SSGCL accuses 'front men' of creating LPG shortages

By Khaleeq Kiani

ISLAMABAD: The Sui Southern Gas Company Ltd (SSGCL) on Thursday accused 'front men' of Liquefied Petroleum Gas (LPG) market operators of making complaints before the government institutions to block state-owned entities' retail business for creating shortages and black marketing the product for personal gains.

"Most of the complainants are self-proclaimed stakeholders and they themselves do not have any stakes in the LPG market yet they have invariably been involved in making false allegations against SSGCL and its subsidiary SSGC LPG Ltd (SLL)," a statement issued by SSGCL said.

"Quite clearly these false allegations are being orchestrated by front-men of those individuals whose objective is to benefit from the situation to create shortages and create a black market of LPG for their personal gains," the statement added.

The company issued a statement after its senior executives were reported to have responded to queries from an investigation team of the Federal Investigation Agency (FIA) on allegations of illicit LPG imports in violation of procurement rules forwarded by the Special Investment Facilitation Council (SIFC).

In response to those queries, the SLL — a wholly-owned subsidiary of SSGCL — was operating an LPG Import Terminal at Port Qasim Authority (PQA). A fully integrated LPG marketing and distribution company under the Ministry of Energy, SLL has over the years emerged as the largest importer of LPG in Pakistan through a transparent bidding process as required by public procurement rules. All these imports are being made through opening letters of credit which are retired through normal banking channels.

On the directives of the Ministry of Energy, SLL increased its LPG imports to avoid shortages of LPG during peak demand seasons and not to provide any room to black marketers who take advantage of these shortages to artificially increase the prices of LPG and earn extra profits from the consumers.

The SLL said more than 250 LPG marketing companies were operating in Pakistan. SLL did not have any local allocation of indigenously produced LPG and was dependent on imports and yet its market share is about 8pc which could not be termed as monopolistic by any means "whereas the other similar companies are operating with larger market share".

The company explained that the price of indigenous LPG was always lower than imported LPG whereby the importer had to keep its selling price within the Ogra-announced price, equal for importers as well as those having quotas from local producers. Therefore, there is no room for extra profit taking for companies depending upon imports such as SLL.

SSGC LPG Ltd unveils conspiracy hatched by black marketeers

RECORDER REPORT

KARACHI: SSGC LPG Limited (SLL) has successfully unfolded conspiracy by LPG black marketeers, the Company said on Thursday.

SSGC LPG Limited (SLL) is Sui Southern Gas Company Limited's wholly-owned subsidiary Company that operates an LPG Import Terminal at Port Qasim Authority (PQA), Karachi.

SLL is a State-Owned Enterprise (SOE) and operates under the Ministry of Energy (Petroleum Division) (MoE-PD). A fully integrated LPG marketing and distribution company, SLL has over the years emerged as the largest importer of LPG in Pakistan. These imports are being made in a highly transparent manner through international bidding in complete adherence to PPRA Rules whereby tenders are being awarded to the most advantageous bidders. All these imports are being made through opening Letters of Credit which are retired through normal banking channels, the Company said.

SLL under the directives of the MOE-PD increased its LPG imports to ensure that there are no shortages of LPG during peak demand seasons. At the same time, SLL stands committed towards ensuring not to provide any room to black mar-

keters who take advantage of these shortages to artificially increase prices of LPG and earn extra profits from the consumers.

There are around more than 250 LPG marketing companies operating in Pakistan. SLL does not have any local allocation of indigenously produced LPG and is totally dependent on imports. SLL's market share is about 8.0 percent which cannot be termed as monopolistic by any means whereas the other similar companies are operating with larger market share. It is also to be noted that price of indigenously produced LPG is always lower than imported LPG whereby the importer has to keep its selling price within the OGRA announced price which is equal for importers as well as those having quotas from local producers. Therefore, there is no room for extra profit taking for companies depending upon imports such as SLL.

SLL's continued success, earned with the right blend of transparency and integrity, has been hard to digest for many circles. It has been noted with grave concern that some vested interests are out there to defame SSGC and SLL, accusing their employees of financial misconduct in LPG imports while also misquoting few Government investigating agencies, MoE-PD and oth-

ers. These vested interests are clearly passing on frivolous information for developing of news reports that are contradictory to say the least. The management of both the companies has time and again denied those assertions of 'financial misconduct'. There are routine enquiries / clarifications from Investigating Agencies based on certain complaints, which is normal for any Public Sector SOE.

It is pertinent to point out that most of the complainants are self-proclaimed stakeholders and they themselves do not have any stakes in the LPG market yet they have invariably been involved in making false allegations against SSGC and SLL. Quite clearly these false allegations are being orchestrated by frontmen of those individuals whose objective is to benefit from the situation to create shortages and create a black market of LPG for their personal gains.

Being a SOE, SLL has always cooperated in any inquiry conducted by the investigating agencies and provided full support with documentary evidences. The vested interests out there to slander SLL have even gone to the extent of categorically stating that some of their executives charged with misdemeanor have been suspended. Clearly, this is

yet another baseless assertion and was spread to create a negative vibe against SLL to hamper its supply chain and its relationship with the Stakeholders.

To reiterate, SLL will continue to improve on its supply chain management and delivery system to facilitate maximum number of customers. In compliance with the directives of the MoE-PD, SLL will keep on bringing LPG at reasonable prices and will remain committed to ensure that there will be no shortage of LPG during Ramazan and Eid.

Ever since its creation more than a decade ago, the SLL management and the team have operated with the highest level of integrity, transparency and dedication while remain committed to ensure supply of quality product at the most competitive price. SLL reserves the right to take legal action against those who have time and again tried to defame the Company and MoE-PD directly and have left no stone unturned in hindering the import of LPG, simply for their own personal gains. The Company also requests its Vendors / Customers not to pay any heed to frivolous assertions made by vested interests and trust SLL to deliver safe and quality LPG hassle-free to their doorsteps.

Allegations in LPG operations denounced

NEWS DESK. The Sui Southern Gas Company (SSGC) has said that the SSGC LPG is its wholly-owned subsidiary that operates an LPG import terminal at the Port Qasim, Karachi.

As a state-owned enterprise (SOE) SLL is a leading integrated LPG marketing and distribution company in Pakistan, importing LPG through transparent international bidding processes in adherence to PPRA rules.

Allegations of financial misconduct against SSGC and SLL employees have been consistently denied by the management.

Routine inquiries by investigating agencies are standard for public sector SOEs. The company reaffirms its commitment to supply chain improvement, ensuring adequate LPG supply, especially during Ramadan and on Eid days, in compliance with MoE-PD directives.

Any attempts to defame SLL or hinder LPG imports for personal gains will be met with legal action.

Sui Southern Gas Company Limited

SLL exposes plot by LPG black marketers

STAFF REPORTER

SSGC LPG Limited (SLL) has uncovered a nefarious plot orchestrated by LPG black marketers, aiming to exploit shortages and manip-

ulate prices for personal gain. SLL, a subsidiary of Sui Southern Gas Company Limited operating Pakistan's largest LPG import terminal, has been at the forefront of ensuring transparent and fair

LPG imports through international bidding processes. With a commitment to maintaining market stability and preventing price manipulation by black marketers, SLL has increased its LPG imports under the directives of the Ministry of Energy (Petroleum Division) (MoEPD) to meet peak demand seasons. Despite facing baseless allegations of financial misconduct, SLL has maintained its integrity and transparency in all operations. The company's market share, constituting about 8%, is far from monopolistic, with numerous other LPG marketing companies operating in Pakistan. Importantly, SLL operates within regulatory frameworks, ensuring prices remain in line with OGRA announcements.

However, vested interests have attempted to tarnish SLL's reputation by spreading false accusations and misinformation. Self-proclaimed stakeholders, with no genuine stake in the LPG market, have propagated allegations to create shortages and establish a black market for personal benefit.

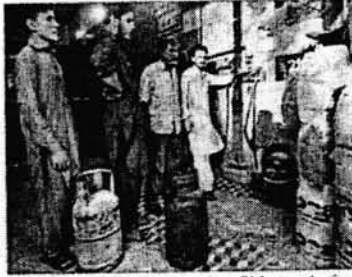

HEAD OF CORPORATE COMMUNICATIONS (HCC)

SSGC LPG Limited Foils Black Market Conspiracy

KARACHI SSGC LPG Limited (SLL), a subsidiary of Sui Southern Gas Company Limited, has thwarted a conspiracy by black marketers targeting the LPG market.

As the largest importer of LPG in Pakistan, SLL operates with transparency, adhering to PPRA Rules and international bidding standards. With increased imports directed by the Ministry of Energy (Petroleum Division), SLL aims to prevent shortages and curb price manipulation by black marketers.

Despite accusations of financial misconduct, investigations have shown no evidence of wrongdoing. Most complaints originate from self-proclaimed stakeholders seeking personal gain through misinformation and false allegations. SLL cooperates fully with investigating agencies and remains committed to transparent operations.

SLL pledges to maintain supply chain efficiency and fair pricing, ensuring ample LPG availability during Ramadan and Eid. With over a decade of integrity and dedication, SLL stands firm against attempts to tarnish its reputation and disrupt its service. The company urges stakeholders to disregard baseless allegations and trust in its commitment to provide quality LPG reliably. —RT

HEAD OF CORPORATE COMMUNICATIONS (HCC)

ایس ایس جی سی ایل پی جی لمیٹڈ (SLL) نے ایل پی جی بلیک مارکیٹرز کی سازش کو کامیابی کے ساتھ بے نقاب کیا

لے پر لڑا ہے کہ وہ بلیک مارکیٹرز کو کوئی موقع فراہم نہ کرے جو رسد میں کمی کا فائدہ اٹھا کر ایل پی جی کی قیمت میں مصنوعی اضافہ کر دیتے ہیں اور صارفین سے اضافی منافع کماتے ہیں۔ پاکستان میں تقریباً 250 ایس ایس جی ایل پی جی مارکیٹنگ کمپنیاں کام کر رہی ہیں۔ SLL کے پاس مقامی طور پر تیار کردہ ایل پی جی کی قیمتیں بلیک مارکیٹ پر درآمدات پر منحصر رہتی ہیں۔ SLL کا مارکیٹ شیئر تقریباً 8 فیصد ہے جسے کسی بھی طرح سے اجارہ داری نہیں کہا جاسکتا، جبکہ اسی طرح کی دوسری کمپنیاں زیادہ مارکیٹ شیئر کے ساتھ کام کر رہی ہیں۔ یہ بھی واضح رہے کہ مقامی ایل پی جی کی قیمت ہمیشہ درآمدی ایل پی جی سے کم ہوتی ہے، علاوہ ازیں درآمد کنندہ کو اپنی فروخت کی قیمت اور گرانٹ کی اعلان کردہ قیمت کے اندر رکھنی پڑتی ہے، جو کہ درآمد کنندگان کے ساتھ ساتھ مقامی پروڈیوسرز کا کوڈر کھٹے والوں کے لیے برابر ہی ہوتی ہے۔ لہذا SLL جیسی درآمدات پر منحصر کمپنی کے لیے اضافی منافع لینے کی کوئی گنجائش نہیں ہوتی ہے۔

کراچی (ایس ایس جی سی ایل پی جی لمیٹڈ) (SLL) سٹی سٹورن ٹیس ٹیبلٹی کے عمل مملکتی ڈیلی گیشن ہے جو پورے پاکستان میں ایک ایل پی جی ایسٹ ڈسٹری بیوٹن آپریشن کرتی ہے۔ یہ ایک ریپریزنٹیشنل ایس ایس جی (SOE) ہے اور وزارت توانائی (پیٹرولیم ڈویژن) کے تحت کام کرتی ہے۔ SLL ایک عمل خود پر سربراہ ایل پی جی مارکیٹنگ اور ڈسٹری بیوٹن کمپنی ہے، جو گزشتہ کئی برسوں سے پاکستان میں ایل پی جی کی سب سے بڑی درآمد کنندہ کے طور پر ابھری ہے۔ یہ درآمدات انتہائی شفاف طریقے سے PPRA قوانین کی مکمل پاسداری کرتے ہوئے، بین الاقوامی بلیوں کے ذریعے کی جاتی ہیں، جس کے تحت سب سے زیادہ کارآمد پبلی ڈینڈگان کو ٹینڈر دینے جاتے ہیں۔ یہ تمام درآمدات اوپننگ لیوز آف گرانٹ کے ذریعے کی جاتی ہیں جو عام بیکنگ مشین کے ذریعے انجام پذیر ہوتے ہیں۔ وزارت توانائی کی ہدایت کی روٹی میں SLL نے اپنی ایل پی جی کی درآمدات میں اضافہ کیا ہے تاکہ اس بات کو یقینی بنایا جاسکے کہ سراسر ایل پی جی کی کوئی کمی نہیں ہے۔ اس کے ساتھ ساتھ SLL اس بات کو یقینی بنانے کے
