our history

On 27th March 2010, the spark of an idea conceived in one team's imagination became reality and Engro Powergen Qadirpur (EPQL) declared commencement of commercial operations.

At the turn of the century, Pakistan was anticipated to face severe and debilitating power shortages in the near future. We decided to take up the challenge and contribute to reducing the energy shortfall in the Country. The search for a viable long-term power project led to something extraordinary as vision and ingenuity came together to find the answer to the challenge.

For several years employees of Engro while traveling on the National Highway from Sukkur to Daharki, passed the Qadirpur gas field. Located 600 km from Karachi, the Qadirpur gas field is amongst Pakistan's largest gas reserves. From the highway they could see a huge flare of permeate gas. This flare, which is the by-product of the gas purification process, consisted mainly of Methane (60%), Carbon Dioxide (31%), Nitrogen (8%), Hydrogen Sulfide (320ppm), and about 1% of other hydrocarbons. The sulfur content made it unfit for household consumption. Our team was finally struck with the idea that energy could be harnessed from this waste gas. Use of permeate gas for electricity generation would also reduce carbon dioxide emissions produced when the gas is flared, hence its utilization resulted in a 'green solution' falling in line with Engro's philosophy. And so that short journey from Sukkur to Daharki became the stepping stone for our journey into the power sector.

A team was immediately formed to work on the feasibility of a permeate gas power plant. The project team's diligence & perseverance was finally rewarded when construction on a 217 MW combined cycle power plant was started in 2008. On 27th March 2010, the spark of an idea conceived in one team's imagination became reality and Engro Powergen Qadirpur declared commencement of commercial operations. Our Plant was the first power plant to be commissioned under the 2002 power policy and was completed in record time after the letter of intent (LOI) application. Our expertise coupled with relentless determination resulted in the Plant achieving commercial operations three months before the agreed schedule date.

The electricity generated through the Plant is transmitted to the National Transmission and Dispatch Company (NTDC) under the Power Purchase Agreement (PPA) dated October 26, 2007 which is valid for a period of 25 years from the Commercial Operations Date.

The project is unique as it converts low-BTU, high sulfur content permeate gas, which was earlier being wasted and flared, into much needed electric power. The Plant is a combined cycle plant, with 1+1+1 configuration; i.e. one gas turbine, one heat recovery steam generator (HRSG), and one steam turbine. The Plant uses permeate gas as its primary fuel source and HSD as backup fuel. The unique fuel usage, which was previously being flared, makes Engro Powergen Qadirpur Limited one of the lowest opportunity cost thermal power plants in the country.

The Plant has a huge social impact as it helps provide non-stop electricity supply to areas that face severe load shedding; and employment to the locals.

approach to governance

empowerment with accountability

Whilst we seek to empower our employees to facilitate business decision making, we also hold them accountable for their actions. During performance of various job tasks, employees are required to ensure that they conduct themselves in a manner that reflects positively on the company.

As part of deploying a rigorous internal control framework all our employees are held to the highest of standards and are responsible for:

- Complying with all applicable laws, company policies and procedures
- Maintaining appropriate ethical behavior in all internal and external dealings
- Reporting any suspected misconduct, illegal activity, fraud, abuse of company assets or other violation of ethical standards
- Submit an ethics compliance declaration.

Our Supporting Infrastructure to Aid in Ethical Conduct

orientation

- Brief to new hires about policies on ethical business conduct

reinforcement

- Workshops on Ethics carried out periodically
- All vendors, contractors and customers are sent the Ethics Policy statement, which has been translated into Urdu, periodically with a request to ensure compliance in their dealings with the company
- Clauses related to Ethics and Conflicts of Interest are mandatory in all contracts entered into by the company

monitoring of compliance

- Voluntary disclosure of actual or suspected non-compliance through Irregularity Reporting system
- Irregularity reports are shared with management and Board Audit Committee on a quarterly basis
- Whistleblower system whereby employees are encouraged to raise red flags and help strengthen the control environment
- Whistleblower complaints and results of their investigations are also reported to Board Audit Committee every quarter

- We are also cognizant of the fact that our employees may encounter a variety of legal issues while taking decisions to conduct business and, therefore, they need to be aware of the legal implications of their actions. Consequently, to mitigate risks associated with non-compliance we continue to host information and training sessions that promote compliance to the law and strengthen awareness of systems and protocols that have been instituted to monitor and report any such violations. We also encourage our employees to seek clarification from their respective supervisors and company's legal advisors to ensure that we remain fully compliant with all applicable laws, rules and regulations.
- As an enabler of ethical excellence, we believe in promoting fair trade and a free-market competitive system – an objective that all our companies seek to pursue. While all our companies compete vigorously in the marketplace, they also ensure compliance with the Competition Act 2010 and, therefore, compete on the merits of their product quality, prices, service and the customer loyalty we create by fulfilling the needs of all our consumers and clients. In order to reinforce our commitment to the competition laws, all Engro companies have joined up to the requirements of the voluntary competition compliance code initiative of the CCP and implemented all its requirements. Furthermore, we also strive to ensure that all our employees remain transparent in their dealings and are accurate in describing the attributes of the Company's products.
- Our employees often have access to confidential information on future plans and financial data. Such individuals-commonly referred to as 'insiders' can use this information in the public domain for trading or tipping others to trade in the Company's securities or use this information to exercise any share options granted by the Company to the employees. To discourage insider trading all our employees are educated about the ethical and legal implications of such actions.
- Yet even as we monitor the behavior of our employees and suppliers, we also make it a point to ensure that Engro treats them fairly. We believe our commitment to living up to our financial obligations in a timely manner sets us apart from many of our competitors.

chairman's review

With a legacy of more than a decade behind it, EPQL continues to play a vital role in the energy landscape of Pakistan through utilization of indigenous fuel source. Motivated by the profound impact we aspire to create for the entire country, our unwavering pursuit of value creation is deeply rooted in significant investments toward the growth of our people, communities, and the surrounding economy. As we navigate challenges and set our sights on new objectives, our dedication to operational excellence, safety, and sustainability remains unyielding.

EPQL once again achieved a commendable safety milestone in 2023, marking a streak of around 5,000 consecutive days without a lost workday injury (LWI) since our commercial operations began in 2010. This exemplifies our commitment to the well-being of our workforce and the communities in which we operate. Our commitment to environmental stewardship continued to drive our actions. Recertifying ISO 14001 and ISO 45001 ratings reaffirms our dedication to maintaining the highest standards in Health, Safety, and Environment (HSE) whilst also demonstrating our focus on protecting our people, our communities, and our environment. In terms of operational performance, the Company received dispatch throughout the year due its high merit order position. 2023 saw us demonstrate a billable availability factor of ~100%, dispatching a total net electrical output of 870 GWh, and achieving a load factor of 46%. We successfully recovered overdue receivables and continued to maintain a high ranking on the merit order.

On the input side, currently EPQL has a Gas Supply Agreement (GSA) with Sui Northern Gas Pipelines Limited (SNGPL), for supply of permeate gas from the Qadirpur Gas Field. With the gas supply from the Qadirpur field depleting, gas depletion phase has been declared by the company and the plant is made available in mixed mode where both permeate gas and High-Speed Diesel (HSD) fuel is utilized. The Company is engaged with relevant stakeholders for alternate fuel supply. EPQL has now secured the Modified Generation License and decision on Fuel Cost Component on PEL from NEPRA. As next steps, the Company needs to finalize a few more regulatory approvals and contractual formalities before commissioning this gas supply.

In line with our ethos of social responsibility, EPQL continues to invest in communities around our projects. Through the Engro Foundation, our CSR arm, we channel philanthropic capital into initiatives focused on education, technical training, skills development, and healthcare. In 2023, our dedicated Primary Healthcare Centre (PHC), established in collaboration with HANDS to serve the surrounding villages, offered timely medical treatments to a over 11,000 patients. Furthermore, EPQL, in partnership with Engro Foundation and Indus Resource Centre (IRC), actively sustains one of the largest school networks in the Ghotki district. This network encompasses three government schools—Rasheed Ahmed Arain, Gul M Arbani, and Juma Khan Arbani—educating over 700 students. In tandem with our community, we persist in our journey of fostering inclusion and creating value with purpose.

We have always maintained that our people remain our core enduring advantage and this year our priority on our people-agenda was no less. In 2023, we enhanced our focus on their well-being, conducted health awareness sessions, interventions for work-life management, and invested in professional growth through training initiatives. The induction of 10 female Graduate Trainee Engineers from surrounding areas of Qadirpur underscores our commitment to DE&I (Diversity, Equity and

Inclusion) and ensuring that we deliver on our inclusive growth agenda.

In the end, I extend my sincere appreciation to EPQL's management, employees, customers, partners, and stakeholders for their unwavering support. Your trust, confidence, and commitment drive us forward. Together, we will continue our journey of hope and perseverance, contributing to a prosperous 2024 for EPQL and Pakistan.

Sincerely,

Qadirpur Limited (EPQL)

ceo's message

Dear Shareholders,

With a history spanning well over a decade, Engro Powergen Qadirpur Limited (EPQL) remains a key player in Pakistan's energy sector, harnessing indigenous fuel sources to generate affordable energy as we believe that access to affordable energy is an enabler for creating a much larger socio-economic impact in the country.

FY23 was a year of standout financial performance for EPQL with our sales revenue for the year 2023 closing at PKR 13,256 million, marking a significant increase from PKR 10,027 million the previous year. This growth is attributed to enhanced availability and dispatch, resulting in a higher gross profit of PKR 2,663 million, compared to PKR 1,711 million last year. EPQL achieved a net profit of PKR 2,511 million in 2023, contrasting with PKR 1,472 million in 2022, which resulted in much higher earnings per share of PKR 7.76 for 2023 versus PKR 4.55 for 2022.

Our financial stewardship is further reflected in the reduction of overdue payments from power purchasers, which stood at PKR 7.7 billion on December 31, 2023, down from PKR 8.0 billion on December 31, 2022. The overdue amount payable to Sui Northern Gas Pipelines Limited (SNGPL) on December 31, 2023, was PKR 1.5 billion, compared to PKR 2.4 billion in 2022. The Company remains committed to managing its finances effectively and ensuring timely payments to all stakeholders.

The year 2023 had its share of challenges but we demonstrated a billable availability factor of 100%, dispatching a total net electrical output of 870 GWh to the national grid, with a load factor of 46% versus 41% in 2022. The lower load factor in the previous year was attributed to a major inspection (MI). Our commitment to operational excellence was showcased through the successful completion of plant turnaround activities, encompassing thorough inspections and maintenance of critical assets such as turbines, boilers, and transformers, ensuring continuous and reliable operations throughout the year. Notably, we also achieved additional operational milestones with the successful execution of the annual capacity test and the seamless installation and commissioning of a new gas mixing skid, strategically aligned with our future

operational plans. In our endeavor to embrace the digital era, we also embarked on several digitalization programs, aimed at bolstering operational efficiency and refining our decision-making processes.

The corner stone of our operations is safe and reliable operations and we are proud to have maintained and improved our the exceptional safety record in 2023. We achieved a milestone of 5,000 consecutive days and 10 million man hours without a lost workday injury (LWI) since March 27, 2010. Additionally we carried out a critical outage activity during the year with a dedicated workforce of approximately 200 people maintaining the highest standards of safety which is a testament to the expertise, diligence, and adherence to stringent safety protocols by the EPQL team.

At EPQL we have always maintained that our commitment extends beyond the safety of our plants and our people; we are also meticulously focused on our environmental stewardship agenda. To this effect, rigorous compliance and governance activities throughout 2023 ensured that EPQL's processes and HSE standards aligned with global best practices. Achieving 100% compliance with National Environmental Quality Standards (NEQS) and World Bank Group guidelines. Additionally the successful recertification of the ISO 14001 and ISO 45001 ratings further signifies our dedication to Health, Safety, and Environment (HSE).

We recognize that the hard work and perseverance of our people constitutes our strongest asset and we continue to invest in them. Their collective knowledge and skills, combined with their innovative spirit is what sets us apart. We strive to make EPQL a truly enriching place to work, with conducive policies, health and safety, meritocracy, opportunities and industry-best practices. In upholding our vision, we initiated a series of programs, including training, workshops, and personal development initiatives to enhance the overall employee experience at Site and Head Office. All these efforts resulted in an astounding employee experience score of 86% - well above the global and industry average. Moreover, the addition of 10 female Graduate Trainee Engineers stands as a testament to our unwavering commitment to DE&I (Diversity, Equity, and Inclusion) and reinforces our pledge to foster an inclusive growth agenda.

We consider the communities in and around our operational areas as our key stakeholders and partners for sustainable growth. As a part of our core values, we nurture a positive relationship with them, and are always exploring ways to improve their lives and livelihoods. In 2023 we continued to make a positive impact on the communities by investing in initiatives aimed at improving socio-economic conditions. Technical training programs, healthcare facilities, basic infrastructure development, and the expansion of educational and health programs further reinforced our commitment to the upliftment of local communities.

As I conclude, let me take this opportunity to thank every stakeholder and request your continued faith and confidence in us. Looking ahead, I am confident that EPQL will continue delivering on all its stated commitments across financial, operational and ESG metrics, building upon our contributions to Pakistan's energy security and economic prosperity while investing in human capital and community welfare enriching the lives of thousands of people.

external overview

political

Possibility of short, medium, and long-term policy interventions by regulatory authorities remains, with respect to the energy mix of Pakistan, with the aim to provide indigenous, affordable, and sustainable energy to the Country. Regulatory changes such as fuel pricing and supply, power plants running out of merit will have an impact on the Company's business, and therefore the Company remains on the lookout for new challenges or opportunities arising from change in policies.

economic

Any change in the global economic environment has a potential to impact the Company's financial performance and profitability. Movements in exchange rate and inflation may have impact on the profitability and hence the Company actively formulates strategies to hedge against economic risks.

Additionally, fuel price variations, for both local and imported fuels, affect the economic dispatch order of power plants in the country, including EPQL's. GDP growth also has a significant impact on the company, as GDP growth is a determinant of power demand. Interest rates affect the profitability of the company with changes in cost of short-term financing. Circular debt is a major issue which impacts the power sector, affecting the liquidity profile of the Company.

Due to macroeconomic challenges faced by the country during the year, power demand remained subdued in 2023. However, EPQL has received dispatch throughout the year owing to its high merit order position.

Given the economic uncertainty during the year and forex challenges, EPQL management remained engaged with relevant stakeholders to avoid any delays in procurement of critical equipment for the plant. Moreover, the Company has been proactively mitigating cost pressures arising from the elevated inflation and PKR depreciation.

social

Growing population requires streamlining of power generation throughout the country. Surging population may lead to an increase in not only the domestic demand for power but may also influence industrial demand due to overall increase in consumption profile. Cheap and abundant sources of energy have been a necessary precondition for industrial production and emphasis is laid predominantly on merit run plants. The Company has been working on various fronts to cater to demand growing due to social factors.

The Company also adheres to strict health and safety protocols.

technological

The concept of power generation is technology driven and as technologies are updated, there is risk associated with obsolescence as well as maintaining overall cost efficiency. The Company makes prudent efforts to manage this risk.

environmental

Power generation has several ecological effects which include air and water pollution. However, any emissions resulting from generation are well within limits determined by local authorities. Being a permeate gas-based power plant, EPQL does not have any adverse impact on the environment and hence is safe from any environment related taxes/costs.

legal

The Company's Implementation Agreement safeguards it from any changes in legal environment. The Company limits its legal exposure by carefully deliberating upon terms and conditions of such agreements from legal, technical, and commercial aspects using expertise of professionals from each area before execution.

strategic objectives

risks and opportunities

Risks are inherent in the businesses and can relate to strategic threats, operational issues, compliance with laws and regulations, and reporting obligations. To deliver value to all stakeholders, it is important that the Company understands and manages the risks faced across the entire organization.

risk governance

The Board of Directors are responsible for ensuring that the Company has a robust process in place for assessment of principal risks facing the Company, including those that would threaten the business model, future performance, solvency, or liquidity. The Board Audit Committee is responsible to oversee implementation of the Enterprise Risk Management methodology approved by the Board. In addition, the Board People's Committee focuses on risks relating to human capital including assessment of compensation programs and succession planning.

Further, management level committees have been constituted which perform regular oversight of performance of the Company with respect to Organization & Employee Development, Health Safety & Environment, Execution of Planned Capital Projects, Business Continuity Planning and Business Process Reengineering.

The Company has a dedicated Internal Audit function which provides independent and objective evaluations while reporting directly to the Audit Committee on the effectiveness of governance, risk management and control processes.

enterprise risk management process

Enterprise Risk Management (ERM) methodology implemented at the Company provides a structured, disciplined, and consistent approach to risk management that facilitates risk-informed decision-making throughout the organization. The Framework implemented at the Company is illustrated below:

• Formulation of Strategy and Business Objectives

The focus of ERM at the Company is to ensure achievement of the organization objectives. Defining the organization's strategy and objectives is pre-requisite to identifying risks and opportunities. During this step, the management defines strategy and objectives for different areas of the organization which are then approved by the Board of Directors.

• Identification of Risks and Opportunities

The purpose of this step is to identify a comprehensive list of risks and events that may potentially impact the achievement of organization's mission and strategic objectives. In order to identify enterprise-level risks to be managed, a structured and systematic "Enterprise Risk Register" is used. Broad types of risk which are used for categorization of risk and opportunities are as follows:

Risk type	Description
Strategic Risk	Strategic risks are risks that affect or are created by an organization's business strategy and strategic objectives.
Commercial Risk	Commercial risks refer to potential losses arising from third party stakeholders or the sector in which the Company operates.
Operational Risk	Operational risk refers to the risk of loss resulting from inadequate or failed internal processes, people, and systems or from external events.
Financial Risk	Financial risk is an umbrella term for multiple types of risk associated with financing, profitability, liquidity, and credit. The Company's overall risk management program focuses on having cost efficient funding as well as to manage financial risk to minimize earnings volatility and provide maximum return to shareholders. The Company's policy for management of financial risks is explained in notes to the financial statements for the year ended December 31, 2023.

risk assessment

The process involves consideration of the causes and sources of risk, the probability that the risk event will occur, their consequences and magnitude, and the likelihood that those consequences may occur. The Board has approved formal criterion for assessment of the 'likelihood' and 'impact' which is used by the management for risk assessment. Each risk is assigned a rating and recorded in the Risk Register. Risk assessment provides the basis for evaluation and decisions regarding risk response or treatment.

prioritization of risk

The purpose of this step is to develop a prioritized list of enterprise-level risks for response options. By ranking and prioritizing the enterprise-level risks, the Company's leadership can respond as appropriate with strategic allocation of resources while responding to the risks. The risks are ranked according to Impact and likelihood rating.

implementation risk responses

The purpose of this step is to select a combination of risk response options that will optimize the Company's resources in managing its portfolio of risks. The process involves identifying and assessing the range of risk response options and preparing implementation plans for selected response options. Using a prioritized list of quantified risks requiring response options, the leadership makes informed strategic decisions about how to allocate resources to risks reflected in the Enterprise Risk Register.

Risk type	Description
Accept Risk	<ul style="list-style-type: none"> Retain risk at its present level, taking no further action
Avoid Risk	<ul style="list-style-type: none"> Prohibit unacceptably high-risk activities and asset exposures through appropriate policies. Stop specific activities by redefining objectives, refocusing strategic plans and policies, or redirecting resources. Screen alternative projects and budgeted investments to avoid off-strategy and unacceptably high-risk initiatives. Eliminate at the source by designing and implementing internal preventive processes.
Reduce Risk	<ul style="list-style-type: none"> Disperse financial, physical, or information assets to reduce risk of unacceptable catastrophic losses. Control risk through internal processes or actions that reduce the likelihood of undesirable events occurring to an acceptable level. Respond to well-defined contingencies by documenting effective plan and empowering appropriate personnel to make decisions; periodically test and, if necessary, execute the plan. Diminish the magnitude of the activity that drives the risk. Improve capabilities to manage a desired exposure. Redesign the approach to managing the risk.
Share risk	<ul style="list-style-type: none"> Outsource non-core processes (a viable risk transfer option only when risk is contractually transferred). Delegate risk by entering arrangements with independent, capable authorities.

monitoring and reporting

The ERM Risk Register is reviewed on periodic basis to ensure updating for changes in external and internal environment. The ERM Risk Register, and mitigation strategies are also presented to the Management Committee and the Board Audit Committee on bi-annual basis.

resource allocation plans

The Company aims to achieve its long-term goals by optimizing available resources. This would be done primarily with efficient utilization of Company's core strengths which includes but is not limited to:

Engro Powergen Qadirpur Limited aims to increase its reliability to the national grid by maintaining its availability and to increase the value for its shareholders. This will be achieved through implementation of smart strategic objectives which are easily measurable and will remain relevant in the foreseeable future. The Company will continue to efficiently utilize its resources.

The Company will continue to monitor the strategic objectives on an annual basis and will make amendments if needed based on changes in the internal and external environment. The Company is exploring various initiatives to achieve its long-term ambitions and has undertaken a comprehensive alternate fuel study program which will enable the Company to supplement its primary fuel.

significant plans and decisions

Due to gas depletion from Qadirpur field, the Company has formulated a Gas Depletion Mitigation Plan (GDMP), including different mitigation options available to the Company, which has been submitted to key stakeholders. The Company is in discussions with stakeholders to finalize modalities of GDMP.

Moreover, EPQL is also actively exploring local fuel options. EPQL had secured supply of 8-13 mmscfd gas from Petroleum Exploration Limited (PEL). NEPRA Authority has approved the modification in Generation License for EPQL to include gas to be supplied by PEL. Recently, the decision on Fuel Cost Component on gas to be supplied by PEL has also been announced. Onwards, respective approvals will be taken from the relevant parties.

changes in objectives and strategies

While the Company's long-term strategies and objectives have remained unchanged compared to last year, Engro Powergen Qadirpur Limited is continuously exploring opportunities to ensure consistent shareholder value creation.

liquidity and working capital management

To manage its working capital in the most efficient manner, the Company has a proactive treasury management system in place. Cash generation realized through collection from CPPA-G and short-term borrowings from banks are used to meet the liquidity requirements of the Company.

The Company has been able to successfully maintain its long-term and short-term credit rating of AA- and A-1 respectively through its prompt, coherent and effective methods of managing its business, cash, and liabilities.

treasury management

The Company operates its treasury with a focus to enhance profitability, increase shareholder return and preserve invested capital.

Considering the company's major chunk of amount is stuck in receivables, Running Finance facilities are arranged by treasury at best possible rates to ensure sufficient liquidity is always available.

financing arrangements

The Company places great emphasis on value maximization, which in turn leads to higher shareholder returns. The Company does this by minimizing its financing cost. Working capital requirements are met through internal cash generation and short-term borrowing to ensure balance sheet optimization. External financing consists of only local financing which is obtained after exhaustive evaluations of offers in hand and market conditions, ensuring maximization of shareholder value.

The Company recognizes its responsibility for timely repayment of outstanding loans. No default on repayment of loans was made during the year. The company retired its long-term debt in 2020, and currently has no long-term debt outstanding.

significant changes from prior year

The Company is actively working with stakeholders to finalize an alternate fuel option for the plant as gas from Qadirpur field is depleting. In relation to Gas Depletion Mitigation Plan/ Option (GDMP/GDMO), the PPIB's proposal to use RLNG as a 'top-up' fuel in addition to the existing Permeate Gas had been put on hold by the board of PPIB and the Company has been asked to look for alternative low BTU fuels.

EPQL had secured supply of 8-13 mmscfd low BTU gas from Badar gas field operated by PEL. NEPRA Authority has approved the modification in Generation License for EPQL to include gas to be supplied by PEL.

composition of local vs. imported raw materials

Primary source of fuel for EPQL is permeate gas procured locally under its Gas Supply Agreement with Sui Northern Gas Pipelines Limited. The fuel is supplied from Qadirpur Field. The Company's Plant has the capability to operate on mixed mode (Gas + HSD) under conditions when the Company faces shortage of gas supply. During the outgoing year, 100% of the dispatch was based on gas hence, the composition of raw material for the Company was 100% local.

directors' report

The Directors are pleased to present the audited financial statements and a review of the Company's performance for the year ended December 31, 2023.

overview

Sales revenue for the year 2023 was PKR 13,256 million as compared to PKR 10,027 million last year. The Company earned a net profit of PKR 2,511 million for 2023 as compared to PKR 1,472 million for 2022, which resulted in earnings per share of PKR 7.76 for 2023 vs PKR 4.55 for 2022. The Board of Directors approved a final cash dividend of PKR 1.5 per share.

A significant highlight of the year was the approval provided by NEPRA Authority for modification in Generation License to include gas to be supplied by PEL. This is the first formal approval on alternate fuel for EPQL, paving way for sustainable future operations. Moreover, the decision on Fuel Cost Component on gas to be supplied by PEL has also been announced by NEPRA.

principal activity

Engro Powergen Qadirpur Limited (EPQL) was established with the primary objective of undertaking the business of power generation and sale. The Company set up a 217.3 MW combined cycle power plant near Qadirpur, District Ghotki and commenced commercial operations on March 27, 2010.

Engro Powergen Qadirpur (EPQL) is one of the first green facilities in Pakistan as it utilizes permeate gas (low-BTU and high sulphur content gas) to generate electricity. Prior to conceptualization of EPQL, Permeate Gas was being flared. The power generated is transmitted to the National Transmission and Despatch Company (NTDC) under a Power Purchase Agreement (PPA) signed on October 26, 2007, which is valid for 25 years from the date of commencement of commercial operations.

The Company is a subsidiary of Engro Energy Limited (EEL), formerly known as Engro Powergen Limited (EPL), which has a majority shareholding of 68.89% in the Company. The Company was listed on the Pakistan Stock Exchange (PSX) in 2014.

market review

A slowdown in economic activities and high inflation has affected power demand in 2023 as electricity generation in the CPPA-G system declined by 5% to 130 billion units. However, EPQL received dispatch throughout the year owing to its high merit order position. Growth in power demand is essential to recover the cost of the capacity additions made over the past years and those in the pipeline. Moreover, it is imperative that the overall system becomes more efficient, and losses should be minimized.

Circular debt has been a persistent problem in the domestic energy sector. The root causes behind the accumulation of circular debt include high T&D losses, low recovery, and power theft. Perpetual circular debt is also a result of both currency devaluation and surging capacity payments. The company continues to engage extensively with the relevant stakeholders to manage its liquidity position.

operational overview

In 2023, the company demonstrated a billable availability factor of ~100% and dispatched a total net electrical output of 870 GWh, with a load factor of 46% during the year as compared to 41% in 2022. Last year, the load factor was lower due to major inspection (MI).

Consequently, gross profit for the year was higher at PKR 2,663 million against PKR 1,711 million last year.

The Company earned a net profit of PKR 2,511 million for 2023 as compared to PKR 1,472 million for 2022, which resulted in earnings per share of PKR 7.76 for 2023 vs PKR 4.55 for 2022.

The overdue amount payable to Sui Northern Gas Pipelines Limited (SNGPL) on December 31, 2023 was PKR 1.5 billion vs PKR 2.5 billion in 2022. The Company continues to strive to manage its finances and ensure timely payments to all stakeholders.

gas scenario

The Company has a Gas Supply Agreement (GSA) with Sui Northern Gas Pipelines Limited (SNGPL) for the supply of permeate gas from the Qadirpur Gas Field. The gas supply from Qadirpur gas field is depleting and based on profile shared by the gas supplier, the Company has declared gas depletion phase and made its plant available in mixed mode, that is, made the plant available on both gas and High-Speed Diesel (HSD). Meanwhile, the company is actively pursuing relevant stakeholders to finalize an alternate fuel plan for the plant. EPQL is engaged with Petroleum Exploration Limited (PEL) for supply of 8–13 mmscfd low BTU gas from Badar gas field. The NEPRA Authority has approved the modification in Generation License for EPQL to include gas to be supplied by PEL. The decision on Fuel Cost Component on gas to be supplied by PEL has also been announced by NEPRA.

social investments

Engro Powergen Qadirpur Limited (EPQL) believes businesses develop their long-term social capital through the quality of their corporate governance. The trust of our stakeholders is our foremost priority; therefore, we greatly value meaningful investments. We conduct our business transparently, aligned with the laws of the land and societal norms. We are fair, transparent, open and encourage our stakeholders to act in a similar way.

Concurrently, being a socially and environmentally responsible entity, our aim is to improve lives, empower livelihoods, and bring about a tangible change in the communities around our businesses. Engro Foundation, a for-impact organization and a dedicated CSR arm for all Engro businesses, channels philanthropic capital into various community investments. We work closely with communities to understand their priorities and use this as a design input. Our community investments are focused on developing human capital by investing in education, technical training, skills development, and healthcare.

In 2023, our dedicated Primary Healthcare Centre (PHC) for our surrounding villages in partnership with HANDS provided timely medical treatments to over 11,000 patients at the facility. The organization also worked to hold approximately 40 awareness sessions with over 550 attendees. EPQL, in collaboration with Engro Foundation and Indus Resource Centre (IRC), also supports one of the largest adopted school networks in district Ghotki. This includes three government schools namely Rasheed Ahmed Arain, Gul M Arbani, and Juma Khan Arbani in the Ghotki area, educating more than 700+ students annually. Together with our people, we continue our journey of inclusion and value creation with purpose.

Moreover, under EPQL's Hunar Program, two initiatives were conducted successfully: Coaching Academy & Stitching Centre. Under Coaching Academy, around 28 girls attended Entry Test Preparation Classes for Diploma of Associated Engineering (DAE) Admissions and all of them passed entrance exam. However, 16 girls got enrolled in DAE (Electrical). Out of 16, 15 deserving girls from underprivileged community were supported through generous scholarships to pursue their technical education i.e. Three Years Diploma of Associated Engineering (Electrical Program) at Technical Training College (TTC) Daharki.

Meanwhile, the stitching training centre has successfully trained around 25 women from the local community. Following the completion of their 3-month training program, each participant has been provided with a stitching machine, empowering them to establish independent operations and secure their livelihoods.

The HR team focused extensively on engaging with the female workforce of EPQL by holding sessions which discussed concerns, if any, and areas of improvement towards creating a more diverse and inclusive organization. Paving the way for a more diverse and inclusive workforce, we were able to induct 10 Qadirpur Trainee Engineers hailing from local communities who were the first females to work in technical roles at Qadirpur Plant.

The annual employee engagement survey was conducted by the company to determine the satisfaction of the employee workforce during the year 2023, where the Company successfully achieved a healthy engagement index of 86%, demonstrating high engagement levels and employee morale at EPQL.

health, safety & environment

Engro Powergen Qadirpur Limited has achieved a remarkable milestone this year by continuing its exceptional safety record, reaching a safety streak of 5,000 consecutive days without a lost workday injury (LWI) since its commercial operations date on March 27, 2010.

We not only value our people but are also cognizant of the environment in which we operate. Our compliance and governance activities ensured that EPQL's processes and HSE standards remain at par with global best practices. We ensured 100% compliance with National Environmental Quality Standards (NEQS) and World Bank Group guidelines. During the year, an outage activity involving a workforce of around 200 workers was carried out safely.

The Company successfully recertified the ISO 14001 and ISO 45001 rating, signifying its commitment to HSE. Our efforts to ensure a provision of safe and hazard free environment for our people and surrounding communities helped us obtain the NOC from SEPA for handling and storage of hazardous substances, & other legal compliances.

Our focus on safety has always been relentless. The quality of our Process Safety Management (PSM) and Behavioral LIs is reflected in the fact that the Company has maintained zero Loss Workday Injury and completed 10.5 million safe man hours and over 5,028 days year to date.

In 2023, we have planted over 5,000 trees in the plant vicinity and nearby schools, showing our commitment to environment which is also an integral part of our HSE efforts.

near term outlook

The Company continues to engage with regulators and relevant stakeholders to finalize an alternate fuel option for the plant.

EPQL is actively exploring alternate local fuel options. The Company is engaged with PEL for supply of 8-13 mmscfd gas from Badar field operated by PEL. The Company had applied to NEPRA for License Proposed Modification and Tariff on the additional fuel source. NEPRA Authority has approved the modification in Generation License for EPQL to include gas to be supplied by PEL, and recently has also announced the decision on Fuel Cost component on gas to be supplied by PEL. Onwards, respective approvals will be taken from relevant parties.

The power demand in the country is expected to remain subdued due to macroeconomic challenges including inflation, power prices hikes and lower economic growth. Despite that, given that EPQL generates cheaper electricity in comparison to its peers, the company anticipates that the plant will continue to receive dispatch from the power purchaser.

interest rate

Interest rate is a key variable in the company’s revenue and cost structure. EPQL’s revenue from the working capital component of the CPP tariff and delayed payment income from WAPDA are highly sensitive to interest rates. On the other hand, the company utilizes RF lines to ensure adequate liquidity, therefore interest rates also play a key role in the company’s short-term borrowing costs.

exchange rate sensitivity

Foreign fixed O&M and foreign variable O&M components are indexed to the exchange rate.

Statement of Value Addition 2023 vs. 2022

engaging stakeholders

EPQL understands the importance of stakeholder engagement and recognizes that there is no better way to ensure that our Company remains a responsible corporate citizen having a positive impact on all our stakeholders. We engage with our stakeholders both formally and informally, periodically and regularly.

EPQL's stakeholders include:

investors, lenders, and shareholders

Investors and shareholders are engaged through our Annual General Meeting as well as our Corporate Reports (quarterly, half yearly & annual reports), which include comprehensive information on both financial and non-financial matters related to the Company. Further, analyst briefings are conducted, while disclosures to the stock exchange on strategic events are made as and when required.

customers

Our primary customer is Central Power Purchasing Agency – Guaranteed (CPPA-G). We are in continuous contact and dialogue with our customer through regular meetings and correspondences on business issues.

suppliers

Our suppliers are engaged through periodic formal and informal meetings/conferences. We regularly provide them with technical assistance related to their business to benefit both the industry and the economy in which we operate.

host communities (local to our facilities and throughout pakistan)

We consider ourselves responsible for our host communities and hold regular interaction to understand how we can improve our relationship. The Company is extremely active in health, education and livelihood projects for the betterment of these communities.

employees

We concentrate on employee engagement as it is key to performance. A survey is carried out at regular intervals to assess the levels of engagement and motivation at the workplace and based on feedback, areas of weaknesses are improved, and strengths held stable.

government

Moving beyond regulatory compliances, we continue to engage with the government and regulators in public policy lobbying and policy reforms at local, provincial, and federal level. EPQL's management frequently engages with government officials on various matters including energy sector issues, alternative power, local community development and infrastructure related issues.

regulators

The Company complies with regulatory requirements and in this regard maintains close coordination with relevant regulators including the National Electric Power Regulatory Authority (NEPRA), stock exchange, tax authorities, and Securities and Exchange Commission of Pakistan (SECP).

media

We engage with the print and visual media through regular press releases on key achievements and disclosures. The Company schedules regular media interactions via briefings on periodic results, through Plant visits and through informal conversations throughout the year on the Company's news and updates.

competitive landscape and market positioning

Power purchase in the sector is mainly determined through a merit order, which is based on variable pricing of electricity of power producers. Some power plants, particularly renewables, operate out of merit order. EPQL has received dispatch throughout the period due to its high merit order position. EPQL recorded load factor of 46% in 2023, which is higher than last year on account of scheduled maintenance outage carried out in 2022. However, with increasing power generation capacity base and with the addition of new power producers that either operate out of merit order or rank higher in the merit order, threat to dispatch is imminent during winter months, especially if demand growth does not keep up given the ongoing economic situation in the country. During the year, power demand remained subdued due to economic slowdown and high inflation. Moreover, the sector is gripped by circular debt, resulting from inefficiencies in the system, which affects the performances of the power producers by translating into liquidity constraints. Cash available in the system is scarce while payments required to be made continue to increase, especially given the devaluation of Pakistani Rupee recently. The Company rigorously focuses on increasing shareholder value through remaining committed to promote the long-term development of Power Sector. EPQL has strong key business drivers which enable it to differentiate its offering and create value for the customers. The Company uses low-BTU high sulfur content permeate gas from Qadirpur gas field, which was previously being flared, for electricity generation. This utilization results in lower carbon emissions compared to other thermal plants and is hence considered a 'green solution'. The unique fuel usage makes the Company one of the lowest opportunity cost thermal power plants in the Country.

EPQL demonstrated operation excellence and maintained system reliability and remained compliant with international standards in safety and environment in providing reliable and affordable energy.

how the organization is currently equipped in responding to the critical challenges and uncertainties that are likely to arise

Gas depletion remains a critical challenge and as envisaged, the Company is currently facing curtailment from Qadirpur Gas field and has made its plant available in mixed mode. EPQL has submitted the final Gas Depletion Mitigation Plan (GDMP) to PPIB. It is engaged extensively with relevant parties to ensure conclusion of alternate fuel plan. The Company has a highly experienced management team which is in continuous engagement with stakeholders to avert any risk. To minimize the impact of gas depletion, it has also identified a local fuel source from PEL to supply 8 – 13 mmcf/d of gas to EPQL. Generation License Modification has been approved by NEPRA; meanwhile, NEPRA has also issued the decision on Fuel Cost Component for gas to be supplied by PEL.

The deep-rooted issue of rising circular debt and its adverse impact on businesses continues to pose financial uncertainty. The Company continues to monitor and forecast circular debt levels including its impact on company cashflows and develops effective strategies to curb liquidity constraints through effective treasury operations and cost optimization strategies.

A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. Information Other than the Financial Statements and Auditor's Report thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- (a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- (b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes there on have been drawn up in conformity with the Companies Act, 2017(XIX of 2017) and are in agreement with the books of account and returns;

- International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017 (the Act) ; and
- Provisions of and directives issued under the Act.

Where provisions of and directives issued under the the Act differ from the IFRSs, the provisions of and directives issued under the the Act have been followed.

2.2 Accounting convention

These financial statements have been prepared under the historical cost convention as stated in relevant accounting policies below.

2.3 Functional and presentation currency

These financial statements are presented in Pakistan Rupee, which is the Company's functional currency.

2.4 Critical accounting estimates and judgements

The preparation of financial statements in conformity with the approved accounting and reporting standards require the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 4.

3. material accounting policy information

The material accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

3.1 Initial application of standards, amendments or interpretations to existing accounting and reporting standards

3.1.1 Amendments to existing accounting and reporting standards that became effective during the year

The amendments to IAS I and IFRS Practice Statement 2 Making Materiality Judgements provide guidance and examples to help entities apply materiality judgements to accounting

(Amounts in thousand)

policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures. The amendments have had an impact on the Company's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Company's financial statements.

There are certain other amendments to existing accounting and reporting standards that are applicable for the financial year beginning on January 1, 2023 but do not have any significant impact on the Company's financial reporting and, therefore, have not been disclosed in these financial statements.

3.1.2 Standards and amendments to existing accounting and reporting standards that are not yet effective and have not been early adopted by the Company

There are standards and certain amendments to existing accounting and reporting standards that are not yet effective and have not been early adopted by the Company for the financial year beginning on January 1, 2023. The standards and amendments are not expected to have any material impact on the Company's financial reporting and, therefore, have not been disclosed in these financial statements.

3.2 Property, plant and equipment

Except for freehold land, capital work-in-progress and capital spares, all assets are stated at cost less accumulated depreciation and impairment, if any. Freehold land, capital spares and capital work-in-progress are stated at cost less impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items including borrowing costs. Self constructed assets include the cost of materials, direct labour, any other costs directly attributable to bringing the asset to a working condition for its intended use and exchange losses as explained in note 5.1.4. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

Major components of an item of property, plant and equipment having different useful lives are accounted for as separate items of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in the statement of profit or loss.

Disposal of assets is recognised when significant risk and rewards incidental to ownership have been transferred to buyers. Gains and losses on disposals or retirement of an asset are recognised in the statement of profit or loss.

(Amounts in thousand)

Depreciation is charged to the statement of profit or loss using the straight line method whereby the cost of an operating asset less its estimated residual value is written-off over its estimated useful life at rates given in note 5.1. Depreciation on additions is charged from the month following the month in which the asset is available for use and on disposals upto the preceding month the asset was in use.

Assets residual values and useful lives are reviewed, and adjusted, if appropriate, at each reporting date.

3.3 Intangible assets

a) Computer software

Costs associated with maintaining computer software programmes are recognised as an expense in the statement of profit or loss when incurred. Costs directly attributable to identifiable software having probable economic benefits exceeding one year, are recognised as intangible assets. Direct costs include purchase costs (license fee) and related overheads.

Expenditure which enhances or extends the performance of the software programme beyond its original specification and useful life is capitalised.

Software costs and license fees capitalised as intangible assets are amortised to the statement of profit or loss from the date of use on a straight-line basis over a period of 4-8 years.

b) Right to use infrastructure facilities

Costs representing the right to use various infrastructure facilities are stated at historical cost. These costs are amortised to the statement of profit or loss over a period of 25 years.

3.4 Impairment of non-financial assets

Non-financial assets' carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Assets that are subject to depreciation or amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised in the statement of profit or loss for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less cost to sell and value in use. Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(Amounts in thousand)

3.5 Financial assets

3.5.1 Classification, initial recognition and measurement

The Company classifies its financial assets in the following categories:

- a) those to be measured subsequently at fair value (either through other comprehensive income or through profit or loss); and
- b) those to be measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows. Management determines the classification of its financial assets at initial recognition.

A financial asset is measured at amortised cost if both of the following conditions are met:

- a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A financial asset is measured at fair value through other comprehensive income (FVOCI) if both of the following conditions are met:

- a) the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A financial asset is measured at fair value through profit or loss (FVPL) unless it is measured at amortised cost or at fair value through other comprehensive income.

All financial assets are recognised at the time when the Company becomes a party to the contractual provisions of the instrument. Financial assets at amortised cost are initially recognised at fair value and are subsequently measured at amortised cost using the effective interest rate method. The amortised cost is reduced by impairment losses, if any. Interest income and impairment losses are recognised in the statement of profit or loss. Financial assets carried at FVOCI are initially and subsequently measured at fair value, with gains and losses arising from changes in fair value recognised in other comprehensive income.

(Amounts in thousand)

Financial assets carried at FVPL are initially recorded at fair value and transaction costs are recognised in the statement of profit or loss. Realised and unrealised gains and losses arising from changes in the fair value of the financial assets held at FVPL are included in the statement of profit or loss in the period in which they arise.

3.5.2 Derecognition

Financial assets are derecognised when the rights to receive cash flows from the assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership. On derecognition of a financial asset, in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in the statement of profit or loss.

3.5.3 Impairment

The Securities and Exchange Commission of Pakistan (SECP) through its SRO No. 985(I) / 2019 dated September 02, 2019 and clarification dated January 23, 2020 had exempted the applicability of expected credit losses (ECL) till June 30, 2022 on financial assets directly due from Government of Pakistan (GoP) or that are ultimately due from GoP, in consequence of circular debt, provided that the Company shall follow relevant requirements of IAS 39 'Financial Instruments: Recognition and Measurement'. On September 15, 2022, the SECP, on the Company's request, extended the exemption of application of ECL model under IFRS 9 till June 30, 2023. Subsequent to the year end, the SECP through its SRO No. 67(I) / 2023 dated January 20, 2023 has further extended the exemption from application of ECL model till December 31, 2024.

Accordingly, amounts due from the Government of Pakistan (GOP) are assessed in accordance with the provisions of IAS 39 at each reporting date to determine whether there is any objective evidence that one or more events have had a negative effect on the estimated future cash flows of these receivables.

For financial assets other than amounts due from GOP, the Company recognises lifetime Expected Credit losses (ECL) when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial assets has not increased significantly since initial recognition, the Company measures the loss allowance for that financial asset at an amount equal to 12-month ECL under IFRS 9.

3.5.4 Financial Liability

The Company recognises a financial liability in its statement of financial position when, and only when, it becomes party to the contractual provisions of the instrument. At initial recognition, the Company measures a financial liability at its fair value minus, in the case of a financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial liability. Subsequently, financial liabilities are stated at amortised cost.

(Amounts in thousand)

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in respective carrying amounts is recognised in the statement profit or loss.

3.5.5 Offsetting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle either on a net basis, or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

3.6 Inventories

These are valued at weighted average cost except for items in transit which are stated at invoice value plus other charges paid thereon till the reporting date. For stores and spares which are slow moving and / or identified as surplus to the Company's requirements, adequate provision is made for any excess book value over estimated residual value.

3.7 Trade debts and other receivables

Trade debts and other receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, in which case they are recognised at fair value. The Company holds trade debts and other receivables with the objective to collect contractual cash flows and, therefore, measures them subsequently at amortised cost using the effective interest rate method. Provision for impairment is recognised as per note 3.5.3.

3.8 Cash and cash equivalents

Cash and cash equivalents in the statement of cash flows comprise cash in hand and in transit, balances with banks on current, deposit and savings accounts, other short-term highly liquid investments with original maturities of three months or less and short-term borrowings other than term finance.

3.9 Share capital

Ordinary shares are classified as equity and recognised at their face value. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(Amounts in thousand)

3.10 Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost, any difference between the proceeds (net of transaction costs) and the redemption value is amortised over the period of the borrowings.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

3.11 Trade and other payables

These are recognised initially at fair value and subsequently measured at amortised cost. Exchange gains and losses arising in respect of liabilities in foreign currency are added to the carrying amount of the respective liabilities.

Trade and other payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business, if longer). If not, they are presented as non-current liabilities.

3.12 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. Provisions are not recognised for future operating losses. Provisions are reviewed at each reporting date and adjusted to reflect current best estimate.

3.13 Leases

The Company recognises leases as a right-of-use asset and corresponding liability at the date at which the leased asset is available for use by the Company, except for the assets under the PPA which are exempted from the applicability of IFRS 16 - 'Leases' (IFRS 16). SECP through its S.R.O. 986 (I) / 2019 dated September 2, 2019 exempted all companies to the extent of the power purchase agreements executed before the effective date of IFRS 16 i.e. January 1, 2019 from the application of requirements of the said standard.

3.14 Taxation

The Company's profits and gains from power generation are exempt from tax under clause 132 of Part I of the Second Schedule to the Income Tax Ordinance, 2001. The Company is also exempt from minimum tax on turnover under clause 11 A of part IV of the Second Schedule to the Income Tax Ordinance, 2001. Accordingly, the Company has not recognized any deferred tax. However, the Company's income from other sources is subject to taxation.

3.15 Retirement and other service benefits obligations

(Amounts in thousand)

3.15.1 Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contribution into a separate entity and has no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in the statement of profit or loss when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

The intermediary holding company - Engro Corporation Limited, operates a defined contribution provident fund and gratuity fund in which the permanent employees of the Company are members. Monthly contributions are made both by the Company and employees to the fund at the rate of 10% of basic salary in case of provident fund and, only by the Company, at the rate of 8.33% of basic salary in case of gratuity fund. Investments out of the funds have been made in accordance with the provisions of section 218 of the Act.

3.16 Foreign currency transactions and translation

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the date of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at period-end exchange rates are recognised in the statement of profit or loss, except as referred to in note 5.1.4.

3.17 Revenue recognition

The Company recognises revenue when the following performance obligations are satisfied:

- Capacity revenue is recognised based on the capacity made available to CPPA; and
- Energy revenue is recognised based on the Net Electrical Output (NEO) delivered to CPPA.

Capacity and Energy revenue is recognised overtime based on the rates determined under the mechanism laid down in the PPA. The Company on or after first business day of each month submits an invoice to CPPA for seventy percent of the estimated available capacity during that month, and thirty percent of the estimated available capacity and energy payment due in respect of previous month. The payment is due 30 days after invoicing.

3.18 Interest on bank deposits and delayed payment income

Interest income on bank deposits and delayed payment income on overdue trade receivables is recognised on accrual basis.

(Amounts in thousand)

3.19 Borrowing costs

Borrowing costs are recognised as an expense in the period in which they are incurred except where such costs are directly attributable to the acquisition, construction or production of a qualifying asset in which case such costs are capitalised as part of the cost of that asset. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent these are regarded as an adjustment to borrowing costs.

3.20 Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, if any.

3.21 Dividend

Dividends are recognised in the financial statements in the period in which these are approved.

3.22 Operating segments

For management purposes, the activities of the Company are organized in one reportable segment that is generation of electricity. This reporting segment is consistent with the internal financial reporting systems.

4. critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. Following are the significant areas where management used estimates and judgements, which are significant to the financial statements:

4.1 Property, plant and equipment and intangible assets

The Company reviews the appropriateness of the rates of depreciation / amortisation, useful lives and residual values used in the calculation of depreciation / amortisation on an annual basis. Further, if any indication exists, the Company makes an estimate of recoverable amount of assets for possible impairment.

15.1 In accordance with the PPA, the Company is required to establish and maintain a separate reserve fund (the Fund) with a depository institution for payment of major maintenance expenses. This represents the amount deposited in the fund with respect to the said requirement. Any interest income resulting from the depository arrangements of the Fund is to remain in the Fund to the extent of any shortfall from the contractual limit.

Under the PPA, 1/24th of the annual operating and maintenance budget of the Power Plant less fuel expenses is required to be deposited into the Fund on each capacity payment date until such reserve equals to nine such deposits. After the second agreement year and thereafter the Fund may be re-established at such other level that the Company and CPPA mutually agree.

In 2012, the Company, due to uncertain cash flows resulting from delayed payments by CPPA has, as per flexibility available under the PPA, reduced the amount deposited in a schedule bank, which has been invested in Treasury Bills having a face value of Rs. 50,000 (2022: Rs. 50,000) as at December 31, 2023 (note 10). Till such time the amount is deposited again to the required level, the Company has unutilised short term financing available to meet any unexpected maintenance requirement that may arise in the foreseeable future.

15.2 This represents amount transferred from unappropriated profit to the fund because the operations and maintenance regime of the plant involves expenditure on equipment and overhaul of the complex on certain intervals that are based on plant operations. An amount covering these cost, calculated based on factored fired hours has been appropriated to maintenance reserve.

32. financial risk management objectives and policies

32.1 Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Company's overall risk management program focuses on having cost efficient funding as well as to manage financial risk to minimise earnings volatility and provide maximum return to shareholders.

Risk management is carried out by the Company's Finance and Planning department under policies approved by the Board of Directors of the Company.

(Amounts in thousand)

a) Market risk

i) Currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risks exists due to the Company's exposure resulting from outstanding import payments and bank deposits maintained in foreign currency accounts. As at reporting date, the Company is not materially exposed to currency risk.

ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's interest rate risk primarily arises from borrowings and interest bearing financial assets such as investments. These are benchmarked to variable rates which expose the Company to cash flow interest rate risk. As at reporting date, the Company is not materially exposed to currency risk.

iii) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from currency risk or interest rate risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors effecting all similar financial instruments traded in the market. As at reporting date, the Company is not materially exposed to other price risk.

b) Credit risk

Credit risk represents the risk of financial loss being caused if counter party fails to discharge an obligation.

Credit risk arises from deposits with banks and financial institutions, trade debts, loans, short-term investments and other receivables. The credit risk on liquid funds is limited because the counter parties are banks with reasonably high credit ratings. The maximum exposure to credit risk is equal to the carrying amount of financial assets. The Company maintains an internal policy to place funds with commercial banks having a minimum short-term credit rating of A1. Trade debts, including delayed payment charges are secured by a sovereign guarantee from the Government of Pakistan. The Company considers that a financial asset is in default when chances of recovery are remote. Financial assets considered irrecoverable are written off.

Due to dynamic nature of the business, the Company maintains flexibility in funding by maintaining committed credit lines available.

The Company's liquidity management involves projecting cash flows and considering the level of liquid assets necessary to meet these, monitoring liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans. All financial liabilities of the Company are payable within one year.

کمپنی ایسے پلانز ترتیب دیتی ہے جن سے ملازمت یارٹائرمنٹ کے بعد کمپنی کے ملازمین کو فوائد حاصل ہوتے ہیں۔ ان میں ڈیفائنڈ کٹری ہیوشن (ڈی سی) گریجویٹ فنڈ اور ڈی سی پروویڈنٹ فنڈ شامل ہیں۔ اینگریو کارپوریشن گریجویٹ فنڈز اور اینگریو کارپوریشن پروویڈنٹ فنڈز حتمی پیرنٹ کمپنی، اینگریو کارپوریشن کی جانب سے ان کے ملازمین، متعلقہ ذیلی اداروں بشمول اینگریو پاور جن قاورپورلیٹڈ کے لیے چلائے جاتے ہیں۔

کمپنی اپنے پلانٹ کے لیے متبادل فیول کے آپشن کو حتمی شکل دینے کے لیے ریگولیشنز اور متعلقہ اسٹیک ہولڈرز کے ساتھ تبادلہ خیال جاری رکھے ہوئے ہے۔

مذکورہ بالا فنڈز ٹیکس اتھارٹیز سے تصدیق ہیں اور کمپنی ایکٹ 2017 کے سیکشن 218 کے تحت ان پر عمل درآمد ہوتی ہے۔

EPQL موثر انداز میں، متبادل مقامی فیول کے آپشنز تلاش کر رہی ہے۔ کمپنی PEL کی جانب سے چلائی جانے والی بدر فیلڈ سے 8-13 mmscf کی فراہمی کے سلسلے میں PEL کے ساتھ مصروف عمل ہے۔ کمپنی نے فیول کے اضافی ذرائع پر لائسنس کی مجوزہ ترمیم اور ٹیرف کے لیے نیچر اکورڈرخواست دی تھی۔ نیچر اتھارٹی نے EPQL کے پیداواری لائسنس میں ترمیم کی منظوری دی ہے جس میں PEL کے ذریعے فراہم کی جانے والی گیس شامل ہے، اور حال ہی میں نیچر کی جانب سے PEL سے فراہم کردہ گیس کے فیول لاگت کمپوننٹ پر فیصلے کا اعلان کیا گیا ہے۔ مزید اس سلسلے میں متعلقہ حکام سے منظوریاں حاصل کی جائیں گی۔

مہنگائی، بجلی کی قیمتوں میں اضافے اور اقتصادی ترقی کی سست روی کے ساتھ میکرو اکنامک چیلنجز کی وجہ سے ملک میں بجلی کی طلب کم رہنے کی توقع ہے۔ اس کے باوجود، EPQL اپنے ہم پلہ پلانٹس کے مقابلے میں سستی بجلی پیدا کرنے کی صلاحیت کو دیکھتے ہوئے، کمپنی کو اندازہ ہے کہ پلانٹ کو بجلی کے خریداروں سے فراہمی کا آرڈر ملتا رہے گا۔

اس وقت، سماجی اور ماحولیاتی اعتبار سے ایک ذمہ دار ادارے کی صورت میں، زندگیوں میں مثبت تبدیلی لانا، معیار زندگی بلند کرنا اور اپنے قریبی آبادیوں میں واضح تبدیلی لانا ہمارا اہم مقصد ہے۔ اینگرو فاؤنڈیشن جو ایک موثر ادارے کے طور پر اینگرو کے تمام برنسز کے سماجی بہبود کے کاموں میں مصروف عمل ہے، اور مختلف آبادیوں میں فلاحی امور انجام دے رہی ہے۔ ہم مختلف کمیونٹیز سے ساتھ کام کرتے ہوئے وہاں کے اصل مسائل اور ان کے حل کی سمجھ بوجھ رکھتے ہیں۔ ان آبادیوں میں ہماری سرمایہ کاری تعلیم، ٹیکنیکل ٹریننگ، مہارتوں کی ترقی اور صحت کی بہتری کے ذریعے انسانی فلاح پر خرچ ہو رہی ہے۔

2023 میں، ہمارے وقف پرائمری ہیلتھ کیئر سینٹر (PHC) نے قریبی دیہات کے لیے ہینڈز کے تعاون سے 11,000 سے زائد مریضوں کو علاج معالجہ کی سہولیات فراہم کیں۔ ادارے نے 40 سے زائد آگے سیشن منعقد کئے جس میں شرکاء کی تعداد 550 سے بھی زائد رہی۔ اینگرو پاور جن قادر پور لمیٹڈ، اینگرو فاؤنڈیشن اور انڈسٹریل ریسورس سینٹر کے تعاون سے ضلع گھوٹکی کے سب سے بڑے ایڈیٹڈ اسکول نیٹ ورک کو چلا رہا ہے۔ اس نیٹ ورک کے ذریعے گھوٹکی کے رشید احمد رائیں، گل محمد عار بانی اور جمعہ خان عار بانی کے نام سے تین سرکاری اسکول چلاتے ہوئے سالانہ 700 سے زائد اسٹوڈنٹس کو تعلیم کے زیور سے آراستہ کیا جا رہا ہے۔ ہم اپنے افراد کے ساتھ اشتراک عمل کا سفر جاری رکھے ہوئے ہیں اور امور کو با مقصد بنانے کے لیے کوشاں ہیں۔

مزید برآں، EPQL کے ہنر پروگرام کے تحت، کوچنگ اکیڈمی اور سلائی سینٹر جیسے دو اقدامات کامیابی کے ساتھ مکمل کئے گئے، کوچنگ اکیڈمی کے تحت، تقریباً 28 لڑکیوں نے ڈپلومہ آف ایسوسی ایٹڈ انجینئرنگ (DAE) میں داخلے کے لیے انٹری ٹیسٹ کی تیاری والی کلاسز میں شرکت کی اور ان تمام نے داخلہ کا امتحان پاس کیا۔ تاہم، 16 لڑکیوں نے DAE (الیکٹریکل) میں داخلہ لیا۔ 16 میں سے، پسماندہ کمیونٹی کی 15 مستحق لڑکیوں کو ٹیکنیکل تعلیم یعنی ٹیکنیکل ٹریننگ کالج (TTC) ڈہرکی میں ایسوسی ایٹڈ انجینئرنگ (الیکٹریکل پروگرام) کا تین سالہ ڈپلومہ حاصل کرنے کے لیے اسکالرشپ کے ذریعے مدد کی گئی۔

دریں اثناء، سلائی کے تربیتی مرکز نے مقامی کمیونٹی کی تقریباً 25 خواتین کو کامیابی سے تربیت دی ہے۔ ان کے 3 ماہ کے تربیتی پروگرام کی تکمیل کے بعد، ہر خاتون کو ایک سلائی مشین فراہم کی گئی ہے، جس سے وہ اپنی خودداری کے ساتھ اپنی روزی روٹی کو محفوظ بنانے کے قابل بن گئیں۔

ہمارے ملازمین

سالہا سال سے ہماری جہد مسلسل کا نتیجہ ہمارے محنت کش اور باصلاحیت ملازمین ہیں جو ہمارا اہم ترین اثاثہ ہیں۔ ملازمین کی شمولیت، پیشہ وارانہ مہارت یافتہ اور با اختیار ہونے کا ماحول ایسا ماحول یقینی بناتے ہیں جس میں ہمارے ملازمین محفوظ، با اختیار اور جدت سے آراستہ رہتے ہیں اور اسی سے ہی پاکستان میں توانائی کا استحکام حاصل کیا جاسکتا ہے۔

ہماری ٹیمیں ایک ایسا ماحول پیدا کرنے کے لیے بھرپور انداز میں کوشاں ہیں جہاں ہمارے ملازمین کی جسمانی اور ذہنی تندرستی کو ترجیح دی جائے۔ اس سال ہماری خصوصی توجہ ایسی سرگرمیوں کو ترتیب دینا تھی جو ہمارے لوگوں کو ان کی جسمانی اور ذہنی تندرستی پر توجہ مرکوز کرنے کے قابل بنائیں۔ لہذا، سال کے دوران ہم نے Sayaa ہیلتھ ویئر نیس سیشن، ورک لائف مینجمنٹ انٹروینشن، اور گیمنگ اینڈ ونچرسوسائٹی کی طرف سے کئی اقدامات اٹھائے۔ ہمارے ملازمین کی پیشہ وارانہ ترقی کے لیے سال کے دوران 1,600 سے زیادہ ٹریننگ آؤٹریچس کئے، جس سے ہماری ٹیموں کی اپنی دلچسپی کے شعبوں میں پیشہ وارانہ ترقی کے لیے لگن ظاہر ہوتی ہے۔

EPQL کی قیادت نے کمپنی کی کارکردگی پر تبادلہ خیال کرنے کے لیے سال بھر مختلف ٹاؤن ہال سیشنز کا انعقاد بھی کیا اور ملازمین کو درپیش چیلنجز کے بارے میں سوچ بوجھ حاصل کرنے کے لیے ہینڈلنگ ٹیکنیکل سیشنز کا انعقاد کیا۔ ہم نے ایکسی لینس ایوارڈز، سپاٹ اور لانگ سروس ایوارڈ تقریب کے ذریعے ملازمین کی کامیابیوں کو سراہا گیا اور ملازمین کی غیر معمولی کارکردگی کی حوصلہ افزائی بھی کی گئی۔

ہماری ایچ آر ٹیم کمپنی کی خواتین ملازمین کے ساتھ بھرپور معاونت کو یقینی بنانے کے لیے ان کے ممکنہ مسائل سے متعلق سیشن منعقد کرائی رہی ہے تاکہ ایک متنوع اور اجتماعیت کی حامل کام کی جگہ بننے کی ہماری کوششیں تکمیل پذیر ہوں۔ اسی کے پیش نظر، ہم نے مقامی علاقوں سے 10 ٹرینی خواتین انجینئرز شامل کیں جو قادر پور پلانٹ پر ٹیکنیکل کردار ادا کرنے والی پہلی مقامی خواتین تھیں۔

کمپنی کی جانب سے سالانہ ایملپوائی انجمنٹ سروے کیا گیا تاکہ 2023 کے دوران ملازمین ورک فورس سے متعلق اطمینان کا معیار معلوم ہو، جس میں کمپنی نے کامیابی کے ساتھ 86 فیصد کا بہتر انجمنٹ انڈیکس برقرار رکھا۔

ہیلتھ، سیفٹی اینڈ انوائرنمنٹ

اینگرو پاور جن قادر پور لمیٹڈ نے اس سال اپنے غیر معمولی حفاظتی ریکارڈ کو جاری رکھتے ہوئے، 27 مارچ 2010 کو اپنے کمرشل آپریشنز کی تاریخ کے بعد سے لگا تار 5,000 دنوں تک بغیر کسی ورک ڈے انجری (LWI) کے حفاظتی سلسلے کو جاری رکھتے ہوئے ایک قابل فخر سنگ میل عبور کیا۔

ہم نہ صرف اپنے ملازمین کی قدر کرتے ہیں بلکہ اپنے کام کے ماحول سے بھی باخبر رہتے ہیں۔ ہماری عمل درآمد اور گورننس کی سرگرمیوں سے یقینی بنایا جاتا ہے کہ اینگرو پاور جن قادر پور لمیٹڈ کی کارروائیاں اور HSE معیارات، بہترین عالمی تجربات کے مطابق ہوتے ہیں۔ اس کے علاوہ ہم نیشنل انوائرنمنٹل کوالٹی اسٹینڈرڈز (NEQS) اور ورلڈ بینک گروپ کی ہدایات کے مطابق 100 فیصد عمل درآمد کو یقینی بناتے ہیں۔ دوران سال، تقریباً 200 ورکرز کی افرادی قوت پر مشتمل ایک بندش یا تعطل (outage) کی سرگرمی بحفاظت انجام پائی۔

کمپنی نے ISO 14001 اور ISO 45001 ریٹنگ کی کامیابی کے ساتھ دوبارہ سرٹیفیکیشن حاصل کی جس سے HSE سے متعلق کمپنی کے عزم کا ثبوت ملتا ہے۔ اپنے ملازمین اور قریبی آبادیوں کے لیے محفوظ اور پاک صاف ماحول کی فراہمی کو یقینی بنانے کی کوششوں نے خطرناک اشیاء کی ہینڈلنگ اور اسٹوریج کے لیے SEPA سے این اوسی حاصل کرنے میں معاونت کی۔

تحفظ سے متعلق ہماری ترجیح ہمیشہ سخت رہی ہے۔ ہماری پروسیس سیفٹی مینجمنٹ (PSM) کا معیار اور پروسیس سیفٹی اینڈ رسک مینجمنٹ (PSRM) سسٹم اس حقیقت سے واضح ہوتا ہے کہ کمپنی نے کام کے دوران صفر نقصان کی شرح کو برقرار رکھا ہے اور آج تک 5,028 گزرے ہوئے دنوں میں 10.5 ملین محفوظ مین آؤرز کا سنگ میل عبور کر لیا گیا ہے۔

2023 کے دوران، ہم نے پلانٹ کے آس پاس علاقوں اور قریبی اسکولوں میں 5,000 سے زائد درخت لگائے ہیں جو ماحول دوستی کے ہمارے عزم کا اظہار اور ہماری HSE کی کوششوں کا ایک لازمی حصہ بھی ہیں۔

ڈائریکٹرز 31 دسمبر 2023 کو ختم ہونے والے سال کے لیے کمپنی کے آڈٹ شدہ مالیاتی گوشواروں اور کمپنی کی کارکردگی کا جائزہ پیش کرتے ہوئے خوشی محسوس کر رہے ہیں۔

مالیاتی گوشوارہ

سال 2023 کے لیے کمپنی کی سیلز آمدنی 13,256 ملین روپے رہی جو پچھلے سال 10,027 ملین روپے تھی۔ کمپنی نے 2022 کے 1,472 ملین روپے کے مقابلے میں 2023 کے دوران 2,511 ملین روپے کا خالص منافع کمایا، جس کے نتیجے میں 2023 کے لیے فی شیئر منافع 7.7 روپے بنتا ہے جو 2022 میں 4.55 روپے فی شیئر تھا۔

اس سال کی ایک اہم بات یہ ہے کہ نیچر اتھارٹی نے پی ای ایل (PEL) کے ذریعے فراہم کی جانے والی گیس کو جزییشن لائسنس میں شامل کرنے کے لیے ترمیم کی منظوری دیدی ہے۔ یہ اینٹروپاور جن قادر پور لمیٹڈ کے لیے متبادل ایندھن کی پہلی باضابطہ منظوری ہے جو مستقبل کے پائیدار آپریشنز کے لیے راہ ہموار کرتی ہے۔ مزید برآں، نیچر ان پی ای ایل سے فراہم کی جانے والی گیس پر ایندھن کی لاگت کے اجزاء کے فیصلے کا بھی اعلان کیا ہے۔

بنیادی مقصد

اینٹروپاور جن قادر پور لمیٹڈ (EPQL) کے قیام کا بنیادی مقصد بجلی کی پیداوار اور اس کی فروخت ہے۔ اس مقصد کے لیے کمپنی نے ضلع گھنگی میں قادر پور کے قریب 217.3 میگا واٹ کا کمبائنڈ سائیکل پاور پلانٹ لگایا اور 27 مارچ 2010 کو اپنے کمرشل آپریشنز کا آغاز کیا۔

اینٹروپاور جن قادر پور (EPQL) پاکستان کی ان ماحول دوست کمپنیوں میں سے ایک ہے جو پریمیٹ گیس (کم BTU اور زیادہ سلفر کے حامل گیس) کو بجلی پیدا کرنے کے لیے استعمال کرتی ہیں۔ EPQL سے قبل پریمیٹ گیس ضائع ہو جاتی تھی۔ 26 اکتوبر 2007 کو دستخط شدہ پاور پریچیز ایگریمنٹ (PPA) کے تحت بجلی نیشنل ٹرانسمیشن اینڈ ڈسٹری بیویشن کمپنی (NTDC) کو منتقل کی جاتی ہے۔ یہ معاہدہ تجارتی سرگرمیوں کے آغاز کی تاریخ سے 25 سال کی مدت کے لیے فعال ہے۔

کمپنی اینٹرو انرجی لمیٹڈ کا ماتحت ادارہ ہے جو پہلے اینٹرو پاور جن لمیٹڈ (EPL) کہلاتا تھا، اینٹرو انرجی لمیٹڈ، کمپنی میں 68.89 فیصد کے ساتھ اکثریتی شیئر ہولڈنگ رکھتی ہے۔ کمپنی کو پاکستان اسٹاک ایکسچینج (PSX) میں 2014 میں شامل کیا گیا۔

مارکیٹ کا جائزہ

اقتصادی سرگرمیوں میں سست روی اور مہنگائی میں اضافے نے 2023 میں بجلی کی طلب کو متاثر کیا نتیجے میں CPPA-G سسٹم میں بجلی کی پیداوار 130 بلین یونٹس کے ساتھ 2023 میں 5 فیصد کم رہی۔ تاہم، EPQL نے اپنے اعلیٰ میرٹ آرڈر پوزیشن کی وجہ سے سال بھر بجلی کی فراہمی جاری رکھی۔ بجلی کی طلب میں اضافہ گزشتہ سالوں کے اضافی اخراجات اور پائپ لائن میں گئی لاگت کو کم کرنے میں بہت معاون رہا۔ مزید برآں، یہ ضروری ہے کہ مجموعی نظام زیادہ موثر ہو اور نقصانات کو کم سے کم کیا جائے۔

گردشی قرضہ توانائی کے مقامی شعبے کے لیے ایک مستقل مسئلہ رہا ہے۔ سرکلر ڈیٹ کے بڑھنے میں T&D کے زیادہ نقصانات، کم ریکوری اور بجلی کی چوری اہم اسباب ہیں۔ مستقل گردشی قرضہ بھی کرنسی کی قدر میں کمی اور اہلیت کی بہتری کے اخراجات میں ہوشربا اضافے کا نتیجہ ہے۔ کمپنی اپنی لیکویڈیٹی پوزیشن کو منظم کرنے کے لیے متعلقہ اسٹیک ہولڈرز کے ساتھ بڑے پیمانے پر مصروف عمل رہتی ہے۔

انتظامی کارکردگی

2023 میں کمپنی کا پلانٹ 100% قابل فروخت بجلی کی موجودگی کے قابل رہا اور پلانٹ سے نیشنل گرڈ کو 41% لوڈ فیکٹر کے ساتھ 870 GWh کا ٹوٹل میٹ الیکٹریکل آؤٹ پٹ فراہم کیا جبکہ گزشتہ سال کا لوڈ فیکٹر میجر انسٹیکیشن کے نتیجے میں بہت کم تھا۔

مالیاتی کارکردگی

زیر جائزہ سال کے لیے سیلز کی آمدنی گزشتہ سال کی اسی مدت کے 10,027 ملین روپے کے مقابلے میں 13,256 ملین روپے رہی۔ سیلز کی آمدنی میں اضافہ زیر جائزہ سال کے دوران بجلی کی فراہمی میں اضافے کے ساتھ ساتھ قیمت فروخت بڑھ جانے سے ہوا۔ نتیجتاً زیر جائزہ مدت کے لیے مجموعی منافع 2,663 ملین روپے کے ساتھ گزشتہ سال کے 1,711 ملین روپے کے مقابلے میں زائد رہا۔

کمپنی نے 2023 کے دوران 2,533 ملین روپے کا خالص منافع کمایا جو 2022 میں 1,472 ملین روپے تھا۔ اس طرح گزشتہ سال کے 4.55 روپے فی شیئر کے مقابلے میں 2023 کے لیے ہر ایک شیئر پر منافع 7.82 روپے بنتا ہے۔

بجلی خریداری طرف زائد المیعاد رقم 31 دسمبر 2023 کو 7.7 بلین روپے بنتی ہے جو کہ 31 دسمبر 2022 کو 8.0 بلین روپے تھی۔ SNGPL کو قابل الادا رقم 31 دسمبر 2023 کے مطابق 1.5 بلین روپے بنتی ہے جو کہ 2022 میں 2.4 بلین روپے تھی۔ کمپنی نے اپنے فنانسز کو منظم کرنے پر توجہ برقرار رکھی ہوئی ہے اور تمام شرائط داروں کو بروقت ادائیگی یقینی بنانے کے لیے کوشاں ہے۔

گیس کی صورتحال

قادر پور گیس فیلڈ سے پریمیٹ گیس کی فراہمی کے لئے کمپنی کا سوئی ناردرن گیس پائپ لائنز لمیٹڈ کے ساتھ گیس سپلائی کا معاہدہ (GSA) ہے۔ قادر پور گیس فیلڈ سے گیس کی سپلائی ختم ہو رہی ہے اور گیس سپلائر کے فراہم کردہ پروفائل کی بنیاد پر، کمپنی نے گیس کی کمی کا مرحلہ قرار دیا ہے اور اس پلانٹ کو کس موڈ میں دستیاب کر دیا ہے۔ چنانچہ پلانٹ گیس اور ہائی اسپنڈ ڈیزل دونوں پر چلایا جا رہا ہے۔ اس کے ساتھ ساتھ کمپنی متعلقہ اسٹیک ہولڈرز کے ساتھ متبادل فیول پلان سے متعلق بھرپور انداز میں مصروف عمل ہے۔ EPQL نے پیٹرولیم ایکسلوریشن لمیٹڈ (PEL) سے بدرگیس فیلڈ کے ذریعے 13-8 کم BTU والی گیس لینے کے لیے کوششیں جاری رکھی ہوئی ہیں۔ دوسری جانب NEPRA اتھارٹی نے EPQL کے لیے PEL سے گیس کی فراہمی سمیت پیداوار لائسنس میں ردوبدل کرنے کی منظوری دی ہے۔ PEL سے فراہم کی جانے والی گیس پر فیول کی لاگت کے متعلق نیچر ان کی جانب سے بھی اعلان کیا گیا ہے۔

سماجی سرمایہ کاری

اینٹروپاور جن قادر پور لمیٹڈ (EPQL) کارپوریٹ گورننس کے معیار کو بہتر بناتے ہوئے سماجی اہلیت کی طویل مدتی ترقی سے ہی بزنس کی ترقی پر یقین رکھتی ہے۔ ہمارے اسٹیک ہولڈرز کا اعتماد ہماری اولین ترجیح ہے، اس لئے ہم با مقصد سرمایہ کاریوں پر یقین رکھتے ہیں۔ ہم ملکی قوانین اور سماجی روایات کے عین مطابق کاروباری دیانتداری پر یقین رکھتے ہیں۔ ہم دیانت دار، شفاف، واضح کاروباری سمت کے ساتھ اپنے اسٹیک ہولڈرز سے بھی اسی عمل کی توقع رکھتے ہیں۔

(d) پراکسی سالانہ اجلاس عام کے وقت اپنا درست اصل قومی شناخت کارڈ یا اصل پاسپورٹ پیش کرے۔

(e) کارپوریٹ ادارے کی صورت میں، بورڈ آف ڈائریکٹرز کی قرارداد/ پاور آف اٹارنی، نامزد شخص کے اسکیس مین کا دستخط، اگر پہلے فراہم نہ کیا گیا ہو تو بمعہ پراکسی فارم کمپنی کو فراہم کرنے ہوں گے۔

7. کمپنیز ریگولیشنز (پوسٹل بیٹ) 2018 کے مطابق، کمپنیز ایکٹ 2017 کے سیکشنز 143 اور 144 کے مطلوبات سے مشروط، ممبران کو اپنے ووٹ کے حق کو استعمال کرنے کے لیے بذریعہ پوسٹل بیٹ ووٹ دینے کی اجازت دی جائے گی، یعنی مذکورہ بالا ریگولیشنز میں درج مطلوبات اور طریقہ کار کے مطابق بذریعہ پوسٹ یا الیکٹرانک ووٹ دینا (الیکٹرانک ووٹ سے ووٹ دینا) شامل ہوگا۔

8. الیکٹرونک ڈیویڈنڈ مینڈیٹ

کمپنیز ایکٹ، 2017 کے سیکشن 242 کے تحت، تمام لسٹڈ کمپنیز کے لیے لازمی ہے کہ وہ اپنے شیئرز ہولڈرز کو الیکٹرانک ووٹ کے ذریعے براہ راست حق دار شیئرز ہولڈرز کے نامزد کردہ بینک اکاؤنٹ میں نقد ڈیویڈنڈ ادا کریں۔

براہ راست اپنے بینک اکاؤنٹ میں ڈیویڈنڈ حاصل کرنے کے لیے فزیکل شیئرز کی صورت میں شیئرز ہولڈرز سے درخواست کی جاتی ہے کہ وہ کمپنی کی ویب سائٹ پر دستیاب نقد ڈیویڈنڈ کے الیکٹرانک کریڈٹ کے لیے شیئرز ہولڈرز انفارمیشن فارم کو پُر کریں اور اسے درست قومی شناختی کارڈ کی کاپی کے ساتھ دستخط شدہ شیئرز رجسٹرار، میسرز فیکو شیئرز رجسٹریشن سروسز (پرائیویٹ) لمیٹڈ کو بھیجیں۔ (اگر پہلے سے فراہم نہیں کی گئیں)۔

سی ڈی سی میں شیئرز ہونے کی صورت میں، الیکٹرانک ڈیویڈنڈ مینڈیٹ فارم براہ راست شیئرز ہولڈرز کے بروکرز/ امیدوار/ سی ڈی سی اکاؤنٹ سروسز کو جمع کروایا جائے گا۔

معلومات کی عدم وصولی کی صورت میں، کمپنی شیئرز ہولڈرز کو ڈیویڈنڈ کی ادائیگی روکنے پر مجبور ہوگی۔

9. اکنم ٹیکس آرڈیننس، 2001 کے پہلے شیڈول کے حصہ III کے ڈویژن I کے ساتھ پڑے گئے سیکشن 150 کی تعمیل میں 'فائلر' اور 'نان فائلر' شیئرز ہولڈرز کے لیے بالترتیب 7.5% اور 15% کی شرح سے

ڈیویڈنڈ آمدنی پر وہ ہولڈنگ ٹیکس کی کوٹنی ہوگی۔ ایک 'فائلر' جو ایک ٹیکس دہندہ ہے جس کا نام ایف بی آر کی طرف سے وقتاً فوقتاً جاری کردہ ایکٹو ٹیکس بیئرز لسٹ (اے ٹی ایل) میں ظاہر ہوتا ہے اور 'نان فائلر' فائلر کے علاوہ کوئی دوسرا شخص ہوتا ہے۔ کمپنی کو فائلرز کے لیے 7.5% ٹیکس وہ ہولڈرز کرنے کے قابل بنانے کے لیے، تمام شیئرز ہولڈرز کو مشورہ دیا جاتا ہے کہ وہ اس بات کو یقینی بنائیں کہ ان کے نام FBR کی ویب سائٹ پر تازہ ترین دستیاب (ATL) میں ظاہر ہوں، بصورت دیگر نان فائلرز کے لیے ان کے کیش ڈیویڈنڈ پر 15% ٹیکس کا ناجائز ڈیویڈنڈ کی آمدنی سے وہ ہولڈنگ ٹیکس کی چھوٹ کی اجازت صرف اس صورت میں دی جائے گی جب درست ٹیکس اسٹیٹی کے سرٹیفکیٹ کی کاپی کتاب بند ہونے کے پہلے دن تک شیئرز رجسٹرار، میسرز فیکو شیئرز رجسٹریشن سروسز (پرائیویٹ) لمیٹڈ کو فراہم کی جائے گی۔

ایف بی آر کے مطابق مشترکہ کھاتوں کی صورت میں وہ ہولڈنگ ٹیکس کا تعین پرنسپل شیئرز ہولڈرز کے فائلر/ نان فائلر اسٹیٹس کے ساتھ ساتھ جو انٹ ہولڈرز کے اسٹیٹس کی بنیاد پر ان کے شیئرز ہولڈنگ کے تناسب کی بنیاد پر کیا جائے گا۔ جو ممبران مشترکہ شیئرز ہولڈرز کے ساتھ شیئرز رکھتے ہیں ان سے درخواست کی جاتی ہے کہ وہ پرنسپل شیئرز ہولڈرز اور جو انٹ ہولڈرز کے شیئرز ہولڈنگ کا تناسب ہمارے شیئرز رجسٹرار، میسرز کو فیکو شیئرز رجسٹریشن سروسز (پرائیویٹ) لمیٹڈ، کو تحریری طور پر فراہم کریں۔ اگر ہمارے رجسٹرار کو مطلوبہ معلومات فراہم نہیں کی گئی تو یہ فرض کیا جائے گا کہ پرنسپل شیئرز ہولڈرز اور جو انٹ ہولڈرز (ز) کے شیئرز برابر تناسب میں ہیں۔

10. زکوٰۃ کی لازمی کوٹنی سے اسٹیٹی کا دعویٰ کرنے کے لیے، شیئرز ہولڈرز سے درخواست کی جاتی ہے کہ وہ NJSP پر زکوٰۃ اعلامیہ فارم CZ-50 کی ایک نوٹری شدہ کاپی شیئرز رجسٹرار، میسرز فیکو شیئرز رجسٹریشن سروسز (پرائیویٹ) لمیٹڈ کو کتاب بند ہونے کے پہلے دن تک جمع کروائیں۔ اگر حصص غیر منقولہ شکل میں رکھے گئے ہیں تو اس طرح کے زکوٰۃ اعلامیہ فارم (CZ-50) کو شیئرز ہولڈرز کے سی ڈی سی اکاؤنٹ میں بذریعہ ان کے شریک/ سرمایہ کار اکاؤنٹ سروسز پر اپ لوڈ کروائیں۔

مزید برآں، غیر مسلم حصص داران کو بھی اپنا پتہ اقرار نامہ (https://famcosrs.com/downloads) پر دستیاب ہے) اگر شیئرز فزیکل سرٹیفکیٹ کی شکل میں ہیں تو کمپنی کے شیئرز رجسٹرار کو یا غیر منقولہ شکل کی صورت میں ہوں تو سی ڈی سی پرائیویٹس/ انویسٹراکاؤنٹ سروسز کے پاس جمع کروانا ہوگا۔

11۔ درست قومی شناختی کارڈ (CNIC) جمع کروانا (لازمی)

ایس ای سی پی کی ہدایات کے مطابق جن شیئرز ہولڈرز کے درست قومی شناختی کارڈز، شیئرز رجسٹرار کے پاس دستیاب نہیں ہیں ان کا ڈیویڈنڈ روکا جاسکتا ہے۔ اس لیے فزیکل شیئرز ہولڈنگ رکھنے والے تمام شیئرز ہولڈرز کو مشورہ دیا جاتا ہے کہ وہ اپنے درست قومی شناختی کارڈ کی فوٹو کاپی فوری طور پر، اگر پہلے سے فراہم نہیں کی گئی ہے تو، شیئرز رجسٹرار، میسرز فیکو شیئرز رجسٹریشن سروسز (پرائیویٹ) لمیٹڈ کو بغیر کسی تاخیر کے جمع کروائیں۔

کمپنیز ایکٹ 2017، کے سیکشن 244 کے پروویژن کے مطابق، کمپنی کی طرف سے جاری کردہ کوئی بھی شیئرز، یا اعلان کردہ ڈیویڈنڈ جو ادائیگی کی تاریخ سے تین سال کی مدت تک غیر دعویہ دار/ غیر ادا شدہ رہ گئے ہیں اور قابل ادا ہیں، انھیں فیڈرل گورنمنٹ کے کریڈٹ اور شیئرز ہولڈرز کے دعوے کو فائل کرنے کے لیے شیئرز ہولڈرز کو جاری کردہ نوٹسز کے بعد سیکورٹیز اینڈ ایکسچینج کمیشن آف پاکستان میں جمع کروایا جائے گا۔ جاری کردہ شیئرز اور کمپنی کی طرف سے اعلان کردہ ڈیویڈنڈ کی تفصیلات جو تین سال سے زائد عرصے سے بتایا نہیں، شیئرز ہولڈرز کو بھیج دی گئی ہیں۔

شیئرز ہولڈرز سے درخواست کی جاتی ہے کہ وہ اس بات کو یقینی بنائیں کہ ان کے غیر دعویہ شدہ ڈیویڈنڈ اور شیئرز کے دعوے فوری طور پر درج کروائیں۔ اگر مقررہ وقت میں کمپنی کے پاس کوئی دعویہ درج نہیں کیا گیا تو، کمپنیز ایکٹ 2017 کے سیکشن (2) 244 کے تحت اخبار میں نوٹس دینے کے بعد غیر دعویہ دار/ غیر ادا شدہ رقم اور حصص وفاقی حکومت کے پاس جمع کروائیے جائیں گے۔

13۔ سی ڈی سی اکاؤنٹ میں فزیکل شیئرز کی تبدیلی

کے سیکشن 72 ایس ای سی پی نے اپنے لیٹر نمبر۔ CSD/ED/Misc/2016-639-640 مورخہ 26 مارچ، 2021، کے ذریعے تمام لسٹڈ کمپنیز کو مشورہ دیا ہے کہ وہ کمپنیز ایکٹ، 2017

("ایکٹ") کی دفعات پر عمل کریں۔ جس کے تحت تمام کمپنیز کے لیے ضروری ہوگا کہ وہ ایکٹ کے نفاذ کے چار سالوں کے اندر فزیکل فارم میں جاری کردہ شیئرز کو بک انٹری فارم میں تبدیل کروائیں۔

جس کے مطابق، فزیکل فوٹیو/ شیئرز سرٹیفکیٹ رکھنے والے کمپنی کے تمام شیئرز ہولڈرز سے درخواست کی جاتی ہے کہ وہ اپنے شیئرز کو فزیکل فارم سے جلد از جلد بک انٹری فارم میں تبدیل کروائیں۔ شیئرز ہولڈرز

اینگرو پاور جن قادر پور لمیٹڈ چیئر مین کا جائزہ

معزز حصص یافتگان،

ایک دہائی سے زائد کی عظمت کے ساتھ، اینگرو پاور جن قادر پور لمیٹڈ مقامی ایندھن کے استعمال سے پاکستان کے توانائی کے شعبے میں ایک اہم کردار ادا کر رہی ہے۔ ہم پورے ملک کی بہتری کی خواہش رکھتے ہیں اسی کے پیش نظر، قدر بڑھانے کی ہماری غیر متزلزل جتو، ہمارے ملازمین، آبادیوں اور ارد گرد کے ماحول کی ترقی کے لیے اہم سرمایہ کاری سے واضح ہوتی ہے۔ جیلنجوں سے نبرد آزما ہونے اور نئے مقاصد کے لیے اپنی بصیرت استعمال کرنے، آپریشنل برتری، تحفظ اور استحکام کے لیے ہماری لگن بے مثال ہے۔

EPQL نے 2023 میں ایک بار پھر ایک قابل تعریف حفاظتی سنگ میل حاصل کیا، جس کی بدولت 2010 میں ہمارے کمرشل آپریشنز شروع ہونے کے بعد سے لگاتار 5,000 دنوں تک بغیر کسی ورک ڈے انجری (LWI) کا سلسلہ برقرار رہا۔ ماحولیاتی ذمہ داری سے متعلق ہماری وابستگی ہمارے کاموں کو مناسب انداز میں چلاتی رہی۔ ISO 14001 اور ISO 45001 ریٹنگوں کی تصدیق صحت، حفاظت اور ماحولیات (HSE) میں اعلیٰ معیاروں کو برقرار رکھنے کی ہماری لگن کی تصدیق کرتی ہے، اس سے یہ بھی ظاہر ہوتا ہے کہ اپنے ملازمین، آبادیوں اور ماحول کی حفاظت پر ہماری توجہ مرکوز ہے۔

آپریشنل کارکردگی کے لحاظ سے، کمپنی نے بین الاقوامی فیول کی بڑھتی ہوئی قیمتوں اور روپے کی قدر میں کمی کے پیش نظر اپنے مقامی ایندھن کی میرٹ آرڈر پر اپنی اعلیٰ درجہ بندی کو برقرار رکھا۔ 2023 نے ہم نے 100% دستیابی کے ساتھ، 870 GWh کے ٹوٹل نیٹ الیکٹریکل آؤٹ پٹ اور 46% کے لوڈ فیکٹر کو برقرار رکھا۔ ہم نے کامیابی کے ساتھ واجبات وصول کئے اور میرٹ آرڈر پر اعلیٰ درجہ بندی کو برقرار رکھا۔

ان پٹ سائیڈ پر، فی الحال EPQL کا قادر پور گیس فیلڈ سے پرمیٹ گیس کی فراہمی کے لیے سوئی ناردرن گیس پائپ لائنز لمیٹڈ (SNGPL) کے ساتھ گیس کی فراہمی کا معاہدہ (GSA) ہے۔ قادر پور فیلڈ سے گیس ختم ہونے پر، کمپنی کی طرف سے گیس کی کمی کے مرحلے کا اعلان کیا گیا ہے اور پلانٹ کو مکس موڈ پر دستیاب قرار دیا جس میں پرمیٹ گیس اور ہائی اسپید ڈیزل (HSD) فیول دونوں استعمال کئے جاتے ہیں۔ کمپنی نے اب PEL کو متبادل ایندھن کے طور پر منظور کرتے ہوئے نمبر اسے ترمیم شدہ جنریشن لائسنس اور نظر ثانی شدہ ٹیرف حاصل کر لیا ہے۔ اگلے مرحلے میں، کمپنی کو مذکورہ گیس سپلائی شروع کرنے سے پہلے کچھ مزید ریگولیٹری منظور یوں اور کنٹریکٹ کے لوازمات کو حتمی شکل دینے کی ضرورت ہے۔

آخر میں، میں EPQL کی انتظامیہ، ملازمین، صارفین، شراکت داروں، اور اسٹیک ہولڈرز کو ان کے بھرپور اعتماد پر تہ دل سے خراج تحسین پیش کرتا ہوں۔ آپ کا بھروسہ، اعتماد اور عزم ہمیں آگے بڑھنے کے قابل بناتا ہے۔ مجموعی کوششوں سے، ہم امید اور استقامت کے اپنے سفر کو جاری رکھتے ہوئے، EPQL اور پاکستان کے لیے 2024 کی خوشحالی میں اپنا حصہ ڈالیں گے۔
