14.1 In May 2017, the Company obtained a long term finance from Habib Bank Limited (HBL), a related party, against a Term Finance Agreement on mark-up basis, to finance the acquisition of immovable property for the purpose of construction of the Company's Head Office building thereon. The Term finance agreement is for a period of 8 years maturing on May 9, 2025, with a 2 years' grace period for repayment of principal, payable in 12 equal semi-annual instalments commencing after the expiry of grace period. The first instalment was paid on November 11, 2019. The Term Finance carries mark-up at the rate of 3 Months KIBOR + 0.9% and is payable quarterly from the effective date of the drawdown, i.e. May 11, 2017. The facility is secured by way of first equitable mortgage in favour of HBL, by deposit of title deeds in respect of the property in favour of the Bank, up to the amount of Rs. 2,000 million. The Company has also executed an interest rate swap with HBL, to hedge the Company's PKR floating rate liability on the notional amount of Rs. 1.500 million.

17 CONTINGENCIES AND COMMITMENTS

17.1 Contingencies

17.1.1 Income tax assessments

There has been no major change, during the period, in contingencies relating to income tax assessments as disclosed in annual financial statement for the year ended December 31, 2023.

No provision has been made in these condensed interim financial statements, as the Company is confident based on the advise of its tax consultants that the final outcome will be in its favour.

17.1.2 Contingent liability - provincial sales tax on life and health insurance

There has been no major change, during the period, relating to provincial sales tax on life and health insurance as disclosed in annual financial statement for the year ended December 31, 2023.

Further in Sindh the exemption to health insurance relating to group insurance policies has not been further extended beyond 1 July 2023. The Company along with other life Insurance companies has filed a writ petition in the Hon'ble Sindh High Court challenging the vires of the applicability of sales tax on health insurance.

In view of the opinion of the legal advisors, and pending the adjudication of the petitions filed, the Company has neither billed its customers, nor recognized the contingent liability for PST, SST, and KPKST, which, calculated on the basis of risk premium and excluding the investment amount allocated to unit linked policies as per the opinion of the legal advisors, aggregated to Rs. 4,519 million (December 31, 2023: Rs. 4,471 million). In Balochistan province, given that the Company has limited operations in that province, the amount of contingent sales tax liability for BSTS, calculated on the similar basis as PST, SST and KPKST, is immaterial. The management contends that should the administrative efforts fail, the amount will be charged to the policyholders.

The fair value of financial assets and liabilities not carried at fair value is not significantly different from their carrying values since assets and liabilities are short term in nature.

Fair value is an amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction. Consequently, differences may arise between the carrying values and the fair values estimates.

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived Level 3: Fair value measurements using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).
