**INDEPENDENT AUDITOR'S REPORT****To the members of Shaffi Chemical Industries Limited  
Report on the Audit of the Financial Statements**

We have audited the annexed financial statements of Shaffi Chemical Industries Limited (the Company), which comprise the statement of financial position as at June 30, 2023, and the statement of profit or loss, statement of other comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion because of the matters described in paragraph 1 of *Basis for opinion* section of our report and to the best of our information and according to the explanations given to us, the statement of financial position, statement of profit or loss, statement of other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at June 30, 2023 and of the profit and other comprehensive income, the changes in equity and its cash flows for the year then ended.

**Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Material Uncertainty relating to Going Concern**

During the year company has accumulated losses and shareholders' equity before revaluation surplus amounting to Rs. 176.019 million (2022: 176.534 million) and Rs 47.164 million (2022: 50.683 million) respectively as on June 30, 2023. Manufacturing units remained closed whole year. Management of the company decided to go for delisting therefore all the employees were laid off in the year ended June 30, 2015. The deputy registrar of Company has initiated the winding up proceeding in Peshawar high court since 2018. These factors have raised uncertainties that the company may not be able to continue as a going concern.

Therefore, these financial statements have been prepared on the basis of estimated realizable/ settlement values of assets and liabilities respectively in addition to historical cost convention. All assets and liabilities in these financial statements have been presented in the order of liquidity.

**Key Audit Matter**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Evaluated the appropriateness of arm's length transactions.

Key Audit Matters	How our audit addressed the key audit matters
<p><b>1. Investment in associated companies under equity method</b></p>	
<p>Shaffi Chemical Industries (SCIL) owns 15.80% equity in Diamond Industries Limited (DIL), an entity listed on the Pakistan Stock Exchange.</p> <p>The carrying value of investment in associated Company DIL amounting to Rupees 36.359 million that is accounted for under the equity method.</p> <p>Quoted value of investment is Rs. 30.62 per share.</p> <p>As at June 30, 2023, management conducted an impairment test to assess the recoverability of the carrying value of investment in associate. This was performed using a discounted cash flow model to calculate asset value in use. A number of key judgment were made in determining the input into discounted cash flow model which included expected future cash flows, growth rate and discount rate applied to the cash flows.</p> <p>We identified assessing the carrying value of investment in associate a key audit matter because of its significance in financial statement.</p>	<p>Our key audit procedure includes the following:</p> <ul style="list-style-type: none"> <li>· Identification and understanding of the significant controls implemented by the Company over the impairment testing process.</li> <li>· Identification and understanding of the significant judgments used to calculate carrying value of assets and impairment if any.</li> <li>· Verification that the carrying amount of the investment was determined properly and its comparison with the value in use resulting from the impairment test.</li> <li>· Assessed the significant influence existed or not so to account for under equity method.</li> <li>· Verified accuracy of carrying amount of investment in associate using equity method</li> </ul>
<p><b>2. Valuation and presentation of Loan from Associated undertaking and persons.</b></p>	
<p>Refer to note no. 13 &amp; 14 annexed, the company has taken loan from directors and associated companies. The loan from directors are interest free whereas loan from associates is subject to effective interest rate of Kibor+2.5% with undetermined period of repayment. As the liability is significant therefore it is key audit matter.</p>	<p>Our key audit procedure includes the following:</p> <ul style="list-style-type: none"> <li>· We assessed the design and operating effectiveness of the company's internal controls over recording the terms and conditions of borrowings including their classification and associated costs.</li> <li>· We have obtained confirmations of borrowings directly from lenders.</li> <li>· We tested the calculation of markup recognized as an expense in accordance with approved accounting standards.</li> <li>· Inquiry from management and board meetings</li> <li>· Adequacy of presentation and disclosure as per IAS 24 "Related Party disclosures"</li> <li>· Evaluated the appropriateness of arm's length transactions.</li> </ul>

## Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our

knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of Management and Board of Directors for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017(XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
4. Evaluate the overall presentation, structure and content of the financial statements, including the

disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

Based on our audit, we further report that in our opinion:

- a) Proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss, statement of other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) Investments made, expenditure incurred and guarantees extended during the year were for the Purpose of the Company's business; and
- d) No zakat is deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

The engagement partner on the audit resulting in this independent auditors' report is Mrs. Saira Mudassar.

**Review Report on the Statement of Compliance contained in Listed Companies  
(Code of Corporate Governance) Regulations, 2019**

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) of the Regulations 2019.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach.

We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions and also ensure compliance with the requirements of section 208 of the Companies Act, 2017. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out procedures to assess and determine the Company's process for identification of related parties and that whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended June 30, 2023.

**NOTES TO THE ACCOUNTS  
FOR THE YEAR ENDED JUNE 30, 2022****1.0 STATUS AND NATURE OF BUSINESS**

The Company was incorporated under the Companies Ordinance, 1984 (now Companies Act, 2017) as Public Limited Company on 27th December 1994. The shares of the company are quoted on Karachi and Lahore Stock Exchanges. The main activity of the company is to manufacture and process of Di-Octyle-Ortho Phthalates (DOP) Chemicals. In the current years, the company to produce Lith and Diltex Binder. The registered office of the company is situated at Gadoon Amazai, Industrial Estate, Swabi (Kyberpakhtoonkhan)

**1.1 GOING CONCERN ASSUMPTION**

During the year ended June 30, 2023, the company reported gross profit of Rupees 7.09 m. The company has accumulated losses and shareholders' equity Rupees 176 Million and Rupees (47.16) Million respectively as on June 30, 2023. During the year ended Sales of company was 18.8 Million. Management of the company had decided to go for delisting therefore all the employees has been laid off since 2015. These factors have raised uncertainties that the company may not be able to continue as a going concern. Therefore these financial statements have been prepared on the basis of estimated realisable/ settlement values of assets and liabilities respectively in addition to historical cost convention. All assets and liabilities in these financial statements have been presented in the order of liquidity.

**1.2 SIGNIFICANT TRANSACTIONS AND EVENTS AFFECTING THE COMPANIES FINANCIAL POSITION AND PERFORMANCE**

There is no reportable significant event or transaction during the year

**1.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The significant accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated:

**1.4 Basis of Preparation) Statement of Compliance**

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and

Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRSs, the provisions of and directives issued under the Companies Act, 2017 have been followed. **b) Accounting convention**

These financial statements have been prepared under the historical cost convention except as otherwise stated in the respective accounting policies.

**c) Critical accounting estimates and judgments**

The preparation of financial statements in conformity with the approved accounting standards requires the use of certain critical accounting estimates. It also requires the management to exercise its judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The areas where various assumptions and estimates are significant to the Company's financial statements or where judgments were exercised in application of accounting policies are as follows:

**d) Useful lives, patterns of economic benefits and impairments**

Estimates with respect to residual values and useful lives and pattern of flow of economic benefits are based on the analysis of the management of the Company. Further, the Company reviews the value of assets for possible impairment on

an annual basis. Any change in the estimates in the future might affect the carrying amount of respective item of property, plant and equipment and investment properties with a corresponding effect on the depreciation charge and impairment.

**Inventories**

Inventory write-down is made based on the current market conditions, historical experience and selling goods of similar nature. It could change significantly as a result of changes in market conditions. A review is made on each reporting date on inventories for excess inventories, obsolescence and declines in net realisable value and an allowance is recorded against the inventory balances for any such declines.

**Income tax**

In making the estimates for income tax currently payable by the Company, the management takes into account the current income tax law and the decisions of appellate authorities on certain issues in the past.

**Allowance for expected credit losses**

The allowance for expected credit losses assessment requires a degree of estimation and judgement. It is based on the lifetime expected credit loss, grouped based on days overdue, and makes assumptions to allocate an overall expected credit loss rate for each group. These assumptions include recent sales experience and historical collection rates.

**Revenue from contracts with customers involving sale of goods**

When recognizing revenue in relation to the sale of goods to customers, the key performance obligation of the Company is considered to be the point of delivery of the goods to the customer, as this is deemed to be the time that the customer obtains control of the promised goods and therefore the benefits of unimpeded access.

**Impairment of investment in associate**

In making the estimates of recoverable amount of the Company's investment in associate, the management considers future cash flows.

**Changes / Amendments in Accounting Standard****1.5 Standards, amendments to approved accounting standards effective in the current year**

The following standards and amendments are either not relevant to the company's operations and are not expected to have significant impact on the company's financial statements other than certain additional disclosures.

### **Standards, Interpretations and amendments to approved accounting standards that are not yet effective**

The following new standards and interpretation have been issued by the International Accounting Standards Board (IASB), which have not been adopted locally by Securities and Exchange Commission of Pakistan.

#### **IASB effective date (annual periods beginning on or after)**

IFRS 1 First time adoption of international financial reporting standards.

January 01, 2018

IFRS 17 Insurance contracts.

January 01, 2021

The management anticipates that the adoption of the above standards and amendments in future periods will have no material impact on the company's financial statements.

### **1.6 Provisions**

Provisions are recognized when the Company has a legal or constructive obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations and a reliable estimate of the amount can be made.

### **1.7 Property, Plant and Equipment**

These are stated at cost less accumulated depreciation and any identified impairment loss except freehold land and capital work-in-progress which are stated at cost less any identified impairment loss. Cost of property, plant and equipment consists of historical cost and other directly attributable costs of bringing the assets to working condition. Leasehold land is stated at cost less the amount amortized over the lease period in equal proportions.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefit associated with the item will flow to the company and cost of the item can be measured reliably. All other repair and maintenance costs are charged to income during the period in which they are incurred.

#### **Depreciation**

Depreciation on property, plant and equipment is charged to the statement of profit or loss applying the reducing balance method so as to write off the cost / depreciable amount of the assets over their estimated useful lives. The Company charges the depreciation on additions from the date when the asset is available for use and on deletions up to the date when the asset is de-recognized. The residual values and useful lives are reviewed by the management, at each financial year-end and adjusted if impact on depreciation is significant.

#### **De-recognition**

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and carrying value of the asset) is included in the income statement in the year the asset is derecognized

### **1.8 IFRS 16 "Leases"**

The Company has adopted IFRS 16 from 01 July 2019. The standard replaces IAS 17 'Leases' and for lessees eliminates the classifications of operating leases and finance leases. Except for short-term leases and leases of low-value assets, right-of-use assets and corresponding lease liabilities are recognized in the statement of financial position. Straight-line operating lease expense recognition is replaced with a depreciation charge for the right-of-use assets (included in operating costs) and an interest expense on the recognized lease liabilities (included in finance costs). In the earlier periods of the lease, the expenses associated with the lease under IFRS 16 will be higher when compared to lease expenses under IAS 17, as the operating expense is now replaced by interest expense and depreciation in the statement of profit or loss. For classification within the statement of cash flows, the interest portion is disclosed in operating activities and the principal portion of the lease payments are separately disclosed in financing activities. For lessor accounting, the standard does not substantially change how a lessor accounts for leases.

The adoption of IFRS 16 has no financial impact on the financial statements of the Company.

### **Right-of-use assets**

A right-of-use asset is recognized at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is shorter. Where the Company expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is charged over its estimated useful life. Right-of-use assets are subject to impairment or adjusted for any re-measurement of lease liabilities.

The Company has elected not to recognize a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are charged to income as incurred.

### **Lease liabilities**

A lease liability is recognized at the commencement date of a lease. The lease liability is initially recognized at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are re-measured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is re-measured, an adjustment is made to the corresponding right-of-use asset, or to statement of profit or loss if the carrying amount of the right-of-use asset is fully written down.

## **1.9 Investment and other financial assets**

### **a) Classification**

The investments made by the company are classified for the purpose of measurement into the following categories: those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and those to be measured at amortized cost

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition

to account for the equity investment at fair value through other comprehensive income. The Company reclassifies debt investments when and only when its business model for managing those assets changes

**b) Measurement**

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

**Debt instruments**

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments

**Amortized cost**

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other income / (other expenses) together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of profit or loss.

**Fair value through other comprehensive income (FVTOCI)**

Financial assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVTOCI. Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment losses (and reversal of impairment losses), interest income and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss and recognised in other income / (other expenses). Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses are presented in other income/ (other expenses) and impairment losses are presented as separate line item in the statement of profit or loss.

**Fair value through profit or loss**

Assets that do not meet the criteria for amortised cost or FVTOCI are measured at FVTPL. A gain or loss on a debt instrument that is subsequently measured at FVTPL is recognised in profit or loss and presented net within other income / (other expenses) in the period in which it arises.

**Equity instruments**

The Company subsequently measures all equity investments at fair value for financial instruments quoted in an active market, the fair value corresponds to a market price (level 1). For financial instruments that are not quoted in an active market, the fair value is determined using valuation techniques including reference to recent arm's length market transactions or transactions involving financial instruments which are substantially the same (level 2), or discounted cash flow analysis including, to the greatest possible extent, assumptions consistent with observable market data (level 3).

**Fair value through other comprehensive income (FVTOCI)**

Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVTOCI are not reported separately from other changes in fair value.

**Fair value through profit or loss**

Changes in the fair value of equity investments at fair value through profit or loss are recognised in other income/ (other expenses) in the statement of profit or loss as applicable.

## **2.0 Financial liabilities - classification and measurement**

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in statement of profit or loss. Any gain or loss on de-recognition is also included in profit or loss.

### **2.1 Impairment of financial assets**

The Company assesses on a forward looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVTOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade debts and other receivables, the Company applies the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

### **2.2 De-recognition of financial assets and financial liabilities**

#### **a) Financial assets**

The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred, or it neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control over the transferred asset. Any interest in such derecognized financial assets that is created or retained by the Company is recognized as a separate asset or liability.

#### **b) Financial liabilities**

The Company derecognizes a financial liability (or a part of financial liability) from its statement of financial position when the obligation specified in the contract is discharged or cancelled or expires.

### **2.3 Offsetting of financial instruments**

Financial assets and financial liabilities are set off and the net amount is reported in the financial statements when there is a legal enforceable right to set off and the Company intends either to settle on a net basis or to realize the assets and to settle the liabilities simultaneously.

### **2.4 Investment in associate – (with significant influence)**

Investments in associate over which the Company has significant influence is accounted for using the equity method. In case of investment accounted for under the equity method, the method is applied from the date when significant influence is established until the date when that significant influence ceases.

#### **2.4.1 Stock - in - Trade**

Cost of raw material is based on moving average cost. Cost of work-in-process and finished goods comprise cost of direct material, labour and appropriate manufacturing overheads. Materials in transit are stated at cost comprising invoice values plus other charges paid thereon. Waste stock is valued at net realizable value.

Net realizable value signifies the estimated selling price in the ordinary course of business less the estimated costs of completion and the costs necessary to make a sale.

#### **2.4.2 Stores, Spares and Loose Tools**

Useable stores and spare parts are valued principally at moving average cost, while items considered obsolete are carried at nil

value. Items in transit are valued at cost comprising invoice value plus other charges paid thereon

#### **2.4.3 Trade debts and other receivables**

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables generally do not include amounts over due by 365 days.

The Company has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue. Other receivables are recognised at amortised cost, less any allowance for expected credit losses

#### **2.4.4 Cash and cash equivalents**

Cash and cash equivalents are carried in the statement of financial position at book value which approximates their fair value. For the purposes of the cash flow statement, cash equivalents comprise cash in hand, cash at banks and other short term highly liquid instruments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in values.

#### **2.4.5 Taxation Current**

The Company falls under the ambit of presumptive tax regime under section 169 of the Income Tax Ordinance, 2001. Provision for income tax has been made in the financial statements accordingly. However, tax on other income is based on taxable income at the current rates after considering the rebates and tax credits available, if any.

#### **Deferred**

Deferred tax is accounted for using the balance sheet liability method in respect of all taxable temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of the taxable profit. Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that is the probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilized.

Deferred tax is calculated at the rates that are expected to apply to the period when the differences reverse based on tax rates that have been enacted or substantively enacted by the reporting date. Deferred tax is charged or credited in the statement of profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case the tax is also recognized in other comprehensive income or directly in equity, respectively.

However, provision for the deferred income tax is not considered necessary as the company is chargeable to tax under section 169 of the Income Tax Ordinance, 2001 and no temporary differences are expected to arise in the foreseeable future.

#### **2.4.6 Revenue from contracts with customers**

##### **i) Revenue recognition Sale of goods**

Revenue from the sale of goods is recognised at the point in time when the customer obtains control of the goods, which is generally at the time of delivery.

##### **Interest**

Profit on deposits with banks is recognized on a time proportion basis taking into account the principal outstanding and rate of profit / interest applicable thereon.

##### **Dividend**

Dividend on equity investments is recognized when right to receive the dividend is established.

##### **Other revenue**

Other revenue is recognised when it is received or when the right to receive payment is established.

##### **ii) Contract assets**

Contract assets arise when the Company performs its performance obligations by transferring goods to a customer before the customer pays its consideration or before payment is due. Contract assets are treated as financial assets for impairment

purposes.

**iii) Customer acquisition costs**

Customer acquisition costs are capitalised as an asset where such costs are incremental to obtaining a contract with a customer and are expected to be recovered. Customer acquisition costs are amortised on a straight-line basis over the term of the contract.

Costs to obtain a contract that would have been incurred regardless of whether the contract was obtained or which are not otherwise recoverable from a customer are expensed as incurred to profit or loss. Incremental costs of obtaining a contract where the contract term is less than one year is immediately expensed to profit or loss.

**iv) Customer fulfilment costs**

Customer fulfilment costs are capitalised as an asset when all the following are met: (i) the costs relate directly to the contract or specifically identifiable proposed contract; (ii) the costs generate or enhance resources of the Company that will be used to satisfy future performance obligations; and (iii) the costs are expected to be recovered. Customer fulfilment costs are amortised on a straight-line basis over the term of the contract.

**v) Right of return assets**

Right of return assets represents the right to recover inventory sold to customers and is based on an estimate of customers who may exercise their right to return the goods and claim a refund. Such rights are measured at the value at which the inventory was previously carried prior to sale, less expected recovery costs and any impairment.

**vi) Contract liabilities**

Contract liability is the obligation of the Company to transfer goods to a customer for which the Company has received consideration from the customer. If a customer pays consideration before the Company transfers goods, a contract liability is recognized when the payment is made. Contract liabilities are recognized as revenue when the Company performs its performance obligations under the contract.

**vii) Refund liabilities**

Refund liabilities are recognised where the Company receives consideration from a customer and expects to refund some, or all, of that consideration to the customer. A refund liability is measured at the amount of consideration received or receivable for which the Company does not expect to be entitled and is updated at the end of each reporting period for changes in circumstances. Historical data is used across product lines to estimate such returns at the time of sale based on an expected value methodology.

**2.4.7 Dividend and other appropriations**

Dividend distribution to the Company's shareholders is recognized as a liability in the Company's financial statements in the period in which the dividends are declared and other appropriations are recognized in the period in which these are approved by the Board of Directors.

**2.4.8 Share capital**

Ordinary shares are classified as equity.

**2.4.9 Government grants**

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to costs are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss over the expected lives of the related assets.

**2.4.10 Earnings per share**

The Company presents earnings per share (EPS) data for its ordinary shares. EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year.

**2.4.11 Contingent assets**

Contingent assets are disclosed when the Company has a possible asset that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognized until their realization becomes certain.

**2.4.12 Contingent liabilities**

Contingent liability is disclosed when the Company has a possible obligation as a result of past events whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent liabilities are not recognized, only disclosed, unless the possibility of a future outflow of resources is considered remote. In the event that the outflow of resources associated with a contingent liability is assessed as probable, and if the size of the outflow can be reliably estimated, a provision is recognized in the financial statements.

**2.4.13 Borrowing**

Financing and borrowings are initially recognized at fair value of the consideration received, net of transaction costs. They are subsequently measured at amortized cost using the effective interest method.

**2.4.14 Retirement Benefits**

The company operates an unfunded and unapproved gratuity scheme for its employees, which is a defined benefit plan based upon the last salary drawn by an employee. Present value of defined benefit obligation is calculated on the basis of actuarial valuation at the end of the year. The valuation in these accounts is worked out on the Projected Unit Credit Actuarial Cost method basis.

Actuarial valuation of defined benefit scheme was not conducted because there was no employee in the company as at December 30, 2017.

Actuarial gains and losses are accounted for in accordance with the revised IAS-19 "Employee benefits".

**2.4.15 Borrowing Cost**

Interest, mark-up and other charges on long-term finances are capitalized up to the date of commissioning of respective qualifying assets acquired out of the proceeds of such long-term finances. All other interest, mark-up and other charges are recognized in statement of profit or loss.

**2.4.16 Functional and presentation currency**

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (the functional currency). The financial statements are presented in Pak Rupees, which is the Company's functional and presentation currency

**2.4.17 Foreign Currency Transactions**

All monetary assets and liabilities in foreign currencies are translated into Pak Rupees at exchange rates prevailing at the reporting date. Transactions in foreign currencies are translated into Pak Rupees at exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are charged or credited to statement of profit or loss. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated into Pak Rupees at exchange rates prevailing at the date of transaction. Non-monetary assets and liabilities denominated in foreign currency that are stated at fair value are translated into Pak Rupees at exchange rates prevailing at the date when fair values are determined.

**2.4.18 Related party transactions**

All transactions with related parties are carried out by the Company at arm's length prices using the method prescribed under the Companies Act 2017.

**2.4.19 Loans, Advances and other Receivables**

Loans, advances and other receivables are recognized initially at cost and subsequently measured at amortized cost.

**2.4.20 Long Term Loans and Short Term Borrowings**

Loans and borrowings are initially recorded at the time proceeds are received and subsequently at amortized cost. Financial charges are accounted for on accrual basis and are either added to the carrying amount of the instruments or included in the creditors, accrued and other liabilities to the extent of the amount remaining unpaid. Exchange gain and losses (if any) arising in respect of loan or borrowings in foreign currency are added to the carrying amount of the instrument.

**2.4.21 Trade and Other Payables**

Liabilities for trade and other amounts payable are carried at cost which is the fair value of the consideration to be paid in the future for goods and services received whether or not billed to the company.

**2.4.22 Impairment**

Assets that have an indefinite useful life are not subject to depreciation and are tested annually for impairment. Assets that are subject to depreciation are reviewed for impairment at each statement of financial position date or whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount for which assets carrying amount exceeds its recoverable amount. Recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date. Reversals of the impairment losses are restricted to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if impairment losses had not been recognized. An impairment loss or reversal of impairment loss is recognized in the statement of profit or loss.

## V. PESHAWAR HIGH COURT

### a. Deputy Registrar of companies Vs SCIL ( Winding Up Petition)Commitments

The Deputy Registrar Companies has initiated the winding up proceedings through C.C1/2018 on the basis suspension of its business since 2014. In 2005 the company was dragged into frivolous litigation by ABL on account of which the business of the company suffered immensely. In the recent past, the ABL and the company has mutually entered into a settlement and consequently all pending cases have been withdrawn by bothsides. The management of the company is now vigorously trying for revival of the company. The next date in winding up petition is fixed for 16-10-2023 for arguments.

### Commitments

There are no commitments in respect of outstanding Letters of Credit.

The management of the company is strongly and vigorously contesting all these cases and there is every likelihood that these cases will be decided in favour of the Company soon.

**28 FINANCIAL RISK MANAGEMENT****28.1 Financial risk factors**

The Company's activities expose it to a variety of financial risks: market risks (including currency risk, other price risk and interest rate risk), credit risk and liquidity risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance.

Risk management is carried out by the Company's finance department under policies approved by the Board of Directors. The Company's finance department evaluates and hedges financial risks. The Board provides principles for overall risk management, as well as policies covering specific areas such as currency risk, other price risk, interest rate risk, credit risk, liquidity risk, use of derivative financial instruments and non derivative financial instruments and investment of excess liquidity.

**28.1.1 Market risk****(i) Currency risk**

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises mainly from future commercial transactions or receivables and payables that exist due to transactions in foreign currencies.

The company is not exposed to currency risks.

**(ii) Sensitivity analysis**

if the functional currency, at reporting date, had weakened / strengthened by 5% against the foreign currency with all other variable held constant, the impact on profit after taxation would be nil.

**(iii) Other price risk**

Other price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instrument traded in the market. The Company is not exposed to commodity price risk.

**(iv) Interest rate risk**

This represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company is geared only to the extent of borrowings as mentioned in **Note 26** and since these borrowings are under litigation so for the time being the company is exposed to the interest rate risk only to the extent of calculation of mark-up on loan from related party. Financial instruments at variable rates expose the company to cash flow interest rate risk. Financial instruments at fixed rate expose the company to fair value interest rate risk.

At the balance sheet date the interest rate profile of the Company's interest bearing financial instruments was:

	<b>2023</b>	<b>2022</b>
	<b>Rupees</b>	<b>Rupees</b>
<b>Floating rate instruments</b>		
<b>Financial liabilities</b>		

Short Term Borrowings - Un secured

77,411,499

82,197,158

**Fair value sensitivity analysis for fixed rate instruments**

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate at the balance sheet date would not affect profit or loss of the Company.

**Cash flow sensitivity analysis for variable rate instruments**

The Company does not account for any variable rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate at the balance sheet date would not affect profit or loss of the Company.

**28.1.2 Credit risk**

Credit risk represents the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

	Rating			2023	2022
	Short Term	Long term	Agency	Rupees	Rupees
<b>Banks</b>					
Habib Metropolitan Bank Limited	A1+	AA+	PACRA	21,453	21,425
Allied Bank Limited	A1+	AAA	PACRA	-	-
Silk Bank	A-2	A-	JCR-VIS	878,058	1,441,549
Askari Bank Limited	A1+	AA+	PACRA	2,094	2,094

Summit Bank		Suspended		2,698	2,698
				<b>905,273</b>	<b>1,468,736</b>

The Company's exposure to credit risk and impairment losses related to trade debts is Nil due to no trade receivable during the year.

Due to the Company's long standing business relationships with these counterparties and after giving due consideration to their strong financial standing, management does not expect non-performance by these counter parties on their obligations to the Company. Accordingly the credit risk is minimal.

**28.1.3 Liquidity risk**

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The company manages liquidity risk by maintaining sufficient cash. The company follows an effective cash management and planning policy to ensure availability of funds and to take appropriate measures for new requirements. Following are the contractual maturities of financial liabilities. The amounts disclosed in the table are undiscounted cash flows.

## 29 RECOGNIZED FAIR VALUE MEASUREMENTS - FINANCIAL INSTRUMENTS

### (I) Fair value hierarchy

Judgements and estimates are made in determining the fair values of the financial instruments that are recognised and measured at fair value in these financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the following three levels. An explanation of each level follows underneath the table.

Recurring fair value measurements At 30 June 2023	Level 1	Level 2	Level 3	Total
	.....Rupees.....			
<b>Financial assets</b>				
Fair value through profit & loss financial asset	36,359,081	-	-	36,359,081
Available for sale financial asset	26,102	-	-	26,102
<b>Total financial assets</b>	36,385,183	-	-	36,385,183

Recurring fair value measurements At 30 June 2022	Level 1	Level 2	Level 3	Total
	.....Rupees.....			
<b>Financial assets</b>				
Fair value through profit & loss financial asset	32,446,085	-	-	32,446,085
Available for sale financial asset	22,681	-	-	22,681
<b>Total financial assets</b>	<b>32,468,766</b>	<b>-</b>	<b>-</b>	<b>32,468,766</b>

The above table does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amounts are a reasonable approximation of fair value. Due to short term nature, carrying amounts of certain financial assets and financial liabilities are considered to be the same as their fair value. For the majority of the non-current receivables, the fair values are also not significantly different to their carrying amounts.

There were no transfers between levels 1 and 2 for recurring fair value measurements during the year. Further, there was no transfer in and out of level 3 measurements.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

**Level 1:** The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.

**Level 2:** The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

#### (ii) Valuation techniques used to determine fair values

Specific valuation techniques used to value financial instruments include the use of quoted market prices.

### 30 CAPITAL RISK MANAGEMENT

The Company's objectives when managing capital are to be safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders or issue new shares.

In order to maintain or adjust the capital structure, the company may adjust the amount of dividends paid to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the company monitors capital on the basis of the gearing ratio. The ratio is

calculated as net debt divided by total capital. Net debt is calculated as total borrowings less cash and bank balances. Total capital is calculated as equity as shown in the balance sheet plus net debt.

	2023 Rupees	2022 Rupees
Total borrowings	77,411,499	82,197,158
Cash and bank balances	(1,620,419)	(572,196)
