price risk.

#### 46.3 Credit risk exposure and concentration of credit risk

Credit risk represents the risk of a loss if the counter party fails to discharge its obligation and cause the other party to incur a financial loss. The Company attempts to control credit risk by monitoring credit exposures, limiting transactions with specific counterparties and continually assessing the credit worthiness of counterparties.

Concentration of credit risk arises when a number of counterparties are engaged in similar business activities or have similar economic features that would cause their abilities to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentration of credit risk indicates the relative sensitivity of the Company's performance to developments affecting a particular industry.

Credit risk primarily arises from trade debts and balances with banks. To manage exposure to credit risk in respect of trade debts, management performs credit reviews taking into account the customer's financial position, past experience and other relevant factors. Where considered necessary, advance payments are obtained from certain parties. The management has set a maximum credit period of 30 days to reduce the credit risk. Credit risk on bank balances is limited as the counter parties are banks with reasonably high credit ratings.

In respect of other counter parties, due to the Company's long standing business relationship with them, management does not expect non-performance by these counter parties on their obligations to the Company.

### Exposure to credit risk

The maximum exposure to credit risk as at June 30, 2023 along with comparative is tabulated below:

	2023	Restated 2022
	Rupees in thousand	
Long term deposits	67,193	67,193
Trade debts	1,040,385	1,054,626
Trade deposits, bank profit and other receivables	143,597	144,276
Bank balances	524,781	854,801
	<b>1,775,956</b>	<b>2,120,896</b>

Out of the total financial assets credit risk is concentrated in trade debts and balances with banks as they constitute 88% ( 2022: 89%) of the total financial assets. The Company's exposure to credit risk in respect of trade debts other than Government parties is influenced mainly by the individual characteristics of each customer. The Company establishes an allowance for expected credit loss that represents its estimate of incurred losses in respect of trade debts except for Government parties.

Trade debts are mainly due from local customers against sale of medical & industrial gases and chemicals. Sales to the Company's customers are made on specific terms and conditions. Customers' credit risk is managed by each business unit subject to the Company's established policy, procedures and controls relating to customers' credit risk management. Credit limits have been established for all customers based on internal rating criteria. Credit quality of the customers is also assessed based on an extensive credit rating. Outstanding customer receivables are regularly monitored.

Trade debts of the Company are not exposed to significant credit risk as the Company trades with credit worthy customers. Trade debts except for Government parties aggregating Rs.681.812 million ( 2022: Rs.641.261 million) are past due of which Rs.19.856 million (2022: Rs.16.027 million) have been impaired. Required allowance as determined by management as per IFRS 9 - 'Financial instruments - recognition and measurement' has been made in these financial statements.

Credit risk on bank balances is limited as the counter parties are banks with reasonably high credit ratings.
