EPS (Rs/share)	2.41	2.13
GP%	15.94%	14.30%
PBT%	5.01%	4.67%
PAT%	3.03%	3.13%

Production and Sales volumetric data is as under:

	HY2024	HY2023
	in MT	
Production:		
Clinker	2,152,797	1,976,634
Cement	2,067,028	2,203,587
Sales:		
Total Cement	2,050,710	2,163,866
Local Cement (excluding own consumption)	1,908,340	2,117,728
Export Cement	142,370	46,138
Clinker Sale	466,850	116,850

First half of FY24 remained largely modest with nothing new on economic front. There was mostly absorption of last year economic decisions. The period was dominated with election news and possible new arrangements with world financial institutions after elections. Inflation numbers remained high, maintaining interest rates high and unchanged. Currency devalued to record high exceeding Rs 300/USD before settling around Rs 280/USD under strict administrative measures. The devaluation of PKR against USD was 24% since January 2023, an impact that put further pressure on already weak purchasing power of general public. Economic activities are on standstill. IMF Standby Agreement will also expire by March. Way forward for businesses and consumers are very uncertain, the effect of which is visible across all industries.

In volume terms, total sales quantity of industry witnessed increase to 23.8 million tons (9.73%) period on period. North zone registered growth of 0.4 million tons (2.59%) while South Zone of 1.6 million tons (35.91%). Further analysis shows that growth was driven by exports that grew by 1.9 million tons (110.66%) while local dispatches showed moderate growth of 0.2 million tons. Sales utilization of industry declined to 61% against 63% for the corresponding period last year. It was largely contributed by local sales of 52% and exports sales utilization of 9%.

Kiln operational days of your Company increased by 5.6% from 344 days to 364 days. Clinker production % increased to 64% (1HY23: 59%). Sales utilization of your Company increased to 75% (1HY23: 68%) which was in inline with industry numbers.

Sales, in value terms, registered growth primarily due to stable local cement prices and increased clinker exports. Second quarter witnessed decrease in local dispatches as compared to corresponding period last year which were offset by clinker sales having no net margins. Clinker was exported to generate positive contribution and to recover some fixed costs. The Company partially shifted to Alternate Fuel, local and Afghan coal in substitution of imported coal, taking into account cost consideration and also saving valuable foreign exchange reserves. The Company strictly followed effective cost optimization strategy in a bid to improve margins. Selling expenses increase was associated with increase in clinker sales. Better dividend rates (mainly from MCB) and reversal of impairment loss in investment in Nishat Dairy (Pvt) Limited amounting to Rs 162 million caused surge in Other Income. Financial expenses increase was due to rise in discount rates including ERF rates as compared to corresponding period last year.

General elections successfully held on February 8. However, post elections scenario has further aggravated the uncertainty. Pakistan is facing multiple challenges on all fronts and political and governance chaos will do no good. This may complicate dealings with IMF and other financial institutions. Massive debt repayments are ahead that may put further pressure on PKR/USD parity. This may create concern on cost side. Keeping inflation projected numbers in view, discount rates will remain high throughout FY24. Coal has trended downward and is now stable at around USD 120, providing much needed relief in cost for the cement industry. However, some of the benefit may be offset by currency devaluation. Company will continue to use mix of imported and local coals as part of its cost saving strategy. Government fiscal side remained tight and cement dispatches may remain modest. There is political tension and military conflict in Middle east. There are chances that conflict may prolong and may affect the fuel prices worldwide. Company will continue with the strategy to export clinker to contribute towards fixed costs and to earn valuable foreign currency reserves. Company will continue to evaluate export opportunities in USA market, which may contribute significantly to profitability. To diversify the power mix and to reduce power cost, the Board has approved for installation of approximately 3 MW Solar power plant at Khairpur Site. After its installation, total solar capacity at Khairpur site will be increased to 9.9 MW.

Principal activity of the Company is manufacture and sale of cement and clinker and following are the principal risks the Company face:

- Tight price market and tough competition
- Capacity utilization
- Interest rate
- Foreign currency fluctuations
- Shrinking cement exports market

The Board of Directors has approved Directors' Remuneration Policy. The main features of the policy are as follows:

مالی سال 24 کی پہلی ششماہی بڑی حد تک معمولی رہی جس میں اقتصادی محاذ پر کوئی نئی سرگرمی نہیں تھی۔ پچھلے سال کے اقتصادی فیصلوں کو زیادہ تر مکمل کیا گیا تھا۔ اس عرصہ میں انتخابی خبروں اور انتخابات کے بعد عالمی مالیاتی اداروں کے ساتھ ممکنہ نئے انتظامات کا غلبہ تھا۔ افراط زر کی شرحیں بلند رہیں، زیادہ شرح سود کو برقرار رکھا گیا اور تبدیل نہ کیا گیا۔ سخت انتظامی اقدامات کے تحت کرنسی کی قدر 280 روپے/USD کے قریب طے ہونے سے پہلے 300 روپے/USD سے زیادہ ریکارڈ کی گئی۔ جنوری 2023 سے امریکی ڈالر کے مقابلے میں پاکستانی روپے کی قدر میں کمی 24% ہوئی، جس نے عام لوگوں کی پہلے سے کمزور خرید پر مزید دباؤ ڈالا۔ معاشی سرگرمیاں ابھی تک ٹھپ ہیں۔ آئی ایم ایف کا اسٹینڈ بائی معاہدہ بھی مارچ تک ختم ہو جائے گا۔ کاروبار اور صارفین کے لیے آگے کا راستہ بہت غیر یقینی ہے، جس کا اثر تمام صنعتوں پر نظر آتا ہے۔

حجم کے لحاظ سے، صنعت کی کل فروخت مقدار مدت کے دوران 23.8 بلین ٹن (9.73 فیصد) تک بڑھ گئی۔ شمالی زون نے 0.4 بلین ٹن (2.59%) جبکہ جنوبی زون نے 1.6 بلین ٹن (35.91%) کی نمو درج کی۔ مزید تجزیہ سے پتہ چلتا ہے کہ برآمدات کی وجہ سے نمو میں اضافہ ہوا جس میں 1.9 بلین ٹن (110.66%) کا اضافہ ہوا جبکہ مقامی ترسیلات میں 0.2 بلین ٹن کی معمولی نمو دکھائی دی۔ صنعت کی مستعمل فروخت گزشتہ سال کی اسی مدت کی 63 فیصد کے مقابلے میں کم ہو کر 61 فیصد رہی۔ اس میں بڑے پیمانے پر 52% مقامی فروخت اور 9% برآمدات کی فروخت کا حصہ تھا۔

آپ کی کمپنی کے کلن کے آپریشنل دن 344 دنوں سے 5.6 فیصد بڑھ کر 364 دن ہو گئے۔ کلیننگ کی فیصد پیداوار بڑھ کر 64% (1HY23: 59%) ہو گئی۔ آپ کی کمپنی مستعمل فروخت بڑھ کر 75% (1HY23: 68%) ہو گئی جو انڈسٹری کے اعداد و شمار کے مطابق تھی۔

قدر کے لحاظ سے فروخت، بنیادی طور پر مستحکم مقامی سینٹ کی قیمتوں اور کلیننگ کی برآمدات میں اضافہ کی وجہ سے نمودار کی گئی ہے۔ دوسری سہ ماہی میں مقامی ترسیلات میں گزشتہ سال کی اسی مدت کے مقابلے میں کمی دیکھی گئی جس کو کلیننگ کی فروخت سے پورا کیا گیا جس کا کوئی خالص مارجن نہیں تھا۔ کلیننگ کو مثبت شراکت پیدا کرنے اور کچھ مقررہ اخراجات کو پورا کرنے کے لیے برآمد کیا گیا تھا۔ کمپنی نے لاگت کو مد نظر رکھتے ہوئے اور قیمتی زرمبادلہ کے ذخائر کو بھی بچاتے ہوئے، جزوی طور پر آمدی کونسل کے متبادل ایندھن، مقامی اور افغان کونسل پر منتقلی کی۔ کمپنی نے مارجن کو بہتر بنانے کے لیے مؤثر لاگت کی اصلاح کی حکمت عملی پر توجہ سے عمل کیا۔ فروخت کے اخراجات میں اضافہ کلیننگ کی فروخت میں اضافے سے وابستہ تھا۔ بہتر ڈیویڈنڈ کی شرح (بنیادی طور پر MCB سے) اور نشاط ڈیری (پرائیویٹ) لمیٹڈ میں 162 بلین روپے کی سرمایہ کاری میں امیجیز منٹ نقصان کی واپسی نے دیگر آمدنی میں اضافہ کیا۔ مالی اخراجات میں اضافہ گزشتہ سال کی اسی مدت کے مقابلے میں ERF کی شرحوں سمیت رعایتی شرحوں میں اضافے کی وجہ سے ہوا۔

عام انتخابات کا میاں بی کے ساتھ 8 فروری کو ہوئے۔ تاہم انتخابات کے بعد کے منظر نامہ نے غیر یقینی صورتحال کو مزید بڑھا دیا ہے۔ پاکستان کو تمام محاذوں پر متعدد مشکلات کا سامنا ہے اور سیاسی اور حکمرانی انتشار کا کوئی فائدہ نہیں ہوگا۔ اس سے آئی ایم ایف اور دیگر مالیاتی اداروں کے ساتھ معاملات پیچیدہ ہو سکتے ہیں۔ بڑے پیمانے پر آئندہ کی قرض کی واپسی جو پاکستانی روپیہ/ امریکی ڈالر کی برابری پر مزید دباؤ ڈال سکتی ہے۔ یہ لاگت میں اضافہ کی تشویش پیدا کر سکتا ہے۔ متوقع افراط زر کو مد نظر رکھتے ہوئے، مالی سال 24 کے دوران رعایتی شرحیں بلند رہیں گی۔ کونسل کی قیمتوں میں کمی کا رجحان ہے اور اب یہ تقریباً 120 امریکی ڈالر پر مستحکم ہے، جو سینٹ کی صنعت کے لیے لاگت میں بہت ضروری ریلیف فراہم کر رہا ہے۔ تاہم، کچھ فائدہ کرنسی کی قدر میں کمی سے ختم ہو سکتا ہے۔ کمپنی اپنی لاگت بچانے کی حکمت عملی کے تحت درآمدی اور مقامی کونسل کے مرکب کا استعمال جاری رکھے گی۔ حکومتی مالیاتی پہلوؤں اور سینٹ کی ترسیل معمولی رہی۔ مشرق وسطیٰ میں سیاسی کشیدگی اور فوجی کشمکش جاری ہے۔ تنازعہ طویل ہونے کے امکانات ہیں اور دنیا بھر میں ایندھن کی قیمتوں کو متاثر کر سکتا ہے۔ کمپنی مقررہ لاگت میں حصہ ڈالنے اور قیمتی غیر ملکی زرمبادلہ کے ذخائر حاصل کرنے کے لیے کلیننگ برآمد کرنے کی حکمت عملی جاری رکھے گی۔ کمپنی امریکی منڈی میں برآمدی مواقعوں کا بھی جائزہ لے رہی ہے، جو کہ اگر مکمل ہو جائیں تو منافع میں نمایاں حصہ ڈال سکتے ہیں۔

Independent Auditor's Review Report To The Members Of D.G. Khan Cement Company Limited Report On Review Of Interim Financial Statements

Introduction

We have reviewed the accompanying unconsolidated condensed interim statement of financial position of D. G. Khan Cement Company Limited as at December 31, 2023 and the related unconsolidated condensed interim statement of profit or loss, unconsolidated condensed interim statement of comprehensive income, unconsolidated condensed interim statement of changes in equity, and unconsolidated condensed interim statement of cash flows, and notes to the unconsolidated condensed interim financial statements for the six-month period then ended (here-in-after referred to as the "interim financial statements"). Management is responsible for the preparation and presentation of these interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these interim financial statements based on our review. The figures of the unconsolidated condensed interim statement of profit or loss and unconsolidated condensed interim statement of comprehensive income for the three-month period ended December 31, 2022, and December 31, 2023, have not been reviewed, as we are required to review only the cumulative figures for the six-month period ended December 31, 2023.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements are not prepared, in all material respects, in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting.

The engagement partner on the audit resulting in this independent auditor's report is Hammad Ali Ahmad.

Notes to and Forming Part of the Unconsolidated Condensed Interim Financial Information - Unaudited

For the Six-Month Period Ended December 31, 2023

1. Status and nature of business

D. G. Khan Cement Company Limited (the 'Company') is a public company limited by shares incorporated in Pakistan in 1978 under the repealed Companies Act, 1913 (now the Companies Act, 2017). The Company's ordinary shares are listed on the Pakistan Stock Exchange Limited. The registered office of the Company is situated at 53-A, Lawrence Road, Lahore.

The Company is principally engaged in the production and sale of Clinker, Ordinary Portland Cement of different variations and Sulphate Resistant Cement. It has four cement plants, two plants located at Dera Ghazi Khan ('D.G. Khan'), one at Khairpur District, Chakwal ('Khairpur') and one at Hub District, Lasbela ('Hub').

2. Basis of preparation

2.1 Statement of compliance

These unconsolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- i) International Accounting Standard ('IAS') 34, Interim Financial Reporting, issued by the International Accounting Standards Board ('IASB') as notified under the Companies Act, 2017; and
- ii) Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

- 2.2** These unconsolidated condensed interim financial statements are un-audited and are being submitted to the members as required by section 237 of the Companies Act, 2017 (the 'Act').

These unconsolidated condensed interim financial statements do not include all of the information required for annual financial statements and should be read in conjunction with the annual financial statements as at and for the year ended June 30, 2023. Selected explanatory notes are included to explain events and transactions that are significant to and understanding of the changes in the Company's financial position and performance since the last annual financial statements.

The Company is required to issue condensed interim consolidated financial statements along with its condensed interim separate financial statements in accordance with the requirements of accounting and reporting standards as applicable in Pakistan. Condensed interim consolidated financial statements are prepared separately.

3. Significant accounting policies

The accounting policies and methods of computation adopted in the preparation of these unconsolidated condensed interim financial statements are consistent with those applied in the preparation of the unconsolidated annual audited financial statements for the year ended June 30, 2023 except for the estimation of income tax (see note 5) and adoption of new amended standards as set out in note 3.2.

3.1 Standards, amendments to published standards and interpretations that are effective in the current period

Certain standards, amendments and interpretations to International Financial Reporting Standards (IFRS) are effective for accounting period beginning on July 1, 2023, but are considered not to be relevant or to have any significant effect on the Company's operations (although they may affect the accounting for future transactions and events) and are, therefore, not detailed in these unconsolidated condensed interim financial statements.

3.2 Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Company

There are certain standards, amendments to the accounting standards and interpretations that are mandatory for the Company's accounting periods beginning on or after July 01, 2024 but are considered not to be relevant or to have any significant effect on the Company's operations and are, therefore, not detailed in these unconsolidated condensed interim financial statements.

4. Accounting estimates

The preparation of unconsolidated condensed interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these unconsolidated condensed interim financial statements, the significant judgments made by management in applying accounting policies and key sources of estimation were the same as those that were applied to the annual financial statements of the Company for the year ended June 30, 2023, with the exception of change in estimate that is required in determining the provision for income taxes as referred to in note 5.

5. Taxation

Income tax expense is recognized in each interim period based on best estimate of the weighted average annual income tax rate expected for the full financial year. Amounts accrued for income tax expense in one interim period may have to be adjusted in a subsequent interim period of that financial year if the estimate of the annual income tax rate changes.

12.1 This includes Level 1 investments in Nishat Mills Limited, MCB Bank Limited, Adamjee Insurance Company Limited, United Bank Limited, Nishat (Chunian) Limited, Nishat Chunian Power Limited and Pakistan Petroleum Limited, Level 3 investments in Nishat Hotels and Properties Limited and Hyundai Nishat Motor (Private) Limited and investments in subsidiaries that include investment in Nishat Dairy (Private) Limited and Nishat Paper Products Company Limited. The reconciliation of carrying amount of these investments is as follows:

	December 31, 2023	June 30, 2023
	Un-audited	audited
	(Rupees in thousand)	
Carrying value of investments at the beginning of the period/year	13,366,360	12,866,145

Carrying value at the end of the period/year	<u>15,416,639</u>	<u>13,366,360</u>

12.1.1 The Company reviewed the carrying amount of its investment in equity instruments of Nishat Dairy (Private) Limited and its recoverability to determine whether the previously recognised impairment loss of Rs. 162.788 million exists as there have been favourable events and change in circumstances, since impairment loss was recognised. As a result of carrying out the aforementioned assessment, the recoverable amount of the investment was determined to be higher than its carrying amount by Rs. 3.22 per share and the impairment loss was accordingly reversed and the amount of any reversal recognised was restricted to the carrying value of the investment that would have been recognised if the original impairment had not occurred.

13. Transactions with related parties

The related parties include the subsidiaries, the Investor (Nishat Mills Limited), related parties on the basis of common directorship, group companies, key management personnel and post employment benefit plans. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the company, directly or indirectly, including any director (whether executive or otherwise) of that company. The Company in the normal course of business carries out transactions with various related parties. Significant transactions with related parties are as follows:

16. Financial risk management

16.1 Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk, and other price risk), credit risk and liquidity risk.

These unconsolidated condensed interim financial statements do not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements as at June 30, 2023.

There have been no changes in the risk management department or in any risk management policies since the year ended June 30, 2023.

16.2 Fair value estimation

a) Fair value hierarchy

The different levels for fair value estimation used by the Company have been defined as follows:

- The fair value of financial instruments traded in active markets (such as publicly traded equity securities) is based on quoted (unadjusted) market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in Level 1.
- The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to determine fair value of an instrument are observable, the instrument is included in Level 2.
- If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity instruments.

To provide an indication about the reliability of the inputs used in determining fair value, the Company classifies its financial instruments into the three levels prescribed above. The following table presents the Company's financial assets measured and recognised at fair value at December 31, 2023 and June 30, 2023 on a recurring basis:

	Level 1	Level 2	Level 3	Total
	(Rupees in thousand)			
As at December 31, 2023				
Recurring fair value measurements				
Assets				
Investments - FVOCI	21,404,693	-	5,403,535	26,808,228

As at June 30, 2023
Recurring fair value measurements

	Level 1	Level 2	Level 3	Total
Assets				
Investments - FVOCI	14,374,450	-	5,842,886	20,217,336

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between Levels 1, 2 and 3 during the period. There were no changes in valuation techniques during the period.

The Company did not measure any financial assets or financial liabilities at fair value on a non-recurring basis as at December 31, 2023.

b) Valuation techniques used to determine fair values

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments; and
- for other financial instruments - discounted cash flow analysis.

c) Fair value measurements using significant unobservable inputs

Investment in Nishat Hotels and Properties Limited

The main level 3 inputs used by the Company to determine fair value of investment in Nishat Hotels and Properties Limited ('NHPL') are derived and evaluated as follows.

- Discount rate is determined using a capital asset pricing model to calculate a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to NHPL.
- Long term growth rate is estimated based on historical performance of NHPL and current market information for similar type of entities.

The significant assumptions used in this valuation technique are as follows:

- Discount rate of 16.68% per annum.
- Long term growth rate of 2% per annum for computation of terminal value.
- Annual growth in costs is linked to inflation with a range of 6.50% to 25.60% per annum.

Sensitivity analysis

Sensitivity analysis of the significant assumptions used in the valuation technique are as follows:

If the discount rate increases by 1% with all other variables held constant, the impact on fair value as at December 31, 2023 would be Rs 209.375 million lower.

If the long term growth rate decreases by 1% with all other variables held constant, the impact on fair value as at December 31, 2023 would be Rs 71.875 million lower.

If inflation decreases by 1% with all other variables held constant, the impact on fair value as at December 31, 2023 would be Rs 21.875 million higher.

If interest rate increases by 1% with all other variables held constant, the impact on fair value as at December 31, 2023 would be Rs 15.625 million lower.

Investment in Hyundai Nishat Motor (Private) Limited

The main level 3 inputs used by the Company to determine fair value of investment in Hyundai Nishat Motor (Private) Limited ('HNMPL') are derived and evaluated as follows.

- Discount rate is determined using a capital asset pricing model to calculate a post-tax rate that reflects current market assessments of the time value of money and the risk specific to HNMPL.
- Long term growth rate is estimated based on historical performance of HNMPL and current market information for similar type of entities.

The significant assumptions used in this valuation technique are as follows:

- Discount rate of 24.14% per annum.
- Long term growth rate of 2% per annum for computation of terminal value.
- Annual growth in costs is linked to inflation with a range of 6.17% to 11.74% per annum.

Sensitivity analysis

Sensitivity analysis of the significant assumptions used in the valuation technique are as follows:

If the discount rate increases by 1% with all other variables held constant, the impact on fair value as at 31 Dec, 2023 would be Rs 204.5 million lower.

If the long term growth rate decreases by 1% with all other variables held constant, the impact on fair value as at 31 Dec, 2023 would be Rs 87 million lower.

If inflation decreases by 1% with all other variables held constant, the impact on fair value as at 31 Dec, 2023 would be Rs 78 million higher.

If interest rate increases by 1% with all other variables held constant, the impact on fair value as at 31 Dec, 2023 would be Rs 82.1 million lower.

2. Basis of preparation

2.1 Statement of compliance

These consolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and

- Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

- 2.2** These consolidated condensed interim financial statements are un-audited and are being submitted to the members as required by section 237 of the Companies Act, 2017 (the 'Act').

These consolidated condensed interim financial statements do not include all of the information required for annual financial statements and should be read in conjunction with the annual financial statements as at and for the year ended June 30, 2023. Selected explanatory notes are included to explain events and transactions that are significant to and understanding of the changes in the Group's financial position and performance since the last annual financial statements.

3. Significant accounting policies

- 3.1** The accounting policies and the methods of computation adopted in the preparation of these consolidated condensed interim financial statements are the same as those applied in the preparation of preceding annual published financial statements of the Group for the year ended June 30, 2023 except for adoption of new and amended standards as set out in note 3.2 and 3.3.

3.2 Standards, amendments and interpretations to International Financial Reporting Standards (IFRS) that are effective in the current period

Certain standards, amendments and interpretations to International Financial Reporting Standards (IFRS) are effective for accounting periods beginning on July 01, 2023, but are considered not to be relevant or to have any significant effect on the Group's operations (although they may affect the accounting for future transactions and events) and are, therefore, not detailed in these consolidated condensed interim financial statements.

3.3 Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Group

There are certain standards, amendments to the accounting standards and interpretations that are mandatory for the Group's accounting periods beginning on or after July 01, 2024 but are considered not to be relevant or to have any significant effect on the Group's operations and are, therefore, not detailed in these consolidated condensed interim financial statements.

4. Accounting estimates

The preparation of these consolidated condensed interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these consolidated condensed interim financial statements, the significant judgments made by management in applying accounting policies and key sources of estimation were the same as those that were applied to the annual financial statements of the Group for the year ended June 30, 2023, with the exception of change in estimate that is required in determining the provision for income taxes as referred to in note 4.1.

4.1 Taxation

Income tax expense is recognized in each interim period based on best estimate of the weighted average annual income tax rate expected for the full financial year. Amounts accrued for income tax expense in one interim period may have to be adjusted in a subsequent interim period of that financial year if the estimate of the annual income tax rate changes.

6. Deferred income - Government grant

This represents deferred grant recognized in respect of the benefit of below-market interest rate on the facilities availed under State Bank of Pakistan's (SBP) Refinance Scheme for Payment of Wages and Salaries to the Workers and Employees of Business Concerns ('Refinance Scheme'). The benefit has been measured as the difference between the fair value of the loan and the proceeds received. The Group used the prevailing market rate of mark-up at the date of disbursement for similar instruments to calculate fair values of respective loans.

7. Contingencies and commitments

7.1 Contingencies

There is no significant change in contingencies from the preceding annual financial statements of the Group for the year ended June 30, 2023. The banks have issued the following guarantees on Group's behalf in favor of:

12. Financial risk management

12.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk, and other price risk), credit risk and liquidity risk.

The consolidated condensed interim financial information does not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the group's annual financial statements as at June 30, 2023.

There have been no changes in the risk management department or in any risk management policies since the year ended June 30, 2023.

12.2 Fair value estimation

a) Fair value hierarchy

The different levels for fair value estimation used by the Group have been defined as follows:

- The fair value of financial instruments traded in active markets (such as publicly traded equity securities) is based on quoted (unadjusted) market prices at the end of the reporting period. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in Level 1.
- The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to determine fair value of an instrument are observable, the instrument is included in Level 2.
- If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity instruments.

To provide an indication about the reliability of the inputs used in determining fair value, the Group classifies its financial instruments into the three levels prescribed above. The following table presents the Group's financial assets measured and recognised at fair value at June 30, 2023 on a recurring basis:

	Level 1	Level 2	Level 3	Total
	(Rupees in thousand)			
As at December 31, 2023				
Recurring fair value measurements				
Assets				
Investments - FVOCI	22,200,214	-	5,403,535	27,603,749
Investments - FVPL	15,023	-	-	15,023
Biological assets	-	-	1,136,742	1,136,742
As at June 30, 2023				
Assets				
Investments - FVOCI	14,902,201	-	5,842,886	20,745,087
Investments - FVPL	15	-	-	15
Biological assets	-	-	1,150,612	1,150,612

The Group's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between Level 1, 2 and 3 during the period. There were no changes in valuation techniques during the period.

The Group did not measure any financial assets or financial liabilities at fair value on a non-recurring basis as at December 31, 2023.

b) Valuation techniques used to determine fair values

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments; and
- for other financial instruments - discounted cash flow analysis.

c) Fair value measurements using significant unobservable inputs

The main level 3 inputs used by the Company to determine fair value of investment in Nishat Hotels and Properties Limited ('NHPL') and Hyundai Nishat Motor (Private) Limited ('HNMPL') are derived and evaluated as follows.

- Discount rate is determined using a capital asset pricing model to calculate a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to NHPL and HNMPL.
- Long term growth rate is estimated based on historical performance of NHPL and HNMPL and current market information for similar type of entities.

The significant assumptions used in this valuation technique for NHPL are as follows:

- Discount rate of 16.68% per annum.

- Long term growth rate of 2% per annum for computation of terminal value.
- Annual growth in costs is linked to inflation with a range of 6.50% to 25.60% per annum.

The significant assumptions used in this valuation technique for HNMPL are as follows:

- Discount rate of 24.14% per annum.
- Long term growth rate of 2% per annum for computation of terminal value.
- Annual growth in costs is linked to inflation with a range of 6.17% to 11.74% per annum.

Sensitivity analysis

Sensitivity analysis of the significant assumptions used in the valuation technique are as follows:

If the discount rate increases by 1% with all other variables held constant, the impact on fair value as at December 31, 2023 would be Rs 209.375 million and Rs 204.5 million lower for NHPL and HNMPL respectively.

If the long term growth rate decreases by 1% with all other variables held constant, the impact on fair value as at December 31, 2023 would be Rs 71.875 million and Rs 87 million lower for NHPL and HNMPL respectively.

If inflation decreases by 1% with all other variables held constant, the impact on fair value as at December 31, 2023 would be Rs Rs 21.875 million and Rs 78 million higher for NHPL and higher for HNMPL respectively.

If interest rate increases by 1% with all other variables held constant, the impact on fair value as at December 31, 2023 would be Rs 15.625 million and Rs 82.1 million lower for NHPL and lower for HNMPL respectively.

13. Operating segments
