CHAIRMAN'S MESSAGE

In 2023, global economic activities continued at a moderate pace despite facing several challenges. Factors such as geopolitical instability, high commodity prices, climate-related issues and the implementation of restrictive monetary policies in both developed and emerging economies to tackle rising inflation hindered the global economy's recovery.

However, there are positive developments amidst these challenges. The initial inflationary shocks triggered by the rise in energy and food prices are gradually easing and there are signs of an earlier-than-expected recovery in the global economy. As a result, the International Monetary Fund (IMF) has revised its estimate for global GDP growth in 2023 to 3.1%, slightly higher than its previous projection of 3.0%, but lower compared to the 3.5% growth seen in 2022. Additionally, global headline inflation has steadily decreased from its peak of 8.7% in 2022 (annual average) to 6.8% in 2023.

In recent years, there has been a significant shift in the banking industry towards embracing digital technologies. This transition is largely influenced by the changing needs and behaviors of customers and has been further accelerated by the Covid-19 pandemic. Customers now prioritize speed, immediacy and convenience when selecting financial service providers. As a response, the banking sector has been leveraging technological advancements to improve operational efficiency, enhance customer experiences and strengthen information security measures, while promoting financial inclusion. Key drivers of this innovation include Artificial Intelligence (AI), Application Programming Interface (API), Cloud Computing and Distributed Ledger Technology. These technologies play crucial roles in driving forward the digital transformation of banking services.

AI-based technologies, such as machine learning, natural language processing and computer vision can be utilized to develop personalized financial services, improve operational efficiencies and automate back-office processes. AI-driven tools like virtual assistants and chatbots streamline customer interactions with financial institutions, enhancing user experience and minimizing the need for human intervention.

Advanced Machine Learning (ML) algorithms can be utilized to improve credit scoring models by integrating macroeconomic and financial variables. This empowers banks to develop robust and inclusive business models while evaluating credit lending decisions.

Computer vision-enabled tools streamline document analysis, enabling systems to extract information from digital images, videos and other visual inputs. By deploying this technology, banks can progressively automate and integrate their Know Your Customer (KYC) and customer onboarding processes into the existing systems, achieving synchronization across the banking platform.

APIs enable non-banking entities and third-party developers to seamlessly integrate banking platforms with their apps and services while upholding data integrity and privacy

standards. Open banking and APIs support banking-as-a-service (BaaS), enabling financial service providers to reach new customers through intermediary entities. These technologies have broadened access to the financial services by expanding distribution channels, introducing new services products, reducing transaction costs and thereby promoting financial inclusion. Leveraging these new technologies has also empowered financial institutions to increase their revenue streams. Furthermore, it has allowed for deeper customer insights, facilitating personalization of financial services based on individual customer preferences. Blockchain technology, often associated with cryptocurrencies, has advanced highly secure and immutable records of all financial transactions, offering enhanced transparency in transactions. By utilizing blockchain for financial transactions and smart contracts, the need for intermediaries is minimized, enabling peer-to-peer (P2P) payments with the advantage of lower transaction and compliance costs.

Pakistan's economy faced significant challenges both from domestic and external macroeconomic factors, compounded by political unrest and high inflation. These issues contributed to a decline in domestic GDP. However, despite these difficulties, there have been some short-term signs of improvement. The IMF has revised its estimate for negative growth in domestic GDP for FY'23 to -0.2% which is slightly better than previous estimates of -0.5% published in both July and October updates. Persistent high commodity prices and ongoing pressure on the external account have visible impact on the exchange rate and inflation levels. Consequently, annual average inflation rate for FY'23 stood at 29.18%, a significant increase from the 12.15% recorded in FY'22.

Pakistan's Banking Sector remained resilient against macroeconomic and operating challenges and demonstrated a healthy performance. The asset base of the banking sector expanded by 31% by the end of December 31, 2023, reaching Rs. 54,183 billion. This growth trajectory was primarily driven by 41% increase in investments and a 4% rise in advances compared to the previous year. The growth has been further reinforced by a consistent rise in deposits, which increased by 24% over previous year.

Over the last decade, Pakistan's digital payments ecosystem has experienced significant growth particularly during and after the pandemic. There has been a transformative shift from traditional models towards the adoption of advanced technologies. This transition has been facilitated by enabling regulations, increased participation in technology-oriented markets and the introduction of innovative digital products leading to a more progressive financial landscape. During FY'23, digital transactions contributed to 85% of total payments processed by Banks and Microfinance Banks compared to 80% in FY'22. This increase indicates that customers are embracing digital channels for their financial transactions.

The initiatives introduced by State Bank of Pakistan (SBP), including digital onboarding, Raast (instant payment system) and Real-Time Gross Settlement (RTGS), are playing a

CHAIRMAN'S MESSAGE

crucial role in advancing financial inclusion, promoting innovation and offering affordable digital financial services to individuals and businesses.

The industry wide digital transactions achieved a healthy growth of 28.6% by volume and 21.4% by value in FY'23. The number of users for mobile phone banking and internet banking surpassed 16.1 million and 9.6 million, respectively, marking year-on-year growth of 30.2% and 15.1%, during the FY'23.

Financial service providers are swiftly harnessing new technologies to enhance transactional efficiency through process automation. In line with its digital vision, Your Bank is set to expand its fleet of industry-first Cash Recycling ATMs. These ATMs not only facilitate cash withdrawals but also accept cash deposits, instantly sorting, authenticating, and storing deposited currency notes for disbursement to other customers. Additionally, selected ATMs feature a Talking ATM function specifically designed to assist visually impaired customers. To further augment its ATM fleet, Your Bank has introduced Interactive Teller Machines (ITMs) at strategic locations. ITMs represent an innovative banking technology enabling customers to conduct a wide array of teller-related transactions via video conferencing.

Your Bank has systematically implemented the live electronic journal feature for onsite ATMs. This initiative enables the retrieval of electronic journals and transaction images for each ATM, eliminating the need for paper rolls for journals and promoting paperless banking.

To minimize downtime in ATM services, the ATM Monitoring Unit operates 24/7. This commitment has led to maintaining an average ATM uptime of over 96% in the last five years, solidifying Your Bank's position as a leading acquirer in the banking industry.

Robotic process automation (RPA) software replicates rule-based digital tasks typically performed by humans. In the banking industry, RPA is utilized to eliminate time-consuming and repetitive tasks. Enhanced with improved handwriting recognition, natural language processing and other AI technologies, RPA bots have evolved into intelligent process automation tools capable of managing wide range of banking workflows previously handled by humans. Your Bank has implemented RPA for auto fetching of commodity price data from different websites for its price verification system and extraction of statements of account on daily basis from the system.

Your Bank has deployed Cisco ACI to expedite the application deployment lifecycle, facilitate workload migration across multiple frameworks and proactively address emerging risks. It is the industry's foremost secure, open and comprehensive Software-Defined Networking (SDN) solution for data center networks. Additionally, the Bank has upgraded its Enterprise Service Bus (ESB) to the latest version and infrastructure to support digital transformation initiatives. The ESB enables core applications to communicate with each other resulting in lowering the

number of point-to-point connections necessary to allow communication between applications. It has also facilitated the digital businesses by exposing ABL's services to external clients through an Open API platform.

Your Bank's WhatsApp channel presently caters to one million users, and there is a concerted effort to broaden its reach by integrating additional services. These enrichments aim to enhance customer experiences and offer a more convenient platform for banking transactions. Recent notable additions to the WhatsApp menu include:

- 1- Mobile top up
- 2- Withholding tax certificate
- 3- Account statement.

Through continuous improvement of its digital touchpoints and the successful pilot launch of its Point-of-Sale (POS) acquiring business, Your Bank has effectively cultivated an ecosystem that enhances Business to Business (B2B), Business to Person (B2P) and Business to Merchant (B2M) transactions.

The establishment of hybrid/smart branches and onboarding of 1.6 million registered myABL users serve to strengthen the digital ecosystem of Your Bank. This strategic approach has enabled the Bank to improve its Digital vs. Counter Transaction Mix to 81:19 as of December 31, 2023, compared to 74:26 as of December 31, 2022.

Your Bank has demonstrated prudent management of its strong capital position by leveraging consistent growth in low-and-no cost deposits while making reduction in high-cost deposits. This strategy has been complemented by maintaining a superior quality asset base. Notably, the Bank's low infection ratio, high coverage ratio and resilient Capital Adequacy Ratio, reflect positively on its robust risk management framework, continuous enrichment of innovative solutions and well-diversified positioning of earning assets.

Your Bank is committed towards proactive contributions to society. Throughout the year, it has undertaken a series of Corporate Social Responsibility (CSR) initiatives. Emphasizing an agile and professional work environment, the Bank aims to augment gender diversity and uphold principles of equal opportunity. Another key focus is fostering environmental sustainability through green practices and tree plantations. Additionally, Your Bank conducts awareness sessions for customers and obligors, organizes cleanliness drives at public locations and engages in academic and sponsorship activities. These activities demonstrate the Bank's dedication to promoting socially responsible citizenship.

Your Bank's unwavering commitment to providing digitally-led integrated solutions to its customers, supporting the growth of digital ecosystem in the financial sector and promoting environmentally friendly green banking practices as a responsible corporate citizen has received global recognition. The Banker, a world-renowned financial affairs

publication of Financial Times Group, U.K., published since 1926, has awarded Your Bank “Bank of the Year 2023 – Pakistan” accolade for the third consecutive year.

Pakistan’s Credit Rating Agency (PACRA) has re-affirmed Your Bank’s Long Term and Short Term ratings at the highest level of “AAA” (Triple A) and “A1+” (A One plus), respectively. Your Bank has solidified its position as one of the select group of financial institutions in the Country to maintain highest entity credit ratings. This rating reflects, robust capital position, adequate capital buffers to withstand economic and financial shocks and overall financial resilience.

Your Bank’s corporate governance practices undergo annual review by an independent evaluator. VIS Credit Rating Company Limited has maintained Your Bank’s Corporate Governance Rating of ‘CGR-9 ++’. This reaffirms the unwavering commitment of the board and management to maintaining a robust governance framework. The corporate governance framework of Your Bank aims to establish an efficient and strong management structure to effectively translate the Bank’s goals into tangible achievements.

FUTURE OUTLOOK

The global economy is displaying indications of recovery as risks concerning future outlook are gradually diminishing. As a result, the IMF has revised its estimate of global growth at 3.1% in January 2024, marking an increase of 0.2% from the earlier estimate made in October 2023. Furthermore, the IMF has projected a decrease in global inflation to 5.8% in 2024 and 4.4% for 2025.

On the domestic front, improvements in political and macroeconomic conditions are anticipated. The IMF has projected GDP to grow by 2.0% in FY’24 and 3.5% in FY’25. Similarly, SBP has forecasted domestic growth to be around 2-3% in FY’24 with inflation expected to range between 5-7% by the end of FY’25.

Generative AI tools have the potential to significantly enhance customer satisfaction, optimize decision making processes and reduce risks by enabling better monitoring of fraud and risk. With AI backed anti-money laundering and know-your-customer solutions, it becomes feasible to screen new customers more rapidly and accurately. According to McKinsey, Generative AI could contribute an additional US\$ 200 billion to US\$ 340 billion in revenue to the global banking industry through heightened productivity. As we enter 2024, the banking industry finds itself on the brink of a digital revolution, with AI leading the change. Economic uncertainties and evolving digital needs have elevated technology from a peripheral element to

a cornerstone in the strategies of the financial sector. This new era is not just about adopting technology; it is about integrating AI into the core of banking services to establish resilient, innovative and customer-centric financial ecosystems. AI led cybersecurity solutions are poised to revolutionize security measures in several key areas:

1. Boost Security Operations Center (SCO) analysis
2. Breach risk predictions
3. Enhance cybersecurity posture
4. Assets inventory management
5. Prioritize vulnerability remediations
6. Solutions based on Generative AI
7. Accelerate resolution time

Overall, AI-driven cybersecurity solutions hold the promise of strengthening defenses, mitigating risks, and safeguarding the integrity and trust of banking systems in an increasingly digital landscape.

Your Bank’s resilient risk management system will persist in maintaining risk appetite within defined limits, effectively mitigating emerging cybersecurity threats and enhancing data governance.

Your Bank remains dedicated to achieving its vision and creating sustainable value through growth, efficiency and diversity for all stakeholders. With a focus on financial inclusion, low-cost deposit mobilization, high quality advances and enhanced customers’ experience through digitally-led solutions, Your Bank is committed to promoting advancement of digital ecosystem in financial sector. These endeavors reflect Your Bank’s ongoing commitment to innovation, inclusivity, and excellence in serving its customers and contributing to the broader financial community.

On behalf of the Board of Directors, I would like to express my appreciation to the regulatory bodies including State Bank of Pakistan, Securities and Exchange Commission of Pakistan and Federal Board of Revenue for their consistent guidance and assistance. I would also like to commend our esteemed shareholders for having confidence in the Bank’s long-term strategic goals.

Finally, I would like to extend my gratitude to Allied Bank’s management team and over 11,000 Allied Bankers, for their resolute endeavors, unwavering commitment and invaluable contributions in building a resilient and technologically advanced Allied Bank.

CEO'S REVIEW

The global economy experienced a continued slowdown in 2023, amid ongoing uncertainties from geopolitical conflicts, persistent supply chain disruptions from aftershocks of the pandemic and widespread inflationary pressures. Despite these challenges, the global growth outlook has become slightly more balanced, due to the monetary tightening measures undertaken by central banks worldwide and the easing of pandemic-related restrictions. Early indicators suggest a quicker-than-anticipated recovery, with inflationary pressures beginning to ease.

Taking these macroeconomic factors into account, the International Monetary Fund (IMF) estimated global growth at 3.1% for 2023 and 2024. For 2024, the IMF adjusted its global growth projection up from the previous forecast of 2.9% in its October 2023 outlook, marking a 0.2% increase. The IMF also estimates headline inflation for 2023 at 6.8%, a decline from its peak in 2022.

Domestically, the country has faced numerous challenges, including the global economic slowdown, uncertain political climate, high inflation and weakened business confidence. Despite these obstacles, the economy has shown resilience and short-term signs of improvement. According to the IMF estimates, Pakistan's GDP contracted by 0.2% in 2023 which was earlier projected to contract by 0.5%, in both July and October 2023 updates.

Headline inflation reached a multi-decade high in FY23, averaging 29.7% in December 2023 year-on-year, compared to 24.5% in December 2022. Core inflation was recorded at 20.5% in December 2023, slightly lower than its peak of 22.7% in May 2023. Key drivers included flood-related disruptions to agricultural production and supply chains, adjustments in energy tariffs and petroleum prices and the sharp depreciation of the Pak Rupee. In response to the relatively high inflation, the State Bank of Pakistan (SBP) continued to hike the policy rate, increasing it by a cumulative 825 basis points to reach 22.0% in FY23. Subsequently, SBP estimated the GDP of Pakistan at negative 0.2% in FY'23 and kept the projected growth for FY'24 within the range of 2-3%.

Despite the uncertain and challenging operating environment, the Large-Scale Manufacturing (LSM) sector is showing signs of recovery. Key sectors include Food, Beverages, Petroleum Products, Apparel, Leather, Chemicals, Pharmaceuticals, Non-Metallic Mineral Products, Rubber Products, Wood Products, Machinery & Equipment and Football. In November 2023, the LSM index increased by 1.6% on YoY basis as compared to decrease of 4.9% in the same month last year and increased by 3.6% on MoM basis as compared to decrease of 2.2% in October 2023. However, it declined by 0.8% during Jul-Nov FY'24, which is lower as compared to a contraction of 2.3% in Jul-Nov FY'23.

In the Agriculture sector, the credit disbursements reached Rs. 1,105.8 billion during Jul-Dec FY'24 as compared to Rs. 842.4 billion in the previous year, marking an increase by 31.3%. The farm tractor production and sales showed growth of 67.5% and 103.3%, respectively during Jul-Dec FY'24 compared to the same period last year.

In December 2023, Balance of Payments (BoP) demonstrated improvement as exports of goods and services improved by 14.1% on YoY basis and by 5.1% on MoM basis, respectively. Exports remained constantly above US\$ 3.0 billion per month mark since August 2023 due to increase in economic activity and encouraging foreign demand. Similarly, during Jul-Dec FY'24 exports of goods and services stood at US\$ 19.1 billion as against US\$ 18.1 billion, showing 5.3% growth.

Conversely, imports of goods and services decreased by 6.4% in December 2023 to US\$ 5.0 billion, compared to US\$ 5.3 billion in November 2023. Furthermore, imports contracted by 9.8% during Jul-Dec FY'24 to stand at US\$ 30.4 billion, compared to US\$ 33.7 billion in the comparative period last year. This decline in imports alongside an increase in exports have supported in reducing the trade deficit to US\$ 11.4 billion during Jul-Dec FY'24, lower by 27% as compared to US\$ 15.6 billion during Jul-Dec FY'23.

Current account balance turned to surplus in December 2023 to reach at US\$ 404 million as against deficit of US\$ 365 million in December 2022. Current account balance is expected to remain in manageable limit due to primary and secondary income balance.

During Jul-Dec FY'24, workers' remittances fell to US\$ 13.4 billion, a 6.8% decrease from the US\$ 14.4 billion recorded in the same period previous year. However, on a YoY basis, remittances experienced a 13.4% increase in December 2023.

Total Liquid Foreign Exchange Reserves were US\$ 12.7 billion as on December 31, 2023, compared to US\$ 10.8 billion as on December 31, 2022. Whereas Net Reserves with SBP recorded at US\$ 8.2 billion as on December 31, 2023, against US\$ 5.6 billion as on December 31, 2022. Monetary Policy Committee (MPC) is expecting a stable financial position and inflow of FX reserves as the IMF has completed its first review of Pakistan's economic reform program and disbursement of second tranche of around US\$ 700 million has been received under Stand By Arrangement by the IMF.

During Jul-Dec FY'24, total Foreign Investments were US\$ 933.7 million, compared to an outflow of US\$ 393.3 million in the corresponding period last year. Foreign Direct Investment (FDI) showed a significant increase of 35% and reached at US\$ 862.6 million during Jul-Dec FY'24 as compared to inflow of US\$ 640.0 million during Jul-Dec FY'23. Major inflow of FDI originated from China, Hong Kong, UK, Netherland and Switzerland.

Total revenues during Jul-Dec FY'24 grew by 46%, as compared to the same period last year, reaching Rs.6,854.0 billion. This performance is driven by a healthy increase in non-tax collections by 109% and 30% higher tax collection by Federal Board of Revenue (FBR). Despite of encouraging revenue collection in the first six months of FY'24, the expenditure side remained under pressure attributed to higher mark-up payments. Consequently, fiscal deficit has widened to 2.3% of GDP during Jul-Dec FY'24, in comparison with 2.0% of GDP during Jul-Dec FY'23. However, due to contained growth in non-markup spendings, the primary surplus improved by 1.7% of GDP during Jul-Dec FY'24.

Banking Sector Performance

Pakistan's banking industry showed resilience against the multiple headwinds including aftershocks of pandemic, record high inflation, economic slowdown, political unrest in the country and higher tax regime.

Total assets of the industry increased by 31% to record at Rs. 45,183 billion as on December 31, 2023, compared to Rs. 34,530 billion as on December 31, 2022. Key drivers behind growth of assets includes appreciation in Cash and Balances with Treasury Banks by 84%, Other Assets by 56%, whereas Investments increased by 41% to stand at Rs. 2,789 billion, Rs. 2,261 billion and Rs. 25,280 billion respectively.

Banking industry faced challenges in expanding loan portfolio of quality advances due to high probability of delinquencies in

loan portfolio on account of higher interest rates and economic slowdown. Moderate growth in loans has been observed during the year. Total Gross advances increased by 4% and stood at Rs. 12,352 billion as on December 31, 2023 as compared to Rs. 11,913 billion as on December 31, 2022. Likewise, total net advances of the banking industry also increased by 4% to Rs. 11,625 billion as on December 31, 2023, compared to Rs. 11,225 billion as on December 31, 2022. Whereas, infection ratio increased to 7.6% as on December 2023, against 7.3% as on December 2022. However, Coverage ratio of the banking industry reached at 92.7% as on December 2023 as compared to 89.5% in December 2022.

On the liability side, total deposits of the industry were Rs. 27,841 billion as on December 31, 2023, against Rs. 22,467 billion in the corresponding period last year, showing an increase by 24%.

Business Performance

During this challenging year, Your Bank has efficiently optimized its high-quality balance sheet with moderate growth whereas posted significant increase in net profits.

Well framed strategic priorities of Your Bank are displayed in key business activities of lending, mobilizing low-and-no-cost deposits, prudent investing and transactional banking. Resultantly, asset base of Your Bank increased by 3%, to reach at Rs. 2,329,317 million as on December 31, 2023, compared to Rs. 2,250,973 million as on December 31, 2022.

In high interest scenario coupled with other economic uncertainties, Your Bank continued with a prudent approach in deploying funds. Your Bank's net investments increased by 2% and were recorded at Rs. 1,150,318 million as on December 31, 2023, compared to Rs. 1,123,117 million as on December 31, 2022.

During the year under review, Your Bank's gross advances portfolio was optimized, reaching Rs. 794,138 million, a decrease of 7% from Rs. 857,488 million as of December 31, 2022. Meanwhile, net advances amounted to Rs. 781,597 million as of December 31, 2023, representing an 8% reduction compared to Rs. 845,640 million as of December 31, 2022.

Reflecting the quality of its advances portfolio and effective risk management practices, Your Bank has one of the industry's lowest infection ratios. As of December 31, 2023, the Bank's Infection Ratio was recorded at 1.64%. Additionally, the Bank improved its Coverage Ratio to 96.2% by the end of 2023, compared to 90.4% at the end of the previous year.

Driven by customer acquisition drives and marketing campaigns, deposit base of Your Bank increased by 10% to stand at Rs.1,676,623 million as on December 31, 2023, against Rs. 1,522,297 million as on December 31, 2022. Focusing on low-and-no cost deposits, Current Account Saving Account (CASA) mix of Your Bank rose to 85% of total deposits as on December 31, 2023 as against 79% on December 31, 2022.

Total equity of the Bank increased by 52% to stand at Rs. 194 billion as on December 31, 2023, compared to Rs. 128 billion as on December 31, 2022.

Positive growth in average earning assets, improved spreads, and effective investment duration management resulted in healthy growth of 66% in markup income of Your Bank which stood at Rs. 357,307 million for the year ended December 31, 2023.

On the other hand, despite of higher deposit rates owing to average 751 basis points rise in policy rate during the year,

increase in markup expense of Your Bank was restricted to 64% while total markup expense remained at Rs. 244,028 million. Consequently, net interest income (NII) increased by 70% to record at Rs. 113,279 million for the year ended December 31, 2023 as compared with 66,719 million last year.

Non markup income of Your Bank witnessed a healthy growth of 18% during the year under review mainly due to higher fee income, foreign exchange earnings, and dividend income, though partially offset by a reduction in capital gains.

Your Bank upgraded its digital as well as conventional products range which complemented the 31% increase in fee income to stand at Rs. 10,641 million during the year 2023, compared to Rs. 8,147 million during the year 2022. Foreign exchange income saw a rise of 15% resulting from favorable movement in swap curves.

Your Bank's dividend income enhanced by 15% to stand at Rs.3,543 million for the year ended December 31, 2023, against Rs. 3,088 million for the year ended December 31, 2022.

Being fully aware of latest technological transformation in banking sector, Your Bank is prudently investing in its digital ecosystem and along with expansion in the branch outreach. These initiatives coupled with higher inflation and depreciation in US/PKR parity contributed to increase in operating expenses. However, owing to benefits of process automation and enforcing internal controls, the Banks successfully managed to keep rise of expenses in check and restricted the increase to 18%. Operating expenses were recorded at Rs. 46,985 million for the year ended December 31, 2023, compared to Rs. 39,699 million in the previous year.

Notable growth in revenues from both markup and non-markup streams and lower side increase in operating expenses led the Bank to register a pre-tax profit of Rs. 85,757 million for the year ended December 31, 2023 reflecting an 84% increase over previous year's pre-tax profit of Rs. 46,626 million.

Federal Board of Revenue vide SRO No. 1588(I)/2023 dated 21.11.2023 levied an additional tax on Foreign Exchange Income classifying it as windfall income for Tax Year 2022 and 2023 (Income Year 2021 and 2022). Consequently, tax charge for the year increased to Rs. 45,074 million which included the aforesaid tax of Rs. 2,955 million on foreign exchange income, while effective tax rate hiked up to 52.56%.

Profit after tax stood at Rs. 40,683 million for the year ended December 31, 2023 as against Rs. 21,194 million during previous year, denoting a remarkable growth of 92%. EPS of Your Bank was recorded at Rs. 35.53 for the year ended December 31, 2023 as against Rs. 18.51 for the year ended December 31, 2022. The Return on Assets (RoA) and Return on Equity (RoE) stood at 1.8% and 29.4%, respectively, on December 31, 2023. Furthermore, Your Bank's Capital Adequacy Ratio (CAR) was 26.21%, significantly exceeding the regulatory minimum of 11.5%, indicating ABL's strong capital base.

Digital Banking Initiatives

The banking sector is going through a notable transformation towards digitalization primarily driven by the dynamic and evolving demands of clientele which had been further accelerated by the Covid-19 pandemic. Consumer preferences for expediency, immediacy and convenience in their selection of financial service providers play a key role. Consequently, the banking industry has increased its focus on technological advancements to reinforce operational efficiency, fortify information security protocols and elevate the quality of customer experience.

Your Bank has achieved a significant milestone with over 1.6 million myABL user registrations, indicating its dedication to offering modern and user-friendly banking solutions to the customers. The Bank expanded its range of financial services provided through myABL Digital Banking Platforms. Your Bank introduced a feature that enables customers to update the expiry of their Computerized National Identity Card (CNIC) through the myABL web or mobile application. This eliminates the need for branch visits or email submissions of scanned documents.

Moreover, the Bank's WhatsApp Banking service, with one million registered users, offers convenient features like account inquiries, IBAN generation and financial transaction capabilities like mobile balance top-ups. Additionally, the Bank has launched services like the withholding tax certificate, available in PIN-protected PDF format for specific periods and account statement service for accessing details through WhatsApp.

A significant aspect of ABL's strategic growth has been its active engagement in the expansion of the RAAST payment system. This has resulted in a substantial increase in transaction numbers, reaching 7.5 million with a total transaction volume of Rs. 7 billion. Furthermore, ABL extended its "Payday Advance Salary" loan program to over 100 companies, resulting in disbursement of around 10,000 loans accumulating to Rs. 214 million, demonstrating ABL's commitment to enabling the individuals to manage their financial needs effectively.

By 2023, ABL has expanded digital branches to 14 alongside plans to launch four "Lifestyle Digital Lounges" in major shopping malls across Lahore, Karachi, and Islamabad. These branches and lounges, equipped with state-of-the-art digital facilities like Cash Recycling Machines, Interactive Teller Machines, Cash and Cheque Deposit Machines, Self-Service Kiosks, and Instant Debit Card Printers, offer customers efficient, queue-free transactions and 24/7 access to technology. This shift signifies ABL's commitment to modernizing the banking dynamics.

Further, Your Bank has forged a strategic partnership with Telenor Pakistan to capitalize on the critical role of data in strategic decision-making. This collaboration focuses on using data to enhance decision-making processes, leveraging data variables to identify local trends and patterns. The insights gained are applied in areas such as White Space Analysis, Branch Optimization, Digital Marketing based on Customer Persona, Digital Product Development and Cross Selling. This partnership enables Allied Bank to utilize data-driven insights for refining its strategies and operations, ensuring a more informed and effective approach in its business endeavors.

Over the past year, there has been a significant increase in customer interactions on social media and messaging platforms. In response, Allied Bank is transitioning to Sprinklr's Unified-CXM platform to enhance the effectiveness, humanization, and personalization of communication on its digital channels. Sprinklr's sophisticated AI-driven software is specifically designed to transform Allied Bank's social media and digital customer interactions, offering valuable insights into customer behaviors and preferences.

To realize a cohesive campaign management strategy, Allied Bank has integrated dEngage for its Customer-Driven

Campaigns Management Solution. This integration is intended to efficiently manage diverse channels, including Email, SMS, Web Push, and App Push.

It was a notably successful year for Allied Bank for its 'Card and Acquiring' services, marked by several key advancements and technological upgrades. A prime development was the successful pilot launched of ABL's Point-of-Sale (POS) Acquiring business with deployment of cutting-edge POS machines in major cities of Pakistan to facilitate digital payment acceptance from customers with a vision to drive digital payment adoption in Pakistan.

Another key development was the acquisition and integration of new Card Production Machines equipped with UV Cured Graphic Printing Technology, coupled with the modernization of existing equipment. This technology offers multiple benefits, including a print life of 5-7 years, a variety of personalization colors, flexible card design options, expanded branding space and a 30% faster printing speed compared to traditional embossing methods. In 2023, ABL achieved a significant milestone by producing and dispatching over 1.2 million Debit Cards.

Further enhancing its banking services, Allied Bank has launched ABL Foreign Currency Visa Debit Card for Roshan Digital (RDA) and Foreign Currency GBP and Euro Account holders. The Bank also introduced a 'Foreign Currency Debit Card' catering to the needs of IT Exporters and Freelancers, thus, underscoring Allied Bank's dedication to support policies and initiatives that accelerate growth and success of Pakistan's IT industry.

Your Bank presented 'Digital Freelancer Account' and 'Foreign Currency Debit Card' on Export Retention Account in a session organized by Ministry of Information Technology and Telecommunication and Pakistan Software Export Board in collaboration with SBP and Pakistan Software Houses Association (P@SHA).

In line with regulatory compliance, an automated solution for a 30K cross-border transaction limit was implemented. Moreover, the enablement of 3D Secure on UnionPay PayPak Cobadge Debit Cards significantly enhanced e-commerce transaction security.

Allied Bank implemented a series of pivotal initiatives and technological enhancements in its ATM services, demonstrating a strong commitment to improving customer experience and operational efficiency. Allied Bank implemented the advanced ATM

Monitoring Solution, Vynamic View, for its Diebold Nixdorf (DN) ATMs to improve the monitoring and efficiency. Further enhancing its commitment to operational efficiency and environmental sustainability, ABL plans to execute the EJ paper cutover phase across all DN ATMs in 2024, aiming to significantly reduce paper usage and associated costs.

Allied Bank reached a significant milestone in fostering inclusivity through the successful implementation of the Talking ATM feature in selected ATMs, specifically designed to aid visually impaired customers. Adding this feature represents ABL's dedication to creating an inclusive banking environment for all. Your Bank initiated 24/7 ATM Monitoring Unit shift operations, enhancing ATM availability and increasing customer footfall. Allied Bank has commendably sustained an average ATM uptime exceeding 96% over the past five years. This accomplishment highlights ABL's commitment to ensuring optimal ATM availability and reaffirms its position as a leading acquirer in the ATM industry.

Green Banking and Environment Protection

The Green Banking has remained integral part of the Bank's long-term strategy. Within its Green Banking Policy, Your Bank, with view to augment environmental safety directed its financing towards environment friendly projects and activities within the country. In the year 2023, Your Bank has financed Rs. 880 million to its obligors for installation of Green Energy projects. The total outstanding Green Financing of the Bank, primarily including wind, solar and hydel power and solid waste management projects, stood at Rs. 11.54 billion as on December 31, 2023.

Oversight of this initiative falls under the purview of the Green Banking Office (GBO) and is monitored through the Environmental Risk Management System (EnvRM). The Bank's credit portfolio is assessed on purpose build Environmental Risk Rating (ERR) model to ensure that Bank's financing is Green. Moreover, Environmental Improvement Plans (EIPs) are obtained from obligors, where required. GBO continuously endeavors to enhance capacity building of the staff, and accordingly, total of 819 staff members were trained/sensitized related to Green Banking during the year 2023.

As a part to reduce carbon emission by direct operational impact, your Bank has been investing in installation of solar panels. Resultantly, total internal solar power generation capacity of

the Bank has increased to 622 KW installed at 69 locations. By maintaining a commitment towards process automation, Your Bank has successfully decreased its reliance on paper-based procedures. This reduction in paper consumption has not only lowered the Bank's carbon footprint but also bolstered the efficiency of customer services. Furthermore, administrative initiatives have yielded a notable 4% decrease in electricity consumption, 17% decrease in generator's fuel and 3% decrease in paper consumption in the year 2023.

While continuing the legacy of high value Green CSR contributions, your Bank has achieved various mile stones in Building a Clean and Green Pakistan. Your Bank has conducted various tree plantation campaigns in line with national drive for 'Clean and Green Pakistan 'and has planted 100,293 plants in CY 2023.

A sustainable Olive Tree Plantation has been started in the vicinity of the Babri Banda village, Kohat. Your Bank donated for the olive tree plantation project which includes Establishment of 36 acres orchard, Olive Tree plantation on 15 acres, Installation of Drip Irrigation System, Solar Ground Water Extraction, Construction of Overhead Water Tank and Construction of Loose stones Check Dam.

In a Clean Waste Management drive, the Bank provided two Auto Rickshaw Loaders to community of village Babri Banda, Kohat for efficient and clean waste disposal.

In addition, three cleaning activities were conducted by team ABL at Deosai National Park, Gilgit Baltistan, Sea View Beach, Karachi and Lahore Forte where the non-disposable/ environment hazardous waste was handpicked by ABL staff, local authorities and general public.

Ozone-Safe Business Practices at ABL Premises

Allied Bank continues to invest in renewable energy and energy efficiency projects to lower our carbon footprint. Following are the green initiatives, which played a pivotal role towards mitigating environmental challenges;

- Extensive use of in-house developed Workflow Automation System (WAS) for approval purposes, replacing paper-based approvals.

- Continued upgradation in Human Resource Management System to Oracle- HRMS providing paperless management of multiple HR related processes.
- Increased usage of In-house Innovation Lab serving as an incubation center to ensure constant technological developments.
- Issuance of SWIFT Based Guarantees – a quick and secure mode of transmission, eliminating manual verification, mitigation of fraud/forgery risk and cost effective in terms of paper, printing and handling.
- Online LG verification is implemented; customers can now verify ABL issued Guarantees online through ABL Website. It will improve Verification TAT, printing & courier cost, mitigation of forgery risk and a step towards paperless environment.
- Discontinuation of ATM Journal Paper Roll on 516 ATMs to augment paperless banking practices, digitalization and cost reduction measures.

Service Excellence Measures

Service Quality is a strategic priority of Allied Bank to achieve high customer satisfaction to earn retention and loyalty of its customers. By focusing on outstanding service quality practices, Your Bank continue to bring innovation in banking services for its valued customers. These include responding to customers' needs in a courteous and timely manner while interacting with them through face-to-face interactions, on telephone, and through other communication mediums.

Your Bank continuously strives to achieve excellence in customer service by understanding their needs, continually bringing improvement in delivery of services, and consistently surpassing the expectations of customers. Service Quality and Complaint Management (SQ&CM) in line with the organizational goals, remains committed to nurture a service culture across the organization.

As part of the Bank's commitment to achieve excellence in service, Your Bank has introduced flagship top 100 branches to set a new benchmark of customer service by creating a pleasant ambiance for customers, developing the skills of human resources designated at these branches and providing self-service digital banking facilities.

Allied Bank maintains customer trust by striving to deliver fair outcomes for them and redressal of customer grievances in a timely manner. Your Bank has a centralized Complaint Management Division in place, efficiently and effectively resolving customers' grievances and fostering a cordial relationship between the Bank and its customers/stakeholders through effective collaboration with all segments of Your Bank.

Allied Bank implemented a customer-focused Enterprise CRM solution, 'Customer 360', offering a holistic view of customer interactions across all channels. The CRM's unified complaint management system enhances customer satisfaction by streamlining resolutions across various channels, including phone banking, online platforms, and physical branches. Additionally, its integrated CRM Campaign Management optimizes customer engagement and marketing efficiency. Additionally, the CRM's centralized functionality significantly improves sales cycle management, from lead generation to finalization, thereby bolstering Allied Bank's sales strategies and growth potential.

Moreover, customers can lodge their complaints using self-service kiosks and digital signages installed at branches. The lodged complaints are automatically routed to Complaint Management Division, which acknowledges receipt of complaints to the customers, and keeps them informed throughout the complaint resolution process.

With the aim to create awareness among customers about the Bank's complaint lodgment process and available channels, information is disseminated through corporate website, myABL Digital Banking app, SMS, digital signages, and ATMs. During the year 2023, 80,959 complaints were registered and Your Bank achieved 98% resolution rate with an improved average turnaround time of 8.8 working days for resolution of customer complaints.

Allied Bank is committed to enhancing the digital customer experience through the application of advanced analytics and business intelligence (BI) tools. Allied Bank employs both predictive and real-time analytics to anticipate and respond to customer needs effectively, ensuring the delivery of tailored solutions, immediate support, and personalized customer experience. These insights are instrumental in making data-driven decisions that focus on enhancing customer satisfaction and shaping competitive strategies.

To optimize customer service, Allied Phone Banking now registers complaints through chat and social media, aiming for efficient resolution and enhanced customer experiences. Innovations in Interactive Voice Recording (IVR) system, including features like Temporary Debit and Credit Card Blocking and Account Debit Block, empower customers with self-service options, promoting efficiency. Additionally, newly introduced Call Back and Web Call Back features address customer preferences for immediate or scheduled callbacks, enhancing service accessibility. In 2023, Allied Phone Banking achieved a service remarkable level above 95%, denoting excellent efficiency and customer satisfaction.

Risk Management, Compliance and Controls

Risk Management Group (RMG) is continuously striving towards management of risk through an augmented framework of sound risk principles, reinforced by optimum organizational structure, robust risk assessment models and effective monitoring systems in an automated environment.

CEO'S REVIEW

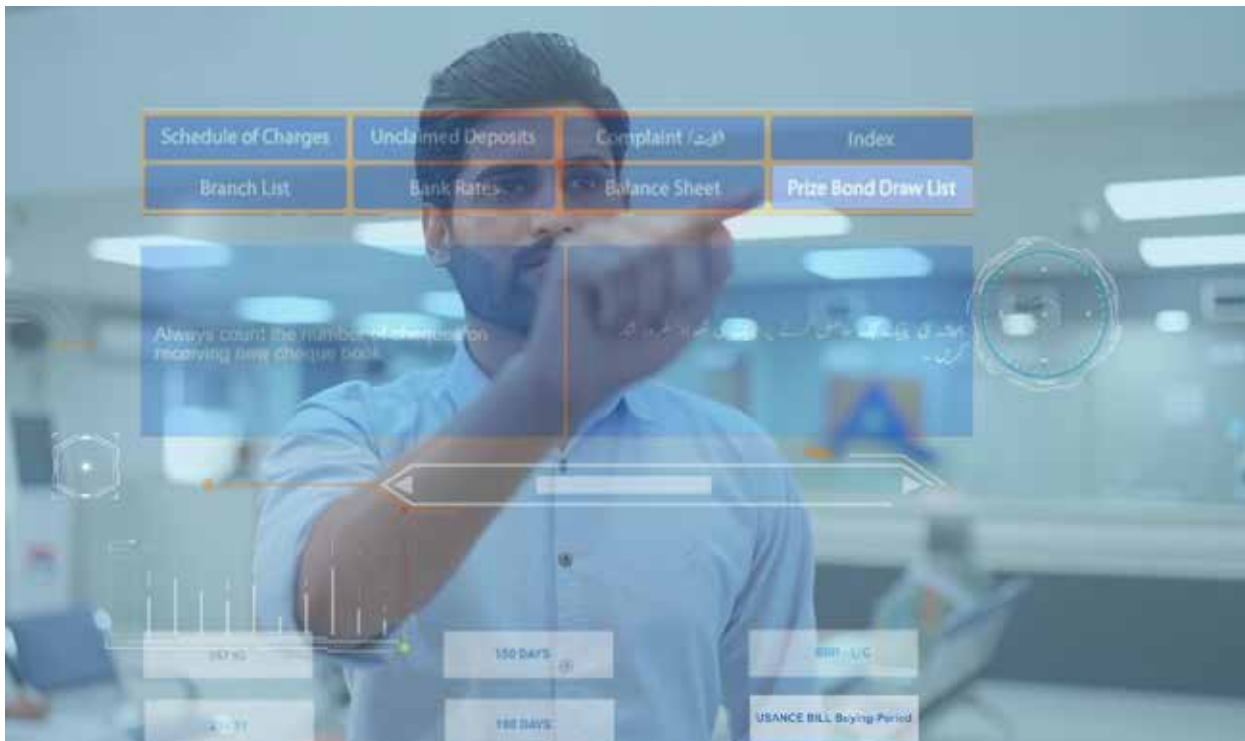

Dedicated functions in Risk Management include:

- Corporate and Financial Institutions Risk;
- Commercial, SME and Consumer Risk;
- Credit Administration and Monitoring;
- Technical Appraisal;
- Information Security & Governance and
- Enterprise Risk.

These functions operate cohesively to continuously augment the risk monitoring and assessment architecture, ensuring superior quality of asset portfolio while keeping the aggregate risks well within the Bank's overall risk acceptance criteria.

During 2023, Risk Management continued to refine and innovate its Risk Management practices through use of latest technology and took following key initiatives to further strengthen risk monitoring and assessment processes:

Various Information Security Awareness campaigns including "Fraud" awareness were conducted for our valued customers. A Cloud based E-Learning platform is also in place for training of

team members to educate and enhance awareness about latest Cyber security threats and trends.

Information Technology

Your Bank has consistently made remarkable strides in serving its customers by leveraging state-of-the-art technology and expanding its digital presence. This commitment ensures that customers have access to a comprehensive range of "digital and networked banking services" on the go.

ABL has upgraded its Enterprise Service Bus (ESB) to the latest version, accompanied by an enhanced infrastructure to reduce the need for numerous point-to-point connections traditionally required for inter-application communication. The upgraded ESB is playing a pivotal role in facilitating digital business by enabling the exposure of services to external clients through an Open API platform.

The Digital Lending Platform has introduced a groundbreaking offering – Merchant Lending, representing a significant advancement in micro-lending through digital channels. This achievement is particularly noteworthy as it aligns with the implementation of ICF5 (Innovation Challenge Fund), marking a milestone in fostering innovation within the lending landscape.

In a commitment to providing an enhanced user experience, myABL has introduced a completely revamped user interface (UI) for its mobile app customers, available on both Android and iOS platforms. The new UI layout is designed based on the latest usability conveniences and aligns with current market trends. Moreover, myABL is set to introduce Tap & Pay NFC (Near Field Communication) transactions in collaboration with UPI (Union Pay International), offering customers a convenient and secure payment option.

In its ambitious journey toward digital transformation, ABL has adopted a proactive stance by integrating Robotics Process Automation (RPA) in automating the centralization of cheque clearing through RPA and implementing the core banking password reset feature, offering users a secure and convenient solution. Moreover, ABL has successfully applied RPA in trade finance price benchmarking and the generation of customer account statements, contributing to enhanced accuracy and timeliness.

ABL has implemented a state-of-the-art telephony solution, Genesys, introducing a range of self-service functionalities for customers. Among the frequently utilized options are balance inquiries, card activations, temporary card blockings, and retrievals of myABL User IDs. Furthermore, myABL is seamlessly integrated with the Genesys Robocall module. This integration allows customers to authenticate requested package activations by providing consents through computerized autodialed calls broadcasted to them.

Credit and Corporate Governance Ratings

Entity Ratings

Your Bank's sustainable and robust financial position, capable of absorbing foreseeable economic cycles, one-off shocks and proficient enough to deliver stable results culminated into Pakistan Credit Rating Agency Limited (PACRA) maintaining the highest long term and short-term entity credit ratings of AAA (Triple A) and A1+ (A One Plus) respectively, reflecting very high credit quality of the organization.

Corporate Governance Rating

Your Bank's corporate governance aims to instill effective and prudent management to deliver sustainable long-term value. Therefore, Your Bank on yearly basis has its corporate governance practices reviewed by an independent evaluator. VIS Credit Rating Company Limited re-affirmed Your Bank's Corporate Governance Rating of 'CGR- 9++'. This Rating indicates a 'high level of corporate governance; thus, depicting a strong commitment towards governance framework by the Board and management of Your Bank.

International Rating

Moody's Investors Service downgraded Your Bank's deposit rating from Caa1 to Caa3 (Domestic and Foreign) in 2023, with stable outlook in line with the sovereign rating. This reflects ABL's stable local currency funding and liquidity and resilient earnings-generating capacity that partly mitigate macro and sovereign driven risks.

Future Outlook

Global economic growth outlook is improving at slow but earlier than expected pace. Recovery from disruption caused by the pandemic, effect of geopolitical conflicts and inflationary pressure giving rise to cost of living are now subsiding as the result of counter measures adopted by most economies in the world. The IMF has adjusted global growth projection at 3.1% and 3.2% for 2024 and 2025 respectively, however, it is still below the historical (2000-19) average of 3.8%.

Advanced economies are expected to see slight decline in growth from 1.6% in 2023 to 1.5% in 2024 before rising to 1.8% in 2025. Emerging market and developing economies are expected to experience growth of 4.1% in 2024 and 4.2% in 2025.

Tight monetary policy stance with elevated policy rates adopted by most of the central banks to pacify the inflation is resulting in lowering down the inflation from its peak gradually. Global headline inflation is expected to fall to 5.8 % in 2024 and to 4.4% in 2025, as estimated by the IMF in the recent World Economic Outlook.

Annual average oil prices are projected to fall by 2.3% in 2024 whereas nonfuel commodity prices are expected to fall by 0.9% as estimated by the IMF. Based on assumptions that fuel and non-fuel commodity prices will decline in 2024 and 2025 with interest rates declining gradually in major economies, the IMF has projected the world trade growth at 3.3% in 2024 and 3.6% in 2025, however, lower than historic average of 4.9%.

On domestic front, the economy is anticipated to be on path of recovery as the result of expected improvements in macroeconomic conditions and political stability. Increased

economic activity, reduction in international oil prices, improved availability of agricultural produce and better business confidence will remain key factors in elevating GDP growth projections. SBP has projected domestic growth around 2-3% in FY'24 and inflation at 5-7% by the end of FY'25 whereas IMF has projected Pakistan's GDP to grow by 2.0% in FY'24 and 3.5% in FY'25.

Inflation outlook in Pakistan is expected at moderate level gradually on account of stable exchange rate, confined aggregate demand, improved supply position and contained international prices. SBP projected that average inflation will fall in the range of 23-25% in FY'24 and continue to trend down in FY'25. SBP expects to achieve the inflation target of 5-7% by September 2025 on the back of its continuous tight monetary policy stance, along with fiscal consolidation and timely realization of planned external inflows.

Recognizing the challenges for economy of Pakistan, Your Bank shall continue to take pragmatic measures to ensure effective risk management of the Bank's assets through investments in technology and human resource development.

Your Bank continues its endeavors in achieving its vision and creating sustainable value through growth, efficiency and diversity for all stakeholders. The Bank is focused towards financial inclusion, low-cost deposit mobilization, high quality advances, enhanced customers' experience through digitally-led solutions and promoting advancement of digital eco-system in financial sector.

The Banking industry is going through a transition phase as digital banking gains traction and commercial banks are faced with challenges in adopting new technology to better serve the ever-changing needs of tech-savvy customers. Although, high quality assets and strong profits have strengthened banking sector's books, the magnitude of challenges is equally significant due to higher inflationary environment, increasing regulatory compliance, costs incurred on technological advancement and implications from higher taxation.

Digitalization and automation in Islamic Banking Group has remained an important part of the overall strategy during the year which is evident from the deployment of Allied Aitebar Khanum

CEO'S REVIEW

Account on myPDA for Digital Account Opening Channel. Further, ABL Aitebar Islamic Banking introduced Allied Aitebar Salary Management Account through Bulk Account opening functionality. ABL Aitebar Islamic Banking envisions to provide a full spectrum of Shariah-compliant services products in the competitive Islamic banking sector while maintaining operational effectiveness and top-notch customer care.

The integration of generative AI and Large Language Models (LLM) will be crucial in delivering world-class customer service and comprehending their evolving needs. In the sphere of digital marketing, the Bank's strategy is to recalibrate its approach, targeting customers based on their personas across all social media platforms.

Allied Bank holds the pioneer status in the industry in launching Allied Freelancer Conventional Account. Keeping in view, the diversified nature of freelancing opportunities, Allied Bank has introduced exclusive Allied Freelancer Digital Account which can be opened digitally through Allied Bank corporate website and can be maintained in both Local Currency as well as in Foreign Currency in saving account or current account categories.

Your Bank's evolving strategy of adaptiveness in lending, exposure to high quality assets, and a solid clientele consisting of top-tier and blue-chip corporates actively contributes to your Bank's sustainable growth. Moreover, accelerated efforts are being made to further strengthen Your Bank's global tie-ups network and enhance remittance flows through digital channels.

Moreover, Your Bank aims to focus at banking on equality and enhancing the scope of female centric products by offering Khanum lending product, Pink Scooty and enhance the features of Allied Khanum Account.

Your Bank's aims to continue the pace of major initiatives taken in 2023 such as effective utilization of the implemented Modules of Oracle Financial Services Analytical Applications (OFSA) and Operational Risk Management Module of Risk Nucleus, process design assessments and control testing, automation of workflows in Risk Assessment and Management System, information security awareness campaigns and augmentation of the Bank maintained warehouses for pledge financing.

Going forward, Your Bank shall continue to augment its inter-connected technological advancement across the Bank to cater financial needs of the Tech Savvy customers while reducing operational cost through automation and optimization of

processes and systems. Your Bank shall continue to invest in revolutionized IT systems for better connectivity with branches, offices and ATMs including the deployment of end-to-end digital payments among individuals, business and government entities.

Emphasis on further strengthening Your Bank's Information Security Posture shall continue along with investments in technology and human resource development to maintain an effective risk management framework across the Bank.

Being cognizant of disruption through digital banking, Risk Management of Your Bank has planned to enhance the scope of existing digital lending platform from consumers to Small Enterprises, Medium Enterprises and commercial businesses by innovating credit scoring models and processes for credit risk assessment, disbursement and monitoring.

In December 2023, ABL Exchange (Pvt.) Limited was incorporated by Allied Bank Limited which would be wholly owned subsidiary of the Bank and would be engaged in foreign exchange business. ABL Exchange (Pvt.) Limited is currently in process of fulfilling licensing requirements with State Bank of Pakistan. It will commence business in 2024.

Your Bank's strong capital positioning is manifested by high Capital Adequacy Ratio of 26.21% as on December 31, 2023, well above the industry ratio of 19.7% as on December 31, 2023, providing adequate buffer to prevent capital adequacy depletion.

Acknowledgment

I would like to express my deepest appreciation to the Board of Directors for their leadership and guidance. I would also like to acknowledge that the skills, experience and commitment of our team members are the key for realizing our vision. Special praise is due towards our much-valued customers for placing their continuous faith in our products and services. Furthermore, I would extend my sincere appreciation to the State Bank of Pakistan, Securities and Exchange Commission of Pakistan and other regulatory bodies for their direction and ceaseless support.

Macro-Economic Developments

In 2023, the global economy faced various challenges stemming from the aftermath of the pandemic and geopolitical tensions. These issues led to significant inflationary pressures in numerous countries, driven by consumer demand, ongoing disruptions to supply chains and escalating commodity prices. International Monetary Fund's (IMF) estimate of average inflation for 2023 remained at 6.8%. The combination of global uncertainties and efforts to curb inflation through monetary tightening measures has contributed to hindering overall global growth.

Despite these challenges, there were signs of a potential earlier-than-anticipated recovery in the global economy. The IMF adjusted its forecast for global growth in 2023 to 3.1%, up from the previous estimate of 3.0% in the World Economic Outlook released in October 2023. This adjustment suggests cautious optimism regarding economic recovery despite the ongoing difficulties.

The prevailing political unrest, challenging macroeconomic conditions and high inflation rates along with external factors exerted pressure on Pakistan's economy. However, there are signs of short-term improvement in economic performance. According to the IMF estimates, Pakistan's GDP contracted by 0.2% in 2023 which was earlier projected to contract by 0.5%, in both July and October 2023 updates.

Notwithstanding challenging economic and political conditions, the Large-Scale Manufacturing (LSM) showed improvement, with the LSM Index increasing by 1.59% on Year-on-Year (YoY) basis. This

resulted in the index rising from 113.05 in November 2022 to 114.85 in November 2023. The contraction of LSM decreased to 0.8% during Jul-Nov FY'24 compared to contraction of 2.3% during the same period last year. Additionally, out of 22 sectors, 12 sectors experienced growth. These include Food, Beverages, Petroleum Products, Wearing Apparel, Leather, Chemicals, Pharmaceuticals, Non-Metallic Mineral Products, Rubber Products, Wood Products, Machinery & Equipment and Football.

Driven by a rise in export of food items, particularly rice, overall exports of goods and services increased by 5.3% to reach US\$ 19,055 million during Jul-Dec FY'24 as compared to US\$ 18,093 million in Jul-Dec FY'23. Whereas, imports of goods and services stood at US\$ 30,423 million during Jul-Dec FY'24, down by 9.8% from US\$ 33,729 million in Jul-Dec FY'23.

According to the Pakistan Bureau of Statistics (PBS), export commodities that exhibited notable growth include rice, fruits, cotton yarn, raw cotton, towel and plastic materials. On the other hand, the primary imported commodities comprised petroleum products, crude petroleum, LNG, palm oil, plastic materials, iron & steel and medicinal products.

The improvement in exports and reduction in imports have positively impacted the Trade Deficit, which narrowed down to US\$ 11,368 million during Jul-Dec FY'24, compared to US\$ 15,636 million during Jul-Dec FY'23. Correspondingly, Current Account deficit reduced to US\$ 824 million during Jul-Dec FY'24, from a deficit of US\$ 3,629 million during Jul-Dec FY'23.

Workers' remittances showed growth in December 2023 as

compared to the previous month. However, for Jul-Dec FY'24, remittances remained at US\$ 13,435 million indicating a decline of 6.8% as compared to the corresponding period last year.

Constrained inflows through foreign remittances during Jul-Dec FY'24, combined with ongoing debt repayments, have led to a gradual decrease in Foreign Exchange Reserves. By the end of December 2023, Total Liquid Foreign Exchange Reserves and Net Reserves with SBP stood at US\$ 12,674 million and US\$ 8,233 million, respectively as compared to US\$ 14,065 million and US\$ 8,727 million, respectively, as on July 14, 2023 following the disbursement of the first tranche by the IMF.

Foreign Direct Investment (FDI) in July-Dec FY'24 amounted to US\$ 862.6 million, up from US\$ 640.0 million in Jul-Dec FY'23, reflecting a notable increase of 34.8%. The power sector attracted the highest FDI, comprising 50.3% of the total, followed by Oil and Gas exploration at 15.0% and Financial Business at 10.6%. Foreign Portfolio Investment witnessed an inflow of US\$ 71.01 million in Jul-Dec FY'24, compared to an outflow of US\$ 1,033.3 million in Jul-Dec FY'23, indicating a significant increase of 107%.

During Jul-Dec FY'24, Tax Revenues collection reached Rs. 4,469.2 billion while non-tax collections remained at Rs. 2,019.7 billion representing increase of 30% and 109% respectively over the corresponding period last year. However, despite the encouraging revenue performance, the overall fiscal deficit widened by 2.3% of GDP primarily due to higher mark-up payments.

The Pakistan Stock Exchange (PSX) demonstrated remarkable performance, with the benchmark KSE-100 index closing at 62,451 points as of December 29, 2023, compared to 40,420 points as of December 30, 2022. Similarly, market capitalization of PSX settled at Rs. 9,063 billion as of end of December 2023, compared to Rs. 6,501 billion by the end of corresponding last year.

In 2023, inflation levels remained elevated, with CPI inflation recorded at 29.7% on year-on-year basis in December 2023, compared to 24.5% in December 2022. On a month-on-month basis, inflation increased to 0.8% in December 2023 compared to a rise of 2.7% in the previous month. Consequently, the State Bank of Pakistan (SBP) maintained strict policy stance to ensure external account stability, address inflationary pressure and manage demand. Monetary Policy Committee (MPC) of SBP increased the policy rate by 600 basis points since November 2022, reaching 22% in June 2023, and maintained this rate in its recent meeting held in January 2024. However, MPC has estimated that the headline inflation rate will decline in second half of FY'24.

The risks associated with the future outlook are showing some moderation and global growth is expected to gradually improve. Accordingly, the IMF has forecasted global growth at 3.1% in 2024, which is higher by 0.2% from earlier estimate made in October 2023. The IMF has projected global inflation at 5.8% in 2024 and 4.4% for 2025.

On the domestic front, the IMF has projected GDP to grow by 2.0% in FY'24 and 3.5% in FY'25. Simultaneously, SBP has projected domestic growth around 2-3% in FY'24 and inflation at 5-7% by the end of FY'25.

Financial Performance

Pakistan's banking sector demonstrated strong performance in challenging economic conditions. In the year ended December 31, 2023, the sector's total assets grew by 31%, reaching Rs. 45,183 billion, up from Rs. 34,530 billion in the previous year. This growth was primarily driven by increases in investments and advances. For the year ended December 31, 2023, investments rose by 41%

to Rs. 25,280 billion, and net advances grew by 4% to Rs. 11,625 billion.

Your Bank has demonstrated resilience and achieved significant growth in both its balance sheet and net profits, amid challenging operating conditions and a higher tax regime.

Allied Bank achieved a 66% increase in markup income, reaching Rs. 357,307 million for the year ended December 31, 2023, up from Rs. 215,469 million in the previous year. This was supported by positive growth in average earning assets, improved spreads, and effective investment duration management. Even with a challenging increase in deposit rates due to a 751 basis points average policy rate hike in 2023, Your Bank managed to contain markup expenses at Rs. 244,028 million, a 64% rise from the previous year. Consequently, net markup and interest income surged by 70% to Rs. 113,279 million for the year ended December 31, 2023, compared to Rs. 66,719 million in the prior year.

Your Bank's fee income increased by 31%, reaching Rs. 10,641 million for the year ended December 31, 2023, compared to Rs. 8,147 million in the previous year.

Dividend income improved by 15%, reaching Rs. 3,543 million for the year ended December 31, 2023, from Rs. 3,088 million in the preceding year.

Favorable movement in swap curves contributed to a 15% rise in foreign exchange income, which reached Rs. 9,167 million for the year ended December 31, 2023, up from Rs. 7,948 million in the prior year.

Non-markup and non-interest income rose by 18%, reaching Rs. 24,427 million for the year ended December 31, 2023, compared to Rs. 20,675 million in the previous year.

The increase was primarily due to higher fee income, foreign exchange earnings, and dividend income, though partially offset by a reduction in capital gains.

Capital gains decreased by 40%, totaling Rs. 845 million for the year ended December 31, 2023, compared to Rs. 1,400 million in the previous year. Meanwhile, other income reached Rs. 231 million in the year ended December 31, 2023, up from Rs. 93 million in the prior year.

Allied Bank's efforts in expanding branch outreach and advancing technological transformation led to a rise in total operating expenses, influenced by higher inflation and unfavorable US/PKR parity. Nevertheless, Your Bank managed to limit the increase in operating expenses to 18% by continuously automating processes and enforcing internal controls. Operating expenses were recorded at Rs. 46,985 million for the year ended December 31, 2023, compared to Rs. 39,699 million for the previous year.

For the year under review, Allied Bank registered a pre-tax profit of Rs. 85,757 million, an 84% increase from the previous year's Rs. 46,626 million, attributed to notable growth in revenues from both markup and non-markup streams.

The tax charge for the year ended December 31, 2023 increased by 77% over the previous year, reaching Rs. 45,074 million. This included an additional tax of Rs. 2,955 million on Foreign Exchange Income, designated as Windfall Income for Tax Years 2022 and 2023 (Income Years 2021 and 2022), leading to an effective tax rate for the Bank of 52.56%.

With a diversified loan and investments portfolio, a focus on low and no cost deposits, and efficient management of margins and

expenses, Your Bank achieved a 92% increase in profit after tax, reaching to Rs. 40,683 million for the year ended December 31, 2023, up from Rs. 21,194 million in the previous year.

Your Bank's strategic emphasis on nurturing low-cost and no-cost deposits resulted in an 18% growth in the average balances of these accounts, while simultaneously reducing the average balances of high-cost deposits by 10%. The Bank's total deposits stood at Rs. 1,676,623 million as of December 31, 2023, compared to Rs. 1,522,297 million as on December 31, 2022, reflecting a growth of 10%.

Gross advances reached at Rs. 794 billion as on December 31, 2023 as compared to Rs. 857 billion as on December 31, 2022, while net advances stood at Rs. 782 billion as on December 31, 2023 as against Rs. 846 billion as on December 31, 2022.

Allied Bank has one of the industry's lowest infection ratios, reflecting the quality of its advances portfolio. During the year under review, Your Bank's infection ratio was 1.64%. The coverage ratio reached 96.2% as of December 31, 2023, up from 90.4% in the prior year. Notably, the Bank chose not to take advantage of the forced sale value of collaterals against non-performing loans, a provision allowed under the State Bank of Pakistan's guidelines, when calculating provisions against NPLs.

Your Bank's investments reached Rs. 1,150,318 million as of December 31, 2023, marking a 2% increase from Rs. 1,123,117 million as of December 31, 2022.

Allied Bank's total assets amounted to Rs. 2,329,317 million as of December 31, 2023, showing a 3% rise from Rs. 2,250,973 million as of December 31, 2022. The Bank's net assets were Rs. 194,254 million as of December 31, 2023, up 52% from Rs. 127,811 million on December 31, 2022. The Return on Assets (RoA) and Return on Equity (RoE) stood at 1.8% and 29.4%, respectively, on December 31, 2023. Furthermore, Your Bank's Capital Adequacy Ratio (CAR) was 26.21%, significantly exceeding the regulatory minimum of 11.5%, indicating ABL's strong capital base.

ABL's nationwide branch network provides a strategic advantage, enhanced by the addition of digital and smart branches and the renovation of current locations to elevate customer experience. Your Bank now operates 1,483 branches, including 1,356 conventional, 127 Islamic branches, and 23 digital touchpoints.

Your Bank is robustly equipped to offer round-the-clock banking services nationwide, leveraging a vast array of channels including numerous branches, ATMs, online and mobile banking platforms, and other digital touchpoints. The Bank's reach is further extended by a large network of 1,566 Automated Teller Machines (ATMs), which includes 1,312 on-site ATMs, 249 off-site ATMs, and 5 Mobile Banking Units (MBUs).

Allied Bank's commitment to digital transformation, robust risk management framework, enhanced product offerings, and corporate social responsibility initiatives has led to its recognition as "Bank of the Year – Pakistan 2023" for the third consecutive year by "The Banker," a globally respected financial publication of the Financial Times Group, UK, that has been in circulation since 1926.

Moving forward, Your Bank is committed to serving its diverse customer base with digitally innovative solutions, while also delivering value to its stakeholders through agility, resilience, and strong governance.

Risk Management Framework

DIRECTORS' REPORT

Performance Evaluation Mechanism for the Board

The Board of Directors, while ensuring regulatory compliance is also vested with fiduciary responsibility on behalf of the shareholders to protect the Bank's interests, provide strategic direction and monitor the execution of strategic objectives. The Companies Act 2017, Banking Companies Ordinance 1962, SBP's Prudential Regulations, Corporate Governance Regulatory Framework and Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Code) describe the role of the Board of Directors along with its responsibilities and functions.

In order to comply with the requirement of the Code, the Board of Directors, in the year 2014, put in place an effective mechanism for the Board of Directors' evaluation.

Subsequently, SBP issued detailed guidelines on performance evaluation of the Board of Directors. As per these guidelines, the Board of Directors decided to opt for in-house approach with quantitative techniques and evaluation by an external independent evaluator every three years. Last independent external-evaluation was conducted for the year 2021 and next such independent evaluation will be carried out for the year 2024.

For the year 2023, as per approved mechanism, performance evaluation of following categories was conducted:

- I. Overall Board of Directors
- II. Chairman of Board of Directors
- III. Sponsor Directors
- IV. Independent Directors
- V. Other Non-Executive Directors
- VI. Board Committees
- VII. Chief Executive Officer

The responses and feedback from the Directors on each of the above-mentioned categories (except Chairman Board of Directors) was compiled and submitted to the Chairman Board of Directors enabling him to discuss the results and findings with each individual member of the Board of Directors, if needed.

The authorized independent director communicated the feedback in respect of the Chairman Board of Directors to the Company Secretary for incorporation in the consolidated performance report. Accordingly, the report comprising of consolidated average evaluation results and action plan forwarded by the Chairman Board of Directors is submitted to the Board of Directors for consideration. The Board of Directors, in its 266th Meeting dated February 13, 2024, noted the contents of Board of Directors Annual Evaluation for the year 2023 and expressed its satisfaction on the results.

External Auditors

The present auditor M/s EY Ford Rhodes., Chartered Accountants retire and being eligible offer themselves for re-appointment. افراط زر کے نمایاں دباؤ دیکھے گئے۔ عالمی مالیاتی فنڈز (آئی ایم ایف) کے تخمینے کے مطابق سال 2023ء کے لیے اوسط افراط زر 6.8 فیصد پر برقرار رہے گا۔ عالمی غیر یقینیوں اور مالیاتی سختی کے ذریعے افراط زر پر قابو پانے کے اقدامات کے احراج نے مجموعی عالمی نمو میں دشواریاں پیدا کی ہیں۔

یورڈ آف ڈائریکٹرز 4.00 روپے فی شیئر کا حتمی کیش ڈیویڈنڈ تجویز کی ہے۔ (مجموعی کیش ڈیویڈنڈ 12.00 روپے فی شیئر بشمول عبوری ڈیویڈنڈز) اس تجویز کردہ اور سال 2023ء کے دیگر مجوزہ ڈیویڈنڈز کی منظوری آنے والی سالانہ جنرل میٹنگ (عام اجلاس) میں کی جائے گی۔

ان مشکلات کے باوجود، عالمی معیشت کی بحالی کے رحمان میں توقع سے کہیں زیادہ بہتری کے روشن امکانات نظر آ رہے ہیں۔ آئی ایم ایف نے اکتوبر 2023ء میں جاری کردہ ورلڈ اکنامک آؤٹ لک (عالمی معاشی پیش بینی) میں عالمی نمو کی 3 فیصد کی اپنی سابقہ پیش بینی میں مطابقت پیدا کرتے ہوئے سال 2023ء کے لیے اسکی شرح کو 3.1 فیصد پر تجویز کیا ہے۔ یہ مطابقت، ان

سال 2023ء میں عالمی معیشت کو جغرافیائی و سیاسی تنازعوں، عالمگیر دہاء کے نتائج اور زندگی گزارنے کی لاگت میں مسلسل اضافے جیسے ابھرتے مسائل کا سامنا رہا۔ ان عوامل نے صارفین کی مضبوط طلب، رسد کی ترسیل میں حائل رکاوٹیں اور اجناس کی بڑھتی قیمتوں کی بنیادی وجوہ کی بدولت متعدد ممالک میں

پلاسٹک خام مال شامل ہے۔ دوسری طرف بنیادی درآمدی اشیاء میں پٹرولیم پراڈکٹس، کڑوڈ (خام) پیٹرولیم، ایل این جی، پام آئل، پلاسٹک خام مال، لوہے و اسٹیل اور ادویات و طبی پراڈکٹس شامل ہیں۔

برآمدات کی بہتری اور درآمدات میں کمی نے تجارتی خسارے پر مثبت اثرات مرتب کیے جو کہ مالی سال 2023ء کے جولائی تا دسمبر کی مدت کے دوران 15,636 ملین امریکی ڈالر کے حجم کی نسبت مالی سال 2024ء کے جولائی تا دسمبر کے عرصے میں کم ہوتا ہوا 11,368 ملین امریکی ڈالر پر رپورٹ ہوا۔ اسی تناسب میں، کرنٹ اکاؤنٹ کا خسارہ مالی سال 2023ء کے جولائی تا دسمبر کی مدت کے 3,629 ملین امریکی ڈالر کے مقابلے میں مالی سال 2024ء کے جولائی تا دسمبر کے عرصے میں کم ہوتا ہوا 824 ملین امریکی ڈالر پر درج ہوا۔

دسمبر 2023ء کے دوران، افرادی ترسیلات زر میں پچھلے مہینے کی نسبت بہتری نظر آئی، تاہم، مالی سال 2024ء کے جولائی تا دسمبر کے عرصے میں گزشتہ سال کے اسی تقابلی مدت سے 6.8 فیصد کمی برقرار رکھتے ہوئے ترسیلات زر 13,435 ملین امریکی ڈالر پر ریکارڈ کی گئیں۔

مالی سال 2024ء کے جولائی تا دسمبر کے عرصے میں غیر ملکی ترسیلات زر میں کمی اور قرضوں و بیرونی ادائیگیوں کے تسلسل سے غیر ملکی زر مبادلہ کے ذخائر میں بتدریج کمی پیدا ہوئی۔ دسمبر 2023ء کے اختتام تک ملک کے کل دستیاب غیر ملکی زر مبادلہ کے ذخائر اور اسٹیٹ بینک آف پاکستان کے خالص ذخائر تقابلی مدت کے 14,065 ملین امریکی ڈالر اور 8,727 ملین امریکی ڈالر کے مقابلے میں آئی ایم ایف کی جانب سے پہلی قسط کے اجراء کے بعد 14 جولائی 2023ء تک بالترتیب 12,674 ملین امریکی ڈالر اور 8,233 ملین امریکی ڈالر پر درج کیے گئے۔

غیر ملکی براہ راست سرمایہ کاری، مالی سال 2023ء کے جولائی تا دسمبر کے 640.0 ملین امریکی ڈالر کے تناسب میں مالی سال 2024ء کے جولائی تا دسمبر کی مدت میں 34.8 فیصد اضافے کے ساتھ 862.6 ملین امریکی ڈالر پر پہنچ گئی۔ توانائی کے شعبے نے سب سے زیادہ براہ راست غیر ملکی سرمایہ کاری راغب کی جس کی شرح گھل میں سے 50.3 فیصد رہی۔ اس کے بعد تیل و گیس کی تلاش میں 15 فیصد اور مالیاتی کاروبار میں 10.6 فیصد کی شرح رہی۔ غیر ملکی پورٹ فولیو سرمایہ کاری میں مالی سال 2023ء کے جولائی تا دسمبر کے

جاری خدشات کے باوجود معاشی بحالی کے بارے میں محتاط امید پسنی کی عکاسی ہے۔

موجودہ سیاسی بے چینی، مشکل کلاں معاشی صورتحال اور افراط زر کی بلند شرح نے بیرونی عوامل کے ساتھ مل کر پاکستان کی معیشت پر دباؤ پیدا کئے ہیں۔ تاہم، معاشی کارکردگی کے قلیل مدت میں بہتری کے اشارے دیکھے جا رہے ہیں۔ آئی ایم ایف کے اندازے کے مطابق پاکستان کا جی ڈی پی سال 2023ء کے دوران 0.2 فیصد کم گیا۔ جبکہ اس سے پہلے جولائی اور اکتوبر 2023ء کے دونوں اپ ڈیٹس میں اس سٹراؤ کے بارے میں 0.5 فیصد کی شرح کا اندازہ کیا گیا تھا۔

اس معاشی و سیاسی صورتحال سے قطع نظر، بڑے پیمانے کی پیداوار (ایل ایس ایم) میں بہتری دیکھی گئی۔ جس میں ایل ایس ایم انڈیکس میں، سال بہ سال کی بنیاد پر، 1.59 فیصد کا اضافہ ہوا۔ جس کے نتیجے میں یہ انڈیکس نومبر 2022ء کے 113.05 سے نومبر 2023ء تک بڑھ کر 114.85 پر پہنچ گیا۔ ایل ایس ایم کا سٹراؤ گزشتہ سال کے مماثل عرصہ کے 2.3 فیصد کی شرح کی نسبت مالی سال 2024ء کے جولائی تا دسمبر کی مدت میں کم ہوتا ہوا 0.8 فیصد کی سطح پر درج ہوا۔ مزید برآں، 22 شعبوں میں سے 12 شعبوں میں بہتری دیکھی گئی۔ ان میں خوراک، مشروبات، پیٹرولیم پراڈکٹس، لمبوسات، چمچے، کیمیکلز، فارماسیوٹیکلز، غیر دھاتی معدنی پراڈکٹس، ربڑ کی پراڈکٹس، کڑی کی پراڈکٹس، مشینری و آلات اور فنٹ ہال شامل ہیں۔

خوراک کی اشیاء کی درآمدات کے بڑھنے، خاص طور پر چاول، کے باعث اشیاء و خدمات کی مجموعی برآمدات میں اضافہ ہوا۔ جس کی شرح مالی سال 2023ء کے جولائی تا دسمبر کے عرصے کی 18,093 ملین امریکی ڈالر کی نسبت مالی سال 2024ء کے جولائی تا دسمبر کی مدت میں 5.3 فیصد کے اضافے کے ساتھ 19,055 ملین امریکی ڈالر پر پہنچ گئی۔ جبکہ، اشیاء و خدمات کی درآمدات، مالی سال 2023ء کے جولائی تا دسمبر کے عرصے کے 33,729 ملین امریکی ڈالر کے حجم کے مقابلے میں مالی سال 2024ء کے جولائی تا دسمبر کی مدت میں 9.8 فیصد کمی کے ساتھ 30,423 امریکی ڈالر پر درج ہوئیں۔

پاکستان کے ادارہ شماریات کے مطابق، جن برآمدی اشیاء میں بڑھتی نظر آئی ان میں چاول، پھل، کاشن یارن، خام کاشن، تولیے اور

عرصے میں کم ہونے والے 1,033.3 ملین امریکی ڈالرز کی نسبت مالی سال 2024ء کے جولائی تا دسمبر کی مدت میں 107 فیصد کی نمایاں بہتری کے اندراج کے ساتھ 71.01 ملین امریکی ڈالرز کی وصولی درج ہوئی۔

مالی سال 2024ء کے جولائی تا دسمبر کے عرصے میں ٹیکس آمدنی کی وصولیاں 4,469.2 ملین روپے پر پہنچ گئیں۔ جبکہ ٹیکس کے علاوہ دیگر وصولیاں 2,019.7 ملین روپے پر درج ہوئیں۔ جو کہ گزشتہ سال کی تقابلی مدت سے بالترتیب 30 فیصد اور 109 فیصد کے اضافے کی مظہر ہیں۔ تاہم، آمدنی کے حوالے سے حوصلہ افزاء صورتحال کے باوجود مجموعی مالی خسارہ بلند مارک اپ کی ادائیگیوں کے باعث مزید بڑھتے ہوئے جی ڈی پی 2.3 فیصد کی شرح تک پہنچ گیا۔

عالمی نمونہ بتدریج بہتری کی توقع ہے۔ لہذا، آئی ایم ایف نے اکتوبر 2023ء میں اندازہ کی گئی عالمی نمو کی گتہ شرح میں 0.2 فیصد کا اضافہ کرتے ہوئے، سال 2024ء کے لیے اس کی شرح کو 3.1 فیصد پر تجویز کیا ہے۔ آئی ایم ایف نے عالمی افراط زر کی شرح کو سال 2024ء میں 5.8 فیصد اور سال 2025ء میں 4.4 فیصد پر تخمینہ کیا ہے۔

داخلی محاذ پر، آئی ایم ایف نے جی ڈی پی کی نمو کو مالی سال 2024ء کے لیے 2 فیصد اور سال 2025ء کے لیے 3.5 فیصد پر اندازہ کیا ہے۔ اس تناظر میں اسٹیٹ بینک آف پاکستان نے داخلی نمو کو مالی سال 2024ء کے لیے 2 سے 3 فیصد کی شرح اور افراط زر کی شرح کو مالی سال 2025ء کے آخر تک 5 سے 7 فیصد پر توقع کیا ہے۔

مالیاتی کارکردگی :

پاکستان کی بینکنگ کے شعبے نے مشکل معاشی حالات کے باوجود مضبوط کارکردگی کا مظاہرہ کیا ہے۔ 31 دسمبر 2023ء کو اختتام پذیر سال میں اس شعبہ کے کل اثاثہ جات گزشتہ سال کے 34,530 ملین روپے سے 31 فیصد کے اضافے کے ساتھ 45,183 ملین روپے تک جا پہنچے۔ اس اضافے میں سرمایہ کاری اور قرضہ جات کے اضافے کا بنیادی کردار تھا۔ 31 دسمبر 2023ء کو اختتام پذیر سال کے دوران سرمایہ کاری 41 فیصد کے اضافے کے ساتھ 5,280 ملین روپے اور خالص قرضہ جات 4 فیصد کے اضافے کے ساتھ 11,625 ملین روپے تک بڑھ گئے۔

آپ کے بینک نے مشکل کاروباری صورتحال اور بلند شرح کے ٹیکسوں کے مابین بہترین کارکردگی کا مظاہرہ کرتے ہوئے اپنی تیلنس شیٹ اور خالص نفع دونوں میں نمایاں بڑھوتی حاصل کی ہے۔

الائیڈ بینک نے مارک اپ آمدنی میں 66 فیصد کی نمو حاصل کی جو کہ 31 دسمبر 2023ء کو اختتام پذیر سال تک گزشتہ سال کی 215,469 ملین روپے کی سطح سے بڑھ کر 357,307 ملین روپے پر پہنچ گئی۔ اس اضافے کو اوسط پیداواری اثاثہ جات، بھرتے سپریڈز اور سرمایہ کاری کے مدت کے موثر انتظام میں ہونے والی مثبت نمو کی مدد بھی حاصل رہی۔ سال 2023ء میں اوسط پالیسی ریٹ میں 751 بیس پوائنٹس کے اضافے کے باعث ڈیپازٹ رٹس کے بڑھنے سے پیدا ہونے والی مشکل صورتحال کے باوجود آپ کے بینک نے اپنے مارک اپ اخراجات کو 244,028 ملین روپے، جو کہ پچھلے سال سے 4

پاکستان اسٹاک ایکسچینج (پی ایس ایکس) نے شاندار کارکردگی کا مظاہرہ کیا اور 29 دسمبر 2023ء تک کے ایس ای-100 انڈیکس 62,451 پوائنٹس پر بند ہوا جبکہ اس کے تناسب میں 30 دسمبر 2022ء کو اس کی سطح 40,420 پوائنٹس تھی۔ اس مماثلت میں پی ایس ایکس کی مارکیٹ کپچولریشن دسمبر 2023ء کے اختتام تک گزشتہ سال کی تقابلی مدت کے 6,501 ملین روپے کے حجم کے مقابلے میں 9,063 ملین روپے پر درج ہوئی۔

سال 2023ء کے دوران، افراط زر کی شرح میں بلندی کا رجحان برقرار رہا۔ جس میں سی پی آئی افراط زر دسمبر 2022ء کے 24.5 فیصد شرح کے مقابلے میں دسمبر 2023ء تک، سال بہ سال کی بنیاد پر، 29.7 فیصد پر ریکارڈ کیا گیا۔ ماہانہ بنیاد پر، افراط زر میں دسمبر 2023ء کے دوران، گزشتہ مہینے کی 2.7 فیصد کی شرح سے 0.8 فیصد تک بڑھا۔ چنانچہ، اسٹیٹ بینک آف پاکستان نے افراط زر کے دباؤ سے نپٹنے، بیرونی اکاؤنٹ میں استحکام کو یقینی بنانے اور طلب کا انتظام کرنے کے لیے اپنے کڑے مالیاتی بیانیے کو جاری رکھا۔ اسٹیٹ بینک آف پاکستان کی مانیٹری پالیسی کمیٹی (ایم پی سی) نے نومبر 2022ء سے پالیسی ریٹ میں 600 بیس پوائنٹس کا اضافہ کرتے ہوئے جون 2023ء تک اس کی شرح کو 22 فیصد پر مقرر کیا اور جنوری 2024ء میں اپنے حالیہ منعقد کردہ اجلاس میں بھی اس شرح کو برقرار رکھا۔ تاہم ایم پی سی نے مالی سال 2024ء کی دوسری ششماہی میں ہیڈلائن افراط زر کی شرح میں کمی کا امکان کی توقع کا اظہار کیا ہے۔

مستقبل کی پیش بینی کو لاحق خدشات کی شدت میں کمی کے آثار ہیں اور

اور پاکستانی روپے اور امریکی ڈالر کی ناموافق شرح تبادلہ کے دباؤ کا شکار تھے، بڑھ گئے۔ تاہم، آپکے بینک نے انٹرنل کنٹرول کے نفاذ اور خود کاریت کے تسلسل سے کاروباری اخراجات کے اضافے کو 18 فیصد کی شرح پر محدود رکھا۔ کاروباری اخراجات گزشتہ سال کی 39,699 ملین روپے کی سطح کے تناسب میں 31 دسمبر 2023ء کو اختتام پذیر سال تک 46,985 ملین روپے پر درج ہوئے۔

اس زیر تجزیہ سال کے دوران، الائیڈ بینک نے مارک اپ اور نان مارک اپ دونوں حوالوں سے قابل رکھ مو کے حصول کی بدولت 85,757 ملین روپے کا منافع قبل از ٹیکس حاصل کیا جو کہ گزشتہ سال کے 46,626 ملین روپے کی حاصل شدہ سطح سے 84 فیصد کے اضافے کو ظاہر کرتا ہے۔

31 دسمبر 2023ء کو اختتام پذیر سال کے دوران، ٹیکس چارج گزشتہ سال سے 77 فیصد کے اضافے کے ساتھ 45,074 ملین روپے پر درج کیا گیا۔ جس میں فارن ایکسچینج آمدنی، جس کو ونڈ فال (Windfall) آمدنی کا نام دیا گیا ہے، پر ٹیکس سال 2022ء اور 2023ء (کیٹیڈ رسال سال 2021ء اور 2022ء) کے عائد شدہ اضافی ٹیکس کے 2,955 ملین روپے شامل ہیں۔ جس سے بینک کے موثر ٹیکس ریٹ کی شرح 52.56 فیصد پر پہنچی گئی۔

سرمایہ کاری اور قرضہ جات کے ایک متنوع پورٹ فولیو، کم لاگت کے ڈیپازٹس کے حصول پر مرکوز توجہ اور مارجنز اور اخراجات کے بہتر انتظام کے ساتھ آپکے بینک نے منافع بعد از ٹیکس میں 92 فیصد کا اضافہ کیا جو کہ گزشتہ سال کی 21,194 ملین روپے کی سطح کے تناسب میں 31 دسمبر 2023ء کو اختتام پذیر سال تک 40,683 ملین روپے پر درج ہوا۔

آپکے بینک کی کم یا بغیر لاگت کے ڈیپازٹس کے حصول پر توجہ کے نتیجے میں ان اکاؤنٹس کے اوسط تیلنٹز میں 18 فیصد کی نمو ہوئی۔ جبکہ اسی مطابقت میں زیادہ لاگت کے ڈیپازٹس کے اوسط تیلنٹز میں 10 فیصد کی کمی دیکھی گئی۔ بینک کے کل ڈیپازٹس 31 دسمبر 2022ء کے 1,522,297 ملین روپے کے حجم سے 10 فیصد کے اضافے کے ساتھ 31 دسمبر 2023ء کے 1,676,623 ملین روپے پر جا پہنچے۔

کل قرضہ جات 31 دسمبر 2022ء کے 857 بلین روپے کے حجم کی نسبت 31 دسمبر 2023ء تک 794 بلین روپے پر درج ہوئے۔ جبکہ خالص قرضہ جات دسمبر 2022ء کے 846 بلین روپے کے حجم سے کم ہو کر 31 دسمبر

فیصد زیادہ ہے، پر محدود رکھا۔ چنانچہ، خالص مارک اپ اور انٹرسٹ آمدنی 70 فیصد کے ساتھ گزشتہ سال کی 66,719 ملین روپے کی سطح کے مقابلے میں 31 دسمبر 2023ء کو اختتام پذیر سال کے دوران 113,279 ملین روپے پر پہنچی گئی۔

آپکے بینک کی فیس آمدنی گزشتہ سال کی 8,147 ملین روپے کی سطح کے تناسب میں 31 دسمبر 2023ء کو اختتام پذیر سال تک 31 فیصد کے اضافے کے ساتھ 10,641 ملین روپے پر جا پہنچی۔

ڈیویڈنڈ کی آمدنی گزشتہ سال کی 3,543 ملین روپے کی سطح کے تناسب میں 31 دسمبر 2023ء کو اختتام پذیر سال تک 15 فیصد کے اضافے کے ساتھ 3,088 ملین روپے پر جا پہنچی۔

سواپ کے خطوط (SWAP Curves) میں مثبت تحریک کے باعث غیر ملکی زرمبادلہ کی آمدنی گزشتہ سال کی 7,948 ملین روپے کی سطح کے تناسب میں 31 دسمبر 2023ء کو اختتام پذیر سال تک 15 فیصد کے اضافے کے ساتھ 9,167 ملین روپے پر جا پہنچی۔

نان مارک اپ اور نان انٹرسٹ آمدنی گزشتہ سال کی 20,675 ملین روپے کی سطح کے تناسب میں 31 دسمبر 2023ء کو اختتام پذیر سال تک 18 فیصد کے اضافے کے ساتھ 24,427 ملین روپے پر درج ہوئی۔

اس اضافے کی بنیادی وجہ میں فیس آمدنی، فارن ایکسچینج آمدنی اور ڈیویڈنڈ آمدنی کی بڑھتی تھی۔ اگرچہ، کپٹل گینز میں ہونے والی کمی سے اس میں جزوی تلہیر ہوئی۔

کپٹل گین آمدنی، گزشتہ سال کی 1,400 ملین روپے کی سطح کے تناسب میں 31 دسمبر 2023ء کو اختتام پذیر سال تک 40 فیصد کی کمی کے ساتھ 845 ملین روپے پر درج ہوئی۔ جبکہ دیگر آمدنی گزشتہ سال کی 93 ملین روپے کی سطح کے مقابلے میں 31 دسمبر 2023ء کو اختتام پذیر سال تک 231 ملین روپے پر ریکارڈ کی گئی۔

الائیڈ بینک کے اپنی برانچوں میں توسیع اور ٹیکنالوجیکل ہیٹ سازی میں پیش قدمی کے باعث اس کے کل کاروباری اخراجات، جو بلند افراط زر

اندرونی انضباط کا بیانیہ :

مالیاتی گوشواروں کے نوٹ نمبر 37 میں کیا گیا ہے۔

بورڈ انتظامیہ کے اندرونی انضباط کے بارے میں بیانیہ بشمول ICFR کی قدر و پیمائی کی بخوشی تصدیق کرتا ہے۔ اندرونی انضباط کے بارے میں انتظامیہ کا بیانیہ سالانہ رپورٹ میں شامل ہے۔

کارپوریٹ پائیداری :

بورڈ آف ڈائریکٹرز آپ کے بینک کے کارپوریٹ پائیداری (Sustainability) کے لیے اٹھائے گئے اقدامات کی بخوشی توثیق کرتا ہے جو کہ سالانہ رپورٹ میں الگ طور پر مذکور ہیں۔

بورڈ کی کارکردگی کا جائزہ لینے کا طریقہ کار :

بورڈ آف ڈائریکٹرز انضباطی تکمیل کو یقینی بناتے ہوئے حصص یافتگان کی جانب سے بینک کے مفادات کا تحفظ، حکمت عملی کی سمت کا تعین اور اہداف کے حصول کے عمل کو چلانے کی ذمہ داری کے بھی امین ہیں۔ کمپنیز ایکٹ 2017، بینکنگ کمپنیز آرڈیننس 1962 اور اسٹیٹ بینک کے پروڈینشل ریگولیشنز، کارپوریٹ گورننس ریگولٹری فریم ورک اینڈ لنڈ کمپنیز (کوڈ آف کارپوریٹ گورننس) ریگولیشنز 2019، (دی کوڈ) میں بورڈ آف ڈائریکٹرز کے کردار اور اس کے ساتھ ساتھ اگلی ذمہ داریوں اور کارگزاری کو واضح اور احسن طریقہ سے بیان کیا گیا ہے۔

استثنیٰ ریٹنگ :

دی پاکستان کریڈٹ ریٹنگ ایجنسی لیمنڈ (PACRA) نے اس سال کے دوران الائٹڈ بینک کی طویل المدتی ریٹنگ کو "AAA" (ٹرپل اے) کی سطح پر برقرار رکھا ہے۔ جبکہ قلیل المدتی ریٹنگ کی "A1+" (اے ون پلس) کی اعلیٰ سطح بھی برقرار رہی۔ یہ درجہ بندیوں بینک کی مضبوط حصصی سرمایہ کی بنیاد اور سیال پذیری کے اعلیٰ معیار کو ظاہر کرتی ہیں۔

کارپوریٹ گورننس ریٹنگ :

آپ کے بینک کے بہترین تشکیل کردہ کارپوریٹ گورننس فریم ورک کا بورڈ اور مینجمنٹ کمیٹیوں کی جانب سے موثر استعمال اور مضبوط مالیاتی شفافیت کا اعتراف وی آئی ایس (VIS) کریڈٹ ریٹنگ کمپنی لیمنڈ نے کیا ہے۔ جس کے نتیجے میں سال 2023ء کے لیے کارپوریٹ گورننس کی ریٹنگ کو سی جی آر۔ ++9 (CGR-9++) کی سطح پر برقرار رکھا ہے۔ جو کہ کارپوریٹ گورننس کے اعلیٰ ترین معیار کی عکاس ہے۔

بورڈ آف ڈائریکٹرز :

بورڈ آف ڈائریکٹرز کے تمام ممبران کی پروفائل کو سالانہ رپورٹ کے کارپوریٹ پروفائل کے سیکشن میں علیحدہ طور پر درج کیا گیا ہے۔ بورڈ آف ڈائریکٹرز کی بناوٹ کو کوڈ آف کارپوریٹ گورننس کی تعمیل کے بیانیہ میں درج کیا گیا ہے۔ جبکہ بورڈ کی کمیٹیوں کی بناوٹ کو بھی سالانہ رپورٹ میں الگ طور پر واضح کیا گیا ہے۔

اسی کوڈ کے تحت بورڈ نے سال 2014 میں اپنی کارکردگی کو موثر انداز میں جانچنے کے لیے ایک نظام رائج کیا ہے۔

بعد میں اسٹیٹ بینک نے بورڈ آف ڈائریکٹرز کی کارکردگی کا جائزہ لینے کے لیے رہنمائی کے تفصیلی اصول وضع کیے ہیں۔ جس کی روشنی میں بورڈ نے مقدماتی تکنیک کے ساتھ بینک کے اندرونی نقطہ نظر اور ہر تین سال بعد ایک آزاد ترمیمی ساز سے اس کی جانچ کو اختیار کرنے کا فیصلہ کیا ہے۔ اس سلسلے میں، آخری آزادانہ بیرونی تخمینہ سال 2021ء میں کیا گیا، جبکہ ایسا اگلا آزاد تخمینہ سال 2024ء میں کیا جائے گی۔

سال 2023ء کے دوران، ایک منظور شدہ نظام پر کاربند رہتے ہوئے مندرجہ ذیل اقسام کی کارکردگی کو جانچا ہے:

- ۱- مجموعی بورڈ آف ڈائریکٹرز
- ۲- چیئرمین بورڈ آف ڈائریکٹرز
- ۳- ضامن ڈائریکٹرز
- ۴- آزاد ڈائریکٹرز

غیر انتظامی ڈائریکٹرز کو بورڈ یا اور اسکی کمیٹی کے اجلاس میں شریک ہونے کے لیے ایک مناسب اور موزوں معاوضہ دیا جاتا ہے۔ جس کا ذکر

معزز شیئر ہولڈرز کے الائیڈ بینک پر اسکے اعتماد، سکیورٹی اینڈ ایجنسنگ کمیشن آف پاکستان، اسٹیٹ بینک آف پاکستان اور دیگر انتظامی اداروں کا ان کی مسلسل رہنمائی اور تعاون پر شکور ہیں۔ ہم صارفین کی توقعات پر پورا اترنے کے لیے اپنے سٹاف ممبرز کی انتھک محنت اور بینک کے اغراض و مقاصد کے حصول کے لیے ان کی لگن پر بھی نہایت شکر گزار ہیں۔

Value creation

The Bank effectively allocates and strengthens its resources to maximize value for its stakeholders. Value creation is achieved through strategic initiatives and their persistent applications by implementing policies, procedures and processes including business models. These processes leverage key resources to transform inputs into business activities; thus, generating the value for various stakeholders. As a result, the Bank maintains a stable payout ratio, acts as a significant contributor to the national exchequer and maximizes shareholders' return.

Bank's sustainability strategy with measurable targets

ABL has embedded its sustainability strategy into the core objectives of the Bank. This strategic approach has enabled the Bank to effectively manage the Bank's impact on environmental, economic and social systems. These initiatives are fundamental to the Bank's success and have the potential to augment profitability, facilitate expansion and enhance stakeholder satisfaction.

The Bank has established a set of targets to assess its progress towards achieving its sustainable goals. These targets include initiatives such as promoting financial inclusion, continued guidance to obligors for better practices, green financing, undertaking tree plantations campaigns, sponsorships and donations, solar financing including the installation of solar panels at the Bank's premises and own impact reduction with respect to use of energy and consumables.

Significant changes in objectives and strategies

The Bank's objectives and strategies are well calibrated with its vision. These strategies are implemented through policies, procedures and processes to ensure achievement of the objectives of the Bank. No significant change occurred during the year that would impact the Bank's objectives and business strategies.

PESTEL ANALYSIS

Emerging challenges and risks are effectively managed through strategic business planning, systematic framework of procedures and prudent decision-making.

Diligent monitoring of developments in the Political (P), Economic (E), Social (S), Technological (T), Environmental (E) and Legal (L) spheres, which have implications on the Bank's strategy, is an integral part the Bank's strategy. These factors are described in detail, as follow:

Political

- Uncertain political environment continued to be major factor affecting the economic activities of the country. A range of fiscal and monetary policy measures were implemented to address the macroeconomic imbalances and mitigate external account risks.

Impact	Response
Negative impact of repricing lag on Net Interest Margin (NIM).	Effective repricing and duration management.
Low credit demand and its impact on bottom-line.	Diversify fee-based income.

Economic

- The prevailing political unrest, difficult macroeconomic environment and elevated inflation accompanied with external factors kept Pakistan's economy under pressure. However, performance of the economy has started improvement in short-term.
- As per IMF estimates, GDP witnessed contraction of 0.2% in 2023 which was earlier estimated at 0.5% in July and October 2023 updates.

Outlook: The IMF has projected GDP to grow by 2.0% in FY'24 and 3.5% in FY'25. Simultaneously, SBP has projected domestic growth around 2-3% in FY'24 and inflation at 5-7% by the end of FY'25.

Impact	Response
Increased volatility of exchange rate.	Effective hedging of assets and liabilities denominated in foreign currency.
Anticipated rise in capital and recurrent spending on training and development in short and medium-term.	Sustaining employees to propel the Bank's growth and digital ambitions through appropriate interventions.

Social

- Securing and retaining the right talent equipped with proficient knowledge of emerging technologies and automated systems at present is a considerable challenge.
- Effectively onboarding digital adept customers emerge as a critical factor, given that younger customers engage with the convenience of enhanced technological and e-banking services.

Impact	Response
Bank's strong reputation for good employer practices.	Agile and dynamic work place environment.
Anticipated rise increase in capital and recurrent spending on training and development in short and medium-term.	Sustaining employees to propel the Bank's growth and digital ambitions through appropriate training interventions.

Technological

- Technology is transforming the entire banking landscape converging it towards digitally led solutions providing seamless banking and enhanced customer experience.
- Implementation of cutting edge technologies like application of Artificial Intelligence (AI), Generative AI and Robotic Process Automation (RPA) have been pivotal; contributing towards a sustainable decline in cost-to-income ratios.

Impact	Response
Enhanced risk of breach in cyber security; leading to reputational risk.	The Bank has in place robust Info-Sec setup with emerging controls and continuous updates in line with best industry practices.
Leveraging on digital and e-banking products to cater digital fluent customer base.	The Bank has in-house innovation lab to ensure delivery of digitized solutions to the diverse customer base. The Bank has launched Self-service branches which have revamped the dynamics of conventional brick and mortar branch network.

Environmental

- Environmental risks persist as one of the most significant challenges, with extreme weather, global warming, scarce resources and ozone depletion, continuing to impact the environment in most hazardous ways.
- Banks, by adopting responsible lending practices and policies, can conserve the environment for future generations. Banks have more powerful means of influencing customers towards more environment friendly solutions.

Impact	Response
Implications on climate change and sustainable environment.	<ul style="list-style-type: none"> • Bank has in place green policy ensuring green financing, green business facilitation and its own impact reduction. • Green banking financing has been embedded in the Bank's lending criteria. • Processes automation to reduce use of paper. • Tree plantation campaigns.

Legal

- Potential losses to earnings and reputational damage arising from non-compliance with regulations/statute are mitigated through consistent compliance with the applicable laws and regulations.

Impact	Response

OUR VALUE CREATION BUSINESS MODEL

Geopolitical Environment Affecting the Banking Industry

Pakistan is located at a region which has great political, economic and strategic importance. Pakistan has the potential to develop transit economy due to its strategic location by offering direct and shorter trade routes to China, Central Asian States and Afghanistan with Middle East, Africa and Europe. However, the economic potential is still largely untapped mainly due to unstable security situation and conditions in Afghanistan, trade restrictions on Iran and due to political tensions between Pakistan and its eastern neighbor India. Improvement in the security condition in Afghanistan, lifting or easing of trade restrictions on Iran, and progress in relations with India has the potential to increase the trade volumes and to bring the mutual economic benefits resulting into establishing formal banking channels and offering related banking services.

The economic problems of Pakistan were further aggravated due to its inclusion in the grey list of Financial Action Task Force in 2018. This resulted in widespread reforms in the financial sector including the implementation of Anti Money Laundering, Combating the Financing of Terrorism and Counter Proliferation Financing (AML/CFT/CPF) guidelines by updating the policies and procedures of the Banks in line with the regulations issued by the State Bank of Pakistan. The removal of Pakistan from the grey list of FATF in 2022 has brought financial ease to some extent and has helped in securing much needed economic support from the global financial institutions.

The Bank continuously realigns its strategies keeping in view all economic, legal and geopolitical factors with an objective of maximizing long-term shareholder value.

Legislative and Regulatory Environment of the Bank

The Banking industry is highly regulated by governments across the globe, as banks play a vital role in implementing the government's monetary policy. The banks operate as the engine of the economic growth due to their core function involving large amounts of money flows. The main rationale of regulating Banking industry is to ensure safety of customers' deposits, stability of the financial system, and to prevent financial crime.

Allied Bank Limited being a scheduled bank engaged in commercial banking and related services, and also listed on the Pakistan Stock Exchange is primarily regulated by the State Bank of Pakistan and the Securities and Exchange Commission of Pakistan.

Under the regulatory framework, the State Bank of Pakistan has been entrusted with powers and mandate mainly under the State Bank of Pakistan Act, 1956, the Banking Companies Ordinance, 1962, and the Foreign Exchange Regulation Act, 1947 to regulate and supervise the Banking Industry. Moreover, the Securities and Exchange Commission of Pakistan regulates primarily through Companies Act, 2017 for protecting the interests of various stakeholders and inculcating principles of corporate governance.

The regulatory framework of State Bank of Pakistan comprises of a set of policies, guidelines, prudential standards, and allied processes & procedures covering the following key areas;

- Licensing Regime
- Prudential Regulations
- Corporate Governance Regime
- Capital Adequacy Regime
- Anti-money laundering and Counter Financing of Terrorism (AML/CFT) Regime
- Policy Environment and Market Discipline
- Financial Consumer Protection Framework

RISK AND OPPORTUNITIES

RISK MANAGEMENT FRAMEWORK

Risk Management Framework is the collection of fundamental elements like Risk Governance, Risk Architecture and Risk Organization that are implemented in the Bank to identify and manage material risks.

The Board of Directors is responsible for the overall effective risk management of the Bank. The Bank has in place a comprehensive risk management and governance framework.

Risk Governance includes risk strategy, risk culture, risk structures, risk acceptance criteria, risk policies & procedures, and roles and responsibilities of different stakeholders.

The Board of Directors is responsible for approval of risk strategy, risk management policies, providing guidance for sound and informed decision-making and effective allocation of resources. The Board of Directors also oversees appointment of senior management personnel capable of managing the risk activities conducted by the Bank.

The Board Risk Management Committee (BRMC) is responsible for ensuring that the overall risk strategy and risk acceptance criteria of the Bank is appropriately defined in the Strategic Plan and recommends the same to the Board of Directors for approval. The BRMC monitors the quality of asset portfolio and suggest measures to keep the infected portfolio at minimum level. The Committee also approves risk limits.

Risk architecture of the Bank includes risk processes, systems, tools and methodologies for identifying, assessing and monitoring risks. The risk policies and procedures developed are consistent with the Bank's Risk Management Strategy and Risk Acceptance Criteria and are reviewed on a periodic basis to reflect changes in internal and external environment.

Risk organization includes the set-up for an independent, resourceful and effective risk management group. Risk Management Functions at the Bank include Corporate & Financial Institution Risk, Commercial, Small & Medium Enterprises & Consumer Risk, Enterprise Risk, Credit Administration, Information Security & Governance and Technical Appraisal.

The Chief Executive Officer and Group Chiefs are responsible for collective risk management through their membership of various Management Committees i.e., Management Committee (MANCO), Asset and Liability Committee (ALCO), Compliance Committee (CC) and Risk Management Committee (RMC). Independent supervision of risk management activities is provided by the Audit Committee of the Board and Audit & Risk Review Group.

RISK MANAGEMENT POLICIES

The Board of Directors have put in place an effective and robust risk management system to identify, evaluate and mitigate all risks undertaken in the achievement of long-term strategic objectives of the Bank. Risk Management and Governance Framework of the Bank is calibrated on below parameters.

Risk Management Process

The Board of Directors monitors the implementation of risk strategy and approves the risk policies and risk acceptance criteria to ensure that risks are managed within tolerance level.

The Bank's comprehensive and integrated risk management framework is focused on monitoring and governance over various categories of risk. The Bank has in place Risk Policies for all material risks faced by the Bank, which includes:

- Credit Policy
- Strategic Risk Management Policy
- Country Risk Management Framework
- Market & Liquidity Risk Policy
- Information Security Policy
- Reputational Risk Management Framework
- Operational Risk Management Policy
- Green Banking Policy

The Risk Acceptance Criteria Statement (RACS) is part of the Risk Management Strategy and is used to quantify the aggregate risk the Bank is prepared to carry across the key risk types i.e., Credit Risk, Market & Liquidity Risk, Operational Risk, Strategic Risk, Regulatory Risk, Legal Risk, Reputational Risk etc.

ASSESSMENT OF THE PRINCIPAL RISKS FACING THE BANK

Innovation, new business models, political and economic changes and rapidly evolving technologies are transforming competitive industry landscape. These trends are continuously monitored and assessed by the Board of Directors vis-à-vis their impact on the long-term strategic plans of the Bank for sustainable value creation.

Bank's strategy, risk management policies and procedures are updated on a proactive basis in sync with the evolving business environment. Further, Board of Directors ensure that necessary steps are taken to foster a bank-wide risk management culture including appropriate risk awareness and mitigation at all levels of the organization.

The principal risks being faced by the Bank are categorized below.

INADEQUACY IN CAPITAL STRUCTURE

The Bank has in place adequate capital which is well above the regulatory limits set under the Basel Capital Adequacy Framework. Bank's Capital Adequacy Ratio stood at 26.21% against regulatory requirement of 12.5% (currently reduced by SBP under COVID-19 relief measures to 11.5% including capital conservation buffer of 1.5%). Common Equity Tier 1 Capital Adequacy Ratio is 19.78% against regulatory requirement of 6%. Leverage ratio of the Bank is 5.52% as compared to regulatory limit of 3%.

INITIATIVES TAKEN BY THE BANK IN PROMOTING AND ENABLING INNOVATION

To meet the challenges in the evolving digital age and to provide customers with innovative solutions and seamless services, Bank continues to invest in cutting-edge technologies to upgrade its systems and processes.

Allied Bank reached a significant milestone in fostering inclusivity through the successful implementation of the Talking ATM feature in select ATMs, specifically designed to aid visually impaired customers. This initiative is in line with the Bank's commitment to supporting individuals with disabilities. The introduction of this feature represents a crucial advancement in ensuring that banking services are accessible to all segments of the community, furthering ABL's dedication to creating an inclusive banking environment.

COMPETITIVE LANDSCAPE AND MARKET POSITIONING

The Bank operates in a highly competitive environment in which it must evolve and adapt to the significant changes as a result of financial regulatory reform, technological advances, increased public scrutiny, evolving customer expectations and prevailing economic conditions. The Bank expects that competition in the financial services industry will continue to be intense and shall impact on the Bank's future business, results of operations, financial condition and prospects.

New competitors in the financial services industry continue to emerge. Technological advances and the growth of e-commerce have made it possible for non-banks to offer products and services that traditionally were banking products such as payments processing. Furthermore, payments processing and other services could be significantly disrupted by technologies, such as blockchain which may be subject to lower levels of regulatory oversight. Shifting customers trends towards digital channels have caused data breaches become prevalent and made privacy concerns intense, thus regulatory and compliance requirements are becoming more restrictive as a result. Furthermore, introduction of Digital Banks by the regulator could potentially have significant impacts on the banking system and the role of commercial banks within it by disrupting the current provision of banking products and services. It could allow new competitors, some previously hindered by banking regulations (such as FinTechs), to provide customers with access to banking facilities and decrease the intermediation role of banks. Further to aforesaid, customer demands are evolving as they seek round-the-clock personalized services.

The Bank having an appropriate mix of brick-and-mortar model of branches along with robust digital infrastructure base, is positioned in right place to meet the diverse requirements of its existing customers and to attract the new customers. Furthermore, the Bank's operational support base including staff is fully equipped with appropriate skills mix, competence and infrastructure to address the challenges posed by changes in regulatory regime, technological advances, evolving customer expectations and behaviors.

RISK EVALUATION AND MANAGEMENT STRATEGIES

SWOT ANALYSIS

The Bank consistently performs SWOT analysis to navigate the ever-changing operational landscape. The Bank employs a comprehensive strategy to capitalize its inherent strengths including robust market positioning to cultivate a competitive advantage. This approach is pivotal for seizing opportunities and effectively addressing potential threats within rapidly evolving business environment.

Identifying existing strengths (where we are now)

The Bank has attained and cultivated a range of skills that can be classified as strengths in pursuit of its strategic objectives. Major strengths of the Bank include::

- Strong brand image – Serving customers for more than 8 decades.
- Total Assets exceeding Rs. 2 trillion; large number of branches with country-wide outreach.
- Strongest possible long-term and short-term entity credit ratings of “AAA” and “A1+” respectively by Pakistan Credit Rating Agency.
- Strong capital positioning – among the highest Capital Adequacy Ratio in the industry.
- Low infection ratio and high coverage ratio.
- Extensive network of Branches, Automated Teller Machines (ATMs) with continuous enrichment by digitalization.
- One of the leading ATM / Branch Up-time in the industry.
- One of the highest ATM transactions as acquirer.
- Launched Pakistan’s first virtual touchpoint in Metaverse.
- State of the art technological platform – Temenos T24 supported by Oracle Financials, Oracle Human Resource Management System, Oracle Financial Services Analytical Applications, use of Data Lake, Business Intelligence Dashboards, and AI tools.
- Robust Risk Management framework in place, industry innovation leaders in terms of obligor assessment and technical understanding along with Environmental and Social Risk Assessment, resulting in solid asset quality.
- Growing digital banking platform catering from Corporate Business Internet Banking to Personal banking needs (myABL).
- Human capital geared towards e-banking era.
- Maintained top level of Corporate Governance rating of CGR-9++; depicting a strong commitment towards governance framework by the Board and management of the Bank.

Realizing potential opportunities (where we want to be)

The SWOT analysis provides a tool to the Bank to highlight the potential opportunities in which the Bank can excel and grow. Major opportunities include:

- Large number of unbanked population in the country; opportunity to enhance financial inclusion.
- Build market share in all segments including retail banking and trade business.
- Exploit opportunities to increase private sector credit; diversify interest income mix
- Penetrate in Islamic Banking – niche market segment especially for low-cost funding.
- Use of Artificial Intelligence (AI) and Generative AI to augment operational efficiency and enhance decision making process.
- Cross sell opportunities with the Bank’s existing customers – deepening of relationships.
- Augment remittance business from untapped markets.
- Expansion in digital led financial solution and collaboration with emerging FinTech.
- Explore new avenues to increase fee-based income including acquiring business and innovative digital service products.
- Enhance Green Banking practices within the Bank and for the customers.

Assessing possible threats

The Bank analyses its internal and external operating environment to highlight areas which can impact the Bank's ability to achieve its strategic objectives. Notable threats having potential impact are as under:

- Data governance, standardization and Information Security challenges and threats – Cyber risks.
- Rising compliance related cost amidst Anti Money Laundering and Combating Financing of Terrorism requirements.
- Economic challenges leading to possible adverse impact on credit off take and loan repayments – high interest rate scenario.
- US\$-PKR parity – prospects of devaluation and higher tax regime for the banks.
- Increase in cost of doing business amid rising inflation.
- Emerging Digital Banks, FinTech and rapidly evolving technology might disrupt traditional brick and mortar banking system in near future as these are more convenient for millennials.

Addressing areas of improvement

The SWOT analysis serves as a planning framework, assisting the Bank in identifying the areas of improvements related to cost optimization, optimal utilization of earning assets and enhancing the market shares. This enables the Bank to become more competitive and resilient in advancing towards its strategic objectives. These areas are incorporated and monitored at various levels in the Bank and form an integral part of the Bank's Rolling Strategic Plan.

SENSITIVITY ANALYSIS

The Pak Rupee witnessed high volatility during the year and, on year-on-year basis, depreciated by around 24.48% against US Dollar in Inter Bank Exchange Market.

Foreign Exchange Risk exposes the Bank to changes in the value of exposure denominated in foreign currencies due to the exchange rate fluctuations and volatility. The types of the instruments exposed to this risk are mainly investments in foreign branches, advances and deposits denominated in foreign currency, cash flows in foreign currencies arising from foreign exchange transactions etc.

The Bank monitors different limits like Foreign Exchange Exposure Limit (FEEL), Currency-Wise Limits, NOSTRO Limits and intra-day Net Open Position for effective risk management. The Bank also conducts stress testing of the foreign exchange, equity and fixed income portfolio which is reviewed by the Bank's senior management and Board Risk Management Committee (BRMC).

The Bank's Foreign Exchange Risk is largely mitigated by following a matched funding policy, whereas, for any mismatched exposures, the Bank utilizes appropriate derivative instruments such as Forwards and Swaps. The Bank maintains adequate regulatory capital to cover against foreign exchange risk.

- iv. Human Resource and Remuneration Committee
- v. Audit Committee of the Board

As part of the overall stewardship responsibility, the Board and its Committees do not take part in the Bank's day-to-day affairs which is mandate of the Management.

Chief Executive Officer performs a key role in managing the day-to-day affairs of the Bank and ensures that the policies approved by the Board of Directors are effectively implemented and monitored.

Chief Executive Officer is responsible for all matters affecting the operations, performance and strategy of the Bank not otherwise expressly reserved to the Board of Directors. He is also responsible for the leadership of the business and for managing overall affairs within the responsibilities delegated by the Board of Directors.

Review report by the Chairman on overall performance of the Board

Primary objectives of the Board of Directors, apart from carrying out its fiduciary duties as required under relevant regulations, includes providing strategic direction, oversight and supervision of the affairs and business of the Bank and to ensure compliance with applicable laws & regulations and ethical conduct.

The Bank has formalized an in-house approach with quantitative techniques and evaluation by an external independent evaluator every three years for reviewing the Board of Directors' overall performance including performance of Chairman of the Board of Directors, individual Directors including Chief Executive Officer and Board Committees as per the requirements set out in the Companies Act, 2017, Listed Companies (Codes of Corporate Governance) Regulation, 2019, SBP Corporate Governance Framework and SBP guidelines on performance evaluation of Board of Directors.

The evaluation process concluded that the Board of Directors performed their duties diligently and effectively in the best interest of all stakeholders, despite challenging operating and regulatory environment, whilst upholding the vision, mission and core values of the Bank. Board of Directors is committed to enhance shareholders' value while continuing to transform the Bank to cater the evolving needs of the Bank's valued customers. The Bank's Board of Directors are committed in carrying out its duties diligently and professionally while maintaining focus on sustainable growth of the Bank.

Annual Evaluation of Board, Committees and Individual Directors' Performance

Board composition is a significant contributing factor to the performance of Board of Directors. An appropriate experience, skill-mix and competencies are crucial for the effective functioning of the Bank. The Board of Directors of Allied Bank Limited comprises of 7 Non-Executive Directors (including 3 Independent Directors) and CEO being the Executive Director, bringing vast experience in diverse fields, appropriate skillset, independence and diversity. The Board of Directors is assisted by five Board Committees. The rationale of Board Committees is to enhance the efficiency and share the workload of the Board.

Performance evaluation of Board of Directors, Committees, Individual Members and CEO is imperative to determine their strengths and weaknesses in order to increase their overall effectiveness and to ensure the compliance with the responsibilities under The Companies Act 2017, Banking Companies Ordinance 1962, SBP's Prudential Regulations, Corporate Governance Regulatory Framework, Listed Companies (Code of Corporate Governance) Regulations, 2019 and other laws and regulations.

In order to comply with the requirement of the Code of Corporate Governance Regulations, the Board of Directors, in the year 2014, put in place an effective mechanism for the evaluation of Board of Directors. Subsequently, SBP vide BPRD Circular No. 11 dated August 22, 2016, issued detailed Guidelines on Performance Evaluation of Board of Directors.

As per these Guidelines, Board decided to opt for in-house approach with quantitative techniques and evaluation by an external independent evaluator every three years.

As per approved mechanism, performance evaluation of following categories is conducted:

- I. Chairman of Board of Directors
- II. Overall Board of Directors
- III. Sponsor Directors
- IV. Independent Directors
- V. Other Non-Executive Directors
- VI. Board Committees
- VII. Chief Executive Officer

Criteria for Annual Evaluation of Performance

The Bank uses SBP criteria for in house annual performance evaluation of Overall Board of Directors, Chairman, Members of the Board, Board Committees and CEO. Following are the main attributes of the performance evaluation criteria:

Category	Particulars
Overall Board of Directors	<ul style="list-style-type: none"> • Responsibilities • Composition • Structure and Committees • Working Procedures • Duties and Liabilities
Chairman	<ul style="list-style-type: none"> • Effective Leadership • Relationship with other Members, Management and shareholders • Conflict Resolution • Promoting constructive debate and effective participation in decision making • Shareholders' confidence in Board

During the year 2023, the Bank also arranged a Seminar on "Global Megatrends and decision-making calculus" for its Board Members. This Seminar was conducted by Dr. Ishrat Hussain (Former Governor SBP).

Directors' Orientation Program

The Bank has put in place a formal procedure to make appropriate arrangements to carry out orientation of the Directors to acquaint them with the Code of Corporate Governance Regulations, applicable laws, their duties and responsibilities to enable them to effectively govern the affairs of the Bank. Members of the Board of Directors were regularly updated on changes in law and regulations and important news relating to financial sector and economic environment of the Country.

Board's Remuneration Policy

The Bank's Board Remuneration Policy, formulated in accordance with SBP's guidelines, was approved by the Bank's Shareholders. The scale of remuneration to be paid to Chairman of the Board of Directors and Non-Executive

Directors including Independent Directors (excluding CEO) for attending the Board and its Committees meetings is determined keeping in view the responsibilities, governance structure and expertise, in accordance with the approved policy.

Full scope review of policy was presented and approved in 77th AGM of the Bank held on March 28, 2023.

The salient features of the Board's Remuneration Policy are as under:

- No Director is involved in deciding his/her own remuneration.
- No fee is paid if any of the Directors does not attend a meeting. Similarly, fee is not paid for the proposals considered through circulation.
- The administrative expenses pertaining to the office and staff allocated to the Chairman of the Board of Directors are determined rationally.
- Directors may be provided with certain facilities incidental to the performance of their role as Members of the Board of Directors depending on the need and as approved by the Board of Directors.

Policy for Nomination on the Board of Directors of other Companies

Board's Human Resource and Remuneration Committee approves nominations of the Bank's Executives and Directors on the Board of other Companies on behalf of the Bank. Nominee Directors are advised to surrender the fee paid by the said companies for attending the Board and Board Committee meetings to the Bank.

Security Clearance of Foreign Directors

Foreign Directors, if any, elected on the Board of Directors requires security clearance from the Ministry of Interior Affairs through Securities and Exchange Commission of Pakistan. Currently, there is no foreign Director elected on the Board of the Bank.

Executive Directors and their Directorship

Mr. Aizid Razzaq Gill, being CEO, is the only Executive Director on the Board (Deemed Director). He is serving as a Non-Executive Director on the Board of ABL Asset Management Company Limited. He is also the Bank's Representative on the following:

1. Management Association of Pakistan (MAP) – Representative.
2. Pakistan Business Council (PBC) – Alternate Representative.

Roles and Responsibilities of the Chairman of the Board of Directors and the Chief Executive Officer

The respective roles and responsibilities of the Chairman of the Board of Directors and Chief Executive Officer are defined by the Board of the Directors in accordance with the guidelines of the Companies Act, 2017, Code of Corporate Governance and laws and regulations presently in vogue. The Bank being rated

with very high Corporate Governance Rating 9++ has ensured that respective roles and responsibilities are clearly defined, communicated and practiced. However, for the purpose of information to the stakeholders these are summarized hereunder:

Roles and Responsibilities of the Chairman of the Board of Directors

The Chairman of the Board of Directors is responsible for leadership of the Board and ensures that the Board plays an effective role in fulfilling its responsibilities. The Chairman plays a leading role in defining the "Vision" and "Mission" statements of the Bank and ensuring the implementation of the same by developing strategies through the Board of Directors. The roles and responsibilities of the Chairman of the Board of Directors encompasses:

External Oversight of Functions

Banks need to have robust governance arrangements to ensure sound and effective decision making and functioning. Oversight is a critical governance function and is being performed by the Board of Directors, Committees, and also through External Specialists.

Oversight refers to the action taken to review and monitor public interest companies and their policies, plans, functions and procedures to ensure that they:

- are achieving expected results
- represent good value for money
- are in compliance with applicable policies, laws, regulations and ethical standards

External Oversight at the Bank

The Bank regularly undertakes external oversight assignments of its systems and various functions through external specialists as per regulatory requirements and otherwise, to assess the efficacy of their operations and security of the IT assets. Notable oversight assignments carried out during recent years are as under;

- Development of Information Security Risk Management Program aligned with SBP regulations & guidelines and global best practices
- Review and Validation of ECL Model under IFRS 9
- External Assessment of the Bank's Internal Audit Function to review compliance with the requirements of SBP guidelines and International Professional Practices Framework (IPPF) issued by the Institute of Internal Auditors (IIA)
- Validation and Back Testing Process of Obligor's Risk Rating Models
- Assessment of e-CIB Data Reporting Mechanism
- External Penetration Testing exercise
- PCI DSS (Payment Card Industry Data Security Standard) compliance assessment

The results of these oversight assignments are shared with management for calibrations of existing processes and systems to address any associated operational, technological or reputational risk.

OUR GOVERNANCE PHILOSOPHY

Authorization of Financial Statements

Chairman of Audit Committee of the Board attended the 77th Annual General Meeting held on March 28, 2023 to answer questions on the activities and matters within the scope of Audit Committee of the Board's responsibilities.

Appointment of Non-Executive Directors through an External Search Consultancy

The selection of independent directors as members of the Bank's Board of Directors is carried out from a list maintained by the Pakistan Institute of Corporate Governance (PICG) under the Companies (Manner and Selection of Independent Directors) Regulations, 2018. Non-Executive Directors are elected through election of Directors at the General Meeting. The last election took place in Year 2021. No external search consultancy services were obtained for appointment of the Non-Executive Directors, at the time of election.

Key Governance Practices

- The Board of Directors comprises of an appropriate mix of Directors in terms of experience, competence and financial acumen.
- Six members of the Board of Directors are certified directors, whereas two directors are exempted from the requirement based on their experience.

- Three members of the Board of Directors are independent directors.
- Board of Directors has constituted five Board committees to assist in the governance of the Bank i.e., Audit Committee, e-Vision Committee, Board Risk Management Committee, Strategic Planning & Monitoring Committee and Human Resources & Remuneration Committee.
- Corporate Governance rating of the Bank also depicts a strong commitment towards governance framework by the Board of Directors and management of the Bank.

Governance Practices exceeding Legal Requirements

The Bank is fully committed in inculcating the best Corporate Governance practices throughout the organization and accordingly has been awarded the Corporate Governance Rating of 9++ (out of maximum scale of 10) by the VIS Credit Rating Company Limited. This rating signifies a very high level of Corporate Governance.

Shares held by Sponsors, Directors and Executives

Shares held by Sponsors, Directors and Executives and respective percentage shareholding as on December 31, 2023 is disclosed in detail under Pattern of Shareholding section of the Annual Report.

Impact of Government's Policies on Banking Sector

The impact of Government's policies on the performance of the Banking industry is discussed in detail under the Macroeconomic Development and Financial Performance section of the Directors' Report.

STATEMENT ON INTERNAL CONTROL

The Bank's management is responsible for establishing the Internal Control System with the main objectives of ensuring effectiveness and efficiency of operations, reliability of financial reporting, safeguarding of assets and compliance with applicable laws and regulations.

The Bank's Compliance policy and procedures further strengthened by a comprehensive Control Review and Testing Framework (CRTF), approved by the Board of Directors, outline the Bank's overall control objectives and approach towards implementation and testing of the Bank's Internal Control System.

Under the aforementioned CRTF, the Bank's Internal Control System is being evolved, reviewed and improved on an ongoing basis to minimize risks which are inherent in banking business and operations; with continuous monitoring by the Compliance Group and independent review by Audit and Risk Review Group (A&RRG).

A&RRG works under direct supervision of Audit Committee of the Board of Directors (hereafter referred as the Committee). The Committee is chaired by an Independent Director and comprises entirely of Independent Directors.

A&RRG assists the Committee and the Board of Directors in discharge of their responsibility in respect of Internal Control System. A&RRG reviews, assesses adequacy and monitors the effectiveness of control systems on an ongoing basis.

All significant and material findings are reported to the Committee; which actively monitors that the identified risks and observations are properly mitigated to safeguard the interests of the Bank. The Board of Directors, acting through the Committee, provides supervision and overall guidance in improving the effectiveness of the Internal Control System.

The Compliance Group is entrusted with the responsibility to minimize compliance risk with reference to regulatory framework; internal, external & regulatory audit compliance; control self-assessment, compliance review of material/high risk processes, monitoring completeness and maintaining up to date inventory of the Bank's policies, procedures and controls. The Bank has implemented an effective document life cycle management mechanism necessitating timely review and updation of documentation to incorporate material regulatory requirements and enhance control environment. In order to prevent and detect control lapses, concerted efforts are made, in coordination with all functions of the Bank to improve the control environment through continuous review and streamlining of policy and procedures. In order to further strengthen the control environment, the Bank has automated the related compliance processes through state of the art & internationally recognized Transaction Monitoring System and Name Screening utility to mitigate the risks associated with Anti Money Laundering and Combatting the Financing of Terrorism and to ensure compliance with the local and international regulations. The management has also established Compliance Committee to strengthen oversight role on the compliance environment.

Risk Management Group is entrusted with implementation of effective operational risk management framework. Risk Control Self-Assessment (RCSA) is carried out to assess design of controls

and to evaluate the operational effectiveness of controls. Incidents of loss data are gathered for analysis, reporting and suggesting improvements in existing control structure. Further, Key Risk Indicators on bank-wide basis are defined in coordination with the stakeholders for effective monitoring of potential risks and taking proactive measures for mitigating these risks.

Furthermore, compliance status of all irregularities identified during various audits and inspections is reported to the Committee, while other significant compliance risk related matters are reported to the Board Risk Management Committee as per approved Terms of Reference.

The Bank's Internal Control System is designed to provide reasonable assurance to the Bank's Management and Board of the Directors about the aforementioned objectives.

While the Internal Control System is effectively implemented and monitored, there are inherent limitations in the effectiveness of any system, including the possibility of human error or system failure and circumvention or overriding of controls.

Control activities are an ongoing process that includes continuous identification, evaluation and management of significant risks faced by the Bank.

As part of CRTF relating to financial reporting, the Bank has documented and mapped As-Is processes and controls, identified gaps and requisite recommendations, developed remediation initiatives and management testing plans.

The Bank has completed all the stages of Internal Control over Financial Reporting as specified by the SBP which has granted exemption from the requirement of preparation of Long Form Report by the External Auditors. As a result, A&RRG is preparing "Annual Assessment Report on Efficacy of Bank's Internal Controls over Financial Reporting (ICFR)" under ICFR framework which is approved by the Committee.

The Bank's management considers that the existing Internal Control System is adequate and has been effectively implemented and monitored, based upon the results derived through ongoing testing of financial reporting controls and internal audits carried out during the year. However, the management, adopting a prudent approach, would be continuously evaluating procedures and processes to further augment the Internal Control System.

Based on the above, the Board of Directors has duly endorsed the Management's evaluation of internal controls including ICFR in the attached Director's report.

- o Revised Internal Audit Policy;
- o Islamic Banking Group (IBG) & External Shari'ah Audit Report and compliance status
- o Accounting, Disclosure and Related Party Transaction policy of the Bank, accounting policies for Islamic Banking and Bahrain Branch.

The Committee in accordance with the requirements of Code of Corporate Governance met with the external auditors with and without presence of management to discuss the results of auditors' examination and evaluation of internal controls and the overall quality of the Bank's financial reporting. Furthermore, the Committee ensured efficient supervision of the internal control system by steering separate meetings with Chief A&RRG and internal audit staff.

The Committee also recommends the scope and appointment of external auditors, including finalization of audit and other fees. The Committee evaluates the qualifications, performance and independence of the external auditors. In doing so, the Committee considers the quality and efficiency of the services provided by the external auditors, the external auditors' capabilities, technical expertise and knowledge of the Bank's operations and industry. The Committee ensures compliance with relevant regulations with regard to tenure of external auditors and provisions of non-audit services by external auditors to ensure independence and objectivity of external auditors.

The Committee recommended to the Board of Directors re-appointment of M/s EY Ford Rhodes Chartered Accountants, as statutory auditors of the Bank for the year ending December 31, 2024, subject to approval of the Bank's shareholders in the forthcoming Annual General Meeting.

Performance Evaluation of the Committee

The Committee evaluates its own performance on annual basis thereby assessing the targets achieved, performance initiatives and whistle blowing actions (if any) taken and submits the report to the Board of Directors.

Internal Controls Framework and Role of A&RRG

The Bank's internal control structure comprises of the Board of Directors, the Committee, Management including Compliance Group & Risk Management Group and A&RRG. Roles of all the functionaries have been defined in the Management's Statement of Internal Controls, as part of the Annual Report which is duly endorsed by the Board of Directors.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Allied Bank Limited

Review Report on the Statement of Compliance contained in Listed Companies (Code of Corporate Governance) Regulations, 2019

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of **Allied Bank Limited** (the Bank) for the year ended 31 December 2023 in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Bank. Our responsibility is to review whether the Statement of Compliance reflects the status of the Bank's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the bank's personnel and review of various documents prepared by the Bank to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Bank's corporate governance procedures and risks.

The Regulations require the Bank to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Bank's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Bank for the year ended 31 December 2023.

REPORT OF SHARIAH BOARD

For the year ended December 31, 2023

In the name of Allah, the Beneficent, the Merciful

By the grace of Almighty Allah, the year under review was the 12th year of Islamic Banking Operations of Allied Bank Limited (ABL-Aitebar Islamic Banking). The scope of this report is to cover the affairs of ABL-Aitebar Islamic Banking, from Shariah perspective as stipulated under para 3 (b) of the revised Shariah Governance Framework issued by the State Bank of Pakistan vide its IBD Circular No. 01 of 7th June, 2018.

Shariah Board is pleased to submit their report on the overall Shariah compliance environment of ABL-Aitebar Islamic Banking.

The Board of Directors and Executive Management are solely responsible to ensure that the operations of ABL-Aitebar Islamic Banking are conducted in compliance with Shariah principles at all times. Shariah Board asserts that it has performed their duties independently with courteous relationship among the SB members and management of Bank.

To form basis of our opinion as expressed in this report, Internal Shariah Audit reports, on test check basis, of each class of transactions, the relevant documentation and process flows on sample basis was carried out. Besides, we have also reviewed the reports of the Shariah compliance review and external Shariah Audit of ABL-Aitebar Islamic Banking operations conducted during the year.

Based on the above, we are of the view that:

The business affairs of ABL-Aitebar Islamic Banking, especially with reference to transactions, relevant documentation and procedures, performed during the year 2023 are in conformity with the principles and guidelines of Shariah issued by Shariah Board (SB) and State Bank of Pakistan.

The Bank primarily used Business Musharkah and Diminishing Musharakah for its financing activities during the year.

ABL-Aitebar Islamic Banking has put a mechanism in place in the form of Internal Shariah Audit and Shariah Compliance reviews to ensure Shariah compliance in its overall operations that will keep its focus on continuous improvement for catering to the large branches/windows network over the coming years. The system within the Bank is sound enough to ensure that amounts realized from prohibited sources, if any, are not made a part of the income. During the Shariah Review and audit of the financing portfolio, no Shariah non-compliant transaction was observed. The Bank received an amount of Rs. 3.65 million from the clients in respect of charity on delays in payments in various financial transactions and credited these payments to the Charity Account.

Since the charity funds are kept under Mudharabah base account, the accrued Mudarabah profit of Rs. 0.51 million was also credited to the charity account. An amount of Rs. 4.00 million was granted to approved charitable institutions.

The Internal Shariah Audit Function (ISAF) plays a vital role in achieving the objective of ensuring Shariah compliance by evaluating the adherence to Shariah guidelines prescribed by SB, Resident Shariah Board Member (RSBM) and Shariah guidelines of Islamic Banking Division of SBP, in every activity under taken by the ABL-Aitebar Islamic Banking, on sample basis. ISAF submits periodical reports to RSBM /Shariah Board for information, review and determination of appropriate corrective actions.

Shariah Compliance Department (SCD) of the Bank is working under the guidance of SB. The main objective of this department is to facilitate and ensure Shariah compliance in all the new researches, conducting Islamic banking trainings, Shariah-compliance review of each class of transactions, relevant documentation and process flows. SCD has conducted the review of branches on sample basis to evaluate the Shariah knowledge of staff.

Review and Development:

ABL-Aitebar Islamic Banking has completed yet another successful year. Upon achieving a branch network of 127 dedicated Islamic branches and 162 Islamic Banking windows. Significant growth in assets, Investments, deposit, trade and other business avenues have been registered.

Asset Review:

During the year, financing portfolio has increased by 19.25% to Rs79,620 million as compared to 66,768 million in preceding year, which mainly constitutes of Business Musharkah (76.01%) and Diminishing Musharkah (19.34%).

Besides, the investment portfolio has also risen by 35.80% to Rs. 38,360 million as compared to 28,248 million in last year, which mainly constituting Government Ijarah Sukuk, Corporate Sukuks and Islamic Naya Pakistan Certificates.

Deposit Review:

The total deposits of ABL-Aitebar Islamic Banking have increased by 32.65% during the year reaching to Rs. 95,334 million by December 31, 2023 as compared to Rs. 71,870 million as of last year.

Other Key Activities:

SB also reviewed different policies and manuals during the year.

Profit Distribution Policy:

SCD also conducted review of the process of profit distribution on monthly basis and ensured that the distribution is in line with instructions of SB and SBP. Moreover, internal Shariah audit of pool management has been conducted on quarterly basis, which has further improved the process of pool management, profit and loss distribution and strengthened the compliance of Shariah guidelines.

Shariah Board Meetings:

During the year 2023, four Shariah Board meetings were held wherein multiple issues were discussed and resolved. SCD remained in close coordination with the Shariah Board and management in order to implement Shariah Board decisions. The ongoing involvement of SB not only ensured that it constantly remained on board with all the Shariah affairs of the Bank but it also enabled them to engage in order to approve different matters by way of circulation.

Staff Training

In order to enhance the Islamic banking knowledge and expertise, training on Islamic Banking concepts as well as on Islamic banking products were imparted to the staff of the Islamic Banking Group. Management Development Centers of ABL with the assistance of SCD, arranged various mandatory and refresher training sessions and 2552 employees attended these sessions. Moreover, 13 employees attended training session conducted by NIBAF and other reputed Islamic banking training institutes.

BOD and Shariah Board Training/Orientation

In order to enhance Islamic banking knowledge and acumen, an orientation session for BOD was conducted by the Shariah Board. Further an orientation was arranged for executive management. Moreover, different trainings were attended by the members of Shariah Board.

In order to create awareness of Islamic banking in the general public, the Bank conducted different seminars for general public.

Recommendations:

Following are some areas, which require continuous focus:

1. Bank's increased focus on creating awareness regarding Islamic banking by conducting seminars / programs and awareness sessions is well appreciated. It is recommended that such programs should also be continued in future at mass level.
2. Bank's policy of appointing new staff members for Islamic banking branches with inclination /commitment towards the cause of Islamic banking should be continued during

the process of hiring of new staff.

3. The Bank should initiate and support SME & Agriculture financing to alleviate poverty currently prevailing in the rural areas of the country. The Bank shall encourage energy projects which are environmental friendly such as solar panels.
4. Bank is actively pursuing training of its human resources about various aspects of Islamic Banking & Finance through training sessions. However, continuous focus should be maintained to improve the level of awareness through practical nature Islamic Banking refresher, certification and Shariah documentation courses.
5. State Bank of Pakistan is focusing on Islamic banking training. Therefore, it is suggested that in order to cope with the increasing requirement of training in the Bank, a dedicated team of Islamic banking trainers should be available in the Bank.
6. Conventional insurance is not permissible from Shariah perspective. Therefore, it is recommended to convert IBG's assets to Takaful as soon as possible.

We pray to almighty ALLAH to provide us guidance to adhere to the Shariah principles in day-to-day operations, to absolve our mistakes and for the success of Islamic banking in Pakistan.

شریعی بورڈ کی رپورٹ برائے اختتام سال 31 دسمبر 2023

شروع اللہ کے نام سے جو بڑا مہربان اور نہایت رحم کرنے والا ہے۔

طریقہ کار، شریعی بورڈ اور اسٹیٹ بینک لمیٹڈ کے فراہم کردہ شریعی اصولوں اور ضوابط سے مکمل مطابقت رکھتے ہیں۔

اللہ سبحانہ و تعالیٰ کے فضل و کرم سے، ال ایٹڈ بینک لمیٹڈ کے اسلامی بینکاری کے کاروبار (اے بی ایل - اعتبار اسلامک بینکنگ) نے اس زیر تجزیہ مدت کے ساتھ اپنے 12 سال مکمل کر لیے ہیں۔ اس رپورٹ کا مقصد اے بی ایل - اعتبار اسلامک بینکنگ میں، اسٹیٹ بینک آف پاکستان کی طرف سے جاری کردہ سرکلر نمبر 01 بتاریخ 07 جون 2018، میں نظر ثانی شدہ شریعی گورننس فریم ورک کے پیراگراف (b) کے تحت، اسلامی بینکاری کے معاملات کا شریعی نقطہ نظر سے جائزہ لینا ہے۔

بینک نے اس سال کے دوران زیادہ تر کاروباری مشارکہ اور شرکت متناقصہ کی مصنوعات کو حتمی سرگرمیوں کے لیے استعمال کیا۔

اے بی ایل - اعتبار اسلامک بینکنگ نے اپنے مجموعی کاروبار کی شریعی کمپلائنس کو یقینی بنانے کے لیے انٹرنل شریعی آڈٹ اور شریعی کمپلائنس کے تجربے کی شکل میں ایک نظام تشکیل دیا ہے۔ اور آنے والے سالوں میں ایک وسیع براؤنچ/ونڈوز نیٹ ورک کی ضروریات کو پورا کرنے کے لیے اس نظام میں مسلسل بہتری کے عمل پر اپنی توجہ مرکوز رکھے گا۔ بینک کے موجودہ نظام میں اس بات کو یقینی بنانے کی صلاحیت ہے کہ کسی بھی ممنوع ذرائع سے حاصل ہونے والی رقم (بالفرض، اگر ہوں) کو آمدنی کا حصہ بننے سے روک سکے۔ تمویلیات کے پورٹ فولیو کے شریعی جائزے اور آڈٹ میں کوئی غیر شریعی لین دین نہیں پایا گیا۔ بینک نے مختلف مالی لین دین کی تاخیری ادائیگیوں کی وجہ سے چھوٹی (خیرات) کی مدد میں 3.65 ملین روپے وصول کیے اور اس رقم کو چھوٹی کے اکاؤنٹ میں جمع کروایا۔

شریعی بورڈ کے لیے یہ امر باعث مسرت ہے کہ وہ اے بی ایل - اعتبار اسلامک بینکنگ کے کاروبار کی شریعی کمپلائنس کے حوالے سے وضع کردہ مجموعی نظام پر اپنی رپورٹ پیش کر رہا ہے۔

بورڈ آف ڈائریکٹرز اور ایگزیکٹو مینجمنٹ پر یہ ذمہ داری عائد ہوتی ہے کہ اے بی ایل - اعتبار اسلامک بینکنگ کا کاروبار ہمہ وقت شریعی اصولوں کے تابع رہے۔ شریعی بورڈ اس امر کا اعادہ کرتا ہے کہ اس نے اپنی تمام تر ذمہ داریاں، شریعی بورڈ کے ممبران اور بینک کی انتظامیہ کے مابین مکمل ہم آہنگی اور تعاون کے ساتھ، آزادانہ طور پر ادا کی ہیں۔

چونکہ، چھوٹی کی رقم مضاربہ اکاؤنٹ کے تحت رکھی جاتی ہے، لہذا، 0.51 ملین روپے کا جمع شدہ مضاربہ منافع بھی چھوٹی کے اکاؤنٹ میں کریڈٹ کیا گیا۔ منظور شدہ فلاحی اداروں کو 4.00 ملین روپے کی گرانٹ دی گئی۔

ہم نے اپنی مذکورہ رائے کو قائم کرنے کے لیے، جیسا کہ اس رپورٹ میں اظہار کیا گیا ہے، ہر قسم کے لین دین اور اس سے متعلقہ دستاویزات اور انکی انجام دہی کے طریقہ کار کا نمونوں کی بنیاد پر تجزیہ کیا ہے۔ علاوہ ازیں، ہم نے انٹرنل شریعی آڈٹ اور اس سال کے دوران ہونے والے اے بی ایل - اعتبار اسلامک بینکنگ کے کاروبار کی شریعی کمپلائنس رپورٹ اور ایکسٹرنل آڈٹ رپورٹوں کا بھی جائزہ لیا ہے۔

انٹرنل شریعی آڈٹ (آئی ایس اے ایف) (Internal Shariah Audit Function - ISAF)، اے بی ایل - اعتبار اسلامک بینکنگ کی جانب سے اختیار کی گئی ہر سرگرمی میں سے منتخب شدہ نمونوں کی بنیاد پر شریعی بورڈ، ریویژنٹ شریعی بورڈ ممبر (RSBM) اور اسٹیٹ بینک آف پاکستان کے اسلامی بینکاری ڈویژن کی طرف سے جاری کردہ شریعی ضوابط و ہدایات کی مکمل پاسداری کے ساتھ شریعی کمپلائنس کو یقینی بنانے کا اہم کردار ادا کرتا ہے۔ آئی ایس اے ایف (ISAF)، آرائس بی ایم (RSBM) / شریعی بورڈ کو انکی معلومات، تجربے اور اصلاحات

مندرجہ بالا امور کی بنیاد پر ہماری رائے یہ ہے کہ:

اے بی ایل - اعتبار اسلامک بینکنگ، کے سال 2023ء کے دوران کاروباری معاملات، خصوصاً لین دین اور اس سے متعلقہ دستاویزات اور

کے تعین کے لیے وقتاً فوقتاً رپورٹس فراہم کرتا ہے۔

31 دسمبر 2023ء تک 95,334 ملین روپے تک چاہئے۔

دیگر کلیدی سرگرمیاں:

سال کے دوران، بینک کے شریعہ بورڈ نے مختلف پالیسیوں اور مینولز (Manuals) کا بھی جائزہ لیا۔

منافع کی تقسیم کی پالیسی:

شریعہ کمپلائنس کے شعبے نے منافع کی ماہانہ بنیاد پر تقسیم کے عمل کا بھی جائزہ لیا اور اس امر کو یقینی بنایا کہ یہ تقسیم شریعہ بورڈ اور اسٹیٹ بینک آف پاکستان کی ہدایات کے عین مطابق ہو۔ مزید یہ کہ، پول منجمنٹ کا سہ ماہی بنیاد پر انٹرنل شریعہ آڈٹ کیا گیا جس سے پول منجمنٹ، نفع و نقصان کی تقسیم کے طریقہ کار میں بہتری اور شرعی نگرانی کا نظام مزید مضبوط ہوا ہے۔

شریعہ بورڈ کے اجلاس (میٹنگز):

سال کے دوران، شریعہ بورڈ کے چار اجلاس منعقد ہوئے جن میں مختلف معاملات پر بحث اور اراکی منظوری دی گئی۔ شریعہ کمپلائنس کا ڈیپارٹمنٹ، شریعہ بورڈ اور انتظامیہ کے ساتھ مسلسل رابطے میں رہتا ہے تاکہ شریعہ بورڈ کے فیصلوں پر عمل درآمد کروایا جاسکے۔ شریعہ بورڈ کی اس مسلسل شمولیت سے ناصرف اس کو بینک کے تمام شرعی معاملات سے آگہی رہتی ہے بلکہ دیگر معاملات میں بھی، سرکولیشن کے ذریعے، اسکی شرکت اور فیصلہ سازی میں مدد ملتی ہے۔

عملہ کی تربیت (ٹرییننگ):

اسلامک بینکنگ کی معلومات اور مہارت میں اضافہ کے پیش نظر، اسلامک بینکنگ گروپ کے سٹاف کی اسلامک بینکنگ کے نظریات اور اس کی پراڈکٹس کے بارے اسلامک بینکنگ کے تمام عملے کو تربیت فراہم کی گئی۔ اسے بی ایل کے منجمنٹ ڈیپارٹمنٹ سینئرز نے شریعہ کمپلائنس ڈیپارٹمنٹ کے تعاون سے ٹرییننگ کی متعدد لازمی اور تجدیدی نشستوں کا انعقاد کیا جس میں 2,552 ملازمین نے شرکت کی۔ اس کے علاوہ 13 ملازمین نے NIBAF اور دیگر محترم اسلامک بینکنگ کی تربیت کے اداروں کی فراہم کردہ تربیتی نشستوں میں حصہ لیا۔

بینک کا شریعہ کمپلائنس کا شعبہ شریعہ بورڈ کی زیر نگرانی کام کرتا ہے۔ اس شعبے کا بنیادی مقصد جدید تحقیقات میں معاونت اور شریعہ کمپلائنس کو یقینی بنانا، اسلامی بینکاری کی تربیت (Trainings) کا انعقاد، ہر طرح کے لین دین، دستاویزات اور اراکی انجام دہی کے طریقہ کار میں شریعہ کمپلائنس کا جائزہ لینا شامل ہے۔ شریعہ کمپلائنس کے شعبے نے سٹاف کی شرعی معلومات کا جائزہ لینے کے لیے منتخب شدہ برانچز کا دورہ بھی کیا ہے۔

ریویو اینڈ ڈیولپمنٹ:

126 مستقل بنیادوں پر کام کرنے والی برانچوں کے نیٹ ورک اور 162 اسلامک بینکنگ ونڈوز کے حصول کے بعد اسے بی ایل - اعتبار اسلامک بینکنگ نے ایک اور کامیاب سال مکمل کر لیا ہے۔ اسی ممالمت میں اثاثہ جات، سرمایہ کاری، ڈیپازٹ، ٹریڈ (تجارت) اور دیگر کاروباری شعبوں میں بھی نمایاں بہتری حاصل کی گئی ہے۔

اثاثہ جات کا تجزیہ:

اس سال کے دوران حتمی مجموعی حجم گزشتہ سال کے 66,768 ملین روپے کی سطح سے 19.25 فیصد کے اضافے کے ساتھ 79,620 ملین روپے تک بڑھ گیا جس میں بزنس مشارکہ - (76.01%) اور شرکت متناقصہ - (19.34%) کا نمایاں کردار رہا۔

ڈیپازٹ کا تجزیہ:

اے بی ایل - اعتبار اسلامک بینکنگ کے مجموعی ڈیپازٹس گزشتہ سال کی 71,870 ملین روپے کی سطح کی نسبت 32.65 فیصد کے اضافے کے ساتھ

بورڈ آف ڈائریکٹرز، ایگزیکٹو مینجمنٹ اور شریعہ بورڈ کی ٹریننگ/تعارفی پروگرام: 5- اسٹیٹ بینک آف پاکستان اسلامک بینکنگ کی تربیت پر خصوصی توجہ شریعہ بورڈ نے بورڈ آف ڈائریکٹرز کی اسلامک بینکاری کی فہم اور معلومات میں اضافہ کے لیے ایک تربیتی نشست کا اہتمام کیا گیا۔ علاوہ ازیں، ایگزیکٹو مینجمنٹ کے لیے ایک تعارفی پروگرام منعقد ہوا۔ مزید برآں، شریعہ بورڈ کے ممبران نے مختلف تربیتی نشستوں میں شرکت کی۔

6- شرعی نقطہ نظر سے روایتی انشورنس جائز نہیں ہے لہذا آئی بی جی (IBG) کے اثاثوں کو جلد از جلد تکافل (Takaful) پر منتقل کرنے کی سفارش کی جاتی ہے۔ عام لوگوں میں اسلامک بینکنگ کی واقفیت کو بڑھانے کے لیے بینک نے متعدد سیمینارز کا بھی انعقاد کیا۔

تجاویز اسفارشات : ہم اللہ رب العزت سے دعا گو ہیں کہ وہ ہمیں روزمرہ معاملات میں شرعی اصولوں پر عمل پیرا ہونے کی توفیق عطا فرمائے، ہماری لغزشوں سے درگزر فرمائے اور پاکستان میں اسلامی بینکنگ کو کامیابی عطا فرمائے (آمین)

1- اسلامک بینکنگ سے واقفیت پیدا کرنے کے لیے سیمیناروں، پروگراموں اور آگاہی کی نشستوں کے انعقاد پر بینک کی بڑھتی توجہ قابل ستائش ہے۔ مستقبل میں، ایسے پروگراموں کو بڑے پیمانے پر جاری رکھنے کی تجویز دی جاتی ہے۔

مفتی طیب امین
ریزیڈنٹ شریعہ بورڈ ممبر

2- نئے ملازمین کی بھرتی کے دوران، اسلامی بینکاری کے نظریہ سے وابستگی کی بنیاد پر، اسلامک بینکنگ کی برانچوں میں نئے عملد کی تقرری کی بینک کی پالیسی کو جاری رکھنا چاہیے۔

مفتی محمود احمد

ممبر شریعہ بورڈ

مفتی محمد افتخار بیگ

چیئرمین شریعہ بورڈ

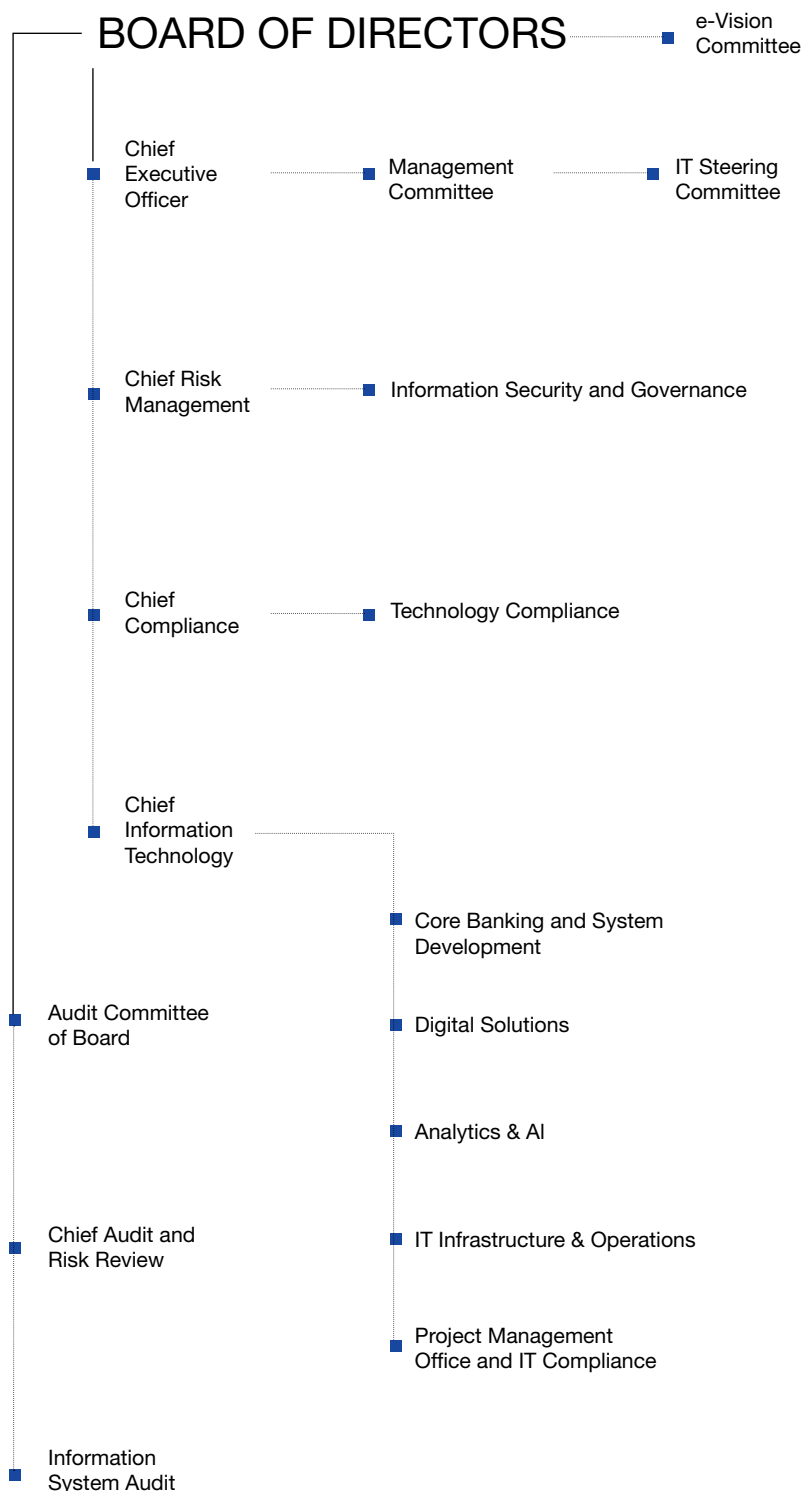

3- ملک کے دیہی علاقوں میں موجود غربت کے خاتمے کے لیے، بینک کو ایس ایم ای اور زراعت کے شعبوں میں قرضوں کی فراہمی کا آغاز اور مدد فراہم کرنی چاہیے۔ بینک کو توانائی کے ماحول دوست پراجیکٹس، جیسا کہ سولر پینل (شمسی توانائی)، کی حوصلہ افزائی کرنی چاہیے۔

رپورٹ کی تاریخ:

13 فروری 2024ء

4- بینک، مختلف نشستوں اور سیمینارز کے انعقاد کے ذریعے، اپنے سٹاف کو اسلامی بینکنگ اور فنانس کے مختلف پہلوؤں کے بارے میں تربیت فراہم کر رہا ہے۔ تاہم اس سلسلے میں ہمہ وقت توجہ مبذول رکھنے کی ضرورت ہے۔ اور عملی نوعیت کے اسلامک بینکنگ کے ریفریشر، سرٹیفیکیشن اور شرعی دستاویزات سے متعلق کورسز کے ذریعے اس کی آگاہی بڑھانے کی ضرورت ہے۔

CORPORATE SOCIAL RESPONSIBILITY (CSR) POLICY

Our Philosophy

CSR vision of Your Bank "To be a socially responsible corporate citizen" delineated in its CSR policy outlines Corporate Social Responsibility objectives of Your Bank. The Policy stipulates that CSR is a concept whereby companies integrate social and environmental concerns in their business operations and in their interaction with their stakeholders on a voluntary basis.

Policy Objectives

Objective of the policy is to provide guidelines to align business objectives and entity's roles as responsible corporate citizen. Your Bank recognizes its obligations as responsible corporate citizen and aims to achieve following broader objectives:

- Establish a "WORKPLACE" environment to maintain balanced work life with healthcare facilities along with high ethical standards, equal employment opportunities, aided social interaction among employees and encouraged employment

of persons with different abilities.

- Our working style should have positive impact on "ENVIRONMENT" promoting green banking, use of renewable energy sources, reducing carbon omissions, promoting tree plantation and change of working style, on best effort basis, from paper based to computer based and promoting green culture.
- Make our "COMMUNITY" feel our presence not only by our business interactions but also by sharing and caring, especially during the times of adversities and natural calamities and pandemics as well as expansion of the Bank's branch network to rural areas, which will help in rural development and ensuring financial inclusion.
- Strengthen "CUSTOMER RELATIONS" by ensuring satisfaction and privacy.
- Protecting Human rights, ensuring transparency, taking anti-corruption measures & curtailing money laundering, terrorist financing and proliferation financing, adopting best business practices and improving stakeholder relations through "GOVERNANCE".
- Our "BRAND" and slogans such as, "Aap kai dil main hamara account" should be known as community caring organization and not just for the profit.

The Bank's contributions towards these areas is mentioned in Corporate Sustainability Report

RECORDS MANAGEMENT AND SAFETY POLICY

The Bank has a comprehensive records management program that ensures maintenance, protection, retention and disposal of records in accordance with applicable regulations, operational needs and fiscal/legal requirements.

Record management is an organizational function to control the maintenance and disposition of organization's record. Record management ensures the valuable record evidence of an organization's activities that have legal, financial, administrative or historical value are protected and accessible while expired record is systematically destroyed.

The Bank's records are maintained in soft form as well as hard copies. The Data Backup and Recovery policy is in place for all applications and databases processing transactions and maintaining records to ensure the availability and integrity of data at all times.

The physical records are maintained both in house and at specialized external warehousing facilities as well.

HUMAN RESOURCE MANAGEMENT POLICIES

Succession Planning

Allied Leadership Talent Pipeline (ALTP) was introduced to ensure effective succession at the senior-level management. Under this program, based on individual leadership potential, young leaders were categorized in three echelons: High potential successor, Intrinsic potential successor and Extrinsic potential successor. A comprehensive training cycle based on identified individual needs in each echelon was delivered to enhance employee leadership skills and build their capacity for senior level assignments, in coming years. Focused learning interventions were executed under ALTP through engaging in-house mentors, and external industry experts.

The scope of this program was further enhanced with the introduction of Allied Leadership Recognition and Investment in Sustaining Employees (ABL RISE Program). Under ABL-RISE

program, employees from Middle Management grades were assessed to identify and develop pool of future leaders. ABL-RISE program is envisioned to expand the sphere of growth of these employees and their personal development as potential leaders. Customized learning and development opportunities are provided to the selected employees under this program, to enhance their professional skills to bring excellence to their work.

Human Resource Diversity

Allied Bank recognises its responsibility towards sustainable economic and social development and role of a diverse human resource in achieving these goals which is also reflected in the Mission statement of the Bank.

Gender Equality

Gender Equality has always been the corner stone of Allied Bank from the time of the Banks inception it was the torch bearer on being an equal opportunity employer to help women achieve their goals. Allied Bank has always been at the fore front to promote the female employee inclusion and supporting new initiatives that support them in general areas of life as well. Human Resource function of the Bank has taken multiple initiatives, to narrow down the gender gap and establish a conducive, harmonized gender sensitive work environment.

The commitment towards bringing diversity is further augmented by the following statistics.

Differently Abled Persons

Allied Bank as an equal opportunity employer and has always made sure that there is no room for discrimination against any Gender, Race or Person with Different abilities in line with its approved policy. A specially designed internship program leading towards permanent employment was initiated by the Human Resource function in coordination with the relevant stakeholders to improve employment experience for any person with different abilities.

Furthermore, Human Resource function has conducted a comprehensive training for all employees to interact with Persons with Different Abilities (PWD). The curriculum is designed such as to explain the meaning and reasons of PWD, general guidelines to serve PWD, priority services to PWD, sign language communication with deaf persons and guidelines to deal with visually impaired/blind persons.

EMPLOYEE HEALTH, SAFETY AND PROTECTION

The Board of the Directors of the Bank have approved Emergency Response and Evacuation Plan document which is designed to provide a safe workplace for the Bank's employees, customers and visitors and to respond to an emergency in a secure and orderly manner. The document covers various types of emergencies situations both natural and manmade and provides guidelines on measures to be followed in different situations. All the locations of the Bank are equipped with required infrastructural support depending upon the type of locations including different types of Fire Extinguishers, Fire Alarm Systems, Emergency Exits, Escape Signs, First Aid Box and Hydrant and Hose System. In compliance of the approved document, a Crisis Management Team (CMT) headed by Chief General Services and Real Estate is formed to consider all matters pertaining to safety and security including but not limited to external / internal hazards, evacuation plan, medical emergencies and firefighting. An Emergency Response Team (ERT) has also been formed, reporting to CMT, responsible for alerting building occupants of an emergency, firefighting in case of fire, providing First Aid and evacuating the building to address the emergency situation.

REMUNERATION REPORT

Compensation Governance

Employee compensation plays an integral role in the successful delivery of the Bank's strategic objectives. Attracting and retaining the capable employees is key to the Bank's compensation strategy. The cornerstone is the concept of pay for performance within a sound risk management and governance framework and with due consideration of market factors and social values. The Bank regularly reviews and aligns human resource policies encompassing all aspects of the remuneration to the ever evolving internal and external dynamics.

The Human Resource and Remuneration Committee of the Board of Directors is entrusted with the overall governance of all areas of the Human Resource including remuneration.

Total Remuneration Structure

As part of the compensation strategy, the Bank employs a total compensation philosophy, which comprises fixed pay, variable compensation and benefits.

Element	Purpose
Fixed Pay	<ul style="list-style-type: none"> Attract and retain employees by paying market competitive pay for the role, skills and experience required. This include base pay and allowances as part of monthly salary as per terms of employment.
Variable Compensation	<ul style="list-style-type: none"> Drive and reward performance based on annual financial and non-financial measures consistent with the medium to long-term strategy, stakeholder interests and adherence to the Bank's values. Awards vary with performance achievement and the Bank has the discretion to assess the extent to which performance has been achieved. Awards are in monetary terms. A portion of the annual incentive award may be deferred and vests over a period of three years. All deferred awards are subject to malus. This include annual performance award, cash award on passing Institute of Bankers Pakistan diploma and any other reward for target achievement or extraordinary performance.
Benefits	<ul style="list-style-type: none"> Ensure market competitiveness and provide benefits in accordance with market practice. This include but not limited to medical benefits, education assistance and post-employment benefits.

Bank employees are graded into 12 salary grades, from MG1 to MG12, with MG1 being the senior most and MG 12, being the junior most. The management of the Bank is further classified in the following four levels according to salary grades:

Management level	Salary Grades
Executive Management	MG1 to MG3
Senior Management	MG4 to MG6
Middle Management	MG7 to MG9
Junior Management	MG10 to MG12

The above categories may include, from time to time, Material Risk Takers (MRTs) and Material Risk Controllers (MRCs). The remuneration of employees categorized as such is based on risk-based pay structure which is referred to as 'risk-based employee's remuneration pool'. The remuneration of employees other than such categories have pay structure which is referred to as 'general employee's remuneration pool'

Classification of Material Risk Takers (MRT) and Material Risk Controllers (MRC)

Material Risk Takers (MRTs) and Material Risk Controllers (MRCs) of the Bank are identified as functions and designations having appropriate level of authority and control within the Bank either working as regular or contractual employees. No third-party employee is designated as either MRT or MRC. Identification of MRTs or MRCs is based on designations or functions involved in critical business decision making, i.e. Chief Executive Officer, direct reportees of Chief Executive Officer, members of critical Management committees involved in business decision making and risk management. Further, relevant Group Heads and other senior level positions managing critical areas, and meeting the risk materiality and threshold criteria as approved by the Board of Directors are also designated as MRTs or MRCs respectively.

Remuneration of Material Risk Takers (MRT) and Material Risk Controllers (MRC)

Fixed pay of MRTs and MRCs is decided based on fixed pay determination criteria for overall bank's employees and includes same components.

Variable remuneration (performance bonus) is based upon performance score calculated against defined key performance indicators and rating scores achieved by each individual. Furthermore, rating assigned to MRTs or MRCs through annual performance appraisal process against their managerial capabilities and personal traits is then clubbed together against predefined weightages to reach consolidated performance score which is used as basis for deciding variable remuneration which is adjusted against underlying risks specifically for MRTs.

MRCs are identified as functions and designations having appropriate level of authority and control duly governed by approved organograms having clearly defined independent reporting lines from the function they oversee. Organizational hierarchy of the Bank ensures segregation of roles and independence among Business, Operational support as well as Risk management.

Basis of deferral of payment

Quantum of associated risk is considered while deciding deferred portion of variable remuneration of MRTs. Percentage as per following grid is withheld and deferred from variable remuneration of MRTs for a period of 3 years:

	High Risk	Medium Risk	Low Risk
CEO, Chiefs & Executive Management	25 %	20 %	15 %
Senior Management	20 %	15 %	12.5 %
Middle Management	15 %	12.5 %	10 %

Assessment of Risk Factors

Risk Matrices encompassing Key Risk Indicators (KRIs) are used for assessment of major types of risks undertaken by identified MRTs. Percentage of variable remuneration of identified MRTs which has been deferred is based on quantum of respective current and future risks undertaken, assessed using Risk Matrices based on data for the current year.

ERP ENVIRONMENT OF THE BANK

Allied Bank Limited has always been at the forefront in innovations and deploying digital technologies to increase organizational efficiency and enhancing the customers' experience. In 2006, the Bank signed an agreement with Temenos for implementation of core banking software solution to provide integrated banking solutions to the valued customers. The implementation and phased wise rollover of T24 core banking software was initiated in 2009 and completed in 2014 after successful migration of all branches. With branch network over 1,450 branches and over 7.9 million accounts across Pakistan, T24 implementation has enabled the Bank to improve the transaction time with efficiency & transparency while maintaining the security and confidentiality requirements intact. The Bank started implementation of Oracle Enterprise Business Suite in 2006 which is an integrated set of business applications for automating Customer Relationship Management (CRM), Enterprise Resource Planning (ERP) and Supply Chain Management (SCM) processes within the Bank.

Oracle E-Business Suite is being utilized to optimize internal processes by providing streamlined and effective workflows for various procurement & payment processes, fixed assets and inventory management, and the general ledger function to generate the financial statements of the Bank. Oracle Human Resource Management System is managing Human Resource activities along with access control in T24 core banking application through integration based on employee's assignment.

Regulatory controls are observed through application like Oracle Financial Crime and Compliance Management and Name Screening and Customer relationships are being managed through Oracle Customer Relationship Management.

Oracle Financials and Oracle Business Intelligence implemented over Data Lake and Central Database assist in integrated reporting and decision making.

Continuous Updation of ERP Applications

Regularly updating the ERP systems in rapidly changing technologies is an important tool in ensuring that the software is adding value to the business and the objectives of bringing efficiency in the business processes are being achieved. Cognizant to this fact, the Bank has always adopted a robust approach to keep all applications upgraded to latest versions.

IT Steering Committee (ITSC) of the management is entrusted to review and recommend technology upgradation initiatives and prioritize projects for their implementation along with the required infrastructure. The capital expenditure outlay is incorporated in the annual capital expenditure budget of the Bank. Major upgradation of the ERP applications includes upgrade of Temenos T-24 core banking software to Release 16 and Oracle E-Business Suite Applications to Release 12.

User Trainings of ERP Applications

Training and Development of employees is of utmost importance to realize the maximum benefits of investments in ERP applications. Management Development Centers (MDC) equipped with latest technologies and qualified & experienced trainers have been established to facilitate continuous training and development of the team members.

In order to facilitate the new employees in getting familiar with the Bank's technological environment including major ERP applications, tailor-made "on-boarding" programs have been designed to ensure the development of required skillset.

After placement at respective positions, the Bank provides various learning opportunities to new and existing team members through the following channels

- Internal trainings at MDCs
- External trainings by local or foreign training providers
- E-Learning resources through Bank's Portal and Mobile App.

Management of Risk factors on ERP Projects

Enterprise Resource Planning (ERP) projects are strategic and capital intensive, so failure can be costly and may result in the waste of valuable resources including time. Because ERP is interdisciplinary (involving change management, project management and information technology management), it warrants a customized approach to enable managing the risks throughout the life cycle of implementation and operation. In order to mitigate these risks, the Bank has established a dedicated Project Management Office (PMO) division under Information Technology Group, responsible for overseeing the implementation of approved project management methodology during delivery of major technology related projects. Project Management Office works in liaison with all functions/groups initiating the request for any major technology project and assists in evaluation, approval and completion of the project ensuring the compliance with timelines. The project management methodology is implemented by the Bank which specifies processes to be adopted for acquisition and implementation of IT Systems covering the processes required for successful delivery of major technology-related projects throughout its lifecycle. This methodology covers the detailed guidelines for following broad phases of project management;

- Project Initiation
- Project Planning
- Project Execution
- Project Monitoring & Control
- Project Closure

Project Steering Committee (PSC) is also formed for larger projects comprising of Senior Officials of the concerned Groups to monitor Project Progress and Deliverables Status at periodic intervals.

Control over ERP projects is further exercised through periodic monitoring of all major technology related projects by the IT Steering Committee of the management which is responsible to ensure an efficient IT operating environment that supports the institution's goals and objectives.

Assessment of System Security

The Bank has developed and implemented detailed policies and procedure guidelines for Information Assets Security Risk Management with an objective to provide an effective and efficient process for conducting Information Asset Risk Assessments and mitigating risks identified for Information Assets of the Bank as per Information Security Policy.

The Information Security Policy approved by the Board of Directors and Information Asset Risk Management Procedure Manual approved by the Risk Management Committee of the management clearly outline the scope of Information Technology resources covered and roles and responsibilities of each of the function of the Bank. The Information Security Policy of the Bank provides detailed guidance on Secure use of Information Assets, Passwords, High Privilege User IDs, Access Control, Data Backup and Retention, Network and System Security, Log Review and other related matters on Information Security Management.

In order to ensure that related controls as outlined by the approved policies and procedure manuals, are working effectively as per design, continuous monitoring and periodical assignments are carried out by internal functions and external consultants. List of major activities include;

- Continuous monitoring of Application Logs and reporting of Information Security Incident through dedicated Security Operations Center (SOC).
- Periodically performing Vulnerability Scanning and Penetration Testing both internally and externally.
- Conducting Security Risk Assessment exercise and maintaining Risk Register of all information assets held by the Bank.
- Information Systems Audit by Internal Audit Function.

- Approve and receive periodic updates on major technology-related projects that may have significant impact on the Bank's operations, earnings or capital. Further, the Board of Directors also defines the criteria for major projects.

IT Governance and Cybersecurity Programs and Policies

Information Technology governance is an integral part of the Bank's Corporate Governance Framework consisting of the leadership and organizational structures to ensure the alignment of IT strategy with business strategy, optimization of resources, value delivery and performance measurement to achieve business objectives. The purpose of the IT Governance is to ensure the safety of the Bank's information assets and technological infrastructure from internal and external threats including the cybersecurity risks. The technology framework of the Bank is governed by the SBP guidelines contained in the Enterprise Technology Governance & Risk Management Framework for Financial Institutions issued vide BPRD Circular No. 05 dated May 30, 2017. The Bank has formulated Information Technology Governance Policy and Information Security Policy which are reviewed and updated at least after every three (03) years and Business Continuity Plan which is reviewed and updated at least annually. These policies and plans cover the following areas:

- Information / Cybersecurity
- Services delivery & operations management
- Project management, acquisition, development & implementation of technology solutions/systems
- Business Continuity and Disaster Recovery

The Bank's Information Security Policy has laid down detailed guidelines on use of various technology mediums and covers the following;

- Information/cyber security awareness and training
- Audit and accountability
- System configuration management
- Identification, authentication, access management
- Information security incident management / incident response
- System maintenance
- Information and data protection
- Risk management
- Security assessment
- Information systems and communications security
- Cryptographic controls
- Information integrity
- IT asset management
- System acquisition development & maintenance
- Information security policy for outsourcing
- Business continuity and disaster recovery

Risk Oversight Function on Cybersecurity

Cybersecurity and cyber risks have become a corporate governance issue as financial institutions have come under scrutiny of regulators on the backdrop of increased threat to data, processes and systems. Apart from the financial cost of cybercrime, a cyber incident can damage corporate reputation, brands and market value. Therefore, cybersecurity is an integral component of the Bank's broader enterprise-wide risk management structure. The Board of Directors is charged with overseeing the Bank's cybersecurity risk.

The Board of Directors plays an active oversight role to understand emerging and constantly changing legal and regulatory environments. The Board of Directors has put in place an appropriate Management Information System (MIS) to oversee the management's effort for implementation of IT strategy and business plan, exception from board-approved IT policies and progress on major IT projects. The Management's IT Steering Committee has been tasked to periodically report to the Board of Directors on the latest developments on cyber security action plan, its implementation status, a summary report on major threats, attacks faced by the Bank and their estimated impact on its operations. IT Steering Committee also reports Information / Cybersecurity related matter to the E-Vision Committee of the Board for their review. Information Security Function of Risk Management Group is responsible to record and document all security breach incidents and report these to the Management and the Board of Directors.

Administration of IT Governance and Cybersecurity matters

E-Vision Committee of the Board assists the Board of Directors to discharge their responsibilities related to oversight of IT Governance and Cyber Security matters. The committee's terms of reference include;

- To ensure that Risk Management strategies are designed and implemented to achieve resilience, respond to wide-scale disruptions, including cyber-attacks and attacks on multiple critical infrastructure.
- To periodically review the information security governance initiatives and risk assessments.

The role of Board of Directors in IT Governance not only involves providing leadership direction for IT in the Bank but also ensuring that given directions are being followed in true spirit. In order to ensure good IT Governance, the Board performs the following:

- Review and approve "IT Strategy", "Cyber Security Strategy" and "Digital Strategy" in line with the business strategy of the bank and monitor and update the same on regular basis keeping in view potential opportunities and threats.
- Ensure that technology risks are integrated with the enterprise risk management function to achieve security, reliability, resilience, interoperability and recoverability of data/information and information assets.
- Approve all technology-related policies and review the same periodically in light of major technological/regulatory developments at least after every three (03) years.
- Ensure maintenance of an independent and effective technology audit function commensurate with the complexity of Bank's technology risk profile.
- Ensure that resource gaps (people, process & technology) identified by the management are adequately and timely fulfilled.
- Ensure that skills required for technology governance, service delivery, information security and risk management are sufficient and up-to-date.
- Define criteria for major projects and approve and receive periodic updates on major technology-related projects that may have significant impact on the Bank's operations, earnings or capital.

Management of Cybersecurity Risks and Incidents

As the potential for cyber-attacks against the banking sector grows, the importance of an Early Warning System, as part of overall Information Security Control environment, that enables to prevent cyber issues such as security breaches before they happen, has grown manifold over recent years. The early warning system of Allied Bank comprises of;

- Development of cyber security action plan to proactively address the likely cyber-attacks in order to anticipate, withstand, detect, and respond to cyber-attacks in line with international standards and best practices.

- Implementation of automated solutions to monitor and proactively track cyber-attacks.
- Log reviews comprising reviews of actions of privileged users, invalid logical access attempts and changes to identification and authentication mechanisms.
- Penetration testing (inhouse and external) periodically and upon any significant change in infrastructure.
- Vulnerability assessments (inhouse and external) periodically and upon any significant change in infrastructure.
- Change detection mechanism for Cardholder Data Environment and other critical systems to alert personnel to unauthorized modification of critical system files, configuration files.
- Collaboration with industry for the purpose of collecting and exchanging timely information that may facilitate in detection, response, resumption and recovery of systems.
- Establishment of Security Operations Center which works round the clock to monitor and detect any threats or breaches on the Information Assets of the Bank.

Employees are made responsible to report Security Incidents to their line management, Information Technology function, and Information Security function as soon as they know about the incident. Security breach incidents are monitored, documented and reported to the Board of Directors, senior management and to the regulator as per regulatory requirement on prescribed reporting template.

Independent Comprehensive Security Assessment

The Bank undertakes independent third-party cybersecurity risk assessment to protect its information and information systems from cyber threats. The purpose of an independent cybersecurity risk assessment is to identify, assess, and prioritize risks to information and information systems by engaging external consultants having sufficient experience in Information Security Assessment and Penetration Testing. The Bank's policy on independent security assessments are;

- For Cardholder data environment, quarterly external network vulnerability scans shall be performed by an Approved Scanning Vendor (ASV) qualified by Payment Card Industry (PCI) Data Security Standard (DSS).
- Bank shall arrange 3rd party penetration testing once in a year or upon any significant change in infrastructure.

Contingency and Disaster Recovery Plan

Businesses across the globe cannot deny the importance of having an effective well tested business continuity and disaster recovery plan in order to recover from severe disruptions either manmade or natural, and ensure the recovery of critical business processes to safeguard its infrastructure and its customers interests. Cognizant to this fact, the Bank has prepared a Business Continuity and Disaster Recovery Plan for its business-critical systems including;

- Core Banking Systems
- Digital Banking Channels

IT GOVERNANCE AND CYBERSECURITY

- Hardware Security Module, Communications and other necessary infrastructure including system and storages.

The Business Continuity and Disaster Recovery Plan outlines specific preparation prior to the disaster and response procedures immediately after the disaster. The Bank has formed a Disaster Recovery Authority responsible for allocating resources for recovery planning, supervising the recovery initiative and recovery procedure after the activation of Disaster Recovery Plan. The Disaster Recovery Authority is organized in a manner to coordinate the recovery efforts with clearly defined roles and responsibilities.

The Bank has also established its Disaster Recovery / Alternate site for providing Information Technology related services. To review the efficacy of its disaster recovery procedure, the Bank annually conducts one-week long DR exercise to assess the strength, availability and monitor the robustness of Disaster Recovery site. During this tenure all operations are served from alternate site which acts as a primary site.

Augmentation of Technological Advances

The Bank has continued to make significant advancement in fulfilling the requirements of its stakeholders using state of the art technology and by enhancing its digital footprint so that stakeholders are provided with all “digital and networked banking services” in transparent and secure way.

In order to support data driven business decisions for customers, the Bank by using Big Data technologies has created Data Lake comprising of structured and unstructured data. The Bank is also working with multiple Data Science companies to capitalize on the investment of Big Data for implementing multiple use cases through machine learning models, and in turn, improve and personalize customer experiences.

The Bank has already implemented multiple use cases on “Robotic Process Automation Solution” and is exploring further use cases for automation to for improve operational efficiency, control and cost saving.

Allied Bank is among the first 3 banks who have volunteered for Pakistan Banking Association initiative in implementing blockchain based e-KYC, which is customer information sharing platform among the member banks. In the first phase, shared information will be transparently viewed and updated by the banks to perform customer KYC.

Education and Training on Cybersecurity Risks

Cybersecurity risks are continuously evolving as the constant focus on digitalization of the financial sector has resulted in shift of financial transaction from conventional means to digital channels. These ever-evolving cyber risks requires continuous education and training of relevant stakeholders specially employees and customers to address these risks. The Management’s IT Steering Committee reviews and determines the adequacy of the Bank’s training plan including information / cyber security training for the employees. Major initiatives taken during the year for training of employees, customers and general public, are;

- Issuance of monthly “Security News Bulletin” for education of employees
- Training programs for employees on Information Security Awareness
- SMS Alerts to customers on security of Confidential Information
- Social Media campaigns for general public on Security Awareness

Method and Assumptions in Compiling Indicators

The Bank identifies its indicators which correctly reflect the Bank’s performance and analyses its market standing, competitors and overall market conditions while compiling its indicators. The Bank considers deposits, advances, capital adequacy ratios, profit after tax and EPS on a regular basis to measure its performance. These are the basic indicators of Bank’s financial performance and profitability.

Market price is a measure of Bank’s sensitivity in the market.

The bank regularly analyses its cash flows and strives to keep it on positive side.

Dividend Payout and Future Prospects of Dividend

The Board of Directors declared a final cash dividend of Rs. 4.00 per share for the year ended December 31, 2023, which is in addition to the Rs. 8.00 per share of interim dividend already paid to the shareholders for the quarter ended March 31, 2023, June 30, 2023 and September 30, 2023 taking the dividend payout ratio to 33.78%.

Dividend payout is also expected to be streamlined for the year 2024 as the Bank manages its profitability while ensuring that sufficient capital buffers are available to meet regulatory requirements.

Management’s Assessment of Sufficiency of Tax

The Bank maintains sufficient provision for taxation as required under the accounting standards and the relevant regulations. Contingencies with respect to the direct or indirect taxation have been disclosed in the Note 21 to these financial statements. It is our assessment that tax provision recognized in the financial statements is satisfactory.

Performance versus Budget

During 2023, the Bank performed well and surpassed its deposits and profitability budgeted targets.

Capital Expenditures Rationale

During the year ended December 31, 2023; Your Bank invested Rs. 14,010 million for business expansion and Information Technology infrastructure to ensure seamless services across the geographical diversity of the country.

Your Bank is committed to continue its focus on prudent investments in business expansion and technological infrastructure; keeping itself aligned with developing business needs and updated information technology enhancements for digital transformation.

CORPORATE AND INVESTMENT BANKING

Capitalizing on its key strengths, Allied Bank's Corporate and Investment Banking Group (CIBG) has matured over the years, upholding its premiership as one of the prominent wholesale banking platforms in Pakistan. With an unyielding grit to build and nurture client relationships, CIBG takes a holistic and progressive approach in understanding the unique needs of clients. Understanding the breadth and depth of its valued clientele, CIBG's forte lies in being customer-centric and market-driven, offering a wide array of well-thought-out financing solutions, with a strong emphasis on service excellence and customer satisfaction. CIBG's product portfolio spans across all modes of funding and trade services, cash management, home remittance and bespoke investment banking solutions. Its pool also covers capital markets portfolio, featuring exposure to superior quality stocks with a steady and resilient dividend stream. Furthermore, CIBG is responsible for Operations of overseas branch of ABL in Bahrain, ABL's overseas representative offices in Dubai and China and also manages goods working relationships with both overseas and local Financial Institutions.

Amidst yet another turbulent year, the banking industry, in general, faced challenges in expanding the portfolio of quality advances due to high probability of delinquencies in loan portfolio. The pace of disbursements under the SBP's concessionary financing schemes also tapered off during the year. CIBG remained cautious of inherent risks, and prudently continued lending momentum, with focus on selected sectors and essential commodities. Credit deployment strategy encompassed largely confined to time tested corporates and business conglomerates having sound financial standing, adequate debt repayment capacity, extensive learning curve, and strong resilience to market volatility and adverse economic conditions.

Corporate Banking (CB) functions with a strategic objective of developing and maintaining a strong clientele of top-tier corporate and institutional customers offers a one-window solution for a wide range of wholesale banking needs. CB offers a combination of major lending products including working capital, term loans, and trade finance facilities on individualized basis., CB continued its penetration in lending space with prime focus on growth sustainability, while maintaining high quality portfolio through prudent lending and enhanced credit monitoring. CB also generated decent trade volumes from corporate relationships, even though the market remained depressed due to import restrictions during the year.

Emerging Corporate (EC) segment continues to serve as supporting lending function within CIBG primarily covering the mid-tier segments including emerging corporates and budding commercial entities, with rich growth potential. Given the nature and inherent risks, EC's portfolio is developed with major focus on structured financing and active risk management. To supplement Bank's advances, EC continued to extend small ticket loans for share financing under its flagship product 'Allied Share Financing'.

Financial Institutions & International Division continued to strengthen ABL's global institutional banking relationship base with reputed financial institutions spread across Europe, Asia and Africa to support Bank's trade, treasury and foreign exchange payments. ABL currently has more than 500 international correspondents located in 77 countries, providing global coverage and acceptability. In addition, our partnerships with various multilateral agencies and

global banks continued to facilitate smooth execution of customers' growing and diversifying international banking requirements.

Bahrain (Wholesale Banking Branch) and Dubai (Representative Office) remained engaged in exploring business growth opportunities in the Gulf region. Our Representative Office in Beijing, China, continued to focus on developing relationships with leading Chinese Banks and corporates to explore potential business opportunities for trade and investment flows between China and Pakistan. Through vigilant approach and prudent risk management, the Bank remained fully compliant with home and host country regulations.

Home Remittance Business (HRB) continued to mobilize remittance inflows by strengthening relationships with existing correspondent partners and adding new tie-ups globally. During 2023, new tie-up relationships were established with correspondent partners from USA, UK and the UAE, while relationship was also activated with multiple tie-ups from USA and UK to support sustainability and growth in remittance volumes. Moreover, digitalization of remittance services through product upgradation and system integration initiatives remained the prime focus area during the year. Additionally, HRB diligently carried out marketing and promotion campaigns in source countries during the year to boost remittances, and for brand visibility of ABL and 'Allied Express' service. ABL sponsored the 3rd Pakistan Remittance Summit which was organized in Malaysia, in collaboration with SBP and other peer banks, to further promote mobile remittance inflows through legal channels.

The Cash Management Division (CMD) continued to expand its horizons with ongoing new client acquisition and marketing efforts, while focusing to enhance throughput for earning maximization. Leveraging on ABL's strong transaction banking capabilities and real-time online branch network, CMD continues to offer cost effective collection & payment solutions to its diversified client base. Additionally, our state-of-the-art core banking system provides our customers with an excellent platform for present and future transactional banking requirements.

Investment Banking (IB) takes pride in its long-standing relationships and bespoke product offerings. IB retains a diverse suite of clients, consisting of corporations, institutions and government entities. It aims to meticulously offer strategic support to our valued clientele under the functional domains of 'Debt Syndication and Advisory' & 'Project Finance', with wide range of product/services including advising on IPOs, underwritings, divestments, debt restructurings, merger & acquisitions, and advisory and funding arrangement for greenfield/brownfield projects with appropriate risk management.

GROUP REVIEWS

Our countrywide presence gives us added advantage to offer full coverage to clients with extensive range of financial solutions and seamless execution. During 2023, Investment Banking advised and financed multiple transactions covering diverse sectors including power generation, oil and gas, electrical goods, textile, and developmental financial institutions.

ABL's Investment Banking has won numerous local and international awards for the Bank over the last 15 years. During the year, ABL won the following awards from The Asset Triple A:

- 1- Telecom Deal of the Year.
- 2- Utilities Deal of The Year.
- 3- Best Syndicated Loan.
- 4- Best Loan Adviser.

The Capital Markets division maintains a carefully selected portfolio of superior stocks, underpinned by sound fundamentals. The key forte of Bank's Investment Portfolio lies in prudent stock selection based on investment quality, diversification and stable dividend payout. Despite a gloomy year for capital markets, wherein market sentiments remained largely bearish in the face of deteriorating economic landscape, ABL's equity portfolio showed resilience, yielding decent capital gain and dividend income during the outgoing year.

Future Outlook

Moving ahead, CIBG is committed to upholding its adaptive lending strategy, prioritizing top-tier and blue-chip corporate clients to bolster its portfolio with high-quality assets. Simultaneously, the institution is actively exploring viable opportunities within the mid-tier corporate segment to diversify its revenue streams sustainably.

In addition to fortifying its position within the banking landscape, CIBG is dedicated to enhancing the Bank's overall profitability. This involves leveraging established corporate partnerships and international operations to cross-sell financial products, while also delving into avenues for expanding fee-based and ancillary business income. Furthermore, there is a concerted focus on accelerating efforts to tap into new channels for remittance business and harnessing synergies across the Bank's domestic and international networks.

TREASURY

Inflation remained in the center stage in year 2023 as central banks across the globe maintained a tight monetary policy stance in a bid to dampen inflationary expectations and bring inflation down to their target levels. Persistent and historically high inflation had forced the global central banks to aggressively increase interest rates in 2022. As a result, by late 2022 many analysts hoped for a soft landing (a weak recession) of the world economy and this was supported by subdued growth forecast for 2023.

Despite rapidly increasing interest rates and economic forecasts of weak 2023 economic growth, the global economy remained resilient in 2023 led by US, India and China with GDP growth beating earlier forecasts and inflation remaining stubbornly elevated. As a result, most of the central banks kept increasing interest rates (four hikes by FED, five by BoE and six by ECB) to tame inflation and cool down aggregate demand. Towards the end of 2023, most of the economists believed the growth to slow down in 2024 and markets are pricing a reversal in central bank stance from Q2 2024.

Pakistan's economy, like other emerging and developing economies, faced multiple challenges as depleting FX reserves and delay in IMF bailout resulted in PKR losing its value by over 35% against the greenback as inflation touched a historic high of 38%. As Pakistan secured an IMF bailout, PKR regained some of its lost ground as sentiments improved and authorities came down hard against speculative sentiments that helped in bringing the parity in the open market in line with interbank market.

During these turbulent times, ABL Treasury continued to play a significant role in preserving and enhancing the stakeholders' value during the challenging year. The Bank timely anticipated policy shifts and kept the portfolio duration in check while enhancing the return. This was achieved by gradually adding floating-rate bonds to the portfolio. Moreover, the bank kept the leverage positions in check as T-Bills spread over short term rates turned negative by September 2023.

In the FX market, as the volatility increased manifolds (particularly in Jan-Jun 2023), the Bank played its role in close coordination with the stakeholders and ensured that the market continues to function. Amid highly disruptive FX liquidity conditions, the Bank played its role by ensuring that basic essentials like POL, fertilizer and food are in regular supply and provided continuous market access to its customers. Our sales desk continued to support the Bank's customers and kept them abreast of market developments for effectively managing their risks.

After a year of turbulence, Pakistan's economy exhibited some early signs of improvement towards the end of 2023. The country was able to secure a US\$ 3.0 billion Stand-By Arrangement (SBA) from IMF in the 2nd half of 2023, which to some extent helped in alleviating immediate risks. The initial disbursement of US\$ 1.2 billion under the SBA in July 2023, alongside US\$ 3 billion bilateral inflows, helped reverse the declining trend in the SBP FX reserves and opened the doors for multilateral and bilateral creditors.

In 2024, developed economies are likely to continue the consolidation phase as policy makers will hope for a soft landing. Any reversal in interest rate cycle will largely depend on the strength of labor markets and consumption demand. A sharp drop in the prices of POL and soft commodities may allow central banks to cut rates earlier than expected, chances however are slim of any major change before June 2024.

On the domestic front, there are early signs of recovery as the current account is now largely under control and inflation is also expected to go down gradually on the back of stabilization measures. There is some revival in economic activity as LSM growth and private sector credit is picking up. Despite the high interest rates, going forward, the Bank expects further signs of improvement in domestic economic activity.

Future Outlook

Investor confidence will remain dependent mostly on formation of a stable government and successful completion of IMF SBA and negotiation of a new IMF program. Managing its external financing requirement for the FY'24-25 will remain a tedious task.

In the coming year ABL Treasury will continue to closely monitor the changing economic and political landscape. In particular, the change in direction and the pace of change in the economic indicators will determine the portfolio strategy. As we expect interest rates to change course by Q3 2024, any decision to add

duration to the portfolio will be driven by the structure of the yield curve and by balancing the expected future returns against the cost of carry.

COMMERCIAL AND RETAIL BANKING

Commercial and Retail Banking Group (CRBG) continued its legacy of providing enriched and comprehensive product suite, supported by digital platforms and an extensive network of customer touch points by providing increased access to financial services; at the time and convenience of our valued customers.

The Bank capitalized on its digital strategy and was able to provide uninterrupted banking services to the account holders and obligors; providing financial access and business continuity.

Additionally, the Bank achieved a milestone of surpassing the total deposit of Rs. 1,677 billion in year ended December 31, 2023 complemented by improvement in zero cost Current Account Deposit mix from 40% to 42% and 10% growth in total deposits.

The Bank continued to expand its outreach; resulting in the overall branch network to reach at 1,483 including 127 Islamic branches and 162 exclusive Islamic windows to support business expansion in new demographics. Remaining focused on boarding New to Bank relationships, the Bank added 1.5 million plus accounts to the existing account base during the year.

In line with the objectives of National Financial Inclusion strategy of State Bank of Pakistan (SBP), the Bank continued to play a pivotal role. Unique segment specific offerings like Allied Youth Account, Allied Senior Citizen Account, Allied Khanum Account, Allied Freelancer Account and Allied Asaan Account continued to contribute towards financial inclusion of relatively un-banked, low-income segments of the society and also adding to deposit base of the Bank.

Furthermore, in line with digital on boarding framework of SBP; customers can open account through website / mobile app without visiting the branch. The Bank remained amongst the industry leaders to facilitate customers and to support the economy by increasing the inflow of foreign remittances. In this regard, RDA

campaign was launched which resulted in a significant growth in inflow of foreign remittances and customer base.

The Bank has continued its support to SMEs sector in challenging times by extending financing facilities and has exhibited decent growth in this segment. The Bank was also selected as participating bank in the revived SBP SME ASAAN finance scheme for collateral free lending up to Rs. 10 million. Moreover, the Bank has contributed towards government initiatives like Prime Minister's Youth Business and Agriculture Loan Scheme and has duly achieved its Month on Months targets.

Allied Bank is also playing its part by providing consulting and non-financial advisory services by way of imparting knowledge through Financial Planning Advice, Economic Insight & Business Intelligence to more than 2000 customer; thereby, generating more than 550 borrowers in the process. CRBG has also conducted more than 340 SME Finance awareness sessions in which more than 5500 attendees participated from diverse background.

On consumer finance front, Allied Bank remained active in facilitating customers with a robust Consumer Products Suite including Allied Visa Credit Card, Allied Personal Finance, Allied Car Finance, Allied Home Finance and Allied Solar System Finance. In addition, two new products, namely, Allied Scooty Finance and Allied Electric Bike Finance are introduced in 2023. The Allied Scooty Finance is specifically designed to empower women by reducing their dependence on others with regards to their transportation needs; whereas Allied Electric Bike Finance is explicitly developed as a green banking initiative to cater to the transportation needs of middle and low-income segment of the society by contributing in low carbon emissions for a healthy environment.

Allied bank recognizes the importance of staying ahead in the rapidly evolving digital landscape. As a result, bank has implemented a series of strategic measures to provide customers with cutting-edge digital banking services such as ABL enhanced the scope of a digital variant of personal loan "Allied Payday Finance" by adding more corporates and institutions and their employees maintaining salary accounts with the Bank, providing instant access to financing round the clock.

GROUP REVIEWS

ABL believes in the power of innovation and customer-centric solutions. The Bank has introduced a groundbreaking program to recognize and reward their customers who have demonstrated exceptional engagement and performance on ABL digital platforms. By acknowledging their dedication and loyalty, Your Bank has not only fostered a sense of pride and satisfaction among its valued customers but also incentivized others to actively participate in ABL's digital banking ecosystem.

The roadshows and product awareness programs, including Farmer Literacy/awareness seminars were conducted by the Bank across Pakistan for creating awareness on different products of the Bank and usage of financial services among general public and Farmers.

Future Outlook

Moving into 2024, in addition to building relationships with new customers and obligors, the Bank will also concentrate on strengthening relationships with existing customers/ depositors by offering a complete suite of attractive consumer products.

Amidst uncertainty and unanticipated challenges, the Bank aspires to continuously focus on volumetric deposit growth through augmentation of account opening run-rates, low costs deposit mobilization, quality credit expansion, introduction of innovative offerings and enhance digital banking services.

Moreover, Your Bank aims to focus at banking on equality and enhancing the scope of female centric products by offering Khanum lending product, Pink Scooty and enhance the features of Allied Khanum Account.

ISLAMIC BANKING

The Bank has successfully completed ten years of its operations in the Islamic banking space. ABL Aitebar Islamic Banking posted annual profit of Rs. 7,383 million (2022: Rs. 2,470 million) for the year 2023. While total assets closed at Rs. 131,976 million and deposits registered a growth from Rs. 71,870 million to Rs. 95,334 million. The Islamic advances and investment amounts were recorded at Rs. 79,620 million and Rs. 38,360 million, respectively.

With the opening of additional branches and Islamic Banking

Windows (IBW) at conventional branches, Islamic Banking Group has expanded its network to 127 Islamic Branches and 162 IBWs in 2023. Strengthening of the product suite; Islamic Banking launched segment-based Shariah Compliant financing products for SME and Agriculture segments. Following the initiative of SBP, the Islamic Banking launched Prime Minister's Youth Business & Agriculture Finance Scheme.

Digitalization and automation in Islamic Banking Group has remained an important part of the overall strategy; Allied Aitebar Khanum Account deployed on myPDA for Digital Account Opening Channel. Further, ABL Aitebar Islamic Banking introduced Allied Aitebar Salary Management Account through Bulk Account opening functionality.

ABL-IBG launched Allied Aitebar Asaan Remittance Account being a variant of Allied Aitebar Asaan Digital Remittance Account, for account opening through branches. Moreover, ABL-IBG launched Allied Aitebar Behtar Munafa Certificate for short-term investors with tenors ranging from 1 to 12 months, which offers attractive profit rates with monthly and at maturity payment options.

Under the banner of Allied Aitebar Islamic Banking three focused interactive awareness seminars were arranged for guidance and financial inclusion of faith sensitive clientele.

Future Outlook

ABL Aitebar Islamic Banking envisions to provide a full spectrum of Shariah-compliant services products in the competitive Islamic banking sector while maintaining operational effectiveness and top-notch customer care.

Customer awareness workshops would continue to be a top priority and promotion of Islamic banking in Pakistan as a means of increasing the country's financial inclusion would be given substantial weight. Along with increase in network, automation and digitization would continue to play a major role in the expansion and development of Islamic banking.

DIGITAL BANKING

This year marked a significant stride in the journey toward digital transformation. In a substantial move, the Digital Banking Group underwent strategic reorganization, integrating Digital Operations and Customer Experience functions to form a cohesive unit. The Group's unwavering focus has been on providing a seamless, secure, and user-friendly digital banking experience for the customers.

Allied Bank has achieved a significant milestone with over 1.6 million myABL user registrations, indicating its dedication to offering modern, user-friendly banking solutions that simplify customers' financial lives. The Bank expanded its range of financial services provided through myABL Digital Banking Platforms. ABL introduced a feature that enables customers to update the expiry of their Computerized National Identity Card (CNIC) via the ABL web or mobile application. This eliminates the need for branch visits or email submissions of scanned documents. Additionally, ABL is fostering inclusivity in its digital banking services by inviting Afghan Nationals with Proof of Registration (POR) Cards to register for myABL, offering them a comprehensive digital banking experience. A key addition is the Credit Card Management within myABL Mobile App is a key addition which allows users to manage their card features independently.

Moreover, the Bank's WhatsApp Banking service, with 1 million registered users, offers convenient features like account inquiries, IBAN generation, and financial transaction capabilities for topping

up prepaid numbers. Additionally, the Bank has launched services like the withholding tax certificate, available in PIN-protected PDF format for specific periods, and the Detailed Account Statement service for accessing transaction details through WhatsApp.

A significant aspect of ABL's strategic growth has been its active engagement in the expansion of the RAAST payment system. This has resulted in a substantial increase in transaction numbers, reaching 7.5 million with a total transaction volume of PKR 7 billion. Furthermore, ABL extended its "Payday Advance Salary" loan program to over 100 companies, resulting in disbursement of around 10,000 loans accumulating to Rs. 214 million, demonstrating ABL's commitment to helping individuals manage their financial needs effectively. Owing to the expansion of myABL services, myABL Digital Banking Application secured a significant achievement by winning the 'App & Web-Enabled Market' Award at the Pakistan Digital Awards 2023.

By 2023, ABL successfully established 14 digital branches alongside plans to launch four "Lifestyle Digital Lounges" in major shopping malls across Lahore, Karachi, and Islamabad. These branches and lounges, equipped with state-of-the-art digital facilities like Cash Recycling Machines, Interactive Teller Machines, Cash and Cheque Deposit Machines, Self-Service Kiosks, and Instant Debit Card Printers, offer customers efficient, queue-free transactions and 24/7 access to technology. This shift signifies ABL's commitment to modernizing banking dynamics.

Another step in this direction is the implementation of Jira Software, utilized by the Digital Banking and Information Technology teams. Jira Software offers a comprehensive platform for agile project management, bug tracking, and issue tracking. This integration is pivotal in streamlining workflows, prioritizing tasks, and maintaining transparency in project progress, thereby aligning Allied Bank with contemporary industry standards in project management.

Further, Your Bank has forged a strategic partnership with Telenor Pakistan to capitalize on the critical role of data in strategic decision-making. This collaboration focuses on using data to enhance decision-making processes, leveraging data variables to identify local trends and patterns. The insights gained are applied in areas such as White Space Analysis, Branch Optimization, Digital Marketing based on Customer Persona, Digital Product Development, and Cross Selling. This partnership enables Allied

GROUP REVIEWS

Bank to utilize data-driven insights for refining its strategies and operations, ensuring a more informed and effective approach in its business endeavors.

Allied Bank has distinguished itself as the first bank in Pakistan to adopt Sprinklr for managing all its digital communication channels, encompassing Facebook, Instagram, Twitter, YouTube, LinkedIn, and App Stores. This adoption signifies a unified approach towards customer interaction, engagement, and feedback, particularly with the implementation of Sprinklr's Modern Research, Modern Care, and Modern Engagement modules across the organization. Sprinklr's sophisticated AI-driven software is specifically designed to transform Allied Bank's social media and digital customer interactions, offering valuable insights into customer behaviours and preferences.

To realize a cohesive campaign management strategy, Allied Bank has integrated dEngage for its Customer-Driven Campaigns Management Solution. This integration is intended to efficiently manage diverse channels, including Email, SMS, Web Push, and App Push.

It was a notably successful year for Allied Bank for its 'Card and Acquiring' services, marked by several key advancements and technological upgrades. A prime development was the successful pilot launched of ABL's Point-of-Sale (POS) Acquiring business with deployment of cutting-edge POS machines in major cities of Pakistan to facilitate digital payment acceptance from customers with a vision to drive digital payment adoption in Pakistan.

Another key development was the acquisition and integration of new Card Production Machines equipped with UV Cured Graphic Printing Technology, coupled with the modernization of existing equipment. This technology offers multiple benefits, including a print life of 5-7 years, a variety of personalization colours, flexible card design options, expanded branding space, and a 30% faster printing speed compared to traditional embossing methods. In 2023, ABL achieved a significant milestone by producing and dispatching over 1.2 million Debit Cards.

Further enhancing its banking services, Allied Bank launched the ABL Foreign Currency Visa Debit Card for Roshan Digital (RDA)

and Foreign Currency GBP & Euro Account holders, enabling global transactions such as fund withdrawals, bill payments, and online shopping. The bank also introduced a 'Foreign Currency Debit Card' catering to the needs of IT Exporters and Freelancers, thus, underscoring Allied Bank's dedication to support policies and initiatives that accelerate growth and success of Pakistan's IT industry.

Your Bank presented 'Digital Freelancer Account' and 'Foreign Currency Debit Card' on Export Retention Account in a session organized by MoITT and PSEB in collaboration with SBP and P@SHA. Moreover, the enablement of 3D Secure on UnionPay PayPak Cobadge Debit Cards significantly enhanced e-commerce transaction security. This year also saw the expansion of ABL's Debit Card Portfolio to over 3.0 million, including a Visa Premium Signature Debit Card Portfolio of 15,000. Collectively, these initiatives represent a substantial progression in ABL's service offerings.

Allied Bank implemented a customer-focused Enterprise CRM solution, 'Customer 360', offering a holistic view of customer interactions across all channels. This system efficiently addresses service requests and complaints, empowering staff with tools for robust client relationship management and identifying sales and service personalization opportunities.

The CRM's unified complaint management system enhances customer satisfaction by streamlining resolutions across various channels, including phone banking, online platforms, and physical branches. Additionally, its integrated CRM Campaign Management optimizes customer engagement and marketing efficiency, while the CRM's centralized functionality significantly improves sales cycle management, from lead generation to finalization, thereby bolstering Allied Bank's sales strategies and growth potential.

Allied Bank is committed to enhancing the digital customer experience through the application of advanced analytics and business intelligence (BI) tools. Allied Bank employs both predictive and real-time analytics to anticipate and respond to customer needs effectively, ensuring the delivery of tailored solutions, immediate support, and personalized customer experience. These insights are instrumental in making data-driven decisions that

focus on enhancing customer satisfaction and shaping competitive strategies.

To optimize customer service, Allied Phone Banking now registers complaints through chat and social media, aiming for efficient resolution and enhanced customer experiences. Innovations in Interactive Voice Recording (IVR) system, including features like Temporary Debit and Credit Card Blocking and Account Debit Block, empower customers with self-service options, promoting efficiency. Additionally, newly introduced Call Back and Web Call Back features address customer preferences for immediate or scheduled callbacks, enhancing service accessibility. Allied Phone Banking achieved a service level above 95% on the strength to call centre efficiency and higher service standards resulting in enhanced customer satisfaction.

Allied Bank implemented a series of pivotal initiatives and technological enhancements in its ATM services, demonstrating a strong commitment to improving customer experience and operational efficiency. Allied Bank implemented the advanced ATM Monitoring Solution, Vynamic View, for its Diebold Nixdorf (DN) ATMs. This sophisticated system features customizable dashboards, detailed component-level monitoring, comprehensive inventory management, real-time Electronic Journal (EJ) access, enhanced command and log tracking, efficient incident management, and robust alert management capabilities. ABL plans to execute the EJ paper cutover phase across all DN ATMs in 2024, aiming to significantly reduce paper usage and associated costs.

Allied Bank reached a significant milestone in fostering inclusivity through the successful implementation of the Talking ATM feature in selected ATMs, specifically designed to aid visually impaired customers. In an initiative to augment ATM service uptime, ABL initiated 24/7 ATM Monitoring Unit shift operations, enhancing ATM service availability and increasing customer footfall. Allied Bank has commendably sustained an average ATM uptime exceeding 96% over the past five years reaffirms its position as a leading acquirer in the ATM industry.

Future Outlook:

As we move forward into 2024, our primary objective is to enhance customer experiences across various channels, including physical branches, while simultaneously focusing on augmenting the bank's revenue growth and optimizing expenses. The integration of generative AI and Large Language Models (LLM) will be crucial in delivering world-class customer service and comprehending their evolving needs.

In the sphere of digital marketing, our strategy is to recalibrate our approach, targeting customers based on their personas across all social media platforms. Your Bank plan to collaborate with industry leaders in Payment-Initiator-Service-Provider (PISP) and Person-to-Merchant (P2M) payments as part of our initiative to drive innovation in the payment sector.

Furthermore, Your Bank plan to implement automated solutions for dispute resolution and enhance Cash Deposit Machines (CDMs) to improve operational efficiency and streamline processes.

INFORMATION TECHNOLOGY

The Bank has consistently made remarkable strides in serving its customers by leveraging state-of-the-art technology and expanding its digital presence. This commitment ensures that customers have access to a comprehensive range of "digital and networked banking services" on the go.

The Bank has reached a noteworthy milestone through the recent introduction of its POS and Merchant Acquiring System. This represents a crucial advancement in the expansion of the digital payment infrastructure, empowering merchants to engage in transactions with unparalleled ease. The system enables transactions through both card-based and NFC-based methods, offering a versatile and modernized platform for secure and efficient electronic payments. This strategic initiative enables the Bank to foster a contemporary and seamless payment experience for both merchants and customers alike.

RAAST, an initiative by the SBP, is poised to elevate financial inclusion and drive digitalization in the economy by offering instant fund transfer options for individual and corporate customers. SBP has recently introduced a new use case under RAAST: Person to Merchant payments through QR and Request to Pay services.

ABL has recently upgraded its Enterprise Service Bus (ESB) to the latest version, accompanied by an enhanced infrastructure, a move that has proven instrumental in supporting digital transformation initiatives. By incorporating an ESB into the Enterprise Service Architecture, ABL has established a streamlined communication framework where core applications interact with each other through the bus. This approach significantly reduces the need for numerous point-to-point connections traditionally required for inter-application communication. Moreover, the upgraded ESB is playing a pivotal role in facilitating digital business by enabling the exposure of services to external clients through an Open API platform.

The Digital Lending Platform has introduced Merchant Lending, representing a significant advancement in micro-lending through digital channels. This achievement is particularly noteworthy as it aligns with the implementation of ICF5 (Innovation Challenge Fund), marking a milestone in fostering innovation within the lending landscape. The inclusion of Merchant Lending not only expands the scope of digital lending but also exemplifies a commitment to pushing the boundaries of financial services through innovative solutions.

In a commitment to providing an enhanced user experience, myABL has introduced a completely revamped user interface for its mobile app customers, available on both Android and iOS platforms. The new UI layout is designed based on the latest usability conveniences and aligns with current market trends. Moreover, myABL is set to introduce Tap & Pay NFC (Near Field

- Resolution of internal and external reviews and audits observations by conducting root cause analysis and emphasis on the process improvement.

The Bank also enhanced the effective monitoring of Trade-Based Money Laundering (TBML) and Harmonized e-KYC (Know Your Customer) mechanisms with the integration of critical trade due diligence parameters, as well as development of Trade Customer Risk Profiling Model, to mitigate trade-based Money Laundering related risks especially pertinent to dual use of goods and vessel tracking. The Bank has also reorganized the e-KYC functionality, which has been harmonized with the core banking System. In order to access, identify and evaluate the inherent AML, CFT, CPF and TBML risks at the entity level, the Bank also updated its Entity Level Internal Risk Assessment (IRA) in accordance with regulatory requirements and the National Risk Assessment (NRA) of Pakistan. The Compliance Group also carried out various regulatory

compliance reviews to ensure compliance with the prerequisites and also conducted Gap Analysis of significant regulatory changes, amendments and updates viz a viz existing banks documentations and implementations to ensure effective regulatory compliance.

With the aim to create awareness among customers about the Bank's complaint lodgment process and available channels, information was disseminated through corporate website, myABL Digital Banking app, SMS, digital signages, and ATMs. During the year 2023, 80,959 complaints were registered and the Bank achieved 98% resolution rate with an improved average turnaround time of 8.8 working days for resolution of customer complaints.

Future Outlook

Compliance function will continue its concerted efforts in strengthening compliance culture, reducing the compliant resolution time and enhancement of skills through trainings, certifications and awareness sessions on areas like AML, KYC, CFT, CPF, TBML and latest regulatory requirements for Staff and Customers. Compliance function will roll out artificial intelligence-based solutions for streamlining transaction monitoring and rationalizing sanction screening workload in conjunction with ensuring effectiveness of these systems.

The Compliance function of the Bank is at center point of implementation of Block Chain driven eKYC project in the Bank. This is an industry level initiative which will help in improvement of quality of KYC and reducing compliance risk.

As part of implementation for Trade-Based Money Laundering framework; upgradation of Name Screening Solution, Vessel tracking and Transaction Monitoring System will remain key priority of CG. Further, to comply with SBP TBML framework, Compliance Function through its risk-based approach will deploy and implement Trade Customer and Entity wide Risk Profiling Model to mitigate Trade-Based Money Laundering related risks along with implementation of Liability Customer Risk Profiling Model.

OUTLOOK

FORWARD LOOKING STATEMENT

Forward-looking statements are used in different sections of the annual report of Allied Bank Limited (ABL). These statements are based on assumptions and expectations that are subject to inherent uncertainties and, as a consequence, prone to the risk that the predictions, forecasts, projections, estimates or conclusions may deviate from actual results. Therefore, should be read in conjunction with prevailing economic parameters including applicable fiscal and monetary pronouncements for decision making purposes.

Economic outlook

The prevailing political unrest, challenging macroeconomic conditions and high inflation rates along with external factors exerted pressure on Pakistan's economy. However, there are signs of short-term improvement in economic performance. According to the IMF estimates, Pakistan's GDP contracted by 0.2% in 2023 which was earlier projected to contract by 0.5%, in both July and October 2023 updates.

In 2023, inflation levels remained elevated, with CPI inflation recorded at 29.7% on year-on-year basis in December 2023, compared to 24.5% in December 2022. On a month-on-month basis, inflation increased to 0.8% in December 2023 compared to a rise of 2.7% in the previous month. Consequently, the State Bank of Pakistan (SBP) maintained strict policy stance to ensure external account stability, address inflationary pressure and manage demand. Monetary Policy Committee (MPC) of SBP increased the policy rate by 600 basis points since November 2022, reaching 22% in June 2023, and maintained this rate in its recent meeting held in January 2024. However, MPC has estimated that the headline inflation rate will decline in second half of FY'24.

Future outlook

The Bank is prudently progressing ahead to shape a successful future by investing more in generative AI applications, autonomous technologies and digitally led innovative solutions, while also delivering value to its stakeholders through agility, resilience, and strong governance.

Going forward, the Bank is determined to achieve the following key strategic objectives:

Enhanced digitization

ABL aims to improve digital and counter transaction mix through enhancing and introducing digitally-led financial solutions, augment smart branches and deploying and utilizing Open Banking Platform, Artificial Intelligence (AI) and Generative AI.

Process enrichment through robotic automation

The Bank continues to implement "Robotic Process Automation Solution" for improving operational efficiency, control and cost saving. Automation of manual processes will result in turn-around time improvement and strengthening of operating effectiveness.

New-to-bank customer onboarding

One of the primary strategic goals of ABL is to develop an easy-to-use digital onboarding process. The Bank is expanding its customer base through new services and business models by adopting hybrid strategy to augment new customer base.

Financial inclusion

Financial inclusion plays major role in economic growth and poverty alleviation. By providing access to formal financial services, individuals in underserved communities can participate in the formal economy, leading to improved livelihoods. Going forward, ABL targets to penetrate into large unbanked segment of population groups through innovation and promotion of youth and customer-centric products and services.

Information security

With enhanced digitization, agile and pro-active information security is of paramount importance to combat with cyber threats. The Bank plans to expand continuously its robust Info-Sec set-up by adopting the industry best practices and embeds its systems with emerging controls.

Human resource and intellectual capital

Technology Savvy Human Capital is essential for successful digital transformation in progressively complex and competitive environment. Along with induction of Technology Savvy resources, emphasis is being laid on traditional as well as e-learning techniques to upskill and develop workforce in line with ever-changing banking dynamics.

Fee Based Income

Amid fluctuating interest rate environment; diversification, base broadening and optimization of revenue streams will remain pertinent. The Bank intends to exploit opportunities in e-banking services, trade finance and remittances to enhance fee-based income.

Outreach

Keeping in mind the evolving digital trends together with traditional banking to cater diversified population base of the country, the Bank focuses on hybrid banking strategy involving a mix of conventional and digital channels.

Uncertainties that may affect the Bank's resources, revenues and operations

The Bank appraises readers regarding multiple factors beyond its control, which may cause the actual results to differ materially from the expectations expressed in these statements.

Following factors may affect the Bank's strategy going forward:

- Fiscal and Monetary measures;
- Geo-political risks;
- Regulatory changes and taxation;
- Political stability; and
- Exchange rate volatility & inflation

GBO continuously endeavors to enhance capacity building of the staff, and accordingly, total of 819 staff members were trained/sensitized related to Green Banking during the year 2023.

Green Advisory Services Desk

A Green Advisory Services Desk is established within GBO to facilitate prospective/existing obligors for their enquiry(s) relating to Green Technology/Investments and various alternatives for efficient resource planning.

Environment and Social Risk Management System

As part of Green Banking Policy, Your Bank is committed to enhance the impact of Green Financing in the overall environment

safety and has developed an Environment Risk Management System, which is monitored by GBO. The Environmental Risk Management System ensures that financing of the Bank is directed towards environment friendly projects / activities in the country.

Environmental Risk Rating (ERR) of obligors is calculated to assess environmental implications and their effects on credit quality of a particular financing transaction. The obligors with potential environmental risks are required to provide Environmental Improvement Plan (EIP) with specific timelines. An annual report on the status of inherent environmental risks in the Bank's portfolio is presented annually to Risk Management Committee/Board.

Social Risk Rating (SRR) of the obligor is also calculated to assess obligors with respect to compliance of widely accepted standards of business ethics.

The Bank is resolute to fully comply, the 'Environmental and Social Risk Management (ESRM) Implementation Manual' recently issued by State Bank of Pakistan.

ENVIRONMENT PROTECTION

Low Carbon Footprints

As a part to reduce carbon emission by direct operational impact, your Bank has been investing in installation of solar panels. Resultantly, total internal solar power generation capacity of the Bank has increased to 622 KW installed at 67 locations. Independent Auditor's Report

To the members of Allied Bank Limited

Report on the Audit of the Unconsolidated Financial Statements

Opinion

We have audited the annexed unconsolidated financial statements of Allied Bank Limited ("the Bank"), which comprise the unconsolidated statement of financial position as at 31 December 2023, and the unconsolidated profit and loss account and the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated cash flow statement for the year then ended, along with unaudited certified returns received from the branches except for 37 branches which have been audited by us and notes to the unconsolidated financial statements, including material accounting policy information and other explanatory information and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the unconsolidated statement of financial position, the unconsolidated profit and loss account, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated cash flow statement together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan, and give the information required by the Banking Companies Ordinance, 1962 and the Companies Act, 2017(XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Bank's affairs as at 31 December 2023 and of the profit, other comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities For the Audit of the Financial Statements section of our report. We are independent of the Bank in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. This matter was addressed in the context of our audit of the unconsolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Following are the Key Audit Matter:

S. No.	Key Audit Matter	How the matter was addressed in our audit
1	Provision against non-performing advances	
	<p>The Bank's advances to the customers represent 33.6% of its total assets as of 31 December 2023 which is spread across various branches. The advances mainly includes corporate financing to several public sector entities and large to small size businesses operating in the private sector.</p> <p>As per the Bank's accounting policy (refer note 4.4 to the unconsolidated financial statements), the Bank determines provisions against non-performing advances in accordance with the requirements of Prudential Regulations (PRs) of State Bank of Pakistan (SBP) and also maintains general provision as required by PRs. The PRs require specific provisioning against advances on the basis of an age-based criteria which is supplemented by a subjective evaluation by the Bank of its portfolio of advances. The determination of subjective provision against advances involves use of management judgment, on a case-to-case basis, considering factors such as the borrower's economic, financial and business conditions, repayment behaviors and credit worthiness.</p> <p>In view of the magnitude of advances in the unconsolidated financial statements and the level of involvement of management's judgment, we identified provision against advances as a key audit matter.</p> <p>The accounting policy and disclosures relating to provisioning against non-performing advances are included in note 4.4 and 9 respectively to the unconsolidated financial statements.</p>	<p>We applied a range of audit procedures including the following:</p> <p>We reviewed the Bank's process for identification and classification of non-performing advances, monitoring of advances with higher risk of default and migration of these advances to non-performing advances category and accurate computation and recording of provisions.</p> <p>We performed an analysis of the changes within the different categories of classified non-performing accounts from last year to the current reporting date. This analysis was used to gather audit evidence regarding downgrading of impaired advances and declassification of accounts from non-performing to regular and vice versa, as the case may be.</p> <p>We performed independent checks on test basis for the computations of provisions to assess that the same is in line with the requirements of the applicable Prudential Regulations.</p> <p>In addition, we selected a representative sample of borrowers from the portfolio of advances including individually significant credit facilities and performed tests and procedures such as review of credit documentation, repayment history and past due status and financial condition as depicted by the borrowers' financial statements and nature of collateral held by the Bank.</p> <p>In respect of the level of general provision maintained by the Bank, we discussed the approach and policy followed by the Bank with the management.</p>

	We also assessed adequacy of disclosures as included in note 9 to the unconsolidated financial statements regarding the non-performing advances and provisions made for the same in the unconsolidated financial statements in accordance with the requirements of the applicable financial reporting framework.

Information Other than the Unconsolidated Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the unconsolidated financial statements and our auditor's report thereon.

Our opinion on the unconsolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the unconsolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the unconsolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and the Board of Directors for the Unconsolidated Financial Statements

Management is responsible for the preparation and fair presentation of the unconsolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan, the requirements of Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of unconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the unconsolidated financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Board of directors is responsible for overseeing the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the unconsolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these unconsolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the unconsolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the unconsolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the unconsolidated financial statements, including the disclosures, and whether the unconsolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide to the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the unconsolidated financial statements of the current period and are therefore the key audit matters.

We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements:

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Bank as required by the Companies Act, 2017 (XIX of 2017) and the returns referred above from the branches have been found adequate for the purpose of our audit;
- b) the unconsolidated statement of financial position, the unconsolidated profit and loss account, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated cash flow statement (together with the notes thereon have been drawn up in conformity with the Banking Companies Ordinance, 1962 and the Companies Act, 2017(XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were in accordance with the objects and powers of the Bank and the transactions of the Bank which have come to our notice have been within the powers of the Bank; and
- d) zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Bank and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

We confirm that for the purpose of our audit we have covered more than sixty per cent of the total loans and advances of the Bank.

The engagement partners on the audit resulting in this independent auditors' report is Arslan Khalid.

Ibrahim Holdings (Private) Limited is the parent company of the Bank and it's registered office is in Pakistan.

The Bank is the holding company of ABL Asset Management Company Limited.

The registered office of the Bank is situated at 3 - Tipu Block, New Garden Town, Lahore.

2 BASIS OF PRESENTATION

These unconsolidated financial statements represent separate financial statements of the Bank. The consolidated financial statements of the Bank are being issued separately.

In accordance with the directives of the Federal Government regarding the shifting of the banking system to Islamic modes, the State Bank of Pakistan (SBP) has issued various circulars from time to time. Permissible forms of trade-related modes of financing include purchase of goods by banks from their customers and immediate resale to them at appropriate profit in price on deferred payment basis. The purchases and sales arising under these arrangements are not reflected in these unconsolidated financial statements as such but are restricted to the amount of facility actually utilized and the appropriate portion of profit thereon.

The financial results of the Islamic banking branches have been consolidated in these financial statements for reporting purposes, after eliminating inter-branch transactions and balances. Key financial figures of the Islamic banking branches are disclosed in Annexure II to these financial statements.

These unconsolidated financial statements have been presented in Pakistan Rupees (PKR), which is the currency of the primary economic environment in which the Bank operates. The amounts are rounded to nearest thousand of rupees unless otherwise stated.

The US\$ Dollar amounts presented in the Statement of Financial Position, Profit and Loss Account, Statement of Comprehensive Income and Statement of Cash Flow are stated as additional information, solely for the convenience of the users of financial statements. For the purpose of translation to US\$, spot rate of Rs. 281.8607 per US\$ has been used for 2023 and 2022, as it was the prevalent rate on reporting date.

2.1 STATEMENT OF COMPLIANCE

These unconsolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act, 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as are notified under the Companies Act, 2017;
- Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
- Directives issued by the State Bank of Pakistan (SBP) & the Securities and Exchange Commission of Pakistan (SECP).

2.1.1 Whenever the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the directives issued by the SBP and the SECP differ with the requirements of IFRS and IFAS, the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives, shall prevail.

2.1.2 The SBP, vide BSD Circular Letter No. 10, dated August 26, 2002 has deferred the applicability of International Accounting Standard 39 'Financial Instruments: Recognition and Measurement' (IAS 39) and International Accounting Standard 40 'Investment Property' (IAS 40) for banking companies till further instructions. Further, according to a notification of Securities and Exchange Commission of Pakistan (SECP) dated April 28, 2008, International Financial Reporting Standard 7 'Financial Instruments Disclosure' (IFRS 7), has not been made applicable for banks. Accordingly, the requirements of these standards have not been considered in the preparation of these unconsolidated financial statements. However, investments have been classified and disclosed in accordance with the requirements prescribed by SBP through various circulars.

2.1.3 The Securities and Exchange Commission of Pakistan (SECP) vide SRO 56 (1) / 2016 dated January 28, 2016, has notified that the requirements of International Financial Reporting Standard 10 'Consolidated Financial Statements' (IFRS 10) and section 228 of the Companies Act, 2017 will not be applicable with respect to the investment in mutual funds established under Trust structure.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2023

2.1.4 The State Bank of Pakistan through BPRD Circular No. 04 of 2015 dated February 25, 2015 has deferred applicability of Islamic Financial Accounting Standard 3 'Profit & Loss Sharing on Deposits' (IFAS-3) issued by the Institute of Chartered Accountants of Pakistan and notified by the Securities & Exchange Commission of Pakistan (SECP), vide their SRO No. 571 of 2013 dated June 12, 2013 for Institutions offering Islamic Financial Services (IIFS). The standard will result in certain new disclosures in the financial statements of the Bank.

2.2 STANDARDS, INTERPRETATIONS OF AND AMENDMENTS TO THE PUBLISHED APPROVED ACCOUNTING STANDARDS THAT ARE EFFECTIVE IN THE CURRENT YEAR

There are certain amendments to existing accounting and reporting standards that have become applicable to the Bank for accounting periods beginning on or after January 01, 2023. These are either considered to not be relevant or do not have any significant impact and accordingly have not been detailed in these financial statements, except as disclosed below.

IAS 1 and IFRS Practice Statement 2 - Disclosure of Accounting Policies (Amendments)

The amendments to IAS 1 and IFRS Practice Statement 2 Making Materiality Judgements provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments have had an impact on the Bank's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Bank's unconsolidated financial statements.

2.3 STANDARDS, INTERPRETATIONS OF AND AMENDMENTS TO THE PUBLISHED APPROVED ACCOUNTING STANDARDS THAT ARE NOT YET EFFECTIVE

IFRS 9 'Financial Instruments'

As per SBP BPRD Circular No 7 of 2023, the effective date for the implementation of IFRS 9 Financial Instruments is accounting period beginning on or after January 1, 2024. SBP had earlier issued BPRD Circular No 3 of 2022 where detailed instructions on the application of the Standard, including transitional provisions, impact on the Capital Adequacy Ratio (CAR) calculation and reporting requirements.

The IFRS 9 application instructions and guidelines that have been issued as part of the circular include the following key components:

- Basis for classification and measurement of debt and equity securities;
- Framework for determination of "Expected Credit Losses (ECL)" under the requirements of IFRS 9, including required risk management policies;
- Credit exposures (in local currency) that have been guaranteed by the Government and Government Securities have been exempted from the application of the above ECL Framework;
- In respect of non-performing exposures (Stage 3 exposures) provision would be made considering higher of IFRS 9 ECL or provision computed under existing PRRs' requirements;
- In order to mitigate the impact of ECL provisioning on capital, a transitional arrangement is allowed to the banks to absorb the impact on regulatory capital and fully described in Annexure B to the aforementioned circular.

The State Bank of Pakistan vide its BPRD circular No. 2 dated February 9, 2023 has issued revised formats for interim and annual financial statements of the banks for the accounting periods starting from January 01, 2023, which shall include the presentation and disclosures on adoption of IFRS 9 as applicable in Pakistan.

Impact on equity and regulatory capital on adoption of IFRS 9

During 2023, the Bank has performed an impact assessment after applying the SBP's IFRS 9 instructions. The assessment is based on available information and may be subject to changes arising from further reasonable and supportable information being made available to the Bank at the time of finalizing the impact for initial application of IFRS 9.

The Bank will adopt IFRS 9 in its entirety effective January 01, 2024 with a modified retrospective approach for restatement. As permitted by IFRS-9, the Bank will not be restating comparatives on initial application. The cumulative impact of the initial application will be recorded as an adjustment to opening equity as at January 1, 2024.

The total estimated adjustment (net of tax) of the adoption of IFRS 9 on the opening balance of the Bank's equity as at January

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2023

01, 2024 would be a reduction in equity of approximately Rs. 2,722.8 million, with corresponding impacts as follows:

- A decrease of approximately Rs. 3,115.641 million net of tax related to impairment requirements;
- An increase of approximately Rs. 392.841 million net of tax related to classification and measurement changes.

In order to mitigate the impact of ECL provisioning on capital, a transitional arrangement is allowed to the banks to absorb the impact on regulatory capital. Accordingly, banks, which choose to apply this transitional arrangement, may implement this in accordance with SBP's Guideline for absorption of ECL for CAR purposes as mentioned in Annexure-B of BPRD Circular no 3 of 2022.

The estimated impact of initial adoption of IFRS 9 on the Bank's capital ratios, without accounting for the allowed transitional arrangement, would be as follows:

- Common Equity Tier 1 Capital Adequacy ratio - 19.74%
- Tier 1 Capital Adequacy Ratio - 19.74%
- Total Capital Adequacy Ratio - 26.18%

These unconsolidated financial statements have been prepared in accordance with the applicable prudential regulations to the Bank's domestic operations, whereas the requirements of this standard have been incorporated for the overseas jurisdiction where IFRS 9 has already been adopted.

The following amendments with respect to the approved accounting standards, as applicable in Pakistan, would be effective from the dates mentioned below. The Bank intends to adopt these new and amended standards and interpretations, if applicable, when they become effective.

Standard and Amendments	Effective date (accounting periods beginning on or after)
- IAS 1 - Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants - (Amendments)	January 01, 2024
- IAS 7 and IFRS 7 - Disclosures: Supplier Finance Arrangements - Amendments	
- IFRS 16 - Lease Liability in a Sale and Leaseback - Amendments	
- IAS 21 - Lack of exchangeability - Amendments	January 01, 2025
- IFRS 10 and IAS 28 - Sale or Contribution of Assets between an Investor	Not yet announced

The above standards, amendments and improvements are not expected to have any material impact on the unconsolidated financial statements of the Bank for the futures periods.

Further, following new standard has been issued by IASB which is yet to be notified by SECP for the purpose of applicability in Pakistan.

Standard	IASB effective date
- IFRS 1 - First time adoption of International Financial Reporting Standards	January 01, 2024

2.4 CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of these financial statements in conformity with the approved accounting standards requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses. It also requires the management to exercise its judgment in the process of applying the Bank's accounting policies. Estimates, underlying assumptions and judgments are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognized in the period in which estimates are revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods. The areas where various assumptions and estimates are significant to the Bank's financial statements or where judgment was exercised in application of accounting policies are as follows:

2.4.1 Provision against non-performing loans and advances

The Bank reviews its loan portfolio to assess amount of non-performing loans and advances and provision required there-against. While assessing this requirement various factors including the delinquency in the account, financial position of the borrower and the requirements of the Prudential Regulations are considered. The amount of general provision is determined in accordance with the requirements set out in Prudential Regulations.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2023

2.4.2 Valuation and impairment of 'available-for-sale' equity investments

The Bank determines that 'available-for-sale' equity investments are impaired when there has been a significant or prolonged decline in the fair value below its cost. This determination of what is significant and prolonged requires judgment. In making this judgment, the Bank evaluates among other factors, the normal volatility in share price. In addition, impairment may be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance, changes in technology and operational and financing cash flows.

Other areas where judgments are exercised in application of accounting policies are as follows:

2.4.3 Defined benefit plans

Liability is determined on the basis of actuarial advice using the Projected Unit Credit Method. The actuarial assumptions used to determine the liability and related expense are disclosed in note 35.

2.4.4 Classification of investments

- In classifying investments as 'held-for-trading' the Bank has determined securities which are acquired with the intention to trade by taking advantage of short term market or interest rate movements and are to be sold within 90 days.
- In classifying investments as 'held-to-maturity' the Bank follows the guidance provided in SBP circulars on classifying non-derivative financial assets with fixed or determinable payments and fixed maturity. In making this judgment, the Bank evaluates its intention and ability to hold such investments to maturity.
- The investments, other than those in subsidiary, which are not classified as 'held-for-trading' or 'held-to-maturity' are classified as 'available-for-sale'.

2.4.5 Depreciation, amortization and revaluation of operating fixed assets

In making estimates of the depreciation and amortization, the management uses method which reflects the pattern in which economic benefits are expected to be consumed by the Bank and estimates the useful life. The method applied and useful lives estimated are reviewed at each financial year end and if there is a change in the expected pattern or timing of consumption of the future economic benefits embodied in the assets, the estimate would be changed to reflect the change in pattern. Such a change is accounted for as change in accounting estimates in accordance with International Accounting Standard 8 - Accounting Policies, 'Changes in Accounting Estimates and Errors'. Further, the bank estimates the revalued amount of land and buildings on a regular basis. The estimates are based on the valuations carried out by independent professional valuers under the market conditions.

2.4.6 Fair value hierarchy of assets and liabilities

The fair value of the assets and liabilities is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Bank categorizes fair value measurements within the following fair value hierarchy:

a) Level 1

These are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Bank can access at the measurement date.

b) Level 2

These are inputs other than quoted prices included within Level 1 that are observable for asset or liability, either directly or indirectly.

c) Level 3

These are input for the assets or liabilities that are not based on observable market data (unobservable Inputs).

2.4.7 Lease term

The Bank applies judgement to determine the lease term for some lease contracts in which it is a lessee that include renewal options. The assessment of whether the Bank is reasonably certain to exercise such options impacts the lease term, which significantly affects the amount of lease liabilities and right-of-use assets recognized.

2.4.8 Income taxes

In making estimates for income taxes currently payable by the Bank, the management considers the current income tax laws and the decisions of appellate authorities on certain issues in the past. There are certain matters where the Bank's view differs with the view taken by the income tax authorities and such amounts are shown as a contingent liability.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2023

3 BASIS OF MEASUREMENT

These unconsolidated financial statements have been prepared under the historical cost convention except for the following which are stated at revalued amounts or fair values or present values:

- Certain investments (Note 4.3);
- Certain operating fixed assets (Note 4.5);
- Lease liability and related right of use assets (Note 4.6).
- Staff retirement and other benefits (Note 4.8);
- Non-banking assets acquired in satisfaction of claims (Note 4.9);
- Derivative financial instruments (Note 4.14.2).

4 MATERIAL ACCOUNTING POLICY INFORMATION

The accounting policies adopted in the preparation of these unconsolidated financial statements have been applied consistently to all periods presented in these unconsolidated financial statements of the Bank. Material accounting policies are enumerated as follows:

4.1 Cash and cash equivalents

For the purpose of Cash Flow Statement, cash and cash equivalents include cash and balances with treasury banks and balances with other banks (net of overdrawn nostro balances) in current and deposit accounts.

4.2 Lendings to or borrowings from financial institutions

The Bank enters into transactions of borrowing (re-purchase) from and lending (reverse re-purchase) to financial institutions, at contracted rates for a specified period of time. These are recorded as under:

a. Sale under re-purchase agreements

Securities sold subject to a re-purchase agreement are retained in the financial statements as investments and the counter party liability is included in borrowings from financial institutions. The differential in sale and re-purchase value is accrued on a pro rata basis and recorded as mark-up expense.

b) Purchase under resale agreements

Securities purchased under agreement to resell (reverse re-purchase) are included in lendings to financial institutions. The differential between the contracted price and resale price is accrued on pro rata basis over the period of the contract and recorded as mark-up income.

Securities held as collateral are not recognized in the financial statements, unless these are sold to third parties, in which case the obligation to return them is recorded at fair value as a trading liability under borrowings from financial institutions.

In Bai Muajjal, the Bank purchases and sells Shariah Compliant instruments including sukuk on credit to other financial institutions. The credit price is agreed at the time of sale and such proceeds are received at the end of the credit period. Expected profit / expense is recognized on accrual basis.

In Musharaka and Mudaraba, the Bank invests in the Shariah compliant business pools of the financial institutions at the agreed profit and loss sharing ratio. Expected profit is recognized on accrual basis.

Other borrowings including borrowings from SBP are recorded at the proceeds received. Mark-up on such borrowings is charged to the Profit and Loss Account on a time proportion basis.

Lendings are stated net of provision. Return on such lending is accrued to the Profit and Loss Account on a time proportion basis except mark-up on impaired or delinquent lendings, which is recognized on receipt basis.

4.3 Investments

Investments

ABL Asset Management Company Limited is a subsidiary of the Bank. This investment is stated at cost less provision for impairment, if any.

Held-for-trading

These are investments acquired principally for the purpose of generating profits from short-term fluctuations in price or dealer's margin or are securities included in a portfolio in which a pattern of short-term trading exists.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2023

Held-to-maturity

These are investments with fixed or determinable payments and fixed maturities which the Bank has the intention and ability to hold till maturity.

In Bai Muajjal, the Bank sells sukuk on credit to Government of Pakistan. The credit price is agreed at the time of sale and such proceeds are received at the end of the credit period.

Available-for-sale

These are investments which do not fall under held for trading and held to maturity categories.

All purchases and sales of investments that require delivery within the time frame established by regulations or market convention are recognised at the trade date. Trade date is the date on which the Bank commits to purchase or sell the investments.

Investments (other than held for trading) are initially measured at fair value plus transaction cost associated with the investment. Investments classified as held for trading are initially measured at fair value, and transaction costs are expensed in the profit and loss account.

After initial recognition, quoted securities (other than those classified as held to maturity) are carried at market value. Unquoted securities are valued at cost less impairment in value, if any. Held to maturity securities are carried at amortised cost.

Surplus / (deficit) arising on revaluation of quoted securities which are classified as 'available-for-sale', is included in the statement of comprehensive income and is shown in the statement of financial position as part of equity. The surplus / (deficit) arising on these securities is taken to the profit and loss account when actually realised upon disposal or in case of impairment of securities. The unrealised surplus / (deficit) arising on revaluation of quoted securities which are classified as held for trading is taken to the profit and loss account.

Premium or discount on debt securities classified as available for sale and held to maturity is amortised using effective interest method and taken to the profit and loss account.

Details of valuation techniques used in determination of fair value is included in note 38 of unconsolidated financial statements.

4.4 Advances

a. Loans and advances

Loans and advances are stated net of general and specific provisions. Specific provision against loans is determined in accordance with the requirements of the Prudential Regulations and other directives issued by SBP and charged to the Profit and Loss Account. General provision is maintained in accordance with the requirements of Prudential Regulations issued by SBP. The provision and reversal is charged to the Profit and Loss Account. Advances are written off when there are no realistic prospects of recovery.

b. Net investment in finance lease

Leases, where the Bank transfers substantially all the risks and rewards incidental to the ownership of an asset to the lessee are classified as finance leases. A receivable is recognized at an amount equal to the present value of the minimum lease payments, including un-guaranteed residual value, if any. Finance lease receivables are included in advances to the customers.

c. Islamic financing and related assets

The Bank provides Islamic financing and related assets mainly through Murabaha, Ijarah, Istisna, Diminishing Musharakah, Business Musharakah, Salam and Musawamah. The purchases and sales arising under these arrangements are not reflected in these financial statements as such but are restricted to the amount of facility actually utilised and the appropriate portion of profit thereon. The profit on such financings is recognised in accordance with the principles of Islamic Shariah. The Bank determines specific and general provisions against Islamic financing and related assets in accordance with the requirements of the Prudential Regulations issued by the SBP. The net provision made or reversed during the year is charged to Profit and Loss Account and accumulated provision is netted off against Islamic financing and related assets. Islamic financing and related assets are written off when there are no realistic prospects of recovery.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2023

4.5 Fixed assets and depreciation

a. Property and equipment - owned

Land is measured at cost at the time of initial recognition and is subsequently carried at revalued amount less impairment, if any. Buildings are initially measured at cost and upon revaluation, are carried at revalued amount less accumulated depreciation and impairment, if any. All other operating fixed assets are stated at cost less accumulated depreciation and impairment, if any. Depreciation is charged to profit and loss account on straight line basis so as to charge the assets over their expected useful lives at the rates specified in note 10.2. Depreciation is charged on prorata basis, i.e., full month charge in the month of purchase and no charge in the month of disposal.

Land and buildings are revalued by independent professionally qualified valuers with sufficient regularity to ensure that the net carrying amount does not differ materially from the fair value. The valuations involve estimates / assumptions and various market factors and conditions. The Bank accounts for revaluation surplus / deficit in accordance with the requirements of IAS 16 "Property, Plant and Equipment".

Gains and losses on disposal of fixed assets are included in income currently, except that the related surplus on revaluation of land and buildings (net of deferred tax) is transferred directly to unappropriated profit.

b. Intangible assets

Intangible assets are carried at cost less any accumulated amortization and impairment losses, if any. The cost of intangible assets is amortized over their estimated useful lives, using the straight line method. Amortization is charged from the month the assets are available for use at the rate stated in note 11.2. The useful lives are reviewed and adjusted, if appropriate, at each reporting date.

c. Capital work-in-progress

Capital work-in-progress is stated at cost less impairment losses, if any.

4.6 Lease liability and right of use asset

Lease liabilities

At the commencement date of the lease, the Bank recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The Bank determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. After the commencement date, the Bank reassesses the lease term if there is a significant event or change in circumstances that is within its control that affects its ability to exercise or not to exercise the option to renew or to terminate. The Bank cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental lending rate to measure lease liabilities.

Right-of-use assets

The Bank recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. Right-of-use assets are depreciated on a straight-line basis over the lease term. The right-of-use assets are presented within note 10 fixed assets.

Bank as a lessee

The Bank enters into lease arrangements principally in respect of office space for its operations. The Bank assesses at contract inception whether a contract is, or contains, a lease.

The Bank applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Bank recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

4.7 Taxation

a. Current

Provision for current taxation is based on taxable income for the year determined in accordance with the prevailing laws for taxation. The charge for current tax is calculated using the prevailing tax rates or tax rates expected to apply to the profits for the year.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2023

b. Prior

The taxation charge for prior years represents adjustments to the tax charge relating to prior years, arising from assessments or changes in laws and changes in estimates made during the current year.

c. Deferred

Deferred tax is recognized using the balance sheet liability method on all temporary differences, at the reporting date between the amounts attributed to assets and liabilities for financial reporting purpose and amounts used for taxation purposes. Deferred tax is calculated at the rates that are expected to apply to the periods when the difference will reverse, based on tax rates that have been enacted or substantially enacted at the reporting date.

Deferred tax assets are recognized only to the extent that it is probable that future taxable profits will be available against which the assets can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The Bank also recognizes a deferred tax asset or liability on deficit or surplus on revaluation of fixed assets, non-banking assets and investments which is adjusted against the related deficit or surplus in accordance with the requirements of IAS-12 'Income Taxes'.

4.8 Staff retirement and other benefits

4.8.1 Staff retirement schemes

a. For employees who opted for the 2002 scheme introduced by the management

An approved pension scheme (defined benefit scheme) under which the benefits on the basis of frozen basic salary, service length and age as on June 30, 2002 are payable to all employees whose date of joining the Bank is on or before July 01, 1992, i.e., who have completed ten years of continuous service as on June 30, 2002.

An approved gratuity scheme (defined benefit scheme) under which the benefits are payable as under:

- i. For members whose date of joining the Bank is on or before July 01, 1992, their services would be calculated starting from July 01, 2002 for gratuity benefit purposes.
- ii. For members whose date of joining the Bank is after July 01, 1992 their services would be taken at actual for the purpose of calculating the gratuity benefit. This rule will be applicable upon retirement or in service death only, in case of resignation gratuity will be payable from July 01, 2002, even if he or she had joined the Bank before July 01, 2002.

A contributory provident fund scheme in which the employee has the option to contribute 8.33%, 12% or 15% of their basic salary every month. The Bank's contribution is fixed at 8.33% of the basic salary of the employee every month.

b. For employees who did not opt for 2002 scheme

An approved pension scheme (defined benefit scheme) under which the benefits on the basis of frozen basic salary as on June 30, 2002 are payable to all employees opting continuation of the previous scheme and whose date of joining the Bank is on or before July 01, 1992, i.e., who had completed ten years of continuous service as on June 30, 2002.

In the light of decision of Honorable Supreme Court of Pakistan in SMC No. 20/2016 dated 13th February 2018 read with Order dated 3rd April 2018 passed in CRP No.72/2018 and Order dated 7th August 2018 in CrI.O.No. 98 and 99 of 2018 and after consultation with Bank's legal counsel, the monthly pension of eligible pensioners has been fixed with indexation levels for eligible pensioners effective from February 13, 2018.

c. Post-retirement medical benefits

The Bank provides post-retirement medical benefits to eligible retired employees. Provision is made annually to meet the cost of such medical benefits on the basis of actuarial valuation carried out using the Projected Unit Credit Method.

Annual contributions towards the defined benefit schemes are made on the basis of actuarial valuation carried out using the Projected Unit Credit Method. Actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are recognized in Other Comprehensive Income in the period of occurrence.

4.8.2 Other long term benefit

a. Employees' compensated absences

Employees' entitlement to annual leave is recognized when they accrue to employees, upto a maximum of 60 days. A provision is made for estimated liability for annual leaves as a result of services rendered by the employee against un-availed leaves, as per terms of service contract, up to the reporting date, based on actuarial valuation using Projected

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2023

Unit Credit Method. Actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are recognized in Profit and Loss Account in the period of occurrence.

b. Compensation to certain class of employees

Bank has revised its retirement policy by reducing the retirement age to 58 years for class of employees effective January 01, 2018. Consequent to the revision, these employees shall be compensated with gross salary along with employer's contribution on provident fund and gratuity for the remaining period up to 60 years in addition to already defined post-employment benefits, payable at the time of retirement, if any.

4.9 Non-banking assets acquired in satisfaction of claims

Non-banking assets (NBA) acquired in satisfaction of claims are carried at revalued amounts less accumulated depreciation (excluding land). Revaluation by independent professionally qualified valuers, is carried out with sufficient regularity to ensure that their net carrying value does not differ materially from their fair value. Surplus arising on revaluation of NBA is credited to the 'surplus on revaluation of assets' account through statement of comprehensive income and any deficit arising on revaluation is taken to Profit and Loss Account directly. Legal fees, transfer costs and direct costs of acquiring title to property are charged to Profit and Loss Account and not capitalised.

4.10 Deposits

Deposits are initially recorded at the amount of proceeds received. Mark-up accrued on deposits is recognized separately as part of other liabilities and is accrued to the Profit and Loss Account on time proportion basis. Deposits mobilized under Islamic Banking operations are generated under two modes i.e. 'Qard' and 'Mudaraba'. Deposits taken on Qard basis are classified as 'Current accounts' and Deposits generated on Mudaraba basis are classified as 'Saving deposits or Fixed deposits'.

4.11 Impairment

a. Available-for-sale equity securities

The Bank determines that 'available-for-sale' equity investments are impaired when there has been a significant or prolonged decline in the fair value of these investments below their cost. The determination of what is significant or prolonged requires judgment. In making this judgment, the Bank evaluates, among other factors, the normal volatility in share price in the case of listed equity securities. In addition, impairment may be appropriate when there is evidence of deterioration in the financial condition of the investee, industry and sector performance and changes in technology.

4.12 Provisions

Provisions are recognized when the Bank has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made.

Provision against identified losses on non-funded exposure is recognized when intimated and reasonable certainty exists for the Bank to settle the obligation. The loss is charged to the Profit and Loss Account net of expected recovery and is classified under other liabilities.

Provisions are reviewed at the reporting date and are adjusted to reflect the current best estimate.

4.13 Acceptances

Acceptances comprise of undertakings by the Bank to pay bills of exchange drawn on customers. Acceptances are recognised as financial liability in the statement of financial position with a contractual right of reimbursement from the customer as a financial asset. Therefore, commitments in respect of acceptances have been accounted for as financial assets and financial liabilities.

4.14 Financial instruments

4.14.1 Financial assets and liabilities

Financial assets and financial liabilities are recognised at the time when the Bank becomes a party to the contractual provision of the instrument. Financial assets are de-recognised when the contractual right to future cash flows from the asset expires or is transferred along with the risk and reward of the asset. Financial liabilities are de-recognised when obligation specific in the contract is extinguished. Any gain or loss on de-recognition of the financial asset and liability is recognised in the Profit and Loss Account of the current period. The particular recognition and subsequent measurement methods adopted for significant financial assets and financial liabilities are disclosed in the individual policy statements associated with them.

4.14.2 Derivative financial instruments

Derivative financial instruments are initially recognized at fair value on the date on which the derivative contract is entered into and are subsequently re-measured at fair value using appropriate valuation techniques. All derivative financial instruments are carried

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2023

as assets when fair value is positive and liabilities when fair value is negative. Any change in the fair value of derivative financial instruments is taken to the Profit and Loss Account.

4.15 Revenue recognition

Revenue is recognized to the extent that the economic benefits will flow to the Bank and the revenue can be reliably measured. These are recognised as follows:

a. Advances and investments

Mark-up, return on regular loans and advances and investments is recognized on a time proportion basis. Where debt securities are purchased at premium or discount, the same is amortized through the Profit and Loss Account using the effective interest rate method.

Interest or mark-up recoverable on classified loans, advances and investments is recognized on receipt basis. Interest, return or mark-up on classified, rescheduled or restructured loans and advances and investments is recognized as permitted by the regulations of the State Bank of Pakistan.

Dividend income is recognized when the right to receive the dividend is established.

Gains and losses on sale of investments are recognized in the Profit and Loss Account.

b. Lease financing

Financing method is used in accounting for income from lease financing. Under this method, the unearned lease income (excess of the sum of total lease rentals and estimated residual value over the cost of leased assets) is deferred and taken to income over the term of the lease period so as to produce a constant periodic rate of return on the outstanding net investment in lease. Unrealised income on classified leases is recognized on receipt basis.

Gains or losses on termination of lease contracts and other lease income are recognized when realized.

c. Islamic financing and related assets

Profit on Business Musharakah financing is booked on accrual basis and is adjusted upon declaration of profit by Musharakah partners.

Ijarah and Diminishing Musharakah income is recognised on an accrual basis as and when the rental becomes due.

Murabaha, Musawamah and Salam income is recognised on deferred income basis.

Profit on Istisna financing is recognized on an accrual basis commencing from time of sale of goods till the realization of sale proceeds by the Bank.

d. Fees, brokerage and commission

Fee, Commission and Brokerage income is recognized on an accrual basis except where, in the opinion of management, it would not be prudent to do so.

4.16 Business Segment reporting

A segment is a distinguishable component of the Bank that is subject to risks and rewards that are different from those of other segments. A business segment is one that is engaged either in providing certain products or services, whereas a geographical segment is one engaged in providing certain products or services within a particular economic environment. Segment information is presented as per the Bank's functional and management reporting structure. The Bank's primary segment reporting is based on following business segments:

a. Corporate & investment banking

This segment offers a wide range of financial services to medium and large sized public and private sector entities and also covers overseas operation of the Bank. These services include, providing and arranging tenured financing, corporate advisory, underwriting, cash management, trade products, corporate finance products and customer services on all bank related matters.

b. Trading and sales (Treasury)

This segment undertakes the Bank's treasury and money market activities.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2023

c. Commercial & retail banking

Commercial and retail banking provides services to commercial and retail customers including agriculture sector. It includes loans, deposits and other transactions with commercial and retail (conventional and Islamic) customers.

d. Islamic Banking

Islamic banking provides Shariah compliant services to customers including loans, deposits and other transactions.

e. Others

Others includes functions which cannot be classified in any of the above segments.

4.17 Geographical segment reporting

Geographically the Bank operates in Pakistan, Middle East and China.

18.2 Workers Welfare Fund

Supreme Court of Pakistan vide order dated November 10, 2016 held that the amendments made in the law through Finance Act 2008, introduced by the Federal Government for the levy of Worker Welfare Fund (WWF) were unlawful. Federal Board of Revenue filed review petition against the subject order, which is currently pending for adjudication.

WWF provision from 2014 has been maintained conservatively based on tax advisor's opinion in view of provincial levy of WWF by the provinces with effect from 2014, including levy by Sindh which is under litigation.

Punjab Government promulgated Punjab Workers Welfare Fund Act 2019 (PWWF) with effect from December 13, 2019, therefore, provision related to Punjab and pertaining to the period from 2014 till the date of promulgation of PWWF was reversed.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2023

21.3.2 The income tax assessments of the Bank have been finalized upto and including tax year 2022 for local, Azad Kashmir and Gilgit Baltistan operations. While finalizing income tax assessments upto tax year 2022, income tax authorities made certain add backs with aggregate tax impact of Rs. 34,841 million (2022: 32,741 million). As a result of appeals filed by the Bank before appellate authorities, most of the add backs have been deleted. However, the Bank and Tax Department are in appeals / references before higher forums against unfavorable decisions. Pending finalization of appeals / references no provision has been made by the Bank on aggregate sum of Rs.34,841 million (2022: 32,741 million). The management is confident that the outcome of these appeals / references will be in favor of the Bank.

Tax Authorities have conducted proceedings of withholding tax audit under section 161/205 of Income Tax Ordinance, 2001 for tax year 2003 to 2006 and tax year 2008 to 2018 and created an arbitrary demand of Rs. 2,029 million (2022: 1,700 million). The Bank's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that these appeals will be decided in favor of the Bank; therefore, no provision has been made against the said demand of Rs. 2,029 million (2022: 1,700 million).

Tax authorities have also issued orders under Federal Excise Act, 2005 / Sales Tax Act, 1990 and Sindh Sales Tax on Services Act, 2011 for the year 2008 to 2017 thereby creating arbitrary aggregate demand of Rs. 1,144 million (2022: 1,144 million). The Bank's appeals before CIR(A) / Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that aforesaid demand will be deleted by appellate authorities and therefore no provision has been made against the said demand of Rs. 1,144 million (2022: 1,144 million).

21.3.3 While adjudicating foreign exchange repatriation cases of exporter namely: Fateh Textile Mills Limited, the Foreign Exchange Adjudicating Court (FEAC) of the State Bank of Pakistan (SBP) has arbitrarily adjudicated penalties against various banks including Rs.2,173 million in aggregate against Allied Bank Limited (the Bank). Against the said judgments, the Bank had filed appeals before the Appellate Board and Constitutional Petitions (CP) in the High Court of Sindh, Karachi. The Honorable High Court granted relief to the Bank by way of interim orders. Meanwhile, alongwith other banks, Bank filed a further CP whereby vires of section 23C of the FE Regulations Act, 1947 was sought to be declared ultra vires. On November 8, 2018, the Honorable Court was pleased to Order that the Appellate Board shall not finally decide the appeals. Subsequently, the earlier CP was disposed of vide order dated 15.01.2019 with a direction to the Appellate Board to first decide the stay application of the Bank and till then, the Foreign Exchange Regulation Department has been restrained from taking any coercive action against the Bank. Moreover, on 04.01.2023, the Appellate Board has ordered that ABL's appeals now stand adjourned sine die till the final disposal of ABL's constitutional petitions which are pending before the Sindh High Court. Based on merits of the appeals, the management is confident that these appeals shall be decided in favor of the Bank and therefore no provision has been made against the impugned penalty.

22 DERIVATIVE INSTRUMENTS

The Bank at present does not offer structured derivative products such as Interest Rate Swaps, Forward Rate Agreements or FX Options. However, the Bank buys and sells derivative instruments such as:

- Forward Exchange Contracts
- Foreign Exchange Swaps
- Equity Futures
- Forward Contracts for Government Securities

Forward Exchange Contracts

Forward Exchange Contract (FEC) is a product which is offered to the obligor who transact internationally. These obligor use this product to hedge themselves from unfavorable movements in a foreign currency, however, by agreeing to fix the exchange rate, they do not benefit from favorable movements in that currency.

An FEC is a contract between the Obligor and the Bank in which both agree to exchange an amount of one currency for another currency at an agreed forward exchange rate for settlement over more than two business days after the FEC is entered into (the day on which settlement occurs is called the value date). FEC is entered with those Obligor whose credit worthiness has already been assessed, and they have underlined trade transactions.

If the relevant exchange rate moves un-favorably, Obligor will benefit from that movement because the Bank must exchange currencies at the FEC rate. In order to mitigate this risk of adverse exchange rate movement, the Bank hedges its exposure by taking opposite forward position in inter-bank FX.

Foreign Exchange Swaps

A Foreign Exchange Swap (FX Swap) is used by the Bank if it has a need to exchange one currency for another currency on one day and then re-exchange those currencies at a later date. Exchange rates and forward margins are determined in the "inter-bank" market and fluctuate according to supply and demand.

An FX Swap prevents the Bank from gaining any benefit resulting from a favorable exchange rate movement in the relevant currency pair between the time Bank enters into the transaction deal and when settlement occurs. Cancellation of the swap may also result in exposure to market movements. The key advantage of an FX swap is that it provides the Bank with protection against unfavorable currency movements between the time it enters into the transaction and settlement. The term and amounts for FX Swap can also be tailored to suit the Bank's particular needs.

Equity Futures

An equity futures contract is a standardized contract, traded on a futures counter of the stock exchange, to buy or sell a certain underlying script at a certain date in the future, at a specified price.

The Bank may use equity futures as a hedging instrument to hedge its equity portfolio, in both 'held-for-trading' and 'available-for-sale', against equity price risk. Only selected shares are allowed to be traded on futures exchange. Equity futures give flexibility to the Bank either to take delivery on the future settlement date or to settle it by adjusting the notional value of the contract based on the current market rates. Maximum exposure limit to the equity futures is 10% of Tier I Capital of the Bank, based on prevailing SBP regulations.

The accounting policies used to recognize and disclose derivatives are given in Note 4.14.2. The risk management framework of derivative instruments is given in note 42.

35.13 Expected contributions to be paid to the funds in the next financial year

The Bank contributes to the gratuity fund as per actuarial expected charge for the next financial year. No contributions are being made to pension fund due to surplus of fair value of plan's assets over present value of defined obligation. Based on actuarial advice, management estimates that the charge or (reversal) in respect of defined benefit plans for the year ending December 31, 2024 would be as follows:

	Pension fund	Gratuity fund	Post retirement medical	Employees' compensated absences
Rupees in '000				
Expected (reversal) and charge for the next year	(869,610)	540,341	250,068	227,241

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2023

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied when calculating the defined benefit obligation recognized within the statement of financial position.

35.16 Funding Policy

The Bank endeavors to ensure that liabilities under the various employee benefit schemes are covered by the Fund on any valuation date having regards to the various actuarial assumptions such as projected future salary increase, expected future contributions to the fund, projected increase in liability associated with future service and the projected investment income of the Fund.

35.17 Risk associated with defined benefit plans

The defined benefit plans may expose the bank to actuarial risks such as longevity risk, investment risk, salary increase risk and withdrawal rate risk as described below;

Longevity risks:

The risk arises when the actual lifetime of retirees is longer than expectation. This risk is measured at the plan level over the entire retiree population.

Investment risks:

The risk arises when the actual performance level of investment levels is lower than expectation and thus creating a shortfall in the funding objectives.

Salary increase risk:

The most common type of retirement benefit is one where the final benefit is linked with final salary. The risk arises when the actual increases are higher than expectations and impact the liability accordingly.

Withdrawal Rate:

The risk of actual withdrawals varying with the actuarial assumptions can impose a risk to the benefit obligation. The movement of the liability can go either way.

36 DEFINED CONTRIBUTION PLAN

The Bank operates an approved contributory provident fund for 9,471 (2022: 9,400) employees where contributions are made by the Bank at 8.33% per annum (2022: 8.33% per annum), whereas employees have the option to contribute at 8.33%, 12% or 15% per annum (2022: 8.33%, 12% or 15% per annum) of the basic salary every month.

38 FAIR VALUE OF FINANCIAL INSTRUMENTS

38.1 Fair value of financial assets

The fair value of traded investments is based on quoted market prices other than those classified as "held to maturity". Quoted securities classified as held to maturity are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available audited financial statements.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments. The provision for impairment of loans and advances has been calculated in accordance with the Bank's accounting policy as stated in note 5.4 to these unconsolidated financial statements.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2023

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities. Financial instruments included in level 1 comprise of investments in Listed Ordinary Shares.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). Financial instruments included in level 2 comprise of Sukuk Bonds, Units of Mutual Funds, Pakistan Investment Bonds, Market Treasury Bills, Term Finance Certificates and Forward Government & Exchange Contracts.
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs). Currently, no financial instruments are classified in level 3.

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

Valuation Techniques used in determination of Fair Valuation of Financial Instruments within Level 2

Item	Valuation approach and input used
Federal Government Securities	Marked to Market on the basis of PKRV & PKFRV rates.
Non-Government Debt Securities	Marked to Market on the basis of MUFAP rates.
Foreign exchange contracts	Marked to Market on the basis of SBP rates.
Open ended mutual funds	Marked to Market on the basis of MUFAP rates.
Operating fixed assets (land & building) & NBA	The valuation is based on their assessment of market value of the properties.

The SBP through its BSD Circular No. 07 dated April 15, 2009 prescribed the minimum paid up capital (net of losses) for all locally incorporated banks of Rs. 10 billion. The paid up capital of the Bank stood at Rs. 11.451 billion as at 31 December, 2023 and is in compliance with the SBP requirements.

Further, SBP vide its BPRD Circular # 6 of 2013 dated August 15, 2013 required the Banks to maintain the minimum Capital Adequacy Ratio (CAR) of 12.5% inclusive of Capital Conservation Buffer (CCB) of 2.5% on standalone as well as on consolidated basis. To support the banking sector in extending financing or credit facilities to their customers during COVID-19, SBP vide BPRD Circular # 12 of 2020 relaxed the CAR requirement to 11.5% by reducing the Capital Conservation Buffer (CCB) from 2.5% to 1.5% till further instructions.

Bank's CAR as at December 31, 2023 stood at 26.21% of its total risk weighted assets and complied with all externally imposed capital requirements. Standardized Approach is used for calculating the Credit and Market risk, whereas, Basic Indicator Approach is used for Operational Risk in the Capital Adequacy calculation.

42 RISK MANAGEMENT

The principal risks associated with the Bank's business are Credit Risk, Market Risk, Liquidity Risk, Reputational Risk, Operational Risk, Information Security & Governance Risk and Shariah Non-Compliance Risk. The Risk Management Framework (henceforth to be referred to as 'The Framework') provides principles for identifying, assessing, and monitoring risk within the Bank. The Framework specifies the key elements of the risk management process in order to maximize opportunities, minimize adversities and to achieve improved outputs based on informed decision making.

The Bank performs risk measurement, monitoring and control functions through use of various risk procedures and models. To give it a formal structure, all the policies and guidelines are approved by the Board and relevant management committees.

Categories of Risk

Credit Risk This risk is defined as the possibility of loss due to unexpected default or a deterioration of credit worthiness of a business partner.

Credit Risk includes Country Risk i.e., the risks that counterparty is unable to meet its foreign currency obligations as a result of adverse economic conditions or actions taken by governments in the relevant country.

Market Risk The risk that the value of on and off-balance sheet positions of the Bank will be adversely affected by movements in market rates or prices such as interest rates, foreign exchange rates, equity prices, credit spreads and / or commodity prices, resulting in a loss to earnings and capital.

Liquidity Risk The risk that the Bank is unable to meet its payment obligations when they fall due and to replace funds when they are withdrawn without incurring unacceptable cost or losses.

Operational Risk Operational Risk is the risk of loss resulting from inadequate or failed internal processes, people, systems or from external events. The definition includes legal risk but excludes strategic risk and reputational risk.

Reputational Risk The Reputational risk arises from the negative perception on the part of stakeholders that can adversely affect a bank's ability to maintain existing, or establish new, business relationships and continued access to sources of funding.

Information Security & Governance Risk Information Security and Governance Risk Management involves the identification of an organization's information assets and the development, documentation, and implementation of policies, standards, procedures and controls that ensure confidentiality, integrity and availability of the information.

Strategic Risk Risk of an adverse impact on strategic goals. Strategic risk mainly arises from strategic decisions, improper implementation of those decisions, or lack of responsiveness of Bank to industry, economic or technological changes.

Shariah Non-Compliance Risk Shariah Non Compliance Risk arises from the failure to comply with shariah rules and principles determined by the Shariah Board of the Bank and the Regulator.

Risk Responsibilities

- The Board of Directors shall oversee the risk management process. The Board of Directors is responsible for determining the manner in which risk authorities are set, as well as the approval of all risk policies and ensuring that these are properly implemented. Further, the Board of Directors shall also seek appointment of senior management personnel capable of managing the risk activities conducted by the Bank.
- The Board Risk Management Committee (BRMC) is responsible for ensuring that the overall risk strategy and risk acceptance criteria of the Bank is appropriately defined in the Strategic Plan and recommend the same to the Board of Directors.
- The Chief Executive Officer and Group Chiefs shall be responsible for the management of risk collectively through their membership of various committees i.e. Management Committee (MANCO), Asset & Liability Committee (ALCO), Compliance Committee (CC) and Risk Management Committee (RMC). Independent supervision of risk management activities is provided by the Audit Committee of the Board.

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2023

- The Risk Management Group is headed by a Group Chief responsible for set-up and implementation of the Risk Management Strategy of the Bank.

Risk Management Group Organization

Risk management functions have been segregated by business specialization, i.e., Credit Risk, Credit Administration, Technical Appraisal, Information Security and Enterprise Risk which interalia includes Policy and Procedures, Risk Architecture, Operational Risk and Market & Liquidity Risk. All these functions are operating in tandem to monitor the health of assets and liabilities, while ensuring risk mitigants against cyber and information system threats.

42.1 Credit Risk

Credit risk, the potential default of one or more debtors, is a major source of risk for the Bank. The Bank is exposed to credit risk through its lending and investment activities. The Bank's credit risk function is divided into Corporate and Financial Institutions Risk and Commercial, SME and Consumer Risk. The functions operate within an integrated framework of credit policies, guidelines and processes. The credit risk management activities are governed by the Credit Policy of the Bank that defines the respective roles and responsibilities, the credit risk management principles and the Bank's credit risk strategy. The policy is supported by a comprehensive Credit Procedures Manual.

The Bank manages three principal sources of credit risk:

- i) Sovereign credit risk on its public sector advances
- ii) Counterparty credit risk on its private sector advances
- iii) Counterparty credit risk on interbank limits

Sovereign Credit Risk

When the Bank lends to public sector borrowers, it prefers obtaining a full sovereign guarantee or the equivalent from the Government of Pakistan (GOP). However, certain public sector enterprises have a well defined cash flow stream and appropriate business model, based on which the lending is secured through collaterals other than GOP guarantee.

Counterparty credit risk on its private sector advances

Each borrower's credit worthiness is analyzed on the Credit Application Package that incorporates a formalized and structured approach for credit analysis and directs the focus of evaluation towards a balanced assessment of credit risk with identification of proper mitigants. These risks include Industry Risk, Business Risk, Financial Risk, Security Risk and Account Performance Risk.

Financial analysis is further strengthened through use of separate financial spread sheet templates that have been designed for manufacturing / trading concerns, financial institutions and insurance companies.

Counter Party Credit Risk on Interbank Limits

In the normal course of its business, the Bank's Treasury utilizes products such as Reverse Repo and Call Lending to meet the needs of interbank borrowers and manage its exposure to fluctuations in market, interest and currency rates. Further, these products are also used to temporarily invest Bank's liquidity prior to disbursement.

All of these financial instruments involve, to varying degrees, the risk that the counterparty in the transaction may be unable to meet its obligation to the Bank. Reflecting a preference for minimizing exposure to counterparty credit risk, the Bank maintains eligibility criteria that link the exposure limits to counterparty credit ratings by external rating agencies.

A. Country Risk

The Bank has in place a Country Risk Management Framework which has been approved by the Board. This framework focuses on providing detailed roles and responsibilities with respect to country risk assessment as well as limit setting, exposure management and reporting of cross border exposure undertaken by the Bank. The Bank utilizes S&P, Fitch and Moody's country ratings as well as other macroeconomic and external risk factors in assigning a country risk limit. The Financial Institutions Division is responsible for monitoring of country exposure limits.

Credit Administration

Credit Administration is involved in minimizing losses that could arise due to security and documentation deficiencies. The Credit Administration Function constantly monitors the security and documentation risks inherent in the existing credit portfolio through four regional credit administration departments located in major cities. Further, Credit Monitoring Division ensures implementation of all post disbursement activities as per bank guidelines to safeguard interests of the Bank through its three units i.e. Classification & Monitoring, Vigilance and Warehouse Management.

42.2 Market Risk

Market Risk is the risk of loss in earnings and capital due to adverse changes in interest rates / rate of return, foreign exchange rates, equity prices and market conditions. Thus market risk can be further described into Interest Rate Risk / Rate of Return Risk, Foreign Exchange Risk and Equity Position. Risk.

Market Risk performs risk measurement, monitoring and control functions through the use of various risk procedures and models. To give it a formal structure, all the policies and guidelines are approved by the Board of Directors and the relevant management committees.

The Bank uses three types of risk management tools to measure the Bank's Market Risk: Value-at Risk (VaR), Expected Shortfall (ES) and Stress Testing. In addition, control limits are utilized to maintain the risks within acceptable levels.

The Bank maintains adequate regulatory capital to cover all interest rate risks falling under the "Trading Book" as well as "Banking Book", as defined by Basel capital accord. The Bank uses Standardized Approach in determining credit risk, market risk and operational risk exposures in the capital adequacy calculation. In Market risk exposures, Maturity method is used to calculate charge on Interest rate risk and FX risk.

In its pursuit of automation, the Bank has successfully implemented Oracle Financial Services Analytical Application (OFSAA) Market Risk Module to automate the risk monitoring and reporting activities pertaining to Market Risk, which allows for more efficient risk monitoring and increased focus on risk analysis to help in making more informed decisions.

42.2.1 Market Risk Pertaining to the Trading Book

Trading Book

The Trading Book of the Bank consists of positions in financial instruments held either with trading intent or in order to hedge other elements of the trading book. To be eligible for trading book, financial instruments must be held with the intent of trading and free of any restrictive covenants on their tradability. In addition, positions need to be frequently and accurately valued and the portfolio should be actively monitored and managed accordingly.

The Bank's trading book includes securities classified as 'Held-For-Trading', 'Open Ended Mutual Fund' and non-strategic listed equity placed in 'Available-for-Sale' category. These positions are exposed to all forms of market risk and are managed actively.

Risk Pertaining to Banking Book Investment Portfolio

All investments excluding trading book are considered as part of banking book. Banking book includes:

- i) Available-for-sale securities – (other than non-strategic listed equity)
- ii) Held-to-maturity securities

Treasury investments parked in the banking book include:

- i) Government securities
- ii) Capital market investments
- iii) Investments in bonds, debentures, etc.

Due to the diversified nature of investments in banking book, it is subject to interest rate risk, equity price risk and FX risk.

Stress Testing

The Bank also conducts Stress Testing of the Bank's investment portfolio to ascertain the impact of various scenarios on the capital adequacy and sustainability of the Bank. The exercise assumes various stress conditions, with respect to Interest Rate Risk, Equity Price Risk, FX Risk and Liquidity Risk. Stress testing is also conducted on various macro-economic scenarios to test the resilience of the Bank.

42.2.3 Foreign Exchange Risk

Foreign exchange risk is the current or prospective risk to earnings and capital arising from adverse movements in currency exchange rates.

The majority of the Bank's net foreign currency exposure is in US\$ and the Bank uses system-based monitoring of its intra-day Net Open Position for effective risk management.

The Bank's FX Risk is largely mitigated by following a matched funding policy, whereas, for any mismatched exposures, the Bank utilizes appropriate derivative instruments such as Forwards and Swaps. The Bank maintains adequate regulatory capital to cover against foreign exchange risk.

42.2.4 Equity position Risk

Equity Price Risk is risk to earnings or capital that results from adverse changes in stock prices (single stocks, or a basket of stocks, or overall stock market). ABL holds a diversified portfolio of equity investments in order to minimize non-systematic risk while retaining acceptable systematic risk. ALCO ensures that equity price risk is mitigated through prudent portfolio management.

The Bank maintains adequate regulatory capital to cover against equity price risk. Equity investments classified as "Held-for-Trading" as well as listed non-strategic equity investments classified as "Available-for-Sale" are part of the "Trading Book" and are subject to market risk change as specified by the Basel Framework. Un-listed and listed strategic equity investment are part of the "Banking Book" and are subject to credit risk charge as specified by the Basel Framework.

42.2.5 Yield and Interest Rate Risk in the Banking Book (IRRBB)-Basel II Specific

Interest rate and Rate of return risk is the current or prospective risk of losses, to both the Bank's capital and earnings, arising from movements in interest rates and rates of return. The Bank has a robust system in place to monitor Interest rate risk and ALCO regularly analyses the interest rate scenario and devises strategies to minimize adverse impact of interest rate risk on the Bank's equity and profits.

Interest rate risk is measured through "duration" of an instrument. To assess the interest rate risk at Balance Sheet and Income Statement level, gap analysis on "re-pricing schedule" is utilized. Re-pricing schedule is a distribution of interest-sensitive assets, liabilities, and Off-Balance Sheet positions into a number of predefined time bands according to their maturity (if fixed-rate) or time remaining to their next re-pricing (if floating-rate), and is calculated in compliance with SBP instructions. For non-contractual assets and liabilities, an ALCO approved methodology is utilized to place these assets and liabilities in the re-pricing schedule. This methodology is based on the results of a behavioural analysis which statistically models the historical trends of the last 5 years.

Government securities (PIBs & T-Bills, Sukuks), Bonds, Debentures, etc. and other money market investments are subject to interest rate / rate of return risk. To capture the risk associated with these securities, extensive modeling is being done with respect to duration analysis. Stress testing and scenario-based models are also in place to capture the sensitivity of the portfolio to adverse movement in interest rates. For prudent risk management, all money market investments are marked to market to assess changes in the market value of investments due to interest rate movements. Yield/ Interest rate sensitivity position for on-balance sheet instruments is based on the earlier of contractual re-pricing or maturity date and for off-balance sheet instruments is based on settlement date.

In accordance with BSD Circular No.03 of 2011, issued by the SBP, Bank is required to report interest rate sensitivity gap of assets and liabilities on the basis of an objective and systematic behavioural study which is approved by ALCO.

42.3 Operational Risk

The Bank, like all financial institutions, is exposed to different types of operational risks, including the potential losses arising from internal activities or external events caused by breakdowns in information, communication, physical safeguards, business continuity, supervision, transaction processing, settlement systems and the execution of legal, fiduciary and agency responsibilities.

In accordance with the BoD approved Operational Risk Management Policy (ORM), Bank maintains a system of internal controls designed to keep operational risk at appropriate levels, in view of the bank's financial strength and the characteristics of the activities and market in which it operates. These internal controls are periodically updated to conform to industry best practices.

The Bank has implemented workflow based system "Risk Nucleus" for Operational Risk Loss Data Collection & Reporting, Risk Control & Self Assessment (RCSA) and Key Risk Indicators (KRIs) monitoring. Further, major Operational Risk events are also analyzed from the control breaches perspective and mitigating controls are assessed on design and operating effectiveness. Quarterly updates on Operational Risk events are presented to senior management and Board's Risk Management Committee & BoD.

The Bank has a BoD approved BCP policy and Business Continuity Plan applicable to all its functional areas. The Bank updates functional BCPs on annual basis or at any process change.

The Bank is also implementing internationally accepted Integrated Framework on Internal Control issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), with a view to consolidate and enhance the existing internal control processes.

The Bank is reporting Operational Risk Capital Charge on Basic Indicator Approach. Also calculating impact under Alternate Standardized Approach (ASA) of Basel II. The Bank shall adopt "The Standardized Approach" under Basel-III once implemented by the Regulator.

Outbreak of COVID 19 and continuous resurgence of the pandemic waves due to mutation of the virus has been a cause of concern for the banking industry and required continuous monitoring and transformation in the existing way of doing business. The operating procedures of the Bank were transformed and business continuity plan were updated in line with the guidelines issued by the Government, Health Care and Regulatory Authorities, in a timely manner to minimize the impact of disruption on business activities and on service delivery to the customers without compromise to the safety of all the stakeholders including customers and employees in particular.

42.4 Liquidity Risk

Liquidity Risk is the risk that the Bank is unable to fund its current obligations and operations in the most cost efficient manner. The Bank's Board of Directors has delegated the responsibility to Asset and Liability Committee (ALCO) for ensuring that Bank's policy for liquidity management is adhered to on a continual basis. ALCO uses gap analysis based on "maturity schedule" to assess the Bank's liquidity risk and devise strategy accordingly. The Bank has various limits and triggers in place to monitor liquidity risk on a periodic basis, while it also utilizes stress testing to assess adequacy of Bank's liquid assets. The Bank complies with State Bank of Pakistan's instructions on Liquidity Standards as prescribed under the Basel III Framework.

Liquidity Management Framework

Daily liquidity management is carried out centrally by the Asset and Liability Management (ALM) Desk in Treasury Group which manages the day to day liquidity needs of the Bank. Funding and liquidity management strategies are regularly discussed during Asset and Liability Committee (ALCO) meetings. The discussions include analysis on composition of deposits and tenure, funding gaps and concentration, monitoring of short and long-term liquidity ratios (including Liquidity Coverage Ratio and Net Stable Funding Ratio). The Bank utilizes internal Management Action Triggers and Limits which act as early warning indicators and safeguards to ensure sufficient liquidity buffers at all times. Additionally, stress tests are performed to evaluate available liquidity under a range of adverse scenarios and to identify potential vulnerabilities in portfolios. The Bank also has in place contingency funding plan that identifies specific management actions that can be invoked in times of liquidity crisis.

Liquidity Risk Management

The Bank has in place a robust Recovery Plan in place to deal with any liquidity crisis in the most efficient and effective manner. SBP initiatives such as deferral of principal and rescheduling and restructuring of loans may have an adverse effect on liquidity and maturity profile of the Bank, however the Bank holds sufficient liquidity buffer to absorb any unforeseen shocks during the prevailing situation. Moreover, the Asset and Liability Committee (ALCO) of the Bank continues to regularly monitor the liquidity position of the Bank in view of emerging risks.

Liquidity Risk Mitigation Techniques

The Bank uses the following tools to identify and mitigate Liquidity Risk:

- Gap Analysis
- Liquidity Ratio
- Liquidity Stress Testing
- Contingency Funding Plan
- Risk Control Limits (RCLs)

Notes to the Unconsolidated Financial Statements

for the year ended December 31, 2023

42.5 Derivative Risk

Market & Liquidity Risk Division under Risk Management Group is responsible for assessing and monitoring the derivative risk emanating from Bank's exposures.

The Bank buys and sells derivative instruments, for hedging and market making purposes, such as:

- Forward Exchange Contracts
- Foreign Exchange Swaps
- Equity Futures
- Forward Contracts for Government Securities

The Bank's Risk Management Group, Asset and Liability Committee (ALCO) and Board Risk Management Committee monitor the derivative risk and utilize Off-Balance Sheet gap analysis to implement prudent asset liability management of the Bank's derivative exposures.

43 NON ADJUSTING EVENT AFTER THE REPORTING DATE

43.1 The Board of Directors of the Bank in its meeting held on February 13, 2024 has proposed a final cash dividend in respect of 2023 of Rs. 4.00 per share (2022: cash dividend Rs. 2.50 per share). This appropriation will be approved in the forthcoming Annual General Meeting. The unconsolidated financial statements of the Bank for the year ended December 31, 2023 do not include the effect of these appropriations which will be accounted for subsequent to the year end.

44 GENERAL

44.1 Figures have been rounded off to the nearest thousand of rupees unless otherwise stated.

44.2 Corresponding figures have been rearranged or reclassified where considered necessary, for the purpose of better presentation. However, no material restatement have been made.

ISLAMIC BANKING BUSINESS

Notes to the Annexure II

for the year ended December 31, 2023

11 POOL MANAGEMENT

Allied Bank Limited – Islamic Banking is maintaining general and specific pools for depositors on Mudarabah basis, and Financial Institution pools are maintained for interbank funds on Musharakah / Mudarabah basis.

- 1- General Pool for Local Currency Depositors (Mudarabah)
- 2- General Pool for Foreign Currency (US\$, Great Britain Pound and EURO) depositors (Mudarabah)
- 3- Specific Pools (Mudarabah)
- 4- Treasury related FI Pools (Mudarabah, Musharakah)
- 5- Islamic Export Refinance Pool (Musharakah)
- 6- Equity Pool (Mudarabah)
- 7- Charity Pool (Mudarabah)

1- General Pool for Local Currency Depositors (Mudarabah)

Funds generated from the general depositors are invested in different assets under this pool category. The Bank acts as Manager (Mudarib) and accepts funds in local currency from general depositors (Rab-ul-Maal) on the principals of Mudarabah and invests the same in Shariah compliant modes of financings, investments and placements. Bank as a manager of this pool, can add amend and transfer an asset to any other pool in the interest of the depositors. As required under regulatory instructions, SBP funds obtained under its various schemes are also made part of the general pool. Further, the Bank may also commingle its own equity in this pool.

The profit of General Pool is calculated after deducting the directly incurred expenses, if any, from the income earned on all the remunerative assets managed by the pool. No provision against any non-performing asset of the pool are passed on to the pool except on the actual loss / write-off of such non-performing asset as per SBP guidelines. The profit of the pool is shared between equity and other members of the pool at gross level (before charging of mudarib fee) as per the investment ratios. After charging of agreed mudarib fee, The profit of the pool is shared among the members of the pool on profit weightages i.e. announced before start of profit calculation period.

2- General Pool for Foreign Currency (US\$, Great Britain Pound and EURO) depositors (Mudarabah)

ABL Islamic is maintaining foreign currency pools for customers maintaining Mudarabah based deposit in US\$, Great Britain Pound and EURO currencies. The objective of these pools are to effectively manage the FCY deposits of customers to earn and distribute returns, generally from FCY denominated assets. However, in case FCY denominated assets are not available, the Bank may invest these funds in local currency assets by converting the funds to local currency assets.

3- Specific Pools (Mudarabah)

Specific pool(s) are created where the customers desire to invest in high yielding assets. Profit rates of these pool(s) are usually different from the general pool depending on the assets. In case of loss in special pool, the loss will be borne by the Special pool members. The distributable profit is calculated as direct costs from the gross return earned on the pool. From the net return, profit is paid to the Mudarib in the ratio of the Mudarib's equity in the pool to the total pool. Specific pool deposits are invested in assets yielding relatively higher rate of return, as relative high risk investments are involved in these pools, hence bearing relative more risk than the general pool depositors.

4- Treasury related FI Pools (Mudarabah, Musharakah)

Treasury Pools are generally created, to meet the liquidity requirements of the Bank, on the basis of Musharakah, Mudarabah, wherein Allied Bank Limited-Islamic Banking Group and Financial Institutions share actual return earned by the pool according to pre-defined profit sharing ratio. The FI pool assets generally comprise of sukuks and financings under business Musharakah and diminishing Musharakah modes.

5- Islamic Export Refinance Pool (Musharakah)

Islamic Export Refinance Pool is created with SBP, to manage export refinance customers, on the basis of Musharakah, IERS Pool generally comprises of blue chip companies and exporters as allowed under the applicable rules and regulations of the scheme.

6- Equity Pool

Funds from banks own sources and current deposit (Qard basis) from customers are tagged to this pool, all fixed assets, subsidized financing to the Bank's employees are part of the equity pool. further, all admin costs and cost of assets such as land, building, furniture, fixtures, computers and Information Technology system are born by bank through equity pool.

7- Charity Pool (Mudarabah)

Funds from charity collection on delayed payments from customers etc. are tagged to this pool. Gross Income, after deducting Bank's equity share, is distributed to charity account without charging any mudarib fee.

Parameters associated with risk and rewards:

The risk & reward characteristics of each pool mainly depends on the assets and liability profile of each pool.

Following are the considerations attached with risk & reward of Mudaraba based pools:

RISK:

- Period, rate of return, security and liquidity of investment.
- Risk annexed to investments and financings tagged to pools
- Market volatility risk relates to the current and future volatility of market values of specific assets and of foreign exchange rates.
- Change in deposit base due to early withdrawals of deposits
- Maturity mismatch of assets and deposits
- Limited avenues for Liquidity deployment, may decline profit earning rates
- SBP rules, guidelines
- Sharia Non compliance risk

REWARDS:

- Shariah compliant Halal Profit earnings.
- Profit distribution according to predetermined weightages / PSR.
- Sharing of gross profit after direct expenses related to pool, bank bears admin cost.
- Investments risk mitigation through Portfolio management.
- Transparency through regulator's control and periodic audits.
- Profit equalization reserve and Investment risk reserve to stream line profits.
- Mitigation of Shariah Non compliance risk through Shariah reviews and Shariah audits.

The deposits and funds accepted under the above mentioned pools are invested in diversified sectors and avenues of the economy and business along with investment in Government of Pakistan backed Ijarah Sukuks and other Shariah Compliant assets.

Independent Auditor's Report

To the members of Allied Bank Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the annexed consolidated financial statements of Allied Bank Limited and its subsidiary ("the Group"), which comprise the consolidated statement of financial position as at 31 December 2023, and the consolidated profit and loss account and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the consolidated statement of financial position, the consolidated profit and loss account, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities For the Audit of the Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Following are the Key Audit Matter:

S. No.	Key Audit Matter	How the matter was addressed in our audit
1	<p>Provision against non-performing advances</p> <p>The Group's advances to the customers represent 33.45% of its total assets as of 31 December 2023 which is spread across various branches. The advances mainly includes corporate financing to several public sector entities and large to small size businesses operating in the private sector.</p> <p>As per the Group's accounting policy (refer note 4.4 to the consolidated financial statements), the Group determines provisions against non-performing advances in accordance with the requirements of Prudential Regulations (PRs) of State Bank of Pakistan (SBP) and also maintains general provision as required by PRs. The PRs require specific provisioning against advances on the basis of an age-based criteria which is supplemented by a subjective evaluation by the Group of its portfolio of advances. The determination of subjective provision against advances involves use of management judgment, on a case-to-case basis, considering factors such as the borrower's economic, financial and business conditions, repayment behaviors and credit worthiness.</p> <p>In view of the magnitude of advances in the consolidated financial statements and the level of involvement of management's judgment, we identified provision against advances as a key audit matter.</p> <p>The accounting policy and disclosures relating to provisioning against non- performing advances are included in note 4.4 and 9 respectively to the consolidated financial statements.</p>	<p>We applied a range of audit procedures including the following:</p> <p>We reviewed the Group's process for identification and classification of non-performing advances, monitoring of advances with higher risk of default and migration of these advances to non-performing advances category and accurate computation and recording of provisions.</p> <p>We performed an analysis of the changes within the different categories of classified non-performing accounts from last year to the current reporting date. This analysis was used to gather audit evidence regarding downgrading of impaired advances and declassification of accounts from non-performing to regular and vice versa, as the case may be.</p> <p>We performed independent checks on test basis for the computations of provisions to assess that the same is in line with the requirements of the applicable Prudential Regulations.</p> <p>In addition, we selected a representative sample of borrowers from the portfolio of advances including individually significant credit facilities and performed tests and procedures such as review of credit documentation, repayment history and past due status and financial condition as depicted by the borrowers' financial statements and nature of collateral held by the Group.</p> <p>In respect of the level of general provision maintained by the Group, we discussed the approach and policy followed by the Group with the management.</p> <p>We also assessed adequacy of disclosures as included in note 9 to the consolidated financial statements regarding the non-performing advances and provisions made for the same in the consolidated financial statements in accordance with the requirements of the applicable financial reporting framework.</p>

Independent Auditor's Report

To the members of Allied Bank Limited

Report on the Audit of the Consolidated Financial Statements

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and the Board of Directors for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan, the requirements of Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of directors is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

Independent Auditor's Report

To the members of Allied Bank Limited

Report on the Audit of the Consolidated Financial Statements

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report is Arslan Khalid.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2023

2 BASIS OF PRESENTATION

These consolidated financial statements consists of holding company and its subsidiary company for the year ended December 31, 2023.

In accordance with the directives of the Federal Government regarding the shifting of the banking system to Islamic modes, the State Bank of Pakistan (SBP) has issued various circulars from time to time. Permissible forms of trade-related modes of financing include purchase of goods by banks from their customers and immediate resale to them at appropriate profit in price on deferred payment basis. The purchases and sales arising under these arrangements are not reflected in these consolidated financial statements as such but are restricted to the amount of facility actually utilized and the appropriate portion of profit thereon.

The financial results of the Islamic banking branches have been consolidated in these financial statements for reporting purposes, after eliminating inter-branch transactions and balances. Key financial figures of the Islamic banking branches are disclosed in Annexure II to the unconsolidated financial statements.

These consolidated financial statements have been presented in Pakistan Rupees (PKR), which is the currency of the primary economic environment in which the Bank operates. The amounts are rounded to nearest thousand of rupees unless otherwise stated.

The US\$ Dollar amounts presented in the Statement of Financial Position, Profit and Loss Account, Statement of Comprehensive Income and Statement of Cash Flow are stated as additional information, solely for the convenience of the users of financial statements. For the purpose of translation to US\$, spot rate of Rs. 281.8607 per US\$ has been used for 2023 and 2022, as it was the prevalent rate on reporting date.

The assets and liabilities of subsidiary company have been consolidated on a line by line basis and the carrying value of investment in subsidiary held by the Group is eliminated against the shareholders' equity in the consolidated financial statements.

2.1 STATEMENT OF COMPLIANCE

These consolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act, 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as are notified under the Companies Act, 2017;
- Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
- Directives issued by the State Bank of Pakistan (SBP) & the Securities and Exchange Commission of Pakistan (SECP).

2.1.1 Whenever the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the directives issued by the SBP and the SECP differ with the requirements of IFRS and IFAS, the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives, shall prevail.

2.1.2 The SBP, vide BSD Circular Letter No. 10, dated August 26, 2002 has deferred the applicability of International Accounting Standard 39 'Financial Instruments: Recognition and Measurement' (IAS 39) and International Accounting Standard 40 'Investment Property' (IAS 40) for banking companies till further instructions. Further, according to a notification of Securities and Exchange Commission of Pakistan (SECP) dated April 28, 2008, International Financial Reporting Standard 7 'Financial Instruments Disclosure' (IFRS 7), has not been made applicable for banks. Accordingly, the requirements of these standards have not been considered in the preparation of these consolidated financial statements. However, investments have been classified and disclosed in accordance with the requirements prescribed by SBP through various circulars.

2.1.3 The Securities and Exchange Commission of Pakistan (SECP) vide SRO 56 (1) / 2016 dated January 28, 2016, has notified that the requirements of International Financial Reporting Standard 10 'Consolidated Financial Statements' (IFRS 10) and section 228 of the Companies Act, 2017 will not be applicable with respect to the investment in mutual funds established under Trust structure.

2.1.4 The State Bank of Pakistan through BPRD Circular No. 04 of 2015 dated February 25, 2015 has deferred applicability of Islamic Financial Accounting Standard 3 'Profit & Loss Sharing on Deposits' (IFAS-3) issued by the Institute of Chartered Accountants of Pakistan and notified by the Securities & Exchange Commission of Pakistan (SECP), vide their SRO No. 571 of 2013 dated June 12, 2013 for Institutions offering Islamic Financial Services (IIFS). The standard will result in certain new disclosures in the financial statements of the Bank.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2023

2.2 STANDARDS, INTERPRETATIONS OF AND AMENDMENTS TO THE PUBLISHED APPROVED ACCOUNTING STANDARDS THAT ARE EFFECTIVE IN THE CURRENT YEAR

There are certain amendments to existing accounting and reporting standards that have become applicable to the Group for accounting periods beginning on or after January 01, 2023. These are either considered to not be relevant or do not have any significant impact and accordingly have not been detailed in these financial statements, except as disclosed below.

The amendments to IAS 1 and IFRS Practice Statement 2 Making Materiality Judgements provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments have had an impact on the Group's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Group's consolidated financial statements.

2.3 STANDARDS, INTERPRETATIONS OF AND AMENDMENTS TO THE PUBLISHED APPROVED ACCOUNTING STANDARDS THAT ARE NOT YET EFFECTIVE

IFRS 9 'Financial Instruments'

As per SBP BPRD Circular No 7 of 2023, the effective date for the implementation of IFRS 9 Financial Instruments is accounting period beginning on or after January 1, 2024. SBP had earlier issued BPRD Circular No 3 of 2022 where detailed instructions on the application of the Standard, including transitional provisions, impact on the Capital Adequacy Ratio (CAR) calculation and reporting requirements.

The IFRS 9 application instructions and guidelines that have been issued as part of the circular include the following key components:

The State Bank of Pakistan vide its BPRD circular No. 2 dated February 9, 2023 has issued revised formats for interim and annual financial statements of the banks for the accounting periods starting from January 01, 2023, which shall include the presentation and disclosures on adoption of IFRS 9 as applicable in Pakistan.

- Basis for classification and measurement of debt and equity securities;
- Framework for determination of "Expected Credit Losses (ECL)" under the requirements of IFRS 9, including required risk management policies;
- Credit exposures (in local currency) that have been guaranteed by the Government and Government Securities have been exempted from the application of the above ECL Framework;
- In respect of non-performing exposures (Stage 3 exposures) provision would be made considering higher of IFRS 9 ECL or provision computed under existing PRs' requirements;
- In order to mitigate the impact of ECL provisioning on capital, a transitional arrangement is allowed to the banks to absorb the impact on regulatory capital and fully described in Annexure B to the aforementioned circular.

The State Bank of Pakistan vide its BPRD circular No. 2 dated February 9, 2023 has issued revised formats for interim and annual financial statements of the banks for the accounting periods starting from January 01, 2023, which shall include the presentation and disclosures on adoption of IFRS 9 as applicable in Pakistan.

Impact on equity and regulatory capital on adoption of IFRS 9

During 2023, the Bank has performed an impact assessment after applying the SBP's IFRS 9 instructions. The assessment is based on available information and may be subject to changes arising from further reasonable and supportable information being made available to the Bank at the time of finalizing the impact for initial application of IFRS 9.

The Bank will adopt IFRS 9 in its entirety effective January 01, 2024 with a modified retrospective approach for restatement. As permitted by IFRS-9, the Bank will not be restating comparatives on initial application. The cumulative impact of the initial application will be recorded as an adjustment to opening equity as at January 1, 2024.

The total estimated adjustment (net of tax) of the adoption of IFRS 9 on the opening balance of the Bank's equity as at January 01, 2024 would be a reduction in equity of approximately Rs. 2,722.8 million, with corresponding impacts as follows:

- A decrease of approximately Rs. 3,115.641 million net of tax related to impairment requirements;
- An increase of approximately Rs. 392.841 million net of tax related to classification and measurement changes.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2023

In order to mitigate the impact of ECL provisioning on capital, a transitional arrangement is allowed to the banks to absorb the impact on regulatory capital. Accordingly, banks, which choose to apply this transitional arrangement, may implement this in accordance with SBP's Guideline for absorption of ECL for CAR purposes as mentioned in Annexure-B of BPRD Circular no 3 of 2022.

The estimated impact of initial adoption of IFRS 9 on the Bank's capital ratios, without accounting for the allowed transitional arrangement, would be as follows:

- Common Equity Tier 1 Capital Adequacy ratio - 19.74%
- Tier 1 Capital Adequacy Ratio - 19.74%
- Total Capital Adequacy Ratio - 26.18%

These consolidated financial statements have been prepared in accordance with the applicable prudential regulations to the Group's domestic operations, whereas the requirements of this standard have been incorporated for the overseas jurisdiction where IFRS 9 has already been adopted.

The following amendments with respect to the approved accounting standards, as applicable in Pakistan, would be effective from the dates mentioned below. The Bank intends to adopt these new and amended standards and interpretations, if applicable, when they become effective.

Standards and Amendments	Effective date (annual periods beginning on or after)
- IAS 1 - Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants - (Amendments)	January 01, 2024
- IAS 7 and IFRS 7 - Disclosures: Supplier Finance Arrangements - Amendments	January 01, 2024
- IFRS 16 - Lease Liability in a Sale and Leaseback - Amendments	January 01, 2024
- IAS 21 - Lack of exchangeability - Amendments	January 01, 2025
- IFRS 10 and IAS 28 - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments	Not yet announced

The above standards, amendments and improvements are not expected to have any material impact on the consolidated financial statements of the Bank for the futures periods.

Further, following new standard has been issued by IASB which is yet to be notified by SECP for the purpose of applicability in Pakistan.

Standard	IASB effective date (accounting periods beginning on or after)
- IFRS 1 - First time adoption of International Financial Reporting Standards	January 01, 2024

2.4 CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of these financial statements in conformity with the approved accounting standards requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses. It also requires the management to exercise its judgment in the process of applying the Group's accounting policies. Estimates, underlying assumptions and judgments are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognized in the period in which estimates are revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods. The areas where various assumptions and estimates are significant to the Group's financial statements or where judgment was exercised in application of accounting policies are as follows:

2.4.1 Provision against non-performing loans and advances

The Bank reviews its loan portfolio to assess amount of non-performing loans and advances and provision required there-against. While assessing this requirement various factors including the delinquency in the account, financial position of the borrower and the requirements of the Prudential Regulations are considered. The amount of general provision is determined in accordance with the requirements set out in Prudential Regulations.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2023

2.4.2 Valuation and impairment of 'available-for-sale' equity investments

The Bank determines that 'available-for-sale' equity investments are impaired when there has been a significant or prolonged decline in the fair value below its cost. This determination of what is significant and prolonged requires judgment. In making this judgment, the Bank evaluates among other factors, the normal volatility in share price. In addition, impairment may be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance, changes in technology and operational and financing cash flows.

Other areas where judgments are exercised in application of accounting policies are as follows:

2.4.3 Defined benefit plans

Liability is determined on the basis of actuarial advice using the Projected Unit Credit Method. The actuarial assumptions used to determine the liability and related expense are disclosed in note 35.

2.4.4 Classification of investments

- In classifying investments as 'held-for-trading' the Bank has determined securities which are acquired with the intention to trade by taking advantage of short term market or interest rate movements and are to be sold within 90 days.
- In classifying investments as 'held-to-maturity' the Bank follows the guidance provided in SBP circulars on classifying non-derivative financial assets with fixed or determinable payments and fixed maturity. In making this judgment, the Bank evaluates its intention and ability to hold such investments to maturity.
- The investments, other than those in subsidiary, which are not classified as 'held-for-trading' or 'held-to-maturity' are classified as 'available-for-sale'.

2.4.5 Depreciation and amortization and revaluation of operating fixed assets

In making estimates of the depreciation and amortization, the management uses method which reflects the pattern in which economic benefits are expected to be consumed by the Bank and estimates the useful life. The method applied and useful lives estimated are reviewed at each financial year end and if there is a change in the expected pattern or timing of consumption of the future economic benefits embodied in the assets, the estimate would be changed to reflect the change in pattern. Such a change is accounted for as change in accounting estimates in accordance with International Accounting Standard 8 - Accounting Policies, 'Changes in Accounting Estimates and Errors'. Further, the bank estimates the revalued amount of land and buildings on a regular basis. The estimates are based on the valuations carried out by independent professional valuers under the market conditions.

2.4.6 Fair value hierarchy of assets and liabilities

The fair value of the assets and liabilities is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Bank categorizes fair value measurements within the following fair value hierarchy:

a) Level 1

These are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Bank can access at the measurement date.

b) Level 2

These are inputs other than quoted prices included within Level 1 that are observable for asset or liability, either directly or indirectly.

c) Level 3

These are input for the assets or liabilities that are not based on observable market data (unobservable Inputs).

2.4.7 Lease term

The Bank applies judgement to determine the lease term for some lease contracts in which it is a lessee that include renewal options. The assessment of whether the Bank is reasonably certain to exercise such options impacts the lease term, which significantly affects the amount of lease liabilities and right-of-use assets recognized.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2023

2.4.8 Income taxes

In making estimates for income taxes currently payable by the Bank, the management considers the current income tax laws and the decisions of appellate authorities on certain issues in the past. There are certain matters where the Bank's view differs with the view taken by the income tax authorities and such amounts are shown as a contingent liability.

3 BASIS OF MEASUREMENT

These consolidated financial statements have been prepared under the historical cost convention except for the following which are stated at revalued amounts or fair values or present values:

- Certain investments (Note 4.3);
- Certain operating fixed assets (Note 4.5);
- Lease liability and related right of use assets (Note 4.6).
- Staff retirement and other benefits (Note 4.8);
- Non-banking assets acquired in satisfaction of claims (Note 4.9);
- Derivative financial instruments (Note 4.14.2).

4 MATERIAL ACCOUNTING POLICY INFORMATION

The accounting policies adopted in the preparation of these consolidated financial statements have been applied consistently to all periods presented in these consolidated financial statements of the Bank. Material accounting policies are enumerated as follows:

4.1 Cash and cash equivalents

For the purpose of Cash Flow Statement, cash and cash equivalents include cash and balances with treasury banks and balances with other banks (net of overdrawn nostro balances) in current and deposit accounts.

4.2 Lendings to or borrowings from financial institutions

The Bank enters into transactions of borrowing (re-purchase) from and lending (reverse re-purchase) to financial institutions, at contracted rates for a specified period of time. These are recorded as under:

a) Sale under re-purchase agreements

Securities sold subject to a re-purchase agreement are retained in the financial statements as investments and the counter party liability is included in borrowings from financial institutions. The differential in sale and re-purchase value is accrued on a pro rata basis and recorded as mark-up expense.

b) Purchase under resale agreements

Securities purchased under agreement to resell (reverse re-purchase) are included in lendings to financial institutions. The differential between the contracted price and resale price is accrued on pro rata basis over the period of the contract and recorded as mark-up income.

Securities held as collateral are not recognized in the financial statements, unless these are sold to third parties, in which case the obligation to return them is recorded at fair value as a trading liability under borrowings from financial institutions.

In Bai Muajjal, the Bank purchases and sells Shariah Compliant instruments including sukuks on credit to other financial institutions. The credit price is agreed at the time of sale and such proceeds are received at the end of the credit period. Expected profit / expense is recognized on accrual basis.

In Musharaka and Mudaraba, the Bank invests in the Shariah compliant business pools of the financial institutions at the agreed profit and loss sharing ratio. Expected profit is recognized on accrual basis.

Other borrowings including borrowings from SBP are recorded at the proceeds received. Mark-up on such borrowings is charged to the Profit and Loss Account on a time proportion basis.

Lendings are stated net of provision. Return on such lending is accrued to the Profit and Loss Account on a time proportion basis except mark-up on impaired or delinquent lendings, which is recognized on receipt basis.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2023

4.3 Investments

Investment in Subsidiary

ABL Asset Management Company Limited is a subsidiary of the Bank. This investment is stated at cost less provision for impairment, if any.

Held-for-trading

These are investments acquired principally for the purpose of generating profits from short-term fluctuations in price or dealer's margin or are securities included in a portfolio in which a pattern of short-term trading exists.

Held-to-maturity

These are investments with fixed or determinable payments and fixed maturities which the Bank has the intention and ability to hold till maturity.

In Bai Muajjal, the Bank sells sukuk on credit to Government of Pakistan. The credit price is agreed at the time of sale and such proceeds are received at the end of the credit period.

Available-for-sale

These are investments which do not fall under held for trading and held to maturity categories.

All purchases and sales of investments that require delivery within the time frame established by regulations or market convention are recognised at the trade date. Trade date is the date on which the Bank commits to purchase or sell the investments.

Investments (other than held for trading) are initially measured at fair value plus transaction cost associated with the investment. Investments classified as held for trading are initially measured at fair value, and transaction costs are expensed in the profit and loss account.

After initial recognition, quoted securities (other than those classified as held to maturity) are carried at market value. Unquoted securities are valued at cost less impairment in value, if any. Held to maturity securities are carried at amortised cost.

Surplus / (deficit) arising on revaluation of quoted securities which are classified as 'available-for-sale', is included in the statement of comprehensive income and is shown in the statement of financial position as part of equity. The surplus / (deficit) arising on these securities is taken to the profit and loss account when actually realised upon disposal or in case of impairment of securities. The unrealised surplus / (deficit) arising on revaluation of quoted securities which are classified as held for trading is taken to the profit and loss account.

Premium or discount on debt securities classified as available for sale and held to maturity is amortised using effective interest method and taken to the profit and loss account.

Details of valuation techniques used in determination of fair value is included in note 38 of consolidated financial statements.

4.4 Advances

a. Loans and advances

Loans and advances are stated net of general and specific provisions. Specific provision against loans is determined in accordance with the requirements of the Prudential Regulations and other directives issued by SBP and charged to the Profit and Loss Account. General provision is maintained in accordance with the requirements of Prudential Regulations issued by SBP. The provision and reversal is charged to the Profit and Loss Account. Advances are written off when there are no realistic prospects of recovery.

b. Net investment in finance lease

Leases, where the Bank transfers substantially all the risks and rewards incidental to the ownership of an asset to the lessee are classified as finance leases. A receivable is recognized at an amount equal to the present value of the minimum lease payments, including un-guaranteed residual value, if any. Finance lease receivables are included in advances to the customers.

c. Islamic financing and related assets

The Bank provides Islamic financing and related assets mainly through Murabaha, Ijarah, Istisna, Diminishing Musharakah, Business Musharakah, Salam and Musawamah. The purchases and sales arising under these arrangements are

Notes to the Consolidated Financial Statements

for the year ended December 31, 2023

not reflected in these financial statements as such but are restricted to the amount of facility actually utilised and the appropriate portion of profit thereon. The profit on such financings is recognised in accordance with the principles of Islamic Shariah. The Bank determines specific and general provisions against Islamic financing and related assets in accordance with the requirements of the Prudential Regulations issued by the SBP. The net provision made or reversed during the year is charged to Profit and Loss Account and accumulated provision is netted off against Islamic financing and related assets. Islamic financing and related assets are written off when there are no realistic prospects of recovery.

4.5 Fixed assets and depreciation

a. Property and equipment - owned

Land is measured at cost at the time of initial recognition and is subsequently carried at revalued amount less impairment, if any. Buildings are initially measured at cost and upon revaluation, are carried at revalued amount less accumulated depreciation and impairment, if any. All other operating fixed assets are stated at cost less accumulated depreciation and impairment, if any. Depreciation is charged to profit and loss account on straight line basis so as to charge the assets over their expected useful lives at the rates specified in note 10.2. Depreciation is charged on prorata basis, i.e., full month charge in the month of purchase and no charge in the month of disposal.

Land and buildings are revalued by independent professionally qualified valuers with sufficient regularity to ensure that the net carrying amount does not differ materially from the fair value. The valuations involve estimates / assumptions and various market factors and conditions. The Bank accounts for revaluation surplus / deficit in accordance with the requirements of IAS 16 "Property, Plant and Equipment".

Gains and losses on disposal of fixed assets are included in income currently, except that the related surplus on revaluation of land and buildings (net of deferred tax) is transferred directly to unappropriated profit.

b. Intangible assets

Intangible assets are carried at cost less any accumulated amortization and impairment losses, if any. The cost of intangible assets is amortized over their estimated useful lives, using the straight line method. Amortization is charged from the month the assets are available for use at the rate stated in note 11.2. The useful lives are reviewed and adjusted, if appropriate, at each reporting date.

c. Capital work-in-progress

Capital work-in-progress is stated at cost less impairment losses, if any.

4.6 Lease liability and right of use asset

Lease liabilities

At the commencement date of the lease, the Bank recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The Bank determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. After the commencement date, the Bank reassesses the lease term if there is a significant event or change in circumstances that is within its control that affects its ability to exercise or not to exercise the option to renew or to terminate. The Bank cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental lending rate to measure lease liabilities.

Right-of-use assets

The Bank recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. Right-of-use assets are depreciated on a straight-line basis over the lease term. The right-of-use assets are presented within note 10 fixed assets.

Bank as a lessee

The Bank enters into lease arrangements principally in respect of office space for its operations. The Bank assesses at contract inception whether a contract is, or contains, a lease.

The Bank applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Bank recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2023

4.7 Taxation

a. Current

Provision for current taxation is based on taxable income for the year determined in accordance with the prevailing laws for taxation. The charge for current tax is calculated using the prevailing tax rates or tax rates expected to apply to the profits for the year.

b. Prior

The taxation charge for prior years represents adjustments to the tax charge relating to prior years, arising from assessments or changes in laws and changes in estimates made during the current year.

c. Deferred

Deferred tax is recognized using the balance sheet liability method on all temporary differences, at the reporting date between the amounts attributed to assets and liabilities for financial reporting purpose and amounts used for taxation purposes. Deferred tax is calculated at the rates that are expected to apply to the periods when the difference will reverse, based on tax rates that have been enacted or substantially enacted at the reporting date.

Deferred tax assets are recognized only to the extent that it is probable that future taxable profits will be available against which the assets can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The Bank also recognizes a deferred tax asset or liability on deficit or surplus on revaluation of fixed assets, non-banking assets and investments which is adjusted against the related deficit or surplus in accordance with the requirements of IAS-12 'Income Taxes'.

4.8 Staff retirement and other benefits

4.8.1 Staff retirement schemes

a. For employees who opted for the 2002 scheme introduced by the management

An approved pension scheme (defined benefit scheme) under which the benefits on the basis of frozen basic salary, service length and age as on June 30, 2002 are payable to all employees whose date of joining the Bank is on or before July 01, 1992, i.e., who have completed ten years of continuous service as on June 30, 2002.

An approved gratuity scheme (defined benefit scheme) under which the benefits are payable as under:

- i. For members whose date of joining the Bank is on or before July 01, 1992, their services would be calculated starting from July 01, 2002 for gratuity benefit purposes.
- ii. For members whose date of joining the Bank is after July 01, 1992 their services would be taken at actual for the purpose of calculating the gratuity benefit. This rule will be applicable upon retirement or in service death only, in case of resignation gratuity will be payable from July 01, 2002, even if he or she had joined the Bank before July 01, 2002.

A contributory provident fund scheme in which the employee has the option to contribute 8.33%, 12% or 15% of their basic salary every month. The Group's contribution is fixed at 8.33% of the basic salary of the employee every month.

b. For employees who did not opt for 2002 scheme

An approved pension scheme (defined benefit scheme) under which the benefits on the basis of frozen basic salary as on June 30, 2002 are payable to all employees opting continuation of the previous scheme and whose date of joining the Bank is on or before July 01, 1992, i.e., who had completed ten years of continuous service as on June 30, 2002.

In the light of decision of Honorable Supreme Court of Pakistan in SMC No. 20/2016 dated 13th February 2018 read with Order dated 3rd April 2018 passed in CRP No.72/2018 and Order dated 7th August 2018 in Crl.O.No. 98 and 99 of 2018 and after consultation with Bank's legal counsel, the monthly pension of eligible pensioners has been fixed with indexation levels for eligible pensioners effective from February 13, 2018.

c. Post-retirement medical benefits

The Bank provides post-retirement medical benefits to eligible retired employees. Provision is made annually to meet the cost of such medical benefits on the basis of actuarial valuation carried out using the Projected Unit Credit Method.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2023

Annual contributions towards the defined benefit schemes are made on the basis of actuarial valuation carried out using the Projected Unit Credit Method. Actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are recognized in Other Comprehensive Income in the period of occurrence.

4.8.2 Other long term benefit

a. Employees' compensated absences

Employees' entitlement to annual leave is recognized when they accrue to employees, upto a maximum of 60 days. A provision is made for estimated liability for annual leaves as a result of services rendered by the employee against un-availed leaves, as per terms of service contract, up to the reporting date, based on actuarial valuation using Projected Unit Credit Method. Actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are recognized in Profit and Loss Account in the period of occurrence.

b. Compensation to certain class of employees

Bank has revised its retirement policy by reducing the retirement age to 58 years for class of employees effective January 01, 2018. Consequent to the revision, these employees shall be compensated with gross salary along with employer's contribution on provident fund and gratuity for the remaining period up to 60 years in addition to already defined post-employment benefits, payable at the time of retirement, if any.

4.9 Non-banking assets acquired in satisfaction of claims

Non-banking assets (NBA) acquired in satisfaction of claims are carried at revalued amounts less accumulated depreciation (excluding land). Revaluation by independent professionally qualified valuers, is carried out with sufficient regularity to ensure that their net carrying value does not differ materially from their fair value. Surplus arising on revaluation of NBA is credited to the 'surplus on revaluation of assets' account through statement of comprehensive income and any deficit arising on revaluation is taken to Profit and Loss Account directly. Legal fees, transfer costs and direct costs of acquiring title to property are charged to Profit and Loss Account and not capitalised.

4.10 Deposits

Deposits are initially recorded at the amount of proceeds received. Mark-up accrued on deposits is recognized separately as part of other liabilities and is accrued to the Profit and Loss Account on time proportion basis. Deposits mobilized under Islamic Banking operations are generated under two modes i.e. 'Qard' and 'Mudaraba'. Deposits taken on Qard basis are classified as 'Current accounts' and Deposits generated on Mudaraba basis are classified as 'Saving deposits or Fixed deposits'.

4.11 Impairment

a. Available-for-sale equity securities

The Bank determines that 'available-for-sale' equity investments are impaired when there has been a significant or prolonged decline in the fair value of these investments below their cost. The determination of what is significant or prolonged requires judgment. In making this judgment, the Bank evaluates, among other factors, the normal volatility in share price in the case of listed equity securities. In addition, impairment may be appropriate when there is evidence of deterioration in the financial condition of the investee, industry and sector performance and changes in technology.

4.12 Provisions

Provisions are recognized when the Bank has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made.

Provision against identified losses on non-funded exposure is recognized when intimated and reasonable certainty exists for the Bank to settle the obligation. The loss is charged to the Profit and Loss Account net of expected recovery and is classified under other liabilities.

Provisions are reviewed at the reporting date and are adjusted to reflect the current best estimate.

4.13 Acceptances

Acceptances comprise of undertakings by the Bank to pay bills of exchange drawn on customers. Acceptances are recognised as financial liability in the statement of financial position with a contractual right of reimbursement from the customer as a financial asset. Therefore, commitments in respect of acceptances have been accounted for as financial assets and financial liabilities.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2023

4.14 Financial instruments

4.14.1 Financial assets and liabilities

Financial assets and financial liabilities are recognised at the time when the Bank becomes a party to the contractual provision of the instrument. Financial assets are de-recognised when the contractual right to future cash flows from the asset expires or is transferred along with the risk and reward of the asset. Financial liabilities are de-recognised when obligation specific in the contract is extinguished. Any gain or loss on de-recognition of the financial asset and liability is recognised in the Profit and Loss Account of the current period. The particular recognition and subsequent measurement methods adopted for significant financial assets and financial liabilities are disclosed in the individual policy statements associated with them.

4.14.2 Derivative financial instruments

Derivative financial instruments are initially recognized at fair value on the date on which the derivative contract is entered into and are subsequently re-measured at fair value using appropriate valuation techniques. All derivative financial instruments are carried as assets when fair value is positive and liabilities when fair value is negative. Any change in the fair value of derivative financial instruments is taken to the Profit and Loss Account.

4.15 Revenue recognition

Revenue is recognized to the extent that the economic benefits will flow to the Bank and the revenue can be reliably measured. These are recognised as follows:

a. Advances and investments

Mark-up, return on regular loans and advances and investments is recognized on a time proportion basis. Where debt securities are purchased at premium or discount, the same is amortized through the Profit and Loss Account using the effective interest rate method.

Interest or mark-up recoverable on classified loans, advances and investments is recognized on receipt basis. Interest, return or mark-up on classified, rescheduled or restructured loans and advances and investments is recognized as permitted by the regulations of the State Bank of Pakistan.

Dividend income is recognized when the right to receive the dividend is established.

Gains and losses on sale of investments are recognized in the Profit and Loss Account.

b. Lease financing

Financing method is used in accounting for income from lease financing. Under this method, the unearned lease income (excess of the sum of total lease rentals and estimated residual value over the cost of leased assets) is deferred and taken to income over the term of the lease period so as to produce a constant periodic rate of return on the outstanding net investment in lease. Unrealised income on classified leases is recognized on receipt basis.

Gains or losses on termination of lease contracts and other lease income are recognized when realized.

c. Islamic financing and related assets

Profit on Business Musharakah financing is booked on accrual basis and is adjusted upon declaration of profit by Musharakah partners.

Ijarah and Diminishing Musharakah income is recognised on an accrual basis as and when the rental becomes due.

Murabaha, Musawamah and Salam income is recognised on deferred income basis.

Profit on Istisna financing is recognized on an accrual basis commencing from time of sale of goods till the realization of sale proceeds by the Bank.

d. Fees, brokerage and commission

Fee, Commission and Brokerage income is recognized on an accrual basis except where, in the opinion of management, it would not be prudent to do so.

18.2 Workers Welfare Fund

Supreme Court of Pakistan vide order dated November 10, 2016 held that the amendments made in the law through Finance Act 2008, introduced by the Federal Government for the levy of Worker Welfare Fund (WWF) were unlawful. Federal Board of Revenue filed review petition against the subject order, which is currently pending for adjudication.

WWF provision from 2014 has been maintained conservatively based on tax advisor's opinion in view of provincial levy of WWF by the provinces with effect from 2014, including levy by Sindh which is under litigation.

Punjab Government promulgated Punjab Workers Welfare Fund Act 2019 (PWWF) with effect from December 13, 2019, therefore, provision related to Punjab and pertaining to the period from 2014 till the date of promulgation of PWWF was reversed.

21.3.1.1 This represent certain claims by third parties against the Bank, which are being contested in Courts of law. The management is of the view that these relate to the normal course of the business and the possibility of an outflow of economic resource is remote.

21.3.2 The income tax assessments of the Bank have been finalized upto and including tax year 2022 for local, Azad Kashmir and Gilgit Baltistan operations. While finalizing income tax assessments upto tax year 2022, income tax authorities made certain add backs with aggregate tax impact of Rs. 34,841 million (2022: 32,741 million). As a result of appeals filed by the Bank before appellate authorities, most of the add backs have been deleted. However, the Bank and Tax Department are in appeals / references before higher forums against unfavorable decisions. Pending finalization of appeals / references no provision has been made by the Bank

Notes to the Consolidated Financial Statements

for the year ended December 31, 2023

on aggregate sum of Rs.34,841 million (2022: 32,741 million). The management is confident that the outcome of these appeals / references will be in favor of the Bank.

Tax Authorities have conducted proceedings of withholding tax audit under section 161/205 of Income Tax Ordinance, 2001 for tax year 2003 to 2006 and tax year 2008 to 2018 and created an arbitrary demand of Rs. 2,029 million (2022: 1,700 million). The Bank's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that these appeals will be decided in favor of the Bank; therefore, no provision has been made against the said demand of Rs. 2,029 million (2022: 1,700 million).

Tax authorities have also issued orders under Federal Excise Act, 2005 / Sales Tax Act, 1990 and Sindh Sales Tax on Services Act, 2011 for the year 2008 to 2017 thereby creating arbitrary aggregate demand of Rs. 1,144 million (2022: 1,144 million). The Bank's appeals before CIR(A) / Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that aforesaid demand will be deleted by appellate authorities and therefore no provision has been made against the said demand of Rs. 1,144 million (2022: 1,144 million).

21.3.3 While adjudicating foreign exchange repatriation cases of exporter namely: Fateh Textile Mills Limited, the Foreign Exchange Adjudicating Court (FEAC) of the State Bank of Pakistan (SBP) has arbitrarily adjudicated penalties against various banks including Rs.2,173 million in aggregate against Allied Bank Limited (the Bank). Against the said judgments, the Bank had filed appeals before the Appellate Board and Constitutional Petitions (CP) in the High Court of Sindh, Karachi. The Honorable High Court granted relief to the Bank by way of interim orders. Meanwhile, alongwith other banks, Bank filed a further CP whereby vires of section 23C of the FE Regulations Act, 1947 was sought to be declared ultra vires. On November 8, 2018, the Honorable Court was pleased to Order that the Appellate Board shall not finally decide the appeals. Subsequently, the earlier CP was disposed of vide order dated 15.01.2019 with a direction to the Appellate Board to first decide the stay application of the Bank and till then, the Foreign Exchange Regulation Department has been restrained from taking any coercive action against the Bank. Moreover, on 04.01.2023, the Appellate Board has ordered that ABL's appeals now stand adjourned sine die till the final disposal of ABL's constitutional petitions which are pending before the Sindh High Court. Based on merits of the appeals, the management is confident that these appeals shall be decided in favor of the Bank and therefore no provision has been made against the impugned penalty.

22 DERIVATIVE INSTRUMENTS

The Bank at present does not offer structured derivative products such as Interest Rate Swaps, Forward Rate Agreements or FX Options. However, the Bank buys and sells derivative instruments such as:

- Forward Exchange Contracts
- Foreign Exchange Swaps
- Equity Futures
- Forward Contracts for Government Securities

Forward Exchange Contracts

Forward Exchange Contract (FEC) is a product which is offered to the obligor who transact internationally. These obligor use this product to hedge themselves from unfavorable movements in a foreign currency, however, by agreeing to fix the exchange rate, they do not benefit from favorable movements in that currency.

An FEC is a contract between the Obligor and the Bank in which both agree to exchange an amount of one currency for another currency at an agreed forward exchange rate for settlement over more than two business days after the FEC is entered into (the day on which settlement occurs is called the value date). FEC is entered with those Obligors whose credit worthiness has already been assessed, and they have underlined trade transactions.

If the relevant exchange rate moves un-favorably, Obligor will benefit from that movement because the Bank must exchange currencies at the FEC rate. In order to mitigate this risk of adverse exchange rate movement, the Bank hedges its exposure by taking opposite forward position in inter-bank FX.

Foreign Exchange Swaps

A Foreign Exchange Swap (FX Swap) is used by the Bank if it has a need to exchange one currency for another currency on one day and then re-exchange those currencies at a later date. Exchange rates and forward margins are determined in the "inter-bank" market and fluctuate according to supply and demand.

An FX Swap prevents the Bank from gaining any benefit resulting from a favorable exchange rate movement in the relevant currency pair between the time Bank enters into the transaction deal and when settlement occurs. Cancellation of the swap may also result in exposure to market movements. The key advantage of an FX swap is that it provides the Bank with protection

Notes to the Consolidated Financial Statements

for the year ended December 31, 2023

against unfavorable currency movements between the time it enters into the transaction and settlement. The term and amounts for FX Swap can also be tailored to suit the Bank's particular needs.

Equity Futures

An equity futures contract is a standardized contract, traded on a futures counter of the stock exchange, to buy or sell a certain underlying script at a certain date in the future, at a specified price.

The Bank may use equity futures as a hedging instrument to hedge its equity portfolio, in both 'held-for-trading' and 'available-for-sale', against equity price risk. Only selected shares are allowed to be traded on futures exchange. Equity futures give flexibility to the Bank either to take delivery on the future settlement date or to settle it by adjusting the notional value of the contract based on the current market rates. Maximum exposure limit to the equity futures is 10% of Tier I Capital of the Bank, based on prevailing SBP regulations.

The accounting policies used to recognize and disclose derivatives are given in Note 4.14.2. The risk management framework of derivative instruments is given in note 42.

35.13 Expected contributions to be paid to the funds in the next financial year

The Bank contributes to the gratuity fund as per actuarial expected charge for the next financial year. No contributions are being made to pension due to surplus of fair value of plan's assets over present value of defined obligation. Based on actuarial advice, management estimates that the charge or (reversal) in respect of defined benefit plans for the year ending December 31, 2024 would be as follows:

	Pension fund	Gratuity fund	Post retirement medical	Employees' compensated absences
Rupees in '000				
Expected (reversal) and charge for the next year	(869,610)	540,341	250,068	227,241

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied when calculating the defined benefit obligation recognized within the statement of financial position.

35.15 Maturity Profile

35.16 Funding Policy

The Bank endeavors to ensure that liabilities under the various employee benefit schemes are covered by the Fund on any valuation date having regards to the various actuarial assumptions such as projected future salary increase, expected future contributions to the fund, projected increase in liability associated with future service and the projected investment income of the Fund.

35.17 Risk associated with defined benefit plans

The defined benefit plans may expose the group to actuarial risks such as longevity risk, investment risk, salary increase risk and withdrawal rate risk as described below;

Longevity risks:

The risk arises when the actual lifetime of retirees is longer than expectation. This risk is measured at the plan level over the entire retiree population.

Investment risks:

The risk arises when the actual performance level of investment levels is lower than expectation and thus creating a shortfall in the funding objectives.

Salary increase risk:

The most common type of retirement benefit is one where the final benefit is linked with final salary. The risk arises when the actual increases are higher than expectations and impact the liability accordingly.

Withdrawal Rate:

The risk of actual withdrawals varying with the actuarial assumptions can impose a risk to the benefit obligation. The movement of the liability can go either way.

36 DEFINED CONTRIBUTION PLAN

The Bank operates an approved contributory provident fund for 9,471 (2022: 9,400) employees where contributions are made by the Bank at 8.33% per annum (2022: 8.33% per annum), whereas employees have the option to contribute at 8.33%, 12% or 15% per annum (2022: 8.33%, 12% or 15% per annum) of the basic salary every month.

38 FAIR VALUE OF FINANCIAL INSTRUMENTS

38.1 Fair value of financial assets

The fair value of traded investments is based on quoted market prices other than those classified as “held to maturity”. Quoted securities classified as held to maturity are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available audited financial statements.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments. The provision for impairment of loans and advances has been calculated in accordance with the Group’s accounting policy as stated in note 4.4 to these consolidated financial statements.

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities. Financial instruments included in level 1 comprise of investments in Listed Ordinary Shares.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). Financial instruments included in level 2 comprise of Sukuk Bonds, Units of Mutual Funds, Pakistan Investment Bonds, Market Treasury Bills, Term Finance Certificates and Forward Government & Exchange Contracts.

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs). Currently, no financial instruments are classified in level 3.

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

Valuation Techniques used in determination of Fair Valuation of Financial Instruments within Level 2

Item	Valuation approach and input used
Federal Government Securities	Marked to Market on the basis of PKRV & PKFRV rates.
Non-Government Debt Securities	Marked to Market on the basis of MUFAP rates.
Foreign Exchange Contracts	Marked to Market on the basis of SBP rates.
Open Ended Mutual Funds	Marked to Market on the basis of MUFAP rates.
Operating Fixed Assets (Land & Building) & NBA	The valuation is based on their assessment of market value of the properties.

The SBP through its BSD Circular No. 07 dated April 15, 2009 prescribed the minimum paid up capital (net of losses) for all locally incorporated banks of Rs. 10 billion. The paid up capital of the Bank stood at Rs. 11.451 billion as at 31 December, 2023 and is in compliance with the SBP requirements.

Further, SBP vide its BPRD Circular # 6 of 2013 dated August 15, 2013 required the Banks to maintain the minimum Capital Adequacy Ratio (CAR) of 12.5% inclusive of Capital Conservation Buffer (CCB) of 2.5% on standalone as well as on consolidated basis. To support the banking sector in extending financing or credit facilities to their customers during COVID-19, SBP vide BPRD Circular # 12 of 2020 relaxed the CAR requirement to 11.5% by reducing the Capital Conservation Buffer (CCB) from 2.5% to 1.5% till further instructions.

Bank's CAR as at December 31, 2023 stood at 26.23% of its total risk weighted assets and complied with all externally imposed capital requirements. Standardized Approach is used for calculating the Credit and Market risk, whereas, Basic Indicator Approach is used for Operational Risk in the Capital Adequacy calculation.

42 RISK MANAGEMENT

The principal risks associated with the Bank's business are Credit Risk, Market Risk, Liquidity Risk, Reputational Risk, Operational Risk, and Information Security & Governance Risk and Shariah Non-Compliance Risk. The Risk Management Framework (henceforth to be referred to as 'The Framework') provides principles for identifying, assessing, and monitoring risk within the Bank. The Framework specifies the key elements of the risk management process in order to maximize opportunities, minimize adversities and to achieve improved outputs based on informed decision making.

The Bank performs risk measurement, monitoring and control functions through use of various risk procedures and models. To give it a formal structure, all the policies and guidelines are approved by the Board and relevant management committees.

Categories of Risk

Credit Risk This risk is defined as the possibility of loss due to unexpected default or a deterioration of credit worthiness of a business partner.

Credit Risk includes Country Risk i.e., the risks that counterparty is unable to meet its foreign currency obligations as a result of adverse economic conditions or actions taken by governments in the relevant country.

Market Risk The risk that the value of on and off-balance sheet positions of the Bank will be adversely affected by movements in market rates or prices such as interest rates, foreign exchange rates, equity prices, credit spreads and / or commodity prices, resulting in a loss to earnings and capital.

Liquidity Risk The risk that the Bank is unable to meet its payment obligations when they fall due and to replace funds when they are withdrawn without incurring unacceptable cost or losses.

Operational Risk Operational Risk is the risk of loss resulting from inadequate or failed internal processes, people, systems or from external events. The definition includes legal risk but excludes strategic risk and reputational risk.

Reputational Risk The Reputational risk arises from the negative perception on the part of stakeholders that can adversely affect a bank's ability to maintain existing, or establish new, business relationships and continued access to sources of funding.

Information Security & Governance Risk Information Security and Governance Risk Management involves the identification of an organization's information assets and the development, documentation, and implementation of policies, standards, procedures and controls that ensure confidentiality, integrity and availability of the information.

Strategic Risk Risk of an adverse impact on strategic goals. Strategic risk mainly arises from strategic decisions, improper implementation of those decisions, or lack of responsiveness of Bank to industry, economic or technological changes.

Shariah Non-Compliance Risk Shariah Non Compliance Risk arises from the failure to comply with shariah rules and principles determined by the shariah board of the Bank and the Regulator.

Risk Responsibilities

- The Board of Directors shall oversee the risk management process. The Board of Directors is responsible for determining the manner in which risk authorities are set, as well as the approval of all risk policies and ensuring that these are properly implemented. Further, the Board of Directors shall also seek appointment of senior management personnel capable of managing the risk activities conducted by the Bank.
- The Board Risk Management Committee (BRMC) is responsible for ensuring that the overall risk strategy and risk acceptance criteria of the Bank is appropriately defined in the Strategic Plan and recommend the same to the Board of Directors.
- The Chief Executive Officer and Group Chiefs shall be responsible for the management of risk collectively through their membership of various committees i.e. Management Committee (MANCO), Asset & Liability Committee (ALCO), Compliance Committee (CC) and Risk Management Committee (RMC). Independent supervision of risk management activities is provided by the Audit Committee of the Board.
- The Risk Management Group is headed by a Group Chief responsible for set-up and implementation of the Risk Management Strategy of the Bank.

Notes to the Consolidated Financial Statements

for the year ended December 31, 2023

Risk Management Group Organization

Risk management functions have been segregated by business specialization, i.e., Credit Risk, Credit Administration, Technical Appraisal, Information Security and Enterprise Risk which interalia includes Policy and Procedures, Risk Architecture, Operational Risk and Market & Liquidity Risk. All these functions are operating in tandem to monitor the health of assets and liabilities, while ensuring risk mitigants against cyber and information system threats.

42.1 Credit Risk

Credit risk, the potential default of one or more debtors, is a major source of risk for the Bank. The Bank is exposed to credit risk through its lending and investment activities. The Bank's credit risk function is divided into Corporate and Financial Institutions Risk and Commercial, SME and Consumer Risk. The functions operate within an integrated framework of credit policies, guidelines and processes. The credit risk management activities are governed by the Credit Policy of the Bank that defines the respective roles and responsibilities, the credit risk management principles and the Bank's credit risk strategy. The policy is supported by a comprehensive Credit Procedures Manual.

The Bank manages three principal sources of credit risk:

- i) Sovereign credit risk on its public sector advances
- ii) Counterparty credit risk on its private sector advances
- iii) Counterparty credit risk on interbank limits

Sovereign Credit Risk

When the Bank lends to public sector borrowers, it prefers obtaining a full sovereign guarantee or the equivalent from the Government of Pakistan (GOP). However, certain public sector enterprises have a well defined cash flow stream and appropriate business model, based on which the lending is secured through collaterals other than GOP guarantee.

Counterparty credit risk on its private sector advances

Each borrower's credit worthiness is analyzed on the Credit Application Package that incorporates a formalized and structured approach for credit analysis and directs the focus of evaluation towards a balanced assessment of credit risk with identification of proper mitigants. These risks include Industry Risk, Business Risk, Financial Risk, Security Risk and Account Performance Risk.

Financial analysis is further strengthened through use of separate financial spread sheet templates that have been designed for manufacturing / trading concerns, financial institutions and insurance companies.

Counter Party Credit Risk on Interbank Limits

In the normal course of its business, the Bank's Treasury utilizes products such as Reverse REPO and call lending to meet the needs of interbank borrowers and manage its exposure to fluctuations in market, interest and currency rates. Further, these products are also used to temporarily invest Bank's liquidity prior to disbursement. All of these financial instruments involve, to varying degrees, the risk that the counterparty in the transaction may be unable to meet its obligation to the Bank.

Reflecting a preference for minimizing exposure to counterparty credit risk, the Bank maintains eligibility criteria that link the exposure limits to counterparty credit ratings by external rating agencies.

A. Country Risk

The Bank has in place a Country Risk Management Framework which has been approved by the Board. This framework focuses on providing detailed roles and responsibilities with respect to country risk assessment as well as limit setting, exposure management and reporting of cross border exposure undertaken by the Bank. The Bank utilizes S&P, Fitch and Moody's country ratings as well as other macroeconomic and external risk factors in assigning a country risk limit. The Financial Institutions Division is responsible for monitoring of country exposure limits.

Credit Administration

Credit Administration is involved in minimizing losses that could arise due to security and documentation deficiencies. The Credit Administration Function constantly monitors the security and documentation risks inherent in the existing credit portfolio through four regional credit administration departments located in major cities. Further, Credit Monitoring Division ensures implementation of all post disbursement activities as per bank guidelines to safeguard interests of the Bank through its three units i.e. Classification & Monitoring, Vigilance and Warehouse Management.

42.2 Market Risk

Market Risk is the risk of loss in earnings and capital due to adverse changes in interest rates, foreign exchange rates, equity prices and market conditions. Thus market risk can be further described into Interest Rate Risk, Foreign Exchange Risk and Equity Position Risk.

Market Risk performs risk measurement, monitoring and control functions through the use of various risk procedures and models. To give it a formal structure, all the policies and guidelines are approved by the Board of Directors and the relevant management committees.

The Bank uses three types of risk management tools to measure the Bank's Market Risk: Value-at Risk (VaR), Expected Shortfall (ES) and Stress Testing. In addition, control limits are utilized to maintain the risks within acceptable levels.

The Bank maintains adequate regulatory capital to cover all interest rate risks falling under the "Trading Book" as well as "Banking Book", as defined by Basel capital accord. The Bank uses Standardized Approach in determining credit risk, market risk and operational risk exposures in the capital adequacy calculation. In Market risk exposures, Maturity method is used to calculate charge on Interest rate risk and FX risk.

In its pursuit of automation, the Bank has successfully implemented Oracle Financial Services Analytical Application (OFSAA) Market Risk Module to automate the risk monitoring and reporting activities pertaining to Market Risk, which allows for more efficient risk monitoring and increased focus on risk analysis to help in making more informed decisions.

42.2.1 Market Risk Pertaining to the Trading Book

Trading Book

The Trading Book of the Bank consists of positions in financial instruments held either with trading intent or in order to hedge other elements of the trading book. To be eligible for trading book, financial instruments must be held with the intent of trading and free of any restrictive covenants on their tradability. In addition, positions need to be frequently and accurately valued and the portfolio should be actively monitored and managed accordingly.

The Bank's trading book includes securities classified as 'Held-For-Trading', 'Open Ended Mutual Fund' and non-strategic listed equity placed in 'Available-for-Sale' category. These positions are exposed to all forms of market risk and are managed actively.

Risk Pertaining to Banking Book Investment Portfolio

All investments excluding trading book are considered as part of banking book. Banking book includes:

- i) Available-for-Sale Securities - (other than non-strategic listed equity)
- ii) Held-to-maturity securities

Treasury investments parked in the banking book include:

- i) Government securities
- ii) Capital market investments
- iii) Investments in bonds, debentures, etc.

Due to the diversified nature of investments in banking book, it is subject to interest rate risk, equity price risk and FX risk.

Stress Testing

The Bank also conducts Stress Testing of the Bank's investment portfolio to ascertain the impact of various scenarios on the capital adequacy and sustainability of the Bank. The exercise assumes various stress conditions, with respect to Interest Rate Risk, Equity Price Risk, FX Risk and Liquidity Risk. Stress testing is also conducted on various macro-economic scenarios to test the resilience of the Bank.

42.2.3 Foreign Exchange Risk

Foreign exchange risk is the current or prospective risk to earnings and capital arising from adverse movements in currency exchange rates.

The majority of the Group's net foreign currency exposure is in US\$ and the Group uses system-based monitoring of its intra-day Net Open Position for effective risk management.

The Group's FX Risk is largely mitigated by following a matched funding policy, whereas, for any mismatched exposures, the Group utilizes appropriate derivative instruments such as Forwards and Swaps. The Group maintains adequate regulatory capital to cover against foreign exchange risk.

42.2.4 Equity position Risk

Equity Price Risk is risk to earnings or capital that results from adverse changes in stock prices (single stocks, or a basket of stocks, or overall stock market). ABL holds a diversified portfolio of equity investments in order to minimize non-systematic risk while retaining acceptable systematic risk. ALCO ensures that equity price risk is mitigated through prudent portfolio management.

The Bank maintains adequate regulatory capital to cover against equity price risk. Equity investments classified as "Held-for-Trading" as well as listed non-strategic equity investments classified as "Available-for-Sale" are part of the "Trading Book" and are subject to market risk change as specified by the Basel Framework. Un-listed and listed strategic equity investment are part of the "Banking Book" and are subject to credit risk charge as specified by the Basel Framework.

42.2.5 Yield and Interest Rate Risk in the Banking Book (IRRBB)–Basel II Specific

Interest rate and Rate of return risk is the current or prospective risk of losses, to both the Bank's capital and earnings, arising from movements in interest rates and rates of return. The Bank has a robust system in place to monitor Interest rate risk and ALCO regularly analyses the interest rate scenario and devises strategies to minimize adverse impact of interest rate risk on the Bank's equity and profits.

Interest rate risk is measured through "duration" of an instrument. To assess the interest rate risk at Balance Sheet and Income Statement level, gap analysis on "re-pricing schedule" is utilized. Re-pricing schedule is a distribution of interest-sensitive assets, liabilities, and Off-Balance Sheet positions into a number of predefined time bands according to their maturity (if fixed-rate) or time remaining to their next re-pricing (if floating-rate), and is calculated in compliance with SBP instructions. For non-contractual assets and liabilities, an ALCO approved methodology is utilized to place these assets and liabilities in the re-pricing schedule. This methodology is based on the results of a behavioural analysis which statistically models the historical trends of the last 5 years.

Government securities (PIBs & T-Bills, Sukuks), Bonds, Debentures, etc. and other money market investments are subject to interest rate / rate of return risk. To capture the risk associated with these securities, extensive modeling is being done with respect to duration analysis. Stress testing and scenario-based models are also in place to capture the sensitivity of the portfolio to adverse movement in interest rates. For prudent risk management, all money market investments are marked to market to assess changes in the market value of investments due to interest rate movements. Yield/ Interest rate sensitivity position for on-balance sheet instruments is based on the earlier of contractual re-pricing or maturity date and for off-balance sheet instruments is based on settlement date.

In accordance with BSD Circular No.03 of 2011, issued by the SBP, Bank is required to report interest rate sensitivity gap of assets and liabilities on the basis of an objective and systematic behavioural study which is approved by ALCO.

42.3 Operational Risk

The Bank, like all financial institutions, is exposed to different types of operational risks, including the potential losses arising from internal activities or external events caused by breakdowns in information, communication, physical safeguards, business continuity, supervision, transaction processing, settlement systems and the execution of legal, fiduciary and agency responsibilities.

In accordance with the BoD approved Operational Risk Management Policy (ORM), Group maintains a system of internal controls designed to keep operational risk at appropriate levels, in view of the Group's financial strength and the characteristics of the activities and market in which it operates. These internal controls are periodically updated to conform to industry best practices.

The Bank has implemented workflow based system "Risk Nucleus" for Operational Risk Loss Data Collection & Reporting, Risk Control & Self Assessment (RCSA) and Key Risk Indicators (KRIs) monitoring. Further, major Operational Risk events are also analyzed from the control breaches perspective and mitigating controls are assessed on design and operating effectiveness. Quarterly updates on Operational Risk events are presented to senior management and Board's Risk Management Committee & BoD.

The Bank has a BoD approved BCP policy and Business Continuity Plan applicable to all its functional areas. The Bank updates functional BCPs on annual basis or at any process change.

The Bank is also implementing internationally accepted Integrated Framework on Internal Control issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), with a view to consolidate and enhance the existing internal control processes.

The Bank with permission of SBP is conducting a parallel run for Alternate Standardized Approach (ASA) for Basel II – Operational Risk Capital Charge Reporting, which signifies readiness of the Bank to move to advance approach.

Outbreak of COVID 19 and continuous resurgence of the pandemic waves due to mutation of the virus has been a cause of concern for the banking industry and required continuous monitoring and transformation in the existing way of doing business. The operating procedures of the Bank were transformed and business continuity plan were updated in line with the guidelines issued by the Government, Health Care and Regulatory Authorities, in a timely manner to minimize the impact of disruption on business activities and on service delivery to the customers without compromise to the safety of all the stakeholders including customers and employees in particular.

42.4 Liquidity Risk

Liquidity Risk is the risk that the Bank is unable to fund its current obligations and operations in the most cost efficient manner. The Bank's Board of Directors has delegated the responsibility to Asset and Liability Committee (ALCO) for ensuring that Bank's policy for liquidity management is adhered to on a continual basis. ALCO uses gap analysis based on "maturity schedule" to assess the Bank's liquidity risk and devise strategy accordingly. The Bank has various limits and triggers in place to monitor liquidity risk on a periodic basis, while it also utilizes stress testing to assess adequacy of Bank's liquid assets. The Bank complies with State Bank of Pakistan's instructions on Liquidity Standards as prescribed under the Basel III Framework.

Liquidity Management Framework

Daily liquidity management is carried out centrally by the Asset and Liability Management (ALM) Desk in Treasury Group which manages the day to day liquidity needs of the Bank. Funding and liquidity management strategies are regularly discussed during Asset and Liability Committee (ALCO) meetings. The discussions include analysis on composition of deposits and tenure, funding gaps and concentration, monitoring of short and long-term liquidity ratios (including Liquidity Coverage Ratio and Net Stable Funding Ratio). The Bank utilizes internal Management Action Triggers and Limits which act as early warning indicators and safeguards to ensure sufficient liquidity buffers at all times. Additionally, stress tests are performed to evaluate available liquidity under a range of adverse scenarios and to identify potential vulnerabilities in portfolios. The Bank also has in place contingency funding plan that identifies specific management actions that can be invoked in times of liquidity crisis.

Liquidity Risk Management

The Bank has in place a robust Recovery Plan in place to deal with any liquidity crisis in the most efficient and effective manner. SBP initiatives such as deferral of principal and rescheduling and restructuring of loans may have an adverse effect on liquidity and maturity profile of the Bank, however the Bank holds sufficient liquidity buffer to absorb any unforeseen shocks during the prevailing situation. Moreover, the Asset and Liability Committee (ALCO) of the Bank continues to regularly monitor the liquidity position of the Bank in view of emerging risks.

Liquidity Risk Mitigation Techniques

The Group uses the following tools to identify and mitigate Liquidity Risk:

- Gap Analysis
- Liquidity Ratios
- Liquidity Stress Testing
- Contingency Funding Plan
- Risk Control Limits (RCLs)

Notes to the Consolidated Financial Statements

for the year ended December 31, 2023

42.5 Derivative Risk

Market & Liquidity Risk Division under Risk Management Group is responsible for assessing and monitoring the derivative risk emanating from Bank's exposures.

The Bank buys and sells derivative instruments, for hedging and market making purposes, such as:

- Forward Exchange Contracts
- Foreign Exchange Swaps
- Equity Futures
- Forward Contracts for Government Securities

The Bank's Risk Management Group, Asset and Liability Committee (ALCO) and Board Risk Management Committee monitor the derivative risk and utilize Off-Balance Sheet gap analysis to implement prudent asset liability management of the Bank's derivative exposures.

43 NON ADJUSTING EVENT AFTER THE REPORTING DATE

- 43.1 The Board of Directors of the Bank in its meeting held on February 13, 2024 has proposed a final cash dividend in respect of 2023 of Rs. 4.00 per share (2022: cash dividend Rs. 2.50 per share). This appropriation will be approved in the forthcoming Annual General Meeting. The consolidated financial statements of the Bank for the year ended December 31, 2023 do not include the effect of these appropriations which will be accounted for subsequent to the year end.

NOTICE OF 78th ANNUAL GENERAL MEETING

Deposit/Conversion of Physical Shares into Book-Entry Form:

The Securities and Exchange Commission of Pakistan ("SECP") through its letter No. CSD/ED/Misc./2016-639-640 dated March 26, 2021 has advised listed companies to adhere with the provisions of the Section 72 of the Act requiring all companies to replace shares issued by them in Physical Form with shares into Book-Entry Form from the date notified by the SECP but not exceeding four years from the date of the promulgation of the Act. Therefore, the Shareholders having physical shareholding are requested to open Investor Account directly with Central Depository Company of Pakistan Limited ("CDC") or CDC Sub-account with any of the brokers to place their physical shares into book-entry form. It would facilitate the shareholders in many ways including safe custody of shares, no loss of shares, and avoidance of formalities required for the issuance of duplicate shares and readily availability for sale / purchase in stock market at better rates. The Shareholders may contact the Share Registrar and Transfer Agent of the Bank, i.e., CDC Share Registrar Services Limited (address given above) for the conversion of Physical shares into Book-Entry Form.

Mandatory Requirement for Provision of Registration details, IBAN and CNIC (Withholding of Dividend):

In accordance with Section 119 of the Act and Regulation 19 of the Companies (General Provisions and Forms) Regulation 2018, all physical shareholders are advised to provide their mandatory information such as CNIC number, address, email address, contact details (Mobile/telephone numbers), International Bank Account Number (IBAN) etc., to our Share Registrar at the above given address immediately to avoid any inconvenience in future.

Further, in compliance with the requirements of the Act and Companies (Distribution of Dividends) Regulations, 2017, the Bank has withheld dividend(s) of those shareholders who have not yet provided their CNIC(s) along with correct and complete bank account details including valid IBAN of their own bank accounts.

In order to receive cash dividend(s) withheld by the Bank, shareholders are requested to contact the Bank's Share Registrar or Participant/ Investor Account Services of Central Depository Company of Pakistan (as the case may be) along with a legible copy of their respective valid CNIC(s) and provide their complete and correct bank account details including valid IBAN by filling the form available at the Bank's website link: <https://www.abl.com/investor-relations/shareholder-information/shareholder-useful-documents/>

Deduction of Withholding Tax:

Please note that withholding tax will be deducted on the basis of latest "Active Taxpayers List" (ATL) available at FBR website as per following rates:

Persons appearing in Active Taxpayers List (ATL):	15%
Persons not appearing in Active Taxpayers List (ATL):	30%

Further, in respect of joint shareholders tax will be deducted as per their respective ratio / share (if any) intimated by the shareholder to the Bank's Share Registrar, otherwise their shareholding will be treated as equal.

Requirement of Valid Tax Exemption Certificate for Claim of Exemption U/S 150 of the Income Tax Ordinance, 2001:

If the entity is available with valid exemption certificate issued u/s 159 of the Income Tax Ordinance, 2001 or has filed a petition against the FBR for acquiring exemption certificate, in any relevant court, a copy of valid exemption certificate or certified true copy of the Stay Order of Honorable Court along with latest court proceedings (if any) would be required latest by **March 20, 2024** in lieu of valid exemption certificate for non-deduction of withholding tax. In case of non-availability of valid tax exemption certificate or relevant court order, tax under the relevant sections shall be deducted accordingly.

Zakat Declaration (CZ-50):

Zakat will be deducted from the dividends at source under the Zakat & Usher Laws and will be deposited within the prescribed period with the relevant authority. Please submit your Zakat declarations under the Zakat and Usher Ordinance, 1980 & Rule 4 of the Zakat (Collection and Refund) Rules, 1981, in case you want to claim exemption, with your brokers or the Central Depository Company of Pakistan Limited (in case the shares are held in Book-Entry Form) or to Bank's Share Registrar and Transfer Agent (in case the shares are held in Physical Form) at above mentioned address.

Claiming of Unclaimed / Unpaid Dividends and Share Certificates:

In compliance of Section 244 of the Act, the Bank has already requested through individual letters to shareholders who have not yet claimed their outstanding cash dividends, right and bonus shares. (Detail available at <https://www.abl.com/investor-relations/shareholder-information/unclaimed-shares-dividends-and-tfcs/>)

Shareholders are once again requested to lodge their claims for cash dividends, right / bonus shares kept with the Share Registrar and Transfer Agent of the Bank, on the address given above.

Merger of Different Folios into one Folio:

As per Member's Register, some of the shareholders are maintaining more than one folio under the same particulars. Carrying two or more different folios may be hassle for the shareholders to reconcile and receiving different benefits in the shape of dividends / bonus etc. In order to provide better services and convenience such shareholders are requested to send requests to the Bank's Share Registrar to merge their folios into one folio.

Consent for Video Conference Facility:

In accordance with Section 132(2) of the Act, the members may avail video conference facility for AGM, provided that at least 7 days prior to the date of meeting, on a demand of members residing in a city who hold at least 10% of the total paid up capital, the bank would provide the facility of video-link to such members enabling them to participate in Annual General Meeting. To avail this facility, please provide following information and submit to the Share Registrar office (address mentioned above):
